Tejas Networks Ltd. Earnings Call Presentation

3rd August, 2017

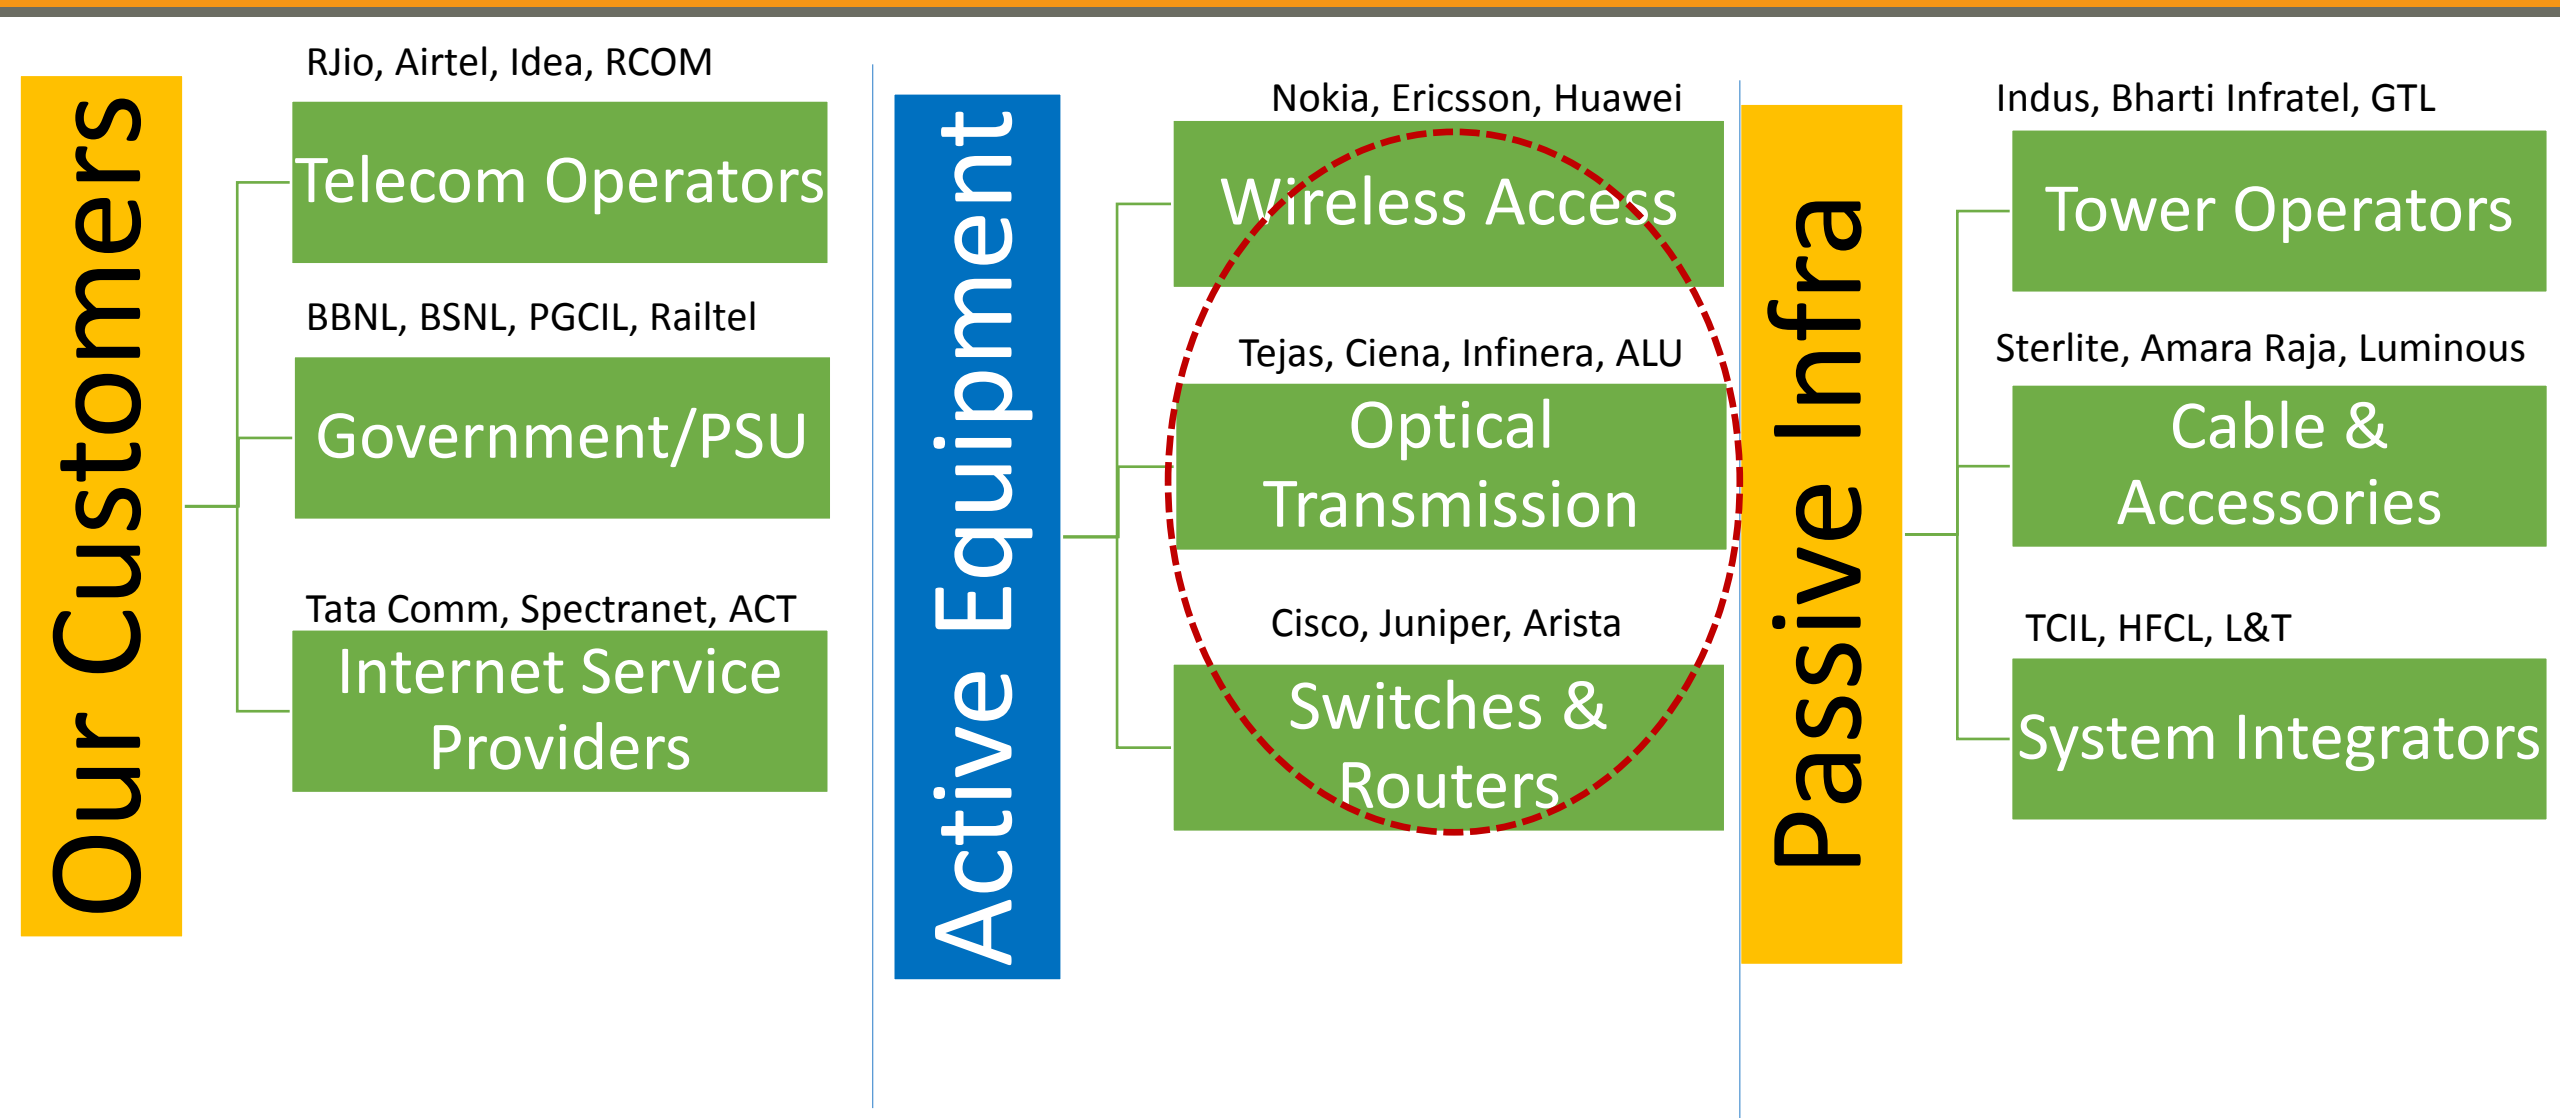

Safe Harbor Statement

Certain statements in this release concerning our future growth prospects are forward-looking statements, which involve a number of risks, and uncertainties that could cause actual results to differ materially from those in such forward-looking statements due to risks or uncertainties associated with our expectations with respect to, but not limited to, our ability to successfully implement our strategy and our growth and expansion plans, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on our business activities or investments, changes in the laws and regulations that apply to the industry in which the Company operates. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company.

Telecom Industry Eco-system: Where we fit

Massive Growth in Data Consumption...

2020 Total Network Traffic

Source: Ovum

India: Pent-up Demand for Data and Optical

Source: Deloitte Analysis

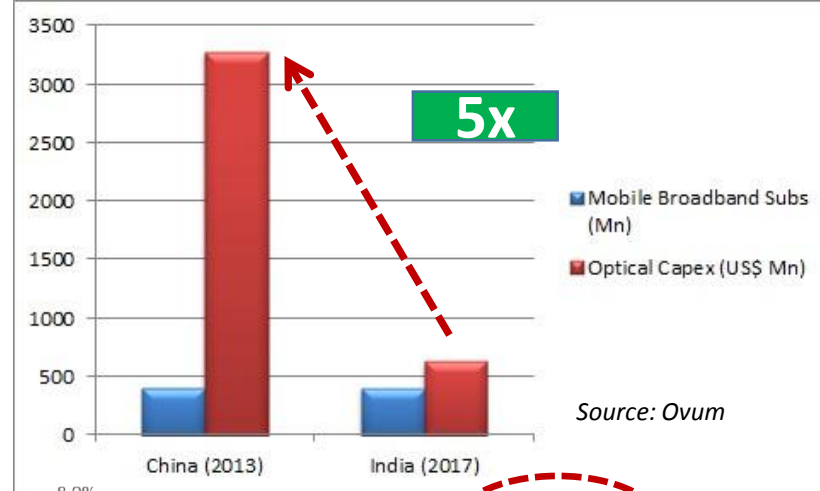

Source: TSM reports. Subscribers are defined as all unique SIMs within a carrier's database, less test/service cards, employees, stock in hand, SIMs where the subscriber's relevant period has expired, and service suspended pending disconnection. Note that as of 3/17, Jio's subscribers mentioned here were on free data plans. Subsequent to this free trial period, 72MM so far have converted to paying subscribers.

Under-invested in fiber; Lagging in data usage

"...Bulk of our investments, almost all of our investments is going behind 4G and fiber...our capex guidance for FY18 stands similar to FY17 at nearly \$3 billion," CEO, Bharti Airtel

"...in order to support the burgeoning demand for mobile broadband services Idea increased its fiber network by nearly 53,000 km from 95,100 km in Q1FY16 to 148,100 km in Q1FY18..," CEO, Idea Cellular

Fiberization essential for 4G/5G; Microwave is inadequate

Strong "catch-up" expected in optical equipment capex

Increased use of Data- driver for our Growth

- Tejas is focusing on high-growth Metro & Access segments
 - Intra-city networks is where there is need for large investments in both capacity and fiber-reach
 - Inter-city backbone- investments only for upgrade in capacity
 - Significant investments by government in rural areas for delivering broadband connectivity

Optical Capex Distribution

■ Metro&Access ■ LH/ULH ■ Undersea&Bandwidth Management

Source: Ovum

Our Focus: from Access to Metro Core

End-to-End Management from a single platform (across all products)
