Key investment highlights

Attractive dynamics of the Indian footwear industry

Strong growth potential of the Indian footwear industry

- India is the second largest footwear producer of the world after China, accounting for 9% of the world market with ~22bn pairs.
- Currently India exports only 10% of the footwear produced with the domestic market being the major contributor of around 90%.
- The industry has the potential to grow by 100% in the next 5 years.
- India is still an underpenetrated market a per capita consumption of only ~1.66 pairs p.a against a global average of 3 pairs. Developed countries average 6-7 pairs p.a.
- India's share in global exports is just 2% compared to China's share of ~40%, thus presenting room for growth opportunities.

With changing consumer demands....

- Footwear has evolved from being a mere necessity to an important fashion accessory.
- Buying behaviour of the Indian consumer is changing rapidly with growing urbanisation and ever-increasing penetration of internet.
- Growing awareness about latest trends and consciousness among consumers.
- Consumers becoming more brand-centric in tier II, tier III cities and rural markets as well.
- Aspirations for latest global trends has increased the frequency of shopping.

...backed by a strong operating environment

- Footwear industry recognized by GoI as a focus sector in the 'Make In India' mission.
- A 2,600 crore special package over the next 3 years for development of footwear sector.
- GST is propelling the shift from unorganized to organized segment. Organized segment today caters to ~40% of the market, remaining market is dominated by unorganized players.
- Uniform tax rates pan-India for all footwear ensuring a level playing field.
