Analyst presentation - Q5 & full year

Hitachi Energy India Ltd.

January-March 2022

© Hitachi Energy 2022. All rights reserved

 **Hitachi Energy**

Important notices

This presentation includes forward-looking information and statements including statements concerning the outlook for our businesses. These statements are based on current expectations, estimates and projections about the factors that may affect our future performance, including global economic conditions, and the economic conditions of the regions and industries that are major markets for Hitachi Energy India Limited (formerly known as ABB Power Products and Systems India Ltd) (“Hitachi Energy India”). These expectations, estimates and projections are generally identifiable by statements containing words such as “expects,” “believes,” “estimates,” “targets,” “plans,” “outlook” or similar expressions.

There are numerous risks and uncertainties, many of which are beyond our control, that could cause our actual results to differ materially from the forward-looking information and statements made in this presentation and which could affect our ability to achieve any or all of our stated targets. The important factors that could cause such differences include, among others:

COVID-19 crisis associated disruption risks

business risks associated with the volatile global economic environment and political conditions

costs associated with compliance activities

market acceptance of new products and services

changes in governmental regulations and currency exchange rates, and

such other factors as may be discussed from time to time in Hitachi Energy India’s filings with the Stock Exchanges and Securities and Exchange Board of India (SEBI), including its Annual Report.

Although Hitachi Energy India believes that its expectations reflected in any such forward-looking statement are based upon reasonable assumptions, it can give no assurance that those expectations will be achieved.

Strong performance in uncertain markets

			YoY	QoQ
Orders	INR 1,043.6 Cr		22.9%	 12.1%
Revenue	INR 1,142.1 Cr		11.6%	 0.4%
PBT (after exceptional items)	INR 70.7 Cr		31.7%	 (15.2%)
PAT	INR 51.7 Cr		31.2%	 (16.2%)

Revenue slippage due to various issues; semi conductor shortage contributed significantly
Freight & logistics increase add to higher input cost

Key order wins

- Order of nine AIS substation from Madhya Pradesh Power Transmission
- 400kV GIS substation order for steel major
- State utility order of –765kV transformers & 765kV/400kV reactors
- Trackside transformers order from unit of Indian Railways
- 66kV GIS substation order from datacenter

First principle: Employee health and safety

~99% eligible employees vaccinated with both doses. Booster vaccination dose camps started

Multiple trainings conducted on wide ranging topics – first aid, electrical safety, fair practices, etc.

Customer recognition of safety culture

Sustainability milestones: 2030 Carbon Neutral Targets

SMART Metering for offices and shopfloors

SF6 management plan

Environmental and Waste Management standards

Sustainability milestones: Building capabilities

NIT Warangal – Smart Electric Grid Lab Launched

First Dry Bushing Factory in India

Tracking all facets of sustainable growth

HITACHI

RoadPak: Our newest innovative solution for all e-mobility applications

HITACHI
Inspire the Next

The first module for e-mobility applications in our proven portfolio of power semiconductors that takes advantage of silicon carbide (SiC) technology.

The key benefit is a high-current rating in a small package that is enabled by use of SiC, combined with very small stray inductance and high reliability.

Launch of OceaniQ™ - Innovative solutions designed for offshore environment

HITACHI
Inspire the Next

Products - Specifically designed and ruggedized for the marine conditions

Solutions - deployed offshore in floating, subsea and fixed structures applications

Services - performed offshore remotely and on-site

Geopolitics and COVID-19 risks cast a shadow on India's recovery

Macro-economic snapshot

- COVID-19 daily cases bottoming out. Local flare up of cases seen in certain regions
- Analyst estimate India GDP in FY22 to be 7%-8%; Interest rate hiked by RBI for first time since 2018
- Retail inflation remains high at 6% and rising fueled by oil price increase
- Local and global supply chain disruptions – due to COVID-19 outbreak
- India's power demand touches all-time high of 201GW, government taking steps to ensure uninterrupted coal supply.
- Semiconductor shortage effects across industries – from auto to power; revenue impact especially in automation business

Industry growth (IIP²) – All sectors show recovery compared to last year.

Rupee depreciates ~3% against the USD in 1st 3 months of 2022

High Frequency Indicators *

E-way bills generated (Mn) – rose to a new high in Mar'22

Daily Average Power Consumption Volume ('000s Mus) – Power consumption increasing with extreme summer

Cement production (MMT) – remains above Feb'21 levels

Transmission orders drive growth
