### Transition to IND AS 115

### Transition to IND AS 115 – Impact on Revenue & Cost

#### While significant part of Income is deferred, significant expenses are charged upfront

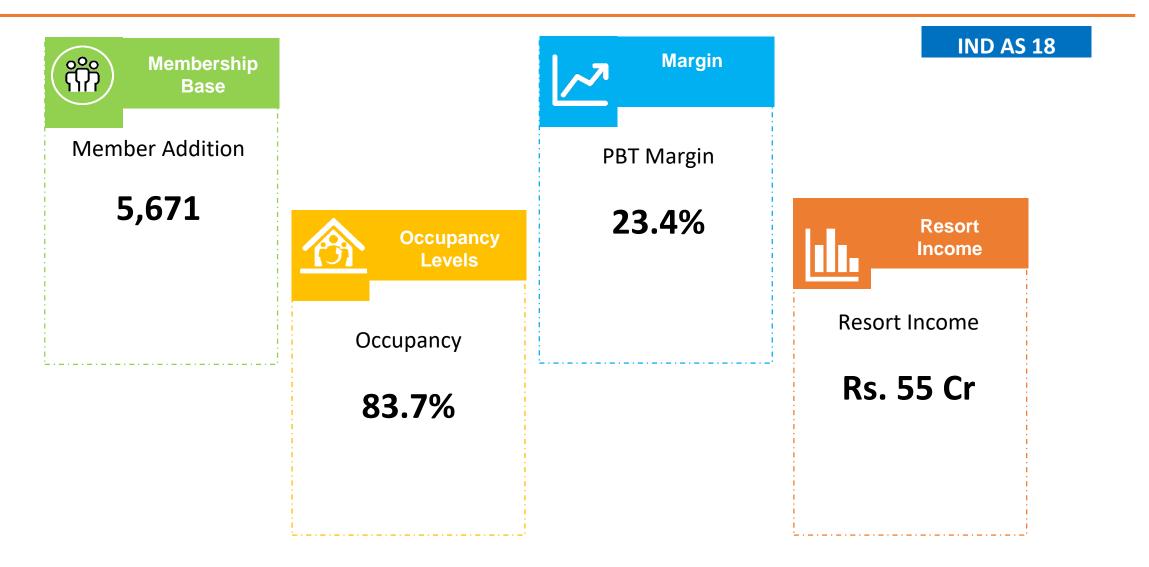

- Income recognized equally over the tenure of membership (4% per year for 25 year product) as against
   60% upfront in AS 18
- Only incremental costs to obtain the membership are amortized over the tenure of membership
- Unit economics remains the same over the tenure of the membership
- No impact on Cash Flows
- 95%+ of the revenues are predictable and recurring thereby significantly increasing the visibility of revenues in the Future
- Deferred Revenue will grow faster since 96% of sale value is deferred while the recognition in P&L is 4%
- Deferred Revenue will increase every year. Income will increase every subsequent year from the growing Deferred Revenue Pool and will lead to improvement of profitability in the future
