#### State Of The Art Infrastructure

46 Blow Molding Machines

18 Injection Molding Machines

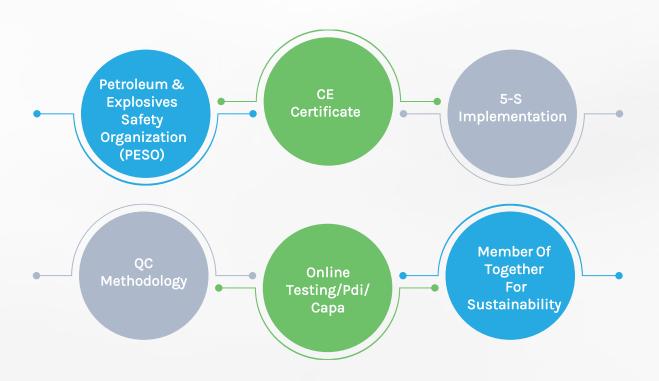

Installed Capacity of

24,000 + Metric

Tonnes per annum

#### Well Certified Plant

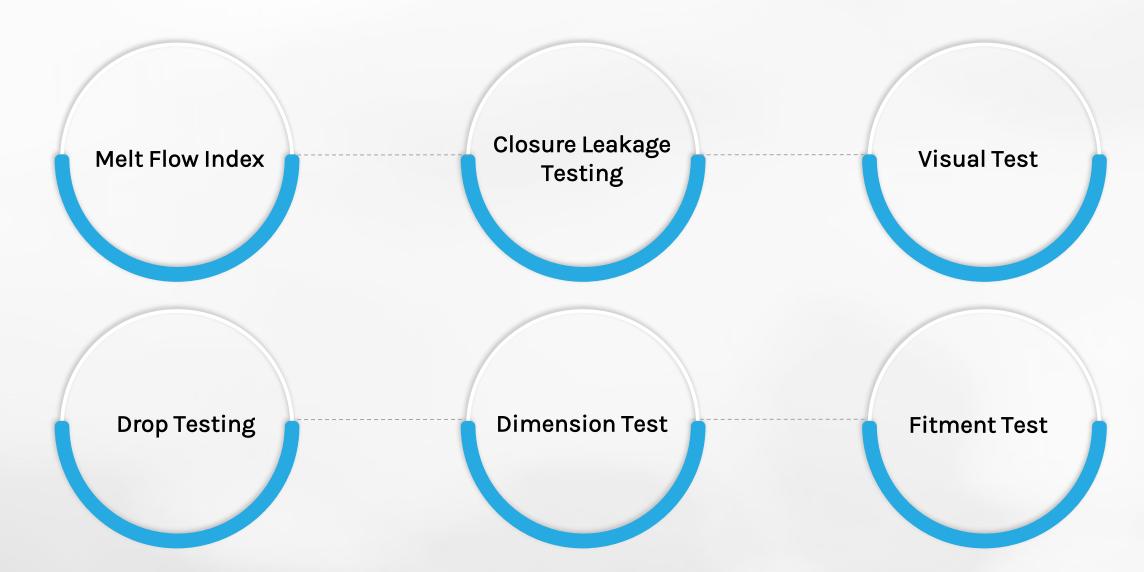

#### INTERGRATED MANAGEMENT SYSTEM

#### ALL PLANTS ARE WELL EQUIPPED WITH ALL TYPES OF TESTING EQUIPMENT'S

#### Environmental, Social And Governance

Embedding ESG and sustainability principles throughout the operation process, and the business systems at large, is central to Mitsu's endeavors, aimed at being admirable stewards of clients'. The Company is driven by the desire to act responsibly and bring a positive change in its surroundings.

A changing economic landscape, powered by technology, has brought significant transformations around the world. It emphasized that some form of intersection between society, companies, investors, and Governments is crucial to perpetuating economic stability and success

**ENERGY CONSERVATION:** 

\$

We are committed to make a material impact on the environment and the society by reducing the business' carbon footprints. In this direction, Mitsu undertook preventive steps to identify and address areas, supporting the Company's vision. Following are some of the initiatives that the Company undertook to fulfil its organizational goals and ESG commitments.

#### **ENERGY CONSERVATION INITIATIVE @ Mitsu**

- Installation of energy efficient equipment and technological equipment to save energy
- Addition of controller in machine, to switch-off automatically during idle load, which saves power consumption
- ❖ Installed Harmonic Filter for reducing power factor & conversion
- Replaced all Metal Halide lights, Sodium Vapour Lights, PLC power lights with LED lights and motion sensor lights
- Used transparent Polycarbonate sheets for roofing at workplace for natural light penetration and increase in day lights for plants

#### **POST- CONSUMER RESIN**

The Company recognizes the need to transform and adapt to changes around it for a better and sustainable tomorrow. With increased focus to go green, companies are striving to choose sustainable means, offering environment-friendly products to their consumers as much as they can.

In this direction, Mitsu endeavors to reduce its overall contribution to waste generation.

The Company uses Post-Consumer Resin, a plastic that has already been recycled and is re-purposed for making it ready-to-use again.

The Company also has a reduce and reuse mechanism that helps in reusing the raw materials lost during the operations. For instance, during the Molding process, tons of pinch-off/inhouse rejection is generated which gets reused through grinding.

18

#### RAIN WATER HARVESTING:

Rain water harvesting is a step towards environmental conservation, wherein rain water is collected from surfaces of buildings, stored, and reused later for various needs. As the demand for processed water supply have increased massively with the rise in population, rainwater harvesting serves as a major source of acquiring fresh water.

Moreover, it requires lower costs and is environmentally sustainable. Even the cost for installation and maintenance of a rain water harvesting system is highly economical, given its various benefits.

We engage in promoting environmental conservation by undertaking such sustainable measures. The collected rainwater thereon, is used to meet

#### RAIN WATER HARVESTING:

Mitsu's secondary purposes/activities at the workplace. It can also be used for portable and non-portable purposes, for fulfilling commercial as well as industrial needs.

Besides, it contributes towards mitigating the prevailing water crises, alleviating non-point source pollutant loads and even helps in controlling the adverse effects of climate change impact. Thus, playing a crucial role in water management.

#### Advantages:

- Contributes in conserving/maintaining levels of underground water
- Cost of recharging subsurface aquifer is lower than surface reservoirs

## Management Supported By Well Experienced Professional Team

## Business Overview

## Emerging as a Promising Player in Plastic Molding Industry

**Blow Molded Products** 

Hospital Furniture Parts

Injection Molded Products

Other Products

#### MITSU CHEM PLAST LTD.

posses strong capabilities in Injection Molding, Blow Molding and Custom Molding through product innovation and value engineering, the company has set new benchmarks in offering quality products and highest customer satisfaction, which has made the 'Mitsu' Brand, a name to be reckoned with.

# One Of The Widest Range Of Best In Quality Packaging Products

Widest range of Industrial Containers in this industry, from 100 ML to 250 LTRS.

#### Pail Containers

#### Features:

- High-quality durable containers
- 100% recyclable
- Superior & unique design
- Excellent finish
- Stackable & nestable
- Leak-proof sealing
- Tight-fitting lid
- Corrosion-free, rust-free & no contamination
- Easy to handle

Our pail containers are available with plastic or metal handle. We provide color option as per customer requirement.

#### **Application Area:**

- Inks, Grease, Paints & Distempers
- Detergents & Chemicals
- Food & Food Products
- Edible oils & Lube Oils

#### Industries That We Cater To

Agrochemicals

Cosmetics

Flavor & Fragrances

**FMCG** 

Lub Oil

Food

Specialty Chemicals

Pesticides

Veterinary Chemicals

Chemicals

Edible Oil
