VOTES IN FAVOUR OF RESOLUTION

India backs Palestine's full UNGA membership bid

YOSHITA SINGH
United Nations, May 10

INDIA ON FRIDAY voted in favour of a draft UN General Assembly resolution that said Palestine is qualified and should be admitted as full member of the United Nations and recommended that the Security Council "reconsider" the matter "favourably".

The 193-member General Assembly met in the morning for an emergency special session where the Arab Group resolution 'Admission of new Members to the United Nations', in support of the State of Palestine's full membership in the UN, was presented by the United Arab Emirates, as Chair of the Arab Group in May.

The resolution got 143 votes in favour, including by India, nine against and 25 abstentions. The UNGA hall broke into an applause after the vote was cast. The resolution determined that "the State of Palestine is qualified for membership in the United Nations" in accordance with Article 4 of the Charter of the United Nations and "should therefore be admitted to membership in the United Nations".

It recommended that the Security Council "reconsider

the matter favourably, in the light of this determination".

India was the first non-Arab State to recognise the Palestine Liberation Organisation as the sole and legitimate representative of the Palestinian people in 1974. India was also one of the first countries to recognise the State of Palestine in 1988 and in 1996, Delhi opened its Representative Office to the Palestine Authority in Gaza, which was later shifted to Ramallah in 2003.

Earlier this month, India's

The resolution got 143 votes in favour, including by India, nine against and 25 abstentions

Permanent Representative to the UN Ambassador Ruchira Kamboj had said that while Palestine's application for membership at the UN was not approved by the Security Council because of the veto in the UNSC, "I would like to state here at the very outset that in keeping with India's long-standing position, we hope that this would be reconsidered in due course and that Palestine's endeavour to become a member of the UN will get endorsed".

An annex to the resolution

said that the additional rights and privileges of participation of the State of Palestine will be effective as of the 79th session of the General Assembly that begins in September this year.

These include the right to be seated among member states in alphabetical order; the right to make statements on behalf of a group, including among representatives of major groups; the right of members of the delegation of the State of Palestine to be elected as officers in the plenary and the Main Committees of the General Assembly and the right to full and effective participation in UN conferences and international conferences and meetings convened under the auspices of the General Assembly.

Palestine, in its capacity as an observer state, does not have the right to vote in the General Assembly or to put forward its candidature to UN organs.

In April, Palestine had sent a letter to UN Secretary-General Antonio Guterres requesting that its application for full UN membership be considered again. For a state to be granted full UN membership, its application must be approved both by the Security Council and the General Assembly.

Harassment charges framed against Brij Bhushan

A DELHI COURT on Friday ordered framing of charges against Bharatiya Janata Party (BJP) MP and former Wrestling Federation of India (WFI) Chief Brij Bhushan Sharan Singh in the case wherein allegations of sexual harassment were levelled against him by six women wrestlers.

The Court of Additional Chief Metropolitan Magistrate (ACMM) Priyanka Rajpoot stated that there was sufficient material to frame charges against Bhushan in the offences of outraging the modesty of a woman and sexual harassment (sections 354 and 354A of the IPC) against five of the victims. The Court further stated that for all allegations levelled against Bhushan by victim number 6, he has been discharged.

Chhattisgarh: 12 Naxalites killed; 2024 toll rises to 103

PRESS TRUST OF INDIA
Bijapur, May 10

AS MANY AS 12 Naxalites were gunned down in an encounter with security personnel in Chhattisgarh's Bijapur district on Friday, police said, taking the number of left-wing extremists killed so far this year in the state to 103. Two security personnel were also injured in an Improvised Explosive Device (IED) blast triggered by Maoists during the operation, they said.

This was the third major strike on Naxalites by security forces in the last one month and comes three weeks after 29 extremists were killed in an encounter in Kanker district. Chief Minister Vishnu Deo Sai congratulated security forces and senior officials for the successful offensive in Bijapur.

Two security personnel were injured in an IED blast triggered by Maoists during the operation

The latest gunfight took place in a forest near Pidia village under Gagaloor police station limits when a joint team of security personnel was out on an anti-Naxal operation, a police official said.

Personnel belonging to the District Reserve Guard (DRG) from Bijapur, Dantewada and Sukma districts, Bastar Fighters, Special Task Force (STF), Central Reserve Police Force (CRPF) and its elite unit CoBRA (Commando Battalion for Resolute Action) were involved in the operation, he said. The operation was launched based on inputs about

presence of commander of PLGA (People's Liberation Guerilla Army) company No. 2 of Maoists Vella, and Gagaloor area committee secretary Dinesh Modiyam along with 100 to 150 cadres in the forest, the official said.

The encounter broke out between the two sides at around 6 am in the forest near Pidia, located over 450 km away from Raipur, and then multiple exchange of fire took place in different places in the area, he said. After the guns fell silent, bodies of 12 Naxalites were recovered from the spot, he said, adding their identity was yet to be ascertained. Besides, a barrel grenade launcher, a huge cache of explosives, Maoist uniforms, bags and publicity materials and literature were seized from the site, he said.

IIP growth dips to 4.9% in March

MINING GROWTH AVERAGED 7.5% in FY24, up from 5.8% the previous year, while electricity's output growth ebbed to 7.1% from 8.9% in FY23.

"The consumption scenario remained mixed in FY24 with urban demand showing resilience while rural demand continued to lag," Sinha said.

In March, however, consumer goods have shown a revival, buttressing the feeling of consumption picking up towards the year-end, say economists. "Both durable and non-durables have done well," said Sabnavis. "This should be sustained as the rabi crop is expected to be good and along with the wedding season should fuel spending in April and May."

Sequentially, factory output rose 8.2% in March, at the

highest rate in a year, which is typically the case every year. However, the IIP growth recorded in the February-March period is lower than the average growth of 9.1% recorded in the same period in the past 12 years.

Petroleum products — accounting for 15% of the

manufacturing index — contracted in the two months of the last quarter of FY24. This largely indicates a decline in demand conditions on the domestic front, say economists.

Within the use-based category, output growth of consumer durables declined to 9.5% in March from 12.4% in

February, while that of consumer non-durables rose to 4.9% from (-)3.5%.

Infrastructure goods output growth, meanwhile, eased to 6.9% in March from 8.5% in February, and intermediate goods growth fell to 5.1% from 8.7%. Capital goods output growth, on the other hand, rose sharply to 6.1% in March from 1% in February.

The overall pattern of IIP growth continues to demonstrate unevenness and weakness in industrial recovery, says India Ratings and Research. High frequency indicators such as steel production, coal production, electricity output for April indicate a moderation in industrial activity.

Thus, the agency expects growth of IIP to come in at around 4% in April.

Homegrown GenAI Hanooman takes leap

ALONG WITH TRANSLATION capabilities, Hanooman's features can handle everything from a casual chat to offering professional advice as well as performing complex technical tasks like coding and tutoring.

The platform will offer multimodal and multilingual capabilities, including text, voice, image, and code to users. Hanooman aims to cater to four sectors: healthcare, governance, financial services, and education. It offers an open-source alternative to commercially accessible LLMs. Nonetheless, it will also provide a closed-source model tailored for enterprises that need on-premise solutions.

SML India has partnered with technology majors like Hewlett Packard, Yotta, the Telangana government, and

software industry body Nasscom to offer GenAI enterprise solutions through Hanooman.

Yotta will provide graphics processing unit (GPU) cloud infrastructure to SML India's operations. The partnership with Nasscom is aimed at initiatives such as supporting AI startups, fintech innovation, engaging with 3,000 colleges, and participating in research programmes.

The collaboration with the Telangana government is to facilitate translation between English and Telugu, enhancing accessibility and understanding of crucial documents such as court orders.

The 12 Indian languages in which the web version and app are available are Hindi, Marathi, Gujarati, Bengali, Kannada, Odia, Punjabi, Assamese, Tamil, Telugu, Malayalam, and Sindhi. Hanooman's global languages include English, Spanish, Italian, German, Japanese, Korean, and 80 other languages worldwide.

"We see Hanooman as a cornerstone of India's economic future, unlocking the vast potential of GenAI to drive innovation, productivity, and prosperity across various sectors," Vishnu Vardhan, co-founder and CEO, SML India, said.

High prices fail to dent gold purchases on Akshaya Tritiya

THE DEMAND SEEN on Friday indicates customers could be expecting a further increase in gold prices.

Last year, the standard gold price on Akshaya Tritiya was ₹59,550 per 10 grams, whereas on Friday, the Indian Bullion and Jewellers Association (IBJA) standard gold price closed around 20% higher at ₹71,216 per 10 gm. Initially, there were concerns that the high prices would deter customers, but there was significant buying demand.

Prithviraj Kothari of Ridhishidhi Bullion and national president of IBJA said, "In

terms of value, gold buying has been very good. Jewellers were skeptical about the demand today due to the 20% increase in gold prices compared to last Akshaya Tritiya.

From that perspective, the demand looks promising and more customers are expected later in the day." He also expressed optimism about meeting last year's demand in value terms by the end of the day. The fact that Friday was a working day and the hot weather seems to have been dampeners.

Some expect the demand to be higher than last year. Rajesh Rokade, a prominent jeweller from Nagpur and vice chairman of the All India Gem and Jewellery Council, said they have observed a significant number of customers in

large stores and the demand has been good. He said, "We won't be surprised if we see higher demand in terms of quantity compared to last year, including demand over the weekend."

Investment demand is also strong. Debajita Saha, lead analyst at LSEG, said conversations with leading players in the industry indicate that coins have been popular for both advance and spot bookings. According to some refineries that produce branded coins, the coins were sold out. Refineries sell coins to stores.

ITA seeks financial aid to support Darjeeling tea industry

PRESS TRUST OF INDIA
Kolkata, May 10

THE INDIAN TEA Association (ITA) on Friday reiterated its plea for financial assistance from the Centre to support the struggling Darjeeling tea industry.

According to the ITA, the situation in Darjeeling is critical due to decreasing yields and plummeting prices. Without a financial relief package, the survival of the Darjeeling tea industry is in jeopardy, the association said, adding that it has urged the government to consider and act upon a financial revival package endorsed by the Parliamentary Standing Committee on Commerce in March 2022.

"The association has urged the government to extend a financial revival package to the Darjeeling tea sector which has been already endorsed by the Parliamentary Standing Committee on commerce in March 2022. This awaits consideration and action", the ITA said.

The ITA, quoting Tea Board data, highlighted that adverse weather conditions have affected tea production in Assam and West Bengal, leading to a significant decrease in production. From January to March 2024, production was down by 13.69 million kg at 96.10 million kg across the country, according to Tea Board data.
