Please find enclosed Investor Presentation of the Company for the quarter ended as on 30th June, 2017.

Thanking You,
For Kwality Limited

Company Secretary & Compliance Officer

Pradeep K. Srivastava
(Compliance Officer & Company Secretary)

Amongst Largest and Fastest Growing Private Dairy Companies in India

Kwaliti Limited

Q1'FY18 Investor Presentation

Aug 2017

Industry Overview

Dairy Industry in India – At a Glance

Vital Statistics

18% Of World Milk Production

299 Mn World's largest bovine population

310 Grams/day - Per capita milk availability in 2014-15; higher than global average

27% Contribution towards Agricultural GDP of India

70 Mn Rural households engaged in dairying

16% Of food expenditure on milk and milk products by Urban Households

A Compelling Investment Opportunity

- ✓ World's largest milk producer and consumer – **18% and 21% global market share respectively**
- ✓ India amongst world's fastest growing milk market, estimated value **INR 6,671 Bn**; **growing @15% by value annually**
- ✓ **India - Second-Largest populated country with over 1.27 Bn people**
- ✓ Indian Dairying has a large and growing domestic market; **consumption growth is surpassing the production growth**
- ✓ **Milk is India's largest agricultural 'crop'** far ahead of Wheat, Rice, Maize, and pulses.
- ✓ Strong thrust from government towards Dairy as it offers relatively stable stream of income as against crop production; **Dairy farmers receive about 2/3rd of consumer rupee spent on milk**
- ✓ Milk is an **essential component of household budget** in India; rural and urban spending on milk and milk products is increasing consistently
- ✓ **Growth in population, increasing income, increasing number of nuclear families, favourable demographics, awareness** are driving demand for branded products; organized segment
- ✓ **New technologies for product and process** know-how available
- ✓ **Reasonable margins across product categories**; premium on **high-quality, long shelf-life, differentiated value-added products with sophisticated packaging**

Dairy Industry in India – Milk Flow From Producer to Consumer

Year 2015

Key Highlights

Top Milk Producer, low productivity: India is world's top milk producer but its per animal productivity is very low; **4.51 kg/day**

Most of the milk producers in India are small and marginal farmers and landless labour, thereby, **'commercial' dairy farming is non-existent**. Dairy is subsidiary to the farmer's primary crop growing activity, basically entailing conversion of agricultural wastes and use of surplus family labour

Per capita milk availability at **310 gms/day** is higher than the world average of **294 gms/day**

Milk is classic 'Superior Good' in India
Indians take naturally to milk. Besides its nutritional value for significant section of the population that is lacto-vegetarian, **milk is part of the country's socio-cultural and religious traditions**

Essential part of household expenditure; **Average income elasticity of demand for milk and milk products is 1.64 across all income groups, going up to 2.34 for very poor households**. This means that an increase in income would lead to **more than proportionate increase in demand for milk and milk products**

Bulk of the milk consumed is raw or 'unprocessed'

Dairy Industry in India – Key Growth Drivers

1

Favorable Demographics and Rising Middle Class

Rising middle class, increasing young population, surging household budgets, increasing nuclear families to drive consumption and product innovation

2

Changing lifestyles and Increasing health awareness

Changing lifestyles & preferences, increasing awareness on health and quality, availability of dairy products/convenience food through organized retail channels and food service segments, are driving demand for VAPs like **cheese, condensed milk, UHT, flavored butter/milk/yoghurt, protein-based beverages/health supplements**; VAPs expected to grow at a healthy rate of **23% annually till 2020E**

3

Increasing Urbanization

Economic growth to Rising disposable incomes and increasing brand awareness especially in **Tier-II and Tier-III cities** strong demand for branded products, thereby organized segment; **offer significant growth opportunities for retail**

4

Continued Government Support

Continued thrust by the Govt. towards Dairy through **various schemes such as the National Programme for Bovine Breeding and Dairy Development**, **National Dairy Plan (Phase-1)** and **“Dairy Entrepreneurship Development Scheme**

5

Growth of Modern Retail Channel to favor formalization

Growth of modern retail format will help improve the potential for an acceleration of growth in India’s formal markets as well as **reconfiguration of supply chains**. This will increase the growth of modern trade in India which will propel growth of **VAPs like cheese, UHT, yoghurts, paneer, ice-cream, and baby food categories**. This will ultimately help **formalize linkages for infrastructure in milk procurement, cold chain, and processing**

6

Technological Development

Emergence, development, and adoption of new cutting-edge technologies for new product development and innovation to cater to evolving consumer preferences

Growing Traction for Value-Added Products (VAPs)

Central Govt. Schemes For Livestock Upgradation

To Increase Count & Productivity of Milch Cattle

1. National Gokul Mission

- Aimed towards development and conservation of indigenous breeds, **14 Gokul grams are being established**
- These include **Maharashtra (3), Punjab (1), Chattisgarh (2), Andhra Pradesh (1), Gujarat (2), U.P. (2), M.P. (1), Karnataka (1), Haryana (1)**
- With improved breed and high quality **milch animals, the quantity and quality of milk** and its products is destined to grow significantly
- For the Mission, **INR 2,260 Mn was spent during 2014-17 and INR 1,900 Mn has been allocated for 2017-18**

2. National Kamdhenu Breeding Centre

- Two new National Kamdhenu Breeding Centres (one in North India **Itarsi, Hosangabad District in Madhya Pradesh** and one in South India- **Chintladevi, Nellore District in Andhra Pradesh**) are being established for which an amount of **INR 500 Mn has been released**
- The foundation stone for this breeding-centre was laid in **Oct'2016** in about 80 acres in Madhya Pradesh. Expected to be ready in the next two years, this centre will **have germplasm of exotic an cross bred-cattle**. Breeding centre is already functional in Andhra Pradesh and includes 8 breeds of buffaloes and cattle animals

3. National Mission on Bovine Productivity

Aimed to increase milk production and productivity and to make dairying profitable, GoI has initiated this mission with **allocation of INR 8,250 Mn for a period of 3 years**. This scheme has following components:

- Pashu Sanjeevani** – This is a program for Health of animals having components as a) Health Card (Nakul Swasthya Patra); Unique Identification Card; National Database
- Advanced Breeding Technology** – Including assisted reproductive technique, improving availability of disease free female bovine
- National Genomic Centre** – It would be established to enhance milk production and productivity of indigenous breeds through rapid genetic upgradation
- Creation of E-Pashudhan HAAT** – An e-market portal for bovine germplasm for connecting breeders and farmers of indigenous bovine breeds

4. Livestock Insurance Scheme

- National Livestock Mission is **working towards quantitative and qualitative improvement in capacity building of livestock production methods** and is an effective scheme of **GoI to protect livestock losses due to untimely death of animals**
- All the districts and animals have been covered under this scheme. The scope of coverage has been increased from 300 districts to **all districts and from only two milch animals to 5 dairy animals/other animals or 50 small animals**
- All indigenous and **hybrid milch animals, cattle, and other livestock can be insured**

Benefits of E-Pashudhan HAAT

- One stop portal for Bovine breeders, sellers, and buyers
- E-Commerce market portal for live-stock germplasm
- Connects farmers with breeders
- Authentic certified information on availability of germplasm, breed information of indigenous breeds and complete details of each live-stock along with photos and information on feed and fodder availability
- Provides connectivity with 56 semen centres of the country (20 states), 4 CHRS (4 states and 7 CCBFs), and connects 'farmers to farmers' & 'farmer to institute'
- It will be one-stop portal for Bovine breeders, vendors, and buyers with minimum participation of middlemen
- Sale of animals tagged with a Nakul Health Letter
- Preservation of diverse indigenous Bovine breeds in the country
- Increase in the income of the cattle farmers

Progress Report on E-Pashudhan HAAT

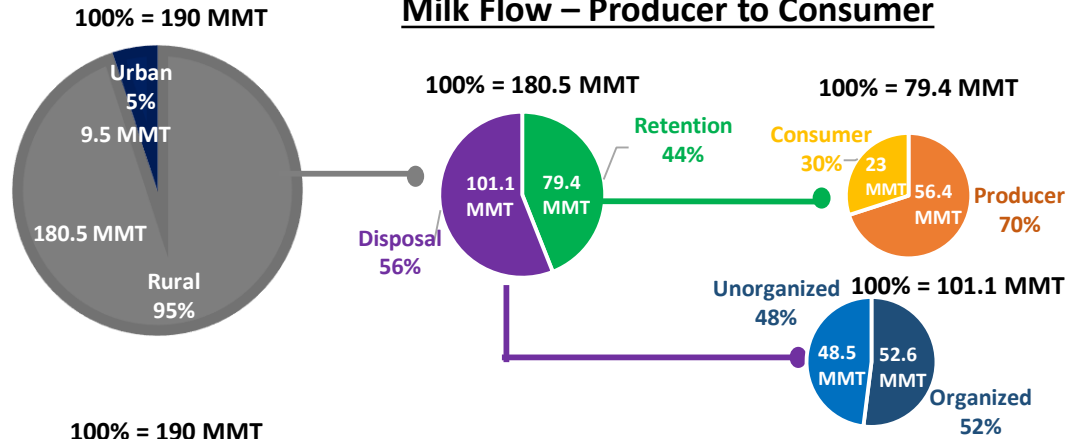

- Information on the production of **45.5 Mn** semen doses on the portal
- Sale of **32.3 Mn** semen out of the produced doses
- Information about **15253 high** genetic quality animals available on the portal for sale
- 373 high generic quality embryos** is available for sale
