Dear Sir/Madam,

Sub: Investors Presentation - Briefing on recent acquisition

Ref: Our earlier intimation under reference no. NSE & BSE / 2021-22 / 131 dated February 10, 2022 ('Intimation')

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, SEBI notification dated May 5, 2021, and our above referred intimation, we wish to inform you that, Persistent Systems Limited (the 'Company') interacted with investors on Friday, February 11, 2022.

During such call, the Management shared brief information on recent acquisition. Please find enclosed the presentation placed before the investors during this call for information and record.

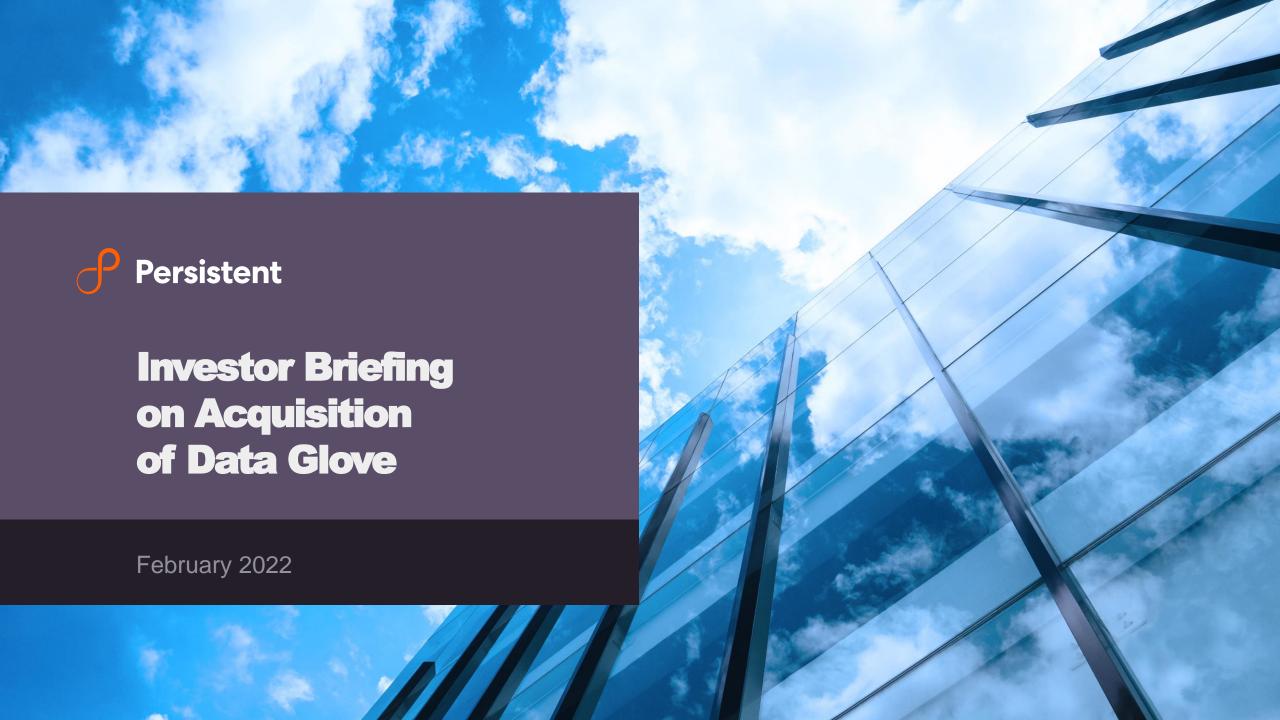

Please acknowledge the receipt.

Thanking you,

Yours Sincerely, For **Persistent Systems Limited**

Amit Atre Company Secretary ICSI Membership No.: A20507

Fncl: As above

Forward-looking and Cautionary Statements

Certain statements in this presentation concerning our future growth prospects are forward-looking statements, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements.

The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, our revenues highly dependent on customers located in the United States, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, concentration of major operations of the Company in one city, withdrawal of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, and unauthorized use of our intellectual property and general economic conditions affecting our industry.

The Company may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Stock Exchanges and our reports to shareholders.

The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company.

Announcing an Acquisition

DATA GLOVE

Established in 2010, Data Glove specializes in digital transformation using Microsoft technologies

Expertise	\ Application and Data Modernization, Cloud Advisory Services, Business Application Innovation, Modern Work, Intelligent Automation
Revenue	 \$48.96M for Trailing Twelve Months ended December 2021 84.66% of revenue from cloud transformation projects Premier consulting services partner to Microsoft Consulting delivering cutting edge cloud transformation programs
Client Base	 Global clients across: Americas, Europe, India and Australia Global clients across verticals: Software & High Tech, BFSI, and Public Sector 100+ cloud transformation engagements 90% of revenue driven from clients with a relationship of 5+ years
Employees	 700+ employees 33% of workforce across Americas (Including 75 employees in Costa Rica) Global right-shoring delivery model, including Costa Rica as a nearshore delivery center coupled with off-shore centers in Bengaluru, Hyderabad and Noida

Strategic Rationale

Accelerate and deepen Microsoft partnership

- Launch Microsoft business unit to accelerate joint go-to-market, enhancing sales, delivery, marketing, and overall partnership footprint
- Strengthen Azure competencies and enable higher Azure consumption as Microsoft Gold, OCP & CSP partner
- Bolster our Vertical / Industry capabilities within Microsoft's entire portfolio and ecosystem

Create value with new and expanded offerings

- Ines current offering line-up with
 Azure cloud consulting, Azureenabled modernization, and Microsoft
 business applications and modern
 workplace solutions
- Expand value proposition in AI / ML and advanced computer vision in Persistent verticals and solution areas
- Augment existing portfolio of IP and accelerators as part of Persistent's Cloud Automation Stack

Expand geographic footprint and talent pool

- Introduce nearshore delivery
 location in Costa Rica with 70+
 engineers, architects and consultants
 to offer increased 24x7 support
 capacity
- Develop the current base of 700+ multi-discipline software engineering talent with Persistent Learning and Development
- Leverage new locations, relationships in Noida and Hyderabad to meet increasing talent needs

Partner and analyst reactions

Businesses and governments are seeking reliable technology partners to help them navigate the rapid digital proliferation. By establishing a business unit focusing on Microsoft Azure, Persistent builds on our longstanding relationship to develop competencies and solutions to serve customers with their Azure and Microsoft technology needs.

Anant Maheshwari

President, Microsoft India

With this acquisition and the announcement of a newly formed Microsoft business unit, Persistent continues to further its leadership position in enterprise IT transformation. Persistent's expertise in Digital Engineering, combined with Data Glove's experience in Microsoft technologies, will help meet the client's modernization requirements, as well as address different buying centers across CEO, CIO, Line of Business's resulting in new opportunities for Persistent.

Pari Natarajan

CEO

The acceleration of digital adoption during the pandemic has led to increased demand for cloud and workplace solutions. Persistent's acquisition of Data Glove and the launch of a new Microsoft business unit will help capture market share by taking advantage of the growing Azure and Microsoft-led opportunities. Microsoft-related implementation services is one of the highest spending growth segments of the global implementation services market, in particular, in the areas of cloud, analytics, and CRM.
