To,
The General Manager,
Department of Corporate Services,
BSE Limited,
Phiroze Jeejeebhoy Towers, Dalal Street,
Mumbai - 400001.

Dear Sir,

Sub: Investor Presentation for Qtr/Half Year ended 30/09/2022

Ref: Scrip Code: 530977

Scrip Name: SHRI KESHAV CEMENTS AND INFRA LIMITED

Pursuant to Regulation 30 Read with Part A of Schedule III of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015, please find enclosed herewith Investor Presentation for Qtr/ Half Year ended 30/09/2022.

Kindly take the above intimation on record.

Thanking You,
Yours truly,

For **SHRI KESHAV CEMENTS AND INFRA LIMITED**

Venkatesh Katwa
Chairman
00211504

A stylized black and white line drawing of a construction site. In the center, a tall building is under construction. To its left, a large crane is positioned on a truck, with its arm extended towards the building. To the right of the building, another crane is also on a truck, with its arm reaching up. In the background, there are other buildings and structures. In the bottom right corner, there are several solar panels arranged in rows.

SHRI KESHAV CEMENTS & INFRA LIMITED

**INVESTOR PRESENTATION
Q2 FY23**

COMPANY OVERVIEW

Shri Keshav Cement @ A Glance

Incorporated in the year 1993 Shri Keshav Cement & Infra Limited (KCIL), formerly Katwa Udyog Limited) is engaged in the manufacturing of Cement and Solar Power Generation and Distribution in the state of Karnataka India.

The cement plants are located at Bagalkot district, Karnataka and the Solar power plant is located at Koppal, Karnataka. The company supplies cement in North Karnataka, Coastal Karnataka, Goa and some parts of Maharashtra

The company owns three very renowned regional brands of cement "Jyoti Power" "Jyoti Gold" & "Keshav Cement". Keshav Cement" is a premium brand of the company.

MISSION

“ To Provide Quality
Cement with Timely
Delivery”

VISION

“ Grow and continue to
modernize every year”

SHRI VENKATESH KATWA
(EXECUTIVE DIRECTOR AND CHAIRMAN)

- Aged 48, is a graduate MBA from the University of Oklahoma, USA.
- He has a wide experience in Cement industry along with International Business and Healthcare Service Automations.
- He is responsible for executing projects of business expansion and enhancing power projects.

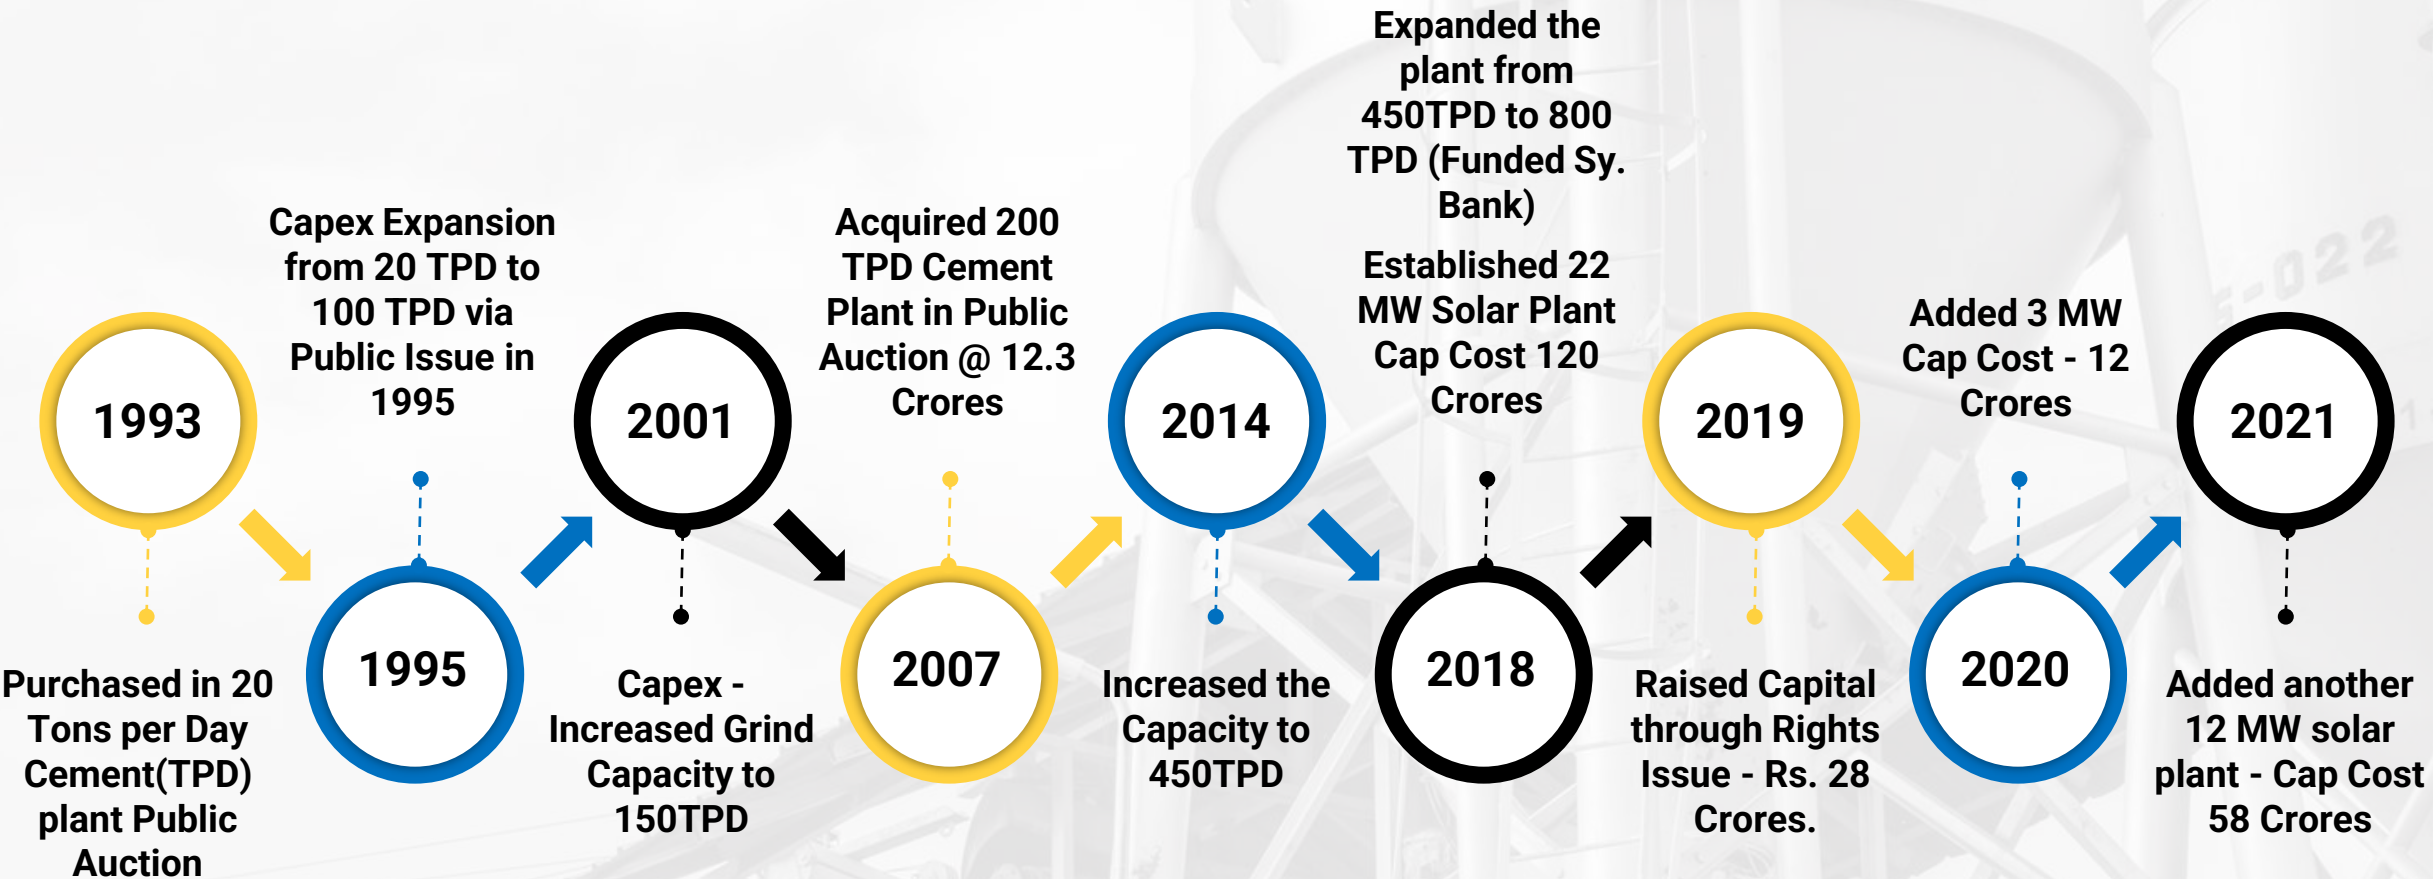

SHRI VILAS KATWA
(MANAGING DIRECTOR)

- Aged 46, is a graduate MBA from the University of Massachusetts, Boston.
- He initiated many IT drives that gave good control over the production, quality and management parameters.
- under his leadership, KCIL is moving ahead with a high level of automation that gives good control over production and quality.

SHRI DEEPAK KATWA
(EXECUTIVE DIRECTOR AND CFO)

- Aged 44, is a graduate MBA from the University of Oklahoma, United States.
- He is actively involved in setting up the power plant to reduce the overall power cost for the cement plant.
- He looks after public relations, finance, operations and management.

BUSINESS OVERVIEW

CEMENT IS DESIGNED WITH CHEMICAL AND PHYSICAL CHARACTERISTICS TO CONSTRUCT ANY OF THE FOLLOWING:

HEAVY DUTY CONSTRUCTION	CONCRETE SLABS, FOUNDATION AND WALLS.	FOR DAMS, CANALS, BRIDGES, CONCRETE ROADS AND OTHER PUBLIC UTILITIES.	ALL PURPOSE IN HIGH RISE BUILDINGS
-------------------------	---------------------------------------	---	------------------------------------

ORDINARY PORTLAND CEMENT

53 GRADE OPC

This grade of cement is widely used in plain and reinforced cement concrete, masonry and plastering, for bridge piers, pre- stressed girders and electric poles, concrete pipes, pre- cast concrete, pre- stressed concrete, slip formed concrete, tall building and structures, R.C.C bridges, for cement concrete roads, for structural repairs and grouting, pre- stressed works, precast element, bridges, atomic power stations, railway sleepers, silos RCC pipe etc.

43 Grade OPC

This grade of cement is widely used for all general and semi-specialized constructions like columns, beams, slabs and all structural works, manufacture of concrete blocks and tiles, brick and stone masonry, plastering and flooring, plain and RCC, precast, pre stressed slip formed concrete jobs, and commercial buildings, industrial constructions, multi- storied complexes, cement concrete roads, heavy duty floors etc.

STRONG REGIONAL BRANDS

JYOTI GOLD (43 GRADE) Mainly used in infrastructure project construction	JYOTI POWER (53 GRADE) <ul style="list-style-type: none">○ Jyoti power is a fast moving product.○ Mainly used in residential / domestic construction
--	--

KESHAV CEMENT Premium brand catering to North Karnataka and South Maharashtra

Strategically Located Plants With Proximity to Markets & Raw Materials

With modern instrumentation technology such as Electronic weigh feeders, Centralized control systems and one point control process, the product achieved is constant and superior.

Due to availability and usage of high CaO content limestone around the manufacturing facility, the cement produced naturally carries these vital minerals resulting in optimum physical strength and chemical characteristics.

Cement Plant1 at Kaladgi-Bagalkot Karnataka

Cement Plant2 at Lokapur

Direct Marketing To Target Groups

SKCIL's Marketing strategy is based on relationship management and continuous meetings with local Dealers, Builders and Engineers

Solar Power Plant

SINCE APRIL 2018, SKCIL MEETING 100% OF ENERGY REQUIREMENTS THROUGH RENEWABLE SOLAR ENERGY.

**37 MW
CAPACITY SOLAR POWER
PLANT**

**SOLAR PLANT SITUATED
AT KOPPAL, KARNATAKA**

**HELP IN POWER COST
REDUCTION BY 75%**

**12 MW USED FOR
CAPTIVE CONSUMPTION**

**25 MW SOLD IN THE
MARKET**

The Company is contemplating working on alternate fuels like Municipal Waste, Bagasse and others.

Cement plants of SKCIL are probably the only Cement plants in India to run on 100% green power energy.

Cement Industry Competition Overview

TIER I BRANDS

- PAN India Brands
- Market Leaders
- Commands 64% Market Share
- Pricing - Premium

TIER II BRANDS

- Regional Level Brands
- Commands 32% Market Share
- Pricing – 20% to 30% Cheaper than PAN India players

TIER III BRANDS

- Local Brands
- Strong Local Presence (100-200 KM)
- Commands 4% Market Share Pricing – 10% to 15% Cheaper Than Regional Players

Cement Consumption & Production

Growth Drivers & Opportunities

The demand of Cement industry is expected to achieve 550 600 million tonnes per annum constantly by 2025 because of the expanding requests of different divisions i e housing, commercial construction and industrial construction

HOUSING AND REAL ESTATE

- Government initiatives like Housing for All will push demand in the sector
- Real estate market in India is expected to reach US\$ 1 trillion by 2023 Strong growth in rural housing and low cost housing to amplify demand

PUBLIC INFRASTRUCTURE

- As per Budget 2022 23 a spending of over Rs 10 lakh crore (US\$ 134.34 billion) on infrastructure is proposed
- As per the Union Budget 2022 23 the government approved an outlay of 1 99 107 crore (US\$ 26.74 billion) for the Ministry of Road Transport and Highways
- In October 2021 Prime Minister, Mr Narendra Modi, launched 'PM Gati Shakti National Master Plan (for multimodal connectivity Gati Shakti will bring synergy to create a world class, seamless multimodal transport network in India This will boost the demand for cement in the future
- As per the Invest India, National Infrastructure Pipeline (NIP) (expanded to 9,305 projects from 7,400 projects

INDUSTRIAL DEVELOPMENT

- Strong economic growth is expected to lead to growth of the industrial sector and in turn increase in demand in the long run
- Implementation of PLI scheme to boost domestic demand
- Demand for warehousing space to be strong on back of e-commerce and retail growth
- Fresh capex uptick in mature capital intensive sectors (steel and cement)

EXPANSION PLAN

Cement Manufacturing Process & Equipment Requirement

Primary and Secondary Crusher

Installed – March 2018
Required Capacity – 1.60 Million TPA
Required Capacity – 1.98 Million TPA
Required Investment – ₹ 0

Raw Material Mill / Coal Mill

Upgraded – March 2018
Required Capacity – 70.5 TPH
Existing Capacity – 72 TPH
Required Investment – ₹ 0

Pre-heater Tower and Grate Cooler

Upgraded – March 2018
Required Capacity – 1,200 TPD
Existing Capacity – 700 TPD
Project – Build new 1200-1400 TPD with machinery
Required Investment – **approx. ₹ 45 Cr**
Supplier – FLSmidth India Ltd.

Cement Manufacturing Process & Equipment Requirement

Cement Mill

Upgraded – March 2018

Required Capacity – 3,000 TPD

Existing Capacity – 1,000 TPD

Project – New vertical Roller Mill

Required Investment – **approx. ₹ 64 Cr**

Supplier – FLSmidth India
Ltd./LNVN/LOCHE

Balance Equipment

Equipments – Packing, Raw Mill Silos,
Conveying Equipment, Fans

Minor Modification to suit expanded
capacity.

Required Investment – approx. ₹ 5 Cr

EXPANSION WILL INCREASE CAPACITY WITH HUGE COST SAVINGS

Sr No	Problem	Solution	Result	Project Cost (₹ Cr)	Savings p.a. (₹ Cr)
1	Low Production and inefficient use of machinery. Results in higher Fixed Cost PMT	Install high efficiency PH Cyclones with Inline calciner.	PH designed for 1200 TPD with higher heat retention in a calciner to use maximum heat available from fossil fuel. Optimizes fuel consumption	35	47
2	50% higher Fuel compared to Industry standards	Latest generation Cooler. Improves chemical composition of clinker to absorb higher additive like slag/ash	Fuel consumption will reduce from Rs. 1300 to Rs. 650 PMT of cement	10	
3	50% higher Power consumption compared to Industry standards	High-efficiency Vertical Roller Mill. Clinker can be ground with higher additives like Slag/Flyash/Limestone	Higher additive means 1 ton of clinker can produce 2.5x to 3x cement compared to 0.5x currently	65	24
4	Alternate Fuel currently not possible	Inline Calciner will be designed to hold burning for 12 seconds instead of industry standard of 8 seconds	Alternative to Coal/Petcoke 10-20% can be used.	3	1
5	Inability to reach larger markets due to high logistic cost on account of lower Variable cost/PMT compared to Industry Standards	Post Capex, Margins improve to reach larger corporate buyers, long term supply and bigger markets like Pune, Bangalore, Kerala	Higher capacity Utilization, Fluid sales and marketing, Reduction of Fixed Cost per MT of cement on account of 1.7x increase in fixed cost compared to 3x increase in production		
Total Cost of Building, Plant and Machinery and Savings in Variable Cost				approx. 113	approx. 72

STRENGTHS

- Experienced management team
- Strategic location of the manufacturing facility – proximity to raw material and no major regional competition (only two other companies have plant set up)
- Strong brand presence in Tier III market region
- Strong Sales and marketing network
- Only cement plants in India to run on 100% green power energy

OPPORTUNITIES

- Stable to rising cement prices
- Rising demand backed by infrastructural development

WEAKNESS

- Restricted regional presence

THREAT

- Tough competition from established players

Strategic
Intend

Operational Excellence.

Reduction in Carbon
Footprint

Cost Reduction through
Expansion

Delivering on growth
opportunity

Management
Focus Areas

Focus on full Capacity
Utilization

Investment in maintenance
with focus on automation
for reduced breakdown or
operational breaks.

Initiatives taken for
maximizing use of low-cost
alternate fuels.

Captive Solar Power
utilization is already
achieved.

Promote Pozzolana Slag
Cement that will effectively
reduce Carbon Load/ MT
of Cement

Expand plant to its fullest
potential, by adding
balancing process and
increase utilization of all
the equipment's at
minimum Capex Cost

Expansion Initiative
concurrence with most
modern equipment's which
are very efficient

Expansion on existing land
with zero land acquisition
cost.

With expansion Revenue
can be 3X while operating
expenses will increased by
1.5X at peak utilization

Timely Execution of the
expansion program.

Leveraging on 25 years of
experience in Cement
Business for Organic
Market Expansion with
focus on Volumes.

THANK YOU
