# Impact of Covid-19

# Impact of COVID-19 lockdown on business

---

- The impact of Covid-19 on Q4FY20 performance was mainly during the last 10 days of March 2020 in terms of disruption in production and dispatches impacting the sales of the company. The demand sentiment was low since beginning of March 2020 due to rise of COVID-19 cases in India.
- The lockdown of around 40 days in the country due to COVID-19 significantly impacted the performance of the company in Q1FY21 because of temporary shutdown of the business.
- We started our partial operations from beginning of May-2020. However, there were near term issues with respect to lower demand, availability of labors and transportation etc. The prices of our raw materials as well as finished goods came down in Q1FY21 due to decline in demand.
- The situation has gradually started improving from mid of June-2020 in terms of better demand, higher utilization levels, more dispatches and higher collections. We believe business environment should further improve in coming months.
- Our strong integrated business model and presence across value chain will provide significant cushion to the company in such uncertain business environment. We are a long-term debt free company and liquidity position of the company remains strong.

---

# Management Comments

# Management Comments

---

- Total production for Q4FY20 improved by 9% to 65,341 MT YoY. During the quarter, Dye Intermediates production improved by 8% YoY mainly due to higher demand and Basic Chemicals production improved by 9% YoY due to addition of Thionyl Chloride plant. Total production during FY20 improved by 5% YoY to 241,519 MT
- Total standalone income for Q4FY20 improved by 2% YoY due to increase in prices of Dye Intermediates. Gross margins during the quarter improved to 38% due to lower raw material prices.
- Employee costs have increased in Q4FY20 mainly due to increments to employees, commission payment to directors, and capitalized expenses of our project at Saykha GIDC (Dahej) were written off.
- Dyestuff revenues have increased by 11% YoY in FY20 and its share in total revenues increased to 44%. This is inline with our strategy of higher integration and moving towards a global Dyestuff player.
- Finance cost in Q4FY20 was high YoY mainly due to increase in working capital limits utilization. It remained flat QoQ.
- Our net debt for FY20 stood at Rs 1,446mn and net debt to equity stood strong at 0.15x.

# Management Comments

---

- Working capital of the company was higher in FY20 due to higher Dyestuff business and increase in receivables in March 2020 due to COVID-19. However, collections have been strong during June 2020 and we expect it to normalize gradually in coming quarters.
- We acquired 100% stake in Trion Chemicals during Q3FY20 and the board has approved its amalgamation with Bodal Chemicals Ltd in May-2020. We are in the process of doing certain modification in the plant and we are confident to start and run the operations smoothly from September-2020 at Trion.
- Subsidiaries performance :
  - ✓ SPS posted revenues of Rs 249mn with EBITDA of Rs 11mn in Q4FY20. We have received all the approvals to start VS plant at SPS. We will start the VS plant at SPS once the demand scenario improves.
  - ✓ Trion plant was not operational during Q4FY20 due to safety related changes in the plant. It posted loss of Rs 28mn in Q4FY20
