## **ignio™ Studio Empowers Businesses to Extend the Software's Capabilities & Become Autonomous, Proactive Enterprises**

*New Low-code Development Environment Helps Enterprises Customize ignio's Capabilities to Address Unique Enterprise IT Needs*

**SANTA CLARA | MUMBAI, June 2, 2020:** Digitate, a software venture of Tata Consultancy Services (TCS), (BSE: 532540, NSE: TCS) a leading global IT services, consulting and business solutions organization, announced the general availability of ignio™ Studio, a low-code development environment that help customers extend the out-of-the-box capabilities of the ignio software suite to cater to their unique and evolving business and IT landscape.

The award-winning ignio software suite consists of five products – ignio AIOps, ignio AI.WorkloadManagement, ignio AI.ERPOps, Cognitive Procurement and ignio AI.Digital Workspace. It blends AI and ML to deliver autonomous IT for enterprise business operations, enabling many routine tasks to function autonomously.

ignio Studio enables customers to adapt the autonomous capabilities of ignio to new use cases straddling business and IT operations. The unique processes and policies of an enterprise can be easily configured and customized with Studio to achieve higher business benefits. It provides an intuitive, model-driven environment bringing the best of proven software development practices to enterprise automation. This helps customers to rapidly build and deploy new use cases and maintain existing capabilities.

With the announcement of its general availability, the power of shaping their autonomous enterprise journey is now available to all ignio customers.

**Akhilesh Tripathi, Global Head, Digitate,** said, *“The one-model-fits-all approach is not practical in today's rapidly evolving IT landscape, with its ever changing requirements. Adaptability and extensibility to meet the needs of IT and business operations have become a critical competitive advantage. With ignio Studio, enterprises are able to adapt to the changing technology landscape and transition from a reactive to an autonomous, proactive and predictive enterprise.”*
