Key Highlights – Q1FY24

Operational Updates:

- Robust Order Book of Rs 2,961 Cr, forming ~4x of FY23 Revenue
- Engineering: Execution of Jal Jeevan Mission (JJM) projects (in UP and Rajasthan, bagged in Q4FY22) progressing at a good pace. These projects typically earn an EBITDA Margin in the range of 12-15% over the life of the project as against 18-20% margin earned by Hydro & Other Water Projects
- Real Estate: Healthy pick up in Real Estate sales. However, since as per IND AS 115, income is booked on project completion basis, but certain costs are recognized regularly, the operating margins in Real Estate appear to be volatile on quarterly basis. The operating profit generally is higher in a period when revenue is recognized

Financial Updates:	
Standalone	Consolidated
■ Revenue grew 125% YoY to Rs 263 Cr	■ Revenue grew 84% YoY to Rs 267 Cr
 EBITDA grew 62% YoY to Rs 22 Cr, with margin at 8.3%. While receipt of cost escalation aided margins, it lowered on YoY basis due to overheads 	■ EBITDA grew 59% YoY to Rs 20 Cr, with margin at 7.6%. PAT grew 147% YoY to Rs 14 Cr

Company Overview

Well - Established Core Business of Engineering

Healthy Profitability

Leadership position in core business of Turnkey execution contracts for Hydro Mechanical Equipment for Hydro Power & Irrigation projects, thereby generating Healthy Profit Margins and Free Cashflows

Technically Qualified

One of few eligible contenders for Large scale Dam projects with Key technical and R&D edge

Execution Track Record

Executed 60+ Hydro Mechanical Turnkey projects over the last 4 decades

Strong Execution Team

White collar manpower strength of 100 people, comprising of 20 technocrats and 10 qualified professionals

Key Products

- Gates: Radial, Vertical, Stoplog, Draft Tube
 Gates
- Liners: Steel, Penstocks and Pressure Shaft
- Trash Racks and Cleaning Machines
- All types of Cranes
- Mechanical and Hydraulic Hoists
- Steel Bridges and Walkways
- ECAS and SCADA Systems

Key Services

- Turnkey Solutions: Installations, Testing and Commissioning
- Maintenance: Long-Term, Short-Term O&M, including On-Site
- Training: Manpower training
- Service: Repair and Refurbishments works for existing & old power plants
- Complete Redesign / Overhaul and Replacements works for equipment

Growth Opportunity – Jal Jeevan Mission (JJM)

- The focus of the mission is to enable every household in villages to have Functional Household Tap Connection (FHTC) (Har Ghar Jal) by 2024
- With this, each household will have potable water supply in adequate quantity (at least 55 lpcd)
- Huge Potential in several states where 25% 85% coverage remains to be installed
- Union Budget 2023-24 allocated Rs 700 Bn towards effective implementation of 'Har Ghar Jal'

Om Infra has received orders under the JJM for Rajasthan and Uttar Pradesh, totaling ~Rs. 2,000 Cr, where work is progressing well, and bidding for more such projects

States where large number of Households yet to get FHTC

- Balance HH to be provided with tap connections
- HH connections provided after launch of the mission
- HH connections as on 15-Aug-19

Growth Opportunity – Hydro Power & Water

Hydro Power

- India's Demand for Energy is expected to grow significantly led by expected growth in industrial and commercial activity in the coming years
- Installed RE capacity has increased at a fast pace to its current 119GW with plans to reach 450 GW of installed RE capacity by 2030. Hydro potential assessed to be about 150 GW which is 3x of the current installed capacity at ~ 50GW
- The peak power demand in India stood at 210.8 GW in 2022, and is expected to grow to 690 GW by 2036; Hydro power happens to be the most stable form of energy generation to support peak demand
- The New Hydro Policy (Mar'19) shall prove to be a milestone in growth of Hydro Sector. Other key positives like re-classify large hydroelectric projects as renewable energy, tariff rationalization measures, notification of HPO as separate entity, budgetary support for enabling infrastructure, likely to boost the sector

River Linking, Water, Water Supply and Irrigation

- These water infrastructure projects could cost Indian government around \$270 Bn over the next 5 to 15 years
- Of these, the major expenditure is expected to allocated to interlinking of river at \$168 Bn
- In all, some 30 canals and 3,000 small and large reservoirs will be constructed with potential to generate 34 GW of hydroelectric power
- The overall implementation of Interlinking of Rivers would give benefits of 35 Mn hectares of irrigation raising the ultimate irrigation potential from 140 Mn hectare to 175 Mn hectare

Om Infra, with its demonstrated track record and leading position in Hydro & Water infrastructure, is well placed to capitalise on the opportunities in this space

Real Estate – Landbank

Bandra, Mumbai (MHADA) - Slum Rehabilitation and Residential Development Project

- Om Infra (35% stake) along with a Consortium was allocated FSI on a plot of land for redevelopment (SRA) by MHADA in the year 2006 for Rs 106 Cr
- The FSI allotted allowed for development of ~200,000 sq.ft, which under the revised CRZ Regulations, was increased in around year 2017 and accordingly the saleable area increased to ~2 million sq. ft, subject to approval of design and drawings and owner-developer sharing ratio with any reputed builder/developer
- Since this was a large project, we tied up with DB Realty, post which our stake reduced to 17.5%
- Due to inordinate delays in slum clearance, the consortium appealed to the arbitration against MHADA, and the matter is finally heard and award is received with some FSI benefits
- It is anticipated that post the outcome of the matter, ~2 million sq. ft. may be available for building having an estimated realizable value of our share Rs. 750 Cr* as per current market rates subject to sharing ratio determined with reputed builder/developer

^{*} Tentative as per finalization of plan, FSI approval and subject to market conditions. Revenue is purely estimated

Arbitration Awards Worth ~Rs 630 Cr

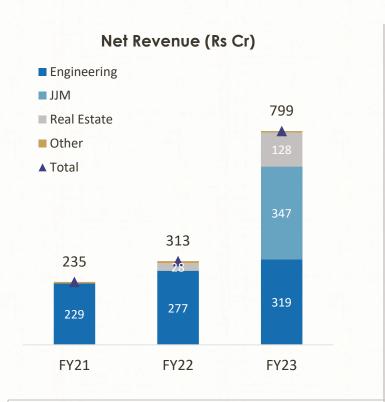

Project	Explanation	Current Status	Amount (Rs Cr)
Bhilwara Jaipur Toll Road	Om Infra developed the 212 km road project in Jaipur Bhilwara Stretch. Private vehicles were made toll free effective 1-Apr-18 by the State Govt. and thus the Company terminated the concession agreement for breach of contract and submitted its claims After a series of hearings at the arbitrator level, a final judgement has been pronounced authorizing a claim of Rs. 579 Cr as termination payment inclusive of interest (excluding debt due and paid Rs.191 Cr). The award has been challenged in commercial court by PWD	Awaiting action from PWD	579
NTPC Tapovan	In Tapovan, Vishnugarh, the company had won an arbitration award on account of delay on the part of NTPC which has been challenged by NTPC in the High court. NTPC has deposited full amount in the High court under protest. We have filed our claim for settling at 65% in Vivaad Se Vishwas Scheme	Awaiting High Court verdict	50
NEEPCO (Kameng Hydro, Arunachal Pradesh)	The long-drawn disputes in an SPV where we have 60% share in the project settled by a resolution committee and our expenses and cost agreed to be settled with release of BG (already released BG worth Rs 21 Cr)	Got release of funds Rs 18 Cr	-
Silo Project in Gujarat FCI	Due to project cost rise and land issues, the project in Gujarat got terminated and mediation process and arbitration invoked for compensation. Land bought is available with the Company and is free of any encumbrance.		-
