Our Business

GESL –
operational
since **1987**

more than **6 billion**
PET bottles recycled
annually

PET waste is converted
into **108,600 MTPA**
of high-quality rPET
(recycled polyester)

rPET is utilized in
creation of clothing,
technical textile, fibrefill,
automotive, etc.

Working towards a greener future

Diversified Operations

300+ CUSTOMERS

A large customer base across key sectors which consume the yarn and fibre

250+ SUPPLIERS

Sourcing the raw materials through pan India network of scrap dealers

500+ PRODUCT VARIANTS

Huge variety of products across Recycled Polyester Staple Fiber and Recycled Polyester Spun Yarn

3 MANUFACTURING SITES

Manufacturing capacity of 118800 TPA

- Kanpur (UP)
- Bilaspur (UP)
- Rudrapur (Uttarakhand),
- New upcoming capacities at Warangal (Telangana) by Q4FY22

Diverse Products and Applications

rPET Spun Yarn

Spun yarn products

- Grey
- Solid dyed
- Melange

Filament yarn products

- Texturized
- Twisted & Doubled
- Solid / Injection
- Dyed Fancy Yarn

Product applications:

Fabrics, Sarees, Dress material, Upholstery, Thermal Wear, Cords, Furnishing fabrics, carpets, sewing thread, Hosiery

rPET Fibre

- Yarn Spinning
- Non woven fabric/ carpets / felts
- Non woven carpets / scrubbers
- Non woven carpets / felts
- Fibre filling

Product applications:

Needle punch non woven, Fillings (pillows, etc.), Ball fibre, Padding Insulation, Cushions / Pillows / Quilts

Production & Exports

Q2FY21 Highlights

OPERATIONAL MATRIX

- Textile sector was worst hit due to pandemic and is among the last entrants to ride on recovery path.
- All the production lines could be operational by July, 2020 that too with some local government restrictions. It resulted into production loss by about 10%. Additional production at higher levels provides superior operating margins.
- Disruption in supply chain could revive completely by middle of the quarter. So release of pressure on RM pricing and improvement in delta started thereafter.
- Sale prices started to improve from its lowest level during March, 2020.
- Reviving the sale due to slow demand while maintaining the quality of receivables was a challenge. Sale was revived with 100% recovery of all the pre-pandemic receivables while maintaining the working capital cycle.

WAY FORWARD

- Focusing on new product developments more particularly -
 - Anti –microbial Fibre with licensed technology
 - Bio-degradable Fibre
 - High tenacity Hollow conjugated fibre
 - Micro Fibre
 - Dope dyed high tenacity Fibre
- Increasing the share in Non-woven and technical textile sector where prices are more stable and margins are better.
- Increasing the production level and operating margins
- Improving the working capital cycle further

Roadmap for the future

Goals

- To accelerate the growth momentum for next decade- To surpass CAGR Growth in top Line (12%) and bottom Line (13%) achieved during last one decade.
- To generate enough free cash flow after allocation of required growth capital.

New Products

- Becoming a premium raw material provider through development of **products compliant with requirement of reputed brands**.
- **Strong focus on R&D and development of value added products** – expend the current value-added product portfolio from the current 25% to 50% over next 2-3 years.

New Facility

- **A new production facility in Warangal, Telangana** to be fully operational from 4QFY2022. After the erection of the above facility, GESL will be generating enough accruals to fund future expansions with own funds.
- A washing & chips unit in Nepal – completion of acquisition by March, 2021.

Business Outlook

Exceptional Performance

- Over the last 25 years, GESL has consistently achieved excellent growth figures.
- GESL has laid out concrete plans to exponentially increase the revenue and expand the business using innovation, premium products, capacity expansion and exploring overseas markets.

Perpetuity of business

- GESL has been among the largest Indian PET recyclers for the last 25 years.
- Our raw material – PET bottles – is a highly versatile product used in diverse industries. This ensures a steady supply of source material for all our operations.
- Partnering with global brands to supply our premium products for their operations, and help them achieve their sustainability goals.
- Constantly adding the capacity and diversifying the product mix to keep fueling the growth engine.

Towards becoming future proof

Continuous Innovation

- With well-equipped facilities and a dedicated R&D team, we are actively developing value-added products to increase its contribution in the sales mix.
- The team is exploring numerous value-added products such as anti-microbial products, fibres for paper and construction industry, micro filament fibre, mono fibre, etc.

Risk Management

- To climb on value chain matrix to increase the margins.
- Explore the potential to consume alternate or virgin material to produce the final products and develop new supply chains.
- Explore other countries and regions to source raw material and maintain supply chains.

Towards a Greener World

OUR VISION

To Become A Global Corporate Citizen, Committed To Recycle Every Pet Bottle Which Is Thrown Into Waste With World Class Recycling Facilities And To Create Wealth For Our Stakeholders Through Conducting Business Around Social & Environmental Concerns.

Sustainability at the forefront

With and by recycling plastic waste into useful products, GESL makes a real difference to business, environment and communities.

- Directly impacts the environment by reducing the burden of waste on the planet
- Creating a sustainable, circular economy on a global level
- Protecting and preserving ecology
- Helps all industries take steps towards sustainability

We will continue to deliver on our **Mission to enhance value** for our stakeholders and the planet.

Thank You!
