Commenting on the results, Mr. Chander Agarwal, Managing Director, said:

“Q3 FY2022 was a mixed quarter, we continued to see quicker recovery across industries with the businesses started reaching near pre-covid levels and the economic activities began to normalize. In October, the demand picked up during the festive season and the Index for Industrial Production registered strong month-on-month growth coupled with the higher E-way bill generation. However, in November, the e-way bills declined to five months low as demand moderated after the festivities, but recovery was again visible in the month of December.

During the quarter, the Company delivered highest ever quarterly Revenue from Operations of Rs. 287 crore, registering a growth of 9.3% on Y-o-Y and 4.9% on a sequential basis. EBITDA for the quarter stood at Rs. 49.3 crore, registering a sequential growth of 4.8% with margin of 17%. Margins remained stable backed by higher capacity utilization and operational efficiencies. Our Profit after Tax stood at 35 crore with margin of 12.2%. On a nine-month basis, TCI Express delivered Revenue from Operations of Rs. 783 crore, growth of 39%, EBITDA of Rs. 131 crore, growth of 55% and Profit after Tax of 93 crores, growth of 60% on year-on-year basis. In the light of strong performance during the first nine months of the year, the Board of Directors has recommended a 2nd interim dividend of Rs 3 per share for the quarter, taking total dividend to Rs. 6 per share for the 9M FY22, representing a payout of 300% on the face value and 24.8% on the EPS.

The construction of Gurgaon sorting centre is going as per plan and is expected to be fully operational in February 2022. I would like to highlight that we will be the first B2B express delivery company in India to install Conveyor Belt system for heavy cargo at our Gurgaon sorting centre. This will help in reducing truck halting time by around 40%, which will improve overall operational efficiency. During the quarter, we have also added 5 new branches mainly in the South and North region to penetrate deeper in the key growing markets. Our recently announced new offerings are getting good traction among the customers, especially Rail Express where we continue to see new customer acquisitions.

Looking ahead, we expect there will be a temporary impact of the Omicron variant on the logistics industry and quicker recovery is anticipated in the coming months. TCI Express is well positioned to meet the growing demand and ensure higher operational efficiencies to maintain its profitability margins and close a year on a strong note.”
