Maharashtra, UP neck and neck in race for top sugar producer tag

FE BUREAU Pune, April 12

AFTER A GAP of nearly five years, Maharashtra has overtaken Uttar Pradesh (UP) in sugar production. The state crossed the 100 lakh tonne mark by the end of March...

Maharashtra is expected to produce 105-107 lakh tonne of sugar, while production in UP is expected to touch 105 lakh tonne at the end of the season.

Prakash Naiknavare, MD, National Federation of Cooperative Sugar Factories, said UP

had overtaken Maharashtra because of the Co-0238 cane variety. "This variety was introduced in 2012 and almost the entire sugar sector in UP, especially the private sector, picked it up. Therefore, UP produced more sugar than Maharashtra from 2016-17 till 2019-20," he said.

"This variety gave UP mills' better tonnage and more recovery. Moreover, at almost 23 lakh hectares, UP has double the area under cane cultivation than the 10-11 lakh hectares in Maharashtra," Naiknavare said.

Maharashtra sugar commissioner Shekhar Gaikwad said

the state's production has exceeded that of UP because productivity has gone up to 6-7 tonne per hectare due to good rains in the last couple of seasons...

Abhinash Verma, director general, Indian Sugar Mills Association (ISMA), said that as per ISMA estimates, both UP and Maharashtra are expected to produce around 105 lakh tonne of sugar this season...

CORRIGENDUM TO THE DETAILED PUBLIC STATEMENT PUBLISHED ON MARCH 04, 2021 AND CORRIGENDUM TO THE LETTER OF OFFER DATED APRIL 01, 2021 FOR THE ATTENTION OF THE EQUITY SHAREHOLDERS OF SIEL FINANCIAL SERVICES LIMITED

Farmers from Nashik will not sell onions to Nafed for buffer stock: Maha onion growers body

FE BUREAU Pune, April 12

THE MAHARASHTRA STATE Onion Growers Association (MSOGA) has announced that farmers from Nashik will not sell onions to National Agricultural Cooperative Marketing Federation of India (Nafed) for the buffer stock if they pay farmers ₹8-10 per kg.

Nafed buys onions from certain market committees in the state since the last four to five years for buffer stock and also allows certain farmer producer companies to purchase stock on

behalf of the federation. Last year, out of Nafed's procurement of one lakh metric tonnes of onions, 75,000 metric tonnes of onions were procured from Maharashtra. At that time, NAFED had offered ₹8-11 per kg to farmers...

Dighole said that the cost of onion production has gone up due to increase in fertilizer, seed prices, labor and diesel prices, unseasonal rains, hail

storms. The production cost of onion is around ₹70,000-80,000 per acre and therefore farmers should get a rate of ₹30 per kg, he said.
