*Commenting on the results, **Mr. Madhavan Menon, Group Chairman and Managing Director**, said: “This has been a strong quarter across business lines. Our focus for this period, was on business enablement for growth and in three primary areas: Shared Services consolidation across businesses for process efficiency, Technology & Automation for scale and productivity and Analytics to drive marketing effectiveness. These are cohesively working well and the resultant uptick is now visible across businesses.*

The fact that our Domestic & E business that we were incubating until now, grew their combined revenues by 34% on a like to like basis & are close to achieving profitability is significant”

He added “Our acquisition of Kuoni’s global network of DMS companies is also delivering - with our emphasis on profitability driving the agenda. The global and Indian travel market outlook is positive and with a healthy funnel clearly visible across businesses, we seem set for a good performance for the year”
