Aster DM Healthcare – At a Glance (1/2)

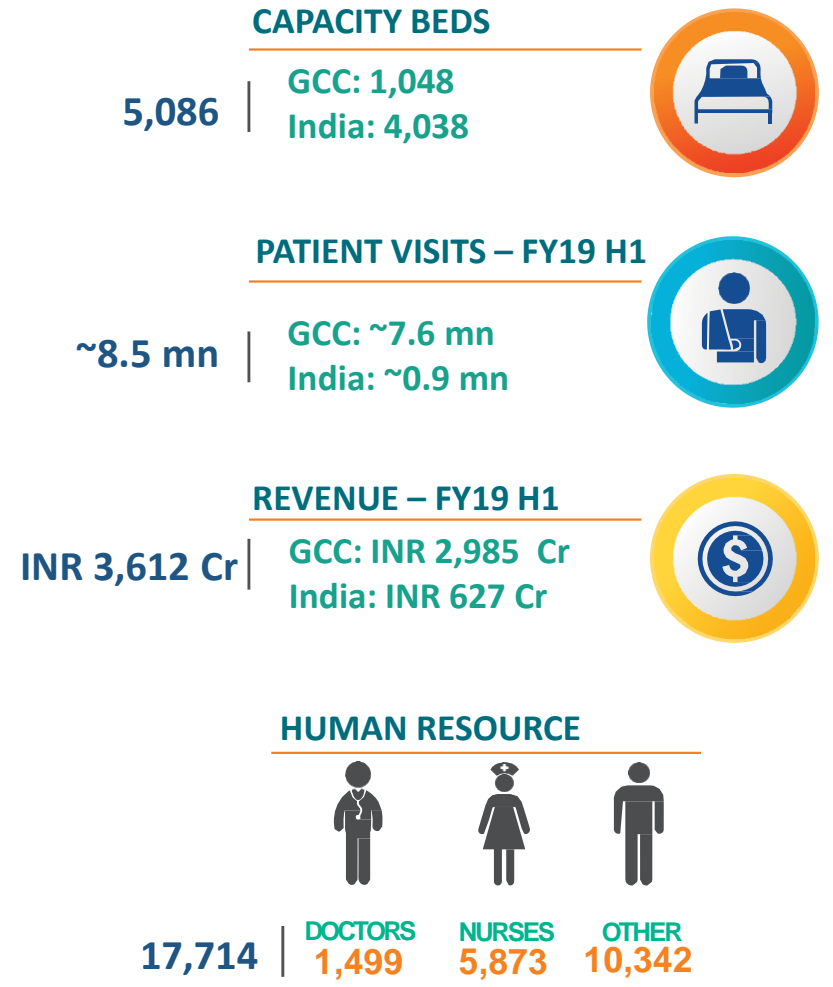

One of **Largest Private healthcare** service providers operating in Asia (GCC& India)

Present in 9 Countries (UAE, Saudi Arabia, Qatar, Oman, Bahrain, Philippines, Kuwait, Jordan and India)

Largest No. of Medical Centers / Polyclinics in GCC

Largest chain of Pharmacies in the UAE

Notes:
1. Revenue shown above excludes other income

Aster DM Healthcare – At a Glance (2/2)

Revenue - FY19 H1

← INR ~3,612 Cr →

Revenue - FY19 H1

EBITDA - FY19 H1

← INR ~249 Cr →

EBITDA - FY19 H1

Note:

1. Revenue and EBITDA shown above are excluding other income

2. Above shown percentage of revenue and EBITDA by hospitals clinics and pharmacies are calculated based on gross segmental numbers before allocation of inter-segment revenue and unallocated corporate overheads

The Aster DM Healthcare Edge

Aster DM – A Healthcare Ecosystem

- Presence across hospitals, clinics & pharmacies and providing primary, secondary and tertiary/ quaternary care
- Strategic and sizeable network of clinics enable patient feeder structure

Synergies in Operations due to Presence in GCC & India

- GCC operations contributes ~83% of revenue and Indian operations contributes ~17% of revenue
- GCC network leveraged to promote medical value tourism to India
- India network leveraged to source high quality medical professionals
- Low cost of debt in GCC (5% - 6%)

Strong track record of performance since inception

- Built notable financial, operational, societal growth trajectory in GCC
- Rapid scale-up in hospitals, clinics, pharmacies across geographies

Seasoned core management team

- Directors/officers with an average tenure of 18 years of healthcare experience
- Strong second line of management with managerial, healthcare and regulatory experience to provide stability

Differentiated Asset-light Business Model in GCC

- Asset light model which is built around a leased asset as against the traditional system of owned asset
- Established units in GCC exhibit high average return on capital employed (ROCE) (25% - 30%, excluding corporate overheads for established units of more than 3 years)

De-risked Business Model

- Diversified revenue sources from multi-geography and multi-economic segment operations
- Presence across all economic segments through our three brands – Medicare, Aster and Access
- GCC operations exposed to stable currencies pegged to US dollars, creating a natural hedge to currency fluctuations

Benchmark healthcare practices

- Highest standards of patient care reflected in several industry recognitions and patient endorsements on rating platforms

Aster DM Healthcare - Evolution

GCC

Building the foundations

1987: Commenced operations as a single doctor clinic in Dubai
 1995: Launched first specialty medical centre in Dubai

New geographies, segments and service offerings

2003: Expansion to new geography – Qatar, (Clinics)
 2005: Entry into hospital segment through Al Rafa Hospital (UAE)
 2006: Entry into premium segment Medcare hospital (UAE)

Brand “Aster” was formed, private equity investment, further expansion

2008-09: Entry into Oman - Al Raffah Hospital in Muscat (Oman), added another in Sohar (Oman)
 2010 : Consolidation of group’s medical facilities under the brand Aster.
 2011: Minority stake in Sanad hospital (KSA) ; Acquisition of Medicom Pharmacy group (UAE)
 2012: Medcare Orthopaedics and Spine Hospital (Dubai) ; Acquired Majority stake Al Shafar Pharmacies (UAE)

Robust Growth across all segments and geographies; Rapid Expansion in India

2015: First clinic in Bahrain and in the Philippines
 2016: Increased stake up to 97% in Sanad Medical Care (KSA)
 2016: Medcare Women and Child Hospital (UAE)
 2017: Medcare Hospital (Sharjah, UAE) and Aster Hospital in Doha, Qatar
 2018: Aster Hospital - Qusais (Dubai, UAE)

INDIA

2001: Commenced operations at MIMS hospital in Kozhikode, Kerala
 2008 : Private Equity Investments : First Round

2008 : Acquired Majority stake in Prerana Hospital, Kolhapur
 2012 : Private Equity Investments, Second Round

2014: Acquired Management rights in Aster CMI Bengaluru,
 2014: Inaugurated Aster Medcity in Kerala
 2014: Acquired majority stake in Sainatha Hospitals, Andhra Pradesh
 2016: Acquired majority stake in Dr. Ramesh Hospital
 2016: Acquired O&M rights in DM Wayanad Institute of Medical Sciences, Wayanad
 2017: O&M contract with Rashtreeya Sikshana Samithi Trust
 2018: Acquired majority stake in Sangamitra Hospitals

ROBUST GROWTH OVER LAST 5 YEARS

..Coupled with capacity creation for further growth, which resulted in an extensive geographical footprint

# of Units	FY13	FY14	FY15	FY16	FY17	FY18	FY19 H1

Aster – Snapshot, Evolution and Footprint

Aster – An Integrated Healthcare Provider

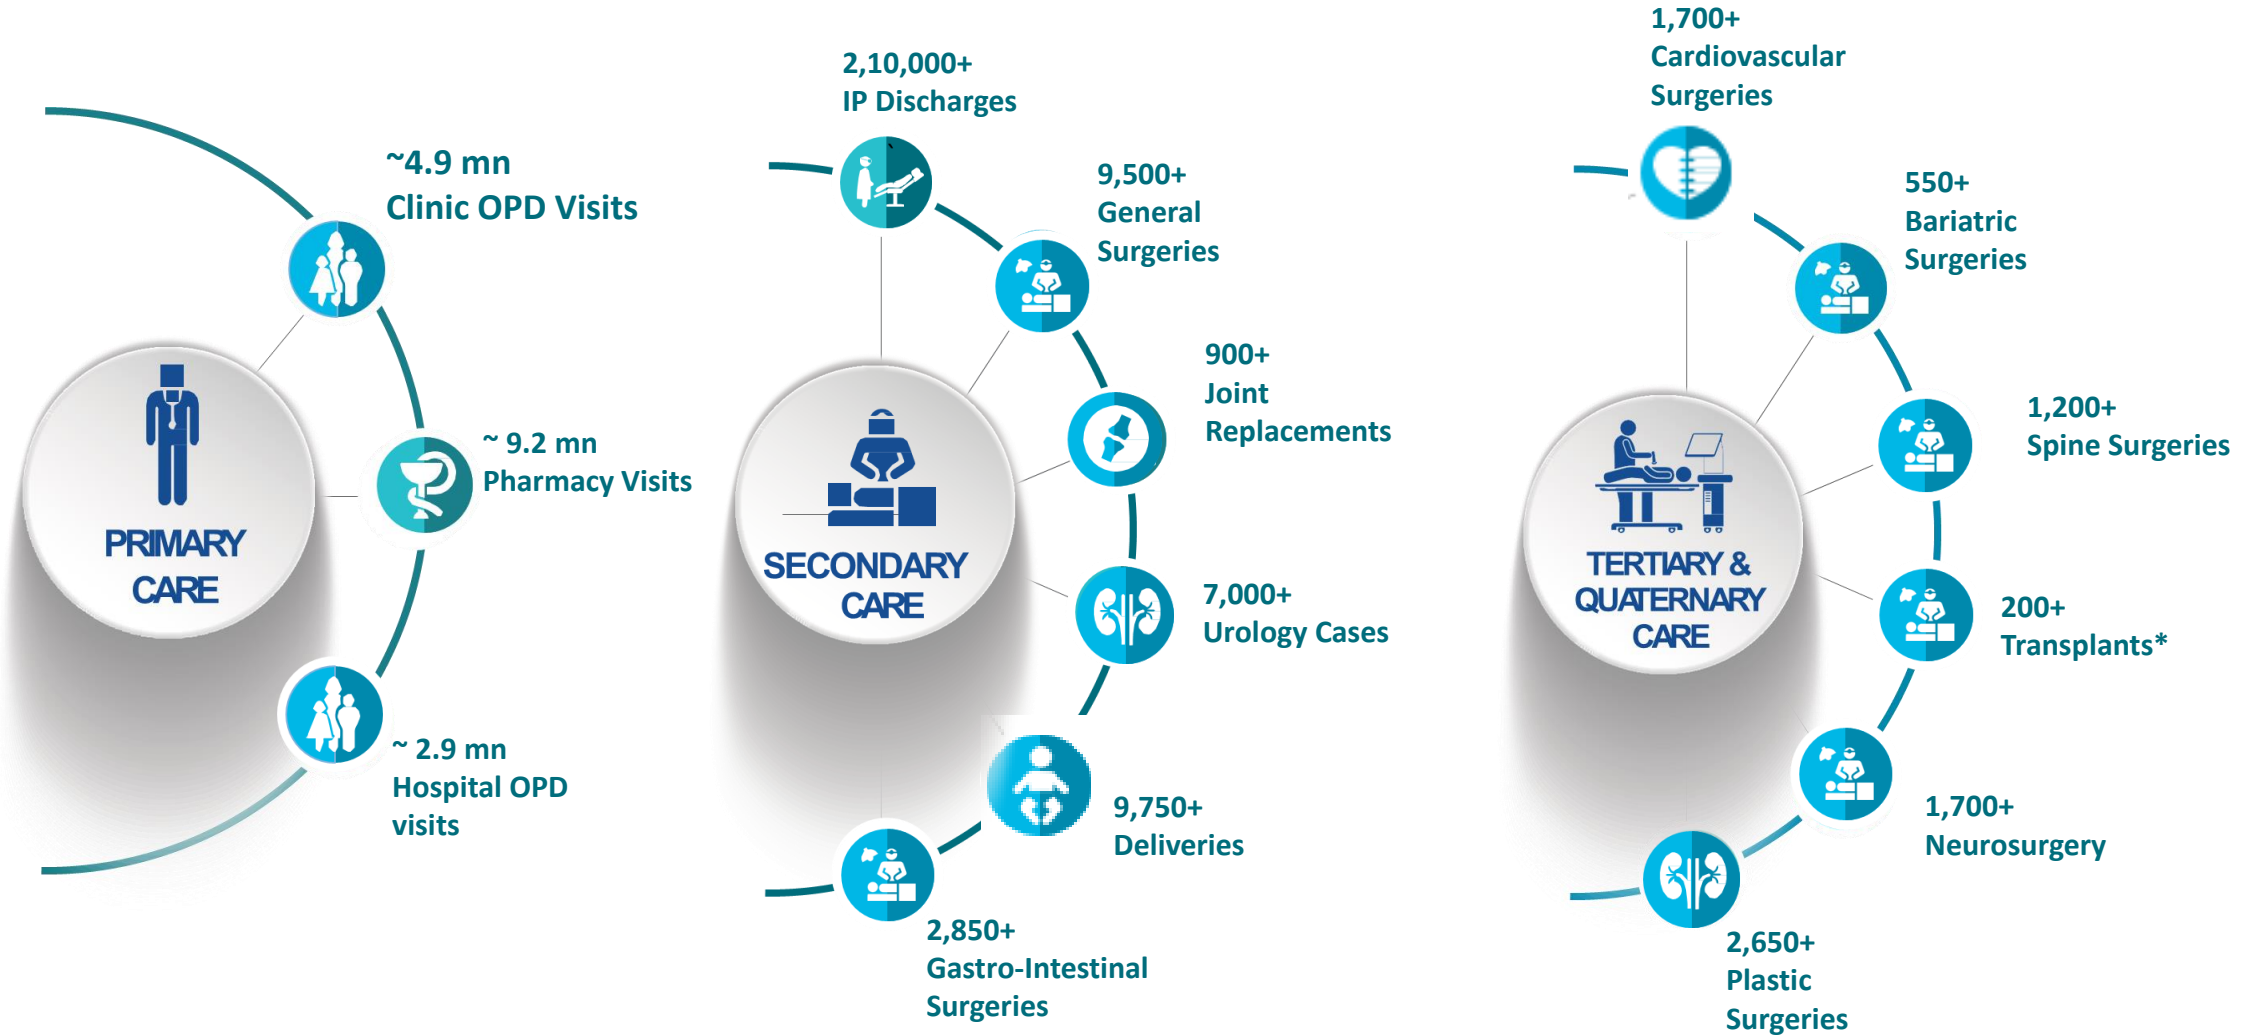

Operational and Financial Overview

Strategy and Leadership

iAster - An Integrated Healthcare Provider

FY18 Operational Information

Note:
*Transplants includes kidney, heart, liver, pancreas, etc.
Above numbers are for the financial year FY18

Aster – A Healthcare Ecosystem

PATIENT LIFE CYCLE MANAGEMENT

RESOURCE TALENT MANAGEMENT

- Aster, over 30 years, has created a healthcare eco-system across two geographical regions
- In GCC region, Aster's primary care clinics act as the initial touch-points in the patient journey, while pharmacies and hospitals continue the care
- For complex tertiary care patients are transferred to Aster's Hospitals in India
- Indian operations acts as a source of talent (doctors, nurses and other employees) to GCC operations
- Within GCC operations, clinic doctors have the opportunity to hone their surgical skills in Aster's hospitals

GCC Healthcare – Unique Traits

Healthcare market in GCC states have developed certain unique traits due to the higher expat and working age population

Prevalence of Primary and Secondary Healthcare Facilities (Private Sector)

- Due to lower % of older population requirement of tertiary and quaternary care is relatively limited
- Due to lack of support systems (family, relatives, etc.) expat community travel back to their home countries for major health concerns
- Hence private healthcare delivery is focused on primary and secondary healthcare
- Recently there is a trend towards selective tertiary care focus in UAE, however this will remain proportionately lower
- Only Saudi Arabia, with its sizeable population of nationals is suitable for tertiary and quaternary care facilities

Seasonality of Patient Volumes

- Decline in volumes across hospitals, pharmacies and segments during the summer months in the GCC countries .
- Expats form a major proportion of the population in GCC countries barring Saudi Arabia. During the extreme summer season and school holidays, a large amount of population leave the GCC region.
- Some doctors also travel back to their home country during this period as well.
- Impact visible across industries - reflected particularly more in primary care facilities like clinics and pharmacies.
- H1 and H2 revenues in GCC are usually split around 45%-55% but the EBITDA split can vary as much as 30% and 70% for H1 and H2.
- Increase in revenue in H2 results in proportionately larger increase in profitability due to operating leverage.
- Seasonality variation consistently visible over several years , can be expected to continue

Population (mn)

Population Age (%)

 ARPOBD	148,800+	154,000+	22,800 +	25,600 +	48,900+	57,100+

Notes: 1. Inpatient nos, Outpatient visits stated above are only for the hospitals.

2. Waynad Institute of Medical Sciences (WIMS) details are not included in calculation of occupancy, OP & IP visits, ALOS and ARPOBD

3. In FY19, due to IndAS 15 accounting standard, partial provision for doubtful debts and volume discounts have been netted off against revenue. The same has impacted ARPOB calculation.

* Reduction in occupancy in India for FY19H1 as compared to FY18H1 is mainly due to Nipah virus outbreak in Calicut and Kerala floods.

Revenue (INR Cr)	967	811	774	580	(9)	3,123
EBITDA (INR Cr)	76	68	54	52	(73)	178
EBITDA Margin (%)	7.9%	8.4%	7.0%	9.0%	--	5.7%

Notes:

1. Revenue and EBITDA shown above are excluding other income
2. Waynad Institute of Medical Sciences (WIMS) details are not included in calculation of occupancy, OP & IP visits

- Increase in revenue eliminations to INR ~80 Cr. in FY19H1 from INR ~ 9 Cr. in FY18H1 is predominantly due to centralized procurement of pharma products in GCC through our GCC pharmacies segment
- The same is reflected in the revenue growth and margin reduction seen in our GCC pharmacies segment
- GCC Hospitals - constant currency growth of Revenue and EBITDA is ~16% and ~74% respectively.
- GCC Clinics - constant currency growth of Revenue and EBITDA is ~6% and ~35% respectively.
- GCC Pharmacies - constant currency growth of Revenue and EBITDA is ~16% and ~7% respectively.

Vintage-wise Performance FY19 H1

- Units with vintage less than 36 months are considered as units in ramp-up phase in GCC hospitals, GCC clinics, India hospitals & clinics
- *Entire GCC pharmacy segment and unallocated expenses are considered as part of established category in Consolidated section and no vintage breakdown is required

Notes:
1. Revenue and EBITDA shown above are excluding other income

Aster – Snapshot, Evolution and Footprint

Aster – An Integrated Healthcare Provider

Operational and Financial Overview

Strategy and Leadership

IADMHL – Strategy & Outlook (1/2)

Strengthening of hub and spoke model in GCC

- To capitalize on the existing primary care clinics network in GCC by adding secondary / tertiary care hospitals
- In FY18, 65 bed Aster Hospital, Doha commenced operations to utilize the untapped Aster clinics network in Doha
- Planned addition of ~240 beds over next 2 years in UAE to capitalize on Aster and Access brand clinics, located farther away from our existing Aster Hospital in Mankhool, Dubai
- Above strategy will enable expansion of our quality services in middle and low economic segments category of patients, where there is a supply-demand gap

A comprehensive human resource strategy utilizing our geographical diversity and catering to future growth

- To create an enabling environment for skill development and growth of doctors and paramedics, providing quality care to our patients
- Maintain the current high retention of senior doctors across the group
- Identify and add to the strong pipeline of doctors for our expansion & replacement requirements; early identification is key, especially in GCC countries due to strict licensing requirements
- Selective GCC licensing of doctors from our Indian hospitals – to enable need based transfer to GCC hospitals & clinics
- Retention of skilled paramedics in Indian operations, by fulfilling aspiration of career growth outside India

Scalable systems implementation, tightly integrated with operations/market requirements

- Systems implementation with focus on scalability and future business requirements
- Enhancement of patient experience through technology at each patient touchpoints
- Information systems to drive productivity improvement

Strengthening of our medical tourism network

- To further strengthen integration of GCC & India operations to provide consistent quality experience to patients across geographies
- To position our premium segment Medicare hospitals as service provider of choice for affluent international patients travelling to Dubai for medical tourism; Strategy in-line with Dubai government's medical tourism strategy with a vision of making as a globally recognized destination for elective health and wellness treatments

iADMHL – Strategy & Outlook (2/2)

Profitability growth & brand positioning using product-mix and technology

- Focus on margin expansion through sale of own / exclusive licensed products
- Shift to online ordering of prescription for enhanced patient experience

Building of brand, talent and capability in KSA – a key market in GCC

- There is significant demand for quality healthcare services in Kingdom of Saudi Arabia (KSA), currently the largest economy in GCC with the highest population; Further, current policy reforms expected to improve the business environment in KSA
- Having successfully diversified our revenue streams in KSA, ADMHL further plans to strengthen our brand, talent pipeline and management capability

Specialized, asset-light growth in India

- Focus on key centres of excellence - Orthopedics, Medical Oncology, Cardiac Sciences, Neurosciences, Gastroenterology, Women and Child, Bariatric, Integrated Liver care, Nephrology, Urology, NICU & Dermatology
- Growth in addition to the current committed projects to follow an asset-light model in metropolitan and tier-I cities with large format hospitals (400 to 500 beds each)
- Expansion into tier-II and tier-III cities in partnership with local hospitals by leveraging IT/tele-medicine, instead of building/leasing hospitals

Cost Optimization

- Back office integration across strategic business units
- Clear demarcation of medical and non-medical activities in hospitals/clinics and re-allocation of activities accordingly
- Centralization of purchases to utilize our economies of scale

India Strategy

The new National Health Protection Scheme announced by the Central Government will cover half of the population in India, and lead to significant improvement in capacity utilization in Indian hospitals and enable scope for further expansion

- GDP spent on healthcare in India is very low and there is significant demand supply gap
- Low affordability and insurance penetration are major reasons why healthcare hasn't taken off
- NHPS will enable newer operating models to capture emerging opportunity – suit your pocket, assisted living, etc.

In line with focus on derisking business – target of 25% of overall revenues

India is geographically well positioned for medical tourism from the GCC states, MENA region and South-East Asia

Focus on large format hospitals in Tier 1 cities – Hospitals in Tier 1 cities estimated to deliver superior EBITDA margins

GCC network leveraged to promote medical value tourism to India operations

View entry of regulator in Indian healthcare as a positive change – Aster DM has extensive experience of operating in regulated GCC markets

Long-term lease or an O&M model to enable better ROCEs

Focus on hospital driven operating model vs 'Superstar doctor' driven operating model

Aster DM Hospitals consistently amongst the top in google rankings and patient endorsements – Visibly growing appreciation in India for quality healthcare, clinical excellence and patient service
