Re: Submission of Investors Presentation for Q1 Results FY 2017-18.

Dear Sir,

We are forwarding herewith Investors Presentation for Q1 Results FY 2017-18. Kindly take the same on record and oblige.

Thanking you, Yours faithfully,

For Skipper Limited

Marich Agandal

Manish Agarwal Company Secretary & Compliance Officer

Power Transmission & Distribution Business	Performance Update 12M & Q1 FY' 18

Skipper: About us

 Incorporated in 1981, Skipper Limited is the Flagship company of the S.K. Bansal Group

Manufactures:

Transmission Towers & Poles Tubular Poles Monopoles PVC / CPVC Pipes & Fittings Solar Structures One of the world's largest Integrated Transmission Tower manufacturing companies with Angle Rolling, Tower, Accessories & Fastener manufacturing and EPC line construction

 Largest manufacturer of T&D structures in India and among top 10 globally

 Largest producer of Plastic Pipes & Fittings in West Bengal, the fastest growing and second largest in Eastern India

- 8 manufacturing plants located across India
- Awarded as the "Fastest growing Transmission Tower manufacturing company in India" and "Largest Tower Supplier" to PGCIL
- Awarded as "Best Industry in Water Resources sector" by Central Board Of Irrigation And Power
- Total workforce of 2,200+ members

FY'17 Key Snapshot

Particulars	Rs in Mn
Net Sales	16,786
Operating EBITDA	2,267
EBITDA (incl FX fwd income)	2,460
PAT	1,115
Networth	4,909
*Net Debt	4,129
Order Book	25,890

• Debt net of Cash & Cash equivalents

• Fig based on Indian GAAP

Growth Highlights

3yr CAGR (FY14-17)

- Revenue 17%
- EBITDA 31%
- PAT 61 %
- Order Book 26%

FY'17 Highlights

- Operating Margins 13.5%
- EBITDA Margins 14.7%
- Net Debt by Equity 0.84
- Interest Coverage 3.56

Our key milestones

Our management team

Mr. Sajan Kumar Bansal

Managing Director

The driving force behind the company's exponential growth since the start of the new millennium. Under his visionary leadership, the company has grown from a single unit, single product manufacturer into a multi-unit, multi-product manufacturing enterprise – ranging from steel to plastics.

Mr. Sharan Bansal Director

A mechanical engineering graduate, he is currently heading the tower manufacturing and EPC business of the company and has taken it to a leadership position in the industry.

A Masters in International Business, he is heading the tubes and tubular products divisions of the company. He is also responsible for the group's upstream expansions.

Mr. Devesh Bansal Director

Mr. Siddharth Bansal Director Heading the company's first diversification into non-steel products, he is responsible for the PVC pipe manufacturing divisions. He has a degree in Entrepreneurship from the University of Illinois, US.

Our management team

Mr. Amit Kiran Deb IAS (Retd) Chairman Held several responsible and important portfolios in the WB State Government such ลร Home, Cultural & Information, Tourism and Industry before finally retiring as Chief secretary and Tourism secretary, he has interactions had close with prominent industrial houses in West Bengal as well as in India and has profound knowledge and experience with different types of industries.

Mr. Joginder Pal Dua Ex Chairman,

Allahabad Bank & BIFR XIMB, IBPS, IIB

9

Served as Chairman and Managing Director of Allahabad Bank for five years and retired as Chairman of Board for Industrial & Financial Reconstruction (B.I.F.R.). He has held several important portfolios in many reputed banking organizations and was on the governing board of several premier education institution like NIBM, XIMB, IBPS, IIBF and IIBM.

Mr. Manindra Nath Banerjee IAS (Retd) Served as Managing Director as well as Chairman of more than 10 State Government undertakings. He has also worked in Durgapur Steel Plant on deputation from State Government.

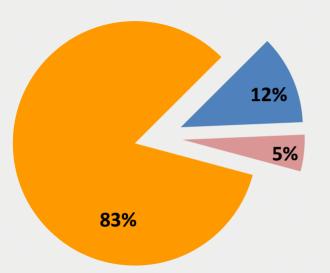

Mrs. Mamta Binani Past President, Institute of Company Secretary of India

Past President of the Institute of Company Secretary of India and occupied as one of the leading practicing Company Secretary from the eastern India. Her professional career includes 17 years of experience in corporate consultation & advisory.

Engineering Products Power Transmission & Distribution Business

Global T&D Investment (2015-40)

According to World Energy Outlook (WEO) 2015, a total of US\$ 8.4 trillion investments are expected to flow in the global T&D investments between 2015 and 2040, averaging US\$320 billion per year.

A \$ One Trillion Global and Indian Opportunity

\$1trn Investment in global T&D

Global T&D sector is projected to attract investment of over \$1trillion over the next 5-6 years.

- □ Mounting demand for power in Asia and Africa;
- □ Increasing demand for clean energy;
- □ cross-border power networks, especially in Europe and Africa;
- □ and transmission systems across underdeveloped areas.

India Transmission capex estimated at INR2.6t (+49%) in the 13th Plan (2018-2022e)

Power-evacuation constraints and high T&D losses have attracted the attention of policymakers for more investment in transmission infrastructure to match the investment in power generation

- □ Under-investments in power transmission vis-à-vis generation finally catching up;
- □ Increased government focus on transmission and rising demand;
- □ Grid shifts to higher voltages and new technologies;
- □ States to drive spending;
- □ Integration of Renewable Energy Project.

\$1trn of global investment in the T&D sector (70% from developing regions) opens up vast opportunities

Government Focused - To Build a Strong Power Delivery Chain

Skipper: Power transmission business

India: Exponential power transmission sector opportunities

- Power-evacuation constraints and high T&D losses have attracted the attention of policy-makers for more investment in transmission infrastructure to match the investment in power generation
- Under-investments in power transmission vis-à-vis generation finally catching up
- Dedicated schemes of Rs 1.09 lakh cr for 24x7 power in rural and urban areas
- An unprecedented Rs 1 lakh cr allocated by the central government for the national transmission grid

- In each Transmission Line project (excluding substations), portion of towers is about 40%.
 Conductors and Insulators are about 40% and EPC is about 20%
- The government's increasing focus on transmission reflected in the total line capacity addition from 2,57,481 Ckm in the 11th Plan to 3,64,921 in the 12th Plan and 4,70,515 ckm in the 13th plan.
- India Transmission capex estimated at INR 2.6 trillion (+49%) in the 13th Plan.
- More than 100,000 ckm of transmission lines at 220 kV and above is expected to be added during 13th plan period

 Transmission sector capacity addition (Ckm)				_
9th Plan	10th Plan	11th Plan	12th Plan (upto March '17))
1,52,269	1,98,407	2,57,481	3,67,851	
	· · .	•	20 \$KI	PPER

India: Exponential power transmission sector opportunities

Establishment of dedicated green energy transmission corridors to cater to the massive renewable power generation target of 1,75,000 MW by 2022

Growing interest in tariff-based competitive bidding (TBCB) by several private sector giants such as Sterlite, Essel and Adani

Growing inclination by the SAARC to develop robust transmission grid connections for ease of power trade between the nations

Sizeable products currently under bidding are:

- Rs 10,000 cr transmission investments in India's northeast under the NERPSIP programme
- Rs 25,000 cr 800 KV HVDC Raigarh Pugalur Transmission project
- Rs 40,000 cr Plus Green Corridor Projects (Lines being built in Western region catering to Renewable power sources)

Skipper: Power transmission & Distribution business overview

7

- Emerged as India's only company (of its size) focusing on transmission tower manufacturing, rather than EPC.
- Ranks among the world leading transmission tower manufacturer & Largest in India

One of the lowest cost producer of transmission tower in the world

 Presence across business sub segments – Towers, Tubular Poles, Monopoles & EPC

- First company in India to manufacture and supply 800 KV transmission towers to PGCIL
- Complete control over the value chain from angles to tower production to fasteners to EPC with a high degree of performance

Skipper: Power transmission & Distribution business

Plant Facilities & Integrated Value . Chain

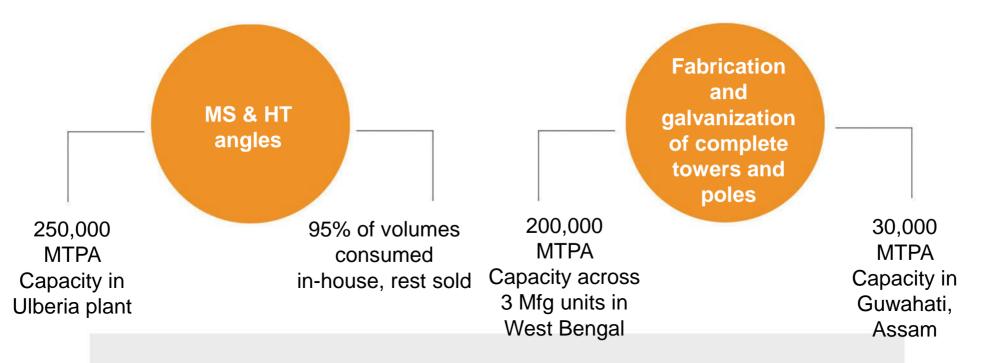

- Skipper has three state-of-the art manufacturing plants in Eastern India, two at Jangalpur and one at Uluberia, all near Kolkata, with an installed capacity of 200,000 MTPA.
- A new manufacturing plant in Palasbari (near to Guwahati) having a capacity of 30,000 MTPA was commissioned in March'17, to tap the growing demands of T&D products in the North East region.

Steel billets and bloom

Manufacture MS & HT angles Design & Manufacture complete tower EPC Project

- Captive galvanizing plants and angle and plate CNC lines ensure highest product quality and timely supplies, strengthening customer trust and ensuring repeat business
- Over 75% of our manufacturing is carried out using automated CNC lines, imported from reputed global suppliers.

Why our T&D margins are better than our peers ?

Effect: The combined effect of all four advantages resulting to about 3-4% additional profit for us as compared with peers

Global Foot Prints

What prevents the entry of new players in the business – our competitive moat

- Easy to replicate costs not economics
- Large upfront investments in assets and capacities / approx capex of Rs 4500 Mn for building tower capacity of our size
- Challenges in large-scale industrial land availability, environmental and safety clearances and NOCs
- Challenges in continuous cost-effective working capital supply for smooth functioning of business
- Challenges in forging customer relationships; empanelment with PGCIL is a near 5-year process
- Need of past credentials including significant projects

Polymer Products Business

Skipper: Urban rejuvenation of water take-off

PVC Pipes Industry – Growth Opportunity Size

- PVC pipes and fittings market is projected to grow @ 15% CAGR in FY15-19E
- The industry estimates installed capacity to move from 17 Lac MT to 33 Lac MT over FY 15-19E

The government has announced massive investment plans in the water transmission & distribution space

The government thrust on water, irrigation, improving sanitation, urbanization, the pvc pipes and fittings market to grow at a much faster pace

Programmes of Rs 98,000 cr announced for building next generation infrastructure – smart cities and urban transformation

Major focus by the government to develop 100 smart cities at a total cost of over Rs 7,000 cr

Catalytic shift towards the organized sector for a wide range of building materials now visible for water pipes as well

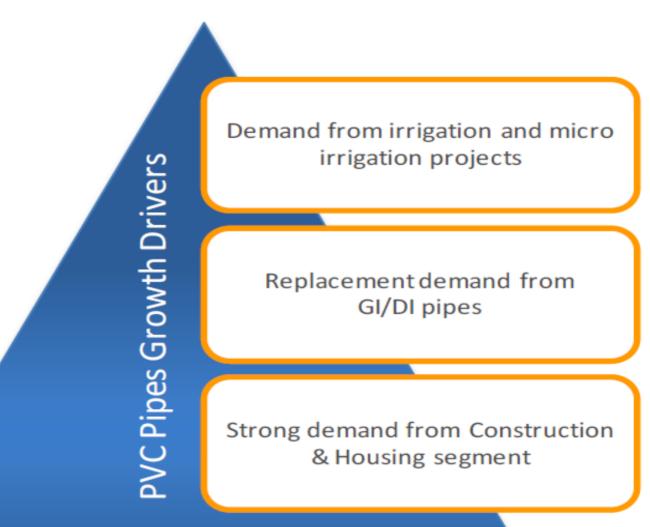

Modern high-rise buildings and large township projects leading to the demand for evolved plumbing solutions

Government focus on infrastructure, irrigation and farm productivity

PVC Pipes Industry - Growth Drivers

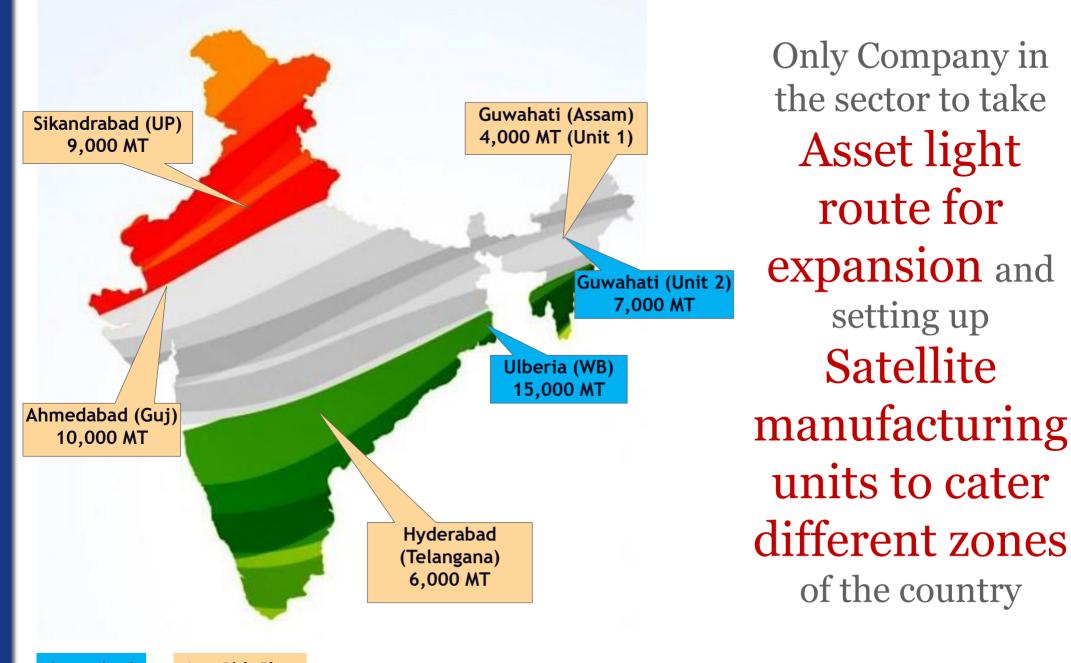

Skipper: Polymer products business

- Business constitutes the manufacturing, branding and supply of Polymer pipes and fittings
- Largest PVC pipes manufacturer in West Bengal; one of the largest capacities in eastern India
- Cumulative production capacity of 51,000 TPA created within only 5 years of business launch
- Technological tie-up with two of the world's most renowned companies Sekisui of Japan for CPVC compound and Wavin Group of The Netherlands for advanced plumbing solutions
- These partnerships open up the prospects of premium brand positioning and product differentiation
- Large-scale and widespread distributorship of over 3,500 touch points
- Scale economies in procurement of PVC resin locally as well as through imports

Polymer capacity expansion under asset light approach

Skipper Polymer Pipes Range of products

- UPVC Lead-Free Plumbing Pipes
- CPVC by Durastream hot and cold Pipes and Fittings
- SWR Magik Flow Pipes and Fittings
- Agricultural Pipes & Fittings
- Borewell and Irrigation Pipes and Fittings
- HDPE Pipes

UPVC Lead-Free Plumbing Pipes

- Unaplasticised Polyvinyl Chloride Skipper High pressure UPVC solvent weld system are the most suitable and easy and economical solution for transportation and distribution of portable water
- It is manufactured in 15mm to 300 mm sizes as per ASTM D-1785
- The complete range of fittings in SCH 80 and also available as per ASTM D- 2846
- Pipes are 3 m long and are available in both SCH 40 and SCH 80
- A lead free variant is also available

CPVC by Dura stream Pipes and Fittings

- Skipper CPVC Durastream hot and cold pipes and fittings Corrosion free hot and cold pipes and fittings comes with the standard of IS 15778 and ASTM 2846
- It is a long lasting and cost effective solution for Hot and cold water in plumbing and portable applications
- The pipe are available in the complete range from 15mm to 50 mm. The pipes are available in SDR 11 and SDR 13.5, whereas fittings are available in SDR 11 pressure class

SWR Magik flow Pipes and Fittings

- SWR pipes- (Soil, water and rain)
- Smooth finishing Magik flow pipes and fittings that allows free flow ensuring better performance
- It is highly recommended for residential / office /hotel and commercial use
- It comes in 75mm/ 110mm/ 160mm
- Light and easy to handle, They have very high tensile and impact strength making it tough, resilient and durable
- It is resistant to rust, UV Radiation and most chemical action, They ensure a very long life span

Borewell system and Column Pipes

• Skipper Borewell Casing Pipes :

Highly recommended by experts at the highest level for its strength and longer span. They are cost-effective, light and easy to install. It offers three types:

- Casing shallow these pipes are suitable for wells with depths upto 80m
- Casing medium these pipes are suitable for wells with depth above 80m and upto 250 m
- Casing deep these pipes are suitable for wells with depth above 250m and upto 450m

• Skipper Ribbed Strainer Pipes :

Are available in 1.8,2 and 3m lengths, they are used for filtration of ground water and are installed at that depth of boring pipe where clean water is available.

They conform to IS: 12818

• Shipper Column Pipes :

Are made to Fit in extra depths and sustain load deep under. These pipes are used for transmission of water from a submersible pump towards the desired source

Agricultural Pipes and Fittings

- These are the best solution for perfect Irrigation
- The Skipper brand of rigid PVC Pipes Comes under class 1,2,3,4 and 5 with water pressure capacity of 2.5kg/cm2, 4kg/cm2, 6kg/cm2, 8kg/cm2 and 10kg/cm2 respectively
- Also widely used for long water supply lines to deliver water to agricultural fields.
- They have superior quality and thickness and are generally used for irrigation and under ground laying of pipes for fresh water supply.
- Rigid pipes conform to IS 4985 and Fittings conform to IS 10124

CPVC | UPVC | SWR | BOREWELL | AGRICULTURE

Outperformance driven model

Competetive Advantage

INR 8000 per MT of capacity added (industry average of about INR 20000 per MT) achieved through Asset Light model

Contemporary

70% of Gross block less than 5 years old Cost effective management; and one of the very few companies in India to be assured of CPVC for manufacture of state of the art pipes

Brand positioning

Value for money despite a narrowing price differential between its products and their band leader

One of the few Companies in India having NSF certification.

36

De - Risked

Retail sales 90% of volumes; lower Vulnerability to cyclical impact

Business Summary Highlights

- Skipper's Polymer products business is a high growth segment and has been growing at a fast clip of 50% over the past few years
- With its new expansion plans, the business is expected to double its size over the next 3-4 years with a targeted capacity of 1,00,000 MT.
- EDIBTA-accretive business with average margins of 13% 14% made by the comparable peer group.
- Tie-ups with Sekisui will further aid the product premiumization strategy and help open up new customer segments and geographies
- Accelerated capacity creation plans Already established 5 plants during the last 2 financial year, Recently commissioned Guwahati plant (unit 2) to cater nationwide Polymer fittings requirement.
- Presence of only a handful of national brands (only 4 to 5) provides for a significant upside for a financially-strong frontline company like Skipper to swiftly break into segment and create a pan-India presence

Polymer products growth & ambition blueprint

- Doubling the capacity to 100,000 TPA by FY 19
- Emerge among the top five PVC pipe makers of India
- Evolve from Zonal to National
- The addition of CPVC pipes to the product basket strengthens our position further in plumbing Centre's apart from the the rural agricultural sector
- Pursue mix of equipment rental cum asset-lightness cum equipment portability
- Focus on achieving best quality at lowest delivered cost
- 90% retail sales to taper to 60% (rest projects)

Advantage Skipper

- Present in two of India's high-growth businesses with potential catch-up demand plus fresh demand
- Increasing business synergies with potential to cross-sell products
- Projected increase in blended margins on account of valueadded products and venture
- Backward integration enabling cost optimization, swifter time-to-market, high quality control, timely dispatch, superior customer service, much lower exposure to commodity price fluctuations, higher margins and business sustainability and facilitating entry into new geographies with new products
 and solutions

Advantage Skipper

- PGCIL approved and ISO certified plant with large manufacturing capacity enable us to participate in large projects size orders
- Sizeable and growing capacities help serve large order sizes promptly
- Flexible production schedule to cater to varying order sizes
- Complete backward integration reduce customer exposure to commodity volatility; this fosters a stable pricing environment
- Engineering and design excellence help optimize product and process costs and drive high levels of customization

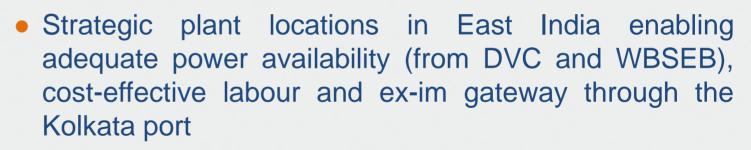

- One stop customer convenience through in-house availability of products, accessories and technical services
- Strong logistics support ensuring doorstep delivery
- Good industrial relations; large and stable workforce
- Multiple plant locations; contemporary technology
- Several pride-enhancing customers PGCIL, Tata Projects, L&T, Angelique International, EMCO Ltd, Reliance Jio,etc

- Large order book of Rs 25,590 Mn (as on March 2017) ensures turnover visibility for at least the next 18 months.
- Sufficient working capital limits from the banking consortium led by SBI
- Venture into exciting segments starting of monopole division, providing a viable substitute to large lattice towers in urban and semi-urban areas where land acquisition is a growing concern
- Strong management bandwidth and a professional and loyal resource base
- High return for stakeholder, led by High Asset turn, Asset light expansion and strong margin

Thank you

Disclaimer: This Investor Presentation has been prepared by Skipper Limited for investors, solely for informational purposes. The information contained herein has been prepared to assist prospective investors in making their own evaluation of the Company and does not purport to be all-inclusive or to contain all of the information a prospective or existing investor may desire. In all cases, interested parties should conduct their own investigation and analysis of the Company and the data set forth in this information. Skipper makes no representation or warranty as to the accuracy or completeness of this information and shall not have any liability for any representations (expressed or implied) regarding information contained in, or for any omissions from, this information or any other written or oral communications transmitted to the recipient in the course of its evaluation of the Company. This Information includes certain statements and estimates provided by the Company with respect to the projected future performance of the Company. Such statements, estimates and projections reflect various assumptions by management concerning possible anticipated results, which assumptions may or may not be correct. No representations are made as to the accuracy of such statements, estimates or projections. Prospective investors will be expected to have conducted their own duiligence investigation regarding these and all other matters pertinent to investment in the Company. This presentation may contain statements that are not historical facts, referred to as "forward looking statements." The corporation's actual future results may differ materially from those suggested by such statements, depending on various factors including statements contained in the Company's filings with the Stock Exchanges and our reports to shareholders. The Company does not undertake to update any written or oral forward-looking statements that may be made from time to time by or on behalf of the Company.
