Key Highlights - Consolidated

Minda Furukawa – Turnaround Strategy

- A structured approach is being followed for the turnaround of Minda Furukawa, a JV focused on supplying wiring harness for Japanese passenger vehicles made in India
- Minda Corporation and joint venture partner jointly created a task force to make MFE sustainable and profitable on a long-term basis
- The task force has successfully completed the following steps:
 - The Company has successfully re-negotiated the raw material prices with JV partner as well as domestic suppliers.
 - Royalty payments and other costs to Furukawa have also been re-negotiated and reduced.
 - Rationalisation of manufacturing facilities progressing as per plan.

The above measures have been initiated during the later part of FY2017 and the benefits are expected to be reflected in FY2018

Commentary – FY2017 vs. FY2016

• The growth of 21.1% in FY2016-17 revenues was on account of steady increase in sales across the product segments and the group companies.

- FY2016-17 EBITDA margins declined due to increase in commodity prices and losses in one of the subsidiaries, which is now on the turnaround path. EBITDA margin are expected to return to normalcy in FY2017-18.
- EBITDA was also impacted due to initial expenses towards strategic investments in expansion projects such as the Mexico plant and Spark Minda Technical Centre (Pune)

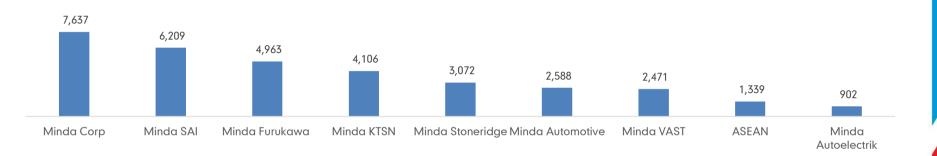

- FY2016-17 Net profit stood at Rs. 961 million, lower by Rs. 112 million compared to the same period last year. Margins stood at 3.2%. Net Profit margins are expected to recover in FY2017-18
- Minda Furukawa: A structured approach is being followed for the turnaround of Minda Furukawa, a JV focused on supplying wiring harness for Japanese passenger vehicles made in India. The steps include re-negotiation of raw material prices with JV partner as well as domestic suppliers, reduction in royalty payments to Furukawa and rationalisation of manufacturing facilities
