Dear Sir/ Madam

**Subject: Investors Presentation**

Please find attached a copy of Investors presentation that would be used in the earnings call on August 8, 2022 at 10.00 am (IST) on the Unaudited financial results of the Company for the quarter ended June 30, 2022.

The above presentation will also be made available on the website of our Company at [www.sansera.in](http://www.sansera.in).

Kindly take the same in your record.

Thanking you,

**for Sansera Engineering Limited**

**Rajesh Kumar Modi**  
**Company Secretary and Compliance Officer**

**SANSERA ENGINEERING LIMITED**

INVESTORS PRESENTATION  
**AUGUST 2022**

This presentation and the accompanying slides (the “Presentation”), which have been prepared by **Sansera Engineering Ltd. (the “Company”)**, have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

This presentation contains certain forward looking statements concerning the Company’s future business prospects and business profitability, which are subject to a number of risks and uncertainties and the actual results could materially differ from those in such forward looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, our ability to manage growth, competition (both domestic and international), economic growth in India and abroad, ability to attract and retain highly skilled professionals, time and cost over runs on contracts, our ability to manage our international operations, government policies and actions regulations, interest and other fiscal costs generally prevailing in the economy. The Company does not undertake to make any announcement in case any of these forward looking statements become materially incorrect in future or update any forward looking statements made from time to time by or on behalf of the Company.

## Toyota Industries

Best Target Achieved Supplier in Delivery  
of the year 2021

**Mr. B R Preetham**  
**Group CEO**

**Commenting on the performance Mr. B R Preetham Group CEO, Sansera Engineering Limited said,**

*"With a 35% yoy growth in our topline of Rs. 5,329 Mn, once again, Sansera reported a healthy set of numbers. As the precision forged and machined components supplier with the comprehensive capabilities, we have created a unique value proposition for our customers. As a result, we have added new customers and our existing customers are expanding their product basket with us.*

*Slowly and steadily, our product portfolio is shifting towards our long-term vision which we have set forth. In Q1 FY23, Auto-Tech Agnostic & xEV products contributed 9% of the topline vs 4% in Q1FY22 and 6% in FY22. As on 31-Jul-22, our orderbook with annual peak revenues stood at Rs 11.1 bn, with auto ICE contributing Rs 5.3 bn/ 48%, auto tech-agnostic adding Rs 3.4 bn/ 31% and non-auto accounting for Rs 2.4 bn/ 22%. This orderbook also echoes our evolving product mix and customer base. Going forward, our growth will come on both auto and non-auto side*

*The Indian auto-ancillary manufacturers are well positioned and appreciated for their work in the areas of robust component development, consistent quality and clear-cut price advantage. Besides, China Plus one strategy has also been helpful in acquiring more and more businesses. Sansera is well equipped to capture these growth opportunities with long history of operational excellence.*

*We also see strong growth opportunities in the new technologies, new materials and we are committed to grow in these areas while mitigating business risks. We expect technology agnostic and non-auto components to grow by around 50% in FY23, with our new facility coming on stream, aerospace & defence would be a major contributor to this growth. I am confident that the investments we have been making on aerospace and defense side will help us tremendously as this long-anticipated industry recovery arrives."*

# Strong and diverse business pipeline for future growth

276 LOIs/Purchase Orders from 74 customers in the auto and 34 customers in the non-auto sector

## Strong pipeline...

### Automotive customers (#)

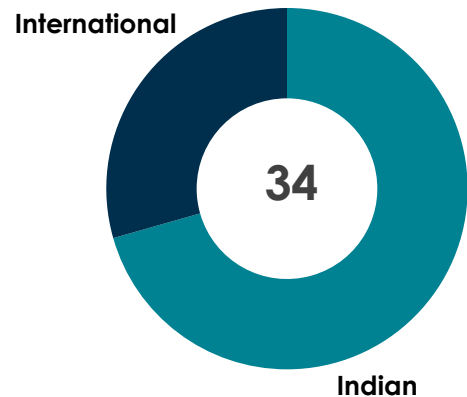

10 xEV Customers

5 (2W)

3 (PV)

### Non – automotive customers (#)

## ...with 276 LOIs/Purchase Orders

## ...and rising peak annual revenues

In April-22, we had a won a framework order from a leading North American OEM for development, manufacturing and supply of connecting rods starting July 2025 worth Rs. 3.0 Bn. As intimated on 26-Jul-22, basis recent review of business plan/ strategy, our customer has decided to drop this project, consequent to which, the contract awarded to the company by the aforesaid OEM stands withdrawn

# Company Overview

An engineering-led integrated manufacturer of complex and critical precision forged and machined components catering to OEMs globally

Well diversified business across.....

Ready to capture upcoming opportunities with....

**17** Facilities

**Integrated manufacturing facilities**

- Entire manufacturing process being carried out in-house & supported via concurrent engineering capabilities.
- Modular and fungible production lines

**249** Dedicated team

**Strong in-house engineering capabilities**

- High focus on engineering, machine building, automation

**Professional management**

- Distinguished board and experienced management team
- Professional leadership – CEO, CFO & Head of Operations

**Resilient financial performance & strong profitability**

# Emphasis on diversification for four decades

Over the decades, adaptation and diversification into wider market has been the key for Sansera's growth

# Wide range of product offerings: Auto

Sansera has a track record of developing complex and critical precision engineered components for the automotive sector over multiple decades. Most of the products are sold directly to OEMs in finished (forged and machined) condition, resulting in significant value addition by us

	Two - Wheelers				Passenger Vehicles		Commercial Vehicles

## Sales Mix (FY22) <sup>(1)</sup>

## Customer Relationship

By Geography

By Customer

By Product

Top 20 Customers

A wide portfolio of products across 70+ product families catering to auto and non-auto customers across 25 countries

Source: Ricardo report, CRISIL report.

1. Based on sale of products

249 personnel working on design, engineering, machine building, automation & technical support functions

## In- House Machine Building Capabilities

Automated Cells

Internal grinding machines

4 station special propose machines

Double disc grinding machines

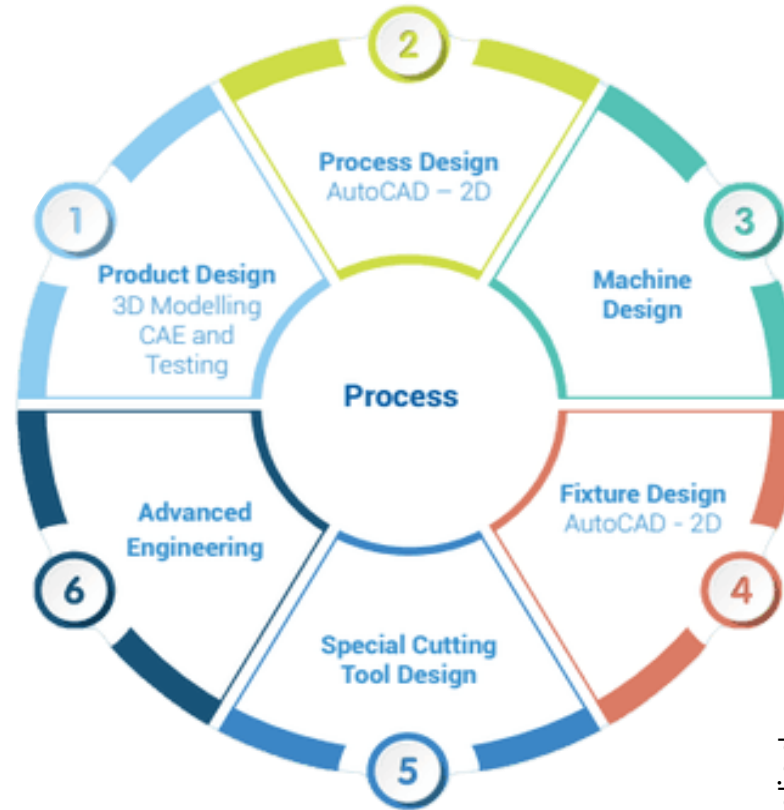

Vertical honing machines

### Highlights

- › **975+** CNC Machines built in-house
- › **49** machines manufactured in 2021-22
- › **56** dedicated personnel in machine building division

### Outcomes

- › Capital and operating efficiency
- › Reduced reliance on third party suppliers
- › High responsiveness to customer needs

Product Families Supplied

## Automation Capabilities

**32** Dedicated personnel in the automation division

Automated fracture and bolt assembly cells

Robotic final inspection cells

**170** Robots installed across all facilities

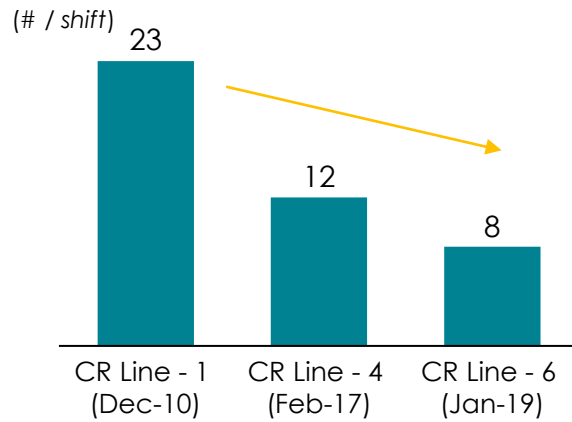

### Outcomes

- › Increased Productivity
- › Increased Cost Control
- › Consistent Product Quality

**Improved** Productivity, **Increased** Automation, **Reduced** Manpower

## Case Study: Evolution of fractured connecting rod (CR) lines over six generations over 8 years

### Manpower / Shift

**Interchangeable capacity and product mix across all products categories (auto and non-auto) optimising productivity & efficiency**

### "Takt" Time<sup>(1)</sup>

**Designed and built automated gantry lines for suspension component - stem comp**

### Output per day

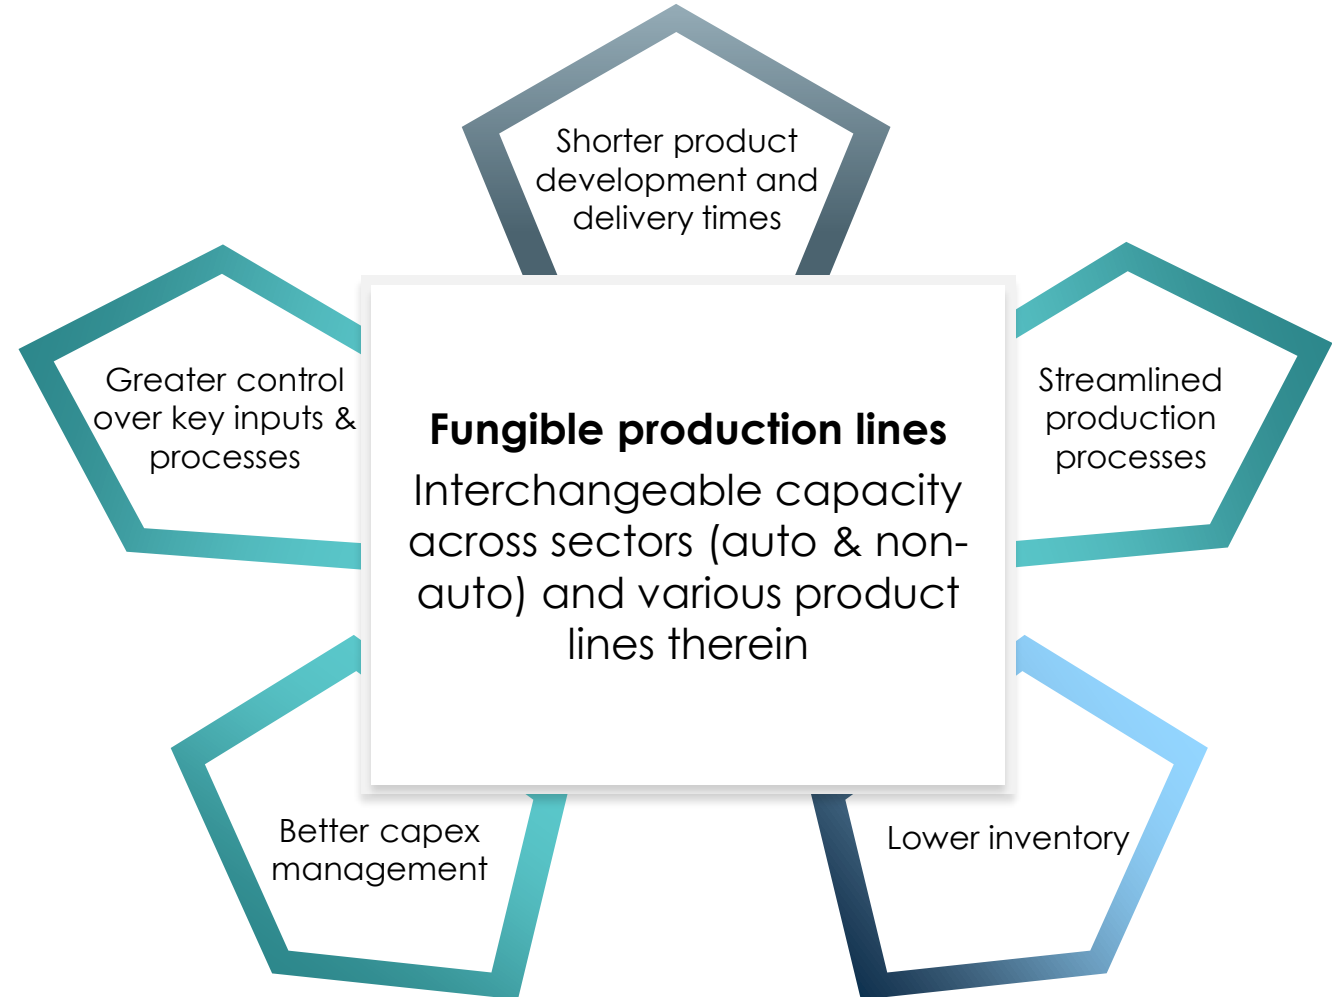

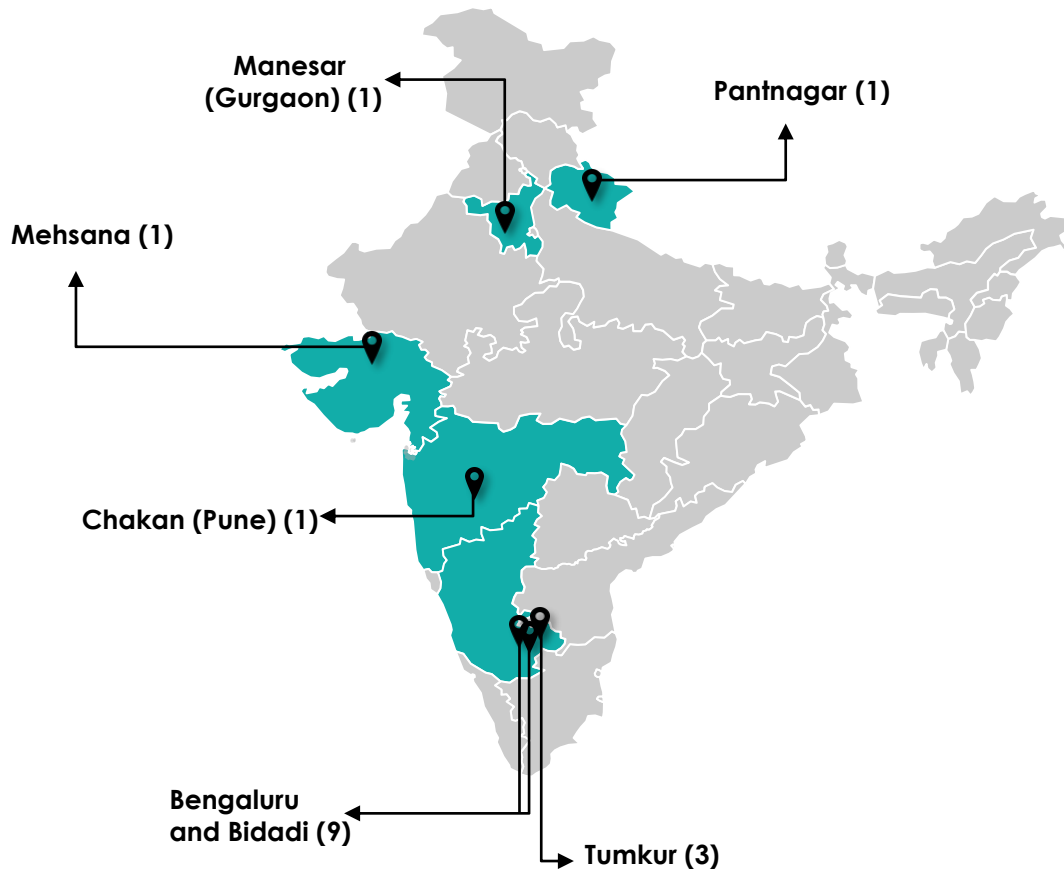

**Plan to deploy the automation capabilities across other manufacturing lines**

Note: 1. takt time – average time between the start of production of one piece and the start of production of the next piece.

# Integrated manufacturing facilities

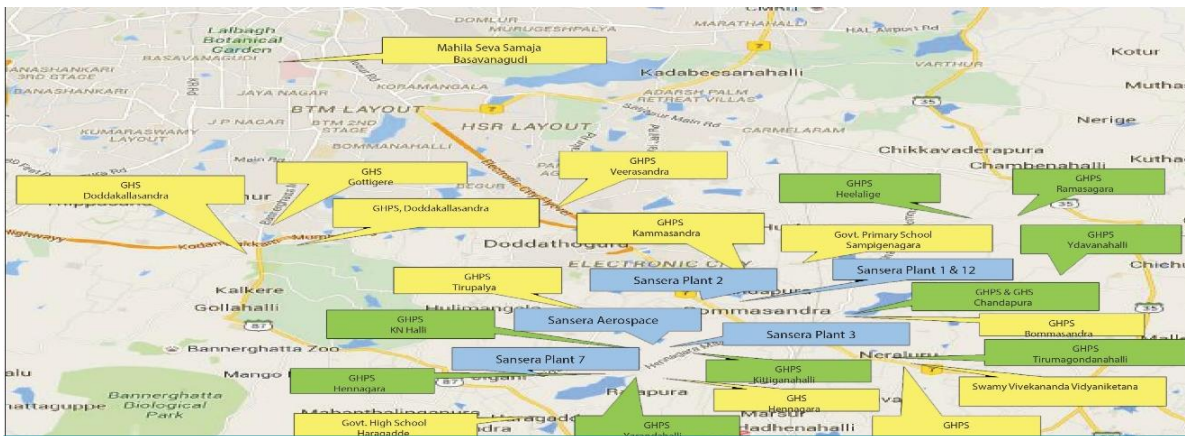

Sansera has 16 plants under operation across India, 1 in Sweden and 1 under construction in India  
All its facilities are located in close proximity to the client production facilities

## Environment

- › Rejuvenation of Bommasandra Lake
- › Waste Management

## Education

- › Scholarship programme
- › Science kit support
- › Renovation of Gurubhavan
- › School bus donated to Shivanahalli Vivekananda Ashram
- › Infrastructure support to Begur school
- › 5S implementation in School

## Healthcare

- › Distributed food packets during COVID-19
- › Donated beds and ECG Machine to Corona Primary Health Care Centre
- › Provided Oxygen Concentrators & Bipap Donation
- › Donated Oxygen Concentrators
- › Encouraged blood donation by Sansera employees
- › Supported Government Primary Healthcare centre

Way Forward

# Clear path to accelerate growth

Diversify into tech-agnostic products and cater to the xEV opportunity

Consolidate and strengthen global market share in existing portfolio and diversify into technology agnostic products

Continue to leverage existing capabilities to diversify further into non-automotive businesses and **expand addressable market**

Retain and **strengthen technological leadership** through continued focus on engineering capabilities

# Diversify into tech-agnostic products and cater to the xEV opportunity

Technologically agnostic and EV / Hybrid components developed / under development for each segment

2W / e-2W

Drive Train Components

Suspension Components

- › Lol from a leading electric 2W OEM in FY21
- › SOP commenced from Oct-21

PV / Hybrid / B-EV

Steering parts

Drive Train Components

Braking System Components

- › Supply of steering components started from Jun-21
- › Drivetrain components SOP started from Jun-22
- › Supply of braking assembly components to start in FY23

CV

Chassis Components (Cabin Tilt System)

Braking System Components

- › Developing proto samples for a leading global BEV OEM
- › Supply of cabin tilt system components started in FY21
- › Supply of braking system components started from Jul-22

Phase 1 of setting up a dedicated facility for hybrid and electric components within our existing Plant at Bengaluru has completed. Production lines for 2W-xEV and hybrid-PVs have begun mass production in Q4FY22

# Leverage existing capabilities to diversify into non-automotive businesses & expand addressable market

- › Supply of machined engine casings to Aerospace segment started from FY22
- › Supply of suspension components for off-road started in FY22
- › Supply of common rail systems for agriculture to start in FY23

	Key Initiatives
<b>Aerospace / Defence</b>	<ul style="list-style-type: none"> <li>› Dedicated facility for aerospace &amp; defence under construction in Bengaluru</li> <li>› Secured orders from defence sector for applications in radar system and space telescope</li> </ul>
<b>Bicycles</b>	<ul style="list-style-type: none"> <li>› Secured order for supply of premium Bicycle parts from North American customer</li> <li>› High potential in this growing market for forged (Aluminium, Steel) and machined parts</li> </ul>
<b>Other sectors</b>	<ul style="list-style-type: none"> <li>› Developed multiple components including CR for industrial engines &amp; construction equipment</li> <li>› Developed precision components for power transmission &amp; railways segment</li> <li>› Supply power tool components used in residential &amp; industrial sectors</li> </ul>

Sansera focuses on providing high value-added and technology-driven components to capture shifts in customer preferences as well as evolving regulatory requirements, such as heightened emissions control standards. Further, this would increase opportunities for us to become a preferred supplier to our customers and consolidate our position

## Leveraging engineering know-how in product design

 <p><b>Multiple Drive Train Components</b></p>	 <p><b>Hybrid and BEV Transmission Systems</b>     <b>Business from Global Japanese OEM</b></p>
 <p><b>Aluminium Forged</b></p>	 <p><b>Intricately shaped components for ICE and Electric 2W</b></p>
 <p><b>GSF with Moly Coating</b> <b>Finger Followers with diamond like coating</b></p>	 <p><b>For Multiple Global OEMs</b>     <b>PVs</b></p>

## Continued focus to enhance engineering capabilities

	<p><b>Commissioned Aluminium Forging Lines</b></p> <ul style="list-style-type: none"> <li>Capitalise on growing demand for light-weight and environmentally friendly components</li> </ul>
	<p><b>Five-axis Machining Capabilities</b></p> <ul style="list-style-type: none"> <li>For machining large structural components for aerospace</li> </ul>
	<p><b>Fatigue Testing Machine</b></p> <ul style="list-style-type: none"> <li>Enhance product reliability, durability and performance</li> </ul>
