RattanIndia Enterprises Drone company Neosky launches Drone training for school children with Narayana Health

New Delhi, February 16, 2024: RattanIndia Enterprise Ltd (REL) is pleased to share that its 100% subsidiary Neosky India limited has today launched an innovative drone training program, in association with 'Narayana Health', for school children in Bangalore, Karnataka.

NeoSky is a full-line Drone player with presence in Done Training, Research & Development, Manufacturing and Services. NeoSky has DGCA-license for drone RPTO (Remote Pilot Training Organisation), having a state-of-the-art drone training centre in Bangalore. The Centre is equipped with advanced flight simulators, provides hands-on drone flying classes, supported by trained & certified instructors. Neosky is engaged in training Drone entrepreneurs, College students and more recently the women from Self Help Groups (SHGs) under "Namo Drone Didi" initiative launched by the Honourable Prime Minister on 30th November 2023. NeoSky offers a range of courses which includes DGCA-Certified courses, and courses specific to drone usage in Agriculture, Mapping, Videography etc.. The focus of the course design is to ensure that the students are industry ready post successful completion of the course. NeoSky's subsidiary company also has a range of drones, including L-Series cargo drones for the healthcare segment. It is also India's first company to successfully test drones for BVLOS (Beyond Visual Line of Sight) with its Med-Copter series.

With this initiative, NeoSky makes a foray into school children training, a pathbreaking initiative to start drone familiarisation and training at early stage. The program will be a good mix of theory & practical training, clubbed with a range of fun activities. The curriculum will also introduce the usage of drones in the healthcare segment. This program is done in association with 'Narayana Health', a leading private health care company founded by Dr. Devi Shetty with a strong network of 45 healthcare facilities.

Speaking on this occasion, **Mrs. Anjali Rattan, Business Chairperson of RattanIndia Enterprises Limited commented:**

"At RattanIndia and NeoSky, our vision is to leverage technology to transform the lives of Indians. Introducing drones' technology early on, to school students, can potentially ignite a spark in the minds of the children, and inspire them to explore the world of drones & technology as they grow up".

Dr. Devi Shetty, Founder and Chairman of Narayan Health mentioned.

"As I engage with my grandchildren through the wonder of drone technology, I'm reminded of the importance of nurturing young minds' curiosity and fostering a love for innovation. Our Narayana Health 'Flight of Dreams' project, utilizing drones in healthcare, embodies this spirit. By exposing children to such advancements, we equip them with the skills and knowledge to navigate the challenges of tomorrow, ultimately building a healthier and more empowered future for all".
