ADTO = Average Daily Turnover

*Based on notional turnover for equity futures, equity options and commodity segments. The same parameter is used for calculating retail turnover market share.

§ Based on notional turnover for equity futures and commodity and premium turnover for equity options. The same parameters are used for calculating retail turnover market share.

[^] NSE is reporting retail category industrywide turnover data for the cash segment. The overall equity (Cash + F&O) & cash segment market share for Mar '24, Feb '24, Q4 FY24, Q3 FY24 and FY24 mentioned in this bulletin, are calculated basis this retail category specific turnover data for cash segment. Due to unavailability of data in same format for Mar '23, Q4 FY23 and FY23, market share computation methodology is the same as before. In our earlier bulletins, prior to April '23, market share for overall equity segment, which included cash segment, was being calculated based on data available under Others category, of which Retail was a part.
