# MAY MISS FY24 TARGET

## CLL may cut output target for next fiscal

Current e-auction premiums at 45%, from 117% in Dec

ARUNIMA BHARADWAJ  
New Delhi, February 19

STATE-RUN COAL INDIA plans to lower its production of the dry fuel to 838 million tonne in the upcoming financial year 2024-25 against the targeted 850 million tonne, the company's chairman P M Prasad said.

This will be due to having accumulated "huge stocks" which have grown to more than 38 million tonne, an all-time high for this time of the year, the chairman said in an earnings call.

The company produced 78.4 MT of coal last month taking its cumulative output for the April-January period at 610.3 MT.

The company has set a target of 780 MT production for the financial year ending March. However, it is likely to miss its FY24's production target, the chairman said.

Moreover, the company's premiums on e-auction of coal has fallen from 117% in December to 45% in the current quarter. In the quarter ended December, e-auctions formed 15% of the company's total revenue at ₹5,233 crore. The company's total revenue stood at ₹33,000 crore.

Going ahead, Coal India will also be participating in the auction of three critical mineral blocks in February. It has also visited lithium mines in Australia and is in preliminary

FE had earlier reported that the country's largest coal mining company is looking to foray into critical minerals and had identified some lithium blocks in Australia, Chile, and Argentina.

"We are going to set up an office in Australia and we are in touch with the ministry of mines," B Veera Reddy, Coal India's director (technical) had earlier said.

# Old tax demand ceiling set at ₹1 lakh/assessee

FE BUREAU  
New Delhi, February 19

IN ACCORDANCE WITH the Budget announcement, the Income Tax department has prescribed a ceiling of ₹100,000 per individual for withdrawal of small tax demands till Assessment Year (AY) 2015-16.

Finance minister Nirmala Sitharaman had announced during her Budget speech that outstanding direct tax demands up to ₹25,000 for the period till FY10 and up to ₹10,000 for the period between FY11 and FY15 will be withdrawn.

This is expected to bring relief to about 10 million taxpayers, and tax demands totalling around ₹3,500 crore will

The move may bring relief to 10 million taxpayers and tax demands totaling around ₹3,500 crore will be withdrawn.

An order issued by the Central Board of Direct Taxes (CBDT) dated February 13 said: "The remission and extinguishment of above outstanding tax demand shall be sub-

ject to maximum ceiling of ₹100,000 per taxpayer."

Importantly, this exemption does not apply to claims against tax deductors or collectors under TDS or TCS provisions of the Income-tax Act, 1961.

The waiver includes the principal amount of tax owed as well as any interest, penalties, fees, cess, or surcharges.

Sandeep Sehgal, Partner-Tax, AKM Global, said, "The relaxation announced with respect to remission and extinguishment of small demands' outstanding as of January 31, 2024 under Wealth Tax Act, Gift Tax Act and Income Tax Act is a significant initiative poised to alleviate the long standing burden of unresolved demands on the taxpayers."

# Rubber plantation aid hiked

FE BUREAU  
New Delhi, February 19

THE GOVERNMENT HAS increased allocation for the 'Sustainable and Inclusive Development of Natural Rubber Sector' by 23% to ₹708.7 crore for the next two financial years, a move that will help ensure higher increase area under cultivation of the cash crop.

The scheme runs parallelly with the tenure of the award of 15th finance commission and is run by the Rubber Board. It provides subsidies for new planting and replanting of old plantations. With the increase, the five-year allocation for the scheme stands at ₹999.86 crore.

Additional secretary in the commerce ministry Amardeep Singh Bhatia said that the funds will be used for supporting plantation of rubber. Traditional areas for rubber crop are Kerala, Karnataka and Tamil Nadu.

No plan to cut rubber import duties

There will be no cut in import duties of natural rubber despite long standing demand from the user industry especially in the automotive tyre sector, Bhatia added.

# ONGC's Mumbai High: 50 years on, still going strong

PRESS TRUST OF INDIA  
New Delhi, February 19

INDIA'S FLAGSHIP AND largest oilfield Mumbai High was discovered on this day 50 years back and while most fields of that vintage have gone out of production, the field in the Arabian Sea is still going strong.

State-owned Oil and Natural Gas Corporation (ONGC) held a function in Mumbai to mark the golden jubilee of the field which "brought newly-independent India on the world oil map". "Over the past 50 years, thanks to the generation of energy soldiers of ONGC, Mumbai High has produced 527 million barrels of oil and 221 billion cubic meters of gas, around 70% of India's domestic production so far," the firm said.

The Mumbai High field (previously Bombay High field) lies some 160-kilometer in the Arabian Sea offshore the western coast of India. It was discovered in February 1974 by the Russian and Indian team from the seismic exploration vessel Academic Arkhangelsky while mapping the Gulf of Cambay.

The field commenced pro-

duction on May 21, 1976.

The field initially produced 3,500 barrels of oil per day and within three years, it reached 80,000 bpd.

A sub-sea pipeline was laid in 1978 to take the oil from the field to refineries in Mumbai. Until then, oil was shipped in tankers.

The field hit a peak of 4,76,000 barrels of oil per day and 28 billion cubic metre of gas in 1989, and has since seen a gradual decline in output. It is currently producing some 1,35,000 bpd of oil and 13 bcm of gas.

A decline in oil and gas production led to the need for a redevelopment plan. Mumbai High has over the years four redevelopment plans, involving billions of dollars of investment, that have kept the oil and gas flowing.

The field still has reserves that can continue to produce for a few more years. It had about 1.659 billion tonnes of total reserves in place.

At the function, former chairmen and directors associated with the western offshore fields were honoured.

# Govt nod to limited onion export

SANDIP DAS  
New Delhi, February 19

THE GOVERNMENT HAS approved exports of around 0.3 million tonne of onion to countries including Bhutan, Bangladesh, Sri Lanka and Mauritius on a government-to-government basis following their request.

Sources said that an official notification is expected soon. The shipment is likely to be executed by March 31, 2024

Exports have been allowed to Bhutan, Bangladesh, Sri Lanka and Mauritius

A senior official told FE that there would not be any blanket lifting of the ban on shipment of onion exports imposed in December, 2023. Instead, shipment would be allowed in limited ways with "terms and conditions".

Farmer groups who have been demanding a total lifting

of the ban on onion exports, because of sharp fall in mandi prices, said that the volume of exports approved is too small to boost prices in the domestic market.

According to the department of consumer affairs, the modal wholesale prices of onion dropped to ₹2000/quintal on Monday from ₹5000/quintal prevailed on December 8, 2023, when ban on exports was announced.

No plan to cut rubber import duties

There will be no cut in import duties of natural rubber despite long standing demand from the user industry especially in the automotive tyre sector, Bhatia added.

# Scheme to purchase maize for ethanol to roll out soon

SANDIP DAS  
New Delhi, February 19

THE GOVERNMENT HAS approved the standard operating procedure (SOP) through which agencies such Nafed and NCCF will enter into pacts with distillers for assured supply of maize at ₹2,291/quintal for ethanol manufacturing, while the

agencies will buy maize from the farmers at an MSP of ₹2090/quintal for kharif season (2023-24).

"The scheme aims to ensure the guaranteed MSP to maize farmers, while distillers get assurance of uninterrupted supply of the feedstock, de-risking price volatility," an official said. The official said that maize procurement will be initiated

in the forthcoming rabi season, while according to estimates, around 3.5-4 million tonne of maize is annually required for ethanol. The move is part of the government's efforts to increase blending of ethanol with petrol, which was around 12% in Ethanol Supply Year (ESY) 2022-23 and the target is to reach 15% in ESY 2023-24.
