Actual fare may vary between cities in India and due to currency fluctuations. Limited seats are available at the advertised fare. Other terms and conditions apply.

IPTEX & GRINDEX-2024

CONSUMER CONNECT INITIATIVE

Gear up for innovation with IPTEX-GRINDEX 2024

INDIA'S MANUFACTURING LANDSCAPE IS EXPERIENCING A REVOLUTIONARY CHANGE DRIVEN BY TECHNOLOGICAL INNOVATION. THE UPCOMING IPTEX & GRINDEX-2024 EVENT IN PUNE IS POISED TO SPOTLIGHT LATEST GEAR TECHNOLOGY

With recent technological advancements and innovation, the world of manufacturing is undergoing an efficient shift. The growing demand for quality products has captivated the industrial sector, compelling it to adapt to the latest technologies and embrace the path of innovation. In recent years, India has emerged as a manufacturing hub, attracting numerous global players to initiate new industrial ventures. According to the latest report from the India Brand Equity Foundation, India is the third most sought-after manufacturing destination globally and is projected to have the potential to export goods worth US\$ 1 trillion by 2030. The Indian government aims to increase the manufacturing sector's contribution to the economy to 25 per cent by 2025. Gears, being at the heart of every machine, play an indispensable role in running all industries. They are fundamental to every function that requires power transmission.

THE EVENT
 Commencing on February 22, 2024, Pune will witness the prestigious IPTEX & GRINDEX event—a remarkable fusion of power transmission and grinding technology. Spanning three days, this event will showcase the latest innovations in gears, mechanical power transmission, and surface grinding technology, alongside an inaugural Gear Technology India Summit and awards ceremony dedicated to the gear manufacturing sector.

Featuring more than 70 exhibitors from 10 different countries, the exhibition promises a comprehensive display of cutting-edge technologies. Previous editions of IPTEX & GRINDEX have attracted more than 3,000 business visitors representing over 50 sectors in manufacturing, including aerospace, automobile, defence equipment, marine, power generation, steel, and cement industries. Attendees can expect the same during the exhibition this year and explore the latest innovations in each sector.

THE DEBUT

Simultaneously, the expo will host the debut edition of the Gear Technology India Summit-2024, organised by Gear Technology India in collaboration with the American Gear Manufacturers Association (AGMA). This pioneering summit, a first-of-its-kind in India, serves as a crucial platform for knowledge exchange among industry experts. During this summit, there will be multifarious panel discussions and seminars comprising gear industry experts who will share their valuable knowledge by covering various aspects of the gear industry, such as the latest trends in gear manufacturing, the role of gears in the EV sector, the application of artificial intelligence in the gear industry, concepts related to design and development of gears in the manufacturing sector, and more.

AWARDS CEREMONY

Attendees will also get to witness a seminar by the delegates of the American Gear Manufacturers Association (AGMA), shedding light on the significance of AGMA standards for the Indian manufacturing industry in fostering the production processes. Additionally, the second day of the exhibition will feature India's inaugural gear industry business excellence and achievement awards ceremony, bringing together manufacturers and vendors to celebrate their remarkable efforts and contributions to the Indian gear industry. Based on various eligibility criteria, they will be awarded under distinct categories such as excellence in design and development, manufacturing, cutting tools and innovation, heat treatment, servicing and testing, social commitment, and many more. This is the first time in India that manufacturers and end-users will be assembling to commemorate their diligence in the gear industry. The 18th edition of IPTEX and the 6th edition of GRINDEX will take place at the Auto Cluster Exhibition Centre in Pimpri-Chinchwad, Pune, starting at 10 am and concluding at 6 pm, running from February 22 to 24, 2024.

22 - 24 FEBRUARY 2024
