MANAGEMENT PERSPECTIVE

We are happy to report that AICL has continued to demonstrate phenomenal results in the 9M FY24 compared to 9M FY23. We have reported a 11.02 % year-on-year (YoY) jump in Bitumen volume at 3.02 Lakh MT. Our EBIDTA has increased by 14.46 % at Rs 116.03 crore and we reported PAT of Rs. 71.21 crore with an increase of 11.34%. We are committed to serve our nation by being an integral part of Indian Infrastructure development. We function as an Infra-ancillary for the transport & logistics segments because of our powerful logistical assets & infrastructure. We continue our stand of being the largest bitumen player in the private sector in India. Our performance has seen a steady growth journey year on year and this has led us to have continual strategic expansion plans to grow our capacities. We now own a fleet of 10 large vessels having total capacity of around 1,02,049 MT which are used in importing raw bitumen from oil producing countries. In Budget 2023 Road ministry got a 36% hike in allocation at Rs 2.7 lakh Cr for 2023-24, to help the ministry meet the 25,000-km road development target announced in the 2022-23 Budget. This development pace is creating a huge demand for road materials, thereby our responsibilities of catering Bitumen has further increased. The market opportunity is tremendous and we have captured almost 20%-30% of the bulk market share in Bitumen in the private sector. Expecting strong growth in infrastructure activity and based on the current market trend and order pipeline, we have a strong guidance of sustainable long-term growth.

Rising consumption with constant production creating opportunities for AICL. Constant production with increasing Y-o-Y demand.

- Bitumen consumption in India is one of the lowest among top 10 countries by road network, creating future growth opportunities.
- India has the second-largest road network in the world at about ~64 lakh kms providing large maintenance opportunities Y-o-Y.
- Large road network compared to vis a vis peers with low bitumen consumption providing opportunities.
- Making India's growth a reality Infra spend on roads and large quantum of repair and maintenance causing demand and recession free growth momentum.

FIGS IN TMT

LARGE ENTRY BARRIERS

Agarwal building capacity y-o-y across India in manufacturing and terminal storage.

- 10 bitumen vessels
- 7 Manufacturing facilities
- 7 Sales network location
- 7 Bulk storage terminals

Efficiently utilizing 30500Mt of Storage Capacity

 Large utilization of storage capacity leading to reduced throughput rate for additional metric ton stored

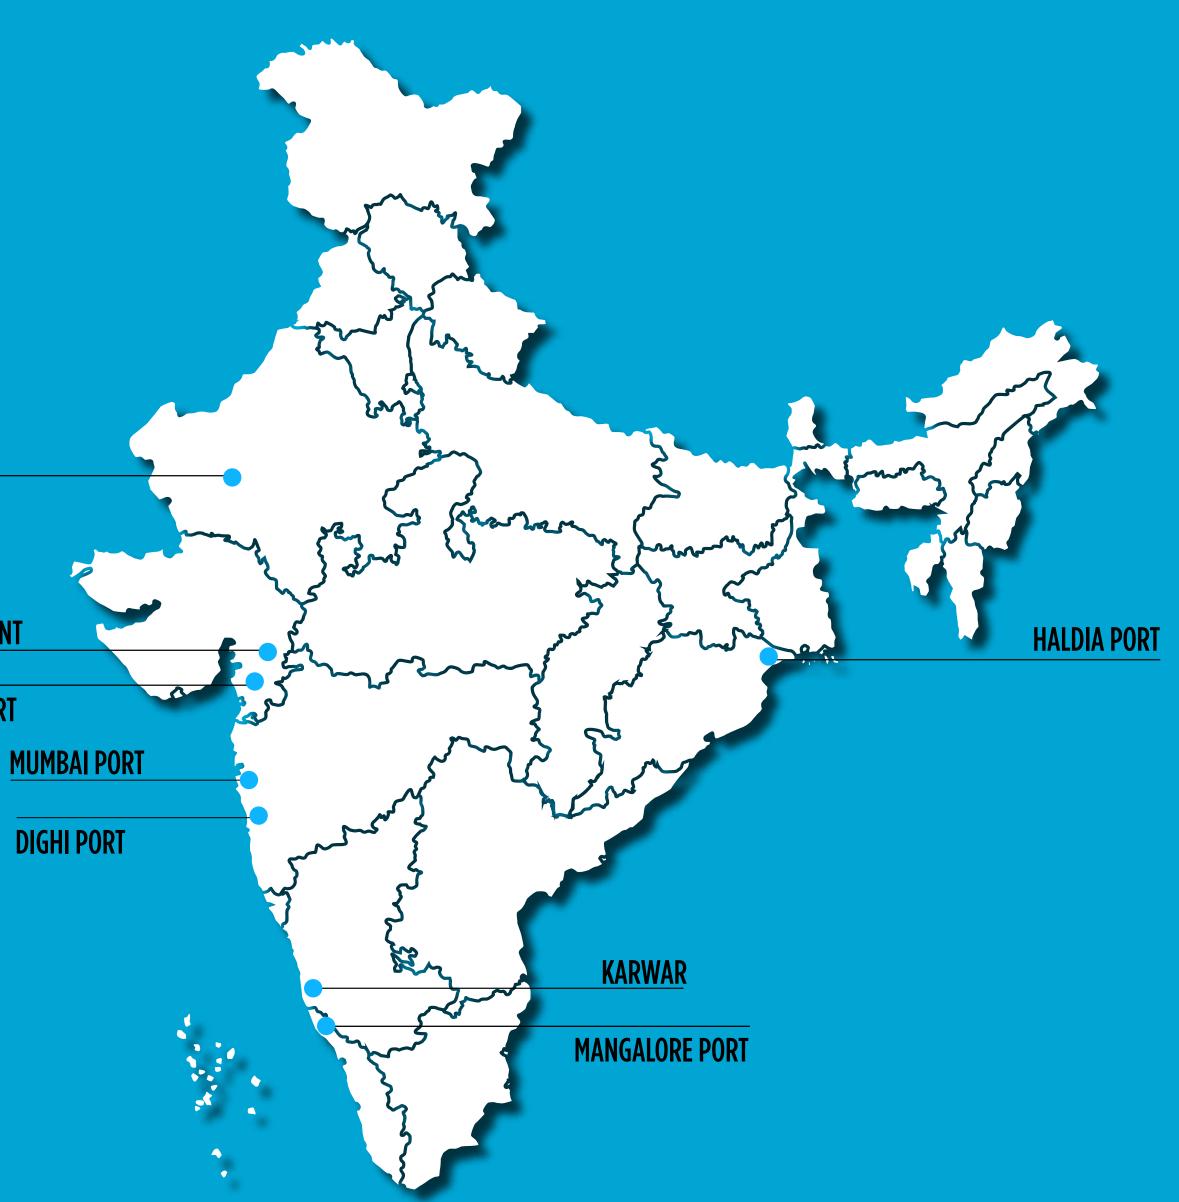

Bitumen will continue to outperform Cement roads.

- Safety concerns in concrete roads higher as vehicles likely to slip or slide owning to rain and snow.
- Cement roads have high initial cost of construction
- Greater maintenance issue as whole slab has to be replaced when roads rupture.
- Paving cost for cement roads is higher compared to bitumen roads.
