Dear Sir,

This is in furtherance to our announcement dated 21st of November 2023 in which we had informed our stakeholders that OK Play India Limited through its wholly owned subsidiary, MRH Technologies Private Limited (MRH) has entered into an agreement with M/s Mann and Hummel Filter Private Limited (MHIN), a subsidiary of the MANN+HUMMEL Group, Germany to act as its sole and exclusive distributor to promote, distribute, supply, install and service its revolutionary new product- "PureAir Mobile Fine Dust Particle Filter Roof Box"- designed to combat the life threatening, hazardous menace of air pollution. Therefore, taking the next step in this direction, OK Play India Limited in association with MANN+HUMMEL supported by Indo- German Chamber of Commerce is organizing a symposium on "**Air Pollution-its causes, effects, Prevention and Cure**" in New Delhi on the 15th of February 2024.

The Invitation Letter along with Agenda is enclosed herewith.

Kindly take the same on record.

Thanking You,

Yours faithfully,

FOR OK PLAY INDIA LIMITED

Meenu Goswami

Dear Sir/Madam,

Greetings of the day.

The well-documented detrimental effects of particulate matter on respiratory systems, cardiovascular health, and overall quality of life warrant an immediate and strategic response.

The MANN+HUMMEL group in association with its Indian partner OK PLAY, is organizing a symposium on “**Air Pollution- its Causes, Effects, Prevention and Cure**” in New Delhi on the 15th of February, 2024 at Hotel Ashoka, Chanakya Puri, New Delhi between 9.30 am and 2.00 pm. The event is supported by the Indo German Chamber of Commerce.

The symposium will have a panel of eminent personalities from the German Embassy and from the fields of Medicine, Environment, Legal, Education and Engineering amongst others.

Understanding the magnitude of NCR's health problem, coupled with the substantial fiscal losses due to the pollution curbs imposed by the authorities, this symposium would offer an appropriate platform to educate the stakeholders on this life-threatening problem and the possible solutions to address the same.

MANN+HUMMEL, a 4.8 Billion Euro German MNC is having operations in over 80 countries and has been present in India over the last over 18 years. They are undoubtedly the World leaders in the field of air filtration.

We are very pleased to inform you that exploiting their huge experience and expertise in the field of solutions for Air filtration, MANN+ HUMMEL has developed a dependable and potent product combating fine dust pollution by efficiently capturing hazardous fine dust particles, including PM2.5 and PM10, from ambient air. We are happy to inform you that the same has been successfully productionized and tested. We are equally delighted to announce that MANN+HUMMEL will produce the product in India, aligning with our respected Prime Minister's vision of "Make in India."

As one of the eminent citizens of India, we would request you to kindly make it convenient to attend the seminar and are sure that your participation will help us in our endeavour in making our air healthy for us all and especially for our younger generation.

Please contact us on our dedicated helpline 011 41219090 for any information or assistance.

We look forward to having you with us in the Symposium.

Please find attached the agenda for the Symposium.

With kindest regards,

Yours sincerely

For **MANN AND HUMMEL**

(Sudeesh Karimbingal)
Managing Director India
