Bombay Stock Exchange Limited
Phiroze Jeejeebhoy Towers,
25th Floor, Dalal Street,
Mumbai - 400 001.

Dear Sir,

Sub : Outcome of Board Meeting
Ref : Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

We wish to inform that the Board of Directors of the company at their meeting held today, 1st November 2023 approved the acquisition (100%) of **Semcon Engineering UK Limited** through a share purchase agreement.

ASM has over three decades built expertise in the semiconductor, hi-tech, automotive industries while Semcon works with a large number of clients within several industries, includes the automotive/mobility industry, energy and life science sectors. With the acquisition of Semcon's operations in the UK, ASM Technologies will benefit from access to global customers in UK and Europe. In particular, ASM will build both scale and competence, relevant to the transportation industry as it transitions to new propulsion systems and ever-increasing levels of driver assistance and autonomy.

Talking about the announcements, Rabindra Srikantan, Managing Director, ASM Technologies Limited, said, "We are excited about the acquisition as it presents tremendous opportunities to strengthen our presence in UK and Europe. This strategic investment is part of our growth strategy to expand our footprint with global customers."

"Our engineering activities in the UK need to be scaled up in order to ensure delivery capacity and long-term profitability. We have reviewed different options and concluded that our best option is to divest the UK engineering operations to one of our partners, ASM Technologies, which already has a presence in the UK. This transaction will be to the benefit of our customers and employees within this segment in the UK while allowing us to focus on other prioritized growth areas," says Markus Granlund, President and CEO of Semcon.

About ASM Technologies
