CapitaLand to invest 500 million Singapore dollars over next five years in TN

Chennai, Nov 1: CapitaLand Investment Limited (CLI) has commenced operations for phase 1 of International Tech Park Chennai, Radial Road. It first intends to invest over S\$500 million in Chennai over the next five years across multiple asset classes.

Sanjeev Dasgupta, CEO, CLI India said, "To date, CLI has invested about S\$750-S\$800 million in Chennai and we expect to invest over S\$500 million in the next five years across multiple asset classes, with a special focus on IT parks, logistics, and data centres. We hope to further contribute to the government's efforts in enhancing the State's infrastructure".

In a statement, the company said that this was the first business park in India to be certified by the Indian Green Building Council (IGBC) as Net Zero for energy

efficiency, water conservation and waste management. Located along Chennai's newest and fastest growing IT corridors, the 5 million sq. ft. business park would offer four Grade A office blocks with the capacity to house over 50,000 IT service professionals. In phase 1, the 1.3 million sq.ft office block has already signed a lease commitment with Vestas Wind Technology India for about 250,000 sq. ft of office space. The development of phase 2 is currently underway and set to begin operations by second quarter of 2024.

Phase 1 and phase 2 of ITPC-Radial Road comprising of 2.6 million square feet of office space is being developed by CapitaLand Investment under the newly launched CapitaLand India Growth Fund 2 (CIGF2), with a target fund size of S\$525 million to invest in Grade A business

parks in prime locations across gateway cities in India. In August 2023, CLI secured S\$262.5 million (INR 16.3 billion) from Mitsubishi Estate Co. Ltd for a 50% stake in the fund's first closing. CIGF2 has since acquired a 70% equity stake in ITPC-Radial Road as a seed asset from CLI for S\$95 million (INR 5.9 billion) and the remaining 30% stake is held by CLI. CLI continues to manage ITPC-Radial Road after its divestment.

CLI first entered Chennai with the establishment of International Tech Park Chennai - Taramani (ITPC-Taramani), the city's first private IT park, in 2005. CLI's portfolio in Chennai now comprises IT parks, industrial parks, logistics and warehousing and lodging assets. It recently announced plans to set up a data centre in Ambattur, Chennai with an investment of over Rs.1,200 crore.

Apollo Cancer Centres introduce precise breast cancer diagnosis

Chennai, Nov 1: Apollo Cancer Centres (ACCs) continues to push the boundaries with advanced cancer treatment, by introducing 'India's Fastest & Most Precise Breast Cancer Diagnosis Program', thus redefining cancer care. This pioneering initiative aims to provide swift and precise breast cancer diagnoses, reinforcing the significance of early detection in providing the right treatment for a better survival rate, and enhancing the quality of life for patients.

This groundbreaking initiative offers a promising glimpse into the future of healthcare services. Apollo Cancer Centres is proud to be the first in India to provide this program and envisions the potential to replicate the model for other organs in the future. In alignment with Breast Cancer Awareness Month in October, Apollo Cancer Centres is dedicating this program to the timely diagnosis of breast cancer in women.

'India's Fastest & Most Precise Breast Cancer Diagnosis Program' is designed to ensure timely and accurate diagnosis, alleviating the stress of protracted waiting times for results. Apollo Cancer Centres firmly believes in the adage, "Earliest Easiest," when it comes to breast cancer management.

This program includes advanced diagnostic technologies, including mammography, ultrasound, and biopsy, to promptly and precisely assess breast health. Patients can expect results within 24 hours, a testament to the program's efficiency. It is open to individuals seeking breast cancer screening or diagnostic services, provided they meet the necessary criteria. Its primary benefits encompass rapid results, reduced patient anxiety, and early detection of breast cancer—advancements that significantly improve treatment outcomes.

Dr Manjula Rao, Senior Consultant - Surgical Oncology,

Apollo Proton Cancer Centre, Chennai, said, "This program allows us to combine our expertise with advanced diagnostic tools to deliver timely diagnoses and personalized care. By doing so, treatment may be initiated early, thereby empowering our patients and offering them hope for cure, improved prognosis and superior quality of life."

On the occasion, Dr. Usha Mehta, Surgical Oncologist, ACC Chennai, said, "We believe in empowering women with the knowledge and resources they need for a healthier, brighter tomorrow."

Dr. Mukta Mahajan -Consultant Radiology, Apollo Cancer Centre, Chennai, said, "With India's Fastest & Most Precise Breast Cancer Diagnosis Program, we aim to offer not only timely results but also a path to hope and recovery. It is about providing the best care when our patients need it most."

Future Generali initiates impactful insurance awareness campaign

Sikkim, Nov 1: Future Generali India Life Insurance Company Ltd, a trusted life insurer in the Indian life insurance sector, is actively dedicated to increasing insurance awareness and financial security in the state of Sikkim. Appointed as the lead insurer of Sikkim, by Insurance Regulatory and Development Authority of India (IRDAI) in collaboration with fellow insurance providers, the company is determined to boost life insurance awareness and penetration in the region.

The recent launch of BTL activities by Future Generali India Life Insurance, in Sikkim across Gangtok, Pakyong and Namchi, marked a significant milestone in this journey. 'Nukkad Natak' street play performances at various locations across Sikkim, OOH installation at marque locations and explaining the benefits of life insurance to sole breadwinners of the family of the Taxi drivers Association all contributed

to creating insurance awareness and generating an understanding of the essence of owning an insurance policy. The primary objective of these activities has been to gently introduce the local audience to the world of life insurance in an accessible and relatable manner. Moreover, with more upcoming initiatives

such as college and school activation the company plans to sustain the momentum of knowledge of insurance and secured financial futures among the people of Sikkim.

WD's Purple Portfolio must for CCTVs storage solution

Coimbatore, Nov 1: The Indian CCTV market is booming, with expectations of a 20.9% CAGR by 2028, driven by the government's emphasis on smart cities and efficient governance, according to a report by Mordor Intelligence.

However, ensuring the efficiency of these systems depends on choosing the right storage solution.

When selecting a storage solution for CCTV systems, it's crucial to consider several

factors. For instance, one needs to choose options with higher endurance to withstand extreme weather conditions, reducing maintenance and downtime, like the WD Purple microSD card with proactive maintenance alerts.

Another storage solution that plays a pivotal role in ensuring the efficiency of these systems is the use of

smart video surveillance Hard Disk Drives (HDDs). These specialized HDDs are tailored to meet the unique demands of 24/7 monitoring and recording, offering distinct advantages over standard HDDs. WD Purple microSD card and surveillance HDDs work in tandem to create a comprehensive and efficient video surveillance storage solution.

Gold prices soar ahead of festive, wedding season

Gold prices in India have shot up by as much as Rs 4,150 per 10 grams during October to touch the Rs 60,825 mark on Friday from Rs 56,675 on October 3, according to figures compiled by the Indian Bullion and Jewellers Association.

The sharp increase in the price of the yellow metal comes ahead of the auspicious Dhanteras occasion for buying gold on November 10, as well as the approaching festive and wedding season when the demand for jewellery shoots up.

In the international market, too, gold prices have surged above \$2,000

an ounce during the week, making it the third

consecutive weekly gain, as geopolitical tensions rise amid the Israel-Hamas war.

According to market analysts, this has spurred the demand for gold as a safe-haven investment.

Kama Jewelry MD Colin Shah expects the demand for gold to remain buoyant due to the strong "sentimental value" attached towards buying gold during the festive season and the Indian culture of gifting jewellery during weddings.

The recent volatility in the stock markets has also prompted investors to look at a safer bet and gold

appears to be the ideal asset. Besides, the gold also provides a hedge against the strengthening dollar as the rupee has been weakening, said a senior bank official.

As the Israel-Hamas war threatens to escalate into a wider geopolitical conflict involving the US and Iran, spot gold price hit \$2,000 levels on Friday and closed at 2,006 per ounce levels.

Gold future contract on Multi Commodity Exchange (MCX) for December 2023 expiry surged Rs 308 per gm and ended at Rs 61,260 levels on Friday.

Govt notifies minimum export price of \$800 per metric tonne on onion

The government on Saturday imposed a minimum export price (MEP) of \$ 800 per tonne on onion exports till December 31 this year with a view to increase availability of the vegetable in the domestic market and contain prices.

The decision will come into effect from October 29.

Besides, the government has also announced the procurement of additional 2 lakh tonnes of onion for the buffer, over and above the 5 lakh tonnes already procured.

The MEP is there for all varieties of onion except Bangalore Rose and Krishnapuram

onions; and for cut, sliced, or broken in powder forms.

"Exports of onions is free. MEP of \$ 800 FOB (free on board) per tonne is imposed till December 31, 2023," the Directorate General of Foreign Trade said in a notification.

An official statement said that the step will help in maintaining sufficient availability of onion to domestic consumers at affordable prices as the quantity of stored Rabi 2023 onion is declining.

The \$ 800 per tonne MEP translates into about Rs 67 per kg.

Onion from the buffer has been disposed continuously since the second week

of August in major consumption centres all over the country, and also supplied to retail consumers at Rs 25 per kg through mobile vans operated by NCCF and NAFED.

"Till date about 1.70 lakh metric tonne of onion has been disposed from the buffer. The continuous procurement

and disposal of onion from the buffer are undertaken to moderate the prices for consumers while ensuring remunerative prices to the onion farmers," the statement said.

The DGFT notification added that certain onion consignments will be allowed to be exported without MEP and that

included consignments that have been handed over to the Customs before this notification and is registered in their system.

Onion consignment that has entered the Customs station for exportation before this notification and is registered in the electronic systems of the concerned custodian of the Customs station with verifiable evidence of date and time stamping of these commodities having entered the customs station prior to the issuance of this notification is also permitted to be exported.

It added that export duty will not be refunded, if paid.

India holds trade talks with Japan, UK on sidelines of G-7 meet in Osaka

Chennai, Oct 29: Commerce and Industry Minister Piyush Goyal on Saturday held bilateral talks on trade and investment in separate meetings with Japan Trade Minister Nishimura Yasutoshi and the UK Secretary of State for Business and Trade Kemi Badenoch in Osaka.

Held a meeting with @Nishy03, Minister of Economy, Trade and Industry, Japan, on the sidelines of the G7 Trade Ministers' Meeting in Osaka.

Deliberated on adding further impetus to India-Japan trade & investment ties across diverse sectors, Goyal said in post on social media platform X.

Both ministers are in Japan for the Group of Seven (G7) trade ministers meeting in Osaka.

The bilateral trade between the two countries has surged after signing of the CEPA and crossed US\$20.0 billion in FY2022. However, India's trade deficit has nearly doubled with Japan in a span of 11 years to US\$8.2 billion.

India's imports from Japan depicted a CAGR growth of 1.6 percent while India's exports to Japan declined by 0.3 per cent from 2012 to 2022.

Both the governments are working towards a mutually beneficial trade relationship with the Government of India emphasising on the 'Make in India' campaign, the PLI scheme, and the diversification of the trade basket, etc., to strengthen its manufacturing sector and make it more competitive. This will aid in increasing its contribution to exports.

Goyal also said on X that he discussed the progress of India-UK free trade agreement negotiations with UK Secretary of State for Business and Trade Kemi Badenoch.

The issues being discussed include goods, services, investments and intellectual property rights.
