Further, we are pleased to announce that our value-added products, along with our newly developed construction chemicals and mineral fertilizers, have garnered significant interest and are poised to make a positive impact on our bottom line in the coming quarters.

On the industry front, we've observed a clear increase in the demand for high-margin and economically efficient offerings. In response to this opportunity, we've been actively creating products that not only serve as substitutes for imports but also bring cost-effectiveness to the forefront.

Furthermore, we are steadfast in our commitment to realizing our vision of delivering customer-centric solutions within the industrial mineral sector. In pursuit of this goal, we have significantly improved our operational efficiency, allowing us to consistently develop innovative products. Furthermore, as part of our strategy to solidify our position as industry frontrunners and enhance our competitive edge, we are in the process of bolstering our capacities and expanding our range of products..
