# Management Commentary

“Dharmaj Crop Guard continues to report robust financial performance in the backdrop of a challenging industry environment. Despite external headwinds, in Q3FY24, we achieved a remarkable 22% YOY increase in Revenue from Operations, reaching ₹123.4 Cr as compared to ₹101.1 Cr in Q3FY23. The cumulative topline for 9MFY24 stands at ₹538.03 Cr, registering a 17% growth compared to 9MFY23.

The realisation trend across our product portfolio has been relatively stable on an average. While some products experienced marginal recovery in Q3, others witnessed a slight decrease. Thus the predominant source of growth this quarter has been volumetric in nature.

While we have witnessed robust topline growth and healthy gross margins, there has been a marginal compression in EBITDA margins during the quarter. This can be attributed to higher Employee Benefit Expenses, including increased headcount at new plant and senior team hirings in Sales & Marketing, elevated Other Expenses such as Professional Fees & Consulting Expenses for development of new export markets, and higher Travelling & Conveyance expenses. Most of these expenses are precursory to our ongoing expansion initiatives, and some are one-time in nature.

Trade Receivables and thus Working Capital optimization from the season's business is underway and we have witnessed significant collections in Q3, which is expected to continue in the current quarter as well. Additionally, as part

of our growth plans in the Formulations Business, we are progressing well in entering Southern India states in the coming financial year. We have hired senior personnel, initiated team building, and are in the process of selecting trade channels. The Company is actively scouting for locations for Stock Depots in these markets, and demand generation & farmer engagement activities will commence in the upcoming financial year.

The response from states entered during the last year has been positive, with good traction observed in Maharashtra & North India. On the Institutional front, we are onboarding new customer accounts in both categories i.e. small formulators and large corporate accounts.

A significant milestone in our journey was the successful commissioning of the Sayakha project on the historic day of 22<sup>nd</sup> January 2024. Subsequently, the first shipment from Sayakha was dispatched last week. The purity and quality achieved in the first batch is impressive, and we are continuously working to build on this trend in the coming quarters.

We are currently at a crucial juncture in our journey, focusing our efforts on stabilising the Sayakha plant and achieving planned capacity utilisation targets in the coming financial year. We appreciate your continued support as we strive towards our targets and remain optimistic about a more conducive industry environment in the coming financial year.”

***“The first shipment from Sayakha was dispatched last week, catering to both our captive consumption and a third-party client”***

**Mr. Rameshbhai Ravajibhai Talavia**  
Chairman and Managing Director

# Strengthened Product Portfolio & Team

## 300+

Dealers & Distributors added during 9MFY24, taking the total to 4,800+

## ~107

Team Strength addition during Q3FY24 primarily at Sayakha site, with few senior hirings in Sales & Marketing

## Product Registration Activity

- 1 new technical registrations received
- 1 new technical registrations filed
- Cumulatively 14 technical registrations received, and 25 pending as of Q3FY24
- 4 export market product registrations received (formulations & technical)

## Recently launched products (B2C portfolio)

# Latest Demand Generation Activity

*Dealer meets, field days, product demonstrations, in both, new & existing markets*

# Active Ingredients – Project Overview

Forayed into **Technicals & Intermediates manufacturing** through upcoming greenfield facility at Sayakha

**Synthetic Pyrethroids** will be the initial product basket

## Key technicals (7-8):

- Deltamethrin
- Lambda Cyhalothrin
- Bifenthrin
- Alphamethrin
- Cypermethrin

## Key intermediates:

- MPBD
- CMAC

**3 separate production blocks:**  
2 dedicated intermediates manufacturing lines

1 multi-purpose technical manufacturing block

Ability to manufacture 6 technicals simultaneously over 3 manufacturing lines

Facility being setup in accordance with **export market regulatory standards**

**Dedicated R&D and QC laboratory** with state-of-art equipment

# Active Ingredients – Project Overview

## Manufacturing Capacity

- **2,500 TPA** dedicated MPBD capacity
- **2,500 TPA** dedicated CMAC capacity
- **3,000 TPA** multi-purpose technical capacity
- **8,000 TPA** Cumulative production capacity

## Project Financing

- Partial IPO Proceeds: **₹105 Cr**
- Term Loans Sanctioned: **Up to ₹100 Cr**
- Balance to be funded from **internal accruals**
- Short-term borrowings & internal accruals to finance additional working capital requirements

- **Potential ~3X Fixed Asset Turns** at Optimum Capacity Utilization & Product-Mix

## Captive Consumption vs. External Sales

- **60-70%** captive consumption for intermediates
- **20-25%** captive consumption for technicals

## Process Optimisations

- Latest generation P&M opted for higher overall efficiency
- Improvement in solvent recovery
- Improvement in distillation process to achieve better yields & purity

## Why Synthetic Pyrethroids?

- Open Public & Animal Health vertical for the Company
- Confident of the technical learning curve & plant stabilisation in this product basket
- Complementary product profile to existing formulation business
- India strengthening its position as an export hub of Synthetic Pyrethroids
- High potential use in Public Health & Animal Health

*Note: ~3X Asset Turns at Optimum Capacity assumes 100% external sales of the output manufactured at the Sayakha plant, however, the Company will consume a part of the production as feedstock for formulations vertical.*

# Active Ingredients – Project Status

*Commissioned on 22<sup>nd</sup> January 2024*

# Active Ingredients – Plant Capabilities

## Chemistry Capabilities

- Chlorination
- Alkylation
- Friedel Crafts
- Hydrogenation
- Acetylation
- Bromination
- Esterification
- Kharasch Reaction
- Condensation
- Favorskii Rearrangement
- Acidic Hydrolysis

## Reaction Capabilities

- Batch Reaction
- Chain Reaction
- Continuous Process Reaction
- High Pressure Reaction
- High Vacuum Distillation
- Short Path Distillation
- Fraction Distillation

## System Capabilities

- State-of-art ERP implementation
