Harry Potter – a magic tool for experts to demystify Al

SARITHA RAI December 26

22

MORE THAN TWO decades after J K Rowling introduced the world to a universe of magical creatures, forbidden forests and a teenage wizard, Harry Potter is finding renewed relevance in a very different body of literature: AI research.

A growing number of researchers are using the bestselling Harry Potter books to experiment with generative artificial intelligence technology, citing the series' enduring influence in popular culture and the wide range of language data and complex wordplay within its pages. Reviewing a list of studies and academic papers referencing Harry Potter offers a snapshot into cutting-edge AI research — and some of the thorniest questions facing the technology.

In perhaps the most notable recent example, Harry, Hermione and Ron star in a paper titled "Who's Harry Potter?" that sheds light on a new technique helping large language models to selectively forget information. It's a high-stakes task for the industry: Large language models, which power AI chatbots, are built on vast

POTTER'S IMPACT ON AI RESEARCH

Rich language data: Harry Potter's intricate language and cultural significance make it a prime resource for testing AI language models.

■Selective forgetting technique: Al can now forget copyrighted Harry Potter content, showing models can operate without specific data.

to evaluate the model resulting from our technique and confirm for themselves that the content has indeed been 'unlearned,'" said Russinovich, chief technology officer of Microsoft Azure."Almost anyone can come up with prompts for the model that would probe whether or not it 'knows' the books. Even people who haven't read the books would be aware of plot ele-

ments and characters." In another study, researchers from the Univer-

BCCI's perfect plan that got Bumrah fit for World Cup

VENKATA KRISHNA B New Delhi, December 26

ABOUT QUARTER TO five in the evening on October 14, Jasprit Bumrah unlocked one of his specials. Rewatching it could open wounds of a dream that will remain unfulfilled. Let alone Mohammad Rizwan, noone watching it on HD television could predict the vicious slower off break. Fast forward to the world cup final where he conjured probably the best slower one of the World Cup - an inchperfect off-cutter, that startled Steve Smith with its timing and execution. Neither Rizwan nor Smith were looking to hit out; yet were bamboozled by Bumrah's cerebral craft.

There is more than just skill and wizardry to the dismissals of Smith and Rizwan. Having endured a horrid 14 months because of a back injury, it was a sensational comeback without which India's dreamy run to the final wouldn't have been possible. From the moment he air dropped at the Asia Cup, and troubled Pakistan under dark Colombo clouds, there were still apprehensions as to whether we would see Bumrah of the old. "Meaner, leaner,

stronger/Can you feel the/Power, terror, fire...," the DJ at Premadasa would use a Tamil hit number from the movie Beast to evoke similarities. But

seemed a non-starter. Given Through the course of the World Cup campaign, Bumrah the T20 luxury and his injury managed to stub out such concerns, had Bumrah taken

After being drafted into the T20 side for the series against Sri Lanka, on the basis of clear ing a fitness test, the back injury reared again.

'This was before it was decided Bumrah would need surgery. The initial plan was to just make him play the limited overs (T2Os), gradually increase his workload and have him fully fit for the World Cup. Test matches were totally ruled out, a source in the know of the developments tells The Indian Express on how the injury management was put in place.

According to the plan, there were even discussions to have Bumrah travel (as a non-playing member) with the team during the Border-Gavaskar Trophy at home, where a specialised trainerwill look after him. But it was then that it dawned on Bumrah and others that surgery was the only remedy. It wasn't a straight-forward deci sion and multiple specialists at home and abroad were considered given this was a career threatening injury. Nitin Patel, the head of sports science and medicine at the National Cricket Academy (NCA), over saw the entire procedure. On March 8, Bumrah underwent a surgery in New Zealand.

The rehab days at NCA

training. Natural language relevance: The series' rich content attracts attention in natural language research for its complexity and relatability.

amounts of online data, including copyrighted material and other problematic content. That has led to lawsuits and public scrutiny for some AI companies.

The paper's authors, Microsoft researchers Mark Russinovich and Ronen Eldan, said they've demonstrated that AI models can be altered or edited to remove any knowledge of the existence of the Harry Potter books, including characters and plots, without sacrificing the AI system's overall decision-making and analytical abilities.

The duo said they chose the books because of their universal familiarity."We believed that it would be easier for people in the research community

sity of Washington in Seattle, University of California at Berkeley and the Allen Institute for AI developed a new language model called Silo that can remove data to reduce legal risks. However, the model's performance significantly dropped if trained only on low-risk text such as out-of-copyright books or government documents, they said in a paper published ear-

lier this year. То go deeper, the researchers used Harry Potter books to see if individual pieces of text influence an AI

system's performance. They created two datastores, or collections of websites and documents. The first included all published books except the first Harry Potter book;

there were serious doubts, especially because of the nature of Bumrah's injury. The back injuries from stress fractures have derailed many a career.

From Dennis Lillee to Jeff Thompson to Shane Bond, they haven't been the same post back injuries and surgeries. And given Bumrah's peculiar action, which is considered injury-prone, there were more reasons to worry. The lethalyorkertakes a lot of energy out of him, and the fear was that he wasn't able to pull out the rabbit as and when he wanted. But at the World Cup three of his 20 scalps came via yorkers.

doubts and perceptions. Could hebowlevery game? He checked it.Can bowl long spells?He ticked those.Can he be the lead bowler? He showed who the boss is, becoming the most economical bowler in the first powerplay. There was something inevitable waiting to happen when Bumrah had the ball and the 20 wickets are a testament to that.

A year prior, when he hobbled off for the second time under five months after making a comeback, it was felt that Bumrah's availability would just be confined to the shortest format. The ODIs or the Tests

that step, few would have disapproved. Lasith Malinga had given up Tests.

If not for a carefully executed plan by the staff at the National **CricketAcademy and the Indian** team management, Bumrah 2.0 may not even been possible.

Behind the scenes

According to those in the know, it was a review meeting held in the first week of January 2023 that proved to be the game changer. While a detailed workload management plan was put in place, there was a fresh setback with Bumrah.

tion was on IPL, at the NCA Bum rah's rehab would begin with aqua training. It lasted nearly a month as he slowly built his strength. Since it was an extensive rehab, the staff at the NCA would do everything to keep his mind distracted from the bore dom. "We had to keep him in a good space. It may involve him walking into the gym with his favourite song blurting from the speakers or him finding a favourite cheat meal on the table.We needed to keep him in a good space mentally because the injury can heal quickly," the source adds.

For RBZ JEWELLERS LIMITED On behalf of the Board of Directors SdV Heli Akash Garala

Date : December 26, 2023 Company Secretary & Compliance Officer THE LEVEL OF SUBSCRIPTION SHOULD NOT BE TAKEN TO BE INDICATIVE OF EITHER THE MARKET PRICE OF THE EQUITY SHARES ON LISTING OR THE BUSINESS PROSPECTS OF RBZ JEWELLERS LIMITED

RBZ JEWELLERS LIMITED has filed a Prospectus dated December 21, 2023 with the Registrar of Companies, Ahmedabad on December 22, 2023. The Prospectus is made available on the website of the SEBI at www.sebi.gov.in as well as on the website of the BRLM i.e., Arihant Capital Markets Limited at www.arihantcapital.com, the website of the NSE at www.nseindia.com and the website of the BSE at www.bseindia.com and the website of the Company at www.rbzjewellers.com. Any potential investor should note that investment in equity shares involves a high degree of risk and for details relating to such risks, please see the section titled "Risk Factors" beginning on page 32 of the Prospectus. Potential investors should not rely on the DRHP for making any investment decision but can only rely on the information included in the Prospectus

The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act of 1933, as amended ("U.S. Securities Act"), or any state law of the United States and, unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares are being offered and sold (i) within the United States only to persons reasonably believed to be "qualified institutional buyers" (as defined in Rule 144A under the U.S. Securities Act) under Section 4(a) of the U.S. Securities Act, and (ii) outside the United States in "offshore transactions" as defined in and in compliance with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales are made. There will be no public offering of the Equity Shares in the United States.
