● KEJRIWAL'S APPLICATION AIIMS docs to decide if CM needs insulin

Delhi minister Atishi along with AAP supporters with vials of 'insulin' during a rally outside the Tihar jail on Sunday

NIRBHAY THAKUR
New Delhi, April 22

REJECTING DELHI CHIEF Minister Arvind Kejriwal's plea seeking daily consultations with his doctor through video conferencing, Special Judge Kavari Baweja Monday directed the Tihar jail authorities to constitute a medical board composed of doctors from AIIMS which will decide whether he needs insulin or not.

The Chief Minister has been lodged in Tihar Jail since April 1, following his arrest in the Delhi excise policy case by the Enforcement Directorate (ED) on March 21.

The court was hearing an application moved by the CM to allow him to have insulin inside the jail owing to his diabetic condition. Kejriwal had also requested online consultation with a private doctor every day for 15 minutes in the presence of his wife,

the court noted that from the response of the ED and jail authorities, it emerged that the CM had never requested insulin in Tihar.

Meanwhile, global military expenditure grew 7% to \$2.43 trillion in 2023, the steepest annual rise since 2009 as international peace and security deteriorated.

As per the Stockholm International Peace Research Institute (SIPRI) report, the 10 largest spenders in 2023, led by the United States, China and Russia, all increased their military spending.

Nan Tian, senior researcher at SIPRI's Military Expenditure and Arms Production

Programme, said: "States are prioritising military strength but they risk an action-reaction spiral in the increasingly volatile geopolitical and security landscape."

SIPRI said Russia raised spending by 24% to an estimated \$109 billion. Ukraine

increased spending by 51% to \$65 billion and received at least \$35 billion in military aid from other countries.

"Combined, this aid and Ukraine's military spending were equivalent to about 91% of Russian spending," the think-tank said.

It said NATO member countries' spending totalled 55% of the world's expenditure.

"For European NATO states, the past two years of war in Ukraine have fundamentally changed the security outlook," SIPRI researcher Lorenzo Scarazzato said.

"This shift in threat perceptions is reflected in growing shares of GDP being directed towards military spending, with the NATO tar-

get of 2% increasingly being seen as a baseline rather than a threshold to reach."

NATO member states are expected to set aside at least 2% of gross domestic product for defence expenditure by the alliance.

SIPRI said most European NATO members had boosted such spending. The U.S. raised it by 2% to \$916 billion, representing around two-thirds of total NATO military spending.
