### **29. CORPORATE GOVERNANCE**

Corporate Governance refers to, but not limited to, a set of laws, regulations and good practices and systems that enable an organization to perform efficiently and ethically to generate long term wealth and create value for all its stakeholders. Corporate governance requires everyone to raise their competency and capability levels to meet the expectations in managing the enterprise and its resources optimally with the sound & prudent ethical standard. The Company recognizes that good corporate governance is a continuous exercise.

Adherence to transparency, accountability, fairness and ethical standard are integral part of the company's function. Your Company's structure, business dealings, administration and disclosure practices have aligned to good corporate governance philosophy. Your Company has an adequate system of control in place to ensure that the executive decisions taken should result in optimum growth and development which benefits all the stakeholders. The Company aims to increase and sustain its corporate value through growth and innovation.

Our Corporate Governance Report for the financial year 2022-23 form parts of this Annual Report.

### **30. DIRECTORS' RESPONSIBILITY STATEMENT**

To the best of their knowledge and belief and according to the information and explanations obtained by them, your Directors make the following statements in terms of Section 134(3)(c) of the Companies Act, 2013:

- a) that in the preparation of the annual financial statements for the year ended March 31, 2023, the applicable accounting standards have been followed along with proper explanation relating to material departures, if any;
- b) that such accounting policies as mentioned in Notes to the Financial Statements have been selected and applied consistently and judgment and estimates have been made that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company as at March 31, 2023 and of the profit of the Company for the year ended on that date;
- c) that proper and sufficient care has been taken for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- d) that the annual financial statements have been prepared on a going concern basis;
- e) that proper internal financial controls were in place and that the financial controls were adequate and were operating effectively.

- f) that systems to ensure compliance with the provisions of all applicable laws were in place and were adequate and operating effectively.

### **31. RELATED PARTY TRANSACTION**

There are no materially significant related party transactions made by the Company with Promoters, Directors, Key Managerial Personnel or other designated persons which may have a potential conflict with the interest of the Company at large.

### **32. RISK MANAGEMENT POLICY**

The Company has been addressing various risks impacting the Company and the policy of the Company on risk management is provided elsewhere in this Annual Report in Management Discussion and Analysis.

### **33. ACKNOWLEDGEMENTS**

The company has been very well supported from all quarters and therefore your directors wish to place on record their sincere appreciation for the support and co-operation received from Employees, Dealers, Suppliers, Central and State Governments, Bankers and others associated with the Company.

Your Directors wish to thank the banks, financial institutions, shareholders and business associates for their continued support and cooperation.

We look forward to receiving the continued patronage from all quarters to become a better and stronger company.

## MANAGEMENT'S DISCUSSION & ANALYSIS REPORT

### 1. INDUSTRY STRUCTURE AND DEVELOPMENT

#### WORLD SUGAR

##### Industry Structure

Sugar is produced dominantly from sugarcane, while about a fifth is from beet. Though beet has recorded robust rise in yield, crop area has steeply risen for sugarcane essentially from tropical countries. Ethanol production consumes about 15% of the world sugarcane harvest but consistently constitutes over one-half in Brazil. India is fast catching up in its bid to absorb surplus sugarcane into ethanol production that helps in concomitant cut in sugar production to achieve sustainable demand-supply parity.

Brazil barring few years of exception has been the top world sugar producer and exporter while Thailand is normally the second largest exporter. India occasionally challenges this pecking order to emerge as top producer and second largest exporter. World trade volume represents about one-third of production, the rest being used for captive consumption in the country of origin. Import demand is well geographically distributed as opposed to exports essentially coming from concentrated pockets. China is the world's largest importer followed by Indonesia.

India remains unchallenged as the top consumer of sugar despite low and near static per capita consumption. It has become a structurally surplus sugar producer in the past decade and a regular exporter in the world market, albeit interfered with periodical export quota fixation by the Government.

Consumption growth has decelerated from the average of 2.4% since 1960s to around 1.8% in the last decade. Consumption has steadily shifted from the western hemisphere towards east. Demand growth is decidedly driven by increasing population and improved per capita income of such growing population. However, direct demand has dampened of late due to heightening health concerns and sterner State intervention through sin-tax levy and red-labeling mandate. Institutional consumption, on the other hand, has been growing in emerging economies almost in tandem with the growth in national income.

World sugar prices are highly volatile wherein the price volatility for raw sugar is generally higher compared to white sugar. World prices for white and raw sugar are strongly co-related. There is clear statistical inverse relationship between prices and stocks, expressed by the relationship of stock to consumption. There exists a small positive correlation between the price of sugar and oil.

##### Status Update

World production that remained near flat for three years is well poised to record a robust rise in 2022-23 crossing 180 mln. tonnes to mark a new record. This rise is essentially contributed by a significant surge in Brazil's production followed by Thailand. India and EU suffered a reversal. Year-end stock would also mark a new high in absolute volume, though not so as a percentage to consumption.

Trade facilitation remains crucial to the health of the global economy. The impact of the Russia-Ukraine conflict, lockdown in China and container capacity issues have discernibly declined in recent months. This has allowed sugar to be transacted using longer sea voyages, aided by fall in freight rates and helped the Brazilian sugar to be sourced for most distant destinations without compromising competitiveness.

World raw prices showed strident volatility at the start. After touching a 5-year high in May '22, it plummeted to a 4-year low in the next couple of months. Buoyed by the shrinkage in shipment from India, world prices strikingly started strengthening since Nov '22. After crossing a 20 c/ lb mark in Feb

'23, the strong undertone of the market led to lightning rise to cross 24 c/lb by mid Apr '23 that is an 11-year high! The futures market has for three years been in a contango structure. As a corollary, the backward dated structure in the futures market between spreads has got corrected.

### **Indian sugar**

#### **Industry structure**

Indian sugar industry is characterized by the coexistence of private, cooperative and public sector. It is inherently inclusive, supports over 50 million farmers and their families and finely fits into the Aatma Nirbhar Bharat mission of the Government. It is rural centric and hence a key driver and enabler for village level wealth creation. Sugar is India's second largest agro-based industry after Textiles. It has tremendous transformational opportunities to meet the country's food, fuel and power needs in an eco-friendly manner.

Sugarcane and sugar production are seasonal with more than 90% happening in the winter months of November to March. Sugarcane use for production of sugar has steadily increased over time in preference to alternative sweeteners. UP, Maharashtra and Karnataka are the dominant sugar producing States accounting for 85% of country's production that would meet more than entire domestic consumption. Household sugar consumption is about 35% with per capita consumption below 20 kg that is far lower than Brazil, US and Europe.

Sugar is largely sold as a commodity with branded sugar at its nascent stage in India, though growing at a CAGR of 8%. It is a niche market with more people opting for it on the fear that loose commodity may contain dust, foreign particles and touched by multiple people. Out of the household sugar consumption of 11-12 mln tonnes a year, hardly 3% is branded as compared to the share of branded product in edible oil segment at 50-55%. Also there are just few players in every geographical area with no single brand penetrating all India market.

Sugar industry reforms remain overdue despite growing consensus on the economic imperative to not delay same. In particular, the desolate disconnect between sugar and sugarcane price demands a decisive and lasting solution. NITI Aayog too came out with a report of its Task Force on Sugarcane and Sugar in April 2020 besides CACP religiously reinforcing its recommendations on this in its annual cane pricing policy reports. Food Ministry in turn constituted a working committee in Apr '21 to engage with stakeholders and evolve a mechanism for implementation of these recommendations. It remains regrettably a work in progress for a little too long.

#### **Paradigm shift to ethanol**

India has since become a structurally surplus sugar producer. Sugar exports to deal with this surplus are impeded by our skewed cost structure on account of high cost of cane. Exports are hence feasible only when world prices are bullish or subsidized through Government sops, the latter facing the wrath of WTO norms.

Realizing this, the Government firing all cylinders has painstakingly promoted the ethanol blending that amidst altruistic advantages helps subsume the surplus sugar in the system. This paradigm shift in ethanol focus has propelled the industry to a higher trajectory and concomitant re-rating in its valuation.

Having achieved the 10% blend in quick time, India is well poised to hit 20% blend by 2024-25 that should push the country to the top slot after only Brazil in achieving such a high mix.

#### **Status update**

Sugar production during SS 2021-22 touched a new peak at 358 lakh tonnes. Notably this came after subsuming 32 lakh tonne of sugar by diversion to ethanol. Maharashtra re-emerged as the top producer after five years.

India achieved steady and startling rise in sugar exports since 2016-17 that peaked to 11.2 mln tonnes in 2021-22. The Government however in a policy reversal in May '22 shifted sugar exports from OGL to restricted list. It capped SS 2021/ 22 exports to 100 lakh tonnes that later was relaxed to 112 lakh tonnes.

Sugar production during 2022-23 seasons is slated to slide to below 330 lakh tonnes, a decline of 8 % YoY. This is due to late rains impacting cane yields in both Maharashtra and Karnataka. Indeed, Maharashtra would swiftly slip to the second slot behind UP after regaining its top rank hardly one season before. While the Government in Nov '22 fixed an export quota of 60 lakh tonnes, no additional quota may be forthcoming by reason of lower production over initial estimates. At a time when global prices are ruling at about 18% premium to domestic prices, Indian sugar industry has been shut out of the opportunity to make optimum use of this window.

### **Cogen**

Cogeneration of power was conceived three decades ago to diversify the revenue stream and counter the cyclicity in sugar business. After the advent of Electricity Act, 2003, the promotional measures pursued under Government initiative by way of preferential tariff, assured off-take and long term power purchase agreement helped attract huge investment in bagasse based cogeneration of power.

Cogen however has lamentably lost much steam in recent years. Returns are hit by surplus power situation, falling tariff and improved connectivity that are no doubt welcome from a macro perspective. This has however turned high cost investments since FY '17 in cogen unviable by dint of declining power tariff and steadily rising maintenance cost, parlously pulling down power margins. Availability and price of alternative fuels remains a challenge.

Having failed in its earlier attempts to bail out State Discoms and discipline the power market, Gov brought in new set of Rules and Regulations in 2022. The Electricity (Late Payment Surcharge and Related Matters) Rules, 2022 that came into effect from 3rd June 2022 brought in sterner measures to deal with liquidation of old outstanding dues as well as clearance of current dues with punitive measures for default. The new Rules however are like the typical curate's egg. In particular, the Rules provide for liquidation of old outstandings over an inordinately long duration of 48 EMIs. Adding fuel to fire, it mandates zero interest compensation during such long period of delay. It is pretty paradoxical that the prodigal Discoms get rewarded at the cost of a performing and non-defaulting power producer in the bargain! On the positive side, the EMIs to clear past dues are getting paid scrupulously adhering to the timeline, while current dues are also honoured with only marginal delay.

Further, bagasse based cogeneration units suffer undue delay and ultimate loss of revenue by dint of Regulators dragging their feet from timely revision of tariff. The two-part regulatory tariff under the cost plus template unequivocally warrants annual revision in the variable cost component essentially to cover the fuel cost escalation. But the time lag due to dithering and eventual denial of higher tariff for long periods lead to gross under recovery in the cost of producing power and in turn denude the guaranteed ROI. The 'control period' under the tariff regulations would need strict conformance.

REC mechanism was conceived to devise a tradeable instrument to incentivize renewable energy production. With lackadaisical enforcement, its intended objectives get hardly realized. Further the Regulator was periodically lowering the floor and forbearance price and indeed the floor price has since been scrapped. To top it all, CERC-REC Regulations, 2022 now disqualify captive consumption

from saleable REC entitlement. This strikes a lethal blow to renewable energy projects like that of our company that came to be established on the strength of stated policy incentives to promote renewable energy capacity in the country.

Bagasse based cogeneration brings to bear multitude of benefits to the economy and environment. Power supply is closer to the destination rural markets, while fuel efficiency gets optimized in the factory. Above all, the incremental revenue from power supports sugarcane price payment particularly during times of distressed sugar price. It hence calls for renewed policy thrust to revitalize renewable energy production from bagasse.

### **Ethanol**

The Ethanol Blending Program (EBP) with petrol in the country has had a chequered progress. Introduced first in 2003 and reinforced again in 2007 with a 5% blend target, the actual mix remained tardy low. For the first time, ethanol blend reached 5% during Ethanol Supply Year 2019-20 that rose to 8.5% in 2020-21 and recorded 10% in 2021-22. The rollicking rise in blend % is thus both swift and substantive.

Gol has doubled-down its efforts to promote ethanol production in the country from multiple feedstocks, while sugarcane would in all probability remain the principal source. Flex fuel engines would be rolled out to give customer the choice of fuel. Studies are on for developing a technology to blend ethanol with diesel. GST on ethanol blended petrol has been lowered from 18% to 5% from 1st January 2023. Gol is thus blazing all guns to bolster ethanol production and consumption.

Brazil, the pioneer in EBP which started it way back in 1975 took 25 years to raise the blend mandate from 10 to 20%. Viewed so, India's resolve to double the blend in just about 3 years would seem audacious, but with committed pursuit achievable.

### **Government Policies**

#### **A. Sugar**

- Gol imposed stock holding norms and introduced MSQ for sugar from June 2018 that continues to remain in vogue.
- Gol raised the MSP for sugar from Rs. 29 to Rs. 31/kg in Feb., 2019 that remains unrevised till date.
- Gol has discontinued the export subsidy from SS 2021-22.
- Gol in May 2022 shifted sugar exports from OGL to restricted category and capped total exports at 100 lakh tonnes for SS 2021-22 – Additional 12 lakh tonnes allowed in August 2022.
- Gol notified MAEQ for SS 2022/ 23 at 60 lakh tonnes, allocated same mill-wise and made it tradable.
- Compulsory jute packing for sugar continues at 20% for Jute Year 2022-23.

#### **B. Cane price**

- Gol in August 2022 announced increase in FRP by Rs. 15/qtl to Rs. 305/qtl for SS 2022-23 that is linked to base recovery of 10.25% (increased from 10% of previous season).

#### **C. Co-generation**

- MoP in June 2022 notified the Electricity (Late Payment Surcharge and Related Matters) Rules, 2022. It allows Discoms to pay the legacy dues over EMI enuring up to 48 months, free of interest.
- MoP in July 2022 notified the RPO trajectory till 2029-30.
- CERC in May 2022 notified REC Regulations 2022. It curtails sale entitlement of REC available to captive generating stations.
- CERC lowered the cap from Rs. 12 to Rs. 10 per unit for power sold in all market segments.

- CERC has extended the applicability of its RE Tariff Regulations by six months up to 30.09.2023.

**D. Ethanol**

- Govt in Nov., 2022 notified higher ex-mill price of ethanol for supply to public sector OMCs during ethanol supply year 2022-23.
- ESY redefined as 1st Nov of a year to 31st Oct of the following year effective 1st Nov 2023.
- GST reduction on Ethyl Alcohol supplied to OMCs for blending with petrol from 18% to 5% effective 1st January 2023.

**Fair and remunerative price (FRP)**

Keeping in view interest of sugarcane farmers (Ganna Kisan), the Cabinet Committee on Economic Affairs chaired by Hon'ble Prime Minister Shri Narendra Modi has approved Fair and Remunerative Price (FRP) of sugarcane for sugar season 2022-23 (October - September) at Rs. 305/qtl for a basic recovery rate of 10.25%, providing a premium of Rs. 3.05/qtl for each 0.1% increase in recovery over and above 10.25%, & reduction in FRP by Rs. 3.05/qtl for every 0.1% decrease in recovery. However, the Government with a view to protect interest of sugarcane farmers has also decided that there shall not be any deduction in case of sugar mills where recovery is below 9.5%. Such farmers will get Rs. 282.125/qtl for sugarcane in ensuing sugar season 2022-23 in place of Rs. 275.50/qtl in current sugar season 2021-22. The FRP for sugar season 2022-23 is 2.6% higher than current sugar season 2021-22.

Further the Cabinet Committee on Economic Affairs chaired by the Prime Minister Shri Narendra Modi has approved Fair and Remunerative Price (FRP) of sugarcane for sugar season 2023-24 (October - September) at Rs.315/qtl for a basic recovery rate of 10.25%. It has also been approved to provide a premium of Rs.3.07/qtl for each 0.1% increase in recovery over and above 10.25%, & reduction in FRP by Rs.3.07/qtl for every 0.1% decrease in recovery.

In the current sugar season 2022-23, about 3,353 lakh tons of sugarcane of worth Rs.1,11,366 crore purchased by sugar mills, which is the second highest next to the procurement of paddy crop at Minimum Support Price. The Government through its pro-farmer measures will ensure that sugarcane farmers get their dues in time.

Proactive and farmer friendly policies of the Government has led to promotion of interest of farmers, consumers as well as workers in sugar sector improving livelihood of more than 5 crore persons directly and all the consumers by making sugar affordable. As a result of proactive policies of Government the sugar sector has now become self-sustainable.

India is now playing a crucial role in the global sugar economy as it is the second largest exporter of sugar in the world. In sugar season 2021-22, India has also become largest producer of sugar. It is expected that India would become third largest ethanol producing country in the world by 2025-26.

**Minimum support prices**

Government has also introduced the concept of Minimum Selling Price (MSP) of sugar to prevent fall in ex-mill prices of sugar & accumulation of cane arrears (MSP was fixed initially at ₹ 29/ kg w.e.f 07-06-2018; revised to ₹ 31/kg w.e.f. 14-02-2019).

The government is considering a proposal to increase the minimum selling price of sugar from Rs. 31 per Kg to Rs. 33 per Kg to help millers clear cane dues of about Rs. 22,000 Crore to farmers. The MSP is fixed, taking into account the components of FRP and minimum conversion cost of the most productive mills. Moreover, it is proposed by the government to link the FRP of sugarcane with the revised MSP, which, in turn, will help the sugarcane farmers pay off their debts without bottlenecks.

**2. SWOT ANALYSIS:****Strength:**

- ❖ It is an established player in the sugar industry with an installed capacity of 3500 TCD at its plant situated at Aurangabad, Nawabganj, Bareilly.
- ❖ The Company possesses an experience of more than 2 decades in sugar manufacturing.
- ❖ The unit is strategically situated in cane rich belt of central Uttar Pradesh.
- ❖ Abundant Land at the existing plant site which may be used for the Company's future expansion and diversification programmes
- ❖ The unit is empowered with experienced, skilled and young Human Assets
- ❖ Presence of temporary labor force during peak period ensures maximum profits.

**Weaknesses:**

- ❖ Being the Seasonal Industry, OOL's growth plan & profitability depends on various cyclic constraints.
- ❖ Cane price is administered by State Government which may affect profitability and cash flow of Company.
- ❖ Quality of raw material largely depends upon natural and seasonal factors.

**Opportunities:**

- ❖ Co-Generation through Bagasse /Biomass, proposed to be used for forthcoming Co-gen Power Plant will qualify for Carbon Credits Mechanism
- ❖ OOL is planning to expand its Sugar Capacities and setting-up Co-generation plant by consuming the by-product bagasse / Biomass through external resources. This will give opportunity to make use of capital resources during the off season even when sugar production remains stopped.
- ❖ Production of value added products such as refined sugar, small packs, sugar cubes etc. that shall bring in higher contribution.
- ❖ White sugar has the maximum market share in India and OOL will produce maximum white sugar in future also.

**Threats:**

- ❖ OOL has only one manufacturing plant which increases its risk in case of a plant failure or maintenance issues.
- ❖ OOL has to face tough competition with the existing competitors.
- ❖ Sugar & Alcohol/Ethanol Industries are always poised to threat because of continuous monitoring by Government policies in the form of Regularization or De-regularization & infrastructure changes.
- ❖ Sugar industry is very volatile as many factors including rainfall, cultivated area and transportation cost affects sugarcane prices and hence make this industry unpredictable.

**3. STRATEGY :**

The demand & supply gap of the Sugar across the Country may affect the small units like OOL. Hence the Company's near-term strategy is to focus on higher cane recovery and higher cane crushing by improving internal efficiencies and higher production of sugar.

**4. HUMAN RESOURCES/ INDUSTRIAL RELATIONS:**

The objective of your company is to create a workplace where every person can achieve his or her full potential. The employees are encouraged to put in their best. OOL recognizes that a large part of its success is attributable to the excellent human resources base created over the years. This intellectual capital reflects in the quality of our business strategy, our customer's relationship, strong project management and commercialization skills and our development capabilities. As of March 31, 2023, OOL had 130 employees.

**5. INTERNAL CONTROL SYSTEMS & THEIR ADEQUACY:**

The efficiency of the internal control system has been improved with implementation of high level of system-based checks and controls through core business process in materials, operations, accounting & HR. Regular internal audits and checks are carried out to ensure that responsibilities are executed effectively and that adequate systems are in place to maintain authenticity and correctness of recorded transactions.

**6. FINANCIAL TRANSACTION :**

The financial statements have been prepared in compliance with the requirements of the Companies Act, 2013, and The Indian Accounting Standards (Ind AS). Our management accepts the responsibility for the integrity and objectivity of these financial statements as well as for various estimates and judgment used therein. The estimates and judgments relating to the financial statements have been made on a prudent & reasonable basis, in order that the financial statements reflect in a true and fair manner the form and substance of transaction and reasonably present out state of affairs and profits of the year.

**7. BUSINESS HIGHLIGHTS****Operational**

- In 2022-23, we crushed 41,81,726.57 Quintals of sugarcane, a 8.174% decrease from 45,53,968.88 Quintals crushed during the previous year.
- Total recoverable sugar (yield) per Quintals of sugarcane was 9.60% in FY 2022-23 as compare to 9.85% in FY 2021-22.
- The total sugar produced in 2022-23 was 4,01,224 Quintals as compared to 4,48,717 Quintals in 2021-22.
- Total power generation increased to **26623800 Kwh** units in 2022-23 from **21553900 Kwh** units in 2021-22.
- In 2022-23, your company Supplied **10905575 Kwh** units Co-Gen Energy to UPPCL as compare to **6273513 Kwh** units in 2021-22.

**Revenue analysis**

- Gross revenues in financial year 2022-23 has increased (24.9923%) to Rs. 2,11,98,27,337/- from Previous Year 2021-22 Rs. 1,69,59,67,010/- while the net profit after tax were at Rs.74,53,404/- in F.Y. 2022-23 in comparison of Net Profit Rs. 8,60,482/- in the F.Y. 2021-22.

**8. CAPITAL STRUCTURE:**

The paid-up capital of the company is Rs. 21,46,10,500/- as on 31<sup>st</sup> March, 2023 divided into equity share capital of Rs. 6,46,10,500/- and Preference share capital of Rs.15,00,00,000/-.

**9. RESERVE:**

Company's Free Reserves was Rs. -15,18,02,733/- in Financial Year 2022-23 in comparison to Financial Year 2021-22 Rs. -15,91,23,101/-.

**10. FINANCIAL OBJECTIVITY, INITIATIVE AND ACHIEVEMENTS:**

Your Company is taking proactive measures to ensure all financial costs are effectively reduced to positively impact the bottom line:

- (i) **Finance Cost:** The outflow on account of Finance Cost charges decrease from Rs. 3,98,97,622/- in financial year 2021-22 to Rs. 3,45,42,865/- in financial year 2022-23, representing a decrease of 13.4212%.
- (ii) **Inventories:** In Financial Year 2021-22 the inventory value was at Rs. 84,38,50,581 /- while in financial year 2022-23 is at Rs. 62,03,11,670 /-.

- (iii) **Depreciation and Amortization Exp.:** Depreciation and Amortization Exp. Increase from Rs. 3,26,59,553/- in financial year 2021-22 to Rs. 3,52,61,663/- in financial year 2022-23.
- (iv) **Property Plant & Equipment:** Property Plant & Equipment in 2022-23 is of Rs. 86,48,96,963/- while in 2021-22 was Rs. 86,77,09,758/-.
- (v) **Loans & Advances:** In Financial Year 2022-23, loans & advances stood at Rs. 1,01,17,616/- compared to Rs. 1,42,02,297/- in Financial Year 2021-22.

**11. SIGNIFICANT ACCOUNTING POLICIES:** (As mentioned in the Auditors Report)

Revenue Recognition, Inventories Valuation, Fixed Assets, Depreciation, Research & Development, Expenditure on new projects & substantial expansions, Goods and Service Tax, Borrowing Cost, Earning Per Share, Taxes on Income, Segment Reporting Policy, Intangible Assets, Impairment of Assets, Provisions, Cash & Cash equivalent.

**12. DETAILS OF SIGNIFICANT CHANGES:** (i.e. change of 25% or more as compared to the immediately previous financial year) in key financial ratios along with detailed explanation therefore, including:

Sr. No.	Key Financial Ratios	F.Y. 2022-23	F.Y. 2021-22	Change %	Reasons for significant change
1.	Current Ratio	0.58	0.75	(21.54)	-
2.	Debt Equity Ratio	1.02	1.69	(39.59)	Reduction of debt and increase in the net worth of the company
3.	Debt Service Coverage Ratio	0.16	0.82	(80.16)	Higher payment of term loan and interest
4.	Return on Investment/ Equity (ROI) (%)	4.29	0.52	729.71	Higher net profit after interest and tax
5.	Inventory Turnover Ratio	2.71	1.90	42.65	Low average inventory and increase in sales
6.	Net Profit Margin (%)	0.35	0.05	600	Increase in profit
7.	Trade Receivable Turnover Ratio	58.88	60.83	(3.20)	-
8.	Trade Payable Turnover Ratio	1.62	1.51	7.56	-
9.	Net Capital Turnover ratio (Times)	(5.09)	(6.14)	16.99	-
10.	ROCE (%)	-4.06	9.82	(141.35)	Lower EBIT and lower capital employed

**13. RISK MANAGEMENT:**

As a Company poised to take on the mantle of industry mainstream, OOL is exposed to various risks. The Company is engaged in the business of manufacturing Sugar. Some of these risks are external and result from the business environment we operate in, while some are internal to the Company. We have developed a risk reporting management process to manage potential risks in an informed manner.

We have a three-pronged risk management process. Our comprehensive risk governance culture ensures that business decisions taken balance risk and reward. Consequently, our earnings-generating initiatives are consistent with our risk standards. Our risk-management revolves around corporate policies that outlined standards and provide measurement guidelines for each risk category. The Company proactively evaluates and puts in place risk-mitigation initiatives, sets prudent limits on quantum of risk undertaken and does risk evaluation of major policy decisions.

We manage the variables impacting business risk with a disciplined risk management process is keeping with established standards. The risk management strategies and processes are regularly reviewed in keeping with the changing environment.

**14. RISK ENVIRONMENT:**

A number of potential risks in the current environment might make the Sugar Industry mixed prospects over the coming years. These risks may stem from Central/ State Government Policies, Cane availability, State administered Cane Price, Customer Concentration Risk and Geographical Risks amongst others. OOL is, however, well poised to manage and mitigate these risks.

**15. STEPS TAKEN TO MITIGATE RISKS**

The Company has built enviable relationship over the years with the local farming community. It has diversified into Co-gen. OOL is planning to upgrade its existing plant through expansion and diversification on the basis of latest technology and human expertise.

**16. OTHER RISKS AND KEY MANAGEMENT INITIATIVES :**

**a) Industry risk management:**

Indian Sugar Companies are prone to induced cyclicity, with higher cane prices which are adversely affecting the profitability. OOL operates in an industry where demand & supply is restricted due to seasonality of operations & Government Policies, Administered Cane Prices which may jeopardize future growth of the medium and small sized group like ours.

**b) Regulatory Risk:**

The policies of the Government may not be conducive to the growth and development of the Indian Sugar Industry, particularly for a short span of time.

There are various favourable policies expected from the Government in the near future.

**c) Working Capital Risk:**

The sugar sector is working-capital intensive. The continued slump in the Industry may affect the Company's profitability to manage its working capital requirements.

The Company will manage the enhanced requirement of working capital by means of working capital limits by the banks, short-term loan or unsecured loan from the promoters and issue of share capital to the promoters & others.

**d) Business Model Risk:**

The Company's business model may not be effective in a year of sugar down turn.

To mitigate the risk our Company has adopted a diversified model comprising Sugar and Power to minimize the inherent risk of cyclicity of the sugar business.

**e) People risk management:**

High quality human resources are vital to the success of our business.

In order to retain talent, the Company promotes a sense of ownership and pride in association with strong HR initiatives, which have helped us keep attrition rates well in control.

**f) Cash flow risk:**

The Company operates in a cyclic growth oriented industry, especially on account of changing Government Policies of administered prices, control/decontrol and cane availability. Hence, it is imperative to efficiently estimate and manage cash flows in this volatile environment. The Company's working capital arrangement is comparatively low against any uneven or seasonal factors. Hence the Company is trying to tie-up additional alternative financing or cost optimization/ funding the operations. Besides the Company monitors liquidity on a regular basis.

**g) Security risk management:**

Operations could be disrupted due to natural, political and economic disturbances.

As a part of its 'Disaster Recovery' plan, all related risks have been mapped by the Company and are monitored regularly.

**17. DISCLOSURE:**

During the year under review, the Company has not entered into any transaction of the material nature with its Promoters, the Directors or the management, their subsidiaries or relatives, etc. that may have potential conflict with the interest of the Company at large.

**18. MANAGEMENT'S RESPONSIBILITY STATEMENT:**

The management is responsible for preparing the Company's financial statements and related information that appears in this annual report. The management believes that these financial statements fairly reflect the form and substance of transactions and reasonably represent the Company's financial condition and results of operations in conformity with Indian Generally Accepted Accounting Principles.

**19. CAUTIONARY STATEMENT:**

Some of the statements in this report that are not historical facts are forward-looking statements. The forward-looking statements include our financial growth projections as well as statements concerning our plans strategies, intentions and beliefs concerning our business and the markets in which we operate. These statements are based on information currently available to us, and we assume no obligation to update these statements as circumstances change. These risks include uncertainties that could cause actual events to differ materially from these forward-looking statements. These risk include, but are not limited to, the level of market demand for our services, the highly-competitive market for the types of services that we offer, market conditions that could cause our customers to reduce their spending for our services, our ability to create, acquire and build new businesses and to grow our existing businesses, our ability to attract and retain qualified personnel, currency fluctuations and market conditions in India and elsewhere around the world and other risks not specifically mentioned.

**INDEPENDENT AUDITOR'S REPORT**  
**UDIN: 23542901BGYWBI6682**

**To The Members of Oswal Overseas Limited**

**Report on the Standalone Financial Statements**

**Opinion**

We have audited the accompanying standalone financial statements of **Oswal Overseas Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2023, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and a summary of the significant accounting policies and other explanatory information attached herewith, being submitted by the company pursuant to the requirement of regulation 33 of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015 as amended ('Listing Regulations').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements:

- a. are presented in accordance with requirements of Regulation 33 of the Listing Regulations in this regard; and
- b. give a true and fair view in conformity with the applicable accounting standards and other accounting principles generally accepted in India, of the net profit and other comprehensive income and other financial information for the year ended March 31, 2023, read with **Annexure "A" and "B"** of our report.

**Basis for Opinion**

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

**Key Audit Matters**

Key audit matters ('KAM') are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. We have determined that there are no key audit matters to communicate in our report.

**Information Other than the Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance Report, and Shareholder Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

#### **Management's Responsibility for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matters**

- a) The Comparative Financial Information of the company for the corresponding quarter and year ended March 31, 2022 included in these financial results were audited by the predecessor auditor who expressed an unmodified opinion.
- b) The annual financial results include the results for the quarter ended March 31, 2023 being the balancing figure between the audited figures in respect of full financial year and the published unaudited year to date figures up to the third quarter of the current financial year which were subjected to limited review by us.

**Report on Other Legal and Regulatory Requirements**

1. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account.
  - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
  - e) On the basis of the written representations received from the directors as on March 31, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164(2) of the Act.
  - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
  - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
  - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
    - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.
    - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
    - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its subsidiary companies incorporated in India.
    - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate

Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- v. There is no final and interim dividend paid or declared by the company during the year.
2. As required by the Companies (Auditor’s Report) Order, 2020 (“the Order”) issued by the Central Government in terms of Section 143(11) of the Act, we give in “Annexure B” a statement on the matters specified in paragraphs 3 and 4 of the Order.

**Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Subsection 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of **Oswal Overseas Limited** (“the Company”) as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

**Management’s Responsibility for Internal Financial Controls**

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditor’s Responsibility**

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls over Financial Reporting**

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and

dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

**ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT**

**(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Oswal Overseas Limited of even date)**

- i.** In respect of the Company's Property, Plant and Equipment and Intangible Assets:
  - a)** The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
  - b)** The Company has a program of verification to cover all the items of Property, Plant and Equipment. Pursuant to the program, fixed assets were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
  - c)** According to the information and explanations given to us, the records examined by us and based on the examination of the deeds provided to us, we report that, the title deeds, comprising all the immovable properties of land and buildings which are freehold, are held in the name of the Company as at the balance sheet date.
  - d)** The Company has not revalued any of its Property, Plant and Equipment during the year.
  - e)** No proceedings have been initiated during the year or are pending against the Company as at March 31, 2023 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
  
- ii.**
  - (a)** The Physical verification of inventory has been conducted at reasonable intervals by the management and in our opinion the coverage and procedure of such verification is appropriate and no material discrepancies of 10% or more in aggregate for each class of inventory were noticed.
  
  - (b)** The Company has not been sanctioned working capital limits in excess of Rs.5 crores, in aggregate, at any points of time during the year, from banks or financial institutions on the basis of security of current assets and hence reporting under clause 3(ii)(b) of the Order is not applicable.
  
- iii.** In our opinion and according to information and explanations given to us, the Company has not made investments in, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties, hence reporting under clause 3(iii) of the Order is not applicable.
  
- iv.** In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Act in respect of grant of loans, making investments and providing guarantees and securities, as applicable.
  
- v.** The Company has not accepted deposits during the year and does not have any unclaimed deposits as at March 31, 2023 and therefore, the provisions of the clause 3 (v) of the Order are not applicable to the Company.
  
- vi.** We have broadly reviewed the cost records maintained by the company pursuant to the rules made by the Central Government for the maintenance of the cost records under Section 148(1) of the Act and are of the opinion that prima facie, the prescribed cost records have been made and maintained. We have, however, not made a detailed examination of such records with a view to determine whether they are accurate or complete.
  
- vii.** According to the information and explanations given to us, in respect of statutory dues

- a) The Company has generally been regular in depositing undisputed statutory dues, with certain delays, the dues including, Income Tax, Sales Tax, Goods and Service Tax, Value Added Tax and other material statutory dues applicable to it with the appropriate authorities.
- b) Further, as at 31st March 2023, there are no such dues outstanding for a period of more than six months from the date they became payable.
- c) Details of dues of Income Tax, Sales Tax, Service Tax, Excise Duty and Value Added Tax which have not been deposited as at March 31, 2023 on account of dispute are given below:

- viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- ix. (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.
- (b) The company has not been declared wilful defaulter by any bank or financial institution or other lender.
- (c) The Term Loans were applied for the purpose for which the loans were obtained.
- (d) Funds raised on short term basis have not been utilized for long term purposes.
- (e) The company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.
- (f) The company has not raised any loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.
- x. (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) or term loans and hence reporting under clause 3 (x)(a) of the Order is not applicable to the Company.

- (b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.
- xi.** (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or no material fraud on the Company by its officers or employees has been noticed or reported during the year.
- (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- (c) We have taken into consideration the whistle blower complaints received by the Company during the year (and up to the date of this report), while determining the nature, timing and extent of our audit procedures.
- xii.** The Company is not a Nidhi Company and hence reporting under clause 3 (xii) of the Order is not applicable to the Company.
- xiii.** In our opinion and according to the information and explanations given to us, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- xiv.** (a) In our opinion, the company has an adequate internal audit system commensurate with the size and nature of the business.
- (b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- xv.** In our opinion, during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors. Hence provisions of the section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi.** (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.
- (b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- xvii.** The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- xviii.** There has been no resignation of the statutory auditors of the company during the year.
- xix.** On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not

capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

- xx.** The CSR provision under section 135(1) of The Companies Act, 2013, is not applicable to the company, hence reporting under clause (xx) of the Order is not applicable to the company.
- xxi.** The reporting under clause (xxi) is not applicable to the company because company is not required to maintain any consolidated financial statements.

**Notes to Accounts****1. Corporate Information:**

Oswal Overseas Limited (the Company) (CIN: L74899DL1984PLC01826) is a public Company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on a recognized stock exchange in India. The Registered office of the Company is located at 98-A, 2<sup>nd</sup> Floor, Namberdar Estate, Taimoor Nagar, New Delhi-110065.

The Company is having its operations in the State of Uttar Pradesh and is principally engaged in the manufacturing of Sugar which is mainly sold in the State of Uttar Pradesh.

The financial statements were authorized for issue in accordance with a resolution by the Board of Directors of the Company on 30<sup>th</sup> May 2023.

**2. Significant Accounting Policies****2.1 Basis of Preparation**

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

For all periods up to and including the year ended 31st March 2023, the Company prepared its financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

In respect of financial information for the year ended 31st March 2023, the Company followed the same accounting policies and accounting policy choices (both mandatory exceptions and optional exceptions availed as per Ind AS 101) as initially adopted on transition date i.e. 1<sup>st</sup> April 2016. Refer to Note 29 for information on how the Company adopted Ind AS.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- Plan assets under defined benefit plans.
- Certain financial assets and liabilities.

The financial information is presented in Indian Rupees (INR).

**2.1 Summary of Significant Accounting Policies:****2.1.1 Property, Plant & Equipment:**

Property, Plant and equipment including capital work in progress are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. The cost comprises of purchase price, taxes, duties, freight and other incidental expenses, directly attributable and related to acquisition and installation of the concerned assets and is further adjusted by the amount of GST credit availed wherever applicable. Cost includes borrowing cost for long term construction projects if recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their respective useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if

the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized.

The company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Capital work- in- progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

In respect of others assets, depreciation is calculated on a straight-line basis using the rates arrived at based on the useful lives estimated by the management and in the manner prescribed in Schedule II of the Companies Act 2013. The useful life is as follows:

Sr. No.	Nature of Asset	Useful Life (Years)
1.	Buildings	30
2.	Plant & Machinery	25 & 40
3.	Other Equipments	5 to 10
4.	Vehicles	10
5.	Furniture/ Fittings	10

### 2.1.2 Current versus Non Current Classification:

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelvemonths after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets or liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

### **2.1.3 Taxes:**

#### **2.1.3.1 Current Income Tax:**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income Tax Act, 1961 (as amended) and Income Computation and Disclosure Standards (ICDS) enacted in India by using the tax rates and tax laws that are enacted or substantively enacted, at the reporting date in India where the Company operates and generates taxable income.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

#### **2.1.3.2 Deferred Tax:**

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nontaxable profit or loss;

Deferred tax assets (including MAT credit, if any) are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax including Minimum Alternate Tax (MAT) recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during specified period, i.e. the period for which MAT credit is allowed to be carried forward. The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

#### **Goods & Service Tax (GST) paid on acquisition of assets or on incurring expenses:**

- Expenses and assets are recognized net of the amount of GST/sales/ value added taxes paid, except:
- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable

When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of other current assets or other current liabilities in the balance sheet.

#### **2.1.4 Inventory**

Inventories are valued at the lower of cost and net realizable value.

Costs incurred in bringing each product to its present location and condition is accounted for as follows:

- **Raw materials/ Stores and Spares:** Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost of Spares is determined on first in, first out basis.
- **Finished goods and Work in Progress:** Cost includes cost of direct materials and labored a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Cost is determined on first in, first out basis.
- **By-Products:** Cost of By- Products includes costs incurred in bringing these products to their present location and condition. Cost is determined on first in, first out basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

#### **2.1.5 Financial Instruments:**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**a. Financial Assets:**

The Company classified its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income or through profit & loss)
- Those measured at amortized cost

**Initial recognition and measurement:**

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

**Subsequent measurement:**

For purposes of subsequent measurement, financial assets are classified in following categories:

- Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- i. Business model test : The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows (rather than to sell the instrument prior to its contractual maturity to released its fair value change), and
- ii. Cash flow characteristics test: Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate to the gross carrying amount of financial assets. When calculating the effective interest rate the Company estimates the expected cash flow by considering all contractual terms of the financial instruments. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)

FVTPL is a residual category for financial instruments. Any financial instrument, which does not meet the criteria for amortized cost or FVTOCI, is classified as at FVTPL. A gain or loss on a Debt instrument that is subsequently measured at FVTPL and is not a part of a hedging relationship is recognized in statement of profit or loss and presented net in the statement of profit and loss within other gains or losses in the period in which it arises. Interest income from these Debt instruments is included in other income.

**Derecognition:**

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e., removed from the Company's statement of financial position) when:

1. the rights to receive cash flows from the asset have expired, or
2. the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass through" arrangement and either;
  - a. the Company has transferred the rights to receive cash flows from the financial assets or
  - b. The Company has retained the contractual right to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all the risks and rewards of the ownership of the financial assets. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all the risks and rewards of the ownership of the financial assets, the financial asset is not derecognized.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

#### **Impairment of financial assets:**

In accordance with IND AS 109, the Company applies expected credit losses (ECL) model for measurement and recognition of impairment loss on the following financial asset and credit risk exposure

Financial assets measured at amortized cost e.g. Loans, security deposits, trade receivable, bank balance.

The Company follows "simplified approach" for recognition of impairment loss allowance on trade receivables. Under the simplified approach, the Company does not track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analyzed.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Company reverts to recognizing impairment loss allowance based on 12- months ECL.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward- looking estimates. At every

reporting date, the historical observed default rates are updated and changes in the forward- looking estimates are analyzed.

**Reclassification of financial assets:**

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

**b. Financial Liabilities:**

**Initial recognition and measurement:**

Financial liabilities are classified at initial recognition as financial liabilities at fair value through profit or loss, loans and borrowings, and payables, net of directly attributable transaction costs. The Company financial liabilities include loans and borrowings including bank overdraft, trade payable, trade deposits and other payables.

**Subsequent measurement:**

The measurement of financial liabilities depends on their classification, as described below:

**Trade Payables:**

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 0-12 months of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at fair value and subsequently measured at amortized cost using EIR method.

**Financial Liabilities at fair value through profit & loss:**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognized in the statement of profit and loss. Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in IND AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk is recognized in OCI. These gains/ loss are not subsequently transferred to profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss.

**Loans & Borrowings:**

Borrowings are initially recognized at fair value, net of transaction cost incurred. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

**Derecognition:**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

**Offsetting of financial instruments:**

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

**2.1.6 Cash & Cash Equivalents:**

Cash and cash equivalents in the balance sheet comprise cash at banks, cash on hand, other short term deposits with original maturities of three months or less which are subject to an insignificant risk of changes in value.

**2.1.7 Mandatorily Redeemable Preference Shares:**

A mandatorily redeemable preference share with dividends paid at the issuer's discretion, which effectively comprises: a financial liability (the issuer's obligation to redeem the shares in cash); and an equity instrument (the holder's right to receive dividends if declared. Such preference shares are separated into liability and equity components based on the terms of the contract.

On issuance of the mandatorily redeemable preference shares with dividends declared at the issuer's discretion, the present value of the redeemable amount is calculated using a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortized cost (net of transaction costs) until it is extinguished on redemption. The unwinding of the discount on this component is recognized in profit or loss and classified as interest expense.

The remainder of the proceeds is recognized and included in equity as per Ind AS 32. Transaction costs are deducted from equity, net of associated income tax. The carrying amount of the equity component is not premeasured in subsequent years.

Transaction costs are apportioned between the liability and equity components of such preference shares based on the allocation of proceeds to the liability and equity components when the instruments are initially recognized.

**2.1.8 Provisions:**

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required

to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of Profit and Loss net of any reimbursement.

Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the best estimate.

### **Contingent Liabilities**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases, where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements unless the probability of outflow of resources is remote.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

#### **2.1.9 Employee Benefits:**

##### **2.1.9.1 *Short term obligations:***

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employee's service up to the end of reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligation in the balance sheet.

##### **2.1.9.2 *Other Long term employee benefit obligations:***

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured based on the actuarial valuation using projected unit credit method at the year end. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the term of the related obligation. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

**2.1.9.3 Post-employment obligations:** The Company operates the following post-employment schemes:

**2.1.9.3.1** Defined benefit plans such as gratuity; and

**2.1.9.3.2** Defined contribution plans such as provident fund.

##### ***Gratuity Obligations:***

Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit (liabilities/assets). The Company recognized the following changes in the net defined benefit obligation under employee benefit expenses in statement of profit and loss -

- Service cost comprising current service cost, past service cost, gain & loss on curtailments and non routine settlements.
- Net interest expenses or income.

#### **2.1.10 Revenue Recognition:**

The disclosures of significant accounting, judgments, estimates and assumptions relating to revenue from contracts with customers.

##### ***Revenue from contract with customers***

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

Revenue from sale of goods is recognized at the point in time when control of the goods is transferred to the customer, on delivery of the goods. The normal credit term is 7 to 30 days upon delivery. The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of goods, the Company considers the effects of variable consideration, the existence of significant financing components, non cash consideration, and consideration payable to the customer (if any).

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

##### ***Contract balances***

##### ***Contract Assets***

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

**Trade receivables**

A receivable represents the Companies right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section financial instruments – initial recognition and subsequent measurement.

**Contract liabilities**

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the contract.

**Interest income**

For all debt instruments measured either at amortized cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

**2.1.11 Leases****Company, as a lessee**

The Company as a lessee, recognizes a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset. The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the Company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset.

The cost of the right-of-use asset shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any re-measurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

For short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

**The Company as a lessor**

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately.

The sublease is classified as a finance or operating lease by reference to the ROU asset arising from the head lease. For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

#### **2.1.12 Fair Value Measurement**

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. In the principal market for the asset or liability, or
- ii. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- a. **Level 1** - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- b. **Level 2** - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- c. **Level 3** - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring and non-recurring fair value measurement, such as derivative instruments measured at fair value.

External values are involved for valuation of significant assets, such as properties and financial assets and significant liabilities. Involvement of external values is decided upon annually by the management. The management decided, after discussions with the Company's external values which valuation techniques and inputs to use for each case.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Company's accounting policies. The management in conjunction with the Company's external values, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

### **2.1.13 Significant accounting judgments, estimates and assumptions**

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

#### **Judgments**

In the process of applying the Company's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the financial statements.

#### **Operating lease commitments - Company as lessee**

The Company has taken various properties on leases. The Company has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a substantial portion of the economic life of the commercial property, and that it does not retain all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

#### **Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

#### **a. Taxes**

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long term nature and complexity of existing contractual agreements, differences arising between the

actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

#### **b. Defined benefit plans**

The cost of defined benefit plans (i.e. Gratuity benefit) is determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. In determining the appropriate discount rate, management considers the interest rates of long term government bonds with extrapolated maturity corresponding to the expected duration of the defined benefit obligation. The mortality rate is based on publicly available mortality tables for the specific countries. Future salary increases and pension increases are based on expected future inflation rates.

#### **c. Fair value measurement of financial instrument**

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

##### **2.1.14 Borrowing Costs:**

Borrowing cost includes interest expense as per effective interest rate [EIR]. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset until such time that the asset are substantially ready for their intended use. Where funds are borrowed specifically to finance a project, the amount capitalized represents the actual borrowing incurred. Where surplus funds are available out of money borrowed specifically to finance project, the income generated from such current investments is deducted from the total capitalized borrowing cost. Where funds used to finance a project form part of general borrowings, the amount capitalized is calculated using a weighted average of rate applicable to relevant general borrowing of the Company during the year. Capitalization of borrowing cost is suspended and charged to profit and loss during the extended periods when the active development on the qualifying project is interrupted. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to the borrowing costs.

##### **2.1.15 Impairment of Non Financial Assets:**

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the

Company estimates the assets recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating units (CGU) fair value less costs of disposal and its value in use.

Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses of operations, including impairment on inventories, are recognized in the statement of profit and loss, except for properties previously revalued with the revaluation surplus taken to OCI. For such properties, the impairment is recognized in OCI up to the amount of any previous revaluation surplus.

After impairment depreciation is provided on the revised carrying amount of the asset over its remaining economic life.

An assessment is made in respect of assets at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

#### **2.1.16 Government Grants:**

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset. However if any export obligation is attached to

the grant related to an asset, it is recognized as income on the basis of accomplishment of the export obligation.

When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual installments.

#### **2.1.17 Earnings per share**

Basic and diluted earnings per Equity Share are computed in accordance with Indian Accounting Standard 33 'Earnings per Share', notified accounting standard by the Companies (Indian Accounting Standards) Rules of 2015 (as amended). Basic earnings per share is calculated by dividing the net profit or loss attributable to equity holder of company (after deducting preference dividends and attributable taxes, if any) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period, attributable to equity shareholders of the company and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

### 27. Fair Value of Financial Instruments

The comparison of carrying value and fair value of financial instruments by categories that are not measured at fair value are as follows:

Category	Carrying value		Fair Value	
	31-Mar-23	31-Mar-22	31-Mar-23	31-Mar-22
<b>Financial asset at amortized cost</b>				
Loans (refer note no 4)	1,06,84,916	1,49,53,159	1,06,84,916	1,49,53,159
Other current financial assets (refer note no 7)	3,21,36,253	3,92,45,049	3,21,36,253	3,92,45,049

<b>Financial liabilities at amortized cost</b>

Current borrowings (refer note no 12)	76,46,660	-	76,46,660	-

The management assessed that trade receivables, cash and cash equivalents, other bank balances, loans and advances to related parties, interest receivable, trade payables, capital creditors, other current financial assets and liabilities are considered to be the same as their fair values, due to their short term nature.

The fair value of loans from banks and other financial liabilities are estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. The valuation requires management to use observable and unobservable inputs in the model, of which the significant observable and unobservable inputs are disclosed below. Management regularly assesses a range of reasonably possible alternatives for those significant observable and unobservable inputs and determines their impact on the total fair value.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The Company enters into derivative financial instruments such as foreign exchange forward contracts being valued using valuation techniques, which employs the use of market observable inputs. The Company uses Mark to Market provided by Bank for valuation of these derivative contracts.

The fair values of the Company's interest-bearing borrowings are determined by using DCF method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at March 31, 2023 was assessed to be insignificant.

### Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 2: other techniques for which all inputs that have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: techniques that use inputs that have a significant effect on the recorded fair value that are not based on observable market data
