Getting to the future, faster. Together.

Together is a wonderful force multiplier. By bringing together erstwhile LTI’s engineering DNA and erstwhile Mindtree’s experience DNA, LTIMindtree has created a powerful synergy of capabilities, client relationships, talent and cultures, along with a strong growth mindset. Today, LTIMindtree has emerged as a formidable digital transformation partner—from core to experience to edge—enabling businesses to thrive in a converging world and get to the future, faster.

Together, we seek to reimagine possibilities, accelerate innovation, unlock efficiencies, and deliver impact at scale by harnessing the power of digital technologies. In the process, we will create a stronger moat, enhanced customer experiences and greater value. At the heart of everything will be our continued commitment to service excellence and client success.

LTIMOne

We foster cross-functional collaboration and exchange of ideas, to deliver differentiated solutions across a vivid spectrum of industries and across levels of business maturity, complexity and ambitions. Our LTIMOne strategy focuses on creating a virtuous cycle of sustained value through focused GTM and account mining, realizing cost synergies, prudent capital allocation, to drive profitable growth and create shared value for all stakeholders and communities.

LTIMindtree possesses five decades of combined experience, a team of highly skilled professionals, a comprehensive set of offerings, combined with the backing of one of India’s largest and most respected companies, the Larsen & Toubro Group. This positions us uniquely to effect rapid change at scale for businesses to stay ahead of the curve and thrive in the marketplace of tomorrow.

Two Indian IT behemoths join hands

Partnering for Growth: Stronger Together

The merger of erstwhile Larsen & Toubro Infotech Limited (LTI) and erstwhile Mindtree Limited (Mindtree), completed in November 2022, led to the formation of LTIMindtree Limited “LTIMindtree” or “Company”. This was a significant milestone for both companies and for the IT services industry in India, as it continues to create value for stakeholders. With the complementary strengths of the two organizations, the resulting entity emerged as a digital powerhouse combining the engineering prowess of erstwhile LTI and the experience capabilities of erstwhile Mindtree.

The perfect harmony of erstwhile Mindtree’s digital services, and erstwhile LTI’s strong background in infrastructure management and enterprise applications equips LTIMindtree with a comprehensive suite of capabilities & solutions to get global businesses to the future, faster.

Today, LTIMindtree has strong global presence across North America, Europe and the rest of the world with over 700 active clients, 84,000+ talented associates, and an annual revenue over USD 4 Billion.

Complementary strengths

The merger enabled both companies to leverage their respective strengths and create a more comprehensive suite of offerings to clients. The expanded and diversified capabilities combined with enhanced scale are creating significant cross-sell and upsell opportunities, cementing LTIMindtree’s status as an industry leader.

Enhanced talent pool

The merger brought together the talent and expertise of two well-established IT services providers, which will be leveraged to provide clients with access to a broader range of technical capabilities and experience.

Increased scale, diversification of service offerings, enhanced reach and competitiveness

The merger has created a larger organization with increased scale, resources and capabilities to compete more effectively with larger IT services companies. The Company is now a formidable contender for strategic partnerships with new clients.

Synergies

Though the focus of the merger was on revenue synergies and end-to-end service offering capabilities, there is some amount of cost savings that is also expected to accrue due to the merger, enabling LTIMindtree to continue its profitable growth journey.

With the Company’s robust next-generation delivery capabilities and continued focus on innovation and agility, there is confidence to capitalize on several exciting opportunities that FY24 would present.

Founder Chairman's Message

Dear Shareholders,

I am happy to present the first Integrated Annual Report post the integration of LTI and Mindtree.

The past year was a watershed year, as we successfully created an entity that accesses the benefits of scale, and expands the array of offerings. By leveraging cross-industry expertise, we will also deliver greater value to all stakeholders. This organisation is integral to the technology-led strategic vision of the parent group, and will play a crucial role in the expansion and diversification of its services portfolio.

Our client roster covers over 700 leading global enterprises from virtually every key industry vertical. Collaborating with them and building solutions for them are our team of over 84,000+ highly talented professionals spread in 35 countries across five continents. Together, we will continue to build win-win collaborations with our stakeholders and hopefully create a much larger force for new possibilities.

Our focus on innovation, agility, and customer-centricity has allowed us to adapt to the changing needs of the market and stay ahead of the competition. With a stronger balance sheet and financial stability feeding investments in platforms, people, technologies, and client relationships, we are uniquely positioned to deliver a highly diversified portfolio of end-to-end services and skills across a wider market footprint.

As a relationship-driven company, our approach has always been people-first. The drumbeat we have set up across our teams carries our people forward on a mission-mode. We will continue to invest in crafting career strategies for them which offer professional growth and the exhilaration of personal accomplishment. We believe these people policies hold the kernel for sustained business success.

We are conscious that we operate in a global industry beset by crosswinds and rife with challenge and sudden change. We are confident, however, that our unique combination of expertise, experience, and technology will help us navigate the future while remaining centered on achieving our goals. By investing in cutting-edge technologies, platforms, and solutions, we aim to be at the forefront of helping enterprises harness the full power of technology and live up to our motto - Getting to the future, faster and together.

I welcome all our shareholders to be a part of this journey and look forward to your continued partnership and support.

Regards,

A.M. Naik

Chief Executive Officer and Managing Director's Message

Dear Shareholders,

With the creation of LTIMindtree, we have taken a significant leap forward in the industry-acclaimed profitable growth journeys of erstwhile LTI and erstwhile Mindtree. We are well-positioned to grow and nurture a powerful new brand that straddles a rich combined heritage of nearly five decades and a thriving future of value creation as an at-scale player with end-to-end transformational capabilities spanning businesses, experiences, technologies, and operations.

LTIMindtree combines erstwhile LTI's and Mindtree's engineering and experience DNAs, blending their problem-solving and digital-first strengths into a unique value proposition that spans core to experience to edge. Central to our ability to lead from the frontlines is our high-performance culture, which guides each one of us to be constantly driven by a greater purpose, acting with compassion, being future-ready, and delivering impact. Our cutting-edge talent operates with a mindset of continuous improvement, innovation, and integrity and remains truly and deeply invested in LTIMindtree and its bold vision.

In today's dynamic business environment, where businesses seek strategic partners who can help drive agility and efficiency while unlocking opportunities for reimagining business models and revenue streams, LTIMindtree brings the diversity of scale and digital capabilities required to challenge the status quo and drive transformation.

Unlocking greater value through collaboration

To us, collaboration is much more than just a nice-sounding idea. It is a mindset and a way of life. As the newest company to join the elite league of top-tier IT services companies, LTIMindtree is about building progressive, win-win collaborations with all key stakeholders – clients, partners, investors, employees, and communities – and about translating the collective force of those collaborations into a bigger, brighter, bolder future for all stakeholders.

We have enabled our clients to take digital deeper into their organizations, become data-driven, and adapt to market changes, technology, and consumer expectations. We have helped them unlock their full organizational potential by unifying their human and digital workforce and aligning their technology and operations with their business ambitions. By rising above traditional – often blinkered – sectoral approaches to products and services, we have driven clear-cut

business outcomes for them with next-generation delivery capabilities and comprehensive, integrated solutions that boost differentiation, agility, and time-to-value.

Our partners continue to play a critical role in driving our success. Through stronger collaboration and expansion across more clients, verticals, and regions, we drove greater client consumption and stickiness. In addition, we broadened and deepened our pool of certified professionals, creating more opportunities for growth and success for all involved.

Our employees are the backbone of our organization, and we remain committed to providing them with diverse career avenues, skilling, and work opportunities through an expanded portfolio of clients, verticals, technologies, and markets. Through several engagement, learning, and mentorship initiatives, inclusive policies, and measurement of progress, we have accelerated their professional growth and continue to foster a winning culture of innovation, collaboration, and excellence.

Through enhanced collaboration with our clients, partners, and employees, we will pave the way to delivering sustained value to all our stakeholders.

LTIMOne: The new way to create customer value

Embracing the ever-changing landscape of the future requires a unique combination of vision, creativity, and agility. This is where LTIMindtree comes in - helping individuals, businesses, and societies not just stay afloat, but thrive by studying tomorrow's needs, ideas, and breakthroughs today, and helping them get to the future, faster. Our organization functions as a unified whole - a single global partnership held together by a solid foundation of shared values. As we embark into FY24, our LTIMOne framework, with its four pillars of Culture, GTM Strategy, Unified Capability, and Profitable Growth Model, will be key to achieving this goal. By building upon the strengths of the individual entities and leveraging synergies through the combination, we will sharpen our end-to-end offering capabilities and take it to all our clients with a clear GTM strategy while preserving our distinct culture and profitable growth model.

Ongoing commitment to sustainability and giving back

In an era characterized by intricate environmental predicaments and mounting commercial and societal demands, embracing sustainability represents an ethical as well as a strategic imperative. At LTIMindtree, we continue to pursue excellence in managing our environmental impact and caring for our people, customers, and communities.

We remain committed to creating a sustainable future through our conscientious and forward-thinking approach. Our inclusive vision promotes shared growth and positive value creation for all stakeholders. From conserving resources through our renewable energy capability and green tech interventions, to caring in myriad ways for communities, to driving greater diversity and inclusion

in our ways of working, we are proud of how well we have woven sustainability into our business to make a positive difference.

That we were recently named by *The Economic Times* as one of the 'Best Organizations for Women 2023' and recognized for 'Most Innovative Practices' at the DivHERsity Awards 2023 validates our sustained efforts at building an inclusive environment where every individual feels valued, respected, and empowered, regardless of gender and other differences.

We believe progress is driven by shared values, equity, empowerment, and enablement, supported by strong governance, ethical practices, and integrity. Our impact on societies can be seen in our sustained focus and environmental initiatives aligned with the United Nations Sustainable Development Goals. As an organization that plays for the long run, we remain dedicated to strengthening our sustainability practices and creating a responsible future for all.

The road ahead

As cloud, data, and digital become critical for every organization, we aspire to be the driving force behind companies' technological transformation journeys, helping them reimagine outcomes and stay ahead in a complex and convergent digital landscape. We would like to be seen as a partner large enough to take on the most complex of their transformational aspirations, and small enough to do so with the appetite and agility of a start-up.

While we observe a cautious approach towards technology spend across sectors on account of macroeconomic dynamics, the overall focus on driving technology-led innovation to prepare for future opportunities holds a significant long-term upside for our full-stack, end-to-end capabilities, and our deep industry domain exposure. As you may recall, this was the key rationale behind the merger.

To this end, we are pleased with the conversations we are having with clients across markets. Our increased scale has started creating enormous cross-sell and up-sell opportunities, paving the way for our elevation as a Tier-1 partner for our existing clients and a serious contender for strategic partnerships with new clients. We are confident in delivering enhanced value through the cross-pollination of learnings and capabilities across our expanded portfolio.

We remain excited about the opportunities that FY24 presents, despite the challenges in the near term. With our strong foundation of shared values and our LTIMOne framework, we are confident that we will be able to capitalize on the significant opportunities available in the market to help businesses get to the future, faster.

We look forward to your continued trust and support in powering the next phase of our growth journey.

Dear Shareholders,

It gives us great pleasure to share our first annual message as part of the leadership of LTIMindtree Limited. We are proud to have entered the elite league of top-tiered IT services companies by merging erstwhile Larsen & Toubro Infotech Limited and erstwhile Mindtree Limited in a record time. This has expanded our opportunity for growth significantly, and we are committed to helping businesses reimagine outcomes and unlock new possibilities by placing the most optimal intelligence, insights, innovation, and investments at the core of value.

We are already seeing promising indications that the merger rationale has started to materialize as expected. With our broadened and well-diversified offerings and combination of engineering and experience DNAs, we are well-positioned to help enterprises accomplish the dual objectives of digital transformation that comprise driving revenue growth and cost efficiencies. Our unified capabilities, continued investments in partnerships, and best-in-class IPs will contribute to our growth leadership and bring in revenue synergies of USD 1 Billion.

LTIMOne

We are a one-market organization, and our unified capability helps us deliver a compelling integrated proposition to our clients. Our end-to-end services portfolio, strong sales engine, and proven account mining positions us well to continue delivering industry-leading revenue growth for FY24. The Company's strategic approach is guided by the LTIMOne framework, which focuses on unifying the organization and providing clarity to clients, employees, and stakeholders. The framework encompasses one culture, one GTM (Go-To-Market) strategy, one unified capability, and one profitable growth model. Through these pillars, LTIMindtree aims to simplify operations, deliver impactful outcomes, and drive profitable growth for clients and the communities it operates in.

By enabling our clients to swiftly adapt to changes in the market, technology, and customer expectations, and compete better with digital natives by bringing their operations in sync with their technology ambitions, we aim to get them to the future, faster.

Year in retrospective into: – Sustaining momentum through innovation and determination

The last year was marked by a great deal of uncertainty due to multiple global events – from high inflation to specific banking crises. Despite this, we have steadily moved ahead and stayed on track with our order inflow for the full year being USD 4.87 Billion. Superior execution and meeting our client commitments continue to be our strengths, and we remain committed to maintaining a laser-sharp focus on this aspect of our business. We recently completed our unified CSAT survey and received a very positive response for our robust delivery and combined capabilities.

Through our extensive client interactions post-merger, we have learned that our clients are increasingly looking to break down silos and adopt a unified approach to digital transformation. Our end-to-end capabilities will enable us to meet this need and position us favorably as their chosen transformation partner. Our new Service Line organization is designed to meet this latent need of our clients, and our recent wins demonstrate that we are on the right path. Also, we are now one of the first in the industry to provide a Generative AI-based platform to create safe, secure, and responsible co-pilot solutions. This will enable several new use cases for our enterprise clients.

As a partner committed to creating long-term value in these journeys, we bring scale and expertise, assets of innovation, and platform-led delivery to our clients. We have the energy and ambition of a challenger, combined with the resources, scale, and confidence of a leader. Our attention and responsiveness as a caring partner, combined with the vision and perspective of an end-to-end provider, help our clients thrive in the ever-evolving business landscape and get to the future, faster. We continue to expand our market share in collaboration with hyperscalers, enterprise solutions, SaaS platforms, and product companies.

To help organizations navigate uncertainties and disruption and deliver growth at all times, we have created four sales transformation programs – Minecraft 2.0, Aspire, Everest, and Neo. These programs focus on growth opportunities unique to LTIMindtree, including, but not limited to, a resilient blue chip account portfolio, a large base of accounts for cross-sell and upsell, alliances and partnership-led growth, a robust pipeline including several large deals, and new logos.

Message from the Senior Leadership Team

Future of work

Our 84,000+ talented professionals form a diverse pool, and the talent synergies brought about by the merger maximize our potential and future opportunities. We have adopted a Yin Yang model as the future way of work, which offers our employees the perfect blend of work-from-office and work-from-home worlds, enabling them to manage their work-life balance better. By leveraging automation and digitization in our workflows, we continue to provide our employees with a superior work experience, thereby improving productivity and optimizing efficiencies. We launched 'ULTIMA,' a state-of-the-art unified platform, as part of our integration efforts to promote insights, connections, and collaborations across the Company.

Financial highlights

We are delighted to present LTIMindtree's high growth performance with revenues at USD 4.1 Billion, up 19.9% in constant currency and 17.2% in USD terms, and INR revenue stood at INR 331,830 Million, up 27.1%. Our EBITDA margin stood at 18.4% for FY23 compared to 20.1% for FY22. Our EBIT margin stood at 16.2% for FY23 compared to 17.8% for FY22. The net profit grew at 11.7% from INR 39,500 Million for FY22 to INR 44,103 Million for FY23. The PAT margin was 13.3% for FY23 against 15.1% for FY22. If not for one-off impact of merger-related integration cost, our EBIT margin and PAT margin would have been approximately higher to the tune of 40 and 30 basis points, respectively.

We remain committed to enhancing shareholders value and maximising returns to our investors. The Return on Equity (ROE) stood at 28.6% against 30.5% for FY22. The Return on Capital Employed (ROCE) stood at 34.9% against 37.7% for FY22. Our Basic Earnings Per Share increased by 11.5% from INR 133.67 in FY22 to INR 149.07 in FY23. Overall dividend paid to equity shareholders increased from INR 13,277 Million for FY22 to INR 15,627 Million for FY23. Our operating cashflow conversion was healthy and stood at 70.2% and our current ratio improved from 2.9 as on March 31, 2022 to 3.1 as on March 31, 2023.

We remain focused on maintaining a stable and secure financial foundation, and our strong liquidity position reflects our prudent financial management. Our Days Sales Outstanding (DSO) on trade receivables has improved to 60 days as on March 31, 2023 from 62 days as on March 31, 2022, amidst increase in business owing to better cashflow management of receivables. Our cash and investment balances stood at INR 83,903 Million as at March 31, 2023 against INR 79,176 Million as at March 31, 2022.

We were assigned AAA/Stable/A1+ by CRISIL Ratings and IND AAA/Stable/IND A1+ by India Ratings & Research, an outcome of expected sustenance of profitable business performance, healthy deal pipeline, diversified service offerings, financial discipline, responsible risk management and continuous investment in business towards long-term sustainable value creation.

Good governance

At LTIMindtree, we strive to uphold the principles of good governance, integrity, and transparency in everything we do. These values guide our fair and inclusive decision-making procedure. We implement best practices for integrated reporting, embed integrated reporting in our strategic decision-making, and provide our stakeholders with a more comprehensive and holistic view of our company's performance, risks, and opportunities. We were among the early voluntary adopters of Business Responsibility and Sustainability Reporting (BRSR) for FY22. Our focus is on sustainable business growth that positively impacts society, and we have made significant strides in the area of sustainability, earning credits for our efforts. Here's an account of our prestigious recognitions:

- ▶ Silver Shield Award for Excellence in Integrated Reporting for FY22 in the Service Sector category for the second time in a row. The award was received during the 'ICAI Sustainability Reporting Awards 2021-22' function hosted by The Institute of Chartered Accountants of India (ICAI).
- ▶ Accolades and honor from the Sustainability Reporting Standards Board of ICAI for facilitating the SEBI-ICAI Business Responsibility and Sustainability Reporting Back-Testing initiative during FY23.

Enhancing guest experience and **safety** during the pandemic for a hospitality giant

The COVID-19 pandemic impacted the hospitality industry significantly, with guests becoming more cautious about their safety and hygiene. In response, a leading hotel chain wanted to take various measures to ensure its guests' safety while also enhancing their experience. The client faced several challenges in implementing contactless initiatives, including developing a solution that allows guests to minimize interaction with associates, ensuring the security of guest data, and implementing the solution across its global properties. Additionally, they needed to ensure that the solution was user-friendly and accessible to all guests, including those who may not be tech-savvy.

Contactless initiatives

Partnering with LTIMindtree, the client intended to achieve that. The Company developed solutions to implement initiatives that reduce the contact time between guests and associates, making travel safer and more comfortable. These included mobile and web check-in, mobile key, requests and dining. The solution was built on the Java Tech Stack and hosted on LTIMindtree's cloud environment. It included an associate control panel to process mobile check-in/out and web check-in, enabling the web check-in feature within one month with accelerated delivery across more than 5,000 properties, at no additional cost.

The existing mobile property-gateway platform was leveraged to relay the delivery of room keys from the lock vendor to the mobile app, enable guests to communicate with the on-property associate regarding service or mobile dining requests they may have, and relay hotel and guest check-in/out information to the hotel's digital assets such as the guest room TV.

Benefits

These initiatives have been a resounding success, enhancing the guest experience while also ensuring their safety across all their 7000+ North America properties. Web and mobile check-in reduced contact time significantly to 30-60 seconds, while mobile key has reduced contact time to 0 seconds, enabling guests to check into their rooms without visiting the front desk. Meanwhile, mobile requests allow guests to raise requests for amenities for their rooms and mobile dining extends the ability to browse menus, order, and/or pay for food and beverages from their personal devices.

Helping a global tech retailer transform instore and online customer experience

Getting to the future, faster. Together.

A leading technology products and services retailer operating across eight countries aimed to provide its customers with a digital-first, best-in-class omnichannel experience. The retailer wanted to integrate its online and in-store experiences to provide a seamless and intuitive customer journey, personalized recommendations, cross-selling and upselling of products and services, and to build a long-term relationship with them.

The challenge was that customers had started to expect the same high-level of service instore and online, especially after the pandemic hit. However, with over 600 applications and complex digital journeys across multiple websites and brands, the retailer had limitations to manage critical customer data, provide a personalized shopping experience, and integrate various disparate systems. The retailer faced issues like confusing navigation, disconnected experiences, unavailability of accurate inventory, a lack of sufficient customer data, limitations of legacy systems, inability of store colleagues to do contextual selling, and cross-channel fulfilment and returns.

Omnichannel solution

To address these issues, LTIMindtree collaborated with Salesforce to design and implement an omnichannel solution. The Commerce Cloud, an all-in-one stack scalable platform, was used to bring flexibility and scalability and eliminate performance issues and pressure during peak seasons. It was also used to test the success of personalization at scale and prove that it resulted in higher engagement, conversion, and increased basket spend. The rolling out of Einstein Artificial Intelligence quickened and simplified searches and offered a personalized experience for returning customers. Salesforce's Mulesoft was used to integrate backend systems, making it a one-stop shop to integrate various disparate systems.

The Colleague Hub, built on Service Cloud, provided the employees with a centralized, real-time view of customer history, products in their cart, knowledge articles, and task lists. The StoreMode software made guided selling possible. The store colleagues could explore inventory and apply filters to suggest appropriate products and finalize the purchase while conversing with customers. They could then schedule next-day delivery to the store and then contactless collection.

The Experience Cloud was combined with Commerce Cloud to synchronize customer data for a uniform and scalable cross-geo experience improving personalization. The omnichannel inventory gave its employees tools to manage real-time inventory availability and customers a view of inventory across all channels, allowing a truly connected experience. Salesforce order management system (OMS) was used to create a seamless order experience for customers.

Benefits

The transformation has enabled the client to become a digital-first company and combine online and in-store experiences for the best-in-class shopping experience across all channels.

LTIMindtree and Salesforce helped the client unify data, upgrade its website, enhance its ShopLive service, and deliver an industry-leading Colleague Hub across all its UK and Ireland stores. By leveraging customer data to provide services and support, they could build long-term relationships with its customers, offer personalized recommendations, cross-sell and upsell products and services, and provide a seamless and intuitive customer journey. The transformation resulted in migration to cloud and website launch in 12 months, ShopLive video chat engaged 34,000 callers very week, helped move 50% sales online and 8.5 Million customers engaged online and in-store per week.

By leveraging customer data, the retailer could build **long-term relationships with its customers**

Transformed multi-channel digital marketing ecosystem for a CPG giant

A consumer packaged goods (CPG) major with more than 65 unique brands over 800 online properties was facing a challenge in managing its digital-marketing operations. Each brand was using multiple agencies across countries for digital marketing, leading to a massive inefficiency in deploying new technologies and implementing marketing tactics.

The client recognized that this approach was costly and presented an inconsistent view of its brands across its digital channels. In 2009, the client decided to pursue a digital decoupling model to reduce costs and improve efficiencies. The client recognized that this was a waste of money and took a toll on the value of its brands. The client needed to reduce costs and improve efficiencies by pursuing a digital decoupling model.

Standardizing solutions

Under this model, all the creative agencies could focus solely on what they do best, while a primary vendor with expertise in the domain would own the technical work of producing, releasing, and maintaining these properties. The client asked LTIMindtree to propose a model for decoupling their digital marketing work. LTIMindtree defined the roles and processes so that the technical and creative agencies focused on their strengths to work as 'One Team' to realize the brand's vision more efficiently. We started by developing a unified service orchestration and cost optimization. We combined that with a unified governance structure to leverage best practices and learning across tracks.

Inheriting diverse technologies such as .NET, MS SharePoint Server, Java, and PHP, LTIMindtree took over development and maintenance for web, mobile, and social development, including localizations. We also enabled web analytics and content management systems. This significantly increased site traffic provided better consumer understanding and actionable consumer insights.

A couple of years into the partnership with LTIMindtree, the client embarked on a larger, bolder step: building a new platform for all its brands that would eventually become the world's largest digital marketing ecosystem for a single company. Together we laid out a strategic road map for building the next generation, multi-channel digital presence platform on Sitecore, and defined the processes to onboard the client's brands through a digital factory. LTIMindtree also orchestrated the digital ecosystem, collaborating with various client marketing teams, creative agencies, and third-party vendors.

Benefits

The digital decoupling model and the new platform built by LTIMindtree supported multi-channel digital marketing and provided consistent consumer engagement for its 400+ digital properties. This integration has reduced time-to-market and cost by 33%. The platform has driven 100% adoption by brands and achieved 100% compliance with privacy, security, and legal standards. This ongoing relationship of more than seven years with over 450 digital consultants from LTIMindtree is strong, focused, and collaborative. The Client's Partner Excellence Award is a testimony to our consistent performance and partnership spirit.

Empowering premier specialty underwriter with cutting-edge tech platform

The client faced a multitude of challenges, including long lead times for product changes and new product launches; manual underwriting processes, maintenance, and integration issues; and the absence of self-service portals for both independent agents and insureds. Moreover, limitations in processing lockbox payments and handling large claim volumes during times of hurricanes caused customer dissatisfaction and downstream reporting remained inconsistent due to data governance issues.

Cutting-edge solutions

To address these challenges, LTIMindtree implemented the Duck Creek OnDemand full suite, providing a comprehensive solution that included policy, billing, claims, and data insights for personal lines. Leveraging an agile framework, the company built a scalable architecture and maximized the use of configurations of OOB features keeping workarounds and customizations to a minimum. The team created digital self-service portals for independent agents and insureds, offering a seamless user experience. Effective design best practices for data governance and analytics solutions and performance engineering services were employed, fine-tuning the modernized system's performance.

Benefits

Apart from improved data governance, analytics, and transparent reporting, the solution provided by LTIMindtree resulted in significant business benefits for the client, including about 60% faster speed than the market for state rollouts and change implementations, and about 50% increase in operational efficiency in underwriting through STP for greater customer satisfaction. Moreover, faster intake of First Notice of Loss (FNOL) along with touchless claims handling, and enhanced payment capabilities enabled a superior customer experience. The implementation of digital self-service portals for independent agents and insureds led to improved customer service. Not just this, leveraging our capabilities, the client's claims-handling capacity shot up to 500 per hour from 200 per day—almost a 5,500% rise. Our infrastructure also enabled the client to launch a direct-to-consumer channel and a new company.

Transforming a legacy system into a modern policy booking portal

for a leading insurance-products provider

Our client was facing several challenges with its legacy system running on an outdated Java version and limiting its growth. As the system lacked upgradation, it was unable to process beyond 30,000 locations and took up to 40 minutes to process large schedule policies. The system lacked support for multi-currency processing, resulting in inconsistent user experience across different regions.

The legacy system's performance and feature constraints were limiting the client's international expansion plans and hampering targets of large accounts. The client sought LTIMindtree's advisory on product selection and migration to the cloud for a scalable solution that could support its growth plans.

LTIMindtree's comprehensive solution

The Company, leveraging 10+ years of experience on the account, created the framework for the product-selection process to begin the product advisory and consulting services. The solution involved an all-inclusive hybrid cloud solution, including Salesforce, a multilingual booking portal on Azure, and Duck Creek OnDemand Policy v8 in a headless mode. We also defined an organizational change management strategy for guiding the client team in stakeholder analysis, stakeholder engagement, and devising a training strategy. We enabled the client organization to adopt agile practices, and we migrated data from the legacy system to Duck Creek to reduce operational expenditure costs.

Benefits

We improved the performance of large schedule policies by 85% and system's capacity to handle large schedule policies. We also enabled multi-currency and multilingual capabilities across all regions. Our program management and governance ensured transparency and accountability and delivered scope per quality and cost objectives.

Unlocking the power of cyber data for a global broker to better manage risk and exposure

In the insurance industry, quick access to timely data is essential to manage risk and exposure effectively. However, a leading American insurance brokerage faced challenges with extended turnaround times for gaining insights, which limited the effectiveness of their risk advisors and led to a loss of business.

Additionally, they struggled to formulate a comprehensive placement strategy and provide enriched data to underwriters for prudent decision-making and better price/coverage options. They reached out to LTIMindtree for a solution to integrate 11 different data sources and generate client-ready content to increase the broker's market penetration in the fastest-growing sector of the cyber insurance marketplace.

Revolutionizing risk management and data analytics

LTIMindtree implemented a scalable Azure Data Lakehouse with a decoupled, scalable, and highly available architecture, along with a robust meta-data driven ingestion framework that is low on maintenance and has high implementation ROI. The pipelines were designed to require minimal manual intervention and had advanced built-in intelligence features to handle structured and semi-structured data. The solution also included intelligent audit and exception-handling techniques to proactively notify business users for quick decisions. To automate data ingestion, LTIMindtree used MS Form/SPOL/MS Flows for collecting broker inputs for automated API triggers. The Company also built an ML model on PySpark that could connect data from new source systems with existing ones using fuzzy logic search.

Benefits

LTIMindtree's solution enabled the client to reduce by 90% the manual efforts previously in searching and collating data coming from various sources. By building multiple reusable, scalable, and customizable Azure components, the solution reduced the development lifecycle by 40%. The solution allowed for faster onboarding and automation of data, providing a better understanding of risk through data consolidation and visualization. The integrated and curated data was available for business analytics, enabling the client to formulate a comprehensive-placement strategy and provide enriched data to underwriters for better decision-making and price/coverage options. The solution helped increase market penetration by over 50%.

Smooth-shift to cloud: How a US-based reinsurer migrated to Azure on-time and on-budget

LTIMindtree Solutions & Services helped a leading American multinational property and casualty (P&C) and life and annuity (L&A) reinsurance company streamline its complex platform. The client was facing challenges due to a lack of ownership and service-level issues arising from multiple service providers and internal IT teams managing platform operations. They not only had a highly complex platform but also experienced high costs and efforts to provision and maintain the on-premise infrastructure.

From complexity to clarity: Streamlining critical transactions

To save cost immediately, the client wanted to migrate majority of workloads to cloud and in process for SAP wanted to gain access to enhanced features of SAP HANA. LTIMindtree offered the client a comprehensive solution, which included a roadmap for their cloud journey and a plan to migrate all workloads, standardize architecture, processes, support models, etc. The Company implemented extreme cloud automation and cost optimization, using a lift-and-shift-migration strategy along with disaster recovery for production workloads by enabling global peering. LTIMindtree changed the team's ways of working to deal with the pandemic-induced lockdown and accelerated the migration further.

Benefits

The client realized significant benefits from the migration, with each subsequent data-center migration being completed smoothly. All the migration cutovers were seamless and on time with minimal technical errors, which were solved within the cutover windows.

The client increased the virtual footprint and reduced the physical one, thereby reducing administrative overheads. It now enjoys the luxury of instant recovery during disasters such as an outage of primary regions and improved performance through the SAP HANA cloud upgradation. The client increased the uptime and availability of applications, reduced deployment cycle time, and achieved a future-ready platform that can handle growth.

Hence, the client was able to enable cloud ways of working, reduce the cost of operations, and make it easier to maintain.

A mobile app transformation boosts digital revenue and enhances customer experience

for a major US airline

As one of the largest airline companies in the world, the client needed a scalable and customer-centric mobile app to improve self-service capabilities for their 100+ Million flyers annually. They were looking to streamline tasks such as booking tickets, check-in, and selecting flight menus to focus on their core competencies while also increasing revenue through mobile app bookings.

Boosting digital revenue and customer experience

To meet these challenges, LTIMindtree used a distributed, agile delivery model to integrate multiple customer-facing solutions and enhance self-service capabilities for 'Same Day Travel Changes' and flight menu selections. Passengers could, therefore, preselect their meals through the app. Additionally, LTIMindtree implemented co-branded features such as users paying for flight tickets in instalments to accelerate revenues.

Benefits

The collaboration between the client and LTIMindtree resulted in a 30% rise in mobile bookings year-on-year, contributing to digital revenue. The number of releases per year also increased by 100%, leading to faster feature deliveries to customers. Meanwhile, the time to market for small features improved by up to 50%. Additionally, the newly introduced capabilities such as Same Day Flight Changes, Flight Menu Selections, and Co-Brand Card Benefits improved the customer experience significantly.

Operating context

Capitalizing on growth opportunities

We operate in a rapidly changing environment. By understanding key trends, we can take advantage of opportunities as they arise and act quickly to reduce risks to our business where necessary.

Cloud computing

Industries are increasingly recognizing the importance of establishing a dedicated location for organizing and safeguarding their digital assets and information. The presence of a secure and comprehensive platform has become nearly indispensable. Cloud computing has emerged as the preferred choice for companies seeking to enhance their digital operations and streamline efficiency. The rising popularity of multi-cloud and hybrid cloud solutions can be attributed to businesses' desire to distribute their workloads across various cloud providers and on-premises infrastructure. It enables businesses to take advantage of the strengths of different cloud providers whilst maintaining control over their data and applications. According to Gartner, the worldwide end-user spending on public cloud services is forecast to grow 21.7% to total USD 597.3 Billion in 2023, up from USD 491 Billion in 2022.

Traversing the AI journey

Across various sectors, there is an ongoing trend of advancing and embracing AI technologies. These intelligent systems are continuously enhancing their comprehension of the world, enabling them to effortlessly handle intricate tasks. Whether it pertains to scaling operations, optimizing performance, or ensuring data security, the utilization of Adaptive AI is becoming increasingly prevalent in numerous industries. As per Gartner's projection, by 2026, enterprises that have implemented AI engineering practices to construct and oversee adaptive AI systems will surpass their counterparts in effectively operationalizing AI models by a minimum of 25%.

Our response

- ▶ LTIMindtree's KenAI addresses the core tasks of scaling, managing, and governing the models on cloud data platforms. It provides a complete playbook to standardize, streamline and accelerate your AI journey using inbuilt tools and utilities.

Strong push towards sustainability

The foundation for attaining sustainable objectives lies in traceability, analytics, and renewable energy. Businesses in emerging markets have rapidly embraced mainstream practices and are even pioneering innovative approaches in this vital realm of sustainability. As we transition to a more interconnected and circular economy, the prosperity of enterprises will increasingly rely on generating positive social and environmental impacts. In the years ahead, there will be a heightened emphasis on raising awareness about green practices and leveraging technology to intersect sustainability-focused performance metrics, enabling businesses to advance their goals. According to fortune business insights, the global green technology and sustainability market size is projected to grow from USD 16.50 Billion in 2023 to USD 61.92 Billion by 2030, at a CAGR of 20.8%.

Our response

- ▶ We have been named a global 'Supplier Engagement Leader' by CDP, in recognition of our efforts towards measuring and reducing Scope 3 emissions within the supply chain and driving the transition towards a sustainable net-zero future.

Cybersecurity and data privacy

The unstoppable rise of digitalisation, connected devices and connectivity services means an increased focus on data privacy and the threats posed by cybercrime. Cyberattacks are becoming increasingly sophisticated, prompting businesses and individuals to heighten their awareness of cybersecurity and bolster their security measures. In the future, the pervasive impact of cybersecurity will touch everyone's lives. Customers seek reliable providers who can assist them in preparing for, detecting, mitigating, and managing threats in a trustworthy manner. According to Cybersecurity Ventures, the cost of cybercrime is predicted to hit USD 8 Trillion in 2023 and will grow to USD 10.5 Trillion by 2025.

Risk management

Navigating through uncertainty

Risk management has a role to play in minimising the impact of events that can have a detrimental effect on the organization. LTIMindtree achieves this by anchoring risk management in day-to-day decisions across various functions and building a risk aware culture to balance risks and opportunities.

Risks and opportunities are constantly assessed to ensure that the business strategy is aligned to the internal and external environment. LTIMindtree's robust risk-management framework enables a culture of informed and responsible risk taking through systematic and proactive identification of risks, assessment, treatment, monitoring and reporting. Strong oversight is established for the entire risk management program by the Board and senior management.

Enterprise Risk Management (ERM)

The objective of Enterprise Risk Management is to holistically address the risks to the organization, maintaining business growth and profitability through robust governance and strategies. The ERM framework draws a strong Risk Governance structure to shape organization risk management strategy and achieve key business objectives, providing insights on the key risks for the organization. This enables risk informed decisions at the Board and executive management levels. The governance forums at various layers ensures risks are identified, reviewed, and managed across the organization. The Chief Risk Officer is the sponsor for Risk Management activities and is assisted by the ERM team.

Risk Management Committee (RMC)

Risk Management Committee (RMC) is an apex body comprising of the Board Committee and has a focused agenda of overseeing Key Organization Risks. The forum discusses and deliberates on external risks / disruptive trends and its mitigation plans. Emerging risks in context to organization vision in next few years is also discussed. RMC is convened on a quarterly basis.

Audit Committee (AC)

Audit Committee (AC) is a Board Committee with focused agenda on risks and internal controls. AC meetings are conducted on a quarterly basis.

Risk Operating Committee (ROC)

Risk Operating Committee (ROC) comprises CXO's and senior leadership. ROC meeting is conducted twice in a quarter, where risks perceived to the organization are discussed and deliberated, including Enterprise level risks, Data Privacy risks, Cyber Security risks, Business Continuity risks, risk emanating from internal audit observations and any other risk as applicable.

Business Unit (BU) ERM Cadence Meeting

Business Unit level risks are discussed in the monthly cadence meeting. The meeting is convened by the Business Unit Risk Champion and is attended by the Business Unit Head and other Senior Leadership.

The ERM framework implements management of risks at various layers of the organization including risks at project level, account level, business unit level and enterprise level. Detailed risk management process helps to identify and treat the risks before it surfaces as an issue. The process is enabled through a digital platform that provides an enterprise-wide view of risks, enabling informed decision making.

ESG goals

Responsible choices, sustainable future

At LTIMindtree, we understand that our responsibility towards the environment and our communities goes beyond mere compliance. We adopt a proactive stance towards sustainability, recognizing it as more than just an obligation but as a chance to actively contribute to the long-term objectives of sustainable development.

The principles of sustainable development guide our growth trajectory, and permeate every facet of our business.

To achieve our sustainable growth targets, we have set clear objectives through our ESG goals, which go beyond just meeting the minimum requirements.

Minimizing our footprint for a greener world

Environment

Our pledge towards the environment is integral to our everyday operations. We are committed to monitoring, measuring, and controlling our ecological impact at our workplaces using sustainable practices, all while maintaining the ecological balance.

We take pride in our footprints of positive change, with which we are looking for ways to minimize the negative impact on the environment. We constantly identify key risks and take the necessary steps to mitigate them. At LTIMindtree, we remain committed to promoting sustainable practices that align with our values and vision for a better future.

SDGs impacted

Environment

Our organization is dedicated to promoting a sustainable future by implementing responsible and eco-friendly practices. We have incorporated into our business operations our commitment to the environment and society, ensuring sustainable growth. Our approach involves continuously monitoring, measuring, and controlling the environmental impact of our initiatives across all our facilities to minimize our ecological footprint.

Energy conservation and emission management

Our approach to energy efficiency involves two strategies: Promoting behavioural changes among our associates to encourage energy conservation and smart management of lighting, heat ventilation, and cooling and integrating energy efficiency into our overall operations through design considerations and operational practices. We prioritize energy efficiency throughout our processes, from effectively utilizing our energy sources to reducing our carbon emissions and waste. We continually monitor our energy consumption to ensure efficient resource management.

Key initiatives

Replacement of T5 lights with LED lights

Enhanced LED lights have been installed at our Bengaluru West Campus and ESTPI campus to replace the existing T5 lights. This transition has resulted in a considerable reduction in lighting energy consumption. The initiative is expected to save 132,929.28 kWh of energy, with zero maintenance cost for five years. The overall cost savings, including the AMC for five years, energy savings, and buyback, is estimated to be INR 21.59 lakh per annum. The same initiative at ESTPI campus in Bengaluru resulted in a saving of 32,240 kWh of energy.

132,929.28 kWh

Energy saving for five years due to replacement of T5 lights with LED lights

Optimization of UPS

At one of our Bengaluru Whitefield campuses, we have reduced the installed UPS capacity from 500 kVA to 320 kVA, which is 36% less than the original capacity. This decision was based on a thorough analysis of the load pattern over the past two years, including future projections. This reduction in capacity not only leads to energy and cost savings but also helps to minimize the need for replacements and associated expenses. The initiative is expected to save 1.27 lakh kWh of energy per annum, with a cost saving of INR 28.06 lakh per annum (including AMC, AC capacitor replacement, energy savings, and buyback), resulting in an ROI of 9 months. Similarly, at our Chennai DLF facility, we replaced the conventional uninterruptible power supply (UPS) with modular UPS to reduce the energy loss due to equipment inefficiency. The UPS capacity was reduced from 440 kVA to 380 kVA, which is 14% less than the original capacity. This initiative is expected to save 135,780 kWh of energy units per annum, with a cost saving of INR 15.75 lakh per annum.

Installation of DG Emission Control Device

The Indian government has made it compulsory to use Retrofit Emission Control Devices (RECD) for diesel generator (DG) sets with a capacity of 125 kVA or more. As a best practice, we have initiated the process of installing emission control devices for DGs in a phased manner. We analyzed various partners referred by the State Pollution Control Board (SPCB) in the market, as the Original Equipment Manufacturer (OEM) partner did not support the requirement, and finally identified a partner who met the set requirements by the SPCB.

At one of our Whitefield campuses in Bengaluru, we have installed RECD in a DG with a capacity of 500 kVA, resulting in 83% reduction in particulate matter and 87% reduction in carbon monoxide without causing any adverse effects on the Genset.

The emissions now meet the standard set by the authorities (i.e. less than 70%). To ensure the equipment's safety, the OEM partner will observe the condition for 6-9 months, after which we will install the device in the remaining DG sets.

Installation of motion sensors

At our facilities in Airoli, Hyderabad, Coimbatore, and Pune, we installed motion sensors to control lighting across the facility area without the need for manual intervention. The system automatically detects when a room is unoccupied and turns off the lights leading to significant energy savings over time. This initiative resulted in energy savings of ~71,402 kWh per annum with a cost saving of ~ INR 500,073.

Replacement of old AC units

The Airoli facility's server room has been equipped with AC units with a total capacity of 3TR, but these units are 10 years old and consume a significant amount of power while also experiencing frequent breakdowns. In order to reduce energy consumption, we have installed energy-efficient AC units, resulting in a 56% reduction in power usage, saving 10,368 kWh per year and INR 0.82 lakh per year. Additionally, the 10-year-old 43TR ductable AC units in the electronic private automatic branch exchange (EPABX) and multiplexer (MUX) room were replaced with 45TR inverter ductable AC units without interrupting the EPABX & MUX room's operations. This resulted in an energy savings of 94,003 kWh per year, with cost savings of INR 7.52 lakh and a Return on Investment (ROI) of 10 months.

94,003 kWh

Energy savings from replacement of old AC units

At the Whitefield Software Technology Parks of India (STPI) campus in Bengaluru, non-inverter AC units were replaced with high-performing inverter AC units for improved operations. This initiative resulted in energy savings of 25,600 kWh per year.

In the Chennai DLF facility, the Precision Air Conditioning (PAC) units in the data center and UPS room were over 10 years old and consumed a significant amount of power while experiencing frequent breakdowns. The ageing factor caused capacity loss of 9.53 TR and 5.58 TR for the data center and UPS room, respectively. To address this, high-performing PAC units with advanced technology were installed to improve operations, resulting in energy savings of 168,657 kWh per year. Additionally, the old AC units in the switch rooms were replaced with energy-efficient AC units, leading to energy savings of 282,072 kWh per year and recurring cost savings of INR 32.72 lakh per year.

282,072 kWh

Energy savings from replacement of old AC units with energy efficient AC units

Installation of Variable Frequency Drives (VFD)

By installing variable frequency drives (VFDs) for air-handling units (AHUs), we were able to achieve significant energy savings by allowing the Heating, Ventilation and Air-Conditioning (HVAC) motors to operate at required speeds based on the load requirement instead of constantly running at a fixed speed. This also helps to maintain indoor temperatures within the set range as per demand.

This initiative was implemented at various facilities and resulted in the following energy savings:

- ▶ At our Global SEZ facility in Bengaluru, we achieved an **energy saving of 18,000 kWh per annum** with a cost saving of INR 1.98 lakh per annum
- ▶ At Hyderabad Skyview facility, we achieved an **energy saving of 15,500 kWh per annum**
- ▶ At Whitefield STPI campus, we achieved an **energy saving of 135,000 kWh per annum** with a cost saving of INR 14.85 lakh per annum

Installation of APFC and AHF panels

In the Qubix Hinjewadi IT6 building in Pune, the electricity connection was registered in the builder's name, and the bills were based on sub-meter consumption. However, following a new guideline from the Maharashtra Electricity Regulatory Commission, LTIMindtree entered into a DF agreement, and direct metering and billing will be done in their name. As per the agreement, PF and harmonics will be monitored, and penalties will be levied for any deviations. To address the power factor and harmonics issues, we installed Automated Power Factor Correction (APFC) + Automatic Harmonic Filter (AHF) panels to prevent overloading of the electrical system. This initiative resulted in energy savings of approximately 15,000 kWh per annum, with a cost saving of around INR 2 lakh per annum.

15,000 kWh

Environment

Renewable energy

We have committed to making our operations run through 85%+ renewable energy by 2030. In the FY23, 52.07% of the electricity requirement for our India operations was met by renewable resources. We are constantly working with partners and governments in various states to increase our electricity requirement from renewable resources. We also provided electric vehicle (EV) charging stations in a few of our facilities to encourage employees to move toward EVs.

Water management

Preserving fresh water is a vital component of our corporate social responsibility (CSR), and we continually strive to reduce our impact on the community by adopting sustainable practices. To achieve this, we have integrated the reduce, reuse, and recycle (3R) approach into our operations to ensure minimal freshwater usage, and we have implemented various initiatives to achieve this goal. At most of our facilities, water required for flushing, landscaping, and Heating, Ventilation and Air-Conditioning (HVAC) cooling towers is sourced from recycled water. Moreover, in our Bengaluru facilities, we have initiated rainwater harvesting and installation of recharging pits to recharge the groundwater level. These efforts have helped us reduce private water purchases by a considerable amount in the current financial year.

We have also undertaken the following initiatives to reduce water consumption:

- ▶ Replaced existing water aerators with efficient ones in our Pune Hinjewadi and ICC Facility, which reduced the rate of water flow by 55% without compromising on user comfort. With full occupancy of the building, this initiative has the potential to save 3,894 KL per annum.
- ▶ Replaced conventional water-flush urinals with advanced waterless urinals in Pune, Hinjewadi facility. This initiative led to **water savings of around 343 KL per annum**, resulting in a cost saving of INR 140,000.

Waste management

Replacement of hand driers and removal of hand tissues

To promote sustainability in our workplace, we have been replacing all the old hand dryers with energy-efficient and high-speed hand dryers, which will help to reduce our environmental impact and eliminate the usage of hand tissue papers in all restrooms. The touch-free, high-speed hand dryers are designed to prevent cross-contamination and reduce the generation of contaminated waste. We have implemented this initiative in phases across our facilities, and it has been completed in our facilities in Bengaluru and Hyderabad. This initiative is expected to result in an energy saving of approximately 30,160 kWh units, a reduction of waste generation by approximately 20.23 MTPA, and a reduction in carbon emissions of approximately 3,447 tonne. Additionally, we can save approximately 345 trees per annum by eliminating the usage of tissues.

Employee value proposition

At LTIMindtree, we offer a comprehensive Employee Value Proposition (EVP) that caters to the diverse needs of our employees. Our EVP is structured around four key pillars mentioned below, that help us attract, retain, and engage top talent in the industry.

Talent-growth opportunities

With a global presence in 20+ sectors, 100+ technologies, and 35 countries, we provide our employees with ample opportunities for career growth and development. Our career framework, 'My Career My Growth', ensures career progression and top talent development for all our employees.

People-centric culture

Our people-centric culture is driven by employee-friendly policies, differentiated connect programs, flexibility, and a performance-driven culture. We believe in empowering our employees to perform their best and create a positive impact on society.

Rich employee experience

We provide our employees with a rich and rewarding experience by offering recognition programs, leadership development programs, wellness-focused initiatives, diversity and inclusion practices, and digitized HR processes.

Compelling brand

As a top-tier positioned organization with strong financials, we are nimble as a startup and robust as an enterprise. Our solutions cater to the greater good of society, making our brand compelling and inspiring for our employees.

By prioritizing these pillars, we aim to provide a holistic and fulfilling experience for our employees, resulting in a highly engaged and productive workforce that drives the growth and success of our organization.

Talent acquisition

LTIMindtree has achieved significant hiring success, with 28,905 lateral employees joining globally in the past year. The company has emphasized diversity and inclusion, hiring women for 30% of positions and implementing state-of-the-art technology and a Buddy Referral program to enhance the hiring process.

The Company's Campus Hiring program has been successful, with 5,196 candidates hired from universities worldwide through engagement events, benefiting 67,000+ students and 500+ faculty members. The Leadership Hiring team focuses on creating a talent pool of relevant professionals, improving diversity and inclusion, and creating a bond of trust and transparency with the talent.

5,196

The GEMS program assesses the leadership needs of the company and selects qualified, diverse leaders to create a healthy talent pipeline. The Onboarding program provides new hires with a 30-day incubation period that covers all essentials and critical people programs, nurturing all lateral new joiners across India. These initiatives lead to a memorable experience, resulting in high employee engagement.

People strategy for the merger of LTIMindtree

LTIMindtree's merger initiative was an impressively thorough and successful process that focused on harmonizing HR processes, systems, and policies to create a unified and connected organization. The HR integration journey was that of developing a common culture and value system that incorporates the best practices from both entities. This allowed for a shared objective, a consistent way of working, and a cohesive organizational perception.

The key guiding principle that drove policy harmonization was the employee interest. The HR team took advantage of this opportunity to introduce industry-leading practices, synchronizing policies across 35 countries while ensuring compliance with local by-laws and other considerations. Over 200 programs, processes, and systems were streamlined, ensuring comprehensive coverage for all employees without disrupting their day-to-day functioning. Furthermore, a well-established change management governance ensured that all changes were effectively communicated and implemented in a multi-pronged approach, keeping employees engaged and informed throughout the process. As a result, LTIMindtree has successfully positioned itself for a new and optimistic beginning and is poised for continued success in the future.

Diversity, equity and inclusion

We are committed to promoting diversity, equity, and inclusion in our workforce, and have implemented various initiatives and programs to achieve this goal. LTIMindtree values diversity in talent and aims to create an inclusive environment where everyone feels a sense of belonging.

69:31
Male to female ratio

LTIMindtree's diversity, equity, and inclusion charter focuses on Ethnicity/Nationality, Persons with Disability, Gender (Women), LGBTQ+ Inclusion, and Veterans. We believe that diverse and inclusive teams enhance productivity, problem-solving abilities, innovation, financial performance, resilience, and employee engagement.

To create a culture of inclusion, LTIMindtree emphasizes creating a psychologically safe space where respect, belongingness, empowerment, and progress are promoted for all. The Company's DEI brand identifier 'In Harmony' emphasizes the importance of creating an environment where individuals from different backgrounds can come together to redefine possibilities.

Social

Initiatives and programs

LTIMindtree has implemented several initiatives to foster Diversity, Equity, and Inclusion (DEI) in the workplace.

- ▶ All new joiners, whether campus or lateral, undergo DEI training to understand the organization's commitment and initiatives towards fostering DEI at the workplace.
- ▶ We have policies and benefits that are inclusive and reviewed periodically to keep up with changes. For instance, the policy language is gender-neutral, and insurance policies are LGBTQ+ friendly and cover partners, including transgender health requirements. Additionally, we offer reasonable accommodation for persons with disabilities and has a return ship program for people who have taken a career break.
- ▶ We have a focused diversity hiring strategy, partnering with organizations that specialize in diversity hiring, participating in job fairs, and investing in virtual events and job fairs for hiring diverse candidates into various roles. We have also revised job descriptions to use gender-neutral language and offer incentives and recognitions for recruiters who bring in diversity candidates.
- ▶ We consciously evaluate our suppliers specifically tracking MSME and women-owned business spends.

Workplace

LTIMindtree's facilities at the workplace are designed to encourage and support diversity, with gender-neutral toilet facilities as required by the Transgender Act, ramps for all building facilities, creche facilities, lactation rooms, and Baby's Day Out. In addition, we have implemented several learning and sensitization modules on DEI to dispel myths, assumptions, and prejudices in the workplace. These modules cover areas such as unconscious bias, women's programs, LGBTQ+ sensitization, and disability sensitization.

Special DEI programs

LTIMindtree has implemented specific DEI programs to promote DEI. These programs include:

Women tech-trailblazer program

This program is designed for entry to mid-level career women, combining technical expertise with life-skills coaching. Conducted six batches in the past year, covering over 200 women, and received positive feedback.

Womb to world Program

Designed for expectant mothers, it covers both employees and spouses. Conducted by a partner hospital, with separate sessions for each trimester, where doctors answer typical concerns and open the floor to questions. In the past year, we covered 732 expectant mothers through three sessions.

Initiatives for unconscious bias

E-learning modules, multiple workshops, and awareness campaigns on unconscious bias were conducted, with this module being an essential element of the Manager Development Program for first-time managers. Fireside chats, panel discussions, and speaker sessions were also held, with over 45 sessions conducted in the past year.

Initiatives for women in data and analytics

We received over 100 thought papers, built several case studies, and strengthened its technical leadership for women in data and analytics through thought papers, competitions, and technology leadership programs.

Inclusive management training program

An inclusive management training program was conducted for managers of the Insurance Practice in the Americas.

Employee engagement

To improve employee engagement, LTIMindtree took various initiatives in FY23. These initiatives included empowering women through Women's Day programs, exclusive women connects, and programs to support new mothers and single mothers. Employee connects such as New Joiners Connect, HR Hour/Floor Walks, and Coffee Sessions with leaders were organized to improve employee satisfaction. Leadership touchpoints like CEO connects, BUHR Induction, and GEO HR Induction were also organized to provide employees with an opportunity to connect with the leadership team. The GEMS program was implemented to create a diverse talent pipeline. In addition, LTIMindtree Canada, Americas, and EMEA regions collaborated with universities and provided benefits to engage their employees. These initiatives not only improve employee satisfaction and productivity but also help in the growth and success of the organization.

79% of our customers said the transition has been seamless and a significant number of customers have high expectations from the combined entity

We conducted the customer survey post the integration of LTI and Mindtree. The criteria of satisfaction, loyalty, advocacy, and business value displayed high outcomes, denoting relationships have become stronger and deeper—thanks to our initiatives across people management and operational and delivery excellence. The majority of the customers see the transition as seamless. As concerns around harmonization and service blips get addressed, customers expect continuity of teams and want to know more about the potential benefits they can realize. Customers expect the triad—digital capabilities, domain expertise and larger program management from the larger combined entity. Strategic advisory and innovation to drive efficiency is a big ask for customers—this has an impact on overall value perception.

Supplier sustainability

We perceive procurement as a chance to make a dual contribution, fostering both business sustainability and social and environmental sustainability. Our strategy revolves around harnessing the potential of green procurement as a means to create value for our organization.

Our supplier base consists of 4,500 suppliers across our locations, subject to our local sourcing norm and our Code of Conduct and human rights philosophy.

Best practices

Green procurement

This is a set of initiatives that reflect our commitment and drive our Green agenda. We are in the process of creating the framework for this initiative and will continue to develop it in the following year.

Supplier code of conduct

Our Code of Conduct mandates no child labor, no forced or compulsory labor, and no human rights violations. We have harmonized the agreements of the merged entity, and POs cover all terms and conditions extensively related to child labor and labor law, leaving no room for compliance issues.

Supplier engagement

We have regularly engaged with our suppliers during the announcement of the merger and post it, during the year-ending period. Through this activity, we review market challenges and assess how to mitigate risks related to supply chain issues.

Go Green: Digitalization of processes

Supplier360: Our supplier portal launched in FY20, further evolved during the year, bringing complete supplier visibility into view in real-time. Therefore we have enhanced the supplier base in this environment post-merger. This is part of our digital Initiatives, and we are receiving good responses. Globally, PO-invoice transactions are now virtual under this portal, which has been an important part of our 'GoGreen' concept.

As part of our responsible procurement principle, we accord high importance to the reduction of waste, recycling, hardware reuse, and takeback and disposal of hazardous waste on a continuous basis. With a series of small but significant steps, such as increasing laptop OEM warranty in the last year, we increased asset utilization and achieved savings.

Outsourcing of business processes, to varying degrees, involves the physical and logical storage of personally identifiable information (PII), creating significant enterprise risk. A host of data-rich services are now delivered by vendors and sub-contractors with virtual and physical access to everything related to the employee's and customer's personal information. As part of our inclusive and sustainable long-term approach, we have enabled PII nondisclosure through a data-protection agreement with our suppliers.

The foundation of trust

Governance

At the foundation of our organizational culture lies a steadfast commitment to business integrity and accountability. We strive to adhere to the highest standards of corporate governance and continuously work towards incorporating ESG priorities into our business operations. Our Board of Directors maintains a vigilant watch over enterprise risk management, ensuring that the interests of our stakeholders are always safeguarded and prioritized.

We act according to the following governance principles:

- Act in the spirit of the law and not just the letter of the law
- Do what is right and not what is convenient
- Provide complete transparency in operations
- Follow openness in communication with all stakeholders

Governance

Governance structure

Our governance structure is built to facilitate effective and transparent business conduct. Guided by our unwavering commitment to our governance principles, we endeavor to deliver sustainable, long-term value for all our stakeholders, including shareholders, employees, business partners, and society at large.

Governance strategy

Governance by shareholders

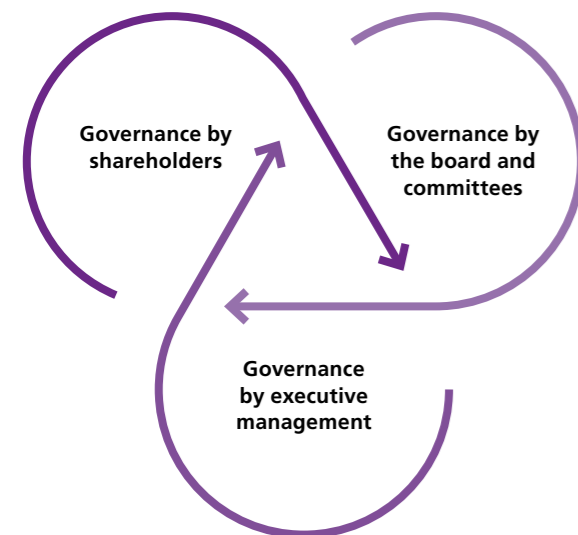

Shareholders appoint and authorize the Board of Directors to conduct business with objectivity and ensure accountability.

Governance by the Board and committees

The executive management and Board Committees take up specific responsibilities and day-to-day tasks to ensure that all activities are in accordance with the strategies and targets set by the Board.

Governance by executive management

The Board leads the strategic management on behalf of the stakeholders, exercises supervision through direction and control, and appoints various committees to handle specific areas of responsibilities.

The role of the Board

The Board decides on the Company's strategy and exercises control over its affairs. The long-term performance of the Company is dependent upon the effectiveness with which the Board sets this strategic direction; reviews and assesses the initiatives taken in pursuance of this strategy; and assesses and understands issues and risks that determine the Company's performance.

In its supervisory capacity, the Board monitors corporate performance and the behaviour of the executive team. This supervision includes strategy development, its design, and implementation. Board members actively discuss various ESG initiatives of the Company and encourage the senior management to go beyond regulatory requirements in their bid to create value for the long term.

Board expertise

As the ultimate decision-making body, the Board plays a pivotal role in defining the Company's strategic direction and exercising control over its affairs. At LTIMindtree, we believe that the diversity and expertise of our Board are essential to our success. By leveraging this collective wisdom, we can continue to deliver innovative solutions to our customers and create long-term value for all our stakeholders.

Anilkumar Manibhai Naik
Founder Chairman

Mr. A.M. Naik is a doyen of industry, reputed for his vision to conceive disruptive change and to drive transformation while boosting value. He has served Larsen & Toubro Limited (L&T) for nearly six decades of which close to two are in an apex leadership position. Taking over as Managing Director & Chief Executive Officer in 1999, and Chairman & Managing Director in 2003, Mr. Naik was appointed Group Executive Chairman in 2012. Effective October 2017, he stepped aside from executive responsibilities, while continuing as Group Chairman. Mr. Naik has been a Director of LTIMindtree since 1996 and is currently its Non-Executive Chairman.

Mr. Naik had articulated the IT vision which led to the parent company's increasing involvement with the sector. He had envisaged the setting up of a market-facing and customer-centric organization that evolved into LTIMindtree Limited (earlier known as Larsen & Toubro Infotech Limited), and placing it on track to accelerated growth. Under his leadership, LTIMindtree has emerged as the sixth largest IT company in India.

He is the Honorary Consul General of Denmark. He was conferred the Danish Knighthood by Her Majesty Queen Margarethe – 2008 and a further honour, the Order of the Dannebrog – Knight First Class in 2015. Over the years, Mr. Naik has been recipient of many national honours, including the Padma Vibhushan (2019), the Padma Bhushan (2009) and Gujarat Garima (2009).

A committed, outcome-oriented philanthropist, Mr. Naik was instrumental in setting up the Larsen & Toubro Public Charitable Trust, which runs several skill training centers around the country. In his personal capacity, he has set up five schools, adopted over 40 and played a major part in the setting up and expansion of a 'Vaidik' school. He has also set up six hospitals in South Gujarat and Mumbai, including a 350-bed cancer hospital which was inaugurated by the Prime Minister of India.

Mr. A. M. Naik is the Non-Executive Chairman of the Company and the parent company, L&T. Under his guidance, the Company has moved rapidly towards achieving its business, social and environmental goals.

S. N. Subrahmanyam
Vice Chairman

Mr. S.N. Subrahmanyam is the CEO & MD of Larsen & Toubro Limited (L&T) and serves on the board of directors of this multi-billion-dollar conglomerate.

SNS, as he is popularly known, is also Vice Chairman on the boards of LTIMindtree Limited and L&T Technology Services Limited, and Chairman of L&T Metro Rail (Hyderabad) Limited and L&T Finance Holdings Limited.

Prior to becoming CEO & MD in July 2017, SNS led L&T's infrastructure business to its position as the country's largest construction organization and 14th in the world. He is now responsible for leading the breadth and width of L&T's considerable business interests to new growth levels, riding on the enormous benefits of digitalisation, big data, and predictive analysis that he drives internally with exceptional zeal. He places a premium on innovation, project management and talent development, particularly in leadership roles.

SNS commenced his professional journey with L&T in 1984 as a project planning engineer armed with a degree in civil engineering and a post-graduation in business management. Mentored by stalwarts, he took on roles of increasing responsibility across business verticals. With an entrepreneurial mindset, drive, and foresight, he led L&T's foray into executing developmental projects starting with the extremely successful HITEC City project in Hyderabad and Bangalore International Airport. He successfully set up the Ready Mix business in India for the first time, bagged mandates to design & build all major international airports in India, ventured into untapped geographies like the Middle East, Africa & ASEAN.

Under his leadership, SNS has transformed L&T into a Company that builds the tallest, largest, longest, smartest and most complex to Speed & Scale. L&T is among the three Indian companies to feature in the top 46 Most Honoured Companies according to the New York based B2B publication, Institutional Investor and has featured on the Forbes list as one of the world's best employers.

SNS was ranked 8th in the Construction Week Power 100 Ranking for 2022. In 2020, he was ranked as the Top CEO (Sell Side) and the 3rd Best CEO (Overall) in the All-Asia Executive Team Survey conducted by Institutional Investor. In 2019, he was conferred the Emergent CEO Award at the CEO Awards and in March 2022, he was recognized as the winner in the Infrastructure & Engineering category of the Business Today-PwC India's Best CEOs ranking.

SNS holds positions of pre-eminence on various industry bodies, construction institutions and councils. In February 2021, he was appointed Chairman of the National Safety Council (NSC) for three years by the Union Ministry of Labour & Employment and he is one of nine founding members of the Climate Finance Leadership Initiative (CFLI).

Global

Global GDP growth has been slowing in the face of reduced investment, and elevated inflation and interest rates, along with disruptions caused by the Russia-Ukraine conflict. There has been rapid monetary policy tightening around the world to contain inflation. In many countries, inflation has also been spurred by sharp currency depreciations relative to USD, as well as tight labor market conditions. As the global conditions make it more difficult to service debt, concerns about debt sustainability in many countries have also risen. In the United States, one of the most aggressive monetary policy tightening cycles in recent history is expected to slow growth sharply. The Euro area had to contend with severe energy supply disruptions and price hikes, in addition to inflation. Growth of emerging economies is anticipated to remain mostly unchanged in 2023 relative to 2022, as a pickup in China could offset the decline in other emerging economies. Concerns about financial vulnerabilities are in focus, including in financial institutions, housing markets, and low-income countries. While headline inflation has started declining, it remains elevated and could persist longer.

However, a key factor in improving activity and sentiment in early 2023 was the decline in energy and food prices. The earlier-than-expected re-opening in China is also expected to have a positive impact on global activity, reducing supply chain pressures, and giving a boost to international tourism. The decline in energy prices partly reflects the impact of a warm winter in Europe, which helped preserve gas storage levels and reduce energy consumption in many countries. Goods inflation has started declining in most countries, due to the gradual return of normal demand for goods in the post-pandemic scenario and the easing of global supply chain bottlenecks.

International Monetary Fund (IMF) global growth forecast, as of Jan 2023 (% change year on year)

Particulars	Estimate 2022	Projections 2023	Projections 2024
World Output	3.4	2.9	3.1
Advanced Economies	2.7	1.2	1.4
US	2.0	1.4	1.0
Eurozone	3.5	0.7	1.6
Japan	1.4	1.8	0.9
UK	4.1	-0.6	0.9
Other Advanced Economies	2.8	2.0	2.4
Emerging Markets & Developing Economies	3.9	4.0	4.2
China	3.0	5.2	4.5
India	6.8	6.1	6.8

Source: IMF, World Economic Outlook January 2023

Global growth is projected to slow from 3.4% in 2022 to 2.9% in 2023. The low growth forecast for 2023 reflects the rise in central bank rates to fight inflation especially in advanced economies, along with the Russia-Ukraine conflict.

The United States is expected to experience a decline in growth from 2.0% in 2022 to 1.4% in 2023 and 1.0% in 2024, with growth rebounding in the second half of 2024. There is a 0.4% upward revision for annual growth in 2023, but a 0.2% downward revision of growth in 2024 due to the steeper trajectory of Federal Reserve rate hikes. Consumer spending rose in January 2023, along with real disposable income and manufacturing activity. However, core inflation, housing inflation, and food inflation remained high.

European economic growth was more robust than anticipated, partly due to government support for households and businesses affected by the energy crisis and reopening of the economies. European gas benchmark price fell below its pre-war level, due to a milder-than-expected winter, a sharp fall in gas consumption, and the continued diversification of supply sources. Labor markets remained tight, with unemployment in the EU staying at its all-time low of 6.1% in December 2022.

The United Kingdom in 2023 is projected to see negative growth, with the economy performing worse than other advanced economies, including Russia. This would be largely due to tightened fiscal and monetary policies, financial conditions, as well as rising mortgage costs, increased taxes and persistent worker shortages.

Growth projections for emerging market and developing economies show a modest increase from 3.9% in 2022 to 4.0% in 2023, and to 4.2% in 2024. Half of the emerging market and developing economies are expected to see lower growth in 2023 compared to 2022. Emerging and developing Asia's growth is expected to rise in 2023 and 2024, while growth in emerging and developing Europe is likely to have bottomed out in 2022. Latin America and the Caribbean's growth is projected to decline in 2023, and the Middle East and Central Asia's growth is projected to decline mainly due to a slowdown in Saudi Arabia. Meanwhile, sub-Saharan Africa's growth is projected to remain moderate at 3.8% in 2023, with Nigeria's growth rising due to measures to address insecurity issues in the oil sector.

Outlook

Global growth is expected to slow to 2.9% in 2023, before rising to 3.1% in 2024, with inflation falling from 8.8% in 2022 to 6.6% in 2023 and 4.3% in 2024. The global economy is witnessing continued turbulence with fresh headwinds from the banking sector turmoil in some advanced economies. The sudden announcement of an output cut by OPEC+ in April 2023 and the resultant jump in crude oil prices is yet another evidence of volatility. Uncertainty about the course of the Russia-Ukraine conflict, coupled with its broader consequences, is also a key concern. As geopolitical tensions remain elevated, businesses are increasingly looking to make their supply chains more resilient by moving production home or to stable countries. The overall outlook thus remains dynamic and fast evolving.

India

The First Advance Estimates (FAE) released by the National Statistical Office (NSO) place India's real Gross Domestic Product (GDP) growth at 7.0% for FY23. These optimistic growth forecast stems, in part, from the resilience of the Indian economy seen in the rebound of private consumption seamlessly replacing the export stimuli as the leading driver of growth. The uptick in private consumption also provided a boost to production activity, resulting in an increase in capacity utilization across sectors. The rebound in contact-intensive sectors and discretionary spending is expected to support urban consumption.

The Union Budget for FY24 sought to complement macroeconomic growth with a focus on all-inclusive welfare, promoting digital economy and fintech, technology-enabled development, energy transition and climate action, and kickstarting a virtuous private investment cycle, crowded in by public capital investment.

Fundamentals and medium-to-long-term prospects remain stable for Indian equities, but, in the near term, they face possible headwinds from oil prices, inflation, interest rates, and fund flows. The ongoing domestic demand revival story remains a key pillar of strength. The expectation of a record rabi harvest bodes well for the easing of food price pressures, while there are early indications of softening wheat prices, helped by supply-side interventions from the government. The impact of recent unseasonal rains in some parts of the country, however, needs to be monitored.

Outlook

Strong credit growth, resilient financial markets, and the government's continued capital spending and infrastructure push have created a conducive environment for investment. India's recovery from the pandemic was relatively quick, and future growth is likely to be supported by solid domestic demand and a pickup in capital investment.

Industry review

For the IT industry, FY23 was a year of continued revenue growth, with a focus on strengthening industry fundamentals and building on trust and competencies. The volatile global economic environment and impending recession continue to support the demand for technology adoption and digital acceleration. Technology, thus, remains a strategic imperative—a critical component of business innovation and transformation, as well as a source of improving operational and cost efficiencies.

India's technology industry has exhibited continued revenue growth and is estimated to have grown by double digits in constant currency terms in FY23. India's technology industry revenue is estimated to have crossed USD 245 Billion (8.4% year on year growth), an addition of USD 19 Billion over FY22.

According to NASSCOM, the sector is on track to hit USD 500 Billion in revenue by 2030. The share of digital tech in overall technology services revenue has been on the rise—from 26-28% in FY20 to 32-34% in FY23. The industry continues to be a net hirer, adding 2.9 Lakh new jobs and taking the total employee base to approximately 5.4 Million (5.7% year on year growth), strengthening India's position as the 'Digital Talent Nation' for the world. Further, the sector remains on the top globally in terms of AI skills penetration with a 36% digitally skilled workforce, the second largest in terms of AI/ML BDA talent pool, and the third largest in terms of installed supply of Cloud professionals.

Business review

For FY23, LTIMindtree's USD revenue stood at USD 4,106 Million, up 19.9% in constant currency and 17.2% in USD terms, and INR revenue stood at INR 331,830 Million, up 27.1%. PAT margin came in at 13.3%, compared to 15.1% for FY22. Excluding the one-off impact of merger-related integration cost, our EBIT and PAT margins were approximately 40 and 30 basis points higher, respectively. LTIMindtree's financial performance is a testament to the unwavering commitment of its team and increased ability to deliver across larger, more significant transformation requirements.

Alliances and partnerships

LTIMindtree has built a strong ecosystem of partners that enables it to drive significant value for its clients in an ever-changing technology landscape. With the merger of erstwhile LTI and erstwhile Mindtree, our partner ecosystem has become even more robust.

In FY23, LTIMindtree significantly deepened its engagement with partners by investing in scaling capacity, co-creating joint offerings, building Centers of Excellence (CoEs), and signing up exclusive partner programs to accelerate business momentum in key focus areas such as Cloud, Data, Security, and Customer Experience, among others.

We also launched two state-of-the-art innovation centers in collaboration with AWS and ServiceNow.

▶ LTIMindtree ServiceNow Innovation and Experience Center - Hartford

▶ LTIMindtree AWS Innovation Center - Hartford

LTIMindtree has a 360-degree relationship with many of its strategic partners. This enables the Company to have a resolute focus on achieving joint business outcomes and creating exponential business growth. We have attained the highest tier of partnership with a number of its strategic partners including Microsoft, AWS, IBM, Google Cloud, Salesforce, SAP, Oracle, Cisco, Snowflake, and Adobe.

Recognitions

In FY23, LTIMindtree received multiple awards from various partners in recognition of its outstanding performance and contribution toward building joint businesses:

Strengths and opportunities

Digital transformation as a means to serve the dual objective of driving revenues as well as cost-efficiencies is an ongoing business imperative. We are at a point where technology and experience transformation have become so integral to business strategies that it is not easy to reverse or stall digital transformation programs.

To cope with the fast pace of technology shifts, we foresee that, in the future, clients will need to continuously transform, both from inside-out and from outside-in. This will be across the facets of business model transformation, experience transformation, operations transformation, and technology ecosystem transformation. With our expanded, well-diversified offerings as a combined, at-scale entity, we believe we are well positioned to help businesses address their transformation objectives well.

Some of our strengths and focus areas include:

Cloud transformation

Our end-to-end cloud transformation solutions and services help organizations implement complex global scale transformation programs. It follows five fundamental dimensions:

- ▶ **Purpose-led:** Purposeful Cloud enabled by LTIMindtree’s North Star Framework
- ▶ **Productized:** Packaged service offerings across the lifecycle of cloud transformation
- ▶ **Platform-enabled:** Infinity, LTIMindtree’s cloud transformation platform, provides speed, scale, and consistency
- ▶ **Partner-aligned:** GTM and competency teams dedicated to partners – AWS, Azure, and GCP
- ▶ **Rainmakers:** Elite team of consultants bring a holistic approach for cloud journey

Experience design

LTIMindtree's high-impact team of strategists, researchers, designers, and technologists constantly raise the bar with transformative solutions that engage customers and create immersive experiences. Our experience strategies are backed by user research, experience assessments and benchmarking, service blueprints, personas, and journey maps. We provide high-fidelity prototypes with testing and validation at our design factory.

Blockchain

LTIMindtree embraces a partnership-based approach with our customers at the outset of their blockchain journey. We have a Blockchain Maturity Model (BMM) that consists of four levels to develop and deliver quick prototypes and then scale and evangelize to the production stage.

- ▶ **Consulting excellence:** Our blockchain consulting team offers customized services ranging from use case identification, technical due diligence, and ROI roadmaps, etc.
- ▶ **Engineering and platform excellence:** Our blockchain accelerators - Automation Platform and Smart Contract Factory can be leveraged by clients to prototype and realize ROI faster.
- ▶ **Open-source excellence:** Our blockchain-certified team participates in several open-source projects which enables them to deliver products using best practices.
- ▶ **Delivery excellence:** Our E&P and delivery teams with experience of executing projects in multiple industries assure a seamless delivery experience.

Applied AI

AI is being embedded across products and processes rapidly. However, the point of contention comes while moving the needle from experimentation to scaling AI, as most fail at this point. LTIMindtree's KenAI addresses the core challenges of scaling, managing, and governing the models on cloud data platforms. KenAI provides powerful automation and lifecycle management to simplify and accelerate operationalizing and managing AI models. It helps deliver simplified machine-learning operations leveraging automation, predictability, and responsible AI.

Digital engineering

With engineering embedded in our DNA, and a strong culture of design, we help deliver a reimagined customer experience with faster time-to-market. We harness modern digital capabilities to envision the right digital products and solutions for transforming end-user experiences. We have a three-pronged approach to deliver experience at speed:

- ▶ **Craft:** Solid structure, cross-skilled talent, and niche engineering-based culture to harness modern digital capabilities
- ▶ **Science:** Innovation driven by converging technology COEs, nurtured by in-house Digital Engineering Academy.
- ▶ **Art:** Bringing craft and science together to reimagine digital for our clients, optimizing operations, and digitizing their core.

Enterprise applications

LTIMindtree has one of the industry's most mature SAP practices. Over 25 years, we have partnered in some of the world's largest and most complex SAP estates. Our real-life practitioner's perspective allows us to build purposeful digital solutions that drive businesses forward. With 50 industry-leading innovations on SAP platform and our Reimagination Studio, we accelerate S/4HANA and cloud-enabled transformations for enterprises. LTIMindtree has also built a two-decade long partnership with Oracle to maximize value for customers. Powered by LTIMindtree Enclose and Infinity, we bring together a perfect blend of industry domain, functional, and digital capabilities powered by Oracle cloud to solve real-world customer problems. As an established Salesforce consulting partner, we have worked in strategic partnership with Salesforce since 2004, shaping platform evolutions and innovations in all clouds.

Cybersecurity

At LTIMindtree, our focus is on enabling our clients to go beyond 'Security for Compliance' to 'Security for Cyber Defense Resiliency'. We follow a Managed Cyber Defense Resiliency Services (MCDR) approach. Our well-defined cyber security maturity model is powered by technology-enabled progression towards Intelligent and Autonomous Cyber Defense. This is augmented with real-time attack adversary emulation and proactive remediation to bring together truly Digital Cyber Defense capabilities to tackle the challenges of an advanced threat landscape.

Strategy

LTIMindtree was formed in November 2022 following the merger of two very successful companies, L&T Infotech and Mindtree, both part of the Larsen & Toubro Group. It is a new kind of technology consulting firm helping businesses transform – from core to experience – to thrive in the marketplace of the future. With a unique blend of engineering DNA and experience DNA, LTIMindtree helps businesses get to the future, faster.

The strategic objectives of the merger includes:

- ▶ Becoming an at-scale service provider, well-placed to capture market share in today's dynamic business environment. LTIMindtree is now the fifth-largest Indian IT services provider by market capitalization and the sixth largest by revenue
- ▶ Ability to engage even more meaningfully with the partner base, to create fit-for-purpose solutions for clients
- ▶ Enhance mindshare with the analyst and advisor base
- ▶ Leverage a highly complementary industry/client base. The combined entity services nearly a fifth of the Fortune 500 clients (95 of 500), and there is significant opportunity to cross-sell and up-sell across the client base
- ▶ Expanded set of capabilities that help us serve client needs end-to-end, from core to edge to experience
- ▶ Increased ability to shape and win large, transformational deals by virtue of our scale and end-to-end offerings
- ▶ Access to a larger and more diverse talent base, and the ability to engage our talent more meaningfully
- ▶ Robust balance sheet to enable targeted investments into growth and capability building.

The intent to merge was announced in May 2022 and the effective date for the Company to operate as a merged entity was November 14, 2022. A merger of this scale comes with its share of challenges, requiring the management of sentiments and processes across the stakeholder ecosystem and business landscape. The process has been facilitated by the existing familiarity and collaboration between the two companies, as they had previously engaged in joint pursuits of various deals even before the merger took place. This, along with the oversight of the same parent Group, enabled us to complete the merger in record time.

Although LTIMindtree began operations only in the middle of Q3 FY23, we are encouraged by early indications that the merger rationale is playing out as expected. Looking ahead, our focus continues to be to deliver best-in-class services to our clients leveraging our deep industry domain and technology expertise, while exploiting the synergies provided by the merger. Our focus has also been on making available to our leadership and employees the vast opportunities that exist as part of a fast-growing organization.

As we go through FY24, we aim to simplify, unify, and provide clarity to our clients, our employees, and our stakeholders (partners, analysts, investors, etc.) to help them to get to the future, faster, together.

We propose to do this through our **LTIMOne** framework comprising the following pillars:

One culture

- ▶ A common purpose and vision
- ▶ Our work ethos: Be driven by purpose; Act with compassion; Be future-ready; Deliver impact.

One Go-to-Market (GTM) strategy

To help our clients continuously transform, both inside-out and outside-in, via:

- ▶ Business model transformation
- ▶ Experience transformation
- ▶ Operations transformation
- ▶ Technology ecosystem transformation.

One unified capability

To build unified capabilities by amplifying our strengths, enabling synergies, and developing a compelling integrated proposition to our clients. We will accomplish this by:

- ▶ Pioneering a bold, new organization design to create a cohesive capability flywheel
- ▶ Force multiplying through collaboration with leading partners
- ▶ Strengthening our large practices while nurturing new growth engines, and
- ▶ Leveraging our best-in-class IP to deliver non-linear outcomes.

One profitable growth model

While we continue to focus on capabilities and growth, we will also ensure we drive sustainable value creation through four levers:

- ▶ Consistent profitable growth
- ▶ Cost synergies, along with disciplined execution
- ▶ Capital allocation framework to support rapid growth
- ▶ Creating shared value for our stakeholders and the communities we operate in.

As cloud, data, and digital become critical for every organization, our vision is to enable businesses to stay competitive in their technology transformation journeys and get them to future, faster. We possess the resources, scale, and confidence of a leader along with the energy, hunger, and ambition of a challenger. To this end, we are pleased with the conversations we are having with clients across markets and, in several instances, we are able to bid for deals that the erstwhile organizations individually would not have been able to, and our increased scale has also started paving the way for our elevation to a Tier-I partner with existing clients.

The services market continues to be volatile, with the unfolding geopolitical and macroeconomic scenario inducing caution in technology spending amongst businesses. However, we strongly believe that the structural story of the IT industry is intact for the long-term and, specifically, the opportunities ahead of LTIMindtree are immense, which we aim to capitalize on.

Cost Control and Adoption of Newer Process and Technologies

Cost control is an important business priority for us. We consistently explore ways to optimize our overall cost. During the year, we have implemented various programs towards bending the cost curve which include:

- ▶ Robust resource planning to avoid any cost leakage
- ▶ Higher intake of freshers and right-shoring to optimize cost per resource
- ▶ Optimization of subcontractor cost
- ▶ Cutting down on discretionary spends.

EBITDA (%)	18.4%	20.1%
Net profit(%)	13.3%	15.1%
Return on net-worth / Return on equity (%)	28.6%	30.5%

Return on net-worth reduced on account of lower Profit After Taxes (PAT) margin for FY23 and increased capital base.

Income

USD revenue for FY23 increased 17.2% to USD 4,105.7 Million, while INR revenue rose 27.1% to INR 331,830 Million.

We analyze our revenue (in USD terms) based on various parameters

- ▶ **Revenue by vertical:** Banking, Financial Services & Insurance grew by 23.0%; Hi-Tech, Media and Entertainment by 14.5%; Healthcare, Life Sciences & Public Services by 16.4%; Manufacturing & Resources by 12.1%; and Retail, CPG, Travel, Transportation & Hospitality by 14.8%.
- ▶ **Revenue by geography:** North America grew by 21.5%, Europe by 3.9%, and Rest of the World by 12.2%.

Revenue Distribution by Industry

Revenue by Geography

The number of active customers, as on March 31, 2023, was at 728, up from 673, as on March 31, 2022. The number of USD 50+ Million clients increased to 13 from 10.

Other income (excluding foreign exchange gain/loss)

Other income in FY23 has increased to INR 4,544 Million from INR 3,274 Million in FY22, primarily due to increase in interest income on investments by INR 499 Million (return on investment increased by 90bps to 5.6% in FY23 from 4.7% in FY22), and write back of contingent consideration relating to past acquisitions INR 638 Million.

Foreign exchange gain/loss

Foreign exchange gain for FY23 was INR 1,025 Million as against a gain of INR 4,384 Million in FY22, majorly due to loss on cashflow hedges reclassified to profit and loss.

Expenses

Employee benefits expense

Employee benefits expense account for 62.9% of our total revenue and form a major part of our total expenses. The expenses include fixed as well as variable components of employee salaries, along with contribution to provident fund and gratuity. Share-based payments to employees and staff welfare expenses are also part of that cost.

Break-up of employee benefits expense in FY23, compared with FY22

Particulars	FY23		FY22		Increase/ (Decrease) %
	INR in Million	% of revenue	INR in Million	% of revenue	
Salaries and wages	194,093	58.5%	148,871	57.0%	30.4%

Total	208,799	62.9%	159,892	61.2%	30.6%

Total employee benefits expense increased by 30.6%. As a percentage of revenue, employee benefits expense increased to 62.9% in FY23 from 61.2% in FY22. Increase in salaries and wages, and contribution to provident and other funds, were in line with the increase in revenue and headcount, including increments and promotions. The increase in share-based payments was due to new grants made during FY23.

Sub-contracting expenses

Sub-contracting expenses increased to INR 28,286 Million in FY23 from INR 23,591 Million in FY22, on account of an increase in subcontractor rates, headcount, and foreign exchange impact.

Other expenses

Other expenses comprise all other incidental costs, apart from employee benefits costs like travel, rent, cost of equipment, and hardware and software packages.

Break-up of other expenses

People strategy for merger of LTIMindtree

LTIMindtree's merger initiative was a well-executed process that harmonized HR processes, systems, and policies to create a cohesive organization. The HR team developed a common culture, harmonized policies across 35 countries, and synchronized 200+ programs, processes, and systems while ensuring no disruption to employees' day-to-day functioning. A well-oiled Change Management governance ensured proper implementation, including various communication channels and training sessions conducted across the globe. Our people-first approach ensured a smooth transition for employees, and we are now well-positioned for continued success.

Talent Acquisition

LTIMindtree has hired 28,905 lateral employees globally, with a focus on diversity and inclusion, including a 30% female workforce. We have enhanced our hiring process with technology and a Buddy Referral program. The LTIMindtree Campus Hiring program recruited 5,196 candidates from universities worldwide, supported by 162 partnerships and 600+ engagement events.

The Leadership Hiring team at LTIMindtree focuses on diversity and inclusion, engaging senior professionals, and creating a passive hiring pool and talent map for critical roles. The GEMS program assesses leadership needs, selecting qualified, diverse leaders for a healthy talent pipeline. The Onboarding program provides new hires with a 30-day incubation period, consistently receiving an average experience rating of 94%, with 90% participation in the induction experience survey. The Onboarding team nurtures new joiners with one-to-one support, constant group connects, 30-day open forum, and periodical checks over surveys.

Diversity, Equity, and Inclusion

LTIMindtree is committed to diversity, equity, and inclusion (DEI) in its workforce. We also have self-identified PWD, LGBTQ+ and veteran employees as part of our voluntary DEI disclosures. We believe that diverse and inclusive teams enhance productivity, problem-solving abilities, innovation, financial performance, resilience, and employee engagement.

To promote a culture of inclusion, we focus on creating a psychologically safe space where respect, belongingness, empowerment, and progress are promoted for all. We have implemented several initiatives and programs to foster DEI in the workforce, workplace, and the world. These initiatives include DEI training for new joiners, inclusive policies and benefits, diverse hiring strategies, and learning and sensitization modules on diversity, equity, and inclusion. Additionally, LTIMindtree has specific DEI programs, such as Women Tech-Trailblazer, Womb to World, and initiatives for unconscious bias, women in data and analytics, and inclusive management training.

We have received several awards for our DEI initiatives and programs, including the Economic Times award for 'Best Organizations for Women 2023', DivHERsity Awards, and 'Best Firm for Women in Tech' by Analytics India Magazine. These awards testify our commitment towards promoting diversity, equity, and inclusion in our workforce. We aim to create an inclusive environment where everyone feels a sense of belonging.

Employee Engagement and Wellness

We prioritize employee engagement and wellness by implementing various initiatives and services. In terms of engagement, we empower women, organize employee connects and leadership touchpoints, and implement the GEMS program to create a diverse talent pipeline. We also collaborate with universities to engage employees. These initiatives not only improve employee satisfaction but also contribute to the organization's growth and success.

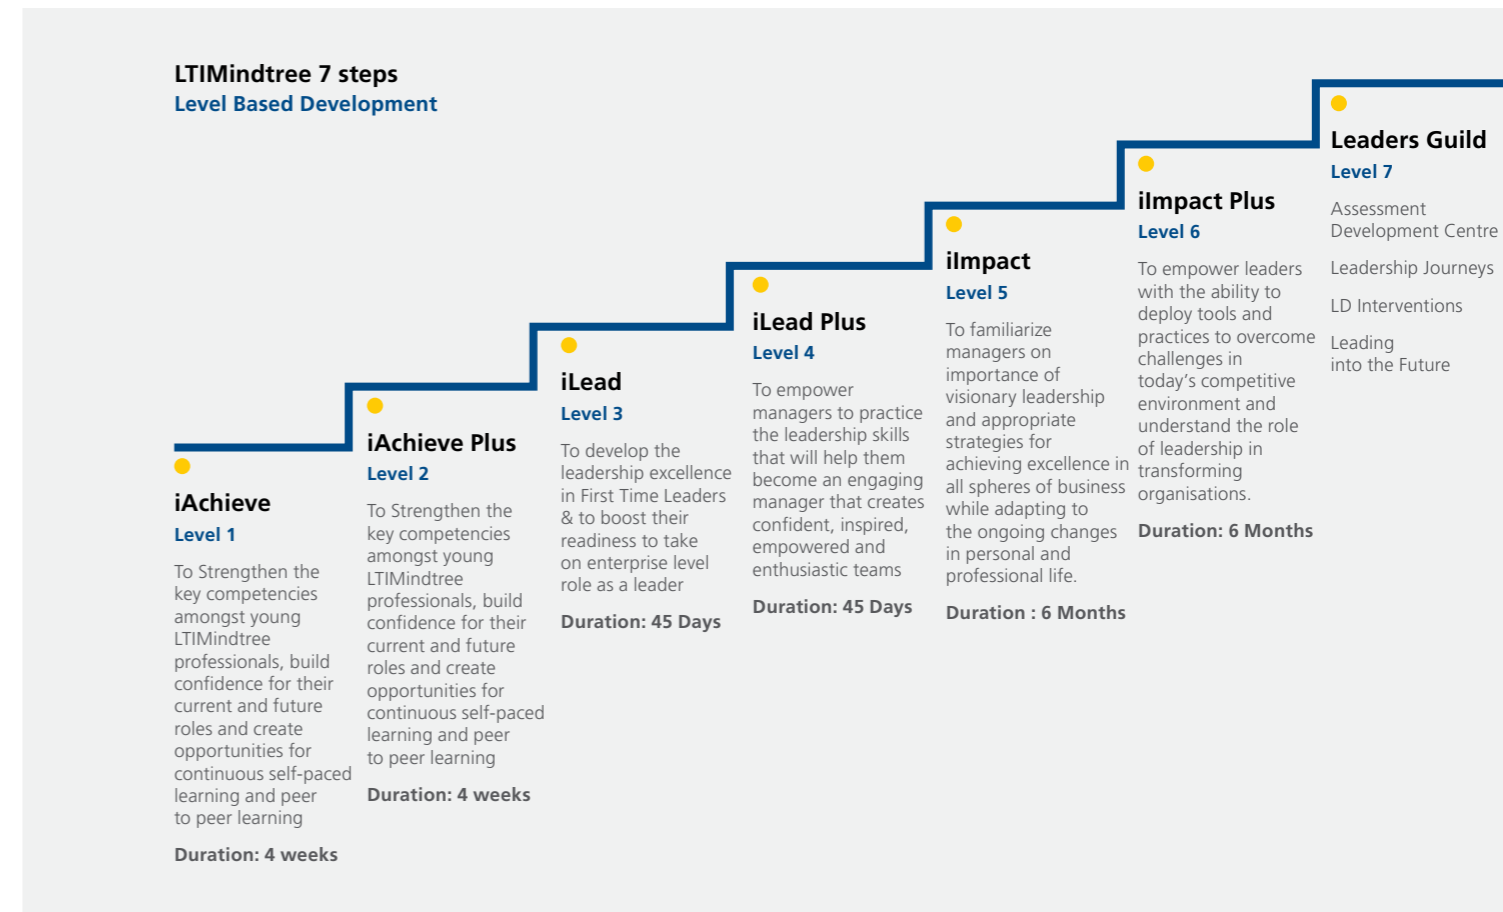

LTIMindtree's Wellness framework focuses on four pillars: Emotional, Physical, Financial, and Social, with various initiatives under each pillar to support employees' holistic well-being. We offer counseling services, 24/7 medical assistance, elder care services, and a Will & Legacy Planning communication campaign. The Wellness program aims to develop a respectful culture, provide competent and supportive leadership, and encourage a balanced life, safe work practices, and increase employee involvement.

Career progress and growth

The 7-step program is a blended learning model that prepares professionals for enterprise-level roles by strengthening their competencies. The program has benefited 2,602 employees, with 1,000+ employees being certified, and 38,000+ learning hours recorded.

Talent Central is an AI-based platform that identifies skill gaps and recommends appropriate training. It maps the current talent pool with future technology, ensuring the organization stays innovative and competitive. Diversity, Equity and Inclusion are the core components.

The Shoshin School provides 5,000+ courses curated by subject matter experts, covering technical, functional, behavioral, and leadership skill development. It offers personalized and customized learning experiences for employees through predictive analytics. More than 80,000 employees benefited from it, and in FY23, 5.1 Million+ learning hours were consumed.

My Career My Growth emphasizes the growth trajectory of employees, capability building, talent development, and retention. It focuses on future-proofing the organization by providing talent analytics to all key stakeholders.

Our succession planning strategy is designed towards creating a global leadership pipeline by identifying and developing potential employees for future leadership roles in the organization. It enables managers to guide their team members, track their progress, and internally develop succession candidates through the Career Development tool.

LTIMindtree has begun a digital transformation of its employee experience by digitizing the employee lifecycle. We have chosen a SaaS platform to power the entire employee journey, from hiring to retirement, with intelligent workflows. Our alumni, exit management, and grievance redressal processes have been automated.

LTIMindtree's Rewards and Recognition (R&R) program is designed to recognize and reward employees and teams globally for their outstanding performance, with a focus on our four core values. The program is divided into four broad categories: Continuous, Individual, Team, and Org-wide. At an overall level, our R&R program aims to boost employee morale, engagement, and productivity, creating a positive and competitive workplace where employees can learn, grow, and celebrate together.

Internal control systems

We have an Internal Control System commensurate with the size, scale and complexity of our operations. Process has been set up for periodically apprising the senior management and the Audit Committee of the Board about internal audit observations of the Company with respect to internal controls and status of statutory compliances.

Business heads and support function heads are responsible for establishing effective internal controls within their respective functions. Standard operating procedures and internal control manuals are defined and continuously updated.

The Company has laid down internal financial controls as detailed in the Companies Act, 2013. These have been established across the levels and are designed to ensure compliance to internal control requirements, regulatory compliance and appropriate recording of financial and operational information.

The internal audit team periodically conducts audits across the Company, which include review of operating effectiveness of internal controls. The Company, wherever necessary, engages third party consultants for specific audits or reviews.

The Audit Committee oversees internal audit function.

Threats, Risks and Concerns

We are exposed to a wide variety of connected and interconnected risks. To ensure suitable risk prioritization and mitigation, we identify the internal and external events that may affect our strategies and potentially impact our results, capital, and reputation. Enterprise Risk Management (ERM) enables the management to efficiently deal with uncertainty and the associated risks and opportunities, along with enhancing the capacity to build shareholder value.

A class action lawsuit was filed in the southern district of New York in US against the Company alleging discrimination by an ex-employee and an ex-contractor. The parties have arrived at a settlement through mediation. A preliminary fairness order of settlement has been approved by the court in the matter.

During FY20, the US Department of Justice and US Immigration and Customs Enforcement initiated an investigation of the Company related to its use of US non-immigrant visas for its employees. Pursuant to the same, the Company has provided the requested details to the authorities.

US District Attorney's office has confirmed that there is no intention on their part to pursue any investigation or any claim against LTIMindtree Limited to immigration, and the matters stand closed.

Outlook

Our end-to-end services portfolio, comprehensive capabilities, strong sales engine, proven account mining, and healthy balance sheet position us well to continue delivering industry-leading profitable growth. Our unique position as LTIMindtree provides us opportunities to bend the cost curve through various levers, steer efficiencies in operational transformation, and drive incremental revenue with less impact on SG&A cost which coupled with cross-sell/up-sell opportunities will lead to an uptick in EBIT margin by 200 bps over the next four years from the historical 17-18% range. With accelerating growth, we continue to invest in our innovation, new growth engines, and platform-led delivery, and invest to expand through organic and inorganic growth to get access to new capabilities and geographies. We remain committed to delivering historical returns to shareholders and aim to achieve an ROCE of 40%+ and create shared value for all our stakeholders.

Our aim is to simplify, unify, and provide clarity to our clients, employees, and other stakeholders to get to the future faster, together, with our LTIMOne framework.

24. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk-along with its financial implications, as per the following format:

Our approach to identifying the most material issues for us stems from recognizing the importance of creating value for all our stakeholders. Incorporating the range of our stakeholder interests and expectations help to provide an unbiased view of the most important emerging issues. Our established materiality assessment process is based on the GRI Universal Standards 2021. It aligns with the core value of 'doing good' makes business sense. We consider both internal and external factors to prioritize the material issues. Internal factors include leadership change, strategy, and the business model while external factors include economic conditions, natural disasters, resource availability and customer and partner needs and expectations. Materiality determination for is based on a comprehensive process

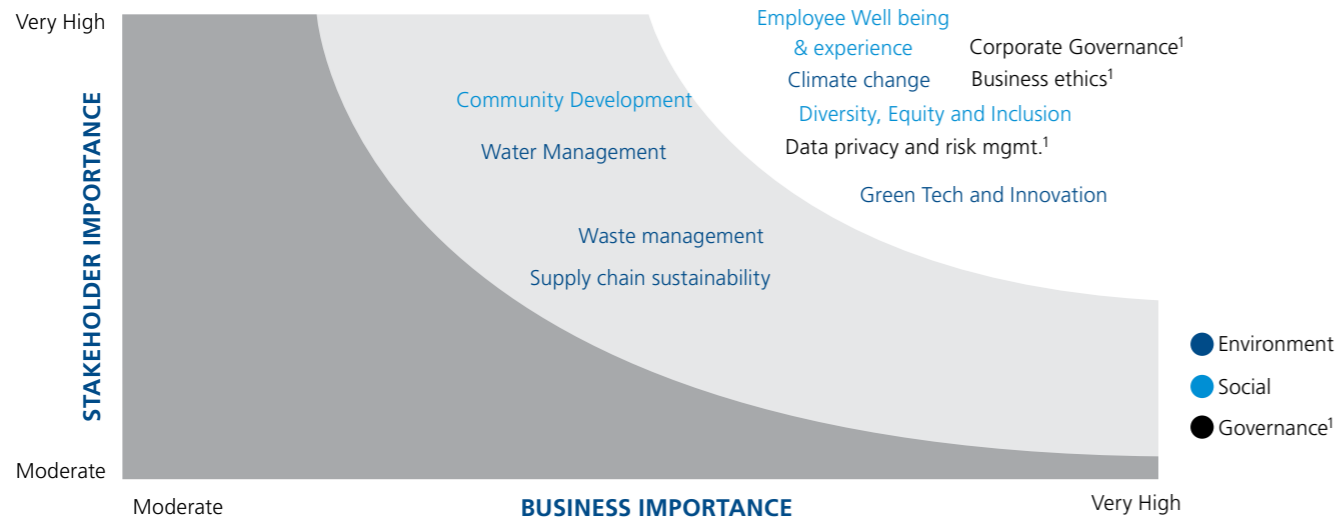

that includes an internal process combined with external benchmarking with peers and global sustainability standards. This helps us understand issues relevant to our stakeholders over short-, medium-, and long-terms. A key element at play here is the assessment and identification of emergent ESG risks. We recognize that the determination of material issues for LTIMindtree and our stakeholders is not static and evolves dynamically over time. We take care therefore to integrate multiple determinants that reflect this dynamic - Direct economic impact on our business model, organizational values, peer norms, stakeholder concerns and emerging societal challenges.

As a part of the Materiality Assessment process, we consider the following:

- Stakeholder groups, their requirements, expectations, and the impact of these expectations on our strategy, performance, and governance
- Current and future regulations that may impact our financial planning
- Significant risks that could impact our operations, outcomes, and customer relationships. The material topics are then checked against financial and non-financial risks that may provide opportunities
- Matters related to value creation for our products and service offerings, customer solutions, and operations
- Our commitments, values, policies, goals, and targets and the previous year's performance
- Our reputation and brand perception are reviewed against that of peer companies through a review of external media coverage and peer benchmarking.

The key material issues listed have been rated according to inputs from stakeholders and the Company showcasing the matrix below distributed into the pillars of Environmental, Social and Governance (Economic/Business). They are mapped against the SDGs that we work towards having a positive impact against these pillars.

LTIMINDTREE'S ESG MATERIALITY MATRIX

Management Approach

Our management approach explains how we manage the economic, environmental, social, and impacts related to key material topics. It provides narrative information about how we identify, prioritize, analyze, and respond to actual and potential impacts. These material topics are discussed in the Board Meetings. Board committees oversee the Company's process while reviewing the management performance and adequacy of the internal processes. The management approach of our organization is evaluated by the Enterprise Risk Management (ERM) team through internal processes like risk assessment studies, audits, self-assessments, performance monitoring & review. The result of the assessment is shared with the Audit Committee, which then decides on any modification or any kind of approval to the management process. Key inputs considered in the prioritization of material topics are those of key stakeholders and the Company expressed through discussions in management meetings. The KPIs are mapped to the respective Function Heads, departments, and processes. The KPIs are linked to the strategic planning process and long-term incentive programs. Many of our customers assess our ESG performance through various indices, rating organizations (for example CDP) and perform checks through independent third-party audits.

1	Environmental Stewardship - Climate change, Water Management and Waste Management	Risk (R)	<p>Risk:</p> <ul style="list-style-type: none"> • Climate change risks are increasingly manifesting in our business as strategic risks, physical risks and transitional (market and compliance) risks, which if not managed adequately, can affect our operations and profitability • There is a growing requirement from clients, partners, and investors to disclose, commit and work towards reduced emissions. The potential carbon taxes in future either directly or indirectly is also considered by LTIMindtree as a risk. • Water scarcity can impair the Company's operations and disrupt business. Some of the locations that LTIMindtree has presence might have issues with water shortage. In the case of norms being imposed on water supply, there might be an adverse impact. • Improper disposal of waste will lead to non-compliance of laws, economic penalties, increase in GHG emission and reputation damage. • There is a heightened need to conserve biodiversity and ecosystem - the species, flora, and fauna. Depletion/shortage of natural resources like fossil fuel, scarcity of water, pollution due to man-made and natural conditions will impact business operations. <p>Opportunity:</p> <ul style="list-style-type: none"> • In order to manage the opportunities, LTIMindtree has assessed climate impact and developed resilience strategies and have integrated climate related opportunities in the overall R&O management process. • Additionally, LTIMindtree has done a hazard risk analysis and the impact of severe climate changes may take time to materialize. Currently, all our centers are climate controlled and has locational specific business continuity plans to counter any disruptions. • Various initiatives are implemented across facilities to control GHG emissions due to energy consumption and Waste generation. • Tool for disruptive event identification across LTIMindtree locations has been established that helps in early identification and management of climate change opportunities. • LTIMindtree increases engagement communications with employees and partners on raising awareness regarding climate change opportunities for possible resolutions and innovations. 	<p>Emissions reduction:</p> <ul style="list-style-type: none"> • LTIMindtree is aware of the risk of climate change that encounters all industries and approaches the risk as a responsible corporate citizen of the world. • LTIMindtree has accelerated its efforts to phase out ozone depleting pollutants. • Energy efficiency and switching to renewable energy sources is a priority that reduces carbon emissions. This reduces our operating costs and is aligned with the agenda of moving towards net zero. • Various initiatives are implemented across facilities to control GHG emissions due to energy consumption and Waste generation. • LTIMindtree is investing and developing services that help the clients and partners meet their commitments on climate change. • LTIMindtree has also identified projects to work with communities to move towards a climate resilient future. <p>Energy consumption reduction:</p> <ul style="list-style-type: none"> • We take focused initiatives to reduce our specific and absolute energy consumption. • In most of the facilities, we use third party generated wheeling energy & in-house solar power for electricity. • Moreover, mitigation and sustainability programs like conservation of energy (Installation of energy efficient equipment - LED installation, UPS & PAC units' optimization & Usage of renewable resources) are in place. • The Company has also invested in green energy-saving interventions. • Rallying stakeholders towards a low emission, climate resilient future. <p>Reduction in freshwater consumption:</p> <ul style="list-style-type: none"> • Water is a requisite resource for business, and essential for the health of the employees. To manage the water risk and ensure responsible management of water resources, we have established a robust Water Management Strategy and Plan across all our operations and facilities. • In major locations such as Bengaluru & Chennai where the ground water is depleting, the cost of procuring water and non-supply of water will become a high-risk event. • LTIMindtree continues to adopt water conservation strategies across all the existing facilities and also supplement internal water generation by procuring water from outside agencies. • Rainwater harvesting system implemented at facilities helps in increasing the ground level water. It results in the release of sub soil water from recharge pits and reduces the dependency on external agencies. • Sustainability team runs awareness campaigns to ensure that all employees are aware of saving water, efficient use of water in campuses, Rainwater harvesting, recycling of wastewater and the risks related to water shortage. <p>Improve Waste recycling:</p> <ul style="list-style-type: none"> • All the hazardous, biomedical and E-waste are disposed as per the regulations to authorized state pollution control board partners for recycling/destruction. • All other mixed solid waste (Dry/Wet) is disposed to authorized vendor for recycling/ reuse. • Organic waste converting machines are installed at few facilities to convert food waste into manure and this manure is used as fertilizers for landscaping. • The generated construction waste is reused for laying roads thus reducing waste reaching landfill. • Generated metal waste is used for constructing handrails to access overhead tanks thus reusing the waste within the facility. • Effective management of waste and transitioning toward Zero Waste to the Landfill is a global imperative. Reducing and recycling can save money and reduce the effect on the environment and health at the same time. All waste generated at our activities is reused, repurposed, or recycled through authorized recyclers and vendors in line with the principles of a circular economy. <p>Ecological impacts management:</p> <ul style="list-style-type: none"> • LTIMindtree approaches its environmental endeavors as a foundational stance, as an endorser of the Precautionary Principle. • We ensure that we do not adversely impact biodiversity through our operations. Our policy and initiatives enable us to promote biodiversity conservation. • WELL certification of facilities and safe workplace are brought in. <p>Climate Risk Management:</p> <ul style="list-style-type: none"> • LTIMindtree has done a hazard risk analysis and the impact of severe climate changes may take time to materialize. Currently, our centers are climate controlled and has business continuity plans to counter any disruptions. • LTIMindtree increases awareness by sending mailers to Employees & partners of the affected locations, thereby ensuring effective communications for all affected stakeholders along with possible resolutions. • Tool for disruptive event identification across LTIMindtree locations has been established that helps in early identification of such events. 	<p>Negative:</p> <ul style="list-style-type: none"> • Climate change can impact our operations due to extreme weather conditions like cyclones, heatwaves, and floods, to name a few events that have the potential to create severe disruptions. • The financial implication of this risk can be classified as increased operation cost due to climate change and lost opportunity cost from a business environment. • Increased operating costs in meeting the environmental and CSR norms. <p>Positive:</p> <ul style="list-style-type: none"> • Scope to improve organization's competitiveness and capitalize on the shifting client preferences using its sustainability, low-carbon transition, and digital/IT expertise to help its clients in their sustainability and low carbon journey.

2	Green Tech and Innovation	Opportunity (O)	<p>As LTIMindtree's customers respond to climate change actions, the Company is seeing opportunities to provide technology-led solutions to help them achieve their sustainability goals.</p> <ul style="list-style-type: none"> Increased revenue from increased demand in climate-related technologies and services. Savings from use of latest green tech & innovations. 	<p>LTIMindtree has already moved to energy saving power management systems (lighting requirements, HVAC). All the IT hardware is disposed off in a responsible manner that includes recycling. Additionally, as per the new Yin-Yang policy that has been implemented, LTIM encourages employees to work from home with state-of-the-art IT infrastructure that supports in reducing transportation related emissions.</p>	<p>Positive:</p> <ul style="list-style-type: none"> Green IT supports sourcing, usage, maintenance as well as disposing off the hardware in an environmentally responsible way. Green IT Services and Solutions with low carbon emissions reduce the environmental impact of businesses while improving organizational efficiency and cost.
3	Employee well-being and experience	Opportunity (O), Risk (R)	<p>LTIMindtree identified employee well-being and experience as a material topic considering the career development, people satisfaction and well-being aspects of our employees.</p> <ul style="list-style-type: none"> Skilling for the future is a crucial success factor for the IT industry and developing our people in a way ready for growth ambitions is paramount to our success. The physical work environment of good working space, wellness spaces, creches, gyms, etc. is an integral part of offices. <p>Risk:</p> <ul style="list-style-type: none"> The explosion of digital technologies, pervasiveness of Cloud, evolution of Machine Learning, Blockchain, Internet of Things and Artificial Intelligence continue to disrupt established ways of doing business. To match the pace and demand, businesses require a workforce that is multi-skilled (full stack), agile and future ready. Such talent is in short supply in the market. Our success depends largely upon our highly skilled technology professionals and our ability to hire, attract, motivate, upskill, reskill, and retain talent. It is important to create an environment that is safe, and the employees have the confidence, trust, and safety to report on any kind of discrimination or harassment at the workplace. Losing top talent due to attrition. 	<p>Skilling and career development</p> <ul style="list-style-type: none"> LTIMindtree has a unique approach to L&D—one that is learner-centric and holistic. Over several years, we have consistently designed and redesigned skilling interventions based on this approach. We are a 'learning organization'—We introduced our 'freshers' and 'laterals' learning streams and defined five dimensions for learning across all streams—from 'freshers to leaders'. Technology, delivery, industry domain, behavior, and innovation are the five dimensions that form a common thread across learning. The primary focus of skill management is to create a motivated workforce that will contribute to higher levels of business performance. We rely on the right talent for servicing customer needs, business sustainability, and future growth. Employee re-skilling helps us keep pace with the dynamic change in demand for new technology and sustain our growing business. It creates a workforce that is flexible, agile, and ready to learn and can take on new tasks where business needs support. We work with our global customers to provide end-to-end Digital and IT solutions and to support in their digital transformation journeys. Our strategy focuses on key verticals, service lines and geographies has the potential to power our long-term growth by sharpening employee skills across technology, industry domain, delivery management, innovation, human skills, and leadership learning dimensions. For us, the key is to encourage a learning and innovation mindset with challenging, growth-oriented role-based career paths, aligned to our business strategy and employees' aspirations. Our talent development takes a holistic view via an integrated framework of learning journeys, career development, job rotations, role progression and staffing opportunities. We offer diverse channels, formal and informal—for the learning and development of our employees. Our digital learning platform is a one-stop shop for all learning and development such needs. It offers interventions at various levels and consists of self-paced courses, virtual programs, classroom programs, certifications, workshops and so on. Courses are organized into 101s, 201s and 301s and are curated into learning paths and packages. Learning is made possible anywhere, anytime across devices, making continuous learning pervasive. <p>Well-being:</p> <ul style="list-style-type: none"> "Wellness before Business" is our Mantra. A healthy workforce is a productive workforce. Establishing a culture of wellness among our employees helps decrease job turnover, increase job satisfaction, manage stress, and reduce absenteeism. The management engages with the employees on their overall wellness. We have amplified the reach and effectiveness of our wellness initiatives, in response to the disruption caused by the pandemic, with digital experience touchpoints. We supported our employees to navigate the pandemic seamlessly through measures such as vaccination centers, hospital support, COVID care centers, increased insurance coverage, and more. An emotionally and physically fit employee means a lot for the organization's success. We ensure that the offices are designed and planned to ensure the comfort of our employees. We have clear policies and processes to prevent any discrimination and harassment in our workplaces. These are communicated regularly, and the employees are encouraged to report on any incidents. There are functions inside LTIMindtree which keep tracking and ensure we take preventive steps. Independent investigation of incidents is also ensured. <p>Employee retention:</p> <ul style="list-style-type: none"> Structured Retention programs MCMG framework is designed keeping in mind all the aspects that will help employees to plan and manage one's career, make critical career decisions and plan learning journey to support career aspirations. Mandate Individual Development Programs Campus Engagement Programs Opportunity vs Aspiration matrix implementation through Talent Central Next-generation hybrid workplace where Work from home and Work from Office will coexist to help us benefit from both work environments. <p>Learning and Development Program:</p> <ul style="list-style-type: none"> Shoshin platform facilitating anytime anywhere learning. Seven Step Leadership Development Program covering all grade levels. Talent Central Portal – AI enabled internal job marketplace to align employee aspirations and internal opportunities. Canvas Gig – A crowd sourcing platform for business needs providing employees an opportunity to work on small projects in areas skills of employee interest and showcase talent outside project. 	<p>Positive:</p> <ul style="list-style-type: none"> Our tech prowess enables us to develop and deploy upskilling and reskilling mechanisms that serve us constantly in honing the abilities of our talent pool and also monitoring the skill enablement outcomes. Ensure employees skills are aligned to industry/business requirements and per the vision of the Organization, Growth strategy. Ensures the talent is upskilled in alignment of the ever-changing technology demand per the market forces. The comfort and trust of the employee in a good work environment result in dedicated employees. Hence the financial impact is a resultant of a healthy and safe employee performing to their potential. Solving Real Business Problems – Giving opportunities in business, problems and making them part of Large Deal Solutions and Defense teams help higher employee satisfaction and thus retention. <p>Negative:</p> <ul style="list-style-type: none"> The financial implication is lost opportunity to grow and lost opportunity due to lack of talent. An incident can also result in reputation loss of the organization, and this can result in potential loss of opportunities. Challenges to align the talent need for the ever-changing technology spectrum and sustain competition.

4	Diversity, Equity and Inclusion (DEI)	Risk & Opportunity (O)	<p>Risk:</p> <ul style="list-style-type: none"> A lack of diversity and inclusion in the organization can affect productivity and innovation. Diverse teams bring in different perspectives and help us build better solutions. A lack of inclusion can affect teams' potential to respect differences and collaborate meaningfully. <p>Opportunity:</p> <ul style="list-style-type: none"> To be on top of our innovation culture, we need diversity of thought, ideas, and perspectives. Focus on DEI helps create better trust with employees which helps them in turn to perform better. Diversity, Equity, and Inclusion allows us to be more reflective of the society that we live in, provide opportunities to include people from all walks of life, respect our differences, foster socio-economic inclusion and help marginalized communities to advance. We have experienced that by being more diverse and inclusive, power innovation, have better financial performance, improved resilience in times of crisis, and a more engaged workforce. 	<p>We are an intentionally diverse and globally inclusive organization, and this has helped us earn deeper trust and more commitment from our employees. We capitalize on our diversity by finding innovative solutions to new business challenges and providing products and services that meet customer needs.</p> <p>LTIMindtree has clear policies, processes, and governance structure to oversee the performance in this aspect.</p> <p>Mitigation:</p> <ul style="list-style-type: none"> On-going and continual sensitization of the organization on DEI issues such as Unconscious Bias, LGBTQ+ Inclusion and Disability Sensitization. Continue life-skills coaching and technical interventions for women at early career stages as this group has largest tendency to quit workforce. On-going review of benefits, processes, and procedures to ensure equity at all stages. <p>Leverage:</p> <ul style="list-style-type: none"> On-going support forums for diverse groups. Continue to engage in training and mentorship of women and other diverse groups to help them grow in their career. Engage with diverse sourcing boards to get diversity on board that reflects our society. 	<p>Negative:</p> <ul style="list-style-type: none"> Employees and potential employees, especially the younger generations, place a significant weightage on the inclusive nature of the Company for their employment decisions. Not being diverse and inclusive will negatively affect these decisions. Not factoring in diverse perspectives by design will impact solutions built as they would be less inclusive. <p>Positive:</p> <ul style="list-style-type: none"> An opportunity to provide gainful employment to people from different strata of society and help build our communities and society. Scope to improve inclusion within the organization and build a more diverse workforce. DEI helps us attract and retain talent within the organization and is integral to our work ethos. DEI results in improved productivity at the workplace. DEI helps us build higher employee satisfaction, lower attrition rates, and establish our Company as a preferred place to work. A pool of diverse workforce of different genders, ages and ethnicities; nationalities, socioeconomic backgrounds, religious beliefs, cultural practices, and sexual orientation will enable LTIMindtree to develop its services further and mitigate operational risks. Diversity in the workforce brings new perspectives, experiences and ideas which enables innovation, increases performance, and enables a positive culture in the organization. DEI results in improved productivity at the workplace. Solutions built by diverse teams will be more inclusive and successful by factoring in diverse perspectives by design.
5	Community Development	Opportunity (O), Risk (R)	<p>Opportunity:</p> <ul style="list-style-type: none"> Investments in the social infrastructure for social change accrue multiple direct and indirect economic benefits. Pursuing Nature Based Solutions with co-benefits, reducing geographic vulnerabilities, and complementing government efforts in adaptation and mitigation action can galvanize a system response and have mutually beneficial outcomes for communities and businesses. <p>Risk:</p> <ul style="list-style-type: none"> Inability to support the all-round development of communities by improving educational outcomes, healthcare, economic conditions of the underprivileged in partnership with a chosen set of NGOs, and in initiatives aligned with government priorities. 	<p>Adopt a formal due diligence process and rely on need assessment to make the right investment in the right projects in the right geographies.</p> <p>We have been working with a network of NGO partners across regions to bring about social transformation through our integrated models of sustainable change.</p>	<p>Positive:</p> <ul style="list-style-type: none"> Succeed in our mission of enabling businesses and communities to flourish in a hyperconnected world. CSR projects can help to build public trust in the Company. <p>Negative:</p> <ul style="list-style-type: none"> Any adversarial relationship can hurt the Company's ability to create longer term value.

LTIMindtree has started to focus on Third-Party value chain partners' ESG commitments and progress.</p>	<p>In case of risk, approach to adapt or mitigate LTIMindtree expects its partners to follow ethical procurement practices in line with core values of our Supplier Code of Conduct (SCOC) which must be mandatorily signed by all vendors during empanelment. Rights parameters, prohibiting child/forced labor etc. All the vendors are onboarded only after signing LTIMindtree's SCOC. Additionally, critical suppliers are periodically assessed as well as audited to ensure contractual & statutory compliance. Exploiting the capabilities of the Supplier360 tool— our supplier portal launched during FY20 evolved during the year, spreading its reach globally and bringing complete supplier visibility into view. The traction was accentuated by the pandemic, and early benefits in terms of time and efficiencies was noted. There are periodic supplier meets that happens where suppliers are provided best practices and encouraged on using sustainable practices.</p>	<p>Financial implications of the risk or opportunity (Indicate positive or negative implications) Negative: Any unsustainable practices of Suppliers will tarnish LTIMindtree's brand, loss of reputation with Customers and failure in reaching our ESG goals. Positive: LTIMindtree is also focusing on close relationships with value chain partners to achieve ESG goals. By incorporating ESG posture into supply chain, LTIMindtree encourages partners also to reduce negative impact on environment as service provider, help their businesses become more sustainable with stringent compliance to applicable laws and regulations. This also ensures that their approach to ESG matters is aligned to LTIMindtree's green procurement agenda, enabling us to reach our ESG goals and thus contributing to Triple Bottom Lined value creation.</p>

6. Performance of the entity against the specific commitments, goals and targets along-with reasons in case the same are not met.

We are progressing well to achieve our ambitious ESG vision. We shall continue to build on our capabilities and successes and set out on our next growth curve armed with upskilled and engaged talent pool, thriving communities, efficient sustainability practices, and industry leading economic performance to deliver triple bottom lined and sustained value to all our stakeholders. The ESG section in this Annual Report shares the details of our performance against the specific commitment, goals, and targets.

GOVERNANCE, LEADERSHIP AND OVERSIGHT

7. Statement by director responsible for the Business Responsibility Report, highlighting ESG related challenges, targets and achievements.

Business responsibility has developed new trends in the sustainability landscape. These are driven by initiatives that translate the sustainability philosophy into actions that impact companies and their stakeholders. There is worldwide acceleration post-pandemic toward embracing sustainability. Heightened focus on Environmental, Social, and Governance (ESG) intrinsically links business growth to ESG risks, opportunities, and disclosures driving sustainability of our organization.

Sustainability is ingrained in our DNA as an integral and non-negotiable element. It helps us foster a nurturing ecosystem to realize our vision of enabling businesses and communities to flourish in a hyperconnected world. LTIMindtree is on a mission for a tech that gives everyone a chance to grow by creating harmony between nature, humans, and corporate operations. We are a conscientious, futuristic, and sustainable organization committed to an inclusive vision, shared growth, and positive value creation for our stakeholders.

Sustainability is a cornerstone of our business strategy, and we put ESG principles at the heart of our operations. This allows for integrating ESG vision and reaching our goals in a responsible manner.

Our ESG 2030 vision and roadmap reflect the same. We are fully committed to fulfilling this by making our Company an environmentally, socially, and ethically responsible organization for diverse talent, providing equal and inclusive opportunities, and making meaningful technologies. Our ESG vision reflects our environmental stewardship, talent nurturing, and community care while achieving sustainable growth.

As climate change has become one of the biggest global challenges, we have set forth our bold ESG ambitions to become net-zero by 2040 and water-neutral by 2030 for our India operations. We aim to minimize the environmental impacts of our business operations and rejuvenate through green tech and innovation for emission reduction, increasing renewable power, managing water, and waste recycling initiatives with a clear roadmap.

Diversity in the workforce is part of our culture, and our various programs and initiatives towards equity and inclusion have helped us enhance gender diversity, foster an equal and inclusive workplace for our PwD and LGBTQ+ employees, and create an environment where multiple nationalities, ethnicities all thrive. We also have a focus to increase diversity of veterans in the organization.

Our CSR projects focus on Education, Health & Wellness, Livelihood, and Environment, Women Empowerment, and Persons with Disabilities (PwD) with an altruistic lens by upskilling, employing, educating, providing market support, and enabling beneficiaries for micro-entrepreneurship. We have been actively engaging our associates in CSR volunteering activities by providing a platform to interact with local communities with a sense of purpose and satisfaction.

At LTIMindtree, our ethics are paramount responsibility, and we believe in transparency and accountability in everything we do. We will go beyond standard requirements with strong principles, showing the direction for leading operations and making decisions, and defining higher standards towards greater corporate governance for all our stakeholders.

We aim to align sustainability principles, data analytics, and disclosures to drive our decisions and operations for more sustainable outcomes to achieve the purpose.

We lead to enable our value-chain partners to integrate the entire LTIMindtree ecosystem with sustainable practices in all operations. We are partnering with our customers and suppliers, society, and governments to create long-term shared value for all stakeholders.

I would like to thank and express my humble gratitude to all our stakeholders for their hard work, which led us to achieve multiple accolades in the ESG arena, testifying our commitment to sustainability.

We aim to be a harbinger of positive change and impact and shall continue this sustainable journey to build on our past achievements, collaborate as a team to augment business growth, and become a sustainability leader to get to the future - faster, together.

**Chief Sustainability Officer
Paneesh Rao**

Through effective sustainability risk monitoring, strong data privacy protection for stakeholders, transparent disclosures, a rigorous and fair Whistleblower & grievance redressal procedures, we intend to establish and maintain the highest standards of ESG governance at the Board and Executive levels. We approach governance with our value-based governance philosophy. Our strategy is to institutionalize governance to align with our responsible business. We ensure that our purpose, vision, mission, and governance are well aligned, and we leverage systems, policies, and several checks and balances to monitor the way it functions organization-wide. Our Code of Conduct is the guiding light for all our business interactions, and it makes sure that every employee conducts himself/herself with the highest standards of ethics and integrity. We respect the laws and regulations of each geography that we operate in and take every measure to make sure that we adhere to all required standards of disclosure and reporting. This transparency and accountability are an important part of our business and is more than just a checkbox activity for us, which helps us in building lasting relationships with stakeholders who have reposed their faith in us. It also includes general principles aimed at guiding employees in making ethical decisions. Apart from this, Ethical Governance is articulated in the Corporate Governance Guidelines, Charters of various Committees.

PRINCIPLE 2: BUSINESSES SHOULD PROVIDE GOODS AND SERVICES IN A MANNER THAT IS SUSTAINABLE AND SAFE

Procurement at LTIMindtree aligns totally with the organization’s sustainability focus, the green infrastructure imperatives, and the organization-wide application of sustainability. This implies green procurement, with its screening criteria based not only on quality and cost but also on the environmental impacts of purchase and usage over long time horizons. We are leveraging procurement in several ways, such as green procurement, bold investment in ESG, and so on. Environmental Management System (“EMS”) (ISO 14001 standard) has been in place for several years and forms the core of the implemented EMS.

As we progress in the age of technology, we have identified that it is our responsibility to engage in more sustainable ways of working, enable clients to operate in a more energy-efficient manner and work for the betterment of communities. We always keep an eye on the value we deliver for the client and its impact on Environment, Social and Governance factors. LTIMindtree incorporates environmental and social considerations in all its business operations and ensures engagements with stakeholders are conducted in keeping with the norms of good governance, ethics, and transparency.

ESSENTIAL INDICATORS

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of Products/Services and processes to total R&D and capex investments made by the entity, respectively.

	FY 2022-23	FY 2021-22	Details of improvement in environmental and social impacts

Capex	0.82%	0.55%	Capex is mostly on our infrastructure. Better equipment and better buildings improve our energy, water efficiency and accessibility. Capex investment at organization level includes total additions to Property, Plant and Equipment (PPE) and intangible assets.

2. (a) Does the entity have procedures in place for sustainable sourcing? (Yes/No)

Yes, LTIMindtree has a procedure in place for sustainable sourcing where all the new and existing supply chain partners are mandatorily evaluated on environment, health & safety, and sustainability parameters (child labor, forced or compulsory labor, working conditions at supplier sites, Vendor diversity, MSME status, anti-slavery and human trafficking, POSH policies, Quality certification and protection of the environment) before onboarding.

LTIMindtree strives to apply green procurement objectives to its overall procurement strategy and is involved actively in identifying and generating green alternatives to traditional purchasing. We actively engage with and influence our supplier ecosystem towards better sustainability. We believe in helping our supply chain partners to inculcate sustainable practices and processes in their operations too. Going forward, we are stepping up our efforts to influencing this task in a more tangible way. Our procurement strives to factor in responsible practices in its processes as it looks forward to influencing the supply chain towards better sustainability.

LTIMindtree prefers to procure goods and services from local & small vendors who are within the state. Wherever possible, we procure our non-IT products from local businesses. It supports and helps uplift the communities in which we function and also reduces our supply chain cost, time to market and environmental footprint.

EHS Policy of the Company also emphasize on sustainable procurement. At regular intervals, the Company meets its contractors and suppliers to understand challenges and implement best business practices. As part of our environmental/ sustainable practices, we have agreed with OEM partners, like our laptop suppliers, to not use Thermocol and Styrofoam for packaging. For all purchases, we have specifically incorporated sustainable guidelines as part of Purchase Order terms.

Procurement at LTIMindtree aligns totally with the organization’s sustainability focus, the green infrastructure imperatives, and the organization-wide application of sustainability. Our supplier code of conduct includes the normative clauses on EES parameters such as labor (child labor, forced or compulsory labor), working conditions at supplier sites, and protection of the environment. It outlines our commitment to make our supply chain more responsible and sustainable.

(b) If yes, what percentage of inputs were sourced sustainably?

As part of the onboarding process for suppliers, we require their acceptance of the Supplier Code of Conduct that includes business responsibility practice and sustainable sourcing practices. It is mandatory to furnish this before onboarding as supply chain partners. In case of partners not willing to sign, we take their SCOC and vetted by legal team for sign off.

Sustainability sourcing percentage = 11% for FY 22-23.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

Given that LTIMindtree is an IT Services Company, we do not reclaim any products for reusing, recycling, and disposing at the end of life. However, LTIMindtree has waste management strategies in place for its own operations. We are arduously working towards generating less waste by focusing on the behavioral aspects of waste generation. We ensure that all waste we generate from our activities is reused, repurposed, or recycled through authorized recyclers and vendors. We have a robust system of segregation at the source which is collected and managed using the principles of the circular economy. LTIMindtree conducts an audit on waste recycling vendors for the safe disposal of e-waste, used lube oil, battery waste and other hazardous waste.

Plastic waste: Non-biodegradable plastic waste generated within our operations is sorted out safely and disposed to authorized vendors for recycling/ reuse. All LTIMindtree facilities have also resorted to using 100% biodegradable plastic garbage bags to collect and dispose of wet waste, diverting thousands of disposable plastic waste in the process.

E-waste: All electronic waste generated within LTIMindtree premises is discarded within 180 days to registered recyclers, who are authorized by the State Pollution Control Boards, as per the E-waste (Management) Rules, 2016. Recycling certificates are obtained from the respective vendors once the process has been completed to ensure safe disposal. Employees have an option to buy back the laptop after five years, thereby reducing the e-waste being sent for disposal. We also donate laptops in good condition to schools through our CSR Foundation.

Battery waste: All the battery waste generated is disposed through the SPCB-authorized vendors as per the regulatory requirements.

Hazardous waste: All hazardous waste is disposed off through Waste Recyclers authorized by the State Pollution Control Boards at the respective locations. Post disposal, the manifest is being submitted to the authority on the confirmation of the same.

Other waste: Biodegradable food waste is treated onsite through composting for manure generation which is used for our campus landscaping. The extra manure is also distributed to employees.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity’s activities (Yes/No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, Extended Producer Responsibility is applicable to LTIMindtree’s business activities as a bulk consumer of electronic equipment only. The Company disposes and manages the E-waste generated from its internal operations in alignment with the E-waste Management Rules, 2016.

LEADERSHIP INDICATORS

1. Has the entity conducted Life Cycle Perspective/Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format?

NIC Code	Name of Product/Service	% of total Turnover contributed	Boundary for which the Life Cycle Perspective/Assessment	Whether conducted by independent external agency (Yes/No)	Results communicated in public
620	LTIMindtree undergoes CMMI assessment- and ISO Certifications for development, Maintenance, Support and Testing projects where complete lifecycle of projects is covered	100%	Cradle-to-grave Full life cycle	Yes	Refer Annual Report FY 2022-23

We conduct LCA on our internal operations as a part of Environmental Impact Assessment to determine LTIMindtree's control or influence over the environmental impacts associated with each Life Cycle Stage of the environmental aspect. We are committed to reducing emissions and minimizing our environmental impacts of our operations. Detailed disclosure in this regard is available in the ESG section.

2. If there are any significant social or environmental concerns and/or risks arising from production or disposal of your services, as identified in the Life Cycle Perspective/Assessments (LCA) or through any other means, briefly describe the same along with action taken to mitigate the same.

Name of Product/Service	Description of the risk/concern	Action Taken
No significant social or environmental impact	Nil	Nil

LTIMindtree is an IT Services Company, and we don't produce any products. We conducted LCA of our internal operations. There are no significant adverse social/environmental impacts/risks in the Financial Year 22-23.

3. Percentage of recycled or reused input material to total material (by value) used in production (for manufacturing industry) or providing services (for service industry).

Refer to Principle 6 of the BRSR in the Integrated Annual Report.

4. Of the products and packaging reclaimed at end of life of products, amount (in metric tonnes) reused, recycled, and safely disposed.

LTIMindtree is a global IT services and consulting company and we do not manufacture any products. Most categories of waste are appropriately reused and recycled, and disposed as per the applicable regulatory requirements. The metrics and details of which are furnished in Principle 6-Essential Indicators 8 & 9.

5. Reclaimed products and their packaging materials (as percentage of products sold) for product category.

Not applicable as we are an IT services company, and we don't manufacture any products.

PRINCIPLE 3: BUSINESSES SHOULD RESPECT AND PROMOTE THE WELL-BEING OF ALL EMPLOYEES, INCLUDING THOSE IN THEIR VALUE CHAINS

Being an inclusive organization, our people strategies are focused on providing an exceptional employee experience through a variety of learning opportunities, rewarding careers, and a safe and healthy workplace. These include workplace health and safety programs, occupational medical and healthcare services programs on lifestyle, diseases and mental well-being, in addition to comprehensive medical benefits programs. LTIMindtree endeavors to follow the principles of diversity and fairness with all our value chain partners, in terms of human rights, employee welfare, health and safety, standards of minimum wages and maximum working hours. In the ever-changing landscape of our industry, the only way for us to keep setting new growth records is to keep improving the advantage that our family of employees bring to the table. Hence, LTIMindtree spends significant time, effort, and resources in making sure that our employees have access to opportunities for growth and development and are empowered to drive their own career at LTIMindtree.

3. Accessibility of workplaces

Are the premises/offices of the entity accessible to differently abled employees, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.

Our offices have been designed with a strong emphasis on inclusivity and accessibility. Our office spaces are equipped with designated parking slots, height-adjustable workstations, foldable stretchers, evacuation chairs, wheelchair accessible ramps at entrances, and specially designed washrooms with grab rails and access. We have also installed panic buttons in the PWD restrooms to ensure the employees are able to immediately alert the security team in case of any emergencies.

We are also in the process of implementing other aspects of accessibility such as tactile maps for persons with vision impairment etc. We have conducted a facilities audit and are working on closing the gaps identified.

It is our endeavor to continuously strive for improvement and enhance our infrastructure to cater for the needs of differently abled employees.

LTIMindtree believes in going beyond what is mandated by law. We have a reasonable accommodation policy that enables persons with disabilities to avail themselves of the benefits and privileges of employment equal to those enjoyed by similarly situated people without such needs. As part of the Diversity, Equity & inclusion processes, we conduct PWD sensitization programs for the whole organization in order to build a more inclusive environment and enable teams to craft inclusive practices in their functions to integrate people with disabilities.

4. Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide a web-link to the policy.

Yes. LTIMindtree is an Equal Opportunity Employer with an Equal opportunity policy which strongly endorses the right of equal opportunity for associates who are differently abled. We commit to carrying out the provisions of the Rights of Persons with Disabilities Act, 2016 (“Act”) in letter and spirit including providing specific opportunities in identified positions where they could be employed. As an inclusive employer, LTIMindtree actively encourages the recruitment, development, and retention of people with disabilities, provides equal opportunity in the workplace, and is committed to providing a safe, accessible, and healthy work environment. Recruitment of people with disabilities, in addition to providing necessary and customized support to help them realize their potential, is encouraged at LTIMindtree. We also support employees who have acquired disabilities during their employment. This policy is available at <https://www.ltimindtree.com/wp-content/uploads/2022/11/Equal-Opportunity-Policy-.pdf?pdf=download>

Health and Safety Measures:

A lot of sessions on health and safety are conducted for employees and support staff to enhance awareness. Various mechanisms are implemented in the system to ensure employees and other stakeholders can report in case of any hazards or risks identified or in case of any workplace related accidents like portal system to login the issues, complaint register at the entry office and green cards at all building lobbies. Also, a safety tree is displayed at the buildings to showcase the number of incidents or accidents that happened in the particular month. Emergency mock drills on various scenarios are conducted as per the defined frequency to showcase the effectiveness of our emergency preparedness and response and to raise the level of awareness on how to act safely in the event of an emergency. In addition, various events and competitions are conducted to enhance health and safety awareness among the employees and support staff.

Skill Upgradation:

We work with our global customers to provide end-to-end Digital and IT solutions and to support in their digital transformation journeys. Our strategy focusing on key verticals, service lines and geographies has the potential to power our long-term growth by sharpening employee skills across technology, industry domain, delivery management, innovation, human skills, and leadership learning dimensions. Learning and development team plays an important role in ensuring our employees are ‘Future Ready’ which is one of the key components of the Organization values.

The explosion of digital technologies, pervasiveness of Cloud, evolution of Machine Learning, Blockchain, Internet of Things and Artificial Intelligence continue to disrupt established ways of doing business. To match the pace and demand, businesses require a workforce that is multi-skilled (full stack), agile and future ready. Such talent is in short supply in the market. We realized earlier on that conventional recruitment and talent management are neither cost-effective nor sustainable. As a result, our talent strategy is built upon our highly engaged, people-centric culture.

For us, the key is to encourage a learning and innovation mindset with challenging, growth-oriented role-based career paths, aligned to our business strategy and employees’ aspirations. Our talent development takes a holistic view via an integrated framework of learning journeys, career development, job rotations, role progression and staffing opportunities. Starting from our campus recruits, who undergo a dedicated 90-day residential training program, to lateral recruits and employees across all levels, various talent development initiatives form an integral part of an employee’s experience. To complement this, we have created a competency taxonomy that factors the evolving business and technology landscape, allowing role and skill-based pathways that enable employees to move from traditional to emerging areas. Our digital learning platform, with a multitude of ‘learn anywhere, anytime’ upskilling and reskilling initiatives, has more than 5,000 key courses on new-age skills. This integrated approach is helping us to attract and retain talent.

We offer diverse channels, formal and informal – for the learning and development of our employees. Our digital learning platform is a one-stop shop for all learning and development such needs. It offers interventions at various levels and consists of self-paced courses, virtual programs, classroom programs, certifications, workshops and so on. Courses are organized into 101s, 201s and 301s and are curated into learning paths and packages. Learning is made possible anywhere, anytime across devices, making continuous learning pervasive. Every employee should complete assigned learning and attain certain minimum mandatory learning credits based on their learning dimension in a year as part of our learning process.

Learning Partners associated with each service line play a key role in proactively counselling and guiding the employees to make informed choices regarding their roles, acquiring proficiencies at par with market demand and aligning interested employees for the roles they perform within their Projects. Our Learning Platform offers employees an exclusive space to understand and align their roles to the requirements of the organization and our customer. Collectively, these steps ensure alignment between the organization and our talent strategy.

9. Details of performance and career development reviews of employees:

Category	FY 2022-23			FY 2021-22		
	Total (A)	No. (B)	% (B/A)	Total (C)	No. (D)	% (D/C)
Employees						
Male	51,321	51,321	100%	42,797	42,797	100%
Female	23,255	23,255	100%	19,171	19,171	100%
Total	74,576	74,576	100%	61,968	61,968	100%

Note:
Columns A & C correspond to the number of employees eligible and Columns B&D denote number of employees who submitted their annual appraisals in FY23 and FY22 respectively.

Periodic assessment of performance helps us to better equip ourselves to meet our goals and thereby make a significant contribution to the organization's goals. The objective of the Annual Appraisal is to facilitate a fair and transparent system of performance review and discussions of the annual goals between employee and manager. It involves reviewing the past, analyzing the present, and planning for the future. Furthermore, the Nomination and Remuneration Committee of the Board evaluates the performance of the members of the executive management on an annual basis.

10. Health and safety management system:

(a) Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system?

Yes, Occupational health and safety management system has been implemented by LTIMindtree. It covers the entire operations including all facilities and offices. EHS (Environment, Health & Safety) policy has been established with coverage across all locations. It describes our philosophy and commitment towards managing key aspects of HSE. It addresses the concerns related to the environment through the following commitments outlined below:

- (i) Meeting all the environment-related compliance requirements (like hazardous waste annual returns, environmental audit statements, battery returns and e-waste returns) across their business locations in the country in a timely manner
- (ii) Enhancing sustainability initiatives to reduce the Company's carbon footprint and thereby continuously monitor the carbon data
- (iii) Conserving natural resources by minimizing usage, reusing, and recycling material and by purchasing recycled material
- (iv) Ensuring the optimum consumption of energy throughout our business, including conserving energy, improving energy efficiency by use of energy-efficient devices, and giving preference to renewable over non-renewable energy sources wherever feasible
- (v) Striving to prevent pollution and minimize the environmental impacts
- (vi) Educating our suppliers to operate consistently with our Supplier code of conduct and applicable environmental standards
- (vii) Setting targets for continuous improvements on environmental performance indicators and reporting our performance to our stakeholders.

In line with LTIMindtree's vision, philosophy, and EHS Policy, management systems have been implemented in accordance with the International Standards ISO 45001:2018 (Occupational Health and Safety Management System Standard). EHS Management System defines the mandatory requirements for systematic management and execution within the organization. The Company's Integrated EHS Management System is accredited by international certification bodies.

Our delivery centers across locations are certified for ISO 45001: 2018 and undergo a biannual internal audit and yearly Surveillance/ Re-certification audit through a third party. As per the requirements of ISO 45001: 2018 standard, all our facilities undergo a Hazard Identification and Risk Assessment (HIRA) which covers all occupational risks and hazards and their corresponding administrative, technical and process controls to mitigate the risks and elimination of risk being the ultimate objective. Our buildings are equipped with

state-of-the-art safety measures like Fire Fighting Systems, Smoke Detectors, Fire Alarm System, Water Leak Detection System for Data Centers, CCVT Control Room to name a few, thus contributing towards building a safe and secure eco system for our employees.

There is strong emphasis on training around Occupational Health & Safety and our employees and contract staff undergo regular training through internal and external trainers via online and classroom sessions. Ergonomics, Safety at Home, Well Being at Home, Electrical Safety, Fire Fighting Training are a few important training sessions conducted.

(b) What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Facility Risk Assessment, primarily for office premises and Hazard Identification & Risk Assessment has always been a key focus area of our Health & Safety program implementation. These risks are identified, evaluated, and assessed for impact based keeping in view our operational complexities.

The process of HIRA (Hazard Identification & Risk Assessment) as per ISO standard requirements identifies risks arising out of our operations which includes a documented procedure to carry out assessment of work-related hazards and risks for all routine (checks of equipment such as UPS, HVAC, DG, operation of pumps, housekeeping operations etc.) and nonroutine (renovation of buildings, new installation of equipment and any other unplanned ones) activities carried out at any location. This assessment further translates into implementation of administrative, technical and process controls to mitigate and reduce the recurrence of these risks.

Hazard and risk identification is carried out by the process owners in consultation with the safety experts. The process owners are responsible to ensure adequate controls are identified and implemented to control the identified OHS risks. Mitigation plans and controls are provided to eliminate the identified hazards and risks.

We conduct a Hazard Identification and Risk Assessment (HIRA) periodically or anytime there is a change in process, new equipment, or service, and build risk mitigation plans. The following steps are taken to assess risks and hazards:

- Break down the job into successive steps or tasks
- Identify the hazards associated with each step and task
- Identify controls in place for each hazard
- Identify applicable legal obligations relating to risk assessment and implementation of necessary controls
- Estimate the potential severity of an incident associated with each hazard from both safety and health aspects
- Estimate the probability of an incident occurring for each hazard (given existing controls)
- Calculate the risk
- Identify possible additional controls needed to eliminate these hazards.

It enables us to identify and contain incidents that may cause an injury to people or property. The assessment is followed up with documentation of risks and hazards present within our environment, their causes, associated consequences and risk and hazard containment recommendations.

With the COVID-19 pandemic affecting our routine office operations, it added a new dimension to identifying hazards and risks associated with it. Thermal scanners, In house sanitization capabilities, removal of bio metric scanners, enhanced deep cleaning of frequented areas, regular advisories, restrictions on large gatherings, scattered seating arrangements, are a few counter covid measures adopted. The new normal hybrid work environment has been well adapted to and it is our constant endeavor to regularly assess the risks associated with it.

As LTIMindtree is an IT Service company, there are no product risks but there are those related to the provision of services like ergonomics in work as well as those associated with the operation of utilities and employee commute. Participation and consultation with relevant personnel involved in the activities is ensured during the process of risk assessments. Risks are also assessed prior to and post the development of new buildings. Experience from previous projects and current operations are also considered. We continually monitor our construction sites where infrastructure is being established.

(c) Whether you have processes for employees to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes, LTIMindtree has various reporting mechanisms (like GENIE) to ensure that all work-related incidents (which include accidents, near misses, unsafe conditions, and unsafe acts) are reported and closed after taking necessary corrective actions. These mechanisms ensure that employees, support staff and other stakeholders have access to report in case of any hazards or risks identified, workplace related accidents such as portal system to login the issues, complaint register at the entry office and green cards at all building lobbies. The purpose is to identify work-related hazards that can be controlled and those that can influence the overall environmental performance of the Company and determine the significance of the associated environmental impacts. Support staff are also regularly briefed to enhance awareness of the reporting mechanism.

(d) Do the employees of the entity have access to non-occupational medical and healthcare services? (Yes/No)

All our permanent employees and their families (including spouses, children, and parents/ in-laws) have access to non-occupational medical and healthcare services. As per the agreement signed with all our "sub-contractor vendors," it is mandatory for the vendor to provide non-occupational medical & healthcare services to all the subcontractors deployed at LTIMindtree locations all over India. In overseas geographies, nonoccupational medical and healthcare services are provided as per the country regulations.

11. Details of safety related incidents, in the following format:

Safety Incident/Number	Category	FY 2022-23	FY 2021-22
Lost Time Injury Frequency Rate (LTIFR) (per one million-person hours worked)	Employees	0	0.19
Total recordable work-related injuries	Employees	4	4
No. of fatalities	Employees	Nil	Nil
High consequence work-related injury or ill-health (excluding fatalities)	Employees	Nil	Nil

Typical to any service sector company operating out of office-based premises, the most common injuries occur due to slips, trips and falls or being struck by stationary objects, road accidents in company provided transport. LTIMindtree ensures 100% closure of the reported incidents with appropriate medical care support, corrective and preventive actions.

12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

LTIMindtree recognizes that environmental health & safety (EHS) and overall physical and mental well-being of its employees is integral to its success and growth aspirations as spelled out in its EHS Policy. LTIMindtree is committed to provide safe workplaces focusing on preventing injuries, illnesses, and continuously strives to eliminate hazards and reduce OHS risks. Our Global Facility Management Team has stepped up readiness for employees returning to the office so that they feel safe in the workplace. There have been key infrastructure enhancements to ensure adequate sanitization stations, minimal contact with bare surfaces, thermal scanning at key access areas, and effective prompts to maintain social distancing.

A robust management system is in place to ensure that management objectives are met, sustained, and consistently improved. We adopted the ISO 14001 (Environmental management systems) and ISO 45001 which are international standards detailing requirements related to health and safety management systems. This enables us to control our risks and improve our performance. These standards have been identified as the most relevant standards that could be adapted to meet our requirements.

Our internal reporting systems are equipped with online tools wherein employees, contractors, contract staff, visitors and clients can raise health & Safety concerns, if any. These incidents are then assigned to relevant teams for a Root Cause Analysis and come up with CAPA (Corrective Action Preventive Action) plans.

We follow the OHS Framework principles at all our facilities in India. Our EHS Policy covers all our locations and people - permanent employees, contractual employees, and vendors. We comply with all applicable health and safety regulations. LTIMindtree has occupational health and safety key matrix with regular monitoring of OHS compliance, near-miss recordings, incident recordings, lost time injury recordings, ergonomics, monitoring and measurement, and training & awareness.

Some of the mitigation measures to prevent or mitigate significant occupational health & safety impacts include,

- Provision and maintenance of fire detection, alarm, and suppression systems
- Regular site review, inspections, and audits to assess safety preparedness
- Regular mock drills for fire as well as medical emergencies on quarterly basis
- Provision of ergonomically designed chairs and workstations to prevent musculoskeletal disorders (MSD's) and low radiation computer monitors for better visual health
- Digital monitoring of drinking water quality, indoor air quality and periodic cleaning of the HVAC ducts to avoid sick building syndrome.
- Regular training on occupational health & safety training to sensitize employees on OHS aspects to inculcate a culture of safety
- Employee engagement campaigns on health & safety topics such as fire safety, road safety, emergency evacuation, ergonomics among others
- Organizing EHS activities such as health check-ups and awareness camps, wellness camps and health sessions across PAN India facilities

There are no major H&S risks associated with LTIMindtree services as the Company provides customized software solutions and IT services.

13. Number of Complaints on the following made by employees:

	FY 2022-23			FY 2021-22

Health & Safety	Nil	Nil	Nil	Nil	Nil	Nil

LTIMindtree has always prioritized the health, safety, and well-being of our associates through establishment, implementation, maintenance and continual improvement of our processes and practices that guarantee a healthy and safe working environment for all our associates. There were no complaints by our associates concerning working conditions or Health & Safety in FY 22-23 and FY 21-22.

14. Assessments for the year:

	% of your plants and offices that were assessed (By entity or statutory authorities or third parties)
Health and safety practices	100%. All LTIMindtree India locations undergo third party assessments, audits and are certified by qualified auditors for ISO 45001.
Working Conditions	100%. All the offices were assessed with the help of the Company's compliance partners.

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks/ concerns arising from assessments of health & safety practices and working conditions.

H&S – Yes. At our organization, we have established an Environmental Health and Safety policy to emphasize the importance of maintaining a safe and healthy workplace for all employees & partners who work on our premises. In-house EHS team monitors all the health & safety measures implemented on ground to ensure there is no deviation from the set process. To identify hazards/risks within the premises, Hazard identification and risk assessment is done prior to each activity, and it is reviewed periodically. Appropriate control measures are implemented to mitigate the identified hazards/risks. In addition to the risk assessment, we have established an incident reporting process at our facilities, where all the employees, partners, visitors, and clients can report any hazard/risk they identify through Genie or Green cards. Incidents are tracked, and corrective actions are taken to ensure a safe working place. Awareness on emergency preparedness is given to employees periodically and training is conducted to partners as per the schedule to create awareness on health & safety.

At one of our Bengaluru facilities, we have replaced old AHU filters with MERV-13 filters to improve indoor air quality at the workplace. We also have initiated the installation of the panic button in PwD restrooms in a phased manner, to enable them to reach the security team in case of any emergencies. As of now, the initiative has been completed at our facility in Hyderabad and Bhubaneswar. In Hyderabad facility, we have installed a fire suppression system for electrical panels. The system has the capability of auto detection and instantaneous activation and does not involve human intervention to extinguish the fire in case of possible incident. We have also initiated phased manner of installation high speed hand driers at restrooms across facilities. The Touch free high speed hand dryers help to reduce cross contamination and avoid generating contaminated waste. The activities have been completed at our few facilities in Bangalore and Hyderabad.

Working Conditions – No corrective actions were required because we didn't have any risks/concerns arising from assessments of working conditions.

LEADERSHIP INDICATORS

1. Does the entity extend any life insurance or any compensatory package in the event of death of Employees (Y/N)?

Yes, all our employees are entitled to life insurance or any compensatory package in the event of death of employees. However, the package is based on the designation of the employee. LTIMindtree provides employees with outstanding health benefits, some of which are available to their families. In addition to affordable health insurance, LTIMindtree provides benefits such as retirement provisions (provider funds, gratuity), group term life insurance, parental leave, stock ownership, personal accident insurance, superior maternity support programs, nutrition, psychological counseling, health plan incentives, etc.

2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

Third Party Audit has been done for all Subcon Vendors. Apart from this, we have an internal team who reviews the compliance of all vendors.

We conduct a quarterly vendor audit, with the help of outsourced auditors to check and ensure that the statutory dues have been deducted and deposited appropriately by the vendors. Adherence to the applicable statutory provisions including payment and deduction of statutory dues is incorporated in the contract agreement with the value chain partners. The Company makes sure that all the relevant clauses dealing with statutory compliance are validated and honored by both sides.

The scope of audits also cover Labor Compliance asks such as:

- Prohibition of Employment of Child Labor Statutory Compliance- Provident Fund ("PF"), Employee State Insurance Corporation ("ESIC"), Professional Tax ("PT"), Labor Welfare Fund ("LWF")
- Availability of Labor License with vendor under Contract Labor (Regulation & Abolition) Act, 1970
- Payment of minimum wages
- Salary disbursement
- Vendor to hold WC ("Workmen compensation") policy/ GPA ("Group personal accident") policy for employees not covered under ESIC Scheme.

Employees	Nil	Nil	Nil	Nil

No employees have suffered high consequence work-related injury/ ill-health/ fatalities.

4. Does the entity provide transition assistance programs to facilitate continued employability and the management of career endings resulting from retirement or termination of employment? (Yes/No)

No, we do not have any transition assistance programs.

5. Details on assessment of value chain partners:

	% of value chain partners (by value of business done with such partners) that were assessed
Health and safety practices	0%
Working Conditions	0%

LTIMindtree expects all its value chain partners to follow the applicable regulations including Health and Safety and Working conditions. To ensure responsible business conduct throughout our value chain, suppliers are contractually bound to adhere to LTIMindtree's Supplier Code of Conduct, sustainable practices, and corporate governance. These policies mandate to ensure healthy working conditions for employees and has zero-tolerance for human rights violations.

6. Provide details of any corrective actions taken or underway to address significant risks/concerns arising from assessments of health and safety practices and working conditions of value chain partners.

Not Applicable as our value chain partners were not assessed for Health and safety practices and working conditions.

PRINCIPLE 4: BUSINESSES SHOULD RESPECT THE INTERESTS OF AND BE RESPONSIVE TO ALL ITS STAKEHOLDERS

Stakeholder involvement is essential for LTIMindtree to promote responsible and sustainable business practices that benefit both the Company and its stakeholders. Engaging with stakeholders serves the larger goal of better understanding the risks and possibilities connected with the social, environmental, and economic framework within which the Company operates. These characteristics aid in identifying stakeholders across the value chain who are important to the business and society and necessitate meaningful engagement.

ESSENTIAL INDICATORS

1. Describe the processes for identifying key stakeholder groups of the entity.

We are an organization born inclusive in nature and purpose. Since our inception, we have included diverse segments of people in our talent pool, contributed to social causes even in tough business climates, treated suppliers like our partners and our customers with dedicated commitment, all along driven by our inclusive values and principles. They indicate how LTIMindtree extended its inclusivity to larger stakeholders from the beginning with its insistence on stakeholder identification and engagement.

LTIMindtree identifies and prioritizes its key stakeholder segments based on their impact on the organization and the organization's impact on them. LTIMindtree engages with a broad spectrum of stakeholders, to deepen its insights into their needs and expectations, and to develop sustainable strategies for the short, medium, and long-term. Stakeholder engagement also helps to manage risks and opportunities in business operations. The key stakeholders identified in consultation with the Company's management are: customers, employees, investors, suppliers, industry bodies such as NASSCOM and CII, governments, NGOs, local communities, regulators, and society at large. Stakeholder interactions might be structured (e.g., surveys, account statements) or unstructured (town halls, 1x1 meetings). Based on mutual convenience and need, the engagement may be scheduled as needed, or pre-scheduled on a periodic basis (monthly/ quarterly/ annual) or ongoing (e.g., website, social media).

We have built a vast range of forums to constantly engage with all our stakeholders. The forums collect stakeholder concerns, which in turn act as inputs for our policies, strategies, actions, and materiality assessment.

Our exercise of identification and prioritization of stakeholders has shown us several segments to be constantly engaged with. The wide range of engagement platforms we have designed helps us be in touch with their concerns and expectations in a two-way dialogue. These platforms also work as a source of critical stakeholder feedback for us. LTIMindtree keeps evolving these platforms periodically, revamping and refining them as per the needs and requirements of the stakeholders and the business.

LEADERSHIP INDICATORS

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

Our Company is committed to fulfil its Environmental, Social and Governance (ESG) responsibilities, while building an ethical workplace and following the legacy and practices of Larsen & Toubro Limited, the Parent Company. It believes in conducting business sustainably through sound practices which conserves natural resources, reduce carbon footprint, increase social equity and practice good governance, for a sustainable tomorrow, thereby creating sustainable value chain.

The Board has constituted various committees for the purpose of overseeing ESG governance at LTIMindtree, viz. CSR Committee, Risk Management Committee and Stakeholders Relationship Committee. These committees comprise of optimum mix of Independent Directors and Executive Directors. Chairperson of all the above-mentioned committees is an Independent Director. These Committees meet at frequent intervals to deliberate and decide on matters in their relevant focus areas. Chairperson of the Board committees update the Board of Directors at the board meeting(s), on the discussion(s)/deliberation(s) in meetings of their respective committees. In addition to the above, the management at LTIMindtree has an in-house Corporate Social Responsibility (CSR) team and a Risk Operating Council (ROC) to handle the operational matters

At the apex level, the Board of Directors review take cognizance of the issues and risks that define and drive the Company's long-term performance and approve the strategic matters & initiatives. The Board members actively discuss various ESG initiatives of the Company and encourage the senior management to take initiatives beyond the regulatory requirements.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes/No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes, outcome of the materiality assessment and stakeholder engagement exercise are taken forward to identify material topic of concern on sustainability for the Company. Based on these material topics of significance to the Company, further strategy development, policy setting, if required, objectives and goal setting with monitoring mechanism are developed and implemented.

We have different engagement platforms where stakeholder consultation is taken into Board, even at the committee level. The respective Committee Chairperson updates the Board at every meeting on the discussion/deliberations of the Committees. Further, the Board members actively discuss various ESG initiatives of the Company and encourage the senior management to take steps beyond regulatory requirements.

Environment – As ESG and climate priorities gain momentum, the inputs, feedback, and suggestions received from customers are incorporated in decision making, strategy development, and reporting on CDP to enable customers address their environmental needs and commitments. A few instances where stakeholder consultation is used to support the identification and management of environmental topics are as follows.

- To receive inputs/suggestions from all the stakeholders, we have interested parties register kept at all facilities where they can register the same.
- All employees and partners register their inputs using the Green card system.
- With respect to the implementation of legal requirements, PCB authorities are consulted in case any clarifications are required.
- Consultation with partners is done to understand the feasibility & benefits of the initiatives before implementation at the ground level.

Social – Social responsibility has been ingrained into the very mission of LTIMindtree since its inception and has evolved to impact society in multiple ways. Our social responsibility manifests itself through our CSR initiatives and people-led initiatives in volunteering. In our quarterly CSR committee meetings, we receive valuable advice from the committee members. One of the suggestions received this year was to identify a cluster of villages or a gram panchayat and execute multiple interventions to achieve holistic community development. This advice was incorporated in two instances. This also resonated with the Honorable PM’s call to support the development of model gram panchayats across the country.

Governance – Ethics & integrity are part of LTIMindtree’s DNA, and it has institutionalized it through a set of Core Values, Code of Conduct, policies, and structures like Corporate Governance. The framework is firmly in place to ensure that all governance issues are effectively and transparently addressed, so that the organization continue to do right by its stakeholders. For example, LTIMindtree has adopted governance policies for the Board of Directors, Key Managerial Personnel & Senior Management appointments, remuneration and evaluation. This focus on succession planning is followed for top leadership as well as middle management with custom-designed technology platforms to enable them.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/marginalized stakeholder groups.

As a socially responsible company, LTIMindtree believes in inclusive growth and upliftment of the marginalized segments of the population. We continue to focus on collaboration and communication as well as building sustained communities through our CSR initiatives.

We are committed to engaging with local communities through initiatives in certain priority areas such as environmental protection, education, empowerment, and health & wellness.

Education:

Education is key to the overall development of an individual, and it also enhances the quality of life. With a high drop-out rate in Government schools, it’s a tough task to attract the marginalized children to education, which is the means to help them live a better & happier life. At LTIMindtree, we work with an approach to make a difference to the lives of this segment and enabling these children to stay in school.

As a technology company, LTIMindtree runs multiple projects related to digital and STEM education by which we try to make a difference in the community and achieve sustainable development goals by leveraging technology – primarily SDG 4 Quality Education and SDG 9 Industry, Innovation, and Infrastructure.

Empowerment:

At LTIMindtree, we believe that the gap in society, created due to opportunity and awareness or the lack of these, can be bridged by an inclusive approach. By empowering marginalized communities through IT, ITES, and vocational skills training, and focusing on the development of women & people with disabilities, we wish to make a difference to the society, both at a macro, as well as at the grassroots level. We conduct job fairs and training on entrepreneurship/market handholding to secure a continuous source of income and increase their family income.

SDG 8 Decent Work and Economic Growth, and SDG 10 Reduced Inequalities are focused through these interventions.

Environment:

LTIMindtree environmental protection initiatives go beyond our commitment to reduce our environmental footprint to make our communities greener by reducing our emissions, LTIMindtree aims to be Carbon & Water Neutral for its India operations by 2030.

At LTIMindtree, through our CSR activities, we undertake an array of climate protection initiatives including Tree saplings plantation, Mangrove conservation, Providing ecofriendly biomass cookstove to forest dwellers, building check dams and farm ponds.

SDG 13 Climate Action, and SDG 15 Life on Land are focused through these interventions.

Health & Wellness:

LTIMindtree has partnered with NGOs to provide a variety of health and wellness interventions to people who need help. This includes conducting heart surgeries for children with congenital heart diseases, treating children with clubfoot, creating a safe playing space for children with disabilities in the form of an Inclusive Park, offering end to end health care for Thalassemia patients, preventing TB and Anemia, performing cataract surgeries, caring for senior citizens, and providing awareness and free menstrual kits to tribal women and children. SDG 3 Good Health and Well-being is focused through these interventions.

Overall LTIMindtree have reached 579,916 beneficiaries from vulnerable/ marginalized stakeholder groups through CSR initiatives.

PRINCIPLE 5: BUSINESSES SHOULD RESPECT AND PROMOTE HUMAN RIGHTS

LTIMindtree is committed to protecting and respecting human rights and proud to declare that there are no instances of violations such as issues related to rights, human trafficking, forced labor, child labor, freedom of association, the right to collective bargaining, equal remuneration and discrimination. Providing equal employment opportunity, ensuring distributive, procedural, and interactional fairness in all what we do, creating a harassment-free, safe environment and respecting one’s fundamental rights are some of the ways in which we ensure the same. To monitor progress and formulate strategies to address human rights related issues, we have established committees and processes such as the Prevention of Sexual Harassment Committee, Whistleblower Committee which are reviewed by the top management on a regular basis.

Our Supplier Code of Conduct expects all our suppliers to ensure full compliance with all local laws and regulations including but not limited to antibribery and anti-corruption, health and safety, human rights, anti-trafficking and modern slavery, data protection, international trade, sanctions, export-controls, anti-trade and competition, prevention of sexual harassment and product safety, health, safety and environment and act with diligence, while conducting business with or on behalf of LTIMindtree.

4. Do you have a focal point (Individual/Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes, LTIMindtree has appointed multiple personnel to address human rights impacts or issues caused or contributed to by the business in India & APAC, UK & Europe, and US & Canada. COC (Code of Conduct) Committee is also in place. Code of Conduct breach cases are addressed by Whistleblower investigation committee. The issues are resolved/addressed on the basis of the nature of the matter.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

LTIMindtree is firmly committed to upholding the values and principles of human rights in all its conduct across all levels. We constantly endeavor to instill these values in our employees and expect them to respect and promote human rights. Employees have access to several forums where they can highlight matters or concerns faced at the workplace. As per the Grievance Redressal Policy, employees are required to reach out to their immediate reporting manager and/or HR and then the concerned redressal team addresses the issue. In addition, other Grievance Redressal Mechanisms are in place to guide all employees on how to raise their concerns or grievances to the management. This includes the procedures to track that all such issues are addressed promptly, impartially, and justly.

LTIMindtree encourages any employee having complaints, concerns of suspected incidents, amongst others, unethical practices, violation of applicable laws and regulations, including the Integrity Code, PIT Code, and Fair Disclosure Code to promptly come forward and express them without any fear of retaliation through Whistleblower Policy. If an employee is aware of someone violating Human Rights Policy or law, they are asked to report it immediately to whistleblower@ltimindtree.com. In addition, we have a grievance procedure in place for the UK region.

We also have an internal committee to deal with the prevention of sexual harassment. POSH Policy aims to drive conformance to the Company's healthy, non-vindictive culture in the form of clearly articulated practices, procedures, and processes in compliance with the applicable laws. Any employee who feels or believes that he or she has been subjected to or witnessed sexual harassment in the Company premises (and/or Company-sponsored or work-related activities held outside the Company's premises) has an obligation and duty to report the same to POSH@ltimindtree.com.

The concerns are handled with sensitivity, while delivering timely action and closure. A detailed investigation process ensures fairness for all involved, with an opportunity to present facts and any material evidence. All the grievances received are duly investigated and appropriate actions are taken to resolve the issue/complaint. Whenever required, disciplinary actions are initiated as deemed fit and assistance from regulatory authority is sought.

6. Number of Complaints on the following made by employees:

	FY 2022-23			FY 2021-22

Forced Labor/Involuntary Labor	Nil	Nil	Nil	Nil	Nil	Nil
Wages	Nil	Nil	Nil	Nil	Nil	Nil
Other human rights related issues	Nil	Nil	Nil	Nil	Nil	Nil

7. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

LTIMindtree aims to provide a safe working environment and prohibits any form of discrimination/harassment or related retaliation against or by any associate. We have policies like Whistleblower and POSH which intend to prohibit such occurrences and ensure that there are no adverse consequences when an associate reports a complaint on discrimination or harassment.

LTIMindtree has constituted an Internal Committee (IC) to prevent adverse consequences to the complainant in harassment cases. This Committee governs and regulate the behavior of employees in all matters regarding Harassment. One of the duties of the IC is to issue appropriate interim orders directing the management of Company, on the demand the Complainant or any witness, giving evidence in support, to implement such measures as transfer, changing shifts, etc. so as to protect the Complainant and witness against victimization, discrimination and mental or physical distress.

In cases of Whistleblower and other discriminatory cases, the identity of Respondent, Whistleblower, and the witnesses (if any), will be kept confidential to the extent possible given the legitimate needs of law and the requirements of the investigation by the Ethics and Compliance Committee (ECC). LTIMindtree's culture conforms to a non-vindictive environment. LTIMindtree ensures every Whistleblower that he/she would not be jeopardized, terminated, or retaliated against for reporting any Protected Disclosure under the Whistleblower Policy unless it appears to the reasonable opinion of the Ethics and Compliance Committee that the complaint is materially and unambiguously abusive and/or malicious or false.

Subsequent to the reporting of a Protected Disclosure and appeal, if any Whistleblower perceives that his/her complaint or concern has not been addressed appropriately or is being subject to any victimization by virtue of his/her disclosure, he/she can bring the same to the notice of CEO & MD of LTIMindtree for investigation and appropriate remedial action.

In addition to the above, the confidentiality and safety of the complainant are paramount in these procedures and hence all information is held by a few core people relevant to the process, like the IC or ECC. The privacy of the complainant is kept intact and no details are divulged either to the People Function representatives or the managers/superiors of the complainant.

LTIMindtree imposes a strict obligation of confidentiality on all persons involved in the enquiry process. Furthermore, LTIMindtree has a non-retaliation policy that allows the complainant to raise a complaint in the event of any retaliatory behavior and seek protection from the management of the Company in such instances. LTIMindtree does not tolerate any form of retaliation against anyone reporting good faith concerns. Anyone involved in targeting such a person raising such complaints will be subject to disciplinary action.

8. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes. LTIMindtree includes human rights requirements as a part of business agreements and contracts. LTIMindtree adheres to the UNGC (United Nation Global Compact) principles which include Human Rights clauses. These clauses are part of the contracts with suppliers, partners, and NGOs, and are extended across the supply chain in the form of the Supplier Code of Conduct. Our Supplier Code of Conduct expects our suppliers to embrace their commitment to integrity by complying with the applicable regulatory requirements including related to labor practices and human rights, health, safety, and environment etc. and act with diligence, while conducting business with or on behalf of LTIMindtree. We ensure that our business partners sign the contract with LTIMindtree only after they read, understand, and agree to abide by our Supplier Code of Conduct which includes all aspects of human rights in it. In exceptional cases where vendors are not willing to sign our SCOC, we ask for vendor's SCOC. It is then reconciled with our legal team and then sign off is provided.

9. Assessments for the year:

	% of your plants and offices that were assessed (By entity or statutory authorities or third parties)

Others – please specify	

10. Provide details of any corrective actions taken or underway to address significant risks/ concerns arising from the assessments at Question 9 above.

Not Applicable as there was no assessment conducted by entity or statutory authorities or third parties.

However, we conduct regular audits to address risks and escalate in case of any issues. We ensure all statutory compliances regarding minimum wages and strictly prohibit employment of child labor.

LEADERSHIP INDICATORS

1. Details of a business process being modified/introduced as a result of addressing human rights grievances/complaints.

We have not received any human rights grievance/complaint so far.

LTIMindtree has a well-defined governance framework. Our Human Rights Statement provides a broad framework to ensure respectful and dignified treatment of our employees with no tolerance for acts of human rights violations or abuse. We are a UNGC signatory and support the protection and elevation of human rights in accordance with the UN Universal Declaration of Human Rights. Even though there were no human rights complaints, we monitor, review, and update our policies and processes regularly to ensure we have no human rights issues in LTIMindtree.

2. Details of the scope and coverage of any Human rights due-diligence conducted.

We have a human rights policy, human rights process, and execution by Human Resources. We also have a Whistleblower Policy and mechanisms which do address all human rights concerns and bring in due diligence. As Whistleblower does lead to its own actions and implications, we treat Whistleblower under human rights due diligence. On the whole, we have very good tracking mechanisms for monitoring all these issues as they arise and also tracking the resolutions which cover both full-time and contractual employees of LTIMindtree.

The Company adheres to the UNGC (United Nation Global Compact) principles which include Human Rights clauses. These clauses are part of the Company's contracts in the form of Supplier/Vendor Code of Conduct (CoC) and is extended across the entire value chain. Fostering a culture of caring and trust are embedded in various corporate policies like Environment, Health & Safety (EHS) Policy, Whistleblower policy and the CoC. The Company has laid down its CoC, which is applicable to Board members, senior management, and employees. The objective is to be committed and vigilant towards the ethical conduct of business processes and instill a sense of ownership within the Company. All designated employees, including Board Members, adhere to the CoC and provide an annual declaration of their compliance. The Code covers all aspects of functioning, including anti-trust behavior, information security, insider trading rules, professional engagements, use of Company assets and brand logo, intellectual property, human rights etc.

A separate Supplier Code of Conduct has been extended to vendors and service providers which covers the need for compliance with environmental regulations, health and safety, labor practices, ethical behavior, human rights aspects, minimum wages, freedom of association, collective bargaining, prohibition of child labor and forced and compulsory labor. The Company is committed to treating every employee with dignity and respect. The Company has formulated a policy on 'Prevention of Sexual Harassment' as per the provisions of the Sexual Harassment of Women at Workplace (Prevention, Prohibition & Redressal) Act, 2013 and Rules, 2013. The policy is applicable to all establishments located in India.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Our offices have been designed with a strong emphasis on inclusivity and accessibility for employees with disabilities as well as for differently abled visitors. Our office spaces are equipped with designated parking slots, height-adjustable workstations, foldable stretchers, evacuation chairs, wheelchair accessible ramps at entrances, and specially designed washrooms with grab rails and access. We have also installed panic buttons in the PWD restrooms to ensure the employees are able to immediately alert the security team in case of any emergencies.

We are also in the process of implementing other aspects of accessibility such as tactile maps for persons with vision impairment etc. We have conducted a facilities audit and are working on closing the gaps identified.

It is our endeavor to continuously strive for improvement and enhance our infrastructure to cater for the needs of differently abled employees.

4. Details on assessment of value chain partners:

% of your value chain partners (by value of business done with such partners) that were assessed	
Sexual harassment	0%
Discrimination at workplace	Currently, this is not being assessed.
Child Labor	However, the Company's Supplier Code of Conduct and relevant contractual clauses in the agreements executed with vendors address these aspects. The Guiding Principles the same are: Provide a safe, healthy, tolerant, and disciplined work environment that pay all its workforce equal to or above the minimum wages as per legal requirement, respects individuals' human rights, and is free from discrimination, zero-tolerance for child and forced labor, slavery and human trafficking, verbal, or any other form of harassment and in any activities that would jeopardize safety or security.
Forced labor/ Involuntary labor	
Wages	All suppliers have to necessarily sign the CoC for dealing with the Company and are expected to comply with its requirements.
Others- please specify	

5. Provide details of any corrective actions taken or underway to address significant risks/concerns arising from the assessments at Question 4 above.

Not applicable as our value chain partners were not assessed for the above human rights issues.

PRINCIPLE 6: BUSINESSES SHOULD RESPECT AND MAKE EFFORTS TO PROTECT AND RESTORE THE ENVIRONMENT

The latest Global Risk Report by the World Economic Forum calls out several environmental risks such as climate action, biodiversity loss, and natural resource crises. LTIMindtree is focused on managing these risks efficiently by identifying Climate change mitigation, water efficiency and responsible water management, pollution, and waste management as the most material issues. LTIMindtree has developed a portfolio of multiple initiatives to address these issues. These include our Net Zero Commitment by 2040, Water Positivity by 2030 and near 100% waste recycling by 2030 and supporting larger community initiatives in these areas.

ESSENTIAL INDICATORS

1. Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format:

Parameter	FY 2022-23	FY 2021-22
Total electricity consumption (A)	69,853 GJ	53,907 GJ
Total fuel consumption (B)	2,119 GJ	4,014 GJ
Energy consumption through other sources (C)	75,873 GJ	60,870 GJ
Total energy consumption (A+B+C)	147,845 GJ	118,791 GJ
Energy intensity per rupee of turnover (Total energy consumption/turnover in ₹)	4.46 GJ/₹ crore	4.55 GJ/₹ crore
Energy intensity (optional) – the relevant metric may be selected by the entity	0.0258 GJ/sq ft	0.022 GJ/sq ft

Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

The metrics in this BRSR are reported according to Global Reporting Initiative Standards based on WRI (World Resource Institute), WBCSD (World Business Council for Sustainable Development) & GHG protocol. The same has been independently assured by third-party agency DNV Business Assurance India Private Limited via limited level of assurance based on international assurance best practices including International Standard on Assurance Engagements 3000 (ISAE 3000) Revised.

2. Does the entity have any sites/facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

Perform Achieve and Trade (PAT) scheme is a regulatory instrument to reduce specific energy consumption in energy intensive industries. As LTIMindtree is an IT Service Company, this question is Not Applicable to us.

3. Provide details of the following disclosures related to water, in the following format:

Parameter	FY 2022-23	FY 2021-22
Water withdrawal by source (in kiloliters)		
(i) Surface water	14,674	12,370
(ii) Groundwater	44,010	29,000
(iii) Third party water	153,827	134,775
- Municipal corporation	134,778	123,011
- Private Suppliers	15,813	11,352
- Packaged Water	3,236	412
(iv) Seawater/desalinated water	0	0
(v) Others – Rainwater	4,024	2,712
Total volume of water withdrawal (in kiloliters)	216,535	178,857
Total volume of water consumption (in kiloliters)	216,535	178,857
Water intensity per rupee of turnover (Water consumed/turnover)	6.53 kl/₹ crore	6.85 kl/₹ crore
Water intensity (optional) (Water consumed/total built-up area)	0.038 kl/square feet	0.032 kl/square feet

The sources of freshwater at LTIMindtree include third party water, ground water, surface water and rainwater harvested. LTIMindtree optimizes water consumption through conservation, sewage treatment and reuse, and rainwater harvesting.

Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

The metrics in this BRSR are reported according to Global Reporting Initiative Standards based on WRI (World Resource Institute), WBCSD (World Business Council for Sustainable Development) & GHG protocol. The same has been independently assured by third-party agency DNV Business Assurance India Private Limited via limited level of assurance based on international assurance best practices including International Standard on Assurance Engagements 3000 (ISAE 3000) Revised.

4. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Yes, we have implemented a mechanism for Zero Liquid Discharge. LTIMindtree understands the importance of water for our overall business continuity. All the wastewater which is generated within the premises (both owned and leased) is treated through sewage treatment plants in our own campuses. The treated water is tested to ensure that all parameters comply with the standards as specified by the State Pollution Control Boards and used for landscaping, restroom flushing, and for chiller cooling towers. This helps us to reduce our fresh-water requirement and intake.

5. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	Please specify unit	FY 2022-23	FY 2021-22
NOx	kg	47	69
SOx	kg	19	37
Particulate matter (PM)	kg	53	69
Persistent organic pollutants (POP)	-	-	-
Volatile organic compounds (VOC)	-	-	-
Hazardous air pollutants (HAP)	-	-	-
Others – please specify	-	-	-

Note: LTIMindtree, being a service sector company, does not have significant air emissions other than those arising from operation of DG sets during power outages. LTIMindtree's operations in India have necessary consent under the Air (Prevention & Control of Pollution) Act (1981), for operation of DG set and ensures compliance to the conditions which includes stack emission parameters like nitrous oxide, non-methane hydrocarbons, carbon monoxide, particulate matter, etc. Stack emission monitoring is conducted as per the frequency required under the Consent To Operate (CTO) the DG.

The DG stack emissions are sampled and analyzed by government approved laboratories and the reports are reviewed by the internal team to ensure compliance to the environmental laws and regulations. These stack emission reports and annual returns are submitted to government authorities (State Pollution Control Boards) as per consent conditions. These reports are also verified during internal and external audits to check compliance.

Since we are a service industry, we do not monitor Hazardous Air Pollutants (HAP), Volatile Organic compounds (VOC) and Persistent Organic Pollutants (POP) data.

Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

The metrics in this BRSR are reported according to Global Reporting Initiative Standards based on WRI (World Resource Institute), WBCSD (World Business Council for Sustainable Development) & GHG protocol. The same has been independently assured by third-party agency DNV Business Assurance India Private Limited via limited level of assurance based on international assurance best practices including International Standard on Assurance Engagements 3000 (ISAE 3000) Revised.

6. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	Unit	FY 2022-23	FY 2021-22
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	2,604	1,588
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	15,717	12,129
Total Scope 1 and Scope 2 emissions per rupee of turnover	Metric tonnes of CO ₂ equivalent/₹ crore	0.55	0.53
Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity	Metric tonnes of CO ₂ equivalent per square feet	0.0032	0.0025

Notes:

- The Scope 1 emissions are from direct GHG sources like fuel used in company owned vehicles, fire engines and cafeteria, fugitive emissions from refrigerants and Piped Natural Gas (PNG).
- Scope 2 emissions are associated with purchased electricity and DG units.

Scope 1 Emission Break-up:

Source	FY 2022-23 (Ton CO ₂ e)	FY 2021-22 (Ton CO ₂ e)
Fuel Usage (Diesel)	514	553
Fuel Usage (LPG)	32	8
Fugitive Emissions	2,031	1,019
Owned Vehicles	5	2
PNG	22	6
TOTAL	2,604	1,588

Scope 2 Emission Break-up:

Source	FY 2022-23 (Ton CO ₂ e)	FY 2021-22 (Ton CO ₂ e)
Electricity/ Energy Purchased	15,717	12,129
TOTAL	15,717	12,129

Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

The metrics in this BRSR are reported according to Global Reporting Initiative Standards based on WRI (World Resource Institute), WBCSD (World Business Council for Sustainable Development) & GHG protocol. The same has been independently assured by third-party agency DNV Business Assurance India Private Limited via limited level of assurance based on international assurance best practices including International Standard on Assurance Engagements 3000 (ISAE 3000) Revised.

7. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.

LTIMindtree has taken up the target to reduce its absolute Scope 1 and Scope 2 carbon footprint and become Net Zero by 2040.

One of the biggest steps towards attaining carbon neutrality is ensuring optimum utilization of energy and thereby curbing emissions. For the past few years, we have strongly focused on reducing the environmental impact of our operations. Our strategies and actions reflect our commitment towards a sustainable habitat. We believe energy conservation and emission reduction is a continuous and enduring process, and this core belief is at the forefront of our strategy.

The key initiatives contributing to the reduction in Green House Gas emission are:

- Replacement of existing UPS models with energy efficient models led to energy savings of 2.62 Lakh kWh per annum at current load and cost saving of ₹ 43.81 Lakh per annum.
- Replacement of old hand driers with energy efficient hand driers. This initiative helped to conserve 30,160 kWh energy per annum.
- Replacement of CFL & T5 lights with LED lights will help us to save 1.65 Lakh kWh units of energy per annum with a cost saving of ₹ 24.81 Lakh per annum.
- Installation of Motion sensors at identified facilities resulted in energy savings of ~71,402 kWh per annum with a cost saving of ~₹ 500,073.
- Replacement of old AC units with energy efficient units resulting in an energy savings of 580,700 kWh units per annum with a cost saving of ~₹ 41.06 Lakh.
- Installation of variable frequency drives resulted in energy saving of 1.68 Lakh per annum with a cost saving of ~₹ 18.69 Lakh.
- Installation of APFC and AHF panels resulted in energy savings of approximately 15,000 kWh per annum, with a cost saving of around ₹ 2 Lakh per annum.
- Emission control device is installed at one of our DG which resulted in 83% reduction in the particulate matter and 87% reduction of carbon monoxide released by the DG.
- We have installed an atmosphere drinking water generating unit (Air – Water system) in one of our cafeterias, which generates around 500 Liters of water per day. This helped us to reduce our dependency on private suppliers and avoid transportation of water there helps in reduction of carbon emission.

10. Beyond the preference for clean energy and energy efficiency measures, transport has been a key area for our attempt at reducing emissions. Our Metro Shuttles encourage lower emissions at individual levels.
11. We encourage green commuters by providing cycle stands and charging points.
12. The Routematic Application that we use for end-to-end automation of employee transportation creates automated optimum routes based on address data.
13. Accelerated phase-out of R-22 refrigerant-based air-conditioning units have been initiated for improving energy efficiency and simultaneously, use of units with refrigerants which have zero ODP and low GWP, thus enabling reduction of GHG emissions.
14. At LTIMindtree, we continue to encourage the use of clean energy to reduce our dependence on non-renewable energy sources. To achieve our objective, we are exploring various aspects such as Power Purchase Agreements (PPA), green tariff and solar plants.
15. In FY 2022-23, 52.07% of LTIMindtree's energy requirement has been met by Renewable sources.
16. We are also focusing on upgrading our green buildings to higher ratings. All new campuses owned by LTIMindtree are designed according to green building standards for energy and resource efficiency. They have roof top solar photovoltaic installations to reduce the carbon footprint.
17. In FY 2022-23, projects were taken up to improve the energy efficiency in existing buildings as well through retrofits.

8. Provide details related to waste management by the entity, in the following format:

Parameter	FY 2022-23	FY 2021-22
Total Waste generated (in metric tonnes)		
Plastic waste (A)	10.95	8.78
E-waste (B)	29.28	102.43
Bio-medical waste (C)	0.06	0.03
Construction and demolition waste (D)	123.45	380
Battery waste (E)	32.52	43.66
Radioactive waste (F)	0.00	0
Other Hazardous waste. Please specify, if any. (G)	3.56	3.53
- Tube Lights	0.08	0.23
- CFL Bulbs	0.04	0.09
- Used Oil:	3.18	2.01
- Oil-soaked cotton waste	0.02	0.91
- DG Filters	0.24	0.28
- Printing Ink/Cartridges	0.00	0
Other Non-hazardous waste generated (H). Please specify, if any. (Break-up by composition i.e., by materials relevant to the sector)	166.37	76.60
- Inorganic Waste	25.89	4.01
- Organic Waste	107.48	52.86
- Packaging Waste	19.95	12.31
- Others	13.04	16.25
Total (A+B+C+D+E+F+G+H)	366.19	623.86
For each category of waste generated, total waste recovered through recycling, re-using or other recovery operations (in metric tonnes)		
Category of waste		
(i) Recycled	235.09	239.53
(ii) Re-used	0.00	380
(iii) Other recovery operations	0.00	0
Total	235.09	619.53
For each category of waste generated, total waste disposed by nature of disposal method (in metric tonnes)		
Category of waste		
(i) Incineration	6.47	1.22
(ii) Landfilling	124.63	3.11
(iii) Other disposal operations	0.00	0
Total	131.10	4.33

100% of the regulated waste (hazardous wastes, e-waste, battery waste), plastic wastes, paper & packaging wastes are disposed through recycling. The generated quantities, if remaining at the end of the financial year for disposal, are stored at the facilities and recycled through approved/ authorized vendors.

Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

The metrics in this BRSR are reported according to Global Reporting Initiative Standards based on WRI (World Resource Institute), WBCSD (World Business Council for Sustainable Development) & GHG protocol. The same has been independently assured by third-party agency DNV Business Assurance India Private Limited via limited level of assurance based on international assurance best practices including International Standard on Assurance Engagements 3000 (ISAE 3000) Revised.

9. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your Company to reduce usage of hazardous and toxic chemicals in your products/ services and processes and the practices adopted to manage such wastes.

We are committed to continually improving our Waste management practices at all our facilities. Our waste management philosophy is based on three principles – Reduce, Reuse, and Recycle. We seek to uphold our ambition of zero waste to landfills through active minimization combined with technology investment in recycling and streamlining systems and processes. With our efforts, we contribute to a circular economy and convert waste to resources.

LTIMindtree, being an IT services and consulting organization, does not manufacture physical products and therefore does not use any hazardous or toxic chemicals in any of its processes. The Company has offices and facility operations, and the waste is generated from the auxiliary processes used to run these facilities.

Based on the nature of services, LTIMindtree's facilities mostly generate electronic, inorganic, organic waste, and generate very less hazardous waste and do not use toxic chemicals. Potentially hazardous and regulated wastes such as used oil, oil-soaked cotton and DG filters are generated in relatively smaller proportions which are disposed through SPCB approved recyclers as per regulations. To increase fuel efficiency, DG maintenance is done on a regular basis to ensure the effective usage of the fuel. The reduction of fuel usage completely depends on the availability of grid power.

E-waste is disposed to government approved e-waste recyclers. An agreement is in place to ensure all the toners and cartridges are taken back by the partner for reuse. Only EPA-certified chemicals are used for cleaning and sanitizing activities.

The organic waste generated within our campus is treated in an in-house organic waste composter and converted into manure. Sludge generated from STP is dried and blended with this compost. The manure is being used as fertilizer for landscaping within the campus. We also distribute the extra manure to the employees during World Environmental Day and Earth Day.

The inorganic waste is segregated at the source and is disposed of through authorized recyclers. Generated construction waste is disposed to the vendor and reused for the construction of roads. Packing waste like cardboard is reused for couriering the laptops to employees working remotely. Implemented WOW' (Well-being Out of Waste) initiative – a program where recyclable waste is scientifically disposed of and sent for recycling.

In line with the Central & State Govt. (India) Directives, LTIMindtree has made all its campuses in India free from 'Single use plastics' through alternative arrangements. We have avoided single-use food and drink containers and utensils in the cafeteria, meeting rooms, and utmost monitoring is done to minimize the generation of waste.

LTIMindtree is committed to sustain the best practices that have already been institutionalized like segregation of all recyclable wastes, 100% compliance to management practices for regulated wastes like hazardous and e-waste and 100% recycling on printer and toner cartridges, paper, and packaging wastes. LTIMindtree also ensures 100% disposal of biomedical waste (BMW) through government authorized BMW disposal agencies in India as per regulatory requirements. The Company targets to maximize the recycling and reuse of all waste categories to divert waste from landfill.

In the fiscal year 2022-23, we have recycled 64.20% of the waste generated within our office premises.

10. If the entity has operations/ offices in/ around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals/ clearances are required, please specify details:

S. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval/clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
	Not applicable*		

*LTIMindtree does not have operations/offices in/around ecologically sensitive areas where environmental approvals/clearances are required.

Note: All our campuses are built on government-approved land in industrial zones thus having no impact on biodiversity.

11. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No)	Relevant Web-link
Nil					

12. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

Yes, All LTIMindtree offices follow the applicable environmental law/ regulations/ guidelines in India, such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment Protection Act, and rules thereunder. No fine/penalty/action was initiated against the entity under any of the applicable environmental laws/regulation/guidelines.

S. No.	Specify the law/ regulation/ guidelines which was not complied with	Provide details of the non-compliance	Any fines/ penalties/ action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
	Nil			

LEADERSHIP INDICATORS

1. Provide break-up of the total energy consumed (in Joules or multiples) from renewable and non-renewable sources, in the following format:

Parameter	FY 2022-23	FY 2021-22
From renewable sources		
Total electricity consumption (A)	75,873 GJ	60,870 GJ
Total fuel consumption (B)	0	0
Energy consumption through other sources (C)	0	0
Total energy consumed from renewable sources (A+B+C)	75,873 GJ	60,870 GJ
From non-renewable sources	0	
Total electricity consumption (D)	69,853 GJ	53,907 GJ
Total fuel consumption (E)	2,119 GJ	4,014 GJ
Energy consumption through other sources (F)	0	0
Total energy consumed from non-renewable sources (D+E+F)	71,972 GJ	57,921 GJ

LTIMindtree uses multiple energy sources in its daily operations, electricity being the primary source. LTIMindtree has increased the share of renewable electricity (RE) over the years through onsite rooftop solar generation, third party procurement and purchase of Energy Attribute Certificate (EAC), Power Purchase Agreements (PPA) etc. Other sources of energy include fuel used in company owned vehicles, cooking gas used in cafeterias and diesel used in diesel generators (mainly used as a backup source for power shortages). In FY 2022-23, 52.07% of LTIMindtree's energy requirement has been met by Renewable sources.

Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

The metrics in this BRSR are reported according to Global Reporting Initiative Standards based on WRI (World Resource Institute), WBCSD (World Business Council for Sustainable Development) & GHG protocol. The same has been independently assured by third-party agency DNV Business Assurance India Private Limited via limited level of assurance based on international assurance best practices including International Standard on Assurance Engagements 3000 (ISAE 3000) Revised.

2. Provide the following details related to water discharged:

Parameter	FY 2022-23	FY 2021-22
Water discharge by destination and level of treatment (in kiloliters)		
(i) To Surface water		
- No treatment	0	0
- With treatment – please specify level of treatment	0	0
(ii) To Groundwater		
- No treatment	0	0
- With treatment – please specify level of treatment	0	0
(iii) To Seawater		
- No treatment	0	0
- With treatment – please specify level of treatment	0	0
(iv) Sent to third-parties		
- No treatment	0	0
- With treatment – please specify level of treatment	0	0
(v) Others		
- No treatment	0	0
- With treatment – please specify level of treatment (The wastewater is treated by in-house STP – Conventional method before discharging to the municipal sewer)	3,200	0
Total water discharged (in kiloliters)	3,200	0

Wastewater generated is treated in sewage treatment plants and reused for purposes like landscaping, HVAC applications and flushing.

Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

The metrics in this BRSR are reported according to Global Reporting Initiative Standards based on WRI (World Resource Institute), WBCSD (World Business Council for Sustainable Development) & GHG protocol. The same has been independently assured by third-party agency DNV Business Assurance India Private Limited via limited level of assurance based on international assurance best practices including International Standard on Assurance Engagements 3000 (ISAE 3000) Revised.

3. Water withdrawal, consumption and discharge in areas of water stress (in kiloliters):

For each facility/plant located in areas of water stress, provide the following information:

- i. **Name of the area:** Pan India locations (Mumbai, Bengaluru, Chennai, Pune, Hyderabad, and Bhubaneswar)
- ii. **Nature of operations:** Both Leased and owned locations for IT Consulting and Services
- iii. **Water withdrawal, consumption and discharge:** India is placed amongst the world's 'extremely water-stressed' countries, according to the Aqueduct Water Risk Atlas released by the World Resources Institute (WRI). We have already depicted our pan India water disclosure details in Q3 - Essential indicators and Q2 - Leadership indicators under this principle 6.

We continue our efforts in water conservation through a combination of technological interventions, rainwater harvesting, recycling and reuse of wastewater, communication, and employee engagement. We have over the years succeeded in recharging the groundwater table with rainwater harvesting.

Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

The metrics in this BRSR are reported according to Global Reporting Initiative Standards based on WRI (World Resource Institute), WBCSD (World Business Council for Sustainable Development) & GHG protocol. The same has been independently assured by third-party agency DNV Business Assurance India Private Limited via limited level of assurance based on international assurance best practices including International Standard on Assurance Engagements 3000 (ISAE 3000) Revised.

4. Please provide details of total emissions & its intensity, in the following format

Parameter	Unit	FY 2022-23	FY 2021-22
Total Scope 3 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	26,294	9,555
Total Scope 3 emissions per rupee of turnover	Metric tonnes of CO ₂ equivalent/₹ crore	0.79	0.37
Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity	Metric tonnes of CO ₂ equivalent per square feet	0.0046	0.0017

Scope 3 Emission Break-up:

Category	FY 2022-23 (Ton CO ₂ e)	FY 2021-22 (Ton CO ₂ e)
Employee Commute	9,132	4,682
Business Travel	16,987	4,708
Waste	53	52
Fuel Usage (Diesel for Other Purposes)	8	4
Freight	114	109
TOTAL	26,294	9,555

Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

The metrics in this BRSR are reported according to Global Reporting Initiative Standards based on WRI (World Resource Institute), WBCSD (World Business Council for Sustainable Development) & GHG protocol. The same has been independently assured by third-party agency DNV Business Assurance India Private Limited via limited level of assurance based on international assurance best practices including International Standard on Assurance Engagements 3000 (ISAE 3000) Revised.

5. With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along with prevention and remediation activities.

This question is not applicable to us because LTIMindtree does not have operations/offices in/around ecologically sensitive areas where environmental approvals/clearances are required. Our ESG policy is biodiversity protective, a water saving directive, and a resource saving directive. We are committed to conserve and enhance biodiversity, to incorporate biodiversity into our day-to-day operations and promote sustainable business practices that will not harm any species.

6. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions/ effluent discharge/ waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

S. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Energy Conservation Programs	Replacement of T5 Lights to LED Lights Optimization of UPS Installation of Motion sensors Replacement of Old AC units with energy efficient units Installation of Variable Frequency Drives (VFD) Installation of APFC and AHF Panels	1,464,750.54 kWh projected savings per annum.
2	Water Conservation programs	Installation of efficient water aerators. Installation of water less urinal commode at restrooms. Installation of Air – water system. Rainwater harvesting and rainwater earth charging	2,792 KL/annum savings (Projected). Ensures recharge of the groundwater level and helped us to reduce private water purchase in this year.
3	Waste Management	Combination of waste reduction, waste segregation, recycling, on-site composting, and incineration	Reduced the burden on the city landfills
4	Emission Reduction	Installation of Retrofit Emission Control Devices (RECD) for DG sets	We have installed RECD in a DG with a capacity of 500 kVA, resulting in an 83% reduction in particulate matter and an 87% reduction in carbon monoxide.

We adopt, invent, and encourage smarter ways to mitigate GHG emissions, reduce energy consumption and manage water and waste, to make our planet stronger by consistently embracing clean tech in our operations and client solutions, thereby minimizing the impact on nature.

7. Does the entity have a business continuity and disaster management plan? Give details in 100 words/web-link.

Yes, LTIMindtree has a robust Business Continuity & Resilience (BC&R) program that covers all critical businesses and drives compliance to our policies across all the Delivery/ Business Enabling units. Business continuity plans at LTIMindtree are maintained at Account level, Business Enabling unit level and Site level.

The program:

- Is certified to ISO 22301 standards.
- Is compliant with globally and locally applicable laws and regulations.
- Is aligned to LTIMindtree's values and is committed to protecting its staff, maintaining a safe and secure work environment, and ensuring continuity of critical businesses and functions.
- Demonstrates Senior Management commitment to strive for resilience across the organization.
- Has defined the Governance model headed by the Board of Directors and Risk Management Committee (RMC).
- Has an Integrated Crisis Management framework that enhances crisis preparedness and response processes.
- Is supported by automated tools & resources.

For more details, refer to the Risk management section in this Annual Report.

8. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard?

No significant adverse impact was reported from any value chain partners. LTIMindtree has a responsibility to ensure that all our inputs are being sourced sustainably. We prioritize having a sustainable value chain that leads to a positive global impact. A separate Code of Conduct (called Supplier Code of Conduct) has been extended to vendors and service providers which covers the need for compliance with environmental regulations, health and safety, labor practices, human rights aspects, minimum wages, freedom of association, collective bargaining, prohibition of child labor and forced and compulsory labor, ethical behavior, transparency in business processes and environment conservation. All new vendors/service providers need to sign the SCoC as part of the initial empanelment process. Timely internal environmental management system audit for ISO 14001:2015 and external audits are conducted to evaluate compliance which also includes the Company's value chain partners (supply chain partners) too.

9. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

0%

LTIMindtree did not assess its value chain partners for environmental impacts in the FY 2022-23. However, all supply chain partners are required to sign a Supplier CoC which covers the need for compliance including environmental regulations. LTIMindtree has started to cover Modern Slavery and ESG topic as a part of Third-Party Audits from 2023.

S. No.	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In ₹)
	Nil					

Rehabilitation and Resettlement is not a focus area for our CSR projects. We work in the areas of education, Well-being, Livelihood and Environment and People with Disabilities and are geared towards improving the quality of education of children and increasing the chances of economic independence for every individual.

3. Describe the mechanisms to receive and redress grievances of the community.

We make frequent field visits, discuss directly with the beneficiaries, and take corrective & preventive actions along with the respective NGO partners. In addition, community grievances are addressed by the project execution team appointed by the NGO partner working on the ground. They are in direct contact with the beneficiaries who share their concerns with them. This makes it relatively easier to establish strong communication lines and swiftly address any grievances through a dedicated SPOC. During our periodic virtual interactions with the project execution team as well as during our periodic project site visits, we evaluate and understand the grievances for further course of action. Based on their grievances, we take corrective action where required in consultation with our NGO partners.

Various structured forums and platforms have also been created to further support its grievance redressal system. All assigned people on the ground are given rigorous training on the code of conduct, ethics, and child protection policies etc. as per the policies of LTIMindtree or the concerned partner organization. Redressal on grievances is carried out as per the nature of the grievance, basis guidelines defined in the organization's policies.

PRINCIPLE 9: BUSINESSES SHOULD ENGAGE WITH AND PROVIDE VALUE TO THEIR CONSUMERS IN A RESPONSIBLE MANNER

LTIMindtree has a wide variety of clients ranging from multiple sectors. ESG being one of the core areas looked at by customers, LTIMindtree has focused on emerging issues which is a mix of sustainability, data privacy, open source, and gig workforce, while also exploring metaverse tools and frameworks. LTIMindtree’s partnerships with many of the world’s largest enterprise software providers, cloud computing businesses, and technology organizations enable us to offer unique and holistic solutions for our clients.

ESSENTIAL INDICATORS

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

LTIMindtree considers each client complaint as an opportunity for improvement and has a different mechanism to capture the same early. Account managers, onsite sales and the delivery teams share client feedback/complaints to the project manager. The complaint is captured in COMPASS Issue log and triggers causal analysis and resolution to address the client complaint and to prevent such instances in future.

At LTIMindtree, there is a defined structured approach to identify specific actionable and subsequent discussions are held with clients to gather more clarity on the feedback. The action plan is shared with the client and monitored during governance meetings/ steering committee meetings on monthly and quarterly basis. Both the action plan, and its execution, are very closely monitored and reviewed by the senior management.

To provide clients with ample avenues to provide feedback, we have the following major levels at which feedback is taken:

(a) Feedback through LTIMindtree Client Satisfaction Survey Tool

We have a structured and user-friendly process of assessing the satisfaction level of clients through an online ‘Client Satisfaction Survey’ (CSAT) tool. The tool enables clients to rate the services of LTIMindtree across different categories like project execution, quality, communication, culture, and value delivered. This feedback is taken for each project every six months. In addition to project level, feedback is also taken at an account level, engagement level or individual employee level. The feedback obtained is analyzed and corrective actions are taken wherever required. These actions are also shared with the client.

(b) Account level through independent third-party consultant

In addition to the project level survey, there is an annual Client Satisfaction Survey (‘CSAT’) done by a research-led independent consulting firm who administers the survey on LTIMindtree’s behalf. In this survey various levels of clients are covered right from Chief Executive Officer (CXO), senior management to middle management level. As a part of this survey, CXOs of our key clients are personally interviewed and an online survey link is shared with all client participants to provide unbiased feedback. Through this survey, we measure the level of client experience we deliver to our clients through key parameters like satisfaction, loyalty, advocacy, and business value for money. To increase the visibility of actions to clients, three levels of communication are done for each engagement. L1 communication where client feedback is acknowledged and actions planned are validated, L2 communication where midterm progress on improvement actions is shared and L3 communication where closure of actions and value delivered is communicated. For LTIMindtree, this survey is a very important exercise for gathering insights from clients to improve their experience with LTIMindtree and for us to deliver amplified outcomes.

2. Turnover of products and/ services as a percentage of turnover from all products/ service that carry information about:

	As a % to total turnover
Environmental and social parameters relevant to the product/services	LTIMindtree is not a product company and is a provider of digital transformation, consulting and business reengineering services and solutions. 5. Does the entity have a framework/policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.

Yes, LTIMindtree has a policy on cybersecurity and risks related to data privacy.

LTIMindtree’s cyber security policy is published internally for all users. We are committed to managing and improving the security of all critical information assets through the deployment of adequate protection measures and user training. The Company has implemented controls to secure IT infrastructure, including intrusion prevention systems, firewalls, anti-malware software, content filtering gateways, data encryption, data leakage protection systems, and 24/7 monitoring. Endpoint security controls have been deployed to ensure that levels of security are similar, be it in the corporate environment or while working remotely. Periodic internal and external audits provide oversight about the cyber security risk. The information security program is reviewed regularly by the Risk Management Committee of the Board.

Additionally, LTIMindtree has also implanted a strong vulnerability management program which includes proactively identifying vulnerabilities in its network and systems by conducting periodic vulnerability assessments, penetration tests and red team exercises.

LTIMindtree has put together a Data privacy framework and a Privacy policy (<https://www.ltimindtree.com/general-privacy-policy/>). It is applicable to all stakeholders across the value chain including – employees (full-time and contracted), customers, partners, vendors/suppliers, job applicants, and any other stakeholder whose Personal Data is collected and processed by LTIMindtree. All third parties (vendors/suppliers) are engaged/contracted with adequate due diligence, and commitment towards privacy obligations. It is designed to explain and set out LTIMindtree’s procedures when processing Personal Data and Sensitive Personal Data across its organization. It defines the requirements to ensure compliance with the Data Privacy Laws applicable to LTIMindtree’s collection, use, and transmission of Personal Data and Sensitive Personal Data. We also have Data Loss Prevention Policy (DLP) which is published internally.

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product/service recalls; penalty/action taken by regulatory authorities on safety of products/services.

Not Applicable as there were no issues relating to advertising, delivery of essential services; cyber security and data privacy of customers.

LTIMindtree has required level of security controls which covers in detail the assurance about organization’s security, confidentiality, integrity, availability, and privacy controls and allows our clients to be assured of our enhanced & sustained compliance posture to securely deliver services to our customers.

LEADERSHIP INDICATORS

1. Channels/platforms where information on products and services of the entity can be accessed (provide web-link, if available).

LTIMindtree is a global technology solutions and consulting Company. All pertinent information on our services can be accessed at <https://www.ltimindtree.com/>

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

Not applicable, as LTIMindtree does not have any products/services that can entail safety issues or usage abuse.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

LTIMindtree has a well-defined Business Continuity Management System aligned to meet the requirements as per ISO 22301 standards. The exchange of information within the Organization and with interested parties is an important component of LTIMindtree’s Business Continuity Management System. Each customer relationship has a business continuity mechanism to handle any disruption of services/products and a suitable communication plan. The need for internal and external communications with respect to BCMS has been determined, including details of what to communicate with whom and when to communicate. To this effect, a well-defined Communication Procedure has been defined. The procedure specifies processes for communicating internally within the Organization and communicating externally with customers, partners, local community, media, and other relevant interested parties. The process for receiving, documenting, and responding to communication from interested parties has also been mentioned. Facilitation of structured communication with relevant authorities (emergency responders) has also been covered in the procedure.

Timely communication with LTIMindtree employees, third-party staff, visitors, clients, and other interested parties during an incident is vital. LTIMindtree has identified the most reliable crisis communication application that would be used for such critical communication. To ensure the availability of the communication system during a disruptive incident, LTIMindtree, where possible, has built resilient systems and entered into maintenance contracts to keep the systems in working condition. As a backup, alternative systems have also been identified for communication, should the primary medium be affected because of the incident.

We have managed all our customer operations without any complaints with most of our employees doing remote working. We have Internal Processes, Disaster Recovery and Business Continuity and Security Policies that help us to resume services at customers’ acceptable service levels.

4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief.

Not applicable since LTIMindtree is a global technology consulting and digital solutions company operating in B2B model.

Did your entity carry out any survey with regard to consumer satisfaction relating to the major products/services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

Yes. We, at LTIMindtree, firmly believe that a regular survey mechanism, supported by a transparent improvement plan, is the foundation for ensuring a high level of client satisfaction. To provide clients with ample avenues to provide feedback, we have the following major levels at which feedback is taken:

- a) Feedback through LTIMindtree Client Satisfaction Survey Tool

We have a structured and user-friendly process of assessing the satisfaction level of clients through an online ‘Client Satisfaction Survey’ tool. The tool enables clients to rate the services of LTIMindtree across different categories like Project Execution, Quality, Communication, Culture and Value Delivered. This feedback is taken for each project every six months. In addition to project level, feedback is also taken at an account level, engagement level or individual employee level. The feedback obtained is analyzed and corrective actions are taken wherever required. These actions are also shared with the client.

- b) Account level through independent 3rd party consultant

In addition to the project level survey there is an annual Client Satisfaction Survey (‘CSAT’) done by a research-led independent consulting firm who administers the survey on LTIMindtree’s behalf. In this survey various levels of clients are covered, right from CXO, senior management to middle management level. As a part of this survey, CXOs of our key clients are personally interviewed and an online survey link is shared with all client participants to provide unbiased feedback. Through this survey, we measure the level of Client Experience we deliver to our clients through key parameters like Satisfaction, Loyalty, Advocacy and Business Value for Money.

To increase the visibility of actions to clients, three levels of communication is done for each engagement. L1 communication where client feedback is acknowledged and actions planned are validated, L2 communication where midterm progress on improvement actions is shared and L3 communication where closure of actions and value delivered is communicated. For LTIMindtree, this survey is a very important exercise for gathering insights from clients to improve their experience with LTIMindtree and for us to deliver amplified outcomes.

Independent Assurance Statement

Introduction

DNV Business Assurance India Private Limited ('DNV') has been commissioned by the management of LTIMindtree Limited ('the Company' or 'LTIMindtree' or 'Erstwhile Mindtree and Erstwhile LTI', Corporate Identification Number: L72900MH1996PLC104693) to undertake an independent assurance of LTIMindtree's Business Responsibility and Sustainability Reporting ('BRSR') disclosures (the 'Report') which shall form part of the Company's Business Responsibility and Sustainability Report FY 2022-2023 in its digital/online format. The disclosures in this Report have been prepared based on the requirements of SEBI Circular no. SEBI/HO/CFD/CMD-2/P/CIR/2021/562 dated May 10, 2021, prescribing format of the BRSR and the guidance notes and the nine principles of the National Guidelines on Responsible Business Conduct, 2019 ('NGRBC') of the Ministry of Corporate Affairs, Government of India. The intended user of this assurance statement is the Management of LTIMindtree ('the Management') and its stakeholders. Our assurance engagement was planned and carried out during May 2023 - June 2023 covering the Company's non-financial/sustainability performance during 1st April 2022 - 31st March 2023. We performed a limited level of assurance based on our assurance methodology, VeriSustain^{TM1}.

Responsibilities of the Management of LTIMindtree and of the Assurance Provider

The Management has the sole responsibility for the preparation of the Report and are responsible for all quantitative and qualitative information disclosed in the Report as well as the processes for collecting, analyzing and reporting the sustainability performance data presented in the Report. LTIMindtree is also responsible for ensuring the maintenance and integrity of its website and any referenced disclosures on sustainability performance. In performing this assurance, DNV's responsibility is to the Management of LTIMindtree; however, this statement represents our independent opinion and is intended to inform the outcome of the assurance to the stakeholders of LTIMindtree.

We do not provide any services to LTIMindtree which in our opinion constitutes a conflict of interest with this assurance. Our assurance engagements are based on the assumption that the data and information provided by the Company to us as part of our review have been provided in good faith and are free from material misstatements.

Scope, Boundary and Limitations

The reporting scope and boundary encompasses economic, environmental, social and governance performance data of LTIMindtree operations, that is, economic and social performances data pertain to global operations except third party assessment of health and safety practices and environmental performances data are limited to India operations as brought out in Section A: General Disclosures of the BRSR.

The assurance engagement considers an uncertainty of ±5% based on materiality threshold for estimation/measurement errors and omissions. We did not engage with any external stakeholders as part of this assurance engagement.

During the assurance process, we did not come across limitations to the scope of the agreed assurance engagement. The reported data on economic performance, expenditure towards Corporate Social Responsibility (CSR) activities, and other financial data are based on financial statements prepared by LTIMindtree and audited by its statutory auditors which is subject to a separate audit process. We were not involved in the review of financial information within the Report.

Basis of our Opinion

As part of the assurance process, a multi-disciplinary team of sustainability specialists performed assurance work for all sites of LTIMindtree. We adopted a risk-based approach, that is, we concentrated our assurance efforts on the issues of high material relevance to LTIMindtree's business and its key stakeholders. We carried out the following activities:

- Reviewed the approach to stakeholder engagement and materiality determination process and its outcomes as brought out in the Report.
- Conducted interviews with selected representatives responsible for management of sustainability issues and implementation of the NGRBC Principles and carried out reviews of selected evidence to support topics and claims disclosed in the Report. We were free to choose interviewees and interviewed those with overall responsibility to deliver LTIMindtree's overall sustainability objectives.
- Carried out onsite verification of sustainability performance data and sample evidence related to the all offices of LTIMindtree Limited to review the processes and systems for aggregating site-level sustainability information, as well as overall aggregation and consolidation of data from sites by the sustainability team at the Corporate Office at Powai, Mumbai in Maharashtra as listed in Annexure I.

¹ The VeriSustain protocol is based on the principles of various assurance standards including International Standard on Assurance Engagements 3000 (ISAE 3000) Revised (Assurance Engagements other than Audits or Reviews of Historical Financial Information) and the GRI Principles for Defining Report Content and Quality, international best practices in verification and our professional experience; and is available on request from www.dnv.com

- Reviewed the process of reporting on BRSR requirements including Section A: General Disclosures, Section B: Management and Process Disclosures, and Section C: Principle-wise Performance Disclosures.
- Carried out an assessment of the processes for gathering and consolidating performance data related to the NGRBC Principles and, for a sample, checked the processes of data consolidation to assess the Reliability and Accuracy of performance disclosures reported based on BRSR requirements.
- Verification of the data consolidation of reported performance disclosures in context to the Principle of Completeness as per VeriSustain for a limited level of verification.

Opinion and Observations

Based on the assurance undertaken, nothing has come to our attention to suggest that the Report together with referenced information does not adhere to the requirements of BRSR including the General Disclosures, Management and Process Disclosures, and Principle-wise Performance Disclosures.

Without affecting our assurance opinion, we provide the following observations against the principles of VeriSustain:

Materiality

The process of determining the issues that is most relevant to an organization and its stakeholders.

The Report explains the process of materiality determination which has been carried out by LTIMindtree towards identifying material topics which are significant to its business and have been considered important to the Company and its stakeholders, based on the National Guidelines on Responsible Business Conduct (NGRBC) for Business Responsibility and Sustainability Reporting Standard (BRSR), Section A: General Disclosures - Overview of the entity's material responsible business conduct and sustainability issues. Key ESG risks, stakeholder requirements, expectations and impact of expectations were taken into account while arriving at overall topics which were further prioritized to arrive at eleven (11) material topics. The Report brings out the broad range of issues which the Company has identified as being material to its business which are mapped as risks and opportunities, along with the rationale for considering the issue as being material.

Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Materiality.

Stakeholder Inclusiveness

The participation of stakeholders in developing and achieving an accountable and strategic response to Sustainability.

The Report brings out the engagement platforms and systems which have been established for identifying key stakeholder concerns and expectations. The Company has identified customers, employees, communities & NGO's, suppliers, investors & shareholders, government & regulatory bodies, academic institutions, industry bodies and media as its key stakeholder groups. LTIMindtree identifies and prioritizes its formal and informal processes for engagement with its significant stakeholders based on significance of actual and potential impacts of the Company's activities, and these processes are brought out within the Report, along with the identified expectations and concerns of stakeholders.

Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Stakeholder Inclusiveness.

Responsiveness

The extent to which an organization responds to stakeholder issues.

The Report articulates LTIMindtree's responses to its identified material topics through key sustainability indicators in line with the requirements of NGRBC Principles, as well as descriptions of the Company's management approach, policies and strategies, and initiatives, reporting and data tracking processes which are part of its overall ESG Management Framework.

Nothing has come to our attention to believe that the Report does not meet the requirements related to the Principle of Responsiveness.

Reliability

The accuracy and comparability of information presented in the report, as well as the quality of underlying data management systems.

The Report explains LTIMindtree's processes and procedures towards tracking its data and capturing, analyzing and reporting sustainability performance data related to each Principle of NGRBC, as well as audits and reviews towards ensuring the accuracy and completeness of data, and adherence to procedures. The majority of data and information verified through our onsite assessments and reviews with LTIMindtree's teams were found to be accurate and reliable. Some of the data inaccuracies identified during the verification process were found to be attributable to transcription, interpretation and aggregation errors and the errors have been identified, communicated and corrected.

Nothing has come to our attention to believe that the Report does not meet the principle of Reliability.

Completeness

How much of all the information that has been identified as material to the organisation and its stakeholders is reported?

The Report brings out LTIMindtree’s sustainability performance during 2022-23 for the identified scope and boundary of identified material topics considering the requirements of the nine NGRBC Principles, that is, the Company’s economic, environmental and social performance related to its operations. LTIMindtree may further strengthen its processes towards capturing and reporting information and data related to certain Leadership Indicators of Principle-wise Performance Disclosures in future reporting periods.

Nothing has come to our attention to suggest that the Report does not meet the Principle of Completeness with respect to scope, boundary and time.

Neutrality

The extent to which a report provides a balanced account of an organization’s performance, delivered in a neutral tone.

The Report brings out LTIMindtree’s sustainability performance during the reporting period in a neutral tone in terms of content along with descriptions of key risks and opportunities during the reporting period.

Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Neutrality.

Statement of Competence and Independence

DNV applies its own management standards and compliance policies for quality control, in accordance with ISO IEC 17021:2015 - Conformity Assessment Requirements for bodies providing audit and certification of management systems, and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

We have complied with the DNV Code of Conduct² during the assurance engagement and maintain independence where required by relevant ethical requirements as detailed in DNV VeriSustain. This engagement work was carried out by an independent team of sustainability assurance professionals. DNV was not involved in the preparation of any statements or data except for this Assurance Statement, Assurance Statement for the Sustainability Report 2023 and Management Report. DNV maintains complete impartiality toward stakeholders interviewed during the process. We did not provide any services to LTIMindtree in the scope of assurance during FY 2022-23 that could compromise the independence or impartiality of our work.

INTERNAL CONTROL SYSTEMS AND ADEQUACY OF INTERNAL FINANCIAL CONTROLS

Your Company has an Internal Control System in accordance with Section 134(5)(e) of the Act, commensurate with the size, scale and complexity of its operations. The Audit Committee comprising of professionally qualified Directors, interacts with the auditor, internal auditors and the management in dealing with matters within its terms of reference.

The Company has a proper and adequate system of internal controls. These controls ensure transactions are authorized, recorded and reported correctly and assets are safeguarded and protected against loss from unauthorized use or disposition. In addition, there are operational controls and fraud risk controls, covering the entire spectrum of internal financial controls within the meaning of the Act. An extensive program of internal audits and management reviews supplement the process of internal financial control framework. Documented policies, guidelines and procedures are in place for effective management of internal financial controls.

The internal financial control framework design ensures that financial and other records are reliable for preparing financial and other statements. In addition, the Company has identified and documented the key risks and controls for each process that has a relationship to the financial operations and reporting. At regular intervals, internal teams test the identified key controls. The Internal auditors also perform an independent check of effectiveness of key controls in identified areas of internal financial control reporting. The Statutory Auditors' Report include a report on the internal financial controls over financial reporting.

In order to maintain objectivity and independence, Internal Auditor reports to the Chairperson of Audit Committee of the Board. The Audit Committee defines the scope and authority of the Internal Auditor. Internal Auditor monitors and evaluates the efficacy and adequacy of internal control systems in the Company, its compliance with the operating systems, accounting procedures and policies at all locations of the Company and its subsidiaries. Based on the report of Internal Auditor, process owners undertake corrective action in their respective areas and thereby strengthen the controls. Significant audit observations and necessary corrective actions are presented to the Audit Committee.

The Audit Committee and the Board are of the opinion that the Company has sound Internal Financial Control commensurate with the nature and size of its business operations and operating effectively, and no material weakness exists during FY23.

Information on conservation of energy, technology absorption, foreign exchange earnings & outgo as per Section 134(3)(m) of the Companies Act, 2013 read with Rule 8(3) of the Companies (Accounts) Rules, 2014

A. CONSERVATION OF ENERGY

(i) Steps taken or impact on conservation of energy:

Your Company is dedicated to promoting a sustainable future by implementing responsible and eco-friendly practices. We have incorporated our commitment to the environment and society, into the Company's business operations to ensure sustainable growth. Our approach involves continuously monitoring, measuring, and controlling the environmental impact of the Company's initiatives across all the facilities, to minimize our ecological footprint.

As a responsible entity, we strive to reduce our carbon footprint and promote sustainable practices throughout the Company. Our sustainability strategy emphasizes environmental responsibility, climate protection, and optimizing the use of natural resources by maximizing resource efficiency. The Company believes that the environment directly impacts the health and well-being of every stakeholder in the value chain, and therefore, we are committed to reducing our impact and promoting positive environmental practices wherever possible.

Our approach to energy efficiency involves two strategies: promoting behavioural changes among our associates to encourage energy conservation and smart management of lighting, heat ventilation, and cooling, and integrating energy efficiency into our overall operations through design considerations and operational practices. We prioritize energy efficiency throughout our processes, from effectively utilizing our energy sources to reducing our carbon emissions and waste. We continually monitor our energy consumption to ensure efficient resource management. Preserving fresh water is a vital component of our corporate social responsibility, and we continually strive to reduce our impact on the community by adopting sustainable practices. To achieve this, we have integrated the Reduce, Reuse, and Recycle (3R) approach into our operations to ensure minimal freshwater usage.

(ii) Steps taken by the Company for utilizing alternate sources of energy:

We have committed to make our operations run through 85%+ renewable energy by the year 2030. In the FY23, 52.07% of electricity requirement for our India operations is met by renewable resources. We are constantly working with partners & governments in various states to increase our electricity requirement from renewable resources. We also have provided EV charging station in few of our facilities to encourage employees to move toward E-vehicles.

Continuous focus on reduction of our energy consumption, adopting clean energy, containing emissions through multiple initiatives, form key components of our strategy. Sustainable procurement, sustainable infrastructure and automating resource tracking add to our commitment.

To reduce our environmental impact, we have improved the standard of our buildings by making them green buildings, while also focusing on employee health and productivity. With greener buildings, we are able to conserve resource and enhance and protect the local eco-system and encourage bio-diversity in the environment. In phased manner, we are ensuring all our facilities are certified for green buildings.

Key water neutral targets - Water positivity by 2030.

(iii) Capital investment on energy conservation equipment:

Total capital investment in FY23 - ₹40.4 Mn

Energy conservation programs:

- Replacement of T5 Lights by LED Lights
- Optimization of UPS
- Installation of motion sensors
- Replacement of old AC units with energy efficient units
- Installation of Variable Frequency Drives (VFD)
- Installation of APFC and AHF Panels

Water conservation programs:

- Installation of efficient water aerators
- Installation of water-less urinal commode in restrooms
- Installation of air-water system
- Rainwater harvesting and rainwater earth charging

Waste management:

- Combination of waste reduction, waste segregation, recycling, on-site composting and incineration
- Switched from disposable to reusable tableware and cutlery items
- All our packed water bottles for meetings and conferences were replaced with glass bottles
- We have replaced all our garbage covers with bio-degradable covers
- Plastic dustbins were replaced with steel bins and plastic dustbins were reused as pots for growing plants

Emission reduction:

We have installed Retrofit Emission Control System (RECD) in a Diesel Generator (DG) with a capacity of 500 kVA, resulting in 83% reduction in particulate matter and 87% reduction in carbon monoxide.

B. TECHNOLOGY ABSORPTION AND RESEARCH & DEVELOPMENT

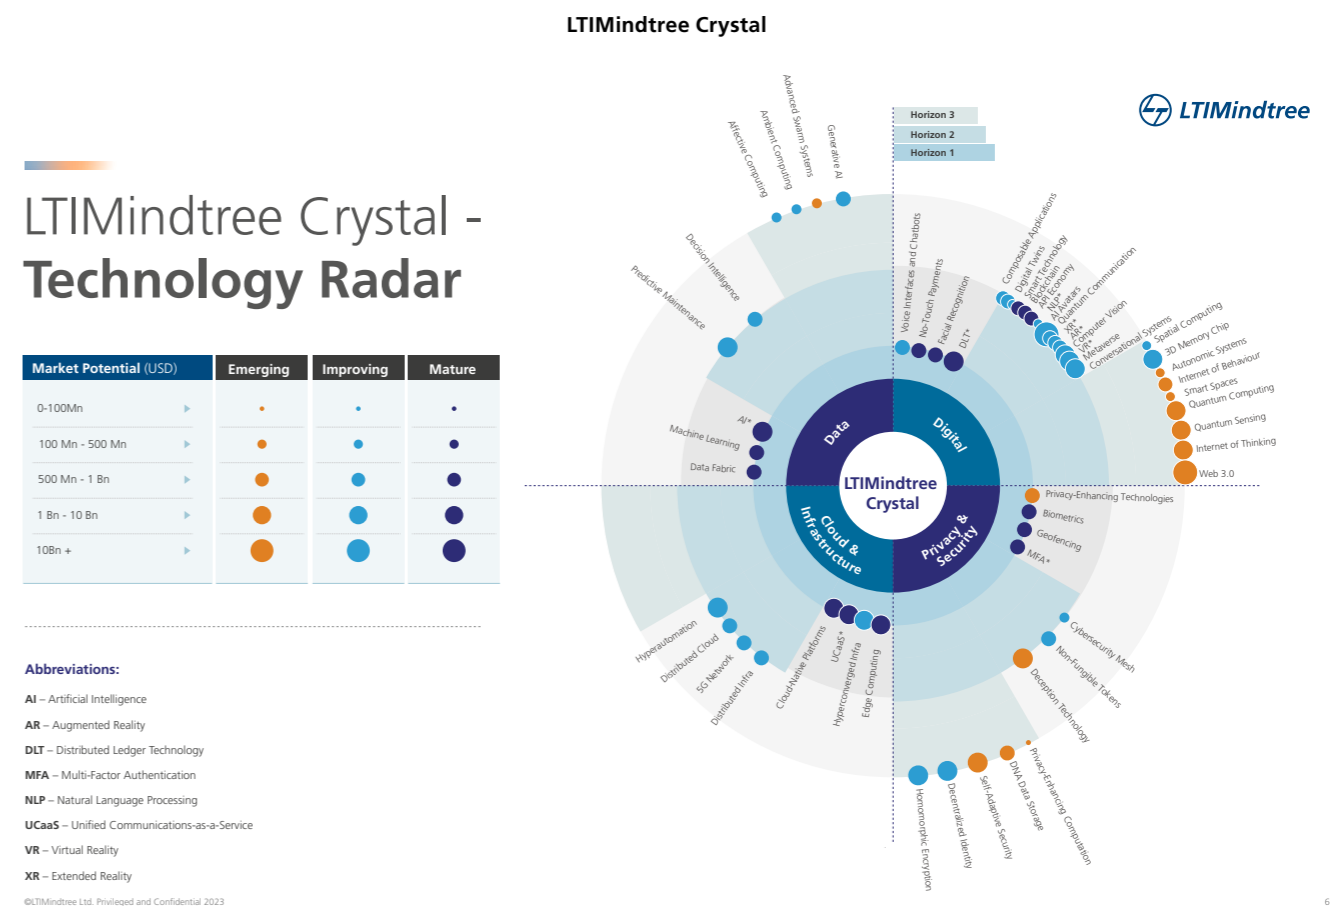

(i) Efforts made towards technology absorption; and

(ii) Benefits derived like product improvement, cost reduction, product development or import substitution:

Introduction

Your Company is at a tipping point of human evolution, at the cusp of a paradigm change led by Artificial Intelligence (AI), decentralization, and the cloud, which will completely transform the future of the entire digital ecosystem. LTIMindtree has always strived to leverage its capability in diverse domains and is also continually investing in building expertise in exponential technologies. While last year, the areas identified were Metaverse, Cloud, Analytics, Industry 4.0, AI and Automation, this year has witnessed an exponential deep dive where we were able to identify dependent technologies that would take us further into the areas already identified last year. For example, for Metaverse, investing in Web3 & decentralization, mixed reality, Generative AI, Spatial Technologies, IoT for Smart Spaces is imperative. Quantum Technologies, AI-driven Automation, and focus on ML and LLMs are other examples we have identified for our absorption roadmap.

This list results from a rigorous evaluation process, which has been implemented as a platform-assisted framework, LTIMindtree Crystal. The real-time tracking of technology absorption has enabled us to classify technologies under three categories: evolving/expanding immersive experience, accelerated AI automation and optimized technology delivery. We have also included our increasing efforts in adopting quantum technologies.

With our spirit of Ubuntu and the Shoshin culture, LTIMindtree strives to be at the forefront of ushering in a new order propagated by this change. LTIMindtree continues to pioneer solutions in this converging world through LTIMindtree Crystal, to help push the frontiers of innovation by bringing 'Beyond-the-Horizon' technologies to the fingertips of all who are associated with us.

LTIMindtree Crystal is curated by an inclusive team of technology experts and scouts, ensuring that the daunting technologies and trends are demystified and simplified to a level where uniform parameters that range the horizon to the market potential and their adoption phase can be derived and rated. In order to better resolve the challenges faced when deciding on technologies to absorb, we built a horizon-to-mainstream incubation and industrialization funnel to build solutions. A deep point of view follows in collaboration with academics, partners, and industry experts. Through the LTIMindtree Crystal technology radar, LTIMindtree has identified 62 beyond-the-horizon technologies and more than 18 trends for evaluating potential candidates.

The Global Technology Office consisting of platform development experts and tech evangelists has been working together to bring hyper-automated solutions to fruition. This helps us to explore more use cases and opportunities that enable us with a competitive edge led by constant innovation.

Evolving/expanding immersive experiences

Web 3 and Blockchain

Web 3 has recently caught on attention with the paradigm of 'Consumer Driven Internet' gaining popularity. While the definition of Web 3 remains hazy and loosely defined, we believe that the idea of Web 3 rests on fundamental enablers like decentralized or federated platforms, secured interoperability, and verifiable computing through the implementation of distributed ledger technologies. Web 3 offers many monetization opportunities for the creator economy, which makes it a promising trend. NFTs, cross-border payments through crypto-currencies, verifiable asset access through blockchains, and decentralized applications have emerged as technologies and platforms in their rights, fuelling the growth of what will potentially emerge as what we call 'The Semantic Web'.

LTIMindtree has set up a dedicated unit for Web 3 under the Global Technology Office to service incubation and industrialization needs in this area. This dedicated unit brings together technical capabilities on Blockchain, NFTs, Crypto, 5G & Edge, Hybrid Cloud, Secure Computing, AI/ML, and AR/VR, thereby packaging these capabilities under integrated development. The unit focuses on co-innovation, implementing use cases for our clients, and providing advisory services. As part of GTM strategy, several of our Web 3 experts are actively involved with our clients helping them understand the paradigm and use cases within their ambit. Your Company has already incubated 'NFT Bazaar' where users can trade NFTs backed by crypto-currency settlements.

Augmented Reality (AR) & Virtual Reality (VR)

LTIMindtree has adopted multiple new technologies and tools like Point clouds, Open3D, ML (ONNX runtime), generative AI-based digital human interactions, Apple vision, real-time facial motion tracking, hand tracking, and gesture recognition, open CV, AR foundation, P2P WebRTC-based video calling and annotation, Three.js, WebXR, inverse kinematics, ray-casting, 3D model targeting, Microsoft speech service, neural voices, Spatial.io, etc.

Consumer journey solutions

Creating powerful, meaningful, and thoughtful customer experience becomes crucial in an age where technology powers how we interact with brands. LTIMindtree has built customer journey solutions that inspire, acquire and continuously engage customers through AR and VR.

Inspired marketing includes solutions like the AR Visualizer App for virtual painting and visualization of your home, AR digital magazines that bring static ads to life, 3D / 360-degree virtual tours, an AR touchless menu app, and virtual product exhibitions. For sales and customer acquisitions, we have built solutions like a virtual marketplace for meta-commerce, AR Retail that enables product scanning to find the right ones for you, immersive interaction with products (perfumes, electronics), and immersive product trials (eyewear, cosmetics). For continuous engagement of customers, LTIMindtree has enabled AR training of users on product features & usage, and virtual banking & wealth management.

LTIMindtree solution accelerators include:

- 3D Asset Lib (Prefab portal) reusable 3D assets for quick 3D scene creation
- Digital human-based training platform
- Simulation-based training platform
- 360/3D virtual tour platform
- Remote Assistance Platform – Video calling with annotation using WebRTC
- Virtual Market Place – Metacommerce
- Virtual Event Platform
- Real-time region detection algorithm – Detection of the wall for painting
- Color blending algorithm – Painting of walls with shadow retention
- Point Tracking for retention of real-world colors
- Automated blend shape assignment for digital humans (Avatars)

LTIMindtree has developed a Next Generation Digital Warehouse Solution that utilizes Oracle SCM Cloud Application and mixed reality technology. This innovative solution enables paperless operations, superior employee experiences, and end-to-end process automation, enhancing warehouse operations' efficiency & productivity.

Geospatial technologies

Geospatial technologies are technologies identified for handling real-world location problems. LTIMindtree geospatial solutions are based on a map platform that integrates geospatial data from multiple sources, converts that data into actionable insights, and disseminates that information through enterprise GIS dashboards. Whether keeping construction projects on schedule, maintaining worker safety, or optimizing civil infrastructures, geospatial solution provides the precision and control needed to drive optimal outcomes. Geospatial solutions intelligently integrate data from a wide range of advanced locational technology sources, including Global Navigation Satellite Systems (GNSS), Light Detection and Ranging (LiDAR), drones, RADAR, and other 3D scanning technologies, and all desktop and enterprise geographic information systems (GIS). The selective and strategic integration of multiple data sources results in a more accurate understanding of the realities of structures and terrains. In addition, these information-rich powerful maps and reports show historical changes, recent shifts, and real-time surveys to provide users with a complete picture of events surrounding their key projects or assets.

GeoSpatial technologies offer a multitude of benefits that include a 10-15% reduction in conflicts using GeoBIM, increased positional accuracy (2 cm to <1 m) in outdoor & indoor projects, >95% material utilization, and 20% increased collaborative working environment using Digital Twins.

Bluetooth technologies

Bluetooth has become the de-facto standard for connected devices.

LTIMindtree provides ultra-low-power Bluetooth IP and solutions licensed by leading semiconductor and OEM companies to create power-efficient, intelligent and connected devices. IoT has created significant demand for connectivity IPs, including for devices such as smart earbuds, wearables, health monitors, smart speakers, and smart home appliances. LTIMindtree's Bluetooth IP customers span a wide range of end markets, including consumer, automotive, industrial, and medical, and they have shipped hundreds of million of devices with LTIMindtree Connectivity IP.

As a member of the Bluetooth Special Interest Group (SIG) consortium, LTIMindtree is a key contributor to the development of Bluetooth technology specifications. By licensing rather than developing these technologies in-house, our customers can go to market faster with the latest technology while simultaneously saving on significant R&D costs.

The Profile Tuning Suite (PTS) software provided by the Bluetooth SIG, guarantees that all Bluetooth products comply with the standards and ensure interoperability. The PTS tool is created using EtherMind Bluetooth Host Stack from LTIMindtree.

With a comprehensive range of connectivity solutions that includes Bluetooth IP, 802.15.4 (MAC for Zigbee, Matter), audio codecs like LC3, and Bluetooth Mesh for smart lighting, we help organizations innovate and address the growing demand for smarter, connected devices. As a result, LTIMindtree is well-positioned to continue its market leadership position in embedded short-range wireless connectivity.

Accelerated AI Automation

Data, Analytics and Cognitive

LTIMindtree has invested in building multiple key value assets across the data value chain. A few of them are listed below:

Data On Cloud (Modernizing data ecosystem using software engineering)					
<p>Polarsled Simplifying & accelerating adoption of snowflake by leveraging pre-built utilities</p> 	<p>Scarlet Pre-built data utilities across AWS redshift platform to ease adoption</p> 	<p>Sunshine Intelligent cloud adoption migration to Azure data ecosystem</p> 	<p>Eureka GCP Smart Analytics using tools & utilities across data value chain</p> 	<p>Alcazar Unified data analytics and AI at scale using automated utilities and frameworks</p> 	<p>Data Mesh Data Mesh is new architecture paradigm which enables organizations to become Data Driven</p>

Data Science & AI					
<p>KenAI Mindful automation to accelerate AI/ML Journey across key cloud platforms. It brings in aspects like ML testing, Governance and model monitoring.</p> 	<p>REDAR AI-driven automated solution that powers e-commerce growth strategy with smarter and faster insights for a sustainable product portfolio</p>	<p>AI TradeSurveillance Anomaly Detection and Trade Fraud on Securities Trade Transactions</p>			

Fosfor

Fosfor suite enables enterprises to monetize data at speed and scale and delivers the promise of Data Commerce. The products help critical personas in the 'data-to-decisions' journey collect, curate and generate insights from their data. Fosfor enables data commerce through its integrated suite of three products, in data to decisions lifecycle.

- **Spectra** - A comprehensive Low Code-No Code platform to build data pipelines for a hybrid and multi-cloud world.
- **Refract** - An integrated machine learning platform for collaborative development of machine learning products across –model building, model validation, model deployment and monitoring.
- **Lumin** - A decision intelligence product purpose - built for business users to answer what, why, what-if, and how questions in natural language.

Some of the benefits we have realized

- Monetization of data assets 3x faster at 1/3 the cost with Spectra
- Optimized MLOps while reducing AI infrastructure costs up to 50% with Refract
- Lightning-fast answers to business queries with 2X user adoption and 80% savings in costly resources

Fosfor is a complete re-imagination of the data-to-decisions journey that brings method, speed and amplification to data monetization, what LTIMindtree defines as **Data Commerce for the Unlimited Enterprise**.

Generative AI

LTIMindtree, being one of the pioneers in this field has already been leveraging Generative AI through Digital Twins, Mixed Reality and Business Decision Intelligence. We have now shifted gears to make it possible to rapidly incubate custom solutions by leveraging on the emerging economy of accelerators, products, and platforms. LTIMindtree has already conceptualized ideas to implement Generative AI in huge transformation projects through AI-assisted DevOps taking the resultant model to No-Ops. Aspects like rapid code transformation, code generation, code review, testing, and deployment are some productivity enhancement initiatives being worked upon. In addition, LTIMindtree is working on a solution that utilizes Generative AI (ChatGPT), Analytics, AI Inferencing, and a unified customer communication hub to provide a single pane of glass to the financial advisors and a 360-degree digital user experience to the HNIs. LTIMindtree has generated creative assets like logos, banner, marketing campaigns etc., using ChatGPT and Dall-e and has edited existing creative assets using ChatGPT and Dall-e.

Generative AI capabilities are also being leveraged by our product Canvas to help deliver easily accessible insights for the SDLC personas. It is also being leveraged to deliver better construct of the test cases, user stories and other artefacts, which further enables better correlation and clustering of the various SDLC entities.

Cognitive Contact Center and Conversation AI

LTIMindtree has built innovative solutions in AI-led contact centre transformation that has NLP-based self-service, cognitive dashboards for agent, cognitive dashboards for supervisor, AI-led automated escalation with call quality analysis, analysis of interaction & sentiment, real time advisory, post call summary, next best action recommendation for agents, smart search and optimized SOTA model. Automation solutions include CAI DevOps, CAI Test automation and Bot performance monitoring automation.

Key solution accelerators built include:

- **Agent assist:** Improve agent experience and productivity by making use of AI to help agents in real-time when they are on the call
- **Supervisor assist:** Help supervisors improve aspects of the businesses that were hard to improve previously due to prohibitively high costs (e.g., QA for every call)
- **Automated Feedback:** Automate the entire feedback process by using Voice bots. Gain insights into consumer behavior by extracting information that matters
- **Real-time call summarization:** This AI/ML pipeline will increase the availability of agents by generating the summary for the calls with a complete pipeline execution time of under ten seconds
- **ChatGPT-based digital human:** Enable ChatGPT-based solution on Avatar-based system to enrich the digital human experience

Industry 4.0

We have been accelerating our capabilities to help our clients achieve Digital Transformation powered through **connected, intelligent and sustainable** solutions. We are bringing these solutions to life from edge to experience leveraging the ecosystem of Mind, Material, Machines and Location for disruptive business outcomes. We help our customers to Rethink, Reimagine and Reinvent their business and accelerate transformation at a scale for a more Connected, Intelligent, and Sustainable Future.

Our bouquet of solutions, platforms, and industry products across asset management, worker productivity, track-n-trace, geospatial technologies, analytics, and ESG are helping enterprises accelerate to a connected, intuitive, and sustainable future. These include solution spaces like:

- **Industry X.0 Transformation:** Industrial Automation and Transformation powered by our IXC (Industry X.0 Canvas) framework
- **Connected Products:** Digital product engineering, combining physical, digital and virtual spaces. This includes onboarding IoT devices, data acquisition & integration of different data sources (engineering design, PLM (Product Lifecycle Management), ERP, asset management etc.) in a contextualized manner to create asset digital twin for remote asset monitoring, predictive maintenance, automated regulation, and cognitive assistance
- **Connected Supply Chain:** Competencies around the Supply Chain Control Tower, and Resilient Supply Chains
- **Smart Spaces:** Putting employees at the heart of the connected transformation. This includes onboarding the different components of building systems HVAC (Heating, Ventilation & Air Conditioning), lighting systems, sewage and water treatment plant, air quality, security access, DG sets, solar etc.) on one single platform for real time monitoring. Powered by Digital Twin and data driven insights, it helps organizations to optimize energy consumption, reduce carbon footprints and enhance the end user experience
- **ESG:** Creating circular economies with sustainability built in. This is bootstrapped by our product ESG Nxt covering Scope 1, 2 and 3 reporting and planning the path to Net Zero
- **Smart Utilities:** LTIMindtree provides utility companies with solutions that improve operations and customer experiences. We offer services for Smart Customer Information Systems, optimizing customer journeys, and improving Meter to Cash processes. LTIMindtree uses a range of technologies, including Oracle CC&B accelerators, and LTIMindtree PolarSled for migration to Snowflake. Our solution has positively impacted utility companies, such as automating customer contact creation, improving customer experiences, and implementing revenue-generating programs

We have bootstrapped these solutions for Industry specific needs. This is backed by technology capabilities across sensor and gateway design, Networking including 5G, IoT Middleware and Data Platforms, Edge AI and Analytics, Industrial Metaverse covering AR/VR and Mixed reality, Industry Platforms with the likes of Siemens, Dassault etc. and finally backed by our own Product Suite of NxT products. The NxT product is bootstrapped for industry specific needs across Manufacturing, Mining, Construction, Health, etc. It has already connected more than 12,000 equipments, connected more than 2,50,000+ workers, managed 6,900+ GPS-enabled vehicles, etc.

Optimized technology delivery

Canvas 2.0

Canvas 2.0 platform enables Insights Fueled Software delivery Acceleration' by correlating end-to-end SDLC assets and delivering AI/ NLP-nudged actionable insights to empower software personas. Canvas addresses the growing latent need to leverage AI for insights-led decision-making to improve productivity.

Canvas' Knowledge Fabric Creation – Canvas' uniqueness is its innovative approach to clustering and correlating SDLC Knowledge Fabric starts with:

1. **Collect:**
Canvas collects data across SDLC cycle - such as user stories, test cases, defects, code repository, APM logs, and more
2. **Correlate:**
It then correlates and weaves a rich knowledge fabric from these data assets by uniquely applying AI techniques NLP on unstructured data assets and other deterministic (sessions tracing) techniques on source code to build end-to-end correlated Knowledge Fabric.
3. **Accelerate:**
It enables robust and secure applications to be delivered faster while delivering real improvements in terms of Code Quality, Delivery Velocity, and Application Resilience.

This correlated knowledge fabric of SDLC entities allows software delivery personas like Product Owners, Scrum Masters, Developers, Quality Engineers, Site Reliability Engineers, and Operations engineers to understand the correlation between SDLC assets, and patterns based on historical data and be highly productive in decision making. **LTIMindtree has applied for patent for this unique approach.**

Value delivery to clients via ML/LLMs

While the platform is constantly evolving, there is a consistent focus on solving key challenges for the clients through-

- Delivering 10X faster change impact analysis and correlating SDLC assets to overcome high dependency on SME.
- Optimized test suite for each source code committed reducing 30-40% effort in regression testing.
- Contextual insights from similar defects and reducing the time required for defect lifecycle and multiple reopened defects by >60%.
- Providing situational insights for engineering personas to deliver first-time-right user stories and reduce defect injection by >15% to overcome high defect injection in each sprint.
- The Knowledge Fabric can be used by all IT personas to gain insights across the SDLC phases of Transition | Onboarding | Collaboration| Development | Quality & Resilience Engineering| Operations and Empowering the team to be Smarter, Faster, and Applications more resilient.

Market recognition and awards

BIG Artificial Excellence Awards 2023: Canvas was recognized in three categories at The Business Intelligence Group's Artificial Intelligence Excellence Awards 2023 for pattern recognition, natural language processing (NLP), and knowledge management.

Watts Humphrey Awards 2022: Canvas was selected as 1st Runner Up in the prestigious "Watts Humphrey Awards 2022"; which received 70+ nominations from multiple IT organizations. Canvas nomination was in the 'Innovation Product & Framework' category

L&T PI Awards 2022: Canvas shortlisted for final round out of 400 entries for PI (Process Innovations) Awards 2022 – a pan L&T Group Awards to recognize, reward and provide visibility to innovative solutions

Avasant: Canvas recognized as Innovator in Avasant's Radarview for Digital Workplace Services

ISG: Canvas is positioned in ISG Provider Lens for 'Future of Work' services and solutions.

CosmosQE Platform

A next-generation, AI/ML-led platform with value solutions contributing across the life cycle to deliver quality, efficiency, and cost optimization. The platform offers integrated delivery of services across an enterprise's quality engineering life cycle and rich collaboration.

CosmosQE - Value Solutions

- qWikeye - Reporting and dashboard for a single view of quality
- qAutomate – AI-Powered autonomous automation
- qData- Automated Data Intelligence
- qResilience – Chaos engineering enabling early performance quality engineering within sprints and CI/CD pipeline
- qCx – AI-driven digital experience (Total experience - personas-based experience benchmarking)
- qOrchestrate - Life cycle orchestration
- qBOTS - Intelligent transactions & execution
- qWorkplace – Release orchestration with one-click provisioning of environments

CosmosQE promises significant reduction in TCO through:

- Automation enablement across delivery life cycle by 90%
- Reduction in pre-requisite management efforts by approximately 30%
- Re-usability of assets through templatized strategy by 65%
- Acceleration in the testing delivery lifecycle by 15-20%
- Reduction in the critical path to deployment by 25-30%
- Increase in pipeline efficiency by more than 35%
- Reduction in defect injection by 15-20%
- Reduction in an overall cost of quality by 30-40%

Cloud Computing

Cloud Transformation

Cloud is at the center of delivering business value to enterprises across the globe through multiple business transformation and operational optimization initiatives. LTIMindtree helps global enterprises in their transformation journey with strategy anchored on following four core themes:

1. **Focus on purpose:** Tying back cloud transformation programs to business value and outcomes using our North Star industry blueprint
2. **Platform enabled speed:** Speed and consistency of delivery across the cloud lifecycle and workloads using Infinity, LTIMindtree's unified cloud transformation platform and Joritz platform for seamless multi-cloud operations

3. **Expertise for outcomes:** Ensuring customer success in engagements through investments and scaling of certifications, competencies, and industry domain expertise
4. **Alignment with partners, globally:** Collaboration and joint planning across accounts, industries, regions, and competencies across the globe through dedicated organizational units for AWS, Azure and GCP

LTIMindtree has made significant investment in creating platforms for delivering cloud transformation at speed.

- **Infinity (Cloud lifecycle Platform):** End to end platform to enable capabilities across cloud with integrated business north star across lifecycle including assessment, migration, modernization, DevSecOps, observability, cloud operation and sustainability through cloud. Infinity Cloud platform is a combination of multiple sub platforms and atomic efficiency kits to enable faster adoption of cloud and an intelligence layer helps enterprises get the right insights into their cloud ecosystem. We recently launched new solutions under Infinity platform around carbon footprint calculation, actionable business observability, rapid containerization, and automated refactoring to augment existing capabilities. We are continuing to enhance infinity by building advanced intelligent capabilities leveraging AI and generative AI.

- **Canvas AIOps (Digitized Hybrid Cloud Operations Platform):** Converges and digitizes all the parts of hybrid cloud operations like tools, practices, people, and governance into a single system with a core AI engine to transform people centric operations to BOT centric operations. Key capabilities of this platform include event correlation, AI recommended resolution of tickets, cause analyser. This platform enables engineers to stay in single window to perform all operation tasks and perform manual activities securely with inbuilt secured gateway. This platform not only enables intelligent automation but also brings in operational performance insights, improved regulatory compliances, and easier security audit.

Hybrid multi-cloud management

It has become imperative for underlying modern technology platforms to be architected on a multi-modal eco-system. However, this leads to complexities where our clients cannot realize the full value of transformation. The dimensions and needs impacting our clients are service delivery framework which is experience-led, and business aligned, an operating model which can anticipate-to-change, operate-to-evolve and operate-to-transform, business-aligned right digital core (i.e., Public, Private, Hybrid or Multi-Cloud) and harmonization of technology products, asset convergence to unlock cost synergies and drive compliance.

Experience-First, Customer Experience Management: LTIMindtree has designed a comprehensive Customer Experience Management framework and has established foundational services focused on multi-cloud networking, SASE, NetSecOps, and next-gen customer contact centre. The focus is on the experience value chain spanning various user journey stages and associated touch points. With experience observability, AI, and analytics, it will bring in predictability and steer the consumer-oriented experience-focused service delivery. AI/ML combined with capabilities and experience in IoT, Edge Computing, AI, Data Analytics, and Service Management, enable providing personalized experiences to clients and understanding of behavior patterns of consumers. This would set up the foundation for LTIMindtree to emerge as a leader in the Internet of Behaviors (IoB).

- **Full Stack Digital Operations (FSDO):** FSDO supports clients to build on a business-centric technology operating model which enables organizations to thrive in the dynamic environment by driving synergies between the state of continuous transformation (the 'Change') and Keeping the Lights-On (the 'Run') efficiently through:
 - **Platformization of delivery:** Through continual value discovery, hyper-collaboration, and harmonization of tech products in the ecosystem to realize full value of transformations supported by LTIMindtree 'Cloud Xperienz' environment/dataset agnostic digital platform.
 - **Adopting an integrated service delivery approach:** LTIMindtree's SAID (SRE, Agile, IaC & DevSecOps), drives symbiosis across multi-modal ways of working integrating Product and Infrastructure teams to accelerate service delivery and transformations supported by LTIMindtree Canvas Resilience.
- **'Embedded Governance' for enabling right decisions at speed:** For achieving the right balance between centralization and decentralization, it is essential to build a governance model which accelerates innovation, while ensuring compliance, regulatory & regional specificities. This is supported by 'Infinity Cloud' for end-to-end cloud solutions and service platform to deliver integrated business 'north star' and deliver capabilities across cloud lifecycle covering assessment, migration, modernization, DevSecOps, observability, cloud operation, and Sustainability.
- **Digital asset convergence:** Optimizing the value and use of an organization's digital assets while minimizing risks and cost to ensure compliance with usage norms, software licenses, and associated regulations.

Our Digital ITAM services cater to all aspects (policy, process, and tools) of IT and OT asset lifecycle management, harvesting & optimizations, and disposals as per ESG norms.

Automation

Our constant measures towards automation, industrialization and continuous investments in these areas have yielded positive outcomes. Listed below are some of the highlights:

- Received global patent for Guided ticket resolution (Component of Canvas AIOPS Platform)
- Recognized as a 'Leader' by key analysts for 'Intelligent Automation Solution/Service Provider' (ISG) and 'Cognitive & self-healing IT infrastructure services' (Nelson Hall)
- Industrialized framework, 'AUTOGRIT' for IT Automation (received TM in India and UK)

- Platforms (BRAIO Orchestrator, OPSight, automated proactive problem management, intelligent Secure gateway solution) that have also gone live in multiple clients as part of the 'BIG Foot transformation program'
- 9 intelligent automation point solutions (e.g., email classifier, intelligent runbook executor)
- 39 clients ready for AIOPS/ITPA/RPA automation
- Autonomous Automation Platform for CRM – A one click low-code automation solution developed using Tensor flow & BERT algorithm for validating end-to-end business flows covering UI, integrations (APIs) & data which includes IOT Validator, performance trending and self-healing automation
- Touchless ERP that leverages Oracle Cloud Applications and Robotic Process Automation (RPA) to deliver an entirely automated, touchless, and frictionless ERP experience
- 1300+ BOTs have gone live across multiple clients (Overall 1400), and 6 BOTs have gone live in SNOW Marketplace
- Realized 68% productivity improvement and 25% reduction in Mean time to Repair ('MTTR')
- Reskilled 13,000 Lateral associates and 80% of new Campus hire associates (4000+)

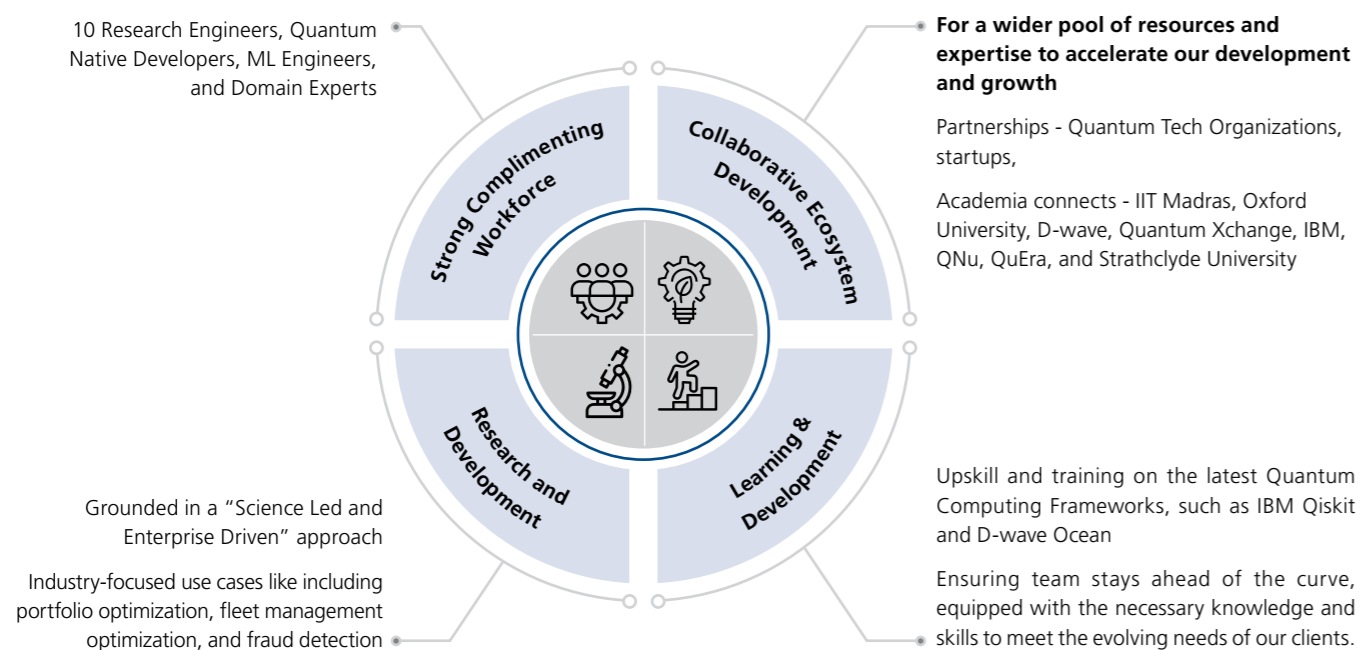

Quantum Technologies

Quantum Technologies have been causing vibrations in every realm of society, pushing businesses and companies to pave the way for building and integrating Quantum. Quantum Technologies hold the potential to exponentially accelerate the speed of the finest supercomputers, improve the security of communication systems, and improve the precision of measurements that are currently in use.

LTIMindtree is developing multiple solutions enabling a business to get the 'Quantum Advantage' over existing traditional systems. As part of this journey, LTIMindtree has embarked on various initiatives.

In FY23 LTIMindtree hosted its first-ever event on 'Solving with Quantum'. A 2-day event held in Chennai saw the best minds in Quantum Technologies across LTIMindtree, industry, and academia come together on a single platform to share their perspective. With the immense potential that Quantum Technologies have, LTIMindtree wants to bring this power to the common man by solving for society using Quantum Computing. With this core objective, an 'Industry-Academia Conclave' was organized at the Indian Institute of Technology, Madras (IIT-M), and was one of many events under this partnership. It helped bring together various stakeholders in Quantum Technology, witnessing participation from Pfizer, Goldman Sachs, KLA, Mphasis, IBM, and LTIMindtree, amongst others.

Over the last one year, we have focused on developing our quantum computing capability to be ready to provide our clients with a competitive advantage in their industries in the coming period using cutting-edge technology. We identified four key themes to achieve this goal:

LTIMindtree has developed a strong understanding of evolving Quantum Technology landscape to cover Computing, Communication & Sensing areas. We have also enriched our partnership ecosystem for co-innovation with Hyperscalers, Start-Ups, Academia, and Clients on the same.

We have already started building solutions for business use cases applicable to the financial world e.g., Card Tokenization, Wealth Portfolio Optimization, Key Distribution, Cryptography, and Fraud Detection. Card Tokenization and Wealth Portfolio Optimization are two areas where have started to co-innovate and build solutions in partnership with academia and fintechs. These joint experiments will help our clients adopt Quantum Technologies rapidly for their context.

LTIMindtree Blue Book

Blue Book is a single-source centralized platform hosting over 200 assets across Industry Groups, Service Lines, and Business Enabling Units. Blue Book has the latest updated information around LTIMindtree assets, including the most trending assets, and is used to track usage and improve efficiency. It provides the end users details about the asset, its benefits, client names, collaterals for reference, tech requirements & much more. Blue Book also hosts the IP protection process that enables one to file patents & submit them to the LTIMindtree GTO Patent Office team and enables end users to track the status of patents submitted. The GTO Patent Office team has helped file 16 patents to date.

ANNUAL REPORT ON CSR ACTIVITIES FOR THE FINANCIAL YEAR ENDED MARCH 31, 2023

1 BRIEF OUTLINE OF THE COMPANY'S CORPORATE SOCIAL RESPONSIBILITY POLICY

At LTIMindtree, we are driven by the belief that sustainable progress comes from the convergence of purpose, care, and impact. It is at this intersection that communities thrive, businesses bloom, societies prosper, and lives take on a new meaning. Our Corporate Social Responsibility (CSR) actions include interventions in Education, Health & Nutrition, Empowerment (Livelihood and Skilling), Environment conservation and Disaster relief initiatives. The CSR initiatives are directed towards empowerment, enablement and equity enabling the marginalized to achieve sustainable change at scale.

2 COMPOSITION OF THE CSR COMMITTEE

During the year under review, two meetings of the CSR Committee were held on April 5, 2022 and January 18, 2023. Details of the composition of CSR Committee and attendance of the Directors at the meetings held during FY23 are as under:

Name of the Director	Designation/Nature of Directorship	No. of meetings attended during FY23
Mr. James Abraham ¹	Chairperson (Independent Director)	1
Mr. Debashis Chatterjee ²	Member (CEO & Managing Director)	1
Ms. Apurva Purohit ²	Member (Independent Director)	1
Mr. Sudhir Chaturvedi ³	Member (Whole-Time Director)	1
Mr. Nachiket Deshpande ⁴	Member (Whole-Time Director)	0
Mr. Sanjay Jalona ⁵	Chairperson (Former CEO & Managing Director)	1
Mr. Sudip Banerjee ⁶	Member (Former Independent Director)	1

Notes:

- ¹ Inducted as Chairperson w.e.f. July 14, 2022
- ² Inducted as Member w.e.f. November 14, 2022
- ³ Ceased to be Member w.e.f. November 14, 2022
- ⁴ Inducted as Member w.e.f. July 14, 2022 & ceased w.e.f. November 14, 2022
- ⁵ Ceased to be Chairperson/Member w.e.f. June 3, 2022
- ⁶ Ceased to be Member w.e.f. May 19, 2022

Corporate governance report

1. CORPORATE GOVERNANCE

A Company's Philosophy on Corporate Governance

LTIMindtree Limited (LTIMindtree) considers good Corporate Governance as one of the pillars to build and maintain the trust reposed by the stakeholders. LTIMindtree's character is embedded with the value system of Larsen & Toubro Group, which rests on transparency, integrity and accountability.

B Governance Structure

While the Board is accountable for oversight of the governance process, the Executive Management is responsible for implementing the policies and procedures to imbibe the culture of good governance in the organization. The Management believes that good governance is a continuous journey, as a result of the ever evolving developments in the business environment, both internally and externally.

The governance structure at LTIMindtree comprises of following tiers:

- 1) Board of Directors
- 2) Board Committees
- 3) Executive Committee
- 4) Management Sub-Committee(s)

Acronyms:

Tier 1: BOD: Board of Directors

Tier 2:

AC: Audit Committee

NRC: Nomination and Remuneration Committee

SRC: Stakeholders' Relationship Committee

CSR: Corporate Social Responsibility Committee

SIC: Strategic Investment Committee

RMC: Risk Management Committee

Tier 3: EC: Executive Committee

Tier 4:

SDC: Securities Dealing Committee

WBIC: Whistle Blowing Investigation Committee

COC: Code of Conduct Committee

POSH IC: Internal Committee on Prevention of Sexual Harassment at Workplace

CC: Compliance Committee

Supl.COC: Committee on Supplier Code of Conduct

Try.Com.: Treasury Committee

ROC: Risk Operating Committee

During the year, pursuant to a Scheme of Amalgamation and Arrangement under Sections 230 to 232 of the Companies Act, 2013 ('Act') amongst Larsen & Toubro Infotech Limited (*now known as LTIMindtree Limited*) & Mindtree Limited (Mindtree) and their respective shareholders & creditors, which has been sanctioned by the Hon'ble National Company Law Tribunal (NCLT) ['the Scheme'], Mindtree Limited was merged with Larsen & Toubro Infotech Limited w.e.f. November 14, 2022 (Appointed Date - April 1, 2022).

2. BOARD OF DIRECTORS

A. Board composition & other details

Details of composition of the Board of Directors, attendance of Directors at the Board meetings and at the last Annual General Meeting (AGM) held during FY-23, and number of other directorships & memberships/chairpersonships of board committee positions held by them as on March 31, 2023, are as follows:

B. Board meetings

Board meetings are convened at appropriate intervals by giving notice and agenda papers to the Directors in advance. The time gap between two consecutive Board meetings does not exceed 120 days. The Company adheres to the Secretarial Standards issued by the Institute of Company Secretaries of India on Board Meetings (SS-1). Company Secretary, in consultation with head of business units and Executive Management, prepares the draft agenda and post confirmation by Vice-Chairman and Chairman finalizes the same, which is put-up for due consideration at the Board meeting. The yearly calendar of board and committee meetings are finalized before beginning of the financial year. Directors are given the option to attend the meetings via video conferencing. The Directors have access to information within the Company. In case of any exigency or requirement to transact an urgent business matter at a short notice, the same is dealt with by passing circular resolution which is subsequently taken on record by the Board/Committee in the subsequent meeting. Information as required in Part A of Schedule II under Regulation 17(7) of the SEBI Listing Regulations was placed before the Board for due consideration.

During the year under review, eight Board meetings were held on April 19, 2022, May 6, 2022, July 14, 2022, October 15, 2022, November 14, 2022, November 17, 2022, January 20, 2023 and March 9, 2023. Quorum was present throughout in all the Board meetings.

As a green initiative, agenda of Board and Committee meetings are circulated via a secured in-house web-based application namely, iboard which is accessed on i-Pad. All important decisions taken at the meetings are communicated to the concerned functions for necessary action. In compliance with SS-1, the draft and signed minutes of the Board and Committee meetings are circulated amongst the Directors within the prescribed time.

C. Matrix of skills/expertise/competencies of the Board of Directors

In terms of the requirements of the SEBI Listing Regulations, the Board has identified the core skills/expertise/competencies of the Directors which are relevant to the context of Company’s business. Broadly, the skill sets identified by the Board are categorised as under:

- a. Strategy and Planning
- b. Stakeholder Engagement and Industry Advocacy
- c. Information Technology
- d. Governance, Risk and Compliance
- e. Global Experience/International Exposure
- f. Finance, Accounts and Audit
- g. Contributor and Collaborator
- h. Client Engagement

As part of the annual performance evaluation of the Board/individual Directors for FY-23, analysis of the skills, experience and expertise of the Directors was carried out, which brought out that the Board of Directors possesses the right and optimal skill sets for effective functioning of the Company. The results of the analysis are presented below:

Number of Directors as on March 31, 2023: 13

Skill mapping at individual director level

Name of the Director	Skill Mapping

FORM NO. MR-3
SECRETARIAL AUDIT REPORT
FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2023

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
LTIMindtree Limited

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **LTIMindtree Limited (Formerly known as Larsen & Toubro Infotech Limited)** (CIN: L72900MH1996PLC104693) (hereinafter called as "the Company").

The Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts and statutory compliances to express our opinion thereon.

Based on our verification of the Company's statutory registers, books, papers, minute books, forms and returns filed and other records maintained by the Company and the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on **31st March, 2023** complied with the statutory provisions listed hereunder and also that the Company has followed proper Board-processes and has required compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on **31st March, 2023** according to the provisions of:

- (i) The Companies Act, 2013 ("the Act") and the Rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ("SCRA") and the Rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the Rules and Regulations made thereunder for compliance to the extent of Foreign Direct Investment and Overseas Direct Investment and External Commercial Borrowings, as applicable;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ("SEBI Act") as amended from time to time: -
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 - **Not applicable to the Company during the review period;**
 - (d) The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021;
 - (e) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 – **Not Applicable to the Company during the review period;**
 - (f) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018 - **Not applicable to the Company during the review period;**
 - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021 - **Not applicable to the Company during the review period;**
 - (h) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021 - **Not applicable to the Company during the review period;**
 - (i) The Securities and Exchange Board of India (Depositories and Participants) Regulations, 2018.

- (vi) Other specific business/industry related laws applicable to the Company:

The Company has complied with specific applicable laws, rules, regulations and guidelines viz.,

- The Information Technology Act, 2000 and rules made thereunder;
- Special Economic Zones Act, 2005 and rules made thereunder;
- Software Technology Parks of India rules and regulations;
- The Indian Copyright Act, 1957;
- The Patents Act, 1970;
- The Trade Marks Act, 1999

and other applicable general laws, rules, regulations and guidelines.

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards with regard to Meeting of Board of Directors (SS-1) and General Meetings (SS-2) issued by The Institute of Company Secretaries of India; and
- (ii) SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015.

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

WE FURTHER REPORT THAT -

As on the end of the reporting period, the Board of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice was given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for a meaningful participation at the meeting.

The minutes of the Board Meetings and Committee Meetings have not identified any dissent by members of the Board/Committee of the Board, hence we have no reason to believe that the decisions by the Board were not approved by all the directors present. The Minutes of the Board Meetings and Committee Meetings were duly approved at the meeting by the Chairman of the Meeting.

We further report that there are adequate systems and processes in the Company commensurate with its size and operations, to monitor and ensure compliance with applicable laws, rules, regulations and guidelines. As informed, the Company has responded appropriately to communication received from various statutory / regulatory authorities including initiating actions for corrective measures, wherever found necessary.

We further report that during the audit period the following events/actions have taken place, having a major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines and standards:

1. The Scheme of Amalgamation and Arrangement under Sections 230 to 232 of Companies Act, 2013 amongst the Company and Mindtree Limited and their respective shareholders and creditors came into effect from November 14, 2022 and in terms of Clause 20.1 of the said Scheme, name of the Company was changed from 'Larsen & Toubro Infotech Limited' to 'LTIMindtree Limited' with effect from November 15, 2022.
2. On November 25, 2022, the Company allotted its 12,04,17,607 Equity Shares of Re.1/- each (including 1,65,247 equity shares arising out of the fractional entitlement*) to the equity shareholders of erstwhile Mindtree Limited ("Mindtree") holding equity shares of Mindtree as on November 24, 2022, which was the 'Record Date' fixed for the purpose.

**These equity shares were allotted to SBICAP Trustee Company Limited ("SBICAP") who was appointed as a Trustee to hold shares. SBICAP sold these shares in December 2022 and accordingly, the net sale proceeds i.e. after deduction of brokerage, applicable taxes and other statutory charges were distributed to the eligible equity shareholders in proportion to their fractional entitlement in January 2023.*

3. The Board of Directors at its meeting held on January 20, 2023 approved the Scheme of Amalgamation under Sections 230 to 232 of Companies Act, 2013, between Powerupcloud Technologies Private Limited, Lymbyc Solutions Private Limited and Cuelogic Technologies Private Limited (wholly-owned subsidiaries) with the Company and the same is awaiting sanction by the Hon'ble NCLT, Mumbai.

- Consequent upon the merger coming into effect, the 'Employee Stock Option Scheme, 2015' of erstwhile Larsen & Toubro Infotech Limited was renamed as 'LTIMindtree Employee Stock Option Scheme, 2015' and 'Mindtree Employee Restricted Stock Purchase Plan, 2012' & 'Mindtree Employee Stock Option Plan 2021' of erstwhile Mindtree Limited were renamed 'LTIMindtree Employee Restricted Stock Purchase Plan, 2012' & 'LTIMindtree Employee Stock Option Plan 2021', respectively, in order to give the effect of new name of the Company. During the year under review, 1,35,016 Equity Shares of face value of Re.1/- each of the Company were allotted under the LTIMindtree Employee Stock Option Scheme 2015.
- Inspection was carried out by the office of Regional Director (South Eastern Region), Ministry of Corporate Affairs under Section 206 of the Act in relation to Mindtree, during the financial year 2019-20. Show Cause/Adjudication Notice(s) were issued by Registrar of Companies, Karnataka (RoC) pertaining to alleged violation of certain Sections of the Act during the financial year 2022-23. Mindtree had filed application(s) for compounding of the alleged violations. The application(s) for compounding are pending for hearing/disposal.

Independent Auditor’s Report

To The Members of LTIMindtree Limited (Formerly known as Larsen & Toubro Infotech Limited)

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of LTIMindtree Limited (Formerly known as Larsen & Toubro Infotech Limited) (“the Company”), which comprise the Balance Sheet as at March 31, 2023, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and its profit, total comprehensive income, the changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor’s Responsibility for the Audit of the Standalone Financial Statements section of our report.

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

Information Other than the Financial Statements and Auditor’s Report Thereon

- The Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including Annexures to Board’s Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder’s Information, but does not include the consolidated financial statements, standalone financial statements and our auditor’s report thereon.
- Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company’s Board of Directors are also responsible for overseeing the Company’s financial reporting process.

Auditor’s Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The comparative financial information of the Company for the year ended March 31, 2022 prepared prior to effective date of the business combination of entities under common control referred to in Note 44(l)(i) of the financial statements were audited by the predecessor auditor (whose reports dated April 19, 2022 expressed an unmodified opinion). These previously issued financial information have been restated to comply with Ind AS 103 Appendix C for Business combinations of entities under common control and included in this financial statements as comparative financial information. The adjustments made to the previously issued financial information to comply with the said Ind AS have been audited by us.

Our opinion on the standalone financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter.

Report on Other Legal and Regulatory Requirements

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of LTIMindtree Limited (Formerly known as Larsen & Toubro Infotech Limited) of even date)

Report on the Internal Financial Controls with reference to standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the “Act”)

We have audited the internal financial controls with reference to standalone financial statements of LTIMindtree Limited (Formerly known as Larsen & Toubro Infotech Limited) (the “Company”) as of March 31, 2023 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to standalone financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls with reference to standalone financial statements

A company’s internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2023, based on the criteria for internal financial control with reference to standalone financial statements by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure 'B' to the Independent Auditor's Report

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of LTIMindtree Limited (Formerly known as Larsen & Toubro Infotech Limited) of even date)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, capital work-in-progress and relevant details of right-of-use assets.
 - (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) The Company has a program of verification of property, plant and equipment, capital work-in-progress and right-of-use assets so to cover all the items in a phased manner over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its activities. Pursuant to the program certain property, plant and equipment were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (c) According to the information and explanation given by the management and based on our examination of the financial statements / registered deed / conveyance deed / Scheme of Amalgamation and Arrangement duly approved by National Company Law Tribunal (NCLT), we report that, the title deeds of all the immovable properties, (other than immovable properties where the Company is the lessee and the lease agreements are duly executed in favor of the Company) disclosed in the financial statements included in property, plant and equipment and capital work-in progress are held in the name of the Company as at the balance sheet date.

In respect of the immovable properties acquired under the Scheme of Amalgamation & Arrangement duly approved by NCLT, the ownership has been transferred and vested in the Company in terms of the Scheme. As on the Balance Sheet date, the title deeds are pending mutation in the name of the Company for such properties.
- (d) The Company has not revalued any of its property, plant and equipment (including right-of-use assets) and intangible assets or both during the year.
- (e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2023 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- (ii) (a) The inventories were physically verified during the year by the Management at reasonable intervals. In our opinion and according to the information and explanations given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operations. No discrepancies of ten percent or more in the aggregate for each class of inventories were noticed on such physical verification of inventories when compared with books of account.
- (b) According to the information and explanations given to us, at any point of time of the year, the Company has not been sanctioned any working capital facility from banks or financial institutions on the basis of security of current assets and hence reporting under clause (ii)(b) of the Order is not applicable.
- (iii) (a) The Company has not provided any loans or advances in the nature of loans or stood guarantee, or provided security to any other entity during the year, and hence reporting under clause (iii)(a) of the Order is not applicable.
- (b) The investments made, guarantees provided, security given and the terms and conditions of the grant of all the above-mentioned loans and advances in the nature of loans and guarantees provided, during the year are, in our opinion, prima facie, not prejudicial to the Company's interest.
- (c) In respect of loans granted or advances in the nature of loans provided by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments of principal amounts and receipts of interest are regular as per stipulation. According to information and explanations given to us and based on the audit procedures performed, in respect of loans granted and advances in the nature of loans provided by the Company, there is no overdue amount remaining outstanding as at the balance sheet date.

- (d) During the year loans aggregating to INR 1104 million (AED 55.5 million) fell due for repayment from subsidiary named LTI Middle East FZ-LLC and the same has been renewed or extended during the year. There were no fresh loans granted to settle the dues of existing loans given to the said subsidiary.

Party name	Aggregate amount of loans or advances in the nature of loans that fell due during the year	Date they fell due	Aggregate amount of overdues of existing loans renewed or extended or settled by fresh loans	Date of grant	Percentage of the aggregate to the total loans or advances in the nature of loans granted during the year
LTI Middle East FZ-LLC	INR 1,104 million (AED 55.5 million)	January 5, 2023	INR 1,104 million (AED 55.5 million)	January 6, 2023	100%

- (e) According to information and explanations given to us and based on the audit procedures performed, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause (iii)(f) is not applicable.
- (iv) According to information and explanation given to us, the Company has not granted any loans or provided guarantees or securities that are covered under the provisions of sections 185 of the Companies Act, 2013. Also, the Company has complied with the provisions of Section 186 of the Companies Act, 2013 in respect of investments made.
- (v) The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause (v) of the Order is not applicable.
- (vi) The maintenance of cost records has not been specified for the activities of the Company by the Central Government under section 148(1) of the Companies Act, 2013.
- (vii) (a) Undisputed statutory dues, including Goods and Service tax, Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, duty of Custom, Value Added Tax, cess and other material statutory dues applicable to the Company have been regularly deposited by it with the appropriate authorities in all cases during the year.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, cess and other material statutory dues in arrears as at March 31, 2023 for a period of more than six months from the date they became payable.

- (viii) There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.
- (ix) (a) The Company has not taken any loans or other borrowings from any lender. Hence reporting under clause (ix)(a) of the Order is not applicable to the Company.
- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) The Company has not taken any term loan during the year and there are no unutilised term loans at the beginning of the year and hence, reporting under clause (ix)(c) of the Order is not applicable.
- (d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- (e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
- (f) The Company has not raised any loans during the year and hence reporting on clause (ix)(f) of the Order is not applicable.
- (x) (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause (x)(a) of the Order is not applicable.
- (b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause (x)(b) of the Order is not applicable to the Company.
- (xi) (a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- (c) We have taken into consideration the whistle blower complaints received by the Company during the year (and upto the date of this report) and provided to us, when performing our audit.

- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards.

- (xv) In our opinion during the year the Company has not entered into any non-cash transactions with any of its directors or directors of its holding company, subsidiary company or persons connected with such directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- (xvi) (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause (xvi)(a), (b) and (c) of the Order is not applicable (d) The Group has more than one Core Investment Company (CIC) as part of the group. There are two CICs forming part of the group.
- (xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors of the Company during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) (a) The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there is no unspent CSR amount for the year requiring a transfer to a Fund specified in Schedule VII to the Companies Act or special account in compliance with the provision of sub-section (6) of section 135 of the said Act. Accordingly, reporting under clause (xx) of the Order is not applicable for the year.
- (b) In respect of ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount as at the end of the previous financial year, to a Special account within a period of 30 days from the end of the said financial year in compliance with the provision of section 135 (6) of the Act.

Other than the above, there are no ongoing projects relating to corporate social responsibility.

Notes Forming Part of Standalone Financial Statements

1. COMPANY OVERVIEW

LTIMindtree Limited (formerly known as Larsen & Toubro Infotech Limited) ('the Company') offers extensive range of IT services like agile, analytics and information management, application development, maintenance and outsourcing, enterprise solutions, infrastructure management services, testing, digital solutions, and platform-based solutions to the clients in diverse industries.

The Company is a public limited company incorporated and domiciled in India and has its registered office at L&T House, Ballard Estate, Mumbai – 400 001, Maharashtra, India. The Company's equity shares are listed on the National Stock Exchange of India Limited and BSE Limited in India.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Basis of preparation and Statement of compliance

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS), as prescribed under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Amounts in the financial statements are presented in Indian Rupees in millions [10 lakhs = 1 million] as permitted by Schedule III to the Companies Act, 2013. Per share data are presented in Indian Rupees.

Preparation of financial statements in conformity with Indian Accounting Standards (Ind AS) requires the management of the Company to make estimates and assumptions that affect the income and expense reported for the period and assets, liabilities and disclosures reported as of the date of the financial statements. Examples of such estimates include useful lives of tangible and intangible assets, provision for doubtful debts, future obligations in respect of retirement benefit plans, considering the extension period for determination of lease term, etc. Actual results could vary from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised, and by giving prospective impact in the standalone financial statements.

As fully described in Note 44 (i), during the year erstwhile Mindtree Limited has merged with the Company based on the Scheme sanctioned by NCLT. Accordingly, the previously published financial statement of the Company has been restated for accounting of merger as the entities are under common control.

b) Presentation of financial statements

The financial statements (including balance sheet, statement of profit and loss and the statement of changes in equity) are prepared and presented in the accordance with the format prescribed in Division II of Schedule III to the Companies Act, 2013, as amended from time to time. The cash flow statement has been prepared and presented as per the requirements of Ind AS 7 "Cash Flow Statements". The disclosure requirements with respect to items in the balance sheet and statement of profit and loss, as prescribed in Schedule III to the Act, are presented by way of notes forming part of financial statements along with the other notes required to be disclosed under the notified Accounting Standards.

c) Operating cycle for current and non-current classification

The Company identifies asset/liabilities as current if the same are receivable/payable within twelve months else the same are considered as non-current.

d) Revenue from Contracts with Customers

Revenue is recognized upon transfer of control of promised services to customers. Revenue is measured based on the transaction price as per the contract with a customer net of variable consideration on account of volume discounts, rebates and other similar allowances.

At contract inception, the Company assesses its promise to transfer products or services to a customer to identify separate performance obligations. The Company applies judgment to determine whether each product or service promised to a customer is capable of being distinct, and are distinct in the context of the contract, if not, the promised products or services are combined and accounted as a single performance obligation.

The Company allocates the transaction price (net of variable consideration) to separately identifiable performance obligations based on their relative standalone selling price or residual method. Standalone selling prices are determined based on sale prices for the components when it is regularly sold separately, in cases where the Company is unable to determine the stand-alone selling price the Company uses third-party prices for similar deliverables or the Company uses expected cost-plus margin approach in estimating the stand-alone selling price.

Revenue from contracts priced on time and material basis is recognized when services are rendered, and the related costs are incurred.

Revenue related to fixed price maintenance and support services contracts where the Company provides services is recognized based on time elapsed mode and revenue is straight-lined over the period of performance.

Revenue from services performed on fixed-price basis is recognized using the input method as defined in Ind AS-115 - Revenue from Contracts with customers. The Company uses cost expended to measure progress towards completion as there is a direct relationship between input and productivity. If the Company does not have a sufficient basis to measure the progress of completion or to estimate total contract revenues and costs, revenue is recognized only to the extent of contract cost incurred for which recoverability is probable.

When total cost estimates exceed revenue in arrangement, the estimated losses are recognized in the statement of profit and loss in the period in which such losses become probable based on the current contract estimates.

Revenue from sale of licenses / hardware, where the customer obtains a "right to use" the licenses / hardware is recognized at the point in time when the related license / hardware is made available to the customer. Revenue from licenses / hardware where the customer obtains a "right to access" is recognized over the access period. For allocating the transaction price to sale of licenses / hardware and related implementation and maintenance services, the Company measures the revenue in respect of each performance obligation of a contract as its relative standalone selling price. In case, where the licenses are required to be substantially customized as part of implementation service, the entire arrangement fee is considered as single performance obligation and revenue is recognized as per input method.

Revenue for supply of third party products or services are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognizes revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

The Company accounts for variable considerations like, volume discounts, rebates, pricing incentives to customers and penalties as reduction of revenue on a systematic and rational basis over the period of the contract. The Company estimates an amount of such variable consideration using expected value method or the single most likely amount in a range of possible consideration depending on which method better predicts the amount of consideration to which the Company may be entitled and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.

The Company accrues the estimated cost of post contract support services at the time when the revenue is recognized. The accruals are based on the Company's historical experience of material usage and service delivery costs.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. Contract modifications involving services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively as a separate contract.

'Unbilled revenues' (contract asset) represent revenue earned in excess of billings as at the end of the reporting period. Where right to consideration is unconditional upon passage of time is classified as a financial asset however, for fixed price development contracts, where milestone is not due as per contract terms as on date of reporting, the same is classified as non-financial asset.

'Unearned & deferred revenue' (contract liabilities) represent billing in excess of revenue recognized.

Deferred contract costs of:

- i) Incremental costs that relate directly to a contract and incurred in securing a contract with a customer are recognized as an asset when the Company expects to recover these costs and amortized over the contract term.
- ii) Fulfillment cost specifically relating to a contract or to an anticipated contract, the costs generate or enhance resources that will be used in satisfying performance obligations in future; and the costs are expected to be recovered. The asset so recognized is amortized on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates.

Use of significant judgments in revenue recognition:

The Company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Company to estimate costs expended to date as a proportion of the total costs to be expended. Costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Further, the Company uses significant judgments while determining the transaction price to be allocated to performance obligations.

Provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

e) Other income

Other Income comprises primarily of interest income, dividend income, gain/loss on investment and foreign exchange gain/loss.

- I) Interest income is recognized using effective interest method.
- II) Dividend income is accounted in the period in which the right to receive the same is established.

f) Employee benefits

I) Short-term employee benefits

All employee benefits falling due wholly within twelve months of rendering the service are classified as short-term employee benefits. The benefits like salaries, wages, and short-term compensated absences and performance incentives are recognized in the period in which the employee renders the related service.

II) Post-employment benefits

i) Defined contribution plan:

The Company's superannuation fund and state governed provident fund scheme are classified as defined contribution plans. The contribution paid / payable under the schemes is recognized during the period in which the employee renders the related service.

ii) Defined benefit plans:

The provident fund scheme managed by trust, employee's gratuity fund scheme managed by insurers and post-retirement medical benefit scheme are the Company's defined benefit plans. Wherever applicable, the present value of the obligation under such defined benefit plans is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash-flows. The discount rates used for determining the present value of the obligation under defined benefit plans is based on the market yields on government bonds as at the balance sheet date, having maturity periods approximating to the terms of related obligations. Actuarial gains and losses through remeasurement of the defined benefit liability/ (asset) are recognized in other comprehensive income. The actual return of portfolio of plan assets, in excess of yields computed by applying the discount rate used to measure the defined benefit obligation are recognized in other comprehensive income. Remeasurements comprising of actuarial gains or losses and return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are not reclassified to statement of profit and loss in subsequent periods.

The effect of any plan amendment is recognized in statement of profit and loss.

Gains or losses on the curtailment or settlement of any defined benefit plan are recognized when the curtailment or settlement occurs. Past service cost resulting from a plan amendment or curtailment are recognized immediately in the statement of profit and loss.

iii) Compensated absences

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as undiscounted liability at the balance sheet date. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date.

iv) Long-term employee benefits:

The obligation for long-term employee benefits like long-term compensation absences is recognized as determined by actuarial valuation performed by independent actuary at each balance sheet date using Projected Unit Credit Method on the additional amount expected to be paid/ availed as a result of unused entitlement that has accumulated at balance sheet date. Actuarial gains and losses are recognized immediately in statement of profit and loss.

v) Social security plans:

Employer's contribution payable with respect to the social security plans, which are defined contribution plans, is charged to the statement of profit and loss in the period in which employee renders the services.

The Code on Social Security, 2020 has been enacted by the Indian Parliament, which would impact the contributions by the Company towards Provident Fund and Gratuity. The effective date from which the changes will be applicable and the corresponding Rules, are yet to be notified. The Company will complete its evaluation and will give appropriate impact in the period in which, the Code and the corresponding Rules become effective.

g) Government grants

The Company recognizes government grants only when there is reasonable assurance that the conditions attached to them will be complied with, and the grants will be received. Government grants related to assets are treated as deferred income and are recognized in the net profit in the Statement of Profit and Loss on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in the net profit in the Statement of Profit and Loss over the periods necessary to match them with the related costs which they are intended to compensate.

h) Property, plant and equipment

Property plant and equipment are stated at cost less accumulated depreciation and impairment losses if any. Cost includes expenditure directly attributable to the acquisition or construction of the asset and cost incurred for bringing the asset to its present location and condition.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or disposition of the asset and the resultant gains or losses are recognized in the statement of profit and loss.

Amounts paid towards the acquisition of property, plant and equipment outstanding as of each reporting date and the cost of property, plant and equipment not ready for intended use before such date are disclosed under capital advances and capital work-in-progress (CWIP) respectively.

i) Intangible assets

Intangible assets are stated at cost, less accumulated, amortization and impairment. Goodwill represents the cost of acquired businesses in excess of the fair value of net identifiable assets acquired.

j) Impairment

I) Impairment of trade receivables, unbilled receivables and lease receivables

The Company assesses at each date of statement of financial position whether a financial asset in form of trade receivables and unbilled receivables is impaired. In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss. As a practical expedient, the Company uses a provision matrix to determine impairment loss on portfolio of its trade receivables and unbilled receivables. The provision matrix is based on available external and internal credit risk factors such as credit default, credit rating from credit rating agencies and Company's historically observed default rates over the expected life of trade receivables and unbilled receivables. ECL impairment loss allowance or reversal is recognized during the period as expense or income respectively in the statement of profit and loss.

II) Impairment of intangible assets

i) Goodwill

Goodwill represents the cost of acquired businesses in excess of the fair value of net identifiable assets acquired. Goodwill is not amortized but is tested for impairment annually or immediately when events or changes in circumstances indicate that an impairment loss would have occurred. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the Company's cash generating units (CGU) or group of CGU's expected to benefit from the synergies arising from the business combination. A CGU is the smallest identifiable Company of assets that generates cash inflows that are largely independent of the cash inflows from other assets or Company of assets. For the purposes of impairment testing, The carrying amount of the reporting unit cash generating unit, including goodwill, is compared with its fair value. When the carrying amount of the reporting cash generating unit exceeds its fair value, a goodwill impairment loss is recognized. Total impairment loss of a CGU is allocated first to reduce the carrying amount of goodwill allocated to the CGU and then to the other assets of the CGU pro rata on the basis of the carrying amount of each asset in the CGU. Goodwill impairment losses are not reversed. The growth rate and discount rates as applicable are used for impairment testing.

ii) Other intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of intangible assets to determine if there is any indication of loss suffered. If such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss. Recoverable amount is the higher of the value in use or fair value less cost to sell. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

III) Impairment of investments in subsidiaries

The Company assesses investments in subsidiaries for impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable. If any such indication exists, the Company estimates the recoverable amount of the investment in subsidiary. The recoverable amount of such investment is the higher of its fair value less cost of disposal and its value-in-use (VIU). The VIU of the investment is calculated using projected future cash flows. If the recoverable amount of the investment is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss.

k) Leases

The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings, furniture & fixtures and vehicles. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contract involves the use of an identified asset (2) the Company has substantially all of the economic benefits from use of the asset throughout the period of the lease and (3) the Company has the right to direct the use of the asset throughout the period of use.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The Company determines the lease term as the non-cancellable period of a lease, together with periods covered by an option to extend the lease, where the Company is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise the option.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are remeasured with a corresponding adjustment to the related right-of-use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

For Finance leases, initially asset held under finance lease is recognized in balance sheet and presented as a receivable at an amount equal to the net investment in the lease. Finance income is recognized over the lease term, based on a pattern reflecting a constant periodic rate of return on Company's net investment in the lease.

l) Depreciation

I) Property plant and equipment

Depreciation on assets have been provided on straight-line basis as mentioned in below table except for the leasehold improvements which is depreciated over the lease period or life of asset, whichever is lower. Depreciation on additions and disposals are calculated on pro-rata basis from and to the month of additions and disposals.

Particulars	Useful life
Buildings	Up to 60 years
Computers and IT peripherals	Up to 6 years
Plant and machinery	Up to 10 years
Office equipment	Up to 5 years
Vehicles	Up to 8 years
Furniture and fixtures	Up to 5 years

II) Intangible assets and amortization

The estimated useful life of an intangible asset is based on number of factors including the effects of obsolescence, demand, competition and other economic factors and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. The basis of amortization of intangible assets on straight-line basis is as follows:

Particulars	Useful life
Computer software	Up to 5 years
Intellectual property	Up to 5 years
Business alliance relationships	Up to 4 years
Customer contracts	Up to 5 Years
Vendor relationships	Up to 6 years
Tradename	Up to 6 years
Technology	Up to 6 years
Non-compete agreement	Up to 5 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

m) Inventories

Inventories are valued at lower of cost and net realizable value, including necessary provision for obsolescence. Cost is determined using the weighted average method. Cost comprises of all costs of purchase and other costs incurred in bringing the inventory to its present location and condition.

n) Share-based payments

In respect of stock options granted pursuant to the Company's stock options scheme, the excess of fair value of the share over the exercise price of the option is treated as discount and accounted as employee compensation cost over the vesting period. The amount recognized as expense each year is arrived at based on the number of grants expected to vest. If options granted lapse after the vesting period, the cumulative discount recognized as expense in respect of such options is transferred to the general reserve. If options granted lapse before the vesting period, the cumulative discount recognized as expense in respect of such options is transferred to the profit and loss.

o) Functional and presentation currency

The functional and presentation currency of the Company is the Indian Rupee as it is the currency of the primary economic environment in which the Company operates.

p) Foreign currency transactions and balances

Foreign currency transactions related to the Company and its branches are initially recorded at the rates prevailing on the date of the transaction. At the balance sheet date, foreign currency monetary items are reported using the closing rate. Exchange gains and losses arising on settlement and restatement are recognized in the Statement of profit and loss. Non-monetary items which are carried at historical cost denominated in foreign currency are reported using the exchange rate at the date of the transaction.

Foreign currency gains and losses are reported on a net basis.

q) Financial Instruments

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument.

l) Initial measurement

Financial assets (excluding trade receivables) and liabilities are initially measured at fair value, i.e., transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. Trade receivables that do not contain a significant financing component are measured at transaction price.

II) Subsequent classification and measurement

i) Non-derivative financial assets

A) Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if:

- a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- b) the contractual terms of financial assets give rise on specified dates that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using effective interest method less impairment loss if any.

B) Debt instruments at fair value through other comprehensive income (FVTOCI)

Debt instruments are subsequently measured at fair value through other comprehensive income if the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling the financial asset. Company recognizes interest income, impairment losses & reversals and foreign exchange gain/(loss) in statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from equity to profit and loss. Interest earned is recognized under the effective interest rate (EIR) method.

C) Equity instruments at FVTOCI

All equity instruments are measured at fair value. Equity instruments held for trading is classified as FVTPL. For all other equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. The Company makes such election on an instrument-by-instrument basis. If the Company decides to classify an equity instrument as FVTOCI, then all fair value changes on the instrument, excluding dividend are recognized in OCI. On derecognition of the instrument the cumulative gain or loss is not reclassified to the statement of profit and loss, but will be transferred to retained earnings.

D) Financial assets at fair value through profit and loss (FVTPL)

Financial assets are measured at fair value through profit or loss unless they are measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in statement of profit and loss.

ii) Non-derivative financial liability

Financial liabilities are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest method except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss.

iii) Investment in subsidiaries

Investment in Subsidiaries is carried at cost less impairment, if any in the Standalone Financial Statements. Dividend income from subsidiaries is recognized when its right to receive the dividend is established.

iv) Derivative financial instrument

The Company holds derivative financial instrument such as foreign exchange forward contracts and options contracts including a combination of purchased and written options to mitigate the risk of changes in exchange rates on foreign currency exposures and forecast transactions. The counterparty for these contracts is generally a bank.

The Company uses hedging instruments that are governed by the risk management policy which is approved by the board of directors. The policy provides written principles on the use of such derivative financial instruments. The Company designates such instruments as hedges and performs assessment of hedge effectiveness based on consideration of terms of the hedging instrument, the economic relationship between the hedging instrument and hedged item and the objective of the hedging.

Derivatives are recognized and measured at fair value. Attributable transaction costs are recognized in the statement of profit and loss.

A) Cash flow hedges

The Company designates certain foreign exchange forward and option contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast transactions.

When a derivative is designated as a Cash flow hedge instrument, the effective portion of changes in fair value of the derivative is recognized in other comprehensive income and presented within equity as hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the Statement of Profit and Loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively.

If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in Cash flow hedge reserve is transferred to the Statement of Profit and Loss upon the occurrence of related forecasted transaction.

B) Fair value hedges

Changes in the fair value of the derivative instruments designated as fair value hedges are recognized in statement of profit and loss.

III) Derecognition

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial assets expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability is derecognized from the Company's balance sheet where the obligation specified in the contract is discharged or cancelled or expired.

IV) Offsetting

Financial assets and financial liabilities are offset and the net amounts are presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

r) Taxes on income

Income tax expense comprises current and deferred income tax. Tax on income for the current period is determined on the basis of taxable income and tax credits computed in accordance with the provisions of the Indian Income tax Act, 1961. Foreign branches recognize current tax / deferred tax liabilities and assets in accordance with the applicable local laws.

Income tax and deferred tax expense is recognized in the statement of profit and loss except to the extent that it relates to items recognized directly in other comprehensive income, in which case income tax expense is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction. Other deferred tax assets are recognized and carried forward to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted as on the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred income taxes are not provided on the undistributed earnings of branches where it is expected that the earnings of the branch will not be distributed in the foreseeable future.

The Company offsets deferred income tax assets and liabilities, where it has a legally enforceable right to offset current tax assets against current tax liabilities, and they relate to taxes levied by the same taxation authority on either the same taxable entity, or on different taxable entities where there is a right and an intention to settle the current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

s) Borrowing costs

Borrowing costs include finance costs, commitment charges, interest expense on lease liabilities. Borrowing costs are recognized in the statement of profit and loss using the effective interest rate method.

t) Provisions, contingent liabilities, and contingent assets

Provisions are recognized for liabilities that can be measured only by using a substantial degree of estimation, if:

- I) the Company has a present obligation as a result of a past event;
- II) a probable outflow of resources is expected to settle the obligation; and
- III) the amount of the obligation can be reliably estimated.

Provision is measured using the cash flows estimated to settle the present obligation and when the effect of time value of money is material, the carrying amount of the provision is the present value of those cash flow. Reimbursement expected in respect of expenditure required to settle a provision is recognized only when it is virtually certain that the reimbursement will be received and a reliable estimate can be made of the amount of the obligation.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

Contingent liability is disclosed in case of,

- I) a present obligation arising from a past event when it is not probable that an outflow of resources will be required to settle the obligation or the amount of obligation cannot be measured with sufficient reliability; or
- II) a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent assets are neither recognized nor disclosed.

Provisions, contingent liabilities, and contingent assets are reviewed at each balance sheet date.

u) Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period, adjusted for treasury shares held and bonus elements in equity shares issued during the period.

Diluted EPS is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

v) Cash flow statement

Cash flow statement is prepared segregating the cash flows from operating, investing and financing activities. Cash flow is reported using indirect method as per the requirements of Ind AS 7 ("Cash flow statements"), whereby profit for the year is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows.

w) Business Combination

Business combinations other than the common control transactions are accounted for using the purchase (acquisition) method. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Business combinations through common control transactions are accounted on a pooling of interests method. No adjustments are made to reflect the fair values, or recognize any new assets or liabilities, except to harmonise accounting policies. The identity of the reserves are preserved and the reserves of the transferor becomes the reserves of the transferee. The difference between consideration paid and the net assets acquired, if any, is recorded under capital reserve / retained earnings, as applicable.

Transaction costs incurred in connection with a business acquisition are expensed as incurred. Any subsequent changes to the fair value of contingent consideration classified as liabilities, other than measurement period adjustments, are recognized in the statement of profit and loss.

x) Recent accounting pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 – Presentation of Financial Statements – This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Company has evaluated the amendment and the impact of the amendment is insignificant in the financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors – This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The Company has evaluated the amendment and there is no impact on its financial statements.

Ind AS 12 – Income Taxes – The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company is evaluating the impact, if any, in financial statements.

Employee Stock Option Plan 2021 ('ESOP 2021')

On May 22, 2021, the shareholders of the Company have approved the Employee Stock Option Plan 2021 ('ESOP 2021') for the issue of up to 2,000,000 options (including the unutilized options under ERSP 2012) to employees of the Company. The Nomination and Remuneration Committee ('NRC') administers the plan through a trust established specifically for this purpose, called the LTIMindtree Employee Welfare Trust (Formerly Mindtree Employee Welfare Trust) ('ESOP Trust').

The ESOP Trust shall subscribe to the equity shares of the Company using the proceeds from loans obtained from the Company, other cash inflows from allotment of shares to employees under the ESOP Plan, to the extent of number of shares as is necessary for transferring to the employees. The NRC shall determine the exercise price which will not be less than the face value of the shares. Options under this program are granted to employees at an exercise price periodically determined by the NRC. All stock options have a four-year vesting term. The options vest and become fully exercisable at the rate of 25% each over a period of 4 years from the date of grant. Each option is entitled to 1 equity share of ₹10 each. These options are exercisable within 6 years from the date of vesting.

On May 22, 2021, the shareholders of the Company, through postal ballot, have approved the grant of loan to LTIMindtree Employee Welfare Trust (Formerly Mindtree Employee Welfare Trust) ('ESOP Trust'), the value of which, shall not exceed the statutory ceiling of five (5%) percent of the paid-up capital and free reserves of the Company as on March 31, 2021. Further, the Company has obtained in-principle approval for listing of up to a maximum of 2,000,000 equity shares of ₹10 each to be issued under ESOP 2021 from NSE and BSE on June 10, 2021 and June 14, 2021 respectively. The trust deed was executed effective May 25, 2021 and registered on August 24, 2021.

37. EMPLOYEE BENEFITS

I) General descriptions of defined benefit plans:

i) Gratuity plan

The Company provides for gratuity, a defined benefit retirement plan (“the Gratuity Plan”) covering eligible Indian employees of LTIMindtree. The Gratuity Plan provides a lumpsum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee’s salary and the tenure of employment with the Company. The Company contributes gratuity liabilities to the LTIMindtree Employees’ Group Gratuity Assurance Scheme and Mindtree Limited Employees Gratuity Fund Trust. Trustees administer contributions made to the Trusts and contributions are invested in a scheme with the Life Insurance Corporation of India, ICICI Prudential Life Insurance Company and SBI Life Insurance Company as permitted by Indian law.

ii) Post-retirement medical benefit plan

The post-retirement medical benefit plan provides for reimbursement of health care costs to certain categories of employees post their retirement. The reimbursement is subject to an overall ceiling limit sanctioned at the time of retirement. The ceiling limits are based on cadre of the employee at the time of retirement.

iii) Provident fund plan

The Company’s provident fund plan is managed by its holding company through a Trust permitted under the Provident Fund Act, 1952. The plan envisages contribution by employer and employees of the Company and guarantees interest at the rate notified by the Provident Fund Authority. The contribution by employer and employee together with interest are payable at the time of separation from service or retirement whichever is earlier. The benefit under this plan vests immediately on rendering of service.

The interest payment obligation of trust managed provident fund is assumed to be adequately covered by the interest income on long-term investments of the fund. Any shortfall in the interest income over the interest obligation is recognized immediately in the statement of profit and loss. Any loss arising out of the investment risk and actuarial risk associated with the plan is also recognized as actuarial loss in the period in which such loss occurs. Further, Nil has been provided for year ending March 31, 2023 and March 31, 2022 based on actuarial valuation towards the future obligation arising out of interest rate guarantee associated with the plan.

In respect of employees of erstwhile Mindtree Limited monthly contributions were contributed to Employees’ Provident Fund Organization (EPFO) till November 30, 2022. From December 1, 2022, the amount is contributed to the Trust.

VIII) Principal actuarial assumptions at the balance sheet date:

Particulars	2022-23	2021-22
i. Discount rate		
For gratuity	7.20% - 7.35%	6.50% - 6.65%
For post-retirement medical benefits	7.35%	6.65%
ii. Annual increase in healthcare costs	7.00%	5.00%
iii. Attrition rate	5.00% - 20.00%	8.00% - 19.00%
iv. Salary growth rate *	7.00% - 7.50%	6.00% - 7.50%

*Salary growth rate assumption reflects the Company's average salary growth rate and current market conditions.

IX) The average duration (in years) of the defined benefit plan obligations at the end of the reporting period is as follows:

Particulars	2022-23	2021-22
i. Gratuity plan	5.00 - 7.23	6.00 - 6.89
ii. Post-retirement medical benefit plan	18.85	19.19

X) Projected plan cash flow:

The table below shows the expected cash flow profile of the benefits to be paid to the current membership of the plan (which in case of serving employees, if any, is based on service accrued by employee up to valuation date):

As on March 31, 2023

Maturity profile	₹ in Million	
	Gratuity	Post-retirement medical benefit liability
Expected benefits for year 1	547	5
Expected benefits for year 2	467	6
Expected benefits for year 3	461	8
Expected benefits for year 4	516	9
Expected benefits for year 5	497	10
Expected benefits for years 6 - 10	1,703	56
Expected benefits for year 10 and above	2,642	2,160

As on March 31, 2022

Maturity profile	₹ in Million	
	Gratuity	Post-retirement medical benefit liability
Expected benefits for year 1	428	4
Expected benefits for year 2	376	5
Expected benefits for year 3	383	6
Expected benefits for year 4	377	8
Expected benefits for year 5	377	9
Expected benefits for years 6 - 10	1,319	45
Expected benefits for year 10 and above	2,131	1,484

The estimates of future salary increases considered in actuarial valuation, take into account inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

XI) Sensitivity analysis

i) Post retirement benefits:

Although the obligation of the Company under the post-retirement medical benefit plan is limited to the overall ceiling limits, assumed healthcare cost trend rates may affect the amounts recognized in the statement of profit and loss. The benefit obligation results for the cost of paying future hospitalization premiums to insurance company and reimbursement of domiciliary medical expenses in future for the employee / beneficiaries during their lifetime is sensitive to discount rate, future increase in healthcare costs and longevity. The following table summarizes the impact on the reported defined benefit obligation at the end of the reporting period arising on account of changes in these three key parameters:

Particulars	₹ in Million	
	2022-23	2021-22
Discount Rate		
Impact of increase in 100 bps on defined benefit obligation	(59)	(48)
Impact of decrease in 100 bps on defined benefit obligation	77	64
Healthcare costs rate		
Impact of increase in 100 bps on defined benefit obligation	49	36
Impact of decrease in 100 bps on defined benefit obligation	(40)	(29)
Life expectancy		
Impact of increase by 1 year on defined benefit obligation	4	4
Impact of decrease by 1 year on defined benefit obligation	(4)	(4)

ii) Gratuity:

Gratuity is a lump sum plan and the cost of providing these benefits is typically less sensitive to small changes in demographic assumptions. The key actuarial assumptions to which the benefit obligation results are particularly sensitive to are discount rate, future salary escalation rate and withdrawal rate. The following table summarizes the impact on the reported defined benefit obligation at the end of the reporting period arising on account of an increase or decrease in the reported assumption as below:

Particulars	2022-23			2021-22		
	Discount rate	Salary escalation rate	Withdrawal rate	Discount rate	Salary escalation rate	Withdrawal rate
Impact of increase in 100 bps on defined benefit obligation	(231)	257	(32)	(198)	222	(21)
Impact of decrease in 100 bps on defined benefit obligation	259	(234)	33	223	(200)	21

Total	145	3,572	40,354	44,071	44,071	675	40,472	41,334	41,334

The Management assessed that fair value of cash and trade receivables, unbilled revenue, other current financial assets, borrowings, lease liabilities, trade payables and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

ii) Fair value hierarchy:

Level 1 – Quoted prices (unadjusted) in the active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included with in level 1 that are observable for assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents the fair value measurement hierarchy of financial assets and liabilities measured at fair value on recurring basis as at March 31, 2023 and March 31, 2022.

Particulars	As at March 31, 2023				As at March 31, 2022

There have been no transfers among Level 1, Level 2 and Level 3 during the years ended March 31, 2023 and March 31, 2022.

Reconciliation of Level 3 fair value measurement of financial assets and financial liabilities is as follows:

Particulars	Investment in equity instruments (FVTPL)	Investment in equity instruments (FVTOCI)*	Investment in preference shares (FVTOCI)*1	Payable for acquisition of business (FVTPL)
As at April 1, 2021	1	1	7	500

As at March 31, 2023	1	1	350	129

*The Company has made an irrevocable election to present in other comprehensive income subsequent changes in the fair value of these investments as these are strategic investments and are not held for trading.

One percentage point change in the unobservable inputs used in fair valuation of Level 3 assets and liabilities does not have a significant impact on the value.

The following methods and assumptions were used to estimate the fair values:

- The fair value of the quoted bonds and mutual funds are based on price quotations at reporting date.
- The fair values of the unquoted equity and preference shares have been estimated using a DCF model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, discount rate, credit risk and volatility / the probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted investments.
- Mark to market on forward covers and embedded derivative instruments is based on forward exchange rates at the end of reporting period and discounted using G-sec rate plus applicable spread.

III) Financial risk management

The Company's activities expose it to a variety of financial risks - currency risk, interest rate risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize the potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate the risks arising out of foreign exchange related exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below:

i) Currency risk

The Company operates in multiple geographies and contracts in currencies other than the domestic currency exposing it to risks arising from fluctuation in the foreign exchange rates. The Company uses derivative financial instruments to mitigate foreign exchange related exposures. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Company's policy that no trading in derivative for speculative purposes may be undertaken.

The Company's revenues are principally in foreign currencies and the maximum exposure is in US dollars.

The Board of Directors of the Company has approved the financial risk management policy covering management of foreign currency exposures. The treasury department monitors the foreign currency exposures and enters into appropriate hedging instruments to mitigate its risk. The Company hedges its exposure on a net basis (i.e., expected revenue in foreign currency less expected expenditure in related currency). Consequently, the Company uses derivative financial instruments, such as foreign exchange forward contracts and option contracts, designated as cash flow hedges and fair value hedges to mitigate the risk of changes in foreign currency exchange rates in respect of its forecasted cash flows and on balance sheet exposures.

The details in respect of the outstanding foreign exchange forward contracts and option contracts are given under the derivative financial instruments section below.

In respect of the Company's forward and options contracts, a 1% decrease / increase in the respective exchange rates of each of the currencies underlying such contracts would have resulted in:

- a) an approximately ₹363 Million increase and ₹363 Million decrease in the Company's net profit in respect of its fair value hedges and ₹3,284 Million increase and ₹3,284 Million decrease in the Company's effective portion of cash flow hedges as at March 31, 2023;
- b) an approximately ₹226 Million increase and ₹226 Million decrease in the Company's net profit in respect of its fair value hedges and ₹2,594 Million increase and ₹2,594 Million decrease in the Company's effective portion of cash flow hedges as at March 31, 2022.

The following table presents foreign currency risk from non-derivative financial instruments as at March 31, 2023:

Particulars	₹ in Million						
	US Dollar	Euro	Pound Sterling	Saudi Riyal	Swedish Krona	Other currencies*	Total
Net assets / (liabilities)	50,420	5,718	3,121	1,765	915	3,090	65,029

*Other currencies include currencies such as Emirati Dirham, Australian \$, Canadian \$, South African Rand, Singapore \$, Norwegian Krone, etc.

The following table presents foreign currency risk from non-derivative financial instruments as at March 31, 2022:

Particulars	₹ in Million						
	US Dollar	Euro	Pound Sterling	Saudi Riyal	Swedish Krona	Other currencies*	Total
Net assets / (liabilities)	31,750	5,134	1,463	493	1,009	4,054	43,903

*Other currencies include currencies such as Emirati Dirham, Australian \$, Canadian \$, South African Rand, Singapore \$, Norwegian Krone, etc.

As at March 31, 2023, every 1% increase / decrease in the respective foreign currencies compared to functional currency of the Company would result in increase / decrease in the Company's profit before taxes for the year by approximately 1.16% and (1.16)% respectively.

As at March 31, 2022, every 1% increase / decrease in the respective foreign currencies compared to functional currency of the Company would result in increase / decrease in the Company's profit before taxes for the year by approximately 0.84% and (0.84)% respectively.

A) Derivative Financial Instruments

The Company is exposed to foreign currency fluctuations on foreign currency assets / liabilities and certain Highly Probable Forecast Exposures (HPFE) denominated in foreign currency. The Company follows established risk management policies, including the use of derivatives to hedge foreign currency assets / liabilities and HPFE. The Company regularly reviews its foreign exchange forward and option positions both on a standalone basis and in conjunction with its underlying foreign currency related exposures. The Company monitors the potential risk arising

out of the market factors like exchange rates on a regular basis. The counterparty in these derivative instruments is a bank and the Company considers the risks of non-performance by the counterparty as non-material. The Company has considered the effect of changes, if any, in both counterparty credit risk and its own credit risk in assessing hedge effectiveness and measuring hedge ineffectiveness.

- (ii) The foreign exchange forward and option contracts designated as cash flow hedges mature over a maximum period of 60 months. The Company manages its exposures normally for a period of up to 5 years based on the estimated exposure over that period.

The table below analyzes the derivative financial instrument into relevant maturity based on the remaining period as at balance sheet date. Contracts with maturity not later than twelve months include certain contracts which can be rolled over to subsequent periods in line with underlying exposures.

	As at March 31, 2023	As at March 31, 2022
Not later than twelve months	182,389	143,121
Later than twelve months	195,048	162,637
Total	377,437	305,758

- (iii) During the year ended March 31, 2023 and March 31, 2022, the Company has designated certain foreign exchange forward and options contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions. The related hedge transactions which form a part of hedge reserve as at March 31, 2023 and March 31, 2022 will occur and be reclassified to the statement of profit and loss over a period of 60 months.

The reconciliation for the cash flow hedge reserve for the years ended March 31, 2023 and March 31, 2022 is as follows:

Particulars	₹ in Million	
	As at March 31, 2023	As at March 31, 2022
Balance at the beginning of the year	5,064	3,552
Gain / (loss) recognized in other comprehensive income during the year	(10,653)	5,434
Amount reclassified to profit and loss during the year	913	(3,234)
Tax impact on the above	2,789	(688)
Balance at the end of the year	(1,887)	5,064

Actual future gains and losses associated with forward contracts designated as cash flow hedge may differ materially from the sensitivity analysis performed as at March 31, 2023 and March 31, 2022 due to the inherent limitations associated with predicting the timing and amount of changes in foreign currency exchanges rates and the Company's actual exposures and position.

ii) **Interest risk**

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has no interest rate risk with respect to borrowings as at March 31, 2023 and March 31, 2022.

iii) **Credit risk**

Credit risk refers to the risk of default on its obligation by a counterparty resulting in a financial loss. The carrying amount of all financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹154,117 Million and ₹142,095 Million as at March 31, 2023 and March 31, 2022 respectively being the total of the carrying amount of investments, trade receivables, unbilled revenue, cash and other bank balances and all other financial assets.

The principal credit risk that the Company exposed to is non-collection of trade receivable and late collection of receivable and on unbilled revenue leading to credit loss. The risk is mitigated by reviewing creditworthiness of the prospective customers prior to entering into contract and post contracting, through continuous monitoring of collections by a dedicated team.

The Company makes adequate provision for non-collection of trade receivable and unbilled receivables. Further, the Company has not suffered significant payment defaults by its customers. The Company has considered the latest available credit-ratings of customers to ensure the adequacy of allowance for expected credit loss towards trade and other receivables.

In addition, for delay in collection of receivable, the Company has made a provision for Expected Credit loss ('ECL') based on an ageing analysis of its trade receivable and unbilled revenue. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables and unbilled revenue based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information.

The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. Exposure to customers is diversified and the percentage of revenue from its top five customers is 25.97% for 2022-23 (25.38% for 2021-22). No customer accounted for more than 10% of the trade receivables as at March 31, 2023 and March 31, 2022.

ECL allowance for non-collection and delay in collection of receivable and unbilled revenue, on a combined basis was ₹1,961 Million and ₹1,311 Million for the financial years 2022-23 and 2021-22 respectively. The movement in allowance for doubtful debts comprising provision for both non-collection and delay in collections of receivable and unbilled revenue is as follows:

Particulars	₹ in Million	
	2022-23	2021-22
Balance at the beginning of the year	1,311	1,149
Allowance for expected credit losses	769	348
Amounts written-off	(125)	(194)
Foreign exchange impact	6	8
Balance at the end of the year	1,961	1,311

The Company is also exposed to counter-party risk in relation to financial instruments taken to hedge its foreign currency risks. The counter-parties are banks and the Company has entered into contracts with the counter-parties for all its hedge instruments and in addition, entered into suitable credit support agreements to limit counter party risk where necessary.

The Company's investments primarily include investment in mutual fund units, quoted bonds, commercial papers, non-convertible debentures, deposits with banks and financial institutions. The Company mitigates the risk of counter-party failure by investing in mutual fund schemes with large assets under management, investing in debt instruments issued with sound credit rating and placing corporate deposits with banks and financial institutions with high credit ratings assigned by domestic and international credit rating agencies. The Company does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors.

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high ratings assigned by international and domestic credit rating agencies and analyzing market information on a continuous and evolving basis. Ratings are monitored periodically and the Company has considered the latest available credit ratings as well any other market information which may be relevant at the date of approval of these financial statements.

iv) **Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's treasury department is responsible for liquidity, funding, investment as well as settlement management. Surplus funds are invested in non-speculative financial instruments that include highly liquid funds and corporate deposits. Also, the Company has unutilized credit limits with banks.

Liquidity position of the Company is given below:

39. CAPITAL MANAGEMENT

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Company monitors the return on capital as well as the level of dividends on its equity shares. The Company's objective when managing capital is to maintain an optimal structure so as to maximize shareholder value.

The capital structure is as follows:

Particulars	As at March 31, 2023	As at March 31, 2022
Total equity attributable to the equity shareholders of the Company	159,992	138,749
As a percentage of total capital	92%	91%
Total lease liabilities	13,591	12,909
Total borrowings and lease liabilities	13,591	12,909
As a percentage of total capital	8%	9%
Total capital (Equity and lease liabilities)	173,583	151,658

The Company is predominantly equity financed which is evident from the capital structure table. Further, the Company has always been a net cash company with cash and bank balances along with investment which is predominantly investment in short term mutual funds and debt instruments being far in excess of debt. The Company is not subject to any externally imposed capital requirements.

44. BUSINESS COMBINATION AND ACQUISITIONS

44.(I) Business Combination under Common Control

(i) Amalgamation of Mindtree Limited ('Amalgamating Company') with the Company

The Board of Directors of the Company, in its meeting held on May 6, 2022, approved The Scheme of Amalgamation and Arrangement under Sections 230 - 232 and other applicable provisions of the Companies Act, 2013 for amalgamation of Mindtree Limited ('Amalgamating Company') with the Company ('Scheme').

The aforesaid Scheme was sanctioned by Hon'ble National Company Law Tribunal (NCLT) Mumbai Bench vide order dated September 19, 2022 and Bengaluru Bench vide order dated November 4, 2022 and November 10, 2022. The Scheme has become effective on November 14, 2022 upon filing of the certified copy of the orders passed by NCLT with the relevant Registrar of Companies. In terms of the Scheme, the name of the Company has been changed from 'Larsen & Toubro Infotech Limited' to 'LTIMindtree Limited' w.e.f., November 15, 2022 and all the assets, liabilities, reserves and surplus of the Amalgamating Company have been transferred to and vested in the Company. The Appointed Date of the Scheme is April 1, 2022.

Accounting Treatment

The amalgamation has been accounted in accordance with "Pooling of interest method" as laid down in Appendix C - 'Business combinations of entities under common control' of Ind AS 103 notified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as specified in the scheme, such that:

- All assets and liabilities of the Amalgamating Company are stated at the carrying values as appearing in the standalone financial statements of Amalgamating Company.
- The identity of the reserves have been preserved and are recorded in the same form and at the carrying amount as appearing in the standalone financial statements of Amalgamating Company.
- The inter-company balances between both the companies have been eliminated.
- Comparative financial information in the financial statements of the Amalgamated Company has been restated for the accounting impact of merger, as stated above, as if the merger had occurred from the beginning of the comparative period.

The difference, if any, between the amount recorded as share capital issued and the amount of share capital of the Amalgamating Company has been transferred to capital reserve and presented separately from other capital reserves.

Consequent on the Scheme coming into effect and in accordance with the Share Exchange Ratio enshrined in the Scheme, on November 25, 2022 the Company has allotted its 120,417,607 equity shares of ₹1/- each (fully paid-up) (including 20,341 treasury shares allotted to LTIMindtree Employee Welfare Trust) to the equity shareholders of erstwhile Mindtree Limited as on the 'Record Date' fixed for the said purpose.

Details of assets and liabilities of Erstwhile Mindtree added to the opening balances of the Company (i.e., April 1, 2021) and consequential adjustment to Capital Reserve:

(ii) **Common Control Business Combination- L&T NXT**

The Company entered into a Business Transfer Agreement on May 20, 2021 to acquire the digital transformation business undertaking, incubated and conducted under L&T-NxT ('NxT Digital Business') from Larsen & Toubro Limited (L&T). The Company consummated the above transfer of business on July 1, 2021.

The transaction was recorded in the books of the Company in previous year using the pooling of interests method. Accordingly, the assets and liabilities transferred have been accounted at the carrying amounts as reflected in the books of L&T as at June 30, 2021 and no adjustments have been made to reflect the fair values, or recognize any new assets or liabilities. The difference between the purchase consideration of ₹2,065 Million and the carrying amounts of the net assets transferred of ₹209 Million has been adjusted against retained earnings (including capital reserve of ₹87 Million). The financial information pertaining to the transfer of business is not material and accordingly, financial statements of the Company in respect of the prior periods had not been restated.

(₹ in Million)	
Particulars	Total
Present value of consideration (A)	2,065
Total Net Assets acquired (B)	209
Excess of consideration over net assets transferred	1,856
Adjusted against:	
a) Capital reserve	87
b) Retained earnings	1,769
Total	1,856

(iii) **Amalgamation of Syncordis Software Services India Private Limited and Ruletronics Systems Private Limited with Larsen & Toubro Infotech Limited**

The Scheme of Arrangement ("the Scheme") for amalgamation between Syncordis Software Services India Private Limited and Ruletronics Systems Private Limited ('Transferor Companies'), wholly-owned subsidiaries, with the Company ('Transferee Company') was approved by the Mumbai Bench of National Company Law Tribunal and the Company received the certified true copy of the order on September 6, 2021. The Company has filed the same with Registrar of Companies, Mumbai on September 8, 2021 which is the effective date of amalgamation. The Appointed date of the Scheme is April 1, 2021.

The amalgamation has been accounted under the 'pooling of interests' method, on the carrying value of the assets and liabilities of the Transferor Companies as included in the Standalone Balance Sheet of the Company. Accordingly, the financial information pertaining to amalgamation in respect of the prior periods was restated and goodwill of ₹26 million was recognized in the Standalone Financial Statements of the Company during the previous year.

44. (II) Acquisitions

During the previous year on July 1, 2021, the Company has acquired 100% stake in Cuelogic Technologies Private Limited ('Cuelogic'), along with its 100% subsidiary Cuelogic Technologies Inc for a total enterprise value of USD 8.4 million.

45. GOODWILL

Following is a summary of changes in the carrying amount of goodwill:

(₹ in Million)		
Particulars	As at March 31, 2023	As at March 31, 2022
Balance at the beginning of the year	4,757	4,757
Add: Additions on account of Bluefin Solutions Sdn Bhd (refer note 5)	2	-
Balance at the end of the year	4,759	4,757

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the Cash Generating Units (CGU) or groups of CGUs, which benefit from the synergies of the acquisition.

The recoverable amount of a CGU is determined based on value-in-use. Value-in-use is present value of future cash flows expected to be derived from the CGU. The growth rate for forecast period of 5 years is based on historical trend and an appropriate annual growth rate is considered for periods subsequent to the forecast period. The pre-tax discount rate ranges from 16.4% to 18.9 % based on Weighted Average cost of Capital for the Company.

The Group does its impairment evaluation on an annual basis and based on such evaluation the estimated recoverable amount of the CGU exceeded its carrying amount, hence impairment is not triggered as at reporting date. The Group has performed sensitivity analysis for all key assumptions, including the cash flow projections and is unlikely to cause the carrying amount of the CGU exceed its estimated recoverable amount. These estimates are likely to differ from future actual results of operations and cash flows.

46. SEGMENT REPORTING

In accordance with Ind AS 108 'Operating Segment', the Company has disclosed Segment information on consolidated basis for the year ended March 31, 2023 which is available as part of the audited consolidated financial statements of the Company.

Independent Auditor's Report

To The Members of LTIMindtree Limited (formerly known as Larsen & Toubro Infotech Limited)
Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **LTIMindtree Limited** (formerly known as Larsen & Toubro Infotech Limited) ("the Parent") and its subsidiaries, (the Parent and its subsidiaries together referred to as "the Group") which comprise the Consolidated Balance Sheet as at March 31, 2023, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial statements of the subsidiaries referred to in the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS"), and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2023, and their consolidated profit, their consolidated total comprehensive income, their consolidated changes in equity and their consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the sub-paragraph (a) of the Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

- The Parent's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Parent's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India.

The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent, as aforesaid.

In preparing the consolidated financial statements, the respective Management of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- We did not audit the financial statements of 25 subsidiaries, whose financial statements reflect total assets of ₹9,754 Million as at March 31, 2023, total revenues of ₹15,374 Million and net cash flows amounting to ₹1,546 Million for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.
- We did not audit the financial statements / financial information of 4 subsidiaries whose financial statements / financial information reflect total assets of ₹2,578 Million as at March 31, 2023, total revenues of ₹3,996 Million and net cash flows amounting to ₹57 Million for the year ended on that date, as considered in the consolidated financial statements. These financial statements / financial information are unaudited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, is based solely on such unaudited financial statements / financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements / financial information are not material to the Group.

(c) The consolidated comparative financial information of the Group for the year ended March 31, 2022 prepared prior to effective date of the business combination of entities under common control referred to in Note 45 (l)(i) of the financial statements were audited by the predecessor auditor (whose reports dated April 19, 2022 expressed an unmodified opinion). These previously issued financial information have been restated to comply with Ind AS 103 Appendix C for Business combinations of entities under common control and included in this financial statements as comparative financial information. The adjustments made to the previously issued financial information to comply with the said Ind AS have been audited by us.

Our opinion on the consolidated financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the reports of the other auditors on the separate financial statements of the subsidiaries referred to in the Other Matters section above we report, to the extent applicable that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books, returns and the reports of the other auditors.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors of the Parent as on March 31, 2023 taken on record by the Board of Directors of the Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to consolidated financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Parent and subsidiary companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls with reference to consolidated financial statements of those companies.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the auditor's reports of subsidiary companies incorporated in India, the remuneration paid / provided by the Parent and such subsidiary companies to their respective directors during the year is in accordance with the provisions of Section 197 of the Act.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group - Refer Note 36 to the consolidated financial statements;
 - ii) Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts - Refer Note 27 to the consolidated financial statements;
 - iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Parent and its subsidiary companies incorporated in India.
 - iv) (a) The respective Managements of the Parent and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and to the other auditors of such subsidiaries to the best of their knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Parent or any of such subsidiaries, to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Parent or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (b) The respective Managements of the Parent and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us and to the other auditors of such subsidiaries, to the best of their knowledge and belief, no funds have been received by the Parent or any of such subsidiaries from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Parent or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances performed by us and that performed by the auditors of the subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
 - vi) (a) The final dividend proposed in the previous year, declared and paid by the Parent during the year is in accordance with Section 123 of the Act, as applicable.
 - (b) The interim dividend declared and paid by the Parent during the year and until the date of this report is in accordance with Section 123 of the Companies Act 2013.
 - (c) As stated in note 48 to the consolidated financial statements, the Board of Directors of the Parent and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, where applicable, have proposed final dividend for the year which is subject to the approval of the members of the Parent and such subsidiaries at the ensuing respective Annual General Meetings. Such dividend proposed is in accordance with Section 123 of the Act, as applicable.
- vi) Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable w.e.f., April 1, 2023 to the Parent and its subsidiaries, which are companies incorporated in India, and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended March 31, 2023

2. With respect to the matters specified in clause (xxi) of paragraph 3 and paragraph 4 of the Companies (Auditor's Report) Order, 2020 ("CARO"/ "the Order") issued by the Central Government in terms of Section 143(11) of the Act, according to the information and explanations given to us, and based on the CARO reports issued by us and the auditors of respective companies included in the consolidated financial statements to which reporting under CARO is applicable, as provided to us by the Management of the Parent, we report that there are no qualifications or adverse remarks by the respective auditors in the CARO reports of the said companies included in the consolidated financial statements.

Annexure “A” to the Independent Auditor’s Report

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of LTIMindtree Limited (formerly known as Larsen & Toubro Infotech Limited) of even date)

Report on the Internal Financial Controls with reference to consolidated financial statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the “Act”)

In conjunction with our audit of the consolidated Ind AS financial statements of LTIMindtree Limited (formerly known as Larsen & Toubro Infotech Limited) as of and for the year ended March 31, 2023, we have audited the internal financial controls with reference to consolidated financial statements of LTIMindtree Limited (formerly known as Larsen & Toubro Infotech Limited) (hereinafter referred to as the “Parent”) and its subsidiary companies, which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to consolidated financial statements criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Parent and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Parent and its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls with reference to consolidated financial statements

A company’s internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to consolidated financial statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph below, the Parent and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2023, based on the criteria for internal financial control with reference to consolidated financial statements established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

Our aforesaid report under Section 143(3)(i) of the on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements insofar as it relates to 3 subsidiary companies, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matter.

Notes Forming Part of Consolidated Financial Statements

1. GROUP OVERVIEW

LTIMindtree Limited (formerly known as Larsen & Toubro Infotech Limited) ('the Company') together with its subsidiaries is collectively referred to as 'the Group'. The Group offers extensive range of IT services like agile, analytics and information management, application development, maintenance and outsourcing, enterprise solutions, infrastructure management services, testing, digital solutions, and platform-based solutions to the clients in diverse industries.

The Company is a public limited company incorporated and domiciled in India and has its registered office at L&T House, Ballard Estate, Mumbai – 400 001, Maharashtra, India. The Company's equity shares are listed on the National Stock Exchange of India Limited and BSE Limited in India.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Basis of preparation and Statement of compliance

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as prescribed under Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Amounts in the consolidated financial statements are presented in Indian Rupees in Million [10 Lakh = 1 Million] as permitted by Schedule III to the Companies Act, 2013. Per share data is presented in Indian Rupees.

Preparation of the financial statements in conformity with Ind AS requires the management of the Group to make estimates and assumptions that affect the income and expense reported for the period and assets, liabilities and disclosures reported as of the date of the financial statements. Examples of such estimates include estimated cost of completion, useful lives of property, plant and equipment and intangible assets, provision for doubtful debts, future obligations in respect of retirement benefit plans, considering the extension period for determination of lease term etc. Actual results could vary from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised, and by giving prospective impact in the consolidated financial statements.

As fully described in Note 45(i)(i), during the year, erstwhile Mindtree Limited has merged with the Company based on the Scheme sanctioned by NCLT. Accordingly, the previously published consolidated financial statement of the Group has been restated for accounting of merger as the entities are under common control.

b) Presentation of consolidated financial statements

The consolidated financial statements (including balance sheet, statement of profit and loss and the statement of changes in equity) are prepared and presented in the accordance with the format prescribed in Division II of Schedule III to the Companies Act, 2013, as amended from time to time. The consolidated cash flow statement has been prepared and presented as per the requirements of Ind AS 7 "Cash Flow Statements". The disclosure requirements with respect to items in the balance sheet and statement of profit and loss, as prescribed in Schedule III to the Act, are presented by way of notes forming part of consolidated financial statements along with the other notes required to be disclosed under the notified Accounting Standards.

c) Operating cycle for current and non-current classification

The Group identifies asset / liabilities as current if the same are receivable/payable within twelve months else the same are considered as non-current.

d) Principles of consolidation

The consolidated financial statements comprise the financial statements of the Company and entities controlled by the Company (subsidiaries). Control is achieved when the Company is exposed to or has rights to variable returns from its involvement with the investee and can affect those returns through its power over the investee. Specifically, the Company controls an investee if and only if the Company has:

- Power over the investee,
- Exposure or rights to variable return from its involvement with the investee, and
- Ability to use its power over the investee to affect its returns.

The financial statements of the subsidiary companies are consolidated on a line-by-line basis and intra-group balances and transactions, including unrealized gain / loss from such transactions, are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group. Non-controlling interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the Company, are excluded.

e) Business Combination

Business combinations other than the common control transactions are accounted for using the purchase (acquisition) method. The purchase price is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of obtaining control. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Transaction costs incurred in connection with a business acquisition are expensed as incurred. Any subsequent changes to the fair value of contingent consideration classified as liabilities, other than measurement period adjustments, are recognized in the statement of profit and loss.

Goodwill represents the cost of the acquired businesses in excess of the fair value of identifiable tangible and intangible net assets purchased.

Business combinations through common control transactions are accounted on a pooling of interest method. No adjustments are made to reflect the fair values, or recognize any new assets or liabilities, except to harmonise accounting policies. The identity of the reserves are preserved and the reserves of the transferor becomes the reserves of the transferee. The difference between consideration paid and the net assets acquired, if any, is recorded under capital reserve / retained earnings, as applicable.

f) Revenue from Contracts with Customers

Revenue is recognized upon transfer of control of promised services to customers. Revenue is measured based on the transaction price as per the contract with a customer net of variable consideration on account of volume discounts, rebates and other similar allowances.

At contract inception, the Group assesses its promise to transfer products or services to a customer to identify separate performance obligations. The Group applies judgment to determine whether each product or service promised to a customer is capable of being distinct, and are distinct in the context of the contract, if not, the promised products or services are combined and accounted as a single performance obligation.

The Group allocates the transaction price (net of variable consideration) to separately identifiable performance obligations based on their relative standalone selling price or residual method. Standalone selling prices are determined based on sale prices for the components when it is regularly sold separately, in cases where the Group is unable to determine the stand-alone selling price the Group uses third-party prices for similar deliverables or the Group uses expected cost-plus margin approach in estimating the stand-alone selling price.

Revenue from contracts priced on time and material basis is recognized when services are rendered, and the related costs are incurred.

Revenue related to fixed price maintenance and support services contracts where the Group provides services is recognized based on time elapsed mode and revenue is straight-lined over the period of performance.

Revenue from services performed on fixed-price basis is recognized using the input method as defined in Ind AS 115 – Revenue from Contracts with customers. The Group uses cost expended to measure progress towards completion as there is a direct relationship between input and productivity. If the Group does not have a sufficient basis to measure the progress of completion or to estimate total contract revenues and costs, revenue is recognized only to the extent of contract cost incurred for which recoverability is probable.

When total cost estimates exceed revenue in arrangement, the estimated losses are recognized in the statement of profit and loss in the period in which such losses become probable based on the current contract estimates.

Revenue from sale of licenses / hardware, where the customer obtains a “right to use” the licenses / hardware is recognized at the point in time when the related license / hardware is made available to the customer. Revenue from licenses / hardware where the customer obtains a “right to access” is recognized over the access period. For allocating the transaction price to sale of licenses / hardware and related implementation and maintenance services, the Group measures the revenue in respect of each performance obligation of a contract as its relative standalone selling price. In case, where the licenses are required to be substantially customized as part of implementation service, the entire arrangement fee is considered as single performance obligation and revenue is recognized as per input method.

Revenue for supply of third party products or services are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognizes revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

The Company accounts for variable considerations like, volume discounts, rebates, pricing incentives to customers and penalties as reduction of revenue on a systematic and rational basis over the period of the contract. The Group estimates an amount of such variable consideration using expected value method or the single most likely amount in a range of possible consideration depending on which method better predicts the amount of consideration to which the Group may be entitled and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.

The Company accrues the estimated cost of post contract support services at the time when the revenue is recognized. The accruals are based on the Group’s historical experience of material usage and service delivery costs.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. Contract modifications involving services added that are not distinct are accounted for on a cumulative catch-up basis, while those that are distinct are accounted for prospectively as a separate contract.

‘Unbilled revenues’ (contract asset) represent revenue earned in excess of billings as at the end of the reporting period. Where right to consideration is unconditional upon passage of time is classified as a financial asset however, for fixed price development contracts, where milestone is not due as per contract terms as on date of reporting, the same is classified as non-financial asset.

‘Unearned & deferred revenue’ (contract liabilities) represent billing in excess of revenue recognized.

Deferred contract costs consist of:

- i) Incremental costs that relate directly to a contract and incurred in securing a contract with a customer are recognized as an asset when the Group expects to recover these costs and amortized over the contract term.
- ii) Fulfillment cost specifically relating to a contract or to an anticipated contract, the costs generate or enhance resources that will be used in satisfying performance obligations in future; and the costs are expected to be recovered. The asset so recognized is amortized on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates.

Use of significant judgments in revenue recognition:

The Group uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Group to estimate costs expended to date as a proportion of the total costs to be expended. Costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Further, the Group uses significant judgments while determining the transaction price to be allocated to performance obligations.

Provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

g) Other income

Other Income comprises primarily of interest income, dividend income, gain / loss on investment and foreign exchange gain / loss.

- i) Interest income is recognized using effective interest method.
- ii) Dividend income is accounted in the period in which the right to receive the same is established.

h) Employee benefits

I) Short-term employee benefits

All employee benefits falling due wholly within twelve months of rendering the service are classified as short-term employee benefits. The benefits like salaries, and performance incentives are recognized in the period in which the employee renders the related service.

II) Post-employment benefits

- i) **Defined contribution plan:**
The Group’s superannuation fund and state governed provident fund scheme are classified as defined contribution plans. The contribution paid / payable under the schemes is recognized during the period in which the employee renders the related service.
- ii) **Defined benefit plans:**
The provident fund scheme managed by trust, employee’s gratuity fund scheme managed by the insurers and post-retirement medical benefit scheme are the Group’s defined benefit plans. Wherever applicable, the present value of the obligation under such defined benefit plans is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash-flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on government bonds as at the balance sheet date, having maturity periods approximating to the terms of related obligations. Actuarial gains and losses through re-measurement of the defined benefit liability/ (asset) are recognized in other comprehensive income. The actual return of portfolio of plan assets, in excess of yields computed by applying the discount rate used to measure the defined benefit obligation are recognized in other comprehensive income. Remeasurements comprising of actuarial gains or losses and return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are not reclassified to statement of profit and loss in subsequent periods.

The effect of any plan amendment is recognized in statement of profit and loss.

Gains or losses on the curtailment or settlement of any defined benefit plan are recognized when the curtailment or settlement occurs. Past service cost resulting from a plan amendment or curtailment are recognized immediately in the statement of profit and loss.

iii) **Compensated absences**

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as undiscounted liability at the balance sheet date. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date.

iv) **Long-term employee benefits:**

The obligation for long-term employee benefits is recognized as determined by actuarial valuation performed by independent actuary at each balance sheet date using Projected Unit Credit Method on the additional amount expected to be paid / availed as a result of unused entitlement that has accumulated at balance sheet date. Actuarial gains and losses are recognized immediately in statement of profit and loss.

v) **Social security plans**

Employer's contribution payable with respect to the social security plans, which are defined contribution plans, is charged to the statement of profit and loss in the period in which employee renders the services.

The Code on Social Security, 2020 has been enacted by the Indian Parliament, which would impact the contributions by the Group towards Provident Fund and Gratuity. The effective date from which the changes will be applicable and the corresponding Rules, are yet to be notified. The Group will complete its evaluation and will give appropriate impact in the period in which, the Code and the corresponding Rules become effective.

i) Government grants

The Group recognizes government grants only when there is reasonable assurance that the conditions attached to them will be complied with, and the grants will be received. Government grants related to assets are treated as deferred income and are recognized in the net profit in the Statement of Profit and Loss on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in the net profit in the Statement of Profit and Loss over the periods necessary to match them with the related costs which they are intended to compensate.

j) Property, plant and equipment

Property plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditure directly attributable to the acquisition or construction of the asset and cost incurred for bringing the asset to its present location and condition.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or disposition of the asset and the resultant gains or losses are recognized in the statement of profit and loss.

Amounts paid towards the acquisition of property, plant and equipment outstanding as of each reporting date and the cost of property, plant and equipment not available for use before such date are disclosed under capital advances and capital work-in-progress (CWIP) respectively.

k) Intangible assets

Intangible assets are stated at cost, less accumulated, amortization and impairment. Goodwill represents the cost of acquired businesses in excess of the fair value of net identifiable assets acquired.

l) Impairment

i) Impairment of trade receivables, unbilled receivables and lease receivables:

The Group assesses at each date of Balance Sheet whether a financial asset in form of trade receivables, unbilled receivables and lease receivables is impaired. In accordance with Ind AS 109, the Group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss. As a practical expedient, the Group uses a provision matrix to determine impairment loss on portfolio of its trade receivables and unbilled receivables. The provision matrix is based on available external and internal credit risk factors such as credit default, credit rating from credit rating agencies and Group's historically observed default rates over

the expected life of trade receivables and unbilled receivables. ECL impairment loss allowance or reversal is recognized during the period as expense or income respectively in the statement of profit and loss.

ii) Impairment of intangible assets:

i) Goodwill

Goodwill represents the cost of acquired businesses in excess of the fair value of net identifiable assets acquired. Goodwill is not amortized but is tested for impairment annually or immediately when events or changes in circumstances indicate that an impairment loss would have occurred. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the Group's cash generating units (CGU) or groups of CGU's expected to benefit from the synergies arising from the business combination. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets. The carrying amount of the cash generating unit, including goodwill, is compared with its recoverable amount. When the carrying amount of the cash generating unit exceeds its recoverable amount, a goodwill impairment loss is recognized. Total impairment loss of a CGU is allocated first to reduce the carrying amount of goodwill allocated to the CGU and then to the other assets of the CGU prorata on the basis of the carrying amount of each asset in the CGU. Goodwill impairment losses are not reversed.

ii) Other intangible assets

At the end of each reporting period, the Group reviews the carrying amounts of intangible assets to determine if there is any indication of impairment. If such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss. Recoverable amount is the higher of the value in use or fair value less cost to sell. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

m) Leases

The Group as a lessee

The Group's lease asset classes primarily consist of leases for land, buildings, furniture & fixtures and vehicles. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (1) the contract involves the use of an identified asset (2) the Group has substantially all of the economic benefits from use of the asset throughout the period of the lease and (3) the Group has the right to direct the use of the asset throughout the period of use.

At the date of commencement of the lease, the Group recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The Group determines the lease term as the non-cancellable period of a lease, together with periods covered by an option to extend the lease, where the Group is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise the option.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the lessee. Lease liabilities are remeasured with a corresponding adjustment to the related right-of-use asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Group as a lessor

Leases for which the Group is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

For Finance leases, initially asset held under finance lease is recognized in balance sheet and presented as a receivable at an amount equal to the net investment in the lease. Finance income is recognized over the lease term, based on a pattern reflecting a constant periodic rate of return on Group's net investment in the lease.

n) Depreciation

i) Property, plant and equipment

Depreciation on assets have been provided on straight-line basis as mentioned in below table except for the leasehold improvements which is depreciated over the lease period or life of asset, whichever is lower. Depreciation on additions and disposals are calculated on pro-rata basis from and to the month of additions and disposals.

Particulars	Useful life
• Buildings	Up to 60 years
• Computers and IT peripherals	Up to 6 years
• Plant and machinery	Up to 10 years
• Office equipment	Up to 5 years
• Vehicles	Up to 8 years
• Furniture and fixtures	Up to 5 years

ii) Intangible assets and amortization

The estimated useful life of an intangible asset is based on number of factors including the effects of obsolescence, demand, competition and other economic factors and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. The intangible assets are amortised on straight-line basis over the useful life as mentioned in below table :

Particulars	Useful life
• Computer software	Up to 5 years
• Customer contracts	Up to 10 years
• Rights under licensing agreement	Up to 6 years
• Intellectual property	Up to 5 years
• Business alliance relationships	Up to 4 years
• Vendor relationships	Up to 6 years
• Tradename	Up to 6 years
• Technology	Up to 6 years
• Non-compete agreement	Up to 5 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

o) Inventories

Inventories are valued at lower of cost and net realizable value, including necessary provision for obsolescence. Cost is determined using the weighted average method. Cost comprises of all costs of purchase and other costs incurred in bringing the inventory to its present location and condition.

p) Share-based payments

In respect of stock options granted pursuant to the Group's stock options scheme, the excess of fair value of the share over the exercise price of the option is treated as discount and accounted as employee compensation cost over the vesting period. The amount recognized as expense each year is arrived at based on the number of grants expected to vest. If options granted lapse after the vesting period, the cumulative discount recognized as expense in respect of such options is transferred to the general reserve. If options granted lapse before the vesting period, the cumulative discount recognized as expense in respect of such options is transferred to the profit and loss.

q) Functional and presentation currency

The functional currency of the Group is the Indian Rupee. The functional currency of Indian subsidiaries is the Indian Rupee and the functional currency of foreign subsidiaries is the currency of the primary economic environment in which these subsidiaries operate. The consolidated financial statements of the Group are presented in Indian Rupees.

r) Foreign currency transactions and balances

Foreign currency transactions related to company and its branches are initially recorded at the rates prevailing on the date of the transaction. At the balance sheet date, foreign currency monetary items are reported using the closing rate. Exchange gains and losses arising on settlement and restatement are recognized in the statement of profit and loss. Non-monetary items which are carried at historical cost denominated in foreign currency are reported using the exchange rate at the date of the transaction.

Translation of foreign currency transactions of foreign subsidiaries into functional currency are treated as under:

- Profit and loss items at the average rate for the period;
- All assets and liabilities at closing rates

Exchange difference on settlement / year end conversion is recognized in foreign currency translation reserve.

Foreign currency gains and losses are reported on a net basis.

s) Financial Instruments

Financial assets and liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument.

I) Initial measurement

Financial assets (excluding trade receivables) and liabilities are initially measured at fair value, i.e., transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. Trade receivables that do not contain a significant financing component are measured at transaction price.

II) Subsequent classification and measurement

i) Non-derivative financial assets

A. Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- the contractual terms of financial assets give rise on specified dates that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using effective interest method less impairment loss if any.

B. Debt instruments at fair value through other comprehensive income (FVTOCI)

Debt instruments are subsequently measured at fair value through other comprehensive income if the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling the financial asset. Group recognizes interest income, impairment losses & reversals and foreign exchange gain/(loss) in statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from equity to profit and loss. Interest earned is recognized under the effective interest rate (EIR) method.

C. Equity instruments at FVTOCI

All equity instruments are measured at fair value. Equity instruments held for trading is classified as FVTPL. For all other equity instruments, the Group may make an irrevocable election to present subsequent changes in the fair value in OCI. The Group makes such election on an instrument-by-instrument basis. If the Group decides to classify an equity instrument as FVTOCI, then all fair value changes on the instrument, excluding dividend are recognized in OCI. On derecognition of the instrument the cumulative gain or loss is not reclassified to the statement of profit and loss but will be transferred to retained earnings.

D. Financial assets at fair value through profit and loss (FVTPL)

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in statement of profit and loss.

ii) Non-derivative financial liability

Financial liabilities are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest method except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss.

iii) Derivative financial instrument

The Group holds derivative financial instrument such as foreign exchange forward contracts and options contracts including a combination of purchased and written options to mitigate the risk of changes in exchange rates on foreign currency exposures and forecast transactions. The counterparty for these contracts is generally a bank.

The Group uses hedging instruments that are governed by the risk management policy which is approved by the board of directors. The policy provides written principles on the use of such derivative financial instruments. The Group designates such instruments as hedges and performs assessment of hedge effectiveness based on consideration of terms of the hedging instrument, the economic relationship between the hedging instrument and hedged item and the objective of the hedging.

Derivatives are recognized and measured at fair value. Attributable transaction costs are recognized in statement of profit and loss.

A. Cash flow hedges

The Group designates certain derivative instruments as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast transactions.

When a derivative is designated as a Cash flow hedge instrument, the effective portion of changes in fair value of the derivative is recognized in other comprehensive income and presented within equity as hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the Statement of Profit and Loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in Cash flow hedge reserve is transferred to the Statement of Profit and Loss upon the occurrence of related forecasted transaction.

B. Fair value hedges

Changes in the fair value of the derivative instruments designated as fair value hedges are recognized in statement of profit and loss.

III) Derecognition

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial assets expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability is derecognized from the Group's balance sheet where the obligation specified in the contract is discharged or cancelled or expired.

IV) Offsetting

Financial assets and financial liabilities are offset and the net amounts are presented in the balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

t) Taxes on income

Income tax expense comprises current and deferred income tax. Tax on income for Indian companies for the current period is determined on the basis of taxable income and tax credits computed in accordance with the provisions of the Indian Income tax Act, 1961. Foreign subsidiaries recognize current tax / deferred tax liabilities and assets in accordance with the applicable local laws.

Income tax and deferred tax expense is recognized in the statement of profit and loss except to the extent that it relates to items recognized directly in other comprehensive income, in which case income tax expense is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities.

The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction. Other deferred tax assets are recognized and carried forward to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted as on the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and branches where it is expected that the earnings of the subsidiary or branch will not be distributed in the foreseeable future. Deferred Income taxes are not provided on dividend receivable from subsidiaries as the Group is able to control the timing of reversal of such temporary difference. Deferred tax is provided on unrealized intra Group profit at the rate of tax applicable to the purchasing entity.

The Group offsets deferred income tax assets and liabilities, where it has a legally enforceable right to offset current tax assets against current tax liabilities, and they relate to taxes levied by the same taxation authority on either the same taxable entity, or on different taxable entities where there is a right and an intention to settle the current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

u) Borrowing costs

Borrowing costs include finance costs, commitment charges, interest expense on lease liabilities. Borrowing costs are recognized in the statement of profit and loss using the effective interest rate method.

v) Provisions, contingent liabilities and contingent assets

Provisions are recognized for liabilities that can be measured only by using a substantial degree of estimation, if:

- I) the Group has a present obligation as a result of a past event,
- II) a probable outflow of resources is expected to settle the obligation; and
- III) the amount of the obligation can be reliably estimated.

Provision is measured using the cash flows estimated to settle the present obligation and when the effect of time value of money is material, the carrying amount of the provision is the present value of those cash flows. Reimbursement expected in respect of expenditure required to settle a provision is recognized only when it is virtually certain that the reimbursement will be received and a reliable estimate can be made of the amount of the obligation.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

Contingent liability is disclosed in case of

- I) a present obligation arising from a past event when it is not probable that an outflow of resources will be required to settle the obligation or the amount of obligation can not be measured with sufficient reliability; or
- II) a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent assets are neither recognized nor disclosed.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

w) Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period, adjusted for bonus elements in equity shares, if any, issued during the period.

Diluted EPS is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

x) Segment accounting

Operating segments are defined as components of an enterprise for which discrete financial information is used regularly by the Group's Chief Operating Decision Maker in deciding how to allocate resources and assessing performance.

- i) Segment revenue is the revenue directly identifiable with the segment.
- ii) Expenses that are directly identifiable with or allocable to segments are considered for determining the segment result. Expenses which relate to the Group as a whole and not identifiable with / allocable to segments are included under "Unallocable expenses".
- iii) Other income relates to the Group as a whole and is not identifiable with / allocable to segments.
- iv) Assets and liabilities used in the Group's business are not identified to any of the reportable segments as these are used interchangeably.

y) Cash flow statement

Cash flow statement is prepared segregating the cash flows from operating, investing and financing activities. Cash flow is reported using indirect method as per the requirements of Ind AS 7 ("Cash flow statements"), whereby profit for the year is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows.

z) Recent accounting pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 – Presentation of Financial Statements – This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Group has evaluated the amendment and the impact of the amendment is insignificant in the consolidated financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors – This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The Group has evaluated the amendment and there is no impact on its consolidated financial statements.

Ind AS 12 – Income Taxes – The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Group is evaluating the impact, if any, in consolidated financial statements.

5. GOODWILL

Following is a summary of changes in the carrying amount of goodwill:

Particulars	As at	
	March 31, 2023	March 31, 2022
Carrying value at the beginning of the year	11,632	11,306
Add: Acquisition during the year (Refer Note 45 (ii))	-	374
Add: Translation differences	260	(48)
Carrying value at the end of the year	11,892	11,632

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the Cash Generating Units (CGU) or groups of CGUs, which benefit from the synergies of the acquisition.

The recoverable amount of a CGU is determined based on value-in-use. Value-in-use is present value of future cash flows expected to be derived from the CGU. The growth rate for forecast period of 5 years is based on historical trend and an appropriate annual growth rate is considered for periods subsequent to the forecast period. The pre-tax discount rate ranges from 16.4% to 18.9 % based on Weighted Average cost of Capital for the Company.

The Group does its impairment evaluation on an annual basis and based on such evaluation the estimated recoverable amount of the CGU exceeded its carrying amount, hence impairment is not triggered as at reporting date. The Group has performed sensitivity analysis for all key assumptions, including the cash flow projections and is unlikely to cause the carrying amount of the CGU exceed its estimated recoverable amount. These estimates are likely to differ from future actual results of operations and cash flows.

The goodwill has been allocated to CGUs as follows:

Employee Stock Option Plan 2021 ('ESOP 2021')

On May 22, 2021, the shareholders of the Company have approved the Employee Stock Option Plan 2021 ('ESOP 2021') for the issue of up to 2,000,000 options (including the unutilized options under ERSP 2012) to employees of the Company. The Nomination and Remuneration Committee ('NRC') administers the plan through a trust established specifically for this purpose, called the LTIMindtree Employee Benefit Trust - formerly Mindtree Employee Welfare Trust ('ESOP Trust').

The ESOP Trust shall subscribe to the equity shares of the Company using the proceeds from loans obtained from the Company, other cash inflows from allotment of shares to employees under the ESOP Plan, to the extent of number of shares as is necessary for transferring to the employees. The NRC shall determine the exercise price which will not be less than the face value of the shares. Options under this program are granted to employees at an exercise price periodically determined by the NRC. All stock options have a four-year vesting term. The options vest and become fully exercisable at the rate of 25% each over a period of 4 years from the date of grant. Each option is entitled to 1 equity share of ₹10 each. These options are exercisable within 6 years from the date of vesting.

On May 22, 2021, the shareholders of the Company, through postal ballot, have approved the grant of loan to LTIMindtree Employee Benefit Trust-formerly Mindtree Employee Welfare Trust ('ESOP Trust'), the value of which, shall not exceed the statutory ceiling of five (5%) percent of the paid-up capital and free reserves of the Company as on March 31, 2021. Further, the Company has obtained in-principle approval for listing of up to a maximum of 2,000,000 equity shares of ₹10 each to be issued under ESOP 2021 from NSE and BSE on June 10, 2021 and June 14, 2021 respectively. The trust deed was executed effective May 25, 2021 and registered on August 24, 2021.

*This includes Fixed Price contracts of ₹40,640 Million (Previous year: ₹35,762 Million)

Performance obligations and remaining performance obligations:

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Group expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Group has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized is on time and material basis. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency.

The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2023, other than those meeting the exclusion criteria mentioned above, is ₹252,412 Million (Previous year: ₹221,697 Million). Out of this, the Company expects to recognize revenue of around 64% (previous year 61%) within the next one year and the remaining thereafter.

Major matters in relation to Income Tax

The Group has received tax demand of ₹3,095 Million including interest of ₹212 Million (Previous year: ₹2,750 Million including interest of ₹141 Million), on account of disallowance of exemption u/s 10A/10AA on profits earned by STPI Units/SEZ units on onsite export revenue.

Further the Group has received tax demand of ₹782 Million (Previous year: ₹782 Million) primarily on account of transfer pricing adjustments.

Major matters in relation to Indirect taxes

The Group has received demands of ₹98 Million (Previous year: ₹103 Million) on account of disallowance of certain portion of refund applications with respect to accumulated service tax credit in accordance with relevant CENVAT Credit Rules considering them ineligible and not related with output services.

In respect of the above matters, the Group is in appeal against these disallowances before the relevant Authorities.

The Group believes that its position is likely to be upheld by appellate authorities and considering the facts, the ultimate outcome of these proceedings is not likely to have material adverse effect on the results of operations or the financial position.

37. Estimated amount of contracts remaining to be executed on capital account (net of advances) and not provided for: ₹995 Million (Previous year: ₹4,801 Million).

38. EMPLOYEE BENEFITS

I) General descriptions of defined benefit plans:

i) Gratuity plan

The Group provides for gratuity, a defined benefit retirement plan (“the Gratuity Plan”) covering eligible Indian employees of LTIMindtree. The Gratuity Plan provides a lumpsum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee’s salary and the tenure of employment with the Group. The Group contributes gratuity liabilities to the Trusts set up by the Group. Trustees administer contributions made to the Trusts and contributions are invested in schemes with Insurers as permitted by Indian law.

ii) Post-retirement medical benefit plan

The post-retirement medical benefit plan provides for reimbursement of health care costs to certain categories of employees post their retirement. The reimbursement is subject to an overall ceiling limit sanctioned at the time of retirement. The ceiling limits are based on cadre of the employee at the time of retirement.

iii) Provident fund plan

The Group’s provident fund plan is managed by its holding company through a Trust permitted under the Provident Fund Act, 1952. The plan envisages contribution by employer and employees of the Group and guarantees interest at the rate notified by the Provident Fund Authority. The contribution by employer and employee together with interest are payable at the time of separation from service or retirement whichever is earlier. The benefit under this plan vests immediately on rendering of service.

The interest payment obligation of trust managed provident fund is assumed to be adequately covered by the interest income on long-term investments of the fund. Any shortfall in the interest income over the interest obligation is recognized immediately in the statement of profit and loss. Any loss arising out of the investment risk and actuarial risk associated with the plan is recognized as actuarial loss in the period in which such loss occurs. Further, ₹ Nil has been provided for year ending March 31, 2023 and March 31, 2022 based on actuarial valuation towards the future obligation arising out of interest rate guarantee associated with the plan.

In respect of employees of erstwhile Mindtree Limited monthly contributions were contributed to Employees’ Provident Fund Organization (EPFO) till November 30, 2022. From December 1, 2022, the amount is contributed to the Trust.

The estimates of future salary increases considered in actuarial valuation, take into account inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

XI) Sensitivity analysis

i) Post retirement benefits:

Although the obligation of the Group under the post-retirement medical benefit plan is limited to the overall ceiling limits, assumed healthcare cost trend rates may affect the amounts recognized in the statement of profit and loss. The benefit obligation results for the cost of paying future hospitalization premiums to insurance company and reimbursement of domiciliary medical expenses in future for the employee / beneficiaries during their lifetime is sensitive to discount rate, future increase in healthcare costs and longevity. The following table summarizes the impact on the reported defined benefit obligation at the end of the reporting period arising on account of changes in these three key parameters:

Particulars	2022-23		2021-22	
	Discount rate	Healthcare costs rate	Discount rate	Life expectancy
Impact of increase in 100 bps on defined benefit obligation	(59)		(48)	
Impact of decrease in 100 bps on defined benefit obligation	77		64	
Impact of increase in 100 bps on defined benefit obligation		49		36
Impact of decrease in 100 bps on defined benefit obligation		(40)		(29)
Impact of increase by 1 year on defined benefit obligation			4	4
Impact of decrease by 1 year on defined benefit obligation			(4)	(4)

ii) Gratuity:

Gratuity is a lump sum plan and the cost of providing these benefits is typically less sensitive to small changes in demographic assumptions. The key actuarial assumptions to which the benefit obligation results are particularly sensitive to are discount rate, future salary escalation rate and withdrawal rate. The following table summarizes the impact on the reported defined benefit obligation at the end of the reporting period arising on account of an increase or decrease in the reported assumption as below:

Particulars	2022-23			2021-22		
	Discount rate	Salary escalation rate	Withdrawal rate	Discount rate	Salary escalation rate	Withdrawal rate
Impact of increase in 100 bps on defined benefit obligation	(231)	257	(32)	(198)	222	(21)
Impact of decrease in 100 bps on defined benefit obligation	259	(234)	33	223	(200)	21

Total	145	3,572	42,844	46,561	1,197	187	42,007	43,391

The Management assessed that fair value of cash and trade receivables, unbilled revenue, other current financial assets, borrowings, lease liabilities, trade payables and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

ii) Fair value hierarchy:

Level 1- Quoted prices (unadjusted) in the active markets for identical assets or liabilities.

Level 2- Inputs other than quoted prices included with in level 1 that are observable for assets or liabilities, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3- Inputs for assets or liabilities that are not based on observable market data (unobservable inputs)

*The Group has made an irrevocable election to present in other comprehensive income subsequent changes in the fair value of these investments as these are strategic investments and are not held for trading.

A one percentage point change in the unobservable inputs used in fair valuation of Level 3 assets and liabilities does not have a significant impact on the value.

The following methods and assumptions were used to estimate the fair values:

- The fair value of the quoted bonds and mutual funds are based on price quotations at reporting date.
- The fair values of the unquoted equity and preference shares have been estimated using a DCF model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, discount rate, credit risk and volatility/ the probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted investments.
- Mark to market on forward covers and embedded derivative instruments is based on forward exchange rates at the end of reporting period and discounted using G-sec rate plus applicable spread.

III) Financial risk management

The Group's activities expose it to a variety of financial risks - currency risk, interest rate risk, credit risk and liquidity risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize the potential adverse effects on its financial performance. The primary market risk to the Group is foreign exchange risk. The Group uses derivative financial instruments to mitigate the risks arising out of foreign exchange related exposures. The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below:

i) Currency risk

The Group operates in multiple geographies and contracts in currencies other than the domestic currency exposing it to risks arising from fluctuation in the foreign exchange rates. The Group uses derivative financial instruments to mitigate foreign exchange related exposures. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Group's policy that no trading in derivative for speculative purposes may be undertaken.

The Group's revenues are principally in foreign currencies and the maximum exposure is in US dollars.

The Board of Directors of the Holding Company has approved the Holding Company's financial risk management policy covering management of foreign currency exposures. The treasury department monitors the foreign currency exposures and enters into appropriate hedging instruments to mitigate its risk. The Group hedges its exposure on a net basis (i.e., expected revenue in foreign currency less expected expenditure in related currency). Consequently, the Group uses derivative financial instruments, such as foreign exchange forward contracts and option contracts, designated as cash flow hedges and fair value hedges to mitigate the risk of changes in foreign currency exchange rates in respect of its forecasted cash flows and on balance sheet exposures.

The details in respect of the outstanding foreign exchange forward contracts and option contracts are given under the derivative financial instruments section below.

In respect of the Group's forward and options contracts, a 1% decrease / increase in the respective exchange rates of each of the currencies underlying such contracts would have resulted in:

- a) an approximately ₹363 Million increase and ₹363 Million decrease in the Group's net profit in respect of its fair value hedges and ₹3,284 Million increase and ₹3,284 Million decrease in the Group's effective portion of cash flow hedges as at March 31, 2023;
- b) an approximately ₹226 Million increase and ₹226 Million decrease in the Group's net profit in respect of its fair value hedges and ₹2,594 Million increase and ₹2,594 decrease in the Group's effective portion of cash flow hedges as at March 31, 2022.

The following table presents foreign currency risk from non-derivative financial instruments as at March 31, 2023:

Particulars	₹ in Million						
	US Dollar	Euro	Pound Sterling	Saudi Riyal	Swedish Krona	Other currencies*	Total
Net assets / (liabilities)	51,672	5,457	3,315	1,648	909	2,113	65,114

*Other currencies include currencies such as Emirati Dirham, Australian \$, Canadian \$, South African Rand, Singapore \$, Norwegian Krone, etc.

The following table presents foreign currency risk from non-derivative financial instruments as at March 31, 2022:

Particulars	₹ in Million						
	US Dollar	Euro	Pound Sterling	Saudi Riyal	Swedish Krona	Other currencies*	Total
Net assets / (liabilities)	32,043	4,913	1,718	493	1,009	5,788	45,964

*Other currencies include currencies such as Emirati Dirham, Australian \$, Canadian \$, South African Rand, Singapore \$, Norwegian Krone, etc.

As at March 31, 2023, every 1% increase / decrease in the respective foreign currencies compared to functional currency of the Group would result in increase / decrease in the Group's profit before taxes for the year by approximately 1.12% and (1.12)% respectively.

As at March 31, 2022, every 1% increase/decrease in the respective foreign currencies compared to functional currency of the Group would result in increase / decrease in the Group's profit before taxes for the year by approximately 0.87% and (0.87)% respectively.

A) Derivative Financial Instruments

The Group is exposed to foreign currency fluctuations on foreign currency assets/ liabilities and certain Highly Probable Forecast Exposures (HPFE) denominated in foreign currency. The Group follows established risk management policies, including the use of derivatives to hedge foreign currency assets / liabilities and HPFE. The Group regularly reviews its foreign exchange forward and option positions both on a standalone basis and in conjunction with its underlying foreign currency related exposures. The Group monitors the potential risk arising out of the market factors like exchange rates on a regular basis. The counterparty in these derivative instruments is a bank and the Group considers the risks of non-performance by the counterparty as non-material. The Group has considered the effect of changes, if any, in both counterparty credit risk and its own credit risk in assessing hedge effectiveness and measuring hedge ineffectiveness.

- (ii) The foreign exchange forward and option contracts designated as cash flow hedges mature over a maximum period of 60 months. The Group manages its exposures normally for a period of up to 5 years based on the estimated exposure over that period.

The table below analyses the derivative financial instrument into relevant maturity based on the remaining period as at the balance sheet date. Contracts with maturity not later than twelve months include certain contracts which can be rolled over to subsequent periods in line with underlying exposures.

Maturity profile	₹ in Million	
	As at March 31, 2023	As at March 31, 2022
Not later than twelve months	182,389	143,121
Later than twelve months	195,048	162,637
Total	377,437	305,758

- (iii) During the year ended March 31, 2023 and March 31, 2022, the Group has designated certain foreign exchange forward and options contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions. The related hedge transactions which form a part of hedge reserve as at March 31, 2023 and March 31, 2022 will occur and be reclassified to the statement of profit and loss over a period of 60 months.

The reconciliation for the cash flow hedge reserve for the years ended March 31, 2023 and March 31, 2022 is as follows:

Particulars	(₹ in Million)	
	As at March 31, 2023	As at March 31, 2022
Balance at the beginning of the year	5,064	3,552
Gain / (loss) recognized in other comprehensive income during the year	(10,653)	5,434
Amount reclassified to profit and loss during the year	913	(3,234)
Tax impact on the above	2,789	(688)
Balance at the end of the year	(1,887)	5,064

Actual future gains and losses associated with forward contracts designated as cash flow hedge may differ materially from the sensitivity analysis performed as at March 31, 2023 and March 31, 2022 due to the inherent limitations associated with predicting the timing and amount of changes in foreign currency exchanges rates and the Group's actual exposures and position.

ii) Interest risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group has no interest rate risk with respect to borrowings as at March 31, 2023 and March 31, 2022.

iii) Credit risk

Credit risk refers to the risk of default on its obligation by a counterparty resulting in a financial loss. The carrying amount of all financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹159,941 Million and ₹145,440 Million as at March 31, 2023 and March 31, 2022 respectively being the total of the carrying amount of investments, trade receivables, unbilled revenue, cash and other bank balances and all other financial assets.

The principal credit risk that the Group exposed to is non-collection of trade receivable and late collection of receivable and on unbilled revenue leading to credit loss. The risk is mitigated by reviewing creditworthiness of the prospective customers prior to entering into contract and post contracting, through continuous monitoring of collections by a dedicated team.

The Group makes adequate provision for non-collection of trade receivable and unbilled receivables. Further, the Group has not suffered significant payment defaults by its customers. The Group has considered the latest available credit-ratings of customers to ensure the adequacy of allowance for expected credit loss towards trade and other receivables.

In addition, for delay in collection of receivable, the Group has made a provision for Expected Credit loss ('ECL') based on an ageing analysis of its trade receivables and unbilled revenue. The Group has used a practical expedient by computing the expected credit loss allowance for trade receivables and unbilled revenue based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information.

The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. Exposure to customers is diversified and the percentage of revenue from its top five customers is 25.97% for 2022-23 (25.38% for 2021-22). No customer accounted for more than 10% of the trade receivables as at March 31, 2023 and March 31, 2022.

ECL allowance for non-collection and delay in collection of receivables and unbilled revenue, on a combined basis was ₹2,096 Million and ₹1,505 Million for the financial years 2022-23 and 2021-22 respectively. The movement in allowance for doubtful debts comprising provision for both non-collection and delay in collections of receivables and unbilled revenue is as follows:

Particulars	(₹ in Million)	
	As at March 31, 2023	As at March 31, 2022
Balance at the beginning of the year	1,505	1,269
Allowance for expected credit losses	695	470
Amounts written-off	(130)	(201)
Foreign exchange impact	26	(33)
Balance at the end of the year	2,096	1,505

The Group is also exposed to counter-party risk in relation to financial instruments taken to hedge its foreign currency risks. The counter-parties are banks and the Group has entered into contracts with the counter-parties for all its hedge instruments and in addition, entered into suitable credit support agreements to limit counter party risk where necessary.

The Group's investments primarily include investment in mutual fund units, quoted bonds, commercial papers, non-convertible debentures, deposits with banks and financial institutions. The Company mitigates the risk of counter-party failure by investing in mutual fund schemes with large assets under management, investing in debt instruments issued with sound credit rating and placing corporate deposits with banks and financial institutions with high credit ratings assigned by domestic and international credit rating agencies. The Group does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors.

Credit risk on cash and cash equivalents is limited as the Group generally invest in deposits with banks and financial institutions with high ratings assigned by international and domestic credit rating agencies and analyzing market information on a continuous and evolving basis. Ratings are monitored periodically and the Group has considered the latest available credit ratings as well any other market information which may be relevant at the date of approval of these financial statements.

iv) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The Group's treasury department is responsible for liquidity, funding, investment as well as settlement management. Surplus funds are invested in non-speculative financial instruments that include highly liquid funds and corporate deposits. Also, the Group has unutilized credit limits with banks.

Liquidity position of the Group is given below:

40. CAPITAL MANAGEMENT

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Group monitors the return on capital as well as the level of dividends on its equity shares. The Group's objective when managing capital is to maintain an optimal structure so as to maximize shareholder value.

The capital structure is as follows:

Particulars	(₹ in Million)	
	As at March 31, 2023	As at March 31, 2022
Total equity attributable to the equity shareholders of the Group	165,992	142,929
As a percentage of total capital	92%	91%
Total borrowings	1,253	519
Total lease liabilities	14,159	13,392
Total borrowings and lease liabilities	15,412	13,911
As a percentage of total capital	8%	9%
Total capital (Equity, borrowings and lease liabilities)	181,404	156,840

The Group is predominantly equity financed which is evident from the capital structure table. Further, the Group has always been a net cash Group with cash and bank balances along with investment which is predominantly investment in short term mutual funds and debt instruments being far in excess of borrowings. The Group is not subject to any externally imposed capital requirements.

45. BUSINESS COMBINATION AND ACQUISITIONS

45. (I) Business Combination under Common Control

(i) Amalgamation of Mindtree Limited ('Amalgamating Company') with the Company

The Board of Directors of the Company, in its meeting held on May 6, 2022, approved the Scheme of Amalgamation and Arrangement under Sections 230-232 and other applicable provisions of the Companies Act, 2013 for amalgamation of Mindtree Limited ('Amalgamating Company') with the Company ('Scheme').

The aforesaid Scheme was sanctioned by Hon'ble National Company Law Tribunal (NCLT) Mumbai Bench vide order dated September 19, 2022 and Bengaluru Bench vide order dated November 4, 2022 and November 10, 2022. The Scheme has become effective on November 14, 2022 upon filing of the certified copy of the orders passed by NCLT with the relevant Registrar of Companies. In terms of the Scheme, the name of the Company has been changed from 'Larsen & Toubro Infotech Limited' to 'LTIMindtree Limited' w.e.f., November 15, 2022 and all the assets, liabilities, reserves and surplus of the Amalgamating Company have been transferred to and vested in the Company. The Appointed Date of the Scheme is April 1, 2022.

Accounting Treatment

The amalgamation has been accounted in accordance with "Pooling of interest method" as laid down in Appendix C - 'Business combinations of entities under common control' of Ind AS 103 notified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as specified in the scheme, such that:

- (a) All assets and liabilities of the Amalgamating Company are stated at the carrying values as appearing in the consolidated financial statements of Amalgamating Company
- (b) The identity of the reserves have been preserved and are recorded in the same form and at the carrying amount as appearing in the consolidated financial statements of Amalgamating Company
- (c) The inter-company balances between both the companies have been eliminated
- (d) Comparative financial information in the financial statements of the Amalgamated Company has been restated for the accounting impact of merger, as stated above, as if the merger had occurred from the beginning of the comparative period.

The difference, if any, between the amount recorded as share capital issued and the amount of share capital of the amalgamating company has been transferred to capital reserve and presented separately from other capital reserves.

Consequent on the Scheme coming into effect and in accordance with the Share Exchange Ratio enshrined in the Scheme, on November 25, 2022 the Company has allotted its 120,417,607 equity shares of ₹1/- each (fully paid-up) (including 20,341 treasury shares allotted to LTIMindtree Employee Benefit Trust) to the equity shareholders of erstwhile Mindtree Limited as on the 'Record Date' fixed for the said purpose.

NOTICE IS HEREBY GIVEN THAT the Twenty Seventh (27th) Annual General Meeting ('AGM') of the members of **LTIMindtree Limited ('LTIMindtree')** will be held on **Monday, July 17, 2023 at 3:45 p.m. (IST) through Video Conferencing (VC)/Other Audio Visual Means (OAVM)** to transact the following business:

Ordinary Business

- To consider and adopt the Audited Standalone Financial Statements of the Company for the year ended March 31, 2023 and the reports of the Board of Directors and Auditor thereon; and the Audited Consolidated Financial Statements of the Company for the year ended March 31, 2023 and the report of the Auditor thereon.
- To declare a final dividend of ₹ 40/- per equity share of face value of ₹ 1/- each, for the Financial Year 2022-23.
- To appoint a Director in place of Mr. Sudhir Chaturvedi (DIN:07180115), who retires by rotation, and being eligible, has offered himself for re-appointment.
- To appoint a Director in place of Mr. Anilkumar Manibhai Naik (DIN:00001514), who retires by rotation, and being eligible, has offered himself for re-appointment until conclusion of the Annual General Meeting to be held in calendar year 2024.

Special Business

- To consider, and if thought fit, pass the following resolution as SPECIAL RESOLUTION:**

Re-appointment of Mr. Anilkumar Manibhai Naik as Non-Executive Director

"RESOLVED THAT pursuant to the provisions of the applicable laws, the Articles of Association of the Company and upon recommendation of the Board of Directors, Mr. Anilkumar Manibhai Naik (DIN:00001514), who has attained the age of seventy five years and who retires by rotation, and being eligible, has offered himself for re-appointment, be and is hereby re-appointed as Non-Executive Director to hold office until conclusion of the Annual General Meeting to be held in calendar year 2024."

- To consider, and if thought fit, pass the following resolution as ORDINARY RESOLUTION:**

Revision of remuneration of Mr. Sudhir Chaturvedi, Whole-time Director & President-Markets

"RESOLVED THAT pursuant to Sections 196, 197 and other applicable provisions, if any of the Companies Act, 2013, Rules

made thereunder and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, upon recommendation of Nomination and Remuneration Committee and approval of Board of Directors, consent of the members be and is hereby accorded to the revised remuneration of Mr. Sudhir Chaturvedi (DIN:07180115), Whole-Time Director & President-Markets with effect from April 1, 2023, for the remaining period of his present tenure as Whole-time Director upto November 8, 2026, as set out in the Statement pursuant to Sec.102(1) of the Companies Act, 2013 forming part of the Notice convening the 27th Annual General Meeting, and save as above, the other terms and conditions of his appointment and remuneration approved by the members at their 25th Annual General Meeting held on July 17, 2021 shall remain unchanged.

RESOLVED FURTHER THAT in the event of loss or inadequacy of profit of the Company in any financial year during the tenure of Mr. Sudhir Chaturvedi as Whole-Time Director, the remuneration as provided in the Explanatory Statement forming part of the Notice convening the 27th Annual General Meeting or the increased/ revised remuneration as approved by the Board of Directors from time to time, shall be paid to Mr. Sudhir Chaturvedi subject to such approvals as may be necessary and the limits prescribed under Section 197 read with Schedule V of the Companies Act, 2013.

RESOLVED FURTHER THAT for the purpose of giving effect to the foregoing resolutions, the Board of Directors (which term shall be deemed to include any committee of the Board authorized in the said behalf) be and is hereby authorized to do all such acts, deeds and things as it may in its absolute discretion deem necessary, proper or desirable and to settle any question, difficulty or doubt that may arise in respect of the aforesaid, without being required to seek any further consent or approval of members of the Company, to the end and intent that they shall be deemed to have given their approval thereto expressly by the authority of the aforesaid resolutions."

- To consider, and if thought fit, pass the following resolution as ORDINARY RESOLUTION:**

Transactions with Larsen & Toubro Limited, Holding Company (Related Party Transactions)

"RESOLVED THAT pursuant to Regulation 23(4) and other applicable provisions, if any of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations"), the Companies Act, 2013 and Rules made thereunder, read with the circulars issued by the Securities and Exchange Board

of India from time to time, and the Company's Policy on Related Party Transactions, upon recommendation/ approval of Audit Committee and Board of Directors, consent of the Members be and is hereby accorded to enter into and/or continue to enter into contract(s)/transaction(s) with Larsen & Toubro Limited (Holding Company), a Related Party within the meaning of Section 2(76) of the Companies Act, 2013 and Regulation 2(1)(zb) of the SEBI Listing Regulations, in the nature of a) sale, purchase, lease or supply of goods or business assets or property or equipment; b) availing or rendering of services including the use of Trademark, and availing Corporate bank guarantee to provide to LTIMindtree customers, etc.; and c) transfer of any resources, services or obligations to meet business objectives/requirements ("Related Party Transactions"), upto an amount of ₹ 2,000 crore, valid from the date of the 27th Annual General Meeting until the 28th Annual General Meeting to be held in calendar year 2024, on such terms and conditions as the Audit Committee and/or Board of Directors may deem fit.

RESOLVED FURTHER THAT the Board of Directors be and is hereby authorized to delegate all or any of its powers in terms of the foregoing resolution, to any Committee of Directors and/or Director(s) and/or official(s) of the Company, and to do all such acts, deeds, matters and things, as it may in its absolute discretion deem necessary, including but not limited to finalizing the terms and conditions, executing necessary documents and settling all issues that may arise for the purpose of the Related Party Transactions with Larsen and Toubro Limited, without being required to seek further consent or approval of the members of the Company, to the end and intent they shall be deemed to have given their approval thereto expressly by the authority of aforesaid resolution."

By order of the Board of Directors

Company Secretary and Compliance Officer

NOTES:

- a) The Statement pursuant to Section 102 of the Companies Act, 2013 ('Act') in respect of Item Nos. 5, 6 & 7 of the Notice, is annexed hereto. Further, disclosures in relation to item nos. 3, 4, 5 & 6 of the Notice, as required under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI Listing Regulations') and the Secretarial Standard 2 on General Meetings issued by the Institute of Company Secretaries of India ('SS-2') forms part of this notice.
- b) Ministry of Corporate Affairs (MCA) vide its General Circular No. 10/2022 dated December 28, 2022 read with the circulars issued earlier on the subject (collectively referred to as 'MCA Circulars') and SEBI vide its Circular No. SEBI/HO/CFD/PoD-2/P/CIR/2023/4 dated January 05, 2023 read with the circulars issued earlier on the subject (collectively referred to as "SEBI Circulars"), have permitted holding Annual General Meeting ("AGM") through VC/ OAVM, without physical presence of the Members at a common venue.

In compliance with the MCA Circulars and SEBI Circulars, the provisions of the Act and the SEBI Listing Regulations, the 27th AGM is being held through VC/OAVM. In view of the same, the registered office of the Company shall be deemed to be the venue of the AGM.

The Notice of AGM along with the Annual Report for FY23 is being sent by electronic mode to those members whose e-mail address is registered with the Company/Depositories, unless a member has requested for physical copy of the same. Members may note that the Notice of AGM and Annual Report for FY23 will also be available on the Company's website www.ltimindtree.com, website of the Stock Exchanges i.e. BSE Limited (BSE) and National Stock Exchange of India Limited (NSE) at www.bseindia.com and www.nseindia.com, respectively and on the website of National Securities Depository Limited (NSDL) at <https://www.evoting.nsdl.com>. The Company will also publish advertisement in the newspapers containing details of the AGM to be conducted via VC/OAVM, and other relevant information for the shareholders viz. manner of registering e-mail Id. of those shareholders who have not registered their e-mail address with the Company/Registrar and Share Transfer Agent (RTA), noting of mandate for payment of dividend, etc.
- c) Since the AGM is being held through VC/OAVM, route map to the venue is not required and therefore, the same is not annexed to this Notice.
- d) Members attending the meeting through VC/OAVM shall be reckoned for the purpose of quorum under Section 103 of the Act. Members holding equity shares of the Company as on **Monday, July 10, 2023 ('Cut-off date')** can join the meeting anytime 30 minutes before commencement of the AGM by following the procedure outlined in **Annexure – 2** of the Notice.
- e) Attendance through VC/OAVM is restricted and hence, members may join the meeting on first-come-first-served basis. However, attendance of members holding more than 2% of the paid-up share capital of the Company, institutional investors, directors, key managerial personnel, Chairperson of Audit Committee, Nomination and Remuneration Committee & Stakeholders Relationship Committee and Auditor will not be restricted on first-come-first-served basis.

- f) **Appointment of Proxy and Attendance Slip:** Section 105 of the Act read with Rule 19 of the Companies (Management and Administration) Rules, 2014 provides for appointment of proxy to attend and vote at a general meeting on behalf of the member who is not able to physically attend the AGM. Since the 27th AGM is being held through VC/OAVM and in accordance with the MCA Circulars, physical attendance of Members has been dispensed with. Accordingly, the facility of appointment of proxy would not be available to the Members for attending the 27th AGM and therefore proxy form and attendance slip are not annexed to this Notice.
- g) Corporate shareholders/institutional shareholders intending to send their authorised representative(s) to attend and vote at the 27th AGM are requested to send from their registered e-mail address, scan copy of the relevant Board Resolution/ Authority Letter, etc. authorizing their representative(s) to vote, to the Scrutinizer on his e-mail ID at ashishlalpuria@yahoo.co.in with a copy marked to evoting@nsdl.co.in and investor@ltimindtree.com

STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013

The following statement sets out material facts relating to Item Nos. 5, 6 & 7 of the accompanying Notice:

Item No. 5

In terms of the provisions of Section 152 of the Companies Act, 2013, Mr. A. M. Naik, Founder Chairman, is liable to retire by rotation at the conclusion of the 27th AGM, and being eligible, has offered himself for re-appointment. Mr. A.M. Naik has expressed his desire to step down at conclusion of the AGM to be held in calendar year 2024 and hence offered himself for re-appointment only upto the AGM to be held in calendar year 2024.

Regulation 17 (1A) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 provides, *inter-alia*, that no listed entity shall appoint a person or continue the directorship of any person as a non-executive director who has attained the age of seventy-five years, unless a special resolution is passed to that effect.

Considering that Mr. A. M. Naik, Founder Chairman has attained the age of seventy five years, the Board of Directors has approved the re-appointment and continuation of Mr. A. M. Naik as Non-Executive Director, subject to approval of the Members of the Company by way of Special Resolution.

Brief profile of Mr. A.M. Naik

Mr. A.M. Naik is a doyen of industry, reputed for his vision to conceive disruptive change and to drive transformation while boosting value. He has served Larsen & Toubro Limited (L&T) for nearly six decades of which close to two are in an apex leadership position. Taking over as Managing Director & Chief Executive Officer in 1999, and Chairman & Managing Director in 2003, Mr. Naik was appointed Group Executive Chairman in 2012. Effective October 2017, he stepped aside from executive responsibilities, while continuing as Group Chairman. Mr. Naik has been a Director of LTIMindtree since 1996 and is currently its Non-Executive Chairman.

Mr. Naik had articulated the IT vision which led to the parent company's increasing involvement with the sector. He had envisaged the setting up of a market-facing and customer-centric organization that evolved into LTIMindtree Limited (earlier known as Larsen & Toubro Infotech Limited), and placing it on track to accelerated growth. Under his leadership, LTIMindtree has emerged as the sixth largest IT company in India.

He is the Honorary Consul General of Denmark. He was conferred the Danish Knighthood by Her Majesty Queen Margarethe – 2008 and a further honour, the Order of the Dannebrog – Knight First Class in 2015. Over the years, Mr. Naik has been recipient of many national honours, including the Padma Vibhushan (2019), the Padma Bhushan (2009) and Gujarat Garima (2009).

A committed, outcome-oriented philanthropist, Mr. Naik was instrumental in setting up the Larsen & Toubro Public Charitable Trust, which runs several skill training centres around the country. In his personal capacity, he has set up five schools, adopted over 40 and played a major part in the setting up and expansion of a 'Vaidik' school. He has also set up six hospitals in South Gujarat and Mumbai, including a 350-bed cancer hospital which was inaugurated by the Prime Minister of India.

Mr. A. M. Naik is the Non-Executive Chairman of the Company and the parent company, L&T. Under his guidance, the Company has moved rapidly towards achieving its business, social and environmental goals.

Considering Mr. A. M. Naik's diverse and vast experience, the Board recommends the special resolution under Item No. 5 of the accompanying notice on continuation of directorship of Mr. Naik as Non-Executive Director, for approval of the Members of the Company.

Except Mr. A. M. Naik, to whom the resolution relates, none of the Directors and Key Managerial Personnel of the Company and their relatives are concerned or interested, financially or otherwise, in the resolution set out at Item No.5.

The disclosures, as required under the SEBI Listing Regulations and ICSI's Secretarial Standard 2 on General Meetings, are provided as **Annexure - A** to the Notice.

The Board recommends the resolution set forth in Item no. 5 for approval of the members.

Item No. 6

In terms of the provisions of Section 152 of Companies Act, 2013, Mr. Sudhir Chaturvedi is liable to retire by rotation at conclusion of the 27th AGM, and being eligible, has offered himself for re-appointment. Mr. Sudhir Chaturvedi was re-appointed as Whole-Time Director at the 25th AGM held on July 17, 2021, for a period of five years, with effect from November 9, 2021, upto and including November 8, 2026. Since Mr. Chaturvedi was based out of the United Kingdom, remuneration payable to him for the period 09.11.2021 to 08.11.2026 was approved in GBP.

In the post-merger scenario, and in Mr. Sudhir Chaturvedi's enlarged role as President – Markets of the merged entity, Mr. Sudhir Chaturvedi has re-located to the United States of America. Upon recommendation of the Nomination and Remuneration Committee and the Board of Directors, it is proposed to seek approval of the members to the revised remuneration of Mr. Sudhir Chaturvedi w.e.f. April 1, 2023, denominated in US Dollars, for the balance period of his present tenure upto November 8, 2026, as outlined hereunder:

A) Remuneration

Particulars	Remuneration (per annum)
Base Pay	US\$ 7,50,000
Variable compensation	
i) Discretionary Incentive	Upto US\$ 2,25,000
ii) Discretionary Bonus	Upto US\$ 75,000
Total	Upto US\$ 10,50,000

Notes:

- The remuneration including base pay and variable compensation mentioned above payable to Mr. Sudhir Chaturvedi, is subject to an annual increment upto 4% (four percent), as may be decided by the Board of Directors, upon recommendation of the Nomination and Remuneration Committee, from time to time. However, the total remuneration shall not exceed the limits approved by the Members and prescribed under Section 197 read with Schedule V of the Act.

2. Variable Compensation will be based on achievement of the milestones/goals, laid out in the variable compensation plan as may be set out annually.
3. The Board of Directors may, in its sole discretion, grant additional stock options in favour of Mr. Sudhir Chaturvedi provided the total remuneration including base pay, variable compensation and value of additional stock options for that financial year shall not exceed the limits prescribed under Section 197 read with Schedule V of the Companies Act, 2013, without further approval of the Members.
4. Since Mr. Sudhir Chaturvedi is based in the United States of America (USA), hence the remuneration is denominated in US Dollars (US\$).

The Board recommends the resolution set forth in Item no. 6 for approval of the members.

Item No. 7

In terms of the applicable provisions of the Companies Act, 2013 and Regulation 23 of the SEBI Listing Regulations, w.e.f. April 1, 2022, prior approval of shareholders shall be obtained for material transaction with a related party. 'Material transaction' for this purpose means transaction(s) entered/to be entered into individually or taken together with previous transactions during a financial year, exceeds ₹ 1,000 crore or 10% of the annual consolidated turnover of the listed entity as per its last audited financial statements, whichever is lower.

B) Additional benefits not included in total remuneration:

Mr. Sudhir Chaturvedi will be eligible for –

- a. conveyance, telephone, mobile or other expenses incurred in furtherance of or in connection with the performance of duties, in accordance with the Company's policy;
- b. medical benefits and health insurance in accordance with the Company's medical scheme;
- c. participation in all employee benefit programs as are generally applicable as per benefit plans, programs, policies and/or practices of the Company applicable in USA;
- d. leave encashment as per Company's leave policy, applicable in USA;
- e. all other benefits, perquisites, allowances, as may be applicable to his grade as per the Company's Policy.

Except Mr. Sudhir Chaturvedi, to whom the resolution relates, none of the Directors and Key Managerial Personnel of the Company and their relatives are concerned or interested, financially or otherwise, in the resolution set out at Item No.6.

The disclosures, as required under the SEBI Listing Regulations and ICSI's Secretarial Standard 2 on General Meetings, are provided as **Annexure - A** to the Notice.

Larsen & Toubro Limited (Holding Company) is a Related Party within the meaning of Section 2(76) of the Companies Act, 2013 and Regulation 2(1)(zb) of the SEBI Listing Regulations. The Company has entered into/ proposes to enter into agreements/ arrangements with Larsen & Toubro Limited ('L&T') in the nature of a) sale, purchase, lease or supply of goods or business assets or property or equipment; b) availing or rendering of services including the use of Trademark, and availing Corporate bank guarantee to provide to LTIMindtree customers, etc.; and c) transfer of any resources, services or obligations to meet business objectives/requirements (Related Party Transactions). General Notes:

- I. Tax rate that is applicable to shareholders depend upon their residential status and classification. All shareholders are requested to update their residential status and category in their respective demat account if the shareholding is in demat form, or with Company's RTA, if the shareholding is held in physical form, as the case may be applicable, before the **Record Date**.
- II. Application for exemption from TDS/ lower / beneficial rate of tax is subject to submission of the requisite and valid documents with RTA before the Record Date and also verification of the documents submitted to the Company. If the documents submitted by the shareholder are found incomplete or ambiguous, exemption/lower/beneficial rate of tax shall not be applied. Shareholders have the option to claim refund of excess tax deducted from their respective tax authority, in case the Company has deducted tax at source at higher rate due to non-submission/incomplete submission of documents with the RTA. No claim shall lie against the Company for such tax deducted.
- III. If Form 15G/H is already submitted for a particular financial year, revised form is to be submitted in case of change in estimated total income or dividend income. In case revised form is not provided by the shareholder, the Company shall determine the TDS amount based on estimated total income and dividend income specified in the latest form available with the Company.
- IV. In case the requisite documents are submitted by the shareholder through his/her registered email, the Company has the right to

demand the original documents and the shareholder undertakes to abide by such request. Documents received by Registered Post or from registered e-mail ID will only be accepted.

- V. TDS certificate will be emailed to the shareholder's registered e-mail ID in due course. Shareholders can also view the credit of TDS in their respective Form 26AS.
- VI. In case dividend income is assessable in the hands of a person other than the registered shareholder as on the Record Date, the registered shareholder shall furnish a declaration to the satisfaction of RTA / Company, containing the name, address and valid PAN of the person to whom the tax credit is to be given, along with reasons for giving credit to such person. In case the PAN provided as above is invalid, tax credit shall continue to be given to the registered shareholder.
- VII. In case of joint shareholders, the shareholder named first in the Register of Members shall furnish the requisite documents for claiming any beneficial tax rate.
- VIII. The required documents can be submitted with Company's RTA before the Record Date at <https://linkintime.co.in/formsreg/submission-of-form-15g-15h.html> or through email from the registered e-mail Id or at the following address:
