Sebi chief Tyagi moots single platform for Gilts, corporate bonds

PRESS TRUST OF INDIA Mumbai, September 4

CAPITAL MARKETS REGULATOR Sebi on Wednesday called for "unification" of the corporate bond market with the more widely-traded government securities market to make it easier for investors to enter and exit the market.

Sebi chairman Ajay Tyagi said the corporate bond market, where issuances have plateaued in the past three years, can play an important role in pushing economic growth given the handicaps in the banking system. "There is a need for seamless transmission of information from G-secs to the corporate bond market..." Tyagi said at an event organised by Assocham here. "One of the ways to achieve this can be the unification of G-secs and corporate bond markets, wherein trading, clearing and settlement can take place on one platform backed by an ecosystem that allows seamless transfer of G-secs and corporate bond holdings," Tyagi said.

Moving the government investment on providing credit enhancement for corporate bonds, he said generally the lower-rated companies, especially from the infrastructure

sector, get impacted as investors prefer only higher-rated paper. Tyagi also called for bringing down the bond issuance cost, which is very high now, and pointed out that creating the dividend redemption reserve alone results in up to 50% of the costs. Another way to lower the cost is to shift the payments to unified payments interface. Calling for innovations, he said there is also a need for different types of corporate bond offerings, as at present issuers are only offering "vanilla" paper. Reeling out data, Tyagi said the market has gained "significant traction" over the past years, as funds raised from the market touched ₹ 6.5 lakh crore, or 16.3% of GDP, in FY19 from ₹ 7.7 lakh crore, or 13% of GDP, in FY13. However, over the past three of the six years, there has been a plateauing of issues at ₹ 6.4 lakh crore per year, he said.

INDIAN EQUITY BENCHMARKS Sensex and Nifty on Wednesday recovered from the massive losses logged in the previous session after investors lapped up metal and banking counters, tracking positive global sentiment.
