Single-window opens for Indian filmmakers

Move to cut pre-production time, streamline logistics for on-location shoots

URVI MALVANIA Mumbai, 1 February

ilmmakers have a reason to smile as this year's Budget has extended the single-window clearance provision to Indian producers as well.

"To promote the entertainment industry, single-window clearance for ease of shooting films, available only to foreigners, is now going to be made available to Indian filmmakers as well. Regulatory provisions will rely more on self-declaration," Finance Minister Piyush Goyal said while delivering the 2019-20 Budget on Friday.

This means that the pre-production period for making films will reduce since the time spent on seeking permissions will come down

Utkarsh Sanghvi, partner, indirect tax, media and entertainment, EY India, said, "The government has already set up a Film Facilitation Office (FFO) for enabling a single-window clearance for foreign film companies shooting in India. It is a welcome measure for Indian films to take the benefit of the FFO. Most of the permissions required from the central and state government agencies are expected to be received from a

single online application."

The announcement of a single-window clearance mechanism for Indian

filmmakers filming within India is a significant step and has the potential to play a huge role in boosting tourism in the country," added Siddharth Roy Kapur, president, Producers Guild of India.

Currently, a film takes calthemes. between 18 and 24 months from of this, almost six months, goes into pre-production. A chunk of ting various permissions from entertainment industry with

different authorities to allow on location shooting. With the

introduction of single-window clearance provision, the pre-production windows are expected to reduce significantly. Not only will it have an impact on the operational cost of the film, but will also allow studios to release films faster, keeping the script fresh in case of topi-

Sudhanshu Vats, group script to screen, and a large part chief executive officer and managing director, Viacom18, said, "Goyal has provided a pre-production constitutes get- tremendous fillip to the Indian

the provision of single-window clearance for films in the Union Budget 2019. Such policy provisions that seek to enhance ease of doing business will help the ₹15,600 crore industry grow at faster."

Goyal added that anti-camcording provisions will be introduced in the Cinematograph Act to control the menace of piracy. "The amendments in the Anti-Camcording provisions will support the industry's growth by curtailing illegal recordings of films in cinema halls and go a long way towards reducing piracy," Kapur said.

Ficci-EY media and entertainment report 2018 says the Indian film industry was expected to generate ₹16,500 crore in gross revenues, ₹10,300 crore coming from domestic theatrical earnings. The report estimates that piracy has caused revenue damage of up to 30 per cent in the film sector. The report observes that 90 per cent of the illegal prints are recordings taken during the theatrical screening of a film at single screens and/or multiplexes.

Rajesh Mishra, CEO, Indian operations, UFO Moviez, adds that a modification to the Act will "give teeth to the law to take stringent action against the offender.

ASSESSING THE FARM, SOCIAL SECTORS

Budget 'credit negative', it has only giveaways: Moody's

PRESS TRUST OF INDIA New Delhi, 1 February

Terming the inability to meet fiscal deficit target for four consecutive years as a big 'credit negative', global rating agency Moody's on Friday doubted if the country will meet even the 3.4 per cent fiscal gap tar-

The agency said in the interim Budget there is an absence of new policies to boost revenues but has many measures, leading to higher expenditure, which will increase con-

sumption and also raise the fiscal burden. The Budget pegs fiscal deficit slipping by

10 bps to 3.4 per cent for the current year, courtesy an income support scheme for farmers and expects it to stay at the same level in FY20 as well "The ongoing slippage from the bud-

geted fiscal deficit targets over the past two years, and our expectation that government will face challenges meeting its target again in the year to March 2020 does not bode well for medium-term fiscal consolidation. We view this continued slippage as credit

negative for the sovereign," the agency said in its quick note on the interim Budget.

The debt burden is the "biggest credit challenge" and is not expected to diminish rapidly, it said, adding that the low-income levels lead to significant development spending needs and constrain the scope of tax base broadening.

However, Moody's - the only one among the global agencies to upgrade the outlook on the sovereign rating — said fiscal deficit numbers are according to its expectations.
