Dear Shareholders,

The banking and non-banking financial company (NBFC) sector in India has witnessed significant market-driven and regulatory events in the last decade. Cumulatively, these have had a profound impact on the industry. Some of the noteworthy developments include the issuance of new bank licences for universal banks, introduction of a new category of banks (small finance banks and payments banks); insolvency processes and the resolution of a few large non-performing assets (NPA) situations; and consolidation of public sector banks (PSBs), etc. Before the onset of the COVID-19 pandemic, the sector was dealing with the contagion effects associated with the collapse of a few NBFCs and co-operative banks.

However, innovation and the continuous adoption of technology did not falter within the sector even through these tough times.

The evolution of the core banking system has transformed the banking sector's propositions, with anywhere banking and internet banking reducing the customers' need for visiting the branch. Digital payments not only helped in business-to-business (B2B) transactions but also pushed the adoption of e-commerce.

The global pandemic in 2020-21 did not spare the banking and NBFC sector. Three potential high-impact changes that could impact the banking and NBFC are:-

1. Digital Transformation

The pandemic has motivated the industry to reconsider its operation model and client acquisition strategy. Digitisation and automation have taken centre stage. With an increased focus on the Micro, Small and Medium Enterprises (MSME) and retail segments, banks are discovering novel ways of delivering financial services products to their end customers. Newer digital lending products introduced by fintech players have been willingly embraced by customers, thereby creating disruption, especially around client acquisition and retail lending products. A seamless customer journey has emerged as the ultimate aspiration and, therefore, guiding principle for the industry. Introduction of digital lending products largely entails self-service applications supported by back-end processing of applications on risk-rating processes. Additionally, tools that aid risk-based pricing and lending decisions are expected to be the next growth enablers for banks. Banks have realised the importance of data and are investing in technology infrastructure to leverage both structured and unstructured data and transform this into analytics and subsequently, actionable insights. Cloud technology and the use of artificial intelligence and machine learning tools to perform forward-looking analytics should help in effective client acquisition, better credit decisions, improved efficiency and optimised costs.

2. Transformation of public sector banks

The growth of PSBs has been majorly stunted by their high level of NPAs. The market capitalisation of all 12 PSBs is less than that of one of the leading private sector bank. The government expects the top six PSBs to realign their business and operating models and be self-reliant when it comes to their capital requirements for growth. Furthermore, the government's decision to privatise and divest PSBs would also contribute to building scale and efficiency in this segment. Select PSBs have already commenced on their transformative journey by adopting digital lending products, creating alliances and partnerships with fintech players and investing in technology for data analytics.

3. Governance of NBFCs and conversion into banks

The Reserve Bank of India recently issued discussion documents on the extent of ownership of banks as well as scale-based governance frameworks for NBFCs. While the industry provided feedback on both these documents, it is now eagerly awaiting the regulator's final decision and circular on the matters. It appears almost certain that larger NBFCs that have the potential to systemically influence the overall banking and financial services system may now enjoy less of a regulatory arbitrage and be subject to a governance framework akin to banks. With expected regulations around corporate houses being allowed to own a bank (albeit with restrictions), we can also expect significant consolidation in this segment resulting in a few large NBFCs either converting into a bank or merging with existing banks. The decision to convert into a bank though could also depend on the transition guidelines, especially those related to liquidity ratio.

Banking and NBFC sector are once again at an inflexion point, given the potential transformational, operational and stakeholder changes influenced by the above-mentioned drivers.

On the Overall Economy, we are cautiously optimistic and expect growth to touch 9.5% in FY 2021-22. Growth in FY 2021-22 will likely be a story of two halves, with economic activity picking up rapidly in the second half. While we expect a strong revival in the years ahead, it might be naïve to not accept the scars the pandemic may leave behind on the economy. One of the apparent aftermaths is the rise of a dichotomous world that we are currently witnessing.

Considering the spread of the virus at pan-India level and its resurgence in the form of mutated variants, time required for NBFC operations to return to normalcy could be slightly prolonged.

The sector's capitalisation remains reasonable, given the muted growth outlook, to absorb moderate asset quality stress. NBFCs have increased their focus on collections and have tightened underwriting standards, and so portfolio growth would take a back seat and quality of portfolio will be under terrific scanner.

India has a diversified financial sector undergoing rapid expansion, both in terms of strong growth of existing financial services firms and new entities entering the market. The sector comprises commercial banks, insurance companies, non-banking financial companies, co-operatives, pension funds, mutual funds, and other smaller financial entities. The banking regulator has allowed new entities such as payment banks to be created recently, thereby adding to the type of entities operating in the sector. However, financial sector in India is predominantly a banking sector with commercial banks accounting for more than 64% of the total assets held by the financial system.

The Government of India has introduced several reforms to liberalise, regulate and enhance this industry. The Government and Reserve Bank of India (RBI) have taken various measures to facilitate easy access to finance for Micro, Small and Medium Enterprises (MSMEs). These measures include launching Credit Guarantee Fund Scheme for MSMEs, issuing guideline to banks regarding collateral requirements and setting up a Micro Units Development and Refinance Agency (MUDRA). With a combined push by Government and private sector, India is undoubtedly one of the world's most vibrant capital markets which has continued to witness meteoric rise in under these excruciating circumstances.

We are very confident that your company will ride on this vibrant capital market for consolidating its performance further in the FY 2021-22 and in years to come by squarely facing the challenges in these testing times. Quality leadership, sound business fundamentals and commercial jurisprudence will emerge as key strengths in our endeavours to witness resounding performance.

What we envisage in future?

We have ability to decide how we are going to interpret the adversities we face. When we work to find an appreciation for what we have gained as we persevere, we develop a more grateful approach to living. The hardship that scars us also grants us wisdom. But we as a company adopt the perspective that challenge can strengthen us, and that we can learn from both successes and failures. Therefore, we are constantly exercising our resilience muscles. So, even under testing circumstances, we exude confidence and resilience to face the undaunting task ahead of us and continue to put up similar inspired performance in the years to come.

Acknowledgment

I would like to extend my gratitude for the unstinted support and guidance lent by the management team and Independent Directors. I would like to thank all our regulators, esteemed associates and shareholders for reposing faith and confidence in us. Finally, I would like to thank all my colleagues and their families, more so during these testing times for being positive, working under great constraints on mobility and putting work and duty beyond their normal calls of duty to deliver a good performance and support.

VGCL has always believed in their core strengths, resilience and steady growth and are well poised for a poignant performance in the years to come.

“We as a resilient organisation believe in our ability to demonstrate integrity and embed ethical business through alignment of corporate purpose and personal values with rapid changing environment. We will continue our quest for commercial excellence and jurisprudential growth.

With best wishes.

MACROECONOMIC OVERVIEW:

Indian Economic Environment

India staged a V-shaped recovery in FY 2020-21. As per the Provisional Estimates released by NSO, India's GDP contracted at 7.3 percent, which was an improvement over the Second Advance Estimate of a contraction of 8 percent growth released in February 2021. This was largely due to the steady V-shaped recovery in India's economy in the second half of FY: 2020-21. This V-shaped recovery, evident at the half-way stage of 2020-21, reflects the resilience and robustness of the Indian economy". This recovery is evident from the movement in various high-frequency indicators over the last year.

The economy registered a YoY growth of 1.1 per cent in H2: FY 2020-21 as compared to (-) 15.9 per cent in H1: FY 2020-21 - implying a growth of 25.5 per cent in H2 over H1. In terms of Real GVA, the economy registered a contraction of 6.2 per cent in FY: 2020-21 with a contraction of 14.9 per cent in H1: FY 2020-21 and growth of 2.4 per cent in H2: FY 2020-21. The divergence in GDP and GVA growth in FY: 2020-21 reflects a sharp fall of 18.4 per cent in net taxes that can be attributed to adjustment of food subsidy arrears in the last quarter of the fiscal.

GDP Growth

The country's GDP grew by 1.6 per cent in Q4: FY 2020-21, an improvement over the 0.5 per cent growth in Q3: FY 2020-21 and the negative growth of 24.4 per cent and 7.4 per cent in the first two quarters of FY 2020-21. In terms of GVA, the economy grew at 3.7 per cent in Q4: FY 2020-21, an improvement over the 1.0 per cent growth in Q3: FY 2020-21 and the negative growth of 22.4 per cent and 7.3 per cent in the first two quarters of FY 2020-21. Given the large contribution of subsidies in Q3 and Q4, estimated GVA growth of 1.6 per cent in Q3 and 3.7 per cent in Q4 is more representative of economic performance in the second half of FY 2020-21. The higher economic growth during the fourth quarter can be linked to the unlocking of the economy and revival in business and consumer confidence that was underway during the period. India is one of the select few economies that have witnessed positive year-on-year growth in the last two consecutive quarters.

Inflation

The average CPI inflation in FY 2020-21 recorded an uptick to 6.2 per cent from 4.8 per cent in FY 2019-20, overshooting the Monetary Policy Committee's (MPC's) medium-term target band of 2-6 per cent, after a gap of six years. The average WPI inflation eased to 1.2 per cent in FY 2020-21 from 1.7 per cent in FY 2019-20. During the month of March 2021, WPI inflation increased to a 103-month high of 7.39 per cent as compared to 4.17 per cent in February 2021 on account of increase in inflation of all major groups, viz, Primary articles, Fuel & power and Manufactured products. For Manufactured Products it has been continuously rising since June 2020 and recorded 7.34 per cent in March 2021. The non-food manufactured products (WPI Core) inflation increased to 7.01 per cent in March 2021 from 5.56 per cent in the previous month. After a gap of 22-months, the WPI inflation exceeded the CPI inflation by 190 basis points in March 2021. Going forward, forecast of a normal south-west monsoon and the slight softening of the pressure on oil prices may soften food and fuel inflationary pressures, respectively. However, a combination of high international commodity prices and logistics costs may push up input price pressures across manufacturing and services. The outlook for core inflation is likely to be impacted by the disruptions in supply chains due to localized restrictions across States. RBI has, accordingly, revised its CPI projections to 5.2 per cent in Q1:2021-22; 5.2 per cent in Q2; 4.4 per cent in Q3; and 5.1 per cent in Q4, with risks broadly balanced.

Economic Outlook for India

The Fourth quarter for the fiscal 2020-21 seems to be a harbinger for things to come in fiscal year 2021-22 with things expected to rebound. The growth in output in Q4 FY:2020-21 was broad-based across sectors. Agriculture, industry, and services sector witnessed positive YoY growth during the quarter. The industrial sector grew at a 11-quarter high of 7.9 per cent aided by the higher output in manufacturing (6.9 per cent), electricity, gas, water & utility services (9.1 per cent) and construction (14.5 per cent). Only the mining and quarrying sector recorded negative growth during the quarter (-5.7 per cent). Agriculture sector grew by a strong 3.1 per cent in Q4 FY: 2020-21 which was over a high base of 6.8 per cent growth in the same period last year. The services sector returned to growth after a gap of three quarters in Q4 FY: 2020-21, recording a YoY growth of 1.5 per cent. This improvement was led by finance, real estate & professional service (5.4 per cent growth) along with public administration (2.3 per cent growth). Contact-intensive hotels, trade and transport sectors contracted by only 2.3 per cent in Q4 after large declines in previous quarters. Agriculture was the only sector which registered growth in FY: 2020-21 raising its share in overall GVA.

There has been a notable pick-up in investment and consumption (both government and private consumption) in Q4: FY 2020-21 when compared with the preceding three quarters. Private consumption which is the main driver of the economy (accounting for 60 per cent of the GDP) witnessed a YoY growth of 2.7 per cent in Q4: FY 2020-21 as compared to (-)26.2 per cent in Q1, (-)11.2 per cent in Q2 and (-)2.8 per cent in Q3: FY 2020-21. Government consumption witnessed a sharp increase, growing by 28.3 per cent in Q4: FY 2020-21 over the 12.1 per cent growth in Q4: FY 2019-20. Investments measured as Gross Fixed Capital Formation (GFCF) grew at a 7-quarter high of 10.9 per cent in Q4: FY 2020-21. With a strong policy focus on infrastructure spending and construction in latter half of FY 2020-21, Gross Fixed Capital Formation (GFCF) to GDP ratio reached one of its highest at 34.3 per cent in over twenty-six quarters and construction rebounded to grow at 14.5 per cent in Q4.

The GDP estimates for the year 2020-21 corroborate that the Indian economy was steadily recovering in the second half of the year. The recovery was supported by gradual unlocking and normalization of economic activity manifested in growth of private consumption expenditure and investment returning to positive territory. Government Expenditure has served as the cushion for the year growing at a rate of 28.3 per cent in Q4 and 2.9 percent in the whole year. The onset of the second wave of COVID-19, however, has posed a downside risk to this momentum in India's economic recovery. With the peaking of the second wave in first half of May 2021 and the localized restrictions adopted to combat its spread, its economic impact is expected to be restricted to the first quarter of FY: 2021-22. Taking all these factors into consideration, RBI has projected real GDP growth at 9.5 per cent in 2021-22 consisting of 18.5 per cent in Q1; 7.9 per cent in Q2; 7.2 per cent in Q3; and 6.6 per cent in Q4 of 2021-22.

In FY 2022-23, we foresee growth of 6.9%. In our view, five drivers will steer growth over the next two years:

- The rapid pace of vaccination and low death rates despite high infection.
- Strong growth in private investment, and its rebound stimulated by reforms and schemes.
- Pent-up demand backed by savings made by high- and mid-income consumers who are waiting to spend.
- Fiscal spending on building assets and infrastructure (that have a high multiplier effect on income, jobs, and private investments) that will likely start gaining momentum on the ground.
- Global economic rebound in late 2021, especially driven by the United States, as predicted by many economists.

The economy could also witness the downside risks such as the possibility of a modest performance in the hospitality sector due to uncertainties around movement restrictions but despite that it is highly likely that the above drivers will persist.

NBFC Outlook with respect to Industry

The Non-Banking Financial Company (NBFC) segment is expected to gain positive momentum in FY 2021-22 as the sector builds on the massive recovery efforts of the last few months. Overall loan disbursement and business have improved of late, with the same momentum expected to continue into fiscal 2021-22. The growth of many NBFCs in India had been driven by higher-than-expected investment banking revenues and interest income.

In FY 2021-22, NBFCs can expect growth in the vehicle-financing space as collection efficiency continued to show improvement. Overall, loan defaults have also reduced and are expected to drop further as the economy shows positive recovery. Many gold loan NBFCs had seen healthy growth as gold loans were being preferred by customers. NBFCs had also mobilized their on-ground recovery staff to ramp up their collection efforts.

With demand for housing loans picking up during the last two quarters of fiscal 2020-21, housing finance companies (HFCs) are likely to witness a growth rate of 8-10 per cent in FY2021-22.

ICRA Ratings in a report said with revival in demand for housing credit in the industry in the last two quarters, most of the HFCs have already reached near pre-Covid level disbursements and are targeting to achieve further higher disbursements in first half of FY2021-22 which should propel growth in this segment of NBFC's.

NBFCs with a niche presence and strong pricing power are likely to witness margin expansion in FY 2021-22.

NBFCs have reduced their dependence on market borrowings since the IL&FS crisis. On an average the share of market borrowings had fallen by 1,500bp over the past two years. The vehicle financiers are likely to benefit in the NBFC market as they have a shorter borrowing profile, and they are likely to benefit from savings on refinancing as 40-62 per cent of their market borrowings are maturing in the next six quarters.

It is anticipated that NBFCs will bring down the liquidity on their balance sheet which in turn is expected to help in the margin expansion of the players in the segment. In the past two years, NBFCs increased liquidity on their balance sheet to over 10 per cent which has now come down to an average of 3-4 per cent. Many NBFCs still have nearly 20 per cent. However, this is expected to reduce by 300-400bp in FY 2021-22. The housing financing companies have a lower share of bank borrowings, while vehicle and gold financiers have a higher share of bank borrowings.

CRISIL Ratings, pointed out that due to the revival in economic activities cash flows in the segment have improved and borrowers have started repaying their loan instalments. This is expected to continue in FY 2021-22.

Many innovations by NBFC players will help in the growth of the segment in FY 2021-22 as well. Collection efforts by NBFCs will further intensify their collection efforts and will improve further. While previously, digital modes were considered secondary to the traditional, physical cash collection process. However, that has changed since the last six months and players have leveraged technology and redoubled efforts on the digital side. Many NBFCs are now offering both the options to their borrowers for repayments.

In FY 2021-22, many NBFCs will continue to see growth in rural product loans, especially agricultural products, and primary services. Besides this, gold loans NBFCs will continue to do well in the NBFC segment as unlike other asset classes, gold loans had not faced any major issues in collection and disbursement, or re-pledge of loans.

BUSINESS RISK MANAGEMENT:

Although the company has long been following the principle of risk minimization as is the norm in every industry, it has now become a compulsion. Therefore, in accordance with the provisions of the listing agreement the Board members are informed about risk assessment and minimization procedures after which the Board formally adopts steps for framing, implementing, and monitoring the risk management plan for the company. The main objective of this policy is to ensure sustainable business growth with stability and to promote a pro-active approach in reporting, evaluating, and resolving risks associated with the business.

To achieve the key objective, the policy establishes a structured and disciplined approach to Risk Management, to guide decisions on risk related issues. In today's challenging and competitive environment, strategies for mitigating inherent risks in accomplishing the growth plans of the Company are imperative. The common risks inter alia are Regulations, competition, Business risk, Investments, retention of talent and expansion of facilities. Business risk, inter-alia, further includes financial risk, political risk, fidelity risk, legal risk. As a matter of policy, these risks are assessed and steps as appropriate are taken to mitigate the same Market risk.

The Company has quoted investments which are exposed to fluctuations in stock prices. The Company continuously monitors market exposure for equity and takes attendant control measures.

Re-aligning Liquidity & Interest Rate strategy for NBFCs post COVID-19

Given the Covid-19 outbreak and its consequent impact on banks and NBFCs, Moody's Investors Service changed its outlook for the Indian banking system to 'negative' from 'stable' due to the following:

Deterioration in financial institutions' asset quality and liquidity.

Growing risk aversion in the system following stress on a prominent private sector bank causing funding and liquidity pressure.

Credit flow to the economy already remains severely hampered because of severe liquidity constraints in the bank and non-bank financial sectors.

While the Monetary Policy Committee of the RBI has taken several measures to enhance liquidity there are still multiple risk factors looming such as:

- Near term liquidity mismatches.
- Stress on liquidity coverage ratio (LCR).
- Funding rise.
- Intraday liquidity.

Therefore, it becomes critical for NBFCs like us must prepare for liquidity stress and interest rate changes, maneuver dynamically through current and potentially pro-longed volatility and uncertainty due to COVID-19. The stress testing exercise are being leveraged as a proactive tool for driving strategic action and survival by the senior management and not just mere

academic exercise. Thus, The maxim being adopted for this by the company is Constant Integrated Awareness (CIA) and Constant Continuous Realignment (CCR) of Investment Portfolios after doing a thorough Risk Analysis and rationalization.

Human resources Risk Mitigation:

The business believes that its people are its most important asset and works with a clear plan for capitalizing and building upon their capabilities. We compete on the strength of its people; employees who are united by the core values of pride, integrity, discipline, and ambition, and thrive in the climate of the ‘Right People for the Right Culture’. A culture of entrepreneurship and empowerment has been built, with ‘Results, Not Reasons’ being at its core. Believing that knowledge is the differentiator, the business has modelled itself as a learning organization by focusing on ‘Stretch, Learn and Grow’. The business talent strategy, aligned with its goals, is performance oriented. The business believes that building individual capabilities with focus and direction and leveraging them in a structured manner through job enrichment builds up organizational capability. It encourages employees who have demonstrated the right capability, the right attitude, and the desire to ‘Step Up’, where meritocracy is the norm, and helps build a forward-looking organization that can deal with the ever-changing business landscape.

Operational risk:

Any eventuality arising from the act relating to people, technology, infrastructure, and external factors, which can give rise to some type of loss in the organization, is focused upon as Operational Risk. Majorly, it is internal and unknown. Therefore, the persons responsible keep continuous watch and gather the symptoms/warning signals to manage Operational risk. The rapid development and establishment of financial services businesses in new markets may raise unanticipated operational or control risks. However, it is managed by Early warning symptom identification and suitable corrective preventive actions.

Prospects:

The stimulus measures and reforms initiated by the Government and liquidity measures by the RBI are expected to support industrial activity and demand. The movement of various high frequency indicators in recent months, points towards broad based resurgence of economic activity. The launch of Covid-19 vaccination program in the country will further add momentum to the economic recovery. In line with the projections for strengthening of India’s growth by multi-lateral institutions, the nominal growth of the economy is expected to be around 10% in the financial year 2021-22.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

III. Emphasis of Matter

We invite attention to Note no. 36 to the financial statements regarding the uncertainties arising out of the outbreak of Covid-19 pandemic and the assessment made by the management on its business and financials, including valuation of investments for the year ended March 31, 2021. This assessment and the outcome of the pandemic is as made by the management and is highly dependent on the circumstances as they evolve in the subsequent period.

Our opinion is not modified on the above matter.

IV. Key Audit Matters

Key audit matters are those matters that in, our professional judgement, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to the key matters to be communicated in our report.

| Key audit matter | How our audit addressed the key audit matter |
|--|--|
| <p>Valuation of Investment in securities : The Company's investments (other than investment in Subsidiary and Associates) are measured at fair value at each reporting date and these fair value measurements significantly impact the Company's results. Within the Company's investment portfolio, the valuation of certain assets such as unquoted preference shares requires significant judgement as a result of quoted prices being unavailable and limited liquidity in these markets.</p> | <p>Principal audit procedures : We have assessed the Company's process to compute the fair value of various investments. For quoted instruments we have independently obtained market quotations and recalculated the fair valuations. For the unquoted instruments, we have obtained an understanding of the various valuation methods used by management and analysed the reasonableness of the principal assumptions made for estimating the fair values and various other data used while arriving at the fair value measurement</p> |
| <p>Transactions related to investment purchase and sales and determination of Profit on Sale of Investments : Effort is needed to correctly account for purchase/ sales transactions related to investments and determine the profit /loss there from and its classification from taxation point of view.</p> | <p>Principal audit procedures : Our audit approach was a combination of test of internal controls and substantive procedure which included the following :</p> <ul style="list-style-type: none"> • Evaluate the design of Internal Control over acquisition, accretion and disposal of investments, safeguarding of investments, controls in respect of title of investments, information flow related to investments. • Selected a sample of contracts and tested the supporting documents, terms of sale or purchase (ex or cum dividend/interest), rights issues, bonus issues. • Verified whether the title of investments held with depository/ custodian services are in the name of the company. • Reviewed the valuation and disclosure of investments as required by AS-13 and statutory requirements. • Verified the accuracy of determination of profit/loss on sale of investments, period of their holding and taxability of such profit/loss in accordance with applicable law. |

V. Information Other than the Standalone Ind AS financial statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Directors' Report (including annexures) and Report on Corporate Governance, Notice Board's Report Report on Corporate Governance but does not include the standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

VI. Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are also responsible for overseeing the Company's financial reporting process.

VII. Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with

them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

VIII. Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order), issued by the Central Government of India in the terms of sub-section (11) of section 143 of the Companies Act 2013, we give in the Annexure A, a statement on the matters specified in paragraph 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the Companies (Accounting Standards) Amendments Rules, 2016.
 - e) On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to adequacy of Internal Financial Control over financial reporting of the company & the operating effectiveness of such controls, refer to our separate report in 'Annexure B'. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations in its financial position in its standalone financial statements.
 - ii. The Company did not have any long-term contract including derivative contracts for which there were any material foreseeable losses.

- iii. There was no amount, required to be transferred, to the Investor Education and Protection Fund by the Company.

- (i) (a) As per information and explanation given to us, the company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
- (b) As per information and explanations given to us these assets have been physically verified by the management at reasonable intervals. No material discrepancies were noticed on such verification.
- (c) As there are no immovable properties, provision of Clause no.(i)(c) is not applicable.
- (ii) The inventory of shares has been verified through de-mat statement during the year as confirmed by the management. In our opinion, the frequency of verification is reasonable. There was no discrepancy between the stock as per book records and de-mat statement.
- (iii) According to the information and explanations given to us, we are of the opinion that, during the year the Company has not granted any loan to any party covered in the register maintained under section 189 of the Companies Act,2013. Therefore, Provision of Clause no. (iii) is not applicable.
- (iv) The Company has complied with the provisions of Section 185 of the Act. It has also complied with the provisions of Section 186 of the Act after taking into account the status of the company to be an NBFC.
- (v) The Company has not accepted any deposit from public. In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of Section 73 to 76 or other relevant provisions of the Act, the rules framed there under and the directives issued by Reserve Bank of India. There have been no proceedings before the Company Law Board or National Company Law Tribunal (as applicable) or Reserve Bank of India or any other Tribunal in this matter and no order has been passed by any of the aforesaid authorities.
- (vi) Central Government has not prescribed maintenance of cost records under clause (d) of subsection (1) of section 148 of the Companies Act, 2013 in respect of products of the Company and hence no comments are warranted in respect of those.
- (vii)(a) As informed, the Company does not come under the purview of the Provident Fund Act and Employees State Insurance Act. According to the records of the Company, no undisputed amounts payable in respect of Income Tax, sales tax, service tax, custom duty, excise duty, Value Added Tax, cess and other material statutory dues applicable to it are outstanding as at 30th June, 2020 for a period of more than six months from the date they become payable.
- (b) According to the information and explanation given to us, there are no dues of sales tax, income tax, service Tax, customs duty, wealth tax, excise duty, Value Added Tax and cess which have not been deposited on account of any dispute, except :

| Due under the act | Period | Amount (Rs. in crore) | Forum in which pending |
|-------------------|-------------|------------------------|------------------------------|
| Income Tax Act | F.Y 2013-14 | 2.64 | Commissioner Appeals, Mumbai |
| Income Tax Act | F.Y 2014-15 | 0.24 | Commissioner Appeals, Mumbai |

- (viii) In our opinion and according to the information and explanations given to us, the company has not defaulted in repayment of loans & borrowings to bank or financial institution. The company has no borrowing from government. The Company has not issued any debenture.
- (ix) During the period, the company has neither raised money by way of IPO or FPO nor taken any term loan and accordingly its proper utilisation is not required to be commented upon.
- (x) According to the information and explanations given to us, no fraud by the Company or on the company by its officers or employees has been noticed or reported during the year under audit.
- (xi) On the basis of examination of documents & resolutions, the managerial remuneration has been paid or provided in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act.
- (xii) As the company is not a Nidhi company, provision of clause (xii) is not applicable to it.
- (xiii) In our opinion and according to the information and explanations given to us, all transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the Financial Statements etc., as required by the applicable accounting standards.
- (xiv) According to the information and explanation given to us, the company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year.
- (xv) As informed the company has not entered into any non-cash transactions with directors or persons connected with them. Therefore the compliance of section 192 of the companies act is not required.
- (xvi) The company is required to be registered under section 45-IA of the Reserve Bank of India Act, 1934 and the registration has been obtained.

ANNEXURE B TO THE AUDITORS' REPORT

(Referred to in paragraph VIII (2) (f) of our Report of even date on the Account for the year ended on 31st March 2021 of M/S VIBRANT GLOBAL CAPITAL LTD.)

Report on the Internal Financial Controls under clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (' the Act)

We have audited the internal financial controls over financial reporting of M/S VIBRANT GLOBAL CAPITAL LTD. ('the Company') as of 31st March, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on the date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial control over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting.

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance .

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Vibrant Global Capital Limited
Notes to Financial Statements for the year ended March 31, 2021
(All amounts in Rupees, unless otherwise stated)

Note 1: Corporate Information

Vibrant Global Capital Limited ('the Company') is registered as a Non-Banking Financial Company ('NBFC') as defined under Section 45-IA of the Reserve Bank of India Act, 1934. The Company is principally engaged in lending and investing activities.

Note 2: Basis of Preparation

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and notified under section 133 of the Companies Act, 2013 (the Act) along with other relevant provisions of the Act. The financial statements have been prepared on a going concern basis. The Company uses accrual basis of accounting.

2.1 Presentation of financial statements

The Company presents its Balance Sheet in order of liquidity

The Company generally reports financial assets and financial liabilities on a gross basis in the Balance Sheet. They are offset and reported net only when Ind AS specifically permits the same or it has an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event. Similarly, the Company offsets incomes and expenses and reports the same on a net basis when permitted by Ind AS specifically unless they are material in nature.

Critical accounting estimates and judgments

The preparation of the Company's financial statements requires Management to make use of estimates and judgments. In view of the inherent uncertainties and a level of subjectivity involved in measurement of items, it is possible that the outcomes in the subsequent financial years could differ from those on which the Management's estimates are based. Accounting estimates and judgments are used in various line items in the financial statements for e.g.:

- >Business model assessment
- >Fair value of financial instruments
- >Effective Interest Rate (EIR)
- >Impairment on financial assets
- >Provisions and other contingent liabilities
- >Provision for tax expenses
- >Residual value and useful life of property, plant and equipment

Note 3: Summary of significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.1 Income

(i) Interest income

The Company recognises interest income using Effective Interest Rate (EIR) on all financial assets subsequently measured at amortised cost or fair value through other comprehensive income (FVOCI). EIR is calculated by considering all costs and incomes attributable to acquisition of a financial asset or assumption of a financial liability and it represents a rate that exactly discounts estimated future cash payments/receipts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability.

The Company recognises interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. In case of credit-impaired financial assets, the Company recognises interest income on the amortised cost net of impairment loss of the financial asset at EIR. If the financial asset is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis. Delayed payment interest (penal interest) levied on customers for delay in repayments/non payment of contractual cashflows is recognised on realisation. Interest on financial assets subsequently measured at fair value through profit or loss (FVTPL) is recognised at the contractual rate of interest.

(ii) Dividend income

Dividend income on equity shares is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

(iii) Sale of Shares

Revenue from share trading is accounted on its sale and that of derivative transactions upon squaring off of the position.

(iv) Other revenue from operations

The Company recognises revenue from contracts with customers (other than financial assets to which Ind AS 109 'Financial Instruments' is applicable) based on a comprehensive assessment model as set out in Ind AS 115 Revenue from contracts with customers'. The Company identifies contract(s) with a customer and its performance obligations under the contract, determines the transaction price and its allocation to the performance obligations in the contract and recognises revenue only on satisfactory completion of performance obligations. Revenue is measured at fair value of the consideration received or receivable.

(a) Net gain on fair value changes

Financial assets are subsequently measured at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI), as applicable. The Company recognises gains/losses on fair value change of financial assets measured as FVTPL and realised gains/losses on derecognition of financial asset measured at FVTPL and FVOCI.

(b) Recoveries of financial assets written off

The Company recognises income on recoveries of financial assets written off on realisation or when the right to receive the same without any uncertainties of recovery is established.

3.2 Expenditure

(i) Finance costs

Borrowing costs on financial liabilities are recognised using the EIR

(ii) Fees and commission expenses

Fees and commission expenses which are not directly linked to the sourcing of financial assets, such as commission/incentive incurred on value added services and products distribution, recovery charges and fees payable for management of portfolio etc., are recognised in the Statement of Profit and Loss on an accrual basis.

3.3 Cash and cash equivalents

Cash and cash equivalents include cash on hand, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.4 Financial instruments

A financial instrument is defined as any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Trade receivables and payables, loan receivables, investments in securities and subsidiaries, debt securities and other borrowings, preferential and equity capital etc. are some examples of financial instruments.

(i) Financial assets

Financial assets include cash, or an equity instrument of another entity, or a contractual right to receive cash or another financial asset from another entity. Few examples of financial assets are loan receivables, investment in equity and debt instruments, trade receivables and cash and cash equivalents.

For the purpose of subsequent measurement, financial assets are classified into four categories:

- (a) Debt instruments at amortised cost
- (b) Debt instruments at FVOCI
- (c) Debt instruments at FVTPL
- (d) Equity instruments designated at FVOCI.

(a) Debt instruments at amortised cost

The Company measures its financial assets at amortised cost if both the following conditions are met:

- (i) The asset is held within a business model of collecting contractual cash flows; and
- (ii) Contractual terms of the asset give rise on specified dates to cash flows that are Sole Payments of Principal and Interest (SPPI) on the principal amount outstanding.

To make the SPPI assessment, the Company applies judgment and considers relevant factors such as the nature of portfolio and the period for which the interest rate is set.

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Company's business model is not assessed on an instrument by instrument basis, but at a higher level of aggregated portfolios. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated financial assets going forward.

The business model of the Company for assets subsequently measured at amortised cost category is to hold and collect contractual cash flows. However, considering the economic viability of carrying the delinquent portfolios in the books of the Company, it may sell these portfolios to banks and/or asset reconstruction companies. After initial measurement, such financial assets are subsequently measured at amortised cost on effective interest rate (EIR).

(b) Debt instruments at FVOCI

The Company subsequently classifies its financial assets as FVOCI, only if both of the following criteria are met:

- (i) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets; and
- (ii) Contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

Debt instruments included within the FVOCI category are measured at each reporting date at fair value with such changes being recognised in other comprehensive income (OCI). The interest income on these assets is recognised in profit or loss. The ECL calculation for debt instruments at FVOCI is explained in subsequent notes in this section.

Debt instruments such as long term investments in Government securities to meet regulatory liquid asset requirement of the Company's deposit program and mortgage loans portfolio where the Company periodically resorts to partially selling the loans by way of assignment to willing buyers are classified as FVOCI.

On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified to profit or loss.

(c) Debt instruments at FVTPL

The Company classifies financial assets which are held for trading under FVTPL category. Held for trading assets are recorded and measured in the Balance Sheet at fair value. Interest and dividend incomes are recorded in interest income and dividend income, respectively according to the terms of the contract, or when the right to receive the same has been established. Gain and losses on changes in fair value of debt instruments are recognised on net basis through profit or loss.

The Company's investments into mutual funds and Government securities (trading portfolio) for trading and short term cash flow management have been classified under this category.

(d) Equity investments designated under FVOCI

All equity investments in scope of Ind AS 109 'Financial Instruments' are measured at fair value. The classification is made on initial recognition and is irrevocable. The Company currently doesn't have any equity investments which are measured at FVOCI.

All fair value changes of the equity instruments, excluding dividends, are recognised in OCI and not available for reclassification to profit or loss, even on sale of investments. Equity instruments at FVOCI are not subject to an impairment assessment.

Derecognition of financial assets:

The Company derecognises a financial asset (or, where applicable, a part of a financial asset) when:

- (i) The right to receive cash flows from the asset have expired; or
- (ii) The Company has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under an assignment arrangement and the Company has transferred substantially all the risks and rewards of the asset. Once the asset is derecognised, the Company does not have any continuing involvement in the same.

On derecognition of a financial asset in its entirety, the difference between:

- (i) the carrying amount (measured at the date of derecognition) and
- (ii) the consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss.

Impairment of financial assets:

The Company recognises lifetime expected credit losses (ECL) when there has been a significant increase in credit risk since initial recognition and when the financial instrument is credit impaired. If the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12 month ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition. 12 month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

When determining whether credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, including on historical experience and forward-looking information.

The Company recognises lifetime ECL for trade and other receivables and lease receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is recognised in OCI and carrying amount of the financial asset is not reduced in the balance sheet

Write offs:

The gross carrying amount of a financial asset is written off when there is no realistic prospect of further recovery. This is generally the case when the Company determines that the debtor/ borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in Statement of profit and loss.

(ii) Financial liabilities

Financial liabilities include liabilities that represent a contractual obligation to deliver cash or another financial assets to another entity, or a contract that may or will be settled in the entities own equity instruments. Few examples of financial liabilities are trade payables, debt securities and other borrowings and subordinated debts.

Initial measurement

All financial liabilities are recognised initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade payables, other payables, debt securities and other borrowings.

Subsequent measurement

After initial recognition, all financial liabilities are subsequently measured at amortised cost using the EIR [Refer note no. 3.1(i)]. Any gains or losses arising on derecognition of liabilities are recognised in the Statement of Profit and Loss.

Derecognition

The Company derecognises a financial liability when the obligation under the liability is discharged, cancelled or expired.

(iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet only if there is an enforceable legal right to offset the recognised amounts with an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

3.5 Investment in subsidiaries and associates

Investment in subsidiaries and associates is recognised at cost and are not adjusted to fair value at the end of each reporting period. Cost of investment represents amount paid for acquisition of the said investment.

The Company assesses at the end of each reporting period, if there are any indications that the said investment may be impaired. If so, the Company estimates the recoverable value/amount of the investment and provides for impairment, if any i.e. the deficit in the recoverable value over cost.

3.6 Taxes**(i) Current tax**

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, in accordance with the Income Tax Act, 1961 and the Income Computation and Disclosure Standards (ICDS) prescribed therein. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current tax relating to items recognised outside profit or loss is recognised in correlation to the underlying transaction either in OCI or directly in other equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred tax

Deferred tax is provided using the Balance Sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for deductible temporary differences to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets, if any, are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised either in OCI or in other equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

3.7 Property, plant and equipment

Property, plant and equipment are carried at historical cost of acquisition less accumulated depreciation and impairment losses, consistent with the criteria specified in Ind AS 16 'Property, Plant and Equipment'.

Depreciation on property, plant and equipment

(a) Depreciation is provided on a pro-rata basis for all tangible assets on written down value method over the useful life of assets.

(b) Useful lives of assets are determined by the Management by an internal technical assessment except where such assessment suggests a life significantly different from those prescribed by Schedule II – Part C of the Companies Act, 2013 where the useful life is as assessed and certified by a technical expert.

(c) Depreciation on addition to assets and assets sold during the year is being provided for on a pro rata basis with reference to the month in which such asset is added or sold as the case may be.

(d) Tangible assets which are depreciated over a useful life that is different than those indicated in Schedule II are as under

| Nature of assets | Useful life as per Schedule II | Useful life adopted by the Company |
|-------------------------|---------------------------------------|---|
| Computer Software | 3 Years | 3 Years |
| Computer & Laptop | 3 Years | 3 Years |
| Furniture and fittings | 10 Years | 10 Years |

(f) Assets having unit value up to Rs 5,000 is depreciated fully in the financial year of purchase of asset.

(g) An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included under other income in the Statement of Profit and Loss when the asset is derecognised.

(h) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

3.8 Intangible assets and amortisation thereof

Intangible assets, representing softwares are initially recognised at cost and subsequently carried at cost less accumulated amortisation and accumulated impairment. The intangible assets are amortised using the straight line method over a period of five years, which is the Management's estimate of its useful life. The useful lives of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

3.9 Impairment of non-financial assets

An assessment is done at each Balance Sheet date to ascertain whether there is any indication that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of asset is determined. If the carrying value of relevant asset is higher than the recoverable amount, the carrying value is written down accordingly.

3.10 Provisions and contingent liabilities

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. The Company also discloses present obligations for which a reliable estimate cannot be made. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

3.11 Retirement and other employee benefits

(i) Gratuity

The Company's liability towards gratuity scheme is determined by independent actuaries, using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. Past services are recognised at the earlier of the plan amendment / curtailment and recognition of related restructuring costs/ termination benefits.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of profit and loss.

Remeasurement gains/losses -

Remeasurement of defined benefit plans, comprising of actuarial gains / losses, return on plan assets excluding interest income are recognised immediately in the balance sheet with corresponding debit or credit to Other Comprehensive Income (OCI). Remeasurements are not reclassified to Statement of profit and loss in the subsequent period.

Remeasurement gains or losses on long-term compensated absences that are classified as other long-term benefits are recognised in Statement of profit and loss.

(ii) Provident fund/ ESIC

Company's contribution paid/payable during the year to provident fund and ESIC is recognised in the Statement of profit and loss account

(iii) Compensated absences

The Company provides for the encashment / availment of leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits for future encashment / availment. The liability is provided based on the number of days of unutilized leave at each balance sheet date on the basis of an independent actuarial valuation.

3.12 Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company acting as a lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. All other leases are classified as operating leases. Basis the above principle, all leases entered into by the Company as a lessee have been classified as operating leases. Lease payments under an operating lease is recognised on an accrual basis in the Statement of Profit and Loss.

3.13 Fair value measurement

The Company measures its qualifying financial instruments at fair value on each Balance Sheet date.

Fair value is the price that would be received against sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place in the accessible principal market or the most advantageous accessible market as applicable.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into Level I, Level II and Level III based on the lowest level input that is significant to the fair value measurement as a whole.

For assets and liabilities that are fair valued in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

3.14 Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting preference dividends and any attributable tax thereto for the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, sub-division of shares etc. that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders is divided by the weighted average number of equity shares outstanding during the period, considered for deriving basic earnings per share and weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

4 Recent Accounting Developments

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") has amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Some of the key amendments relating to Division III which relate to NBFC whose financial statements are required to comply with Companies (India Accounting Standards) Rules 2015 are :

Balance Sheet:

- i) Ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development to be given as per specified format.
- ii) Promoter Shareholding to be disclosed separately as per prescribed format.
- iii) CRAR, Tier I CRAR, Tier II CRAR and Liquidity coverage ratio to be disclosed.

Statement of Profit and Loss:

Additional disclosures relating to Corporate Social Responsibility (CSR) under the head 'additional information' in the notes forming part of standalone financial statements.

The amendments are extensive and the Company will need to evaluate the same to give the effects as required by law.

(All amounts in Rupees, unless otherwise stated)

Note 31: Segment Information

The Company has identified 'Investing and lending', as its only primary reportable segment. The Board of Directors of the Company have been identified as the Chief Operating Decision Maker (CODM) as defined under Ind AS 108. CODM reviews overall financial information of the Company together for performance evaluation and allocation of resources and does not review any discrete information to evaluate performance of any individual product of geography.

In accordance with paragraph 4 of Ind AS 108 "Operating Segments" the Company has presented segment, information only in the Consolidated financial statements.

Vibrant Global Capital Limited
Notes to Financial Statements for the year ended March 31, 2021
(All amounts in Rupees, unless otherwise stated)

Note 32: Fair values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

Valuation framework

The Company's valuation framework includes:

- (i) Benchmarking prices against observable market prices or other independent sources.
- (ii) Development and validation of fair valuation models using model logic, inputs, outputs and adjustments.

These valuation models are subject to a process of due diligence and validation before they become operational and are continuously calibrated. These models are subject to approvals by various functions including risk, treasury and finance functions. Finance function is responsible for establishing procedures, governing valuation and ensuring fair values are in compliance with accounting standards.

Valuation methodologies adopted

1. The Company has not disclosed the fair values of financial instruments such as cash and cash equivalents, bank balances, other than cash and cash equivalents, trade receivables, other financial assets, trade payables, Investment in equity instrument of subsidiary & associates and other financial liabilities because their carrying amounts are a reasonable approximation of fair value. Further, for financial assets, the Company has taken into consideration the allowances for expected credit losses and adjusted the carrying values where applicable.
2. The fair values of the quoted investments/ units of mutual fund schemes are based on market price/ net asset value at the reporting date.
3. The fair values for loans given are calculated based on discounted cash flows using current lending rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments are not materially different from their carrying values. They are classified as level 2 fair values in the fair value hierarchy.
4. Fair values of the Company's interest-bearing borrowings are determined by using discounted cash flow method using the current borrowing rates. Fair value of such instruments are not materially different from their carrying values, accordingly non-current borrowings are classified as level 2 fair values in the fair value hierarchy. The own non-performance risk as at March 31, 2020 was assessed to be insignificant.

Fair value hierarchy

The Company determines fair values of its financial instruments according to the following hierarchy:

- Level 1: This hierarchy uses quoted (unadjusted) prices in active markets for identical assets or liabilities.
 Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on Company specific estimates.
 Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

The carrying value and fair value of financial instruments by categories including the quantitative disclosures of fair value measurement hierarchy as at March 31, 2021 is as follows:

| Particulars | Carrying Value | Notes | Quoted prices in active markets (Level 1) | Significant observable inputs (Level 2) | Significant unobservable inputs (Level 3) |

Note 33: Financial Risk Management

Risk Management

The Company's principal financial liabilities comprise borrowings and trade and other payables. The main purpose of these financial liabilities is to finance and support the company's operations. The Company's principal financial assets include investments, cash and cash equivalents and other receivables that are derived directly from its operations. As a Non Banking Financial Company categorised as "Non- Systematically Important Non Deposit taking Company", the Company is exposed to various risks that are related to Investment business and operating environment. The principal objective in Company 's risk management processes is to measure and monitor the various risks that Company is subject to and to follow policies and procedures to address such risks.

The Company is exposed to market risk and liquidity risk. The Company's senior management oversees the management of these risks. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

a) Market Risk

Market Risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market factor. Such changes in the values of financial instruments may result from changes in the interest rate, stock prices, liquidity, and other market changes. The objective of market risk management is to avoid excessive exposure of company's earnings and equity to loss and reduce its exposure to the volatility inherent in financial instruments. The Company is exposed to Price risk under market risk as follows:

Price risk

The Company's securities investments carry a risk of change in prices arising from uncertainties about future values of the invested securities. To manage its price risk arising from investments in these securities, through diversification by periodically monitoring the sectors it has invested in, performance of the investee companies, measures mark- to- market gains/losses and reviews the same on a continuous basis.

Sensitivity analysis as at 31 March 2021

| Particulars | At cost | Fair value | Sensitivity to fair value | |
|-----------------------------------|--------------|--------------|---------------------------|-------------|
| | | | 1% increase | 1% decrease |
| Investment in Quoted Equity Share | 42,38,46,775 | 46,91,46,561 | 46,91,466 | -46,91,466 |

The impact of increases/ decreases of the BSE/ NSE index on the Company's equity shares and gain/ loss for the period would be as depicted in above table. The analysis is based on the assumption that the index has increased by 1% or decreased by 1% with all other variables held constant, and that all the Company's investments having price risk moved in line with the index.

b) Liquidity Risk

Liquidity risk is the risk that the entity may encounter in the form of difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The entity's approach towards managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the entity's reputation.

Prudent liquidity risk management requires sufficient cash and marketable securities and availability of funds through adequate committed credit facilities to meet obligations when due and to close out market positions.

The Company takes a view of maintaining liquidity with minimal risks while making investments. The Company invests its surplus funds in short term liquid assets in the form of bank deposits and liquid mutual funds. The Company monitors its cash and bank balances periodically with a view to meet its short term obligations associated with its financial liabilities.

Maturity profile of financial liabilities

Notes to Financial Statements for the year ended March 31, 2021

(All amounts in Rupees , unless otherwise stated)

Note 36 - Risk Management amidst COVID-19

The outbreak of COVID-19 pandemic across the globe and in India has led to a significant decline and volatility in the global and Indian financial markets and corresponding slowdown in the economic activities. Consequent to the outbreak of the COVID-19 pandemic, the Indian government announced a lockdown in March 2020. Subsequently, the national lockdown was lifted by the government, but regional lockdowns continue to be implemented in areas with a significant number of COVID-19 case.

Given the uncertainty over the potential macro-economic impact and external developments, the management of the company, has considered internal and external information up to the date of approval of these financial statements. The Company based on the available information, estimated impact on the future cash flows in respect of the financial assets for the purpose of determination of:

- the provision for impairment of financial assets carried at amortized cost; and
- the fair value of certain financial assets carried at fair value through profit or loss (FVTPL)

In addition, while assessing the liquidity situation, the Company has taken into consideration certain assumptions with respect to the expected realisation of the financial assets and the expected source of funds, based on its past experience which have been adjusted for the current events.

The extent to which the pandemic including the current “second wave”, that has significantly increased the number of cases in India, will impact future results of Company will depend on future developments, which are highly uncertain, including, among other things, any new information concerning the severity of the COVID-19 pandemic and any action to contain its spread or mitigate its impact, whether government-mandated or elected by the Company. Given the uncertainty over the potential macro-economic condition, the impact of the COVID-19 pandemic may be different from the ones estimated as at the date of approval of this Balance Sheet. The Company will continue to closely monitor any material changes to future economic conditions, which will be given effect to in the respective future periods.

Note 37 - Advance for acquisition of property

Long term loans and advances includes Rs. 58 Lakhs being part payment made for purchase of property. As reported in earlier years, the company has filed a suit in the High Court of Judicature at Mumbai for specific performance of this agreement for purchase.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF M/S. VIBRANT GLOBAL CAPITAL LIMITED

Report on the Consolidated Financial Statements

I. Opinion

We have audited the accompanying consolidated financial statements of **VIBRANT GLOBAL CAPITAL LIMITED** (hereinafter referred to as the 'Holding Company') and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") and its associates, which comprise the consolidated Balance Sheet as at March 31, 2021, and the consolidated statement of Profit and Loss, and the consolidated cash flows Statement for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of report of other auditor on separate financial statements of a subsidiary as were audited by the other auditor, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of their consolidated state of affairs of the Company as at March 31, 2021, of consolidated profit and its consolidated cash flows for the year then ended.

II. Basis Of Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by ICAI, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Companies Act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

III. Emphasis of Matter

We draw attention to note no. 39 to the consolidated financial statements, which describes the uncertainty caused by the continuing COVID-19 pandemic and the related probable events which could impact the Group's estimates of impairment of loans to customers. Our opinion is not modified in respect of this matter.

IV. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of audit procedures performed by us, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

V. Information other than the Financial Statements and Auditor’s report thereon

- The Holding Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis and Directors Report (the “Reports”), but does not include the Consolidated Financial Statements and our Auditors’ Report thereon. The Reports are expected to be made available to us after the date of this Auditors’ Report.
- Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

Management’s Responsibility and Those Charged with Governance for the Consolidated Financial Statement

The Holding Company’s Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are also responsible for overseeing the financial reporting process of the Group.

VI. Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and

performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended 31 March 2021 of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

VII. Other Matters

We did not audit the financial statements / financial information of 3 subsidiaries whose financial statements / financial information reflect total assets of Rs. 12,205.02 Lakhs as at 31st March, 2021, total revenues of Rs. 16,693.51 Lakhs, net profit after tax of Rs. 1,571.75 lakhs and total comprehensive income of Rs1,578.11 lakhs for the year ended 31st March 2021, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net loss (after tax) of Rs. 10.97 lakhs for the year ended 31st March, 2021 as considered in the consolidated financial statements, in respect of 1 associate, whose financial statements / financial information have not been audited by us. These financial statements / financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, jointly controlled entities and associates, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associates, is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information certified by the Management.

VIII. Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- (d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Ind AS specified under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2021 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies and associate companies incorporated in India, none of the directors of the Group companies and its associate companies incorporated in India is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate report in “Annexure A”. Our report expresses an unmodified opinion of the adequacy and operating effectiveness of the Company’s internal financial controls over the financial reporting.

ANNEXURE “A” TO THE AUDITORS' REPORT

(Referred to in paragraph VIII (f) of our Report of even date on the Account for the year ended on 31st March 2021 of M/S VIBRANT GLOBAL CAPITAL LTD.)

Report on the Internal Financial Controls under clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (' the Act')

In conjunction with our audit of the Consolidated financial statements of the company as of and for the year ended 31st March 2021, we have audited the internal financial controls over financial reporting of M/S VIBRANT GLOBAL CAPITAL LTD. ('The Holding Company') and its subsidiary companies and its associate Company incorporated in India as of date.

Management's Responsibility for Internal Financial Controls

The respective Board of directors of the Holding Company, its subsidiary companies & associate companies which are companies incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal

financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial control over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material

misstatements due to error or frauds may occur and not be detected. Also, projections of any evaluations of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company , its subsidiary companies and based on the report on the internal financial control of its associate companies which are companies incorporated in India by their respective statutory auditors, have, in all material respects, an adequate internal financial controls system over financial reporting which were operating effectively as at 31 March, 2021 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Vibrant Global Capital Limited

Notes to consolidated Financial Statements for the year ended 31st March 2021

(All amounts in Rupees, unless otherwise stated)

Note 1: Corporate Information

Vibrant Global Capital Limited ('the Group') is registered as a Non-Banking Financial Group ('NBFC') as defined under Section 45-IA of the Reserve Bank of India Act, 1934. The Group is principally engaged in lending and investing activities.

Note 2: Basis of Preparation

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and notified under section 133 of the Companies Act, 2013 (the Act) along with other relevant provisions of the Act. The financial statements have been prepared on a going concern basis. The Group uses accrual basis of accounting except in case of significant uncertainties.

2.1 Presentation of financial statements

The Group presents its Balance Sheet in order of liquidity .

The Group generally reports financial assets and financial liabilities on a gross basis in the Balance Sheet. They are offset and reported net only when Ind AS specifically permits the same or it has an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event. Similarly, the Group offsets incomes and expenses and reports the same on a net basis when permitted by Ind AS specifically unless they are material in nature.

Critical accounting estimates and judgments

The preparation of the Group's financial statements requires Management to make use of estimates and judgments. In view of the inherent uncertainties and a level of subjectivity involved in measurement of items, it is possible that the outcomes in the subsequent financial years could differ from those on which the Management's estimates are based. Accounting estimates and judgments are used in various line items in the financial statements for e.g.:

- >Business model assessment
- >Fair value of financial instruments
- >Effective Interest Rate (EIR)
- >Impairment on financial assets
- >Provisions and other contingent liabilities
- >Provision for tax expenses
- >Residual value and useful life of property, plant and equipment

2.2 Principles of consolidation

(i) The consolidated financial statements incorporate the financial statements of the Parent Group and all its subsidiaries (from the date control is gained), being the entities that it controls. Control is evidenced where the investor is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Power is demonstrated through existing rights that give the ability to direct relevant activities, which significantly affect the entity returns. The financial statements of subsidiaries are prepared for the same reporting year as the Parent Group. Where necessary, adjustments are made to the financial statements of subsidiaries to align the accounting policies in line with accounting policies of the Parent Group.

The Parent Group holds the entire shareholding in its subsidiaries and there are no contractual arrangements which rebute the control of the Parent Group over its subsidiaries.

The financial statements of subsidiaries acquired or disposed off during the year are included in the consolidated statement of profit and loss from the effective date of acquisition or up to the effective date of disposal, as appropriate. Intragroup balances and transactions, and any unrealised income and expenses arising from intragroup transactions, are eliminated in preparing the consolidated financial statements.

The financial statements of subsidiaries acquired or disposed off during the year are included in the consolidated statement of profit and loss from the effective date of acquisition or up to the effective date of disposal, as appropriate. Intragroup balances and transactions, and any unrealised income and expenses arising from intragroup transactions, are eliminated in preparing the consolidated financial statements.

(ii) The Consolidated financial statements include results of the subsidiaries and associates of Parent Group, consolidated in accordance with Ind AS 110 'Consolidated Financial Statements.

| Name of the Company | Country of incorporation | Proportion of ownership as at reporting date | Consolidated as |
|---|--------------------------|--|-----------------|
| Vibrant Global Trading Private Limited | INDIA | 97.41% | Subsidiary |
| Vibrant Global Infraproject Private Limited | INDIA | 100% | Subsidiary |
| Vibrant Global Salt Private Limited | INDIA | 87.88% | Subsidiary |
| Vibrant Global Vidyut Private Limited | INDIA | 48.78% | Associate |

Note 3: Summary of significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.1 Income

(i) Interest income

The Group recognises interest income using Effective Interest Rate (EIR) on all financial assets subsequently measured at amortised cost or fair value through other comprehensive income (FVTOCI). EIR is calculated by considering all costs and incomes attributable to acquisition of a financial asset or assumption of a financial liability and it represents a rate that exactly discounts estimated future cash payments/receipts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability.

The Group recognises interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. In case of credit-impaired financial assets, the Group recognises interest income on the amortised cost net of impairment loss of the financial asset at EIR. If the financial asset is no longer credit-impaired, the Group reverts to calculating interest income on a gross basis. Delayed payment interest (penal interest) levied on customers for delay in repayments/non payment of contractual cashflows is recognised on realisation. Interest on financial assets subsequently measured at fair value through profit or loss (FVTPL) is recognised at the contractual rate of interest.

(ii) Dividend income

Dividend income on equity shares is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

(iii) Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided in disclosures.

The specific recognition criteria described below must also be met before revenue is recognised.

i. Sale of products:

Revenue from sale of products is recognized at the point in time when control of the goods is transferred to the customer, generally on shipment or delivery. The normal credit term is 30-60 days from shipment or delivery as the case may be. The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated.

In determining the transaction price for the sale of good or rendering of service, the Company considers the effects of variable consideration and provisional pricing, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

a. Variable consideration

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. The volume rebates give rise to variable consideration.

• Volume rebates and discounts

The products are often sold with volume discounts based on aggregate sales over a specific time period, normally 3–12 months. Revenue from these sales is recognized based on the price specified in the contract, net of the estimated volume discounts. Accumulated experience is used to estimate and provide for the discounts using either the expected value method or an assessment of the most likely amount. Revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. A contract liability is recognized for expected volume discounts payable to customers in relation to sales made until the end of the reporting period. The estimated volume discount is revised at each reporting date.

b. Significant financing component

In many cases, the Company receives short-term advances from its customers. Using the practical expedient in Ind AS 115, the Company does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be one year or less.

Hence, there is no financing component which needs to be separated.

Contract balances**Contract assets**

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional. Refer to accounting policies of financial assets- Financial instruments – initial recognition and subsequent measurement.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

(iv) Other revenue from operations

The Group recognises revenue from contracts with customers (other than financial assets to which Ind AS 109 'Financial Instruments' is applicable) based on a comprehensive assessment model as set out in Ind AS 115 Revenue from contracts with customers'. The Group identifies contract(s) with a customer and its performance obligations under the contract, determines the transaction price and its allocation to the performance obligations in the contract and recognises revenue only on satisfactory completion of performance obligations. Revenue is measured at fair value of the consideration received or receivable.

(a) Net gain on fair value changes

Financial assets are subsequently measured at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI), as applicable. The Group recognises gains/losses on fair value change of financial assets measured as FVTPL and realised gains/losses on derecognition of financial asset measured at FVTPL and FVOCI.

(b) Sale of services

The Group, on de-recognition of financial assets where a right to service the derecognised financial assets for a fee is retained, recognises the fair value of future service fee income over service obligations cost on net basis as service fee income in the statement of profit or loss and, correspondingly creates a service asset in Balance Sheet. Any subsequent increase in the fair value of service assets is recognised as service income and any decrease is recognised as an expense in the period in which it occurs. The embedded interest component in the service asset is recognised as interest income in line with Ind AS 109 'Financial instruments'.

(c) Recoveries of financial assets written off

The Group recognises income on recoveries of financial assets written off on realisation or when the right to receive the same without any uncertainties of recovery is established.

(d) Taxes

Incomes are recognised net of the Goods and Services Tax/Service Tax, wherever applicable.

3.2 Expenditure

(i) Finance costs

Borrowing costs on financial liabilities are recognised using the EIR

(ii) Fees and commission expenses

Fees and commission expenses which are not directly linked to the sourcing of financial assets, such as commission/incentive incurred on value added services and products distribution, recovery charges and fees payable for management of portfolio etc., are recognised in the Statement of Profit and Loss on an accrual basis.

3.3 Cash and cash equivalents

Cash and cash equivalents include cash on hand, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.4 Financial instruments

A financial instrument is defined as any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Trade receivables and payables, loan receivables, investments in securities and subsidiaries, debt securities and other borrowings, preferential and equity capital etc. are some examples of financial instruments.

(i) Financial assets

Financial assets include cash, or an equity instrument of another entity, or a contractual right to receive cash or another financial asset from another entity. Few examples of financial assets are loan receivables, investment in equity and debt instruments, trade receivables and cash and cash equivalents.

For the purpose of subsequent measurement, financial assets are classified into four categories:

- (a) Debt instruments at amortised cost
- (b) Debt instruments at FVOCI
- (c) Debt instruments at FVTPL
- (d) Equity instruments designated at FVOCI.

(a) Debt instruments at amortised cost

The Group measures its financial assets at amortised cost if both the following conditions are met:

- (i) The asset is held within a business model of collecting contractual cash flows; and
- (ii) Contractual terms of the asset give rise on specified dates to cash flows that are Sole Payments of Principal and Interest (SPPI) on the principal amount outstanding.

To make the SPPI assessment, the Group applies judgment and considers relevant factors such as the nature of portfolio and the period for which the interest rate is set.

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Group's business model is not assessed on an instrument by instrument basis, but at a higher level of aggregated portfolios. If cash flows after initial recognition are realised in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated financial assets going forward.

The business model of the Group for assets subsequently measured at amortised cost category is to hold and collect contractual cash flows. However, considering the economic viability of carrying the delinquent portfolios in the books of the Group, it may sell these portfolios to banks and/or asset reconstruction companies. After initial measurement, such financial assets are subsequently measured at amortised cost on effective interest rate (EIR).

(b) Debt instruments at FVOCI

The Group subsequently classifies its financial assets as FVOCI, only if both of the following criteria are met:

- (i) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets; and
- (ii) Contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

Debt instruments included within the FVOCI category are measured at each reporting date at fair value with such changes being recognised in other comprehensive income (OCI). The interest income on these assets is recognised in profit or loss. The ECL calculation for debt instruments at FVOCI is explained in subsequent notes in this section.

Debt instruments such as long term investments in Government securities to meet regulatory liquid asset requirement of the Group's deposit program and mortgage loans portfolio where the Group periodically resorts to partially selling the loans by way of assignment to willing buyers are classified as FVOCI.

On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified to profit or loss.

(c) Debt instruments at FVTPL

The Company classifies financial assets which are held for trading under FVTPL category. Held for trading assets are recorded and measured in the Balance Sheet at fair value. Interest and dividend incomes are recorded in interest income and dividend income, respectively according to the terms of the contract, or when the right to receive the same has been established. Gain and losses on changes in fair value of debt instruments are recognised on net basis through profit or loss.

The Company's investments into mutual funds and Government securities (trading portfolio) for trading and short term cash flow management have been classified under this category

(d) Equity investments designated under FVOCI

All equity investments in scope of Ind AS 109 'Financial Instruments' are measured at fair value. The classification is made on initial recognition and is irrevocable. The Group currently doesn't have any equity investments which are measured at FVOCI.

All fair value changes of the equity instruments, excluding dividends, are recognised in OCI and not available for reclassification to profit or loss, even on sale of investments. Equity instruments at FVOCI are not subject to an impairment assessment.

Derecognition of financial assets:

The Group derecognises a financial asset (or, where applicable, a part of a financial asset) when:

- (i) The right to receive cash flows from the asset have expired; or
- (ii) The Group has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under an assignment arrangement and the Group has transferred substantially all the risks and rewards of the asset. Once the asset is derecognised, the Group does not have any continuing involvement in the same.

On derecognition of a financial asset in its entirety, the difference between:

- (i) the carrying amount (measured at the date of derecognition) and
- (ii) the consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss.

Impairment of financial assets:

The Group recognises lifetime expected credit losses (ECL) when there has been a significant increase in credit risk since initial recognition and when the financial instrument is credit impaired. If the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12 month ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition. 12 month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

When determining whether credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, including on historical experience and forward-looking information.

The Group recognises lifetime ECL for trade and other receivables and lease receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is recognised in OCI and carrying amount of the financial asset is not reduced in the balance sheet

Write offs:

The gross carrying amount of a financial asset is written off when there is no realistic prospect of further recovery. This is generally the case when the Group determines that the debtor/ borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in Statement of profit and loss.

(ii) Financial liabilities

Financial liabilities include liabilities that represent a contractual obligation to deliver cash or another financial assets to another entity, or a contract that may or will be settled in the entities own equity instruments. Few examples of financial liabilities are trade payables, debt securities and other borrowings and subordinated debts.

Initial measurement

All financial liabilities are recognised initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. The Group's financial liabilities include trade payables, other payables, debt securities and other borrowings.

Subsequent measurement

After initial recognition, all financial liabilities are subsequently measured at amortised cost using the EIR. Any gains or losses arising on derecognition of liabilities are recognised in the Statement of Profit and Loss.

Derecognition

The Group derecognises a financial liability when the obligation under the liability is discharged, cancelled or expired.

(iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet only if there is an enforceable legal right to offset the recognised amounts with an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

3.5 Investment in associates

Investment in associates is recognised at cost and are not adjusted to fair value at the end of each reporting period. Cost of investment represents amount paid for acquisition of the said investment.

The Company assesses at the end of each reporting period, if there are any indications that the said investment may be impaired. If so, the Company estimates the recoverable value/amount of the investment and provides for impairment, if any i.e. the deficit in the recoverable value over cost.

3.6 Taxes

(i) Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, in accordance with the Income Tax Act, 1961 and the Income Computation and Disclosure Standards (ICDS) prescribed therein. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current tax relating to items recognised outside profit or loss is recognised in correlation to the underlying transaction either in OCI or directly in other equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred tax

Deferred tax is provided using the Balance Sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for deductible temporary differences to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets, if any, are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised either in OCI or in other equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

3.7 Property, plant and equipment

Property, plant and equipment are carried at historical cost of acquisition less accumulated depreciation and impairment losses, consistent with the criteria specified in Ind AS 16 'Property, Plant and Equipment'.

Depreciation on property, plant and equipment

(a) Depreciation is provided on a pro-rata basis for all tangible assets on written down value method over the useful life of assets.

(b) Useful lives of assets are determined by the Management by an internal technical assessment except where such assessment suggests a life significantly different from those prescribed by Schedule II – Part C of the Companies Act, 2013 where the useful life is as assessed and certified by a technical expert.

(c) Depreciation on addition to assets and assets sold during the year is being provided for on a pro rata basis with reference to the month in which such asset is added or sold as the case may be.

(d) Tangible assets which are depreciated over a useful life that is different than those indicated in Schedule II are as under

| Nature of assets | Useful life as per Schedule II | Useful life adopted by the Group |
|-------------------------|---------------------------------------|---|
| Office Building | 60 Years | 60 Years |
| Plant and Machinery | 15 Years | 15-20 Years |
| Furniture and fixtures | 10 Years | 10 Years |
| Vehicles | 8 Years | 8 Years |
| Office equipment | 5 Years | 5 Years |
| Computer & Laptop | 3 Years | 3 Years |
| Lab equipment | 10 Years | 10 Years |

(f) Assets having unit value up to Rs 5,000 is depreciated fully in the financial year of purchase of asset.

(g) An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included under other income in the Statement of Profit and Loss when the asset is derecognised.

(h) The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

3.8 Intangible assets and amortisation thereof

Intangible assets, representing softwares are initially recognised at cost and subsequently carried at cost less accumulated amortisation and accumulated impairment. The intangible assets are amortised using the straight line method over a period of five years, which is the Management's estimate of its useful life. The useful lives of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

3.9 Impairment of non-financial assets

An assessment is done at each Balance Sheet date to ascertain whether there is any indication that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of asset is determined. If the carrying value of relevant asset is higher than the recoverable amount, the carrying value is written down accordingly.

3.10 Provisions and contingent liabilities

The Group creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. The Group also discloses present obligations for which a reliable estimate cannot be made. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

3.11 Retirement and other employee benefits

(i) Gratuity

The Company's liability towards gratuity scheme is determined by independent actuaries, using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. Past services are recognised at the earlier of the plan amendment / curtailment and recognition of related restructuring costs/ termination benefits.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of profit and loss.

Remeasurement gains/losses -

Remeasurement of defined benefit plans, comprising of actuarial gains / losses, return on plan assets excluding interest income are recognised immediately in the balance sheet with corresponding debit or credit to Other Comprehensive Income (OCI). Remeasurements are not reclassified to Statement of profit and loss in the subsequent period.

Remeasurement gains or losses on long-term compensated absences that are classified as other long-term benefits are recognised in Statement of profit and loss.

(ii) Provident fund

Company's contribution paid/payable during the year to provident fund and ESIC is recognised in the Statement of profit and loss

(iii) Compensated absences

The Company provides for the encashment / availment of leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits for future encashment / availment. The liability is provided based on the number of days of unutilized leave at each balance sheet date on the basis of an independent actuarial valuation.

3.12 Fair value measurement

The Group measures its qualifying financial instruments at fair value on each Balance Sheet date.

Fair value is the price that would be received against sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place in the accessible principal market or the most advantageous accessible market as applicable.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into Level I, Level II and Level III based on the lowest level input that is significant to the fair value measurement as a whole.

For assets and liabilities that are fair valued in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

3.13 Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting preference dividends and any attributable tax thereto for the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, sub-division of shares etc. that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders is divided by the weighted average number of equity shares outstanding during the period, considered for deriving basic earnings per share and weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares

3.14 Segment**(i) Identification of segment**

Operating segments are reported in the manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Group.

(ii) Segment accounting policies

The Board of Directors and Managing directors of the Holding Company have been identified as the Chief Operating Decision Maker

(CODM) as defined under Ind AS 108. CODM reviews overall financial information of the Company together for performance evaluation and allocation of resources and does not review any discrete information to evaluate performance of any individual product or geography.

3.15 Leases

Measurement of Lease Liability

At the time of initial recognition, the Group measures lease liability as present value of all lease payments discounted using the Group's incremental cost of borrowing and directly attributable costs. Subsequently, the lease liability is—

- (i) increased by interest on lease liability;
- (ii) reduced by lease payments made; and
- (iii) remeasured to reflect any reassessment or lease modifications specified in Ind AS 116 'Leases', or to reflect revised fixed lease payments.

Measurement of Right-of-use assets

At the time of initial recognition, the Group measures 'Right-of-use assets' as present value of all lease payments discounted using the Group's incremental cost of borrowing w.r.t said lease contract. Subsequently, 'Right-of-use assets' is measured using cost model i.e. at cost less any accumulated depreciation and any accumulated impairment losses adjusted for any remeasurement of the lease liability specified in Ind AS 116 'Leases'. Depreciation on 'Right-of-use assets' is provided on straight line basis over the lease period.

The exception permitted in Ind AS 116 for low value assets and short term leases has been adopted by Group.

3.16 Goodwill

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods. Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

Vibrant Global Capital Limited
Notes to consolidated Financial Statements for the year ended 31st March 2021
(All amounts in Rupees, unless otherwise stated)

Note 35: Fair values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques.

Valuation framework

The Group's valuation framework includes:

- (i) Benchmarking prices against observable market prices or other independent sources.
- (ii) Development and validation of fair valuation models using model logic, inputs, outputs and adjustments.

These valuation models are subject to a process of due diligence and validation before they become operational and are continuously calibrated. These models are subject to approvals by various functions including risk, treasury and finance functions. Finance function is responsible for establishing procedures, governing valuation and ensuring fair values are in compliance with accounting standards.

Valuation methodologies adopted

1. The Group has not disclosed the fair values of financial instruments such as cash and cash equivalents, bank balances, other than cash and cash equivalents, trade receivables, other financial assets, trade payables and other financial liabilities because their carrying amounts are a reasonable approximation of fair value. Further, for financial assets, the Group has taken into consideration the allowances for expected credit losses and adjusted the carrying values where applicable.
2. The fair values of the quoted investments/ units of mutual fund schemes are based on market price/ net asset value at the reporting date.
3. The fair values for loans given are calculated based on discounted cash flows using current lending rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments are not materially different from their carrying values. They are classified as level 2 fair values in the fair value hierarchy.
4. Fair values of the Group's interest-bearing borrowings are determined by using discounted cash flow method using the current borrowing rates. Fair value of such instruments are not materially different from their carrying values, accordingly non-current borrowings are classified as level 2 fair values in the fair value hierarchy. The own non-performance risk as at March 31, 2020 was assessed to be insignificant.

Fair value hierarchy

The Group determines fair values of its financial instruments according to the following hierarchy:

Level 1: This hierarchy uses quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on Group specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

The carrying value and fair value of financial instruments by categories including the quantitative disclosures of fair value measurement hierarchy as at March 31, 2021 is as follows:

| Particulars | Carrying Value | Notes | Quoted prices in active markets (Level 1) | Significant observable inputs (Level 2) | Significant unobservable inputs (Level 3) |

Note 36: Financial Risk Management

Risk Management

The group's principal financial liabilities comprise borrowings and trade and other payables. The main purpose of these financial liabilities is to finance and support the group's operations. The group's principal financial assets include investments, cash and cash equivalents and other receivables that are derived directly from its operations. As a Non Banking Financial group categorised as "Non- Systematically Important Non Deposit taking group", the group is exposed to various risks that are related to Investment business and operating environment. The principal objective in group 's risk management processes is to measure and monitor the various risks that group is subject to and to follow policies and procedures to address such risks.

The group is exposed to market risk and liquidity risk. The group's senior management oversees the management of these risks. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

a) Market Risk

Market Risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market factor. Such changes in the values of financial instruments may result from changes in the interest rate, stock prices, liquidity, and other market changes. The objective of market risk management is to avoid excessive exposure of group's earnings and equity to loss and reduce its exposure to the volatility inherent in financial instruments. The group is exposed to Price risk under market risk as follows:

Price risk

The group's securities investments carry a risk of change in prices arising from uncertainties about future values of the invested securities. To manage its price risk arising from investments in these securities, through diversification by periodically monitoring the sectors it has invested in, performance of the investee companies, measures mark- to- market gains/losses and reviews the same on a continuous basis.

Sensitivity analysis as at 31 March 2021

| Particulars | At cost | Fair value | Sensitivity to fair value | |
|-----------------------------------|--------------|--------------|---------------------------|-------------|
| | | | 1% increase | 1% decrease |
| Investment in Quoted Equity Share | 42,38,46,775 | 46,91,46,561 | 46,91,466 | -46,91,466 |

The impact of increases/ decreases of the BSE/ NSE index on the group's equity shares and gain/ loss for the period would be as depicted in above table. The analysis is based on the assumption that the index has increased by 1% or decreased by 1% with all other variables held constant, and that all the group's investments having price risk moved in line with the index.

b) Liquidity Risk

Liquidity risk is the risk that the entity may encounter in the form of difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The entity's approach towards managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the entity's reputation.

Prudent liquidity risk management requires sufficient cash and marketable securities and availability of funds through adequate committed credit facilities to meet obligations when due and to close out market positions.

The group takes a view of maintaining liquidity with minimal risks while making investments. The group invests its surplus funds in short term liquid assets in the form of bank deposits and liquid mutual funds. The group monitors its cash and bank balances periodically with a view to meet its short term obligations associated with its financial liabilities.

Maturity profile of financial liabilities

Note 39 - Risk Management amidst COVID-19

The outbreak of COVID-19 pandemic across the globe and in India has led to a significant decline and volatility in the global and Indian financial markets and corresponding slowdown in the economic activities. Consequent to the outbreak of the COVID-19 pandemic, the Indian government announced a lockdown in March 2020. Subsequently, the national lockdown was lifted by the government, but regional lockdowns continue to be implemented in areas with a significant number of COVID-19 case.

Given the uncertainty over the potential macro-economic impact and external developments, the management of the company, has considered internal and external information up to the date of approval of these financial statements. The Company based on the available information, estimated impact on the future cash flows in respect of the financial assets for the purpose of determination of:

- the provision for impairment of financial assets carried at amortized cost; and
- the fair value of certain financial assets carried at fair value through profit or loss (FVTPL)

In addition, while assessing the liquidity situation, the Company has taken into consideration certain assumptions with respect to the expected realisation of the financial assets and the expected source of funds, based on its past experience. The extent to which the pandemic including the current "second wave", that has significantly increased the number of cases in India, will impact future results of Company will depend on future developments, which are highly uncertain, including, among other things, any new information concerning the severity of the COVID-19 pandemic and any action to contain its spread or mitigate its impact, whether government-mandated or elected by the Company. Given the uncertainty over the potential macro-economic condition, the impact of the COVID-19 pandemic may be different from the ones estimated as at the date of approval of this Balance Sheet. The Company will continue to closely monitor any material changes to future economic conditions, which will be given effect to in the respective future periods.

Note 40 - Advance for acquisition of property

Long term loans and advances includes Rs. 58 Lakhs being part payment made for purchase of property. As reported in earlier years, the company has filed a suit in the High Court of Judicature at Mumbai for specific performance of this agreement for purchase.

**ANNEXURE TO THE NOTICE Explanatory Statement
[Pursuant to Section 102(2) of the Companies Act, 2013]**

Item No. 4: To appoint Mrs. Khushboo Pasari (DIN: 07587383) as Non-Executive Independent Director of the Company

At the Board Meeting of the Company held on 22nd August, 2016, the Board had, based on the recommendations of the Nomination and Remuneration Committee, appointed Mrs. Khushboo Pasari (DIN: 07587383) as an Additional director of the Company subject to the approval of the Members. Mrs. Khushboo Pasari was appointed by Members at the Annual General Meeting of the members of the Company held on 29th September, 2016 as a Non-Executive Independent Director of the Company, for a term of 5 consecutive years effective from 22nd August, 2016, not liable to retire by rotation.

The Company has received a declaration from her to the effect that he meets the criteria of independence as provided in Section 149(6) of the Act and Rules framed thereunder and Regulation 16(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“SEBI Listing Regulations”). In terms of Regulation 25(8) of SEBI Listing Regulations, she has confirmed that she is not aware of any circumstance or situation which exists or may be reasonably anticipated that could impair or impact her ability to discharge her duties. In the opinion of the Board, she fulfils the conditions specified in the Act and SEBI Listing Regulations for appointment as an Independent Director and is independent of the management of the Company.

Mrs. Khushboo Pasari is Bachelor of Commerce from Nagpur University and Company Secretary by profession. She also holds Masters' degree in Business Administration (MBA). She possesses vast experience of 15 years in Company Law, SEBI and Capital Market, Litigation as well as corporate restructuring. She is currently working with Solar Industries India Limited (Listed Company with BSE and NSE) as a Company Secretary & Compliance Officer.

The Board, based on the recommendation of Nomination and Remuneration Committee, considers that given her skills, integrity, expertise and experience (including the proficiency), association of Mrs. Khushboo Pasari would be beneficial to the Company and it is desirable to avail her services as an Independent Director.

The appointment of Mrs. Khushboo Pasari as a Non-Executive Independent Director will be placed before the Members at this AGM for approval. Members who wish to inspect the letter for appointment can send a request at investor@vibrantglblobalgroup.com.

Accordingly, the Board recommends the Special Resolution as set out at Item No. 4 of the accompanying Notice in relation to appointment of Mrs. Khushboo Pasari as a Non-Executive Independent Director for second term of 5 Years commencing from 11th August, 2021 for approval by the Members.

Except Mrs. Khushboo Pasari, none of the other Directors or Key Managerial Personnel of the Company or their respective relatives, are concerned or interested in the Resolution at Item No. 4 of the Notice.

Mrs. Khushboo Pasari is not related to any other Director or Key Managerial Personnel of the Company. The details of the Director along with a brief resume are given in the Annexure to the Notice.
