Stronger Together

We believe that these are some of the most challenging times we have seen.

Challenging times for our nation, our economy, and our people.

It's in this time, that we must unite and find strength together to protect the interests of all our stakeholders and support those around us.

And so, our objective will continue to be to build safer homes in a secure manner and create a world that's better for all.

GODREJ TWO (ACTUAL IMAGE)

CORPORATE SNAPSHOT

GODREJ PROPERTIES IS RECOGNISED AS ONE OF THE MOST RESPECTED REAL ESTATE DEVELOPERS IN INDIA.

At Godrej Properties, we see our role as professionals who understand the issues affecting the world and look for effective ways of solving them.

And so, we are recognised not just for our achievements but for our commitment to do what is best for the planet and humankind.

We are recognised for keeping sustainability and responsibility as our benchmarks and making it the industry standard.

We are recognised not just for building homes but our ability to treat every single customer as special.

We are recognised for our values - of working for the benefit of every stakeholder.

We are recognised for our passion to make a difference in the world through our actions.

And we only promise to build on it.

The Godrej Group

The Godrej Group was established in 1897 out of a desire to demonstrate economic self-sufficiency and excellence within India in the pre-independence decades. From safes that withstood fires better than international competitors', to one of the world's first soaps from vegetable oil, and the ballot boxes for independent India's first general election, the group has a proud tradition of making meaningful products and building businesses that serve the country's interests. We have always focused on people and the planet along with the profits. Approximately 23% of the promoter stake in the Godrej Group, is owned by philanthropic trusts that work on environmental, educational and health care issues in India. We are also bringing together our passion and purpose to make a difference through our Good & Green strategy of shared values to create a more employable Indian workforce, build a greener India and innovate for 'Good' and 'Green' products.

Our business

Godrej Properties brings the Godrej Group philosophy of innovation, sustainability, and excellence to the real estate industry. Each Godrej Properties development combines a 124 year legacy of excellence and trust with a commitment to cutting-edge design and technology.

In FY 2020-21, Godrej Properties became the country's largest listed real estate developer in terms of sales with bookings of ₹ 6,725 Crore despite the COVID pandemic.

Presence

The Company is present in the micro-markets of various prominent cities of MMR, National Capital Region, Pune, Bangalore, Kolkata, Ahmedabad, Nagpur, Chennai and Chandigarh. As on March 31, 2021, the Company had 85 properties with saleable area of 187 Million sq ft with a focus on four core regions of Mumbai Metropolitan Region, National Capital Region, Pune and Bangalore.

Recognition

Godrej Properties focuses on excellence, agility, sustainability, employee wellness and corporate social responsibility. One of the most respected real estate developers in India, Godrej Properties has received over 300 awards and recognitions in the recent past. In fact, in a study involving 10,000 respondents, Godrej Properties was identified as the most trusted developer in India.

Some accolades include 'National Brand Leader of India Ranked Number one by Track2Realty BrandXReport' 2019-2020, Green Developer of the Year (National), Estrade Real Estate Award 2020, Real Estate Employer in India Ranked Number one by Track2Realty BrandXReport 2019-20, Masters of Risk - Real Estate Category 7th edition of The India Risk Management Awards, Mahatma Award, 2020 Achievement Award for CSR Excellence, CSR Leadership Awards, 2020 Best CSR Practices - World CSR Congress and The IACC COVID Crusaders Awards 2020 for serving humanity during the ongoing COVID 19 pandemic.

The Company was also awarded 'The Most Trusted Real Estate Brand' in 2019 from the Brand Trust Report, 'Real Estate Company of the Year' at the Ninth Construction Week Awards 2019, 'Equality and Diversity Champion 2019' at the APREA Property Leaders Awards, 'The Economic Times Best Real Estate Brand 2018' and 'Builder of the Year' at the CNBC-Awaaz Real Estate Awards 2018.

Knowledge capital

Godrej Properties is among the top professional organised real estate companies in India. The Company comprises a knowledge capital of 1,933 individuals as on March 31, 2021 drawn from various disciplines – engineering, construction, marketing, finance, materials management, supply chain, business development, legal compliances and accountancy,

among others. The average age of the Company was ~34 years 4 months as on March 31, 2021; women accounted for ~26% of the Company's employees.

Listing

In 2010, Godrej Properties became a publicly listed company following a successful IPO in which it mobilised USD 100 Million. The Company is listed in the National Stock Exchange of India Limited and BSE Limited. The market capitalisation of the Company was ₹39,051 Crore as on March 31, 2021.

We deeply believe all of us are Stronger Together.

That is why, we would like to start by sharing with you how we worked hard to support each of our stakeholders and how it deepened our connection to the world around us.

1

We redefined our purpose

Our recently renewed purpose statement reads: "We create spaces that enable everyday joys; one community, one family and one home at a time".

We believe that our purpose statement is deeply relevant to the times we are living in, emphasising the core purpose of our Company for today – and for all times to come. We hope to continue to be driven by joy.

2

We helped create a better world

Godrej Properties was ranked #1 globally in 2020 among listed residential developers by GRESB (Global Real Estate Sustainability Benchmark), global organisation that assesses the Environmental, Social and Governance (ESG) performance of real estate assets the world over. GRESB is universally recognised as the global standard for portfolio-level ESG reporting and benchmarking in the real estate sector. This is the first time that an Indian developer has achieved this recognition.

3

We deepened our focus on customer centricity and quality

The Net Promoter score (NPS) represents a rating of our performance provided directly by our customers after taking into account execution, construction delivery timelines, design innovation, construction quality and service.

Our NPS performance was strong in a year that saw the industry facing multiple challenges.

A key aspect of ensuring customer satisfaction is the quality of construction we deliver across our developments. We partnered with CQRA for their quality audit services and achieved a strong score of 8.35 in FY 2020-21 across our projects.

This is how our long term investment in intangibles translated into superior financials across the most challenging years for the real estate sector in India

Booking Value (₹ Crore)

Sales

Sales indicate the quantum of real estate sold in a financial year, indicating the revenue generating capacity of the Company from its existing projects until they are delivered.

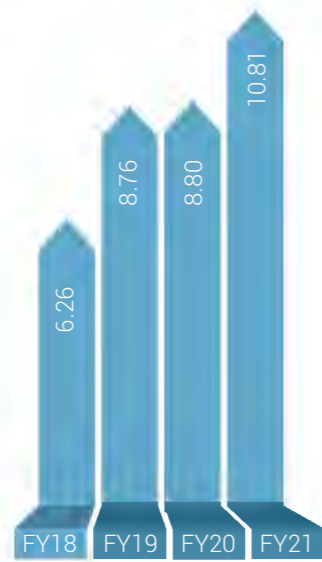

Why we measure

Sales provide an index of prospective revenues and profits.

Performance

The Company reported 10.81 Million sq ft of sales in FY 2020-21, which was 23% higher than in the previous financial year, outperforming sectoral growth.

Area Sold (Million sq ft)

Operating Cash Inflow (₹ Crore)

Operating Cash Inflow

Operating Cash Inflow measures a Company's ability to collect outstandings from customers on schedule. The cash inflow for GPL includes cash collections from sales, development management fees, recovery of joint venture partner advance, etc.

Why we Measure

The collections momentum provides insight on GPL's construction efficiency. The higher the collections, the stronger the cash flow.

Performance

The Company reported an operating cash inflow of ₹4,367 Crore, boosted by our highest ever annual residential collections in FY 2020-21.

Net Worth (₹ Crore)

Net Worth

Net worth of a company is a financial indicator derived by deducting the liabilities of a company from its assets.

Why we Measure

Net Worth is a quantitative concept that is used to gauge a company's health, providing a useful snapshot of its current financial position.

Performance

The Company reported a net worth of ₹8,320 Crore in FY 2020-21, a substantial increase from ₹4,808 Crore in FY 2019-20 boosted by the recently concluded QIP in March 2021.

EBITDA (₹ Crore)

EBITDA

EBITDA is a profitability indicator used to measure a Company's competitiveness and operating efficiency.

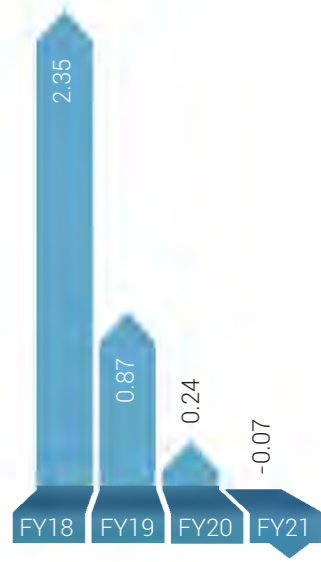

Why we measure

The EBITDA provides an idea of how much a Company earns before accounting for interest and taxes.

Performance

The Company reported ₹119 Crore EBITDA in FY 2020-21. The pandemic and certain one time write-offs impacted EBITDA in FY 2020-21.

Gearing (x)

Gearing

This ratio measures net debt to net worth.

Why we measure

This is one of the defining measures of a Company's financial health, indicating the ability of the Company to remunerate shareholders over debt providers (the lower the gearing the better).

Performance

The Company's gearing strengthened from 2.35 in FY 2017-18 to a net cash surplus position in FY 2020-21.

At Godrej Properties, the operative word is 'together'

Three questions

A few years ago, we turned inward to ask ourselves existential questions.

Three of the most important questions that we narrowed down were the following.

One, what was the rationale of our presence in the business?

Two, what was our principal role as a developer?

Three, what business reality was most likely to enhance stakeholder value in a sustainable way?

The rationale of our existence

Evidently, our business success will continue to depend on our ability to buy into land parcels cost-effectively in the right micro-markets, design for the aspirations of an evolving India, go-to-market at breath-taking speeds and invest in strong opportunities.

While this continues to be the case, we felt that our endurance and success was drawn from a more fundamental reality: the ability to address the needs

of our stakeholders, our capacity to be relevant to them and our ability to support their aspirations.

The operative word was 'together'.

When interacting with our stakeholders, we saw their appreciation for how Godrej Properties has always gone out of its way to make a customer feel great, has delivered more than what was promised, has addressed complaints with grace and patience, and has supported customers in choosing the right home for their needs.

Our customers appreciate our ability to engage, be empathetic, and our strong interest in their lives.

These customers told us something really fundamental: they said that they had bought a Godrej home because their decision was marked by dozens of instances where they *felt good* about working with us – good about the way their questions had been answered, good that there was no pushing them into a decision, good about how everyone's enquiry was treated with

the same respect, and good about how the customer's life-time savings were treated with prudence. 'You were not selling a home to us as much as you were helping us buy,' said one of our customers, which encapsulates what Godrej Properties is all about.

A nobler calling

This valuable series of engagements reinforced more visibly what we had always known to be true about ourselves: we are not as much about brick, mortar and square feet as we are about emotions, life and living itself.

This resulted in the reinvention of our Purpose, and a sense of how we are all Stronger Together, which is visible across all the work we do.

Such strong instances of empathy, engagement and respect demonstrated by all our employees, create a force strong enough to potentially disrupt our category, enhance shareholder value and help resolve the urban living conflict.

Chairman's Message

Our first priority has been to ensure the complete safety of our employees and construction workers at our sites. Thousands of labourers continued to stay at our construction sites during the renewed restrictions and we provided them assurance, and sanitised living conditions.

Dear shareholders,

I hope this message finds you and your loved ones safe. The second wave of Covid19 has taken a terrible toll on our country, and our employees, shareholders, and stakeholders have all faced adversity in recent months. I'd like to take this opportunity to convey our deepest condolences to those who have lost loved ones.

India is now emerging from the second wave and we are cautiously optimistic that the worst of the pandemic is behind us. With vaccinations picking up pace considerably, and with high levels of previous infection also providing protection, I'm hopeful that any subsequent wave of the pandemic will not be as devastating as the second wave in April and May. At Godrej, by the end of June, we have administered the first dose of vaccine to all our employees, as well as to other stakeholders such as our customers and construction workers at our sites. As a Group, we have invested approximately ₹ 100 Crore to aid India's response to the pandemic and remain fully committed to further investment until we fully emerge from this crisis.

Despite the significant challenges the pandemic posed to our operations in FY 2020-21, your Company registered several important accomplishments. There were four different areas where Godrej Properties ranked #1. The first of these was that for the first time, your Company was India's largest developer by the value and volume of sales it achieved. The second was that the Global Real Estate Sustainability Benchmark (GRESB) ranked GPL as the #1 global leader amongst listed residential developers in terms of its governance and sustainability practices. The third was that your Company was for the first time ranked #1 in India amongst more than 10,000

developers in India by Track2Realty in an exhaustive study comprising of feedback from more than 10,000 participants in the sector. The fourth was that our Qualified Institutional Placement (QIP) in March ranked #1 ever by a real estate developer or REIT in India in terms of the quantum of capital it raised.

The first achievement of becoming India's largest real estate developer by booking value was achieved by delivering booking value growth of 14% to ₹ 6,725 Crore. This was achieved through selling 10.8 Million sq. ft. of area representing growth of 23% over FY 2019-20. We sold 9,345 homes at an average of over 25 homes per day. Our team did a fantastic job of meeting the challenges the pandemic posed by pivoting fast to digital sales tools including virtual site visits, an online sales portal, and in-house data analytics. We sold more than 1.5 Million square feet with a booking value of over ₹ 1,300 Crore in each of our four focus markets of MMR (Mumbai Metropolitan Region), Pune, NCR (National Capital Region) and Bangalore in FY 2020-21. While we received a strong response to our new launches and reported launch sales of ₹ 2,175 Crore, we are particularly happy with our sustenance sales that grew 46% to ₹ 4,550 Crore in FY 2020-21 and made up for the delay in regulatory approvals at some of the projects we had hoped to launch.

Strong sales ensured our best ever gross residential collections at ₹ 4,389 Crore despite us losing nearly a third of the year from a construction perspective due to the lockdown and subsequent construction labor exodus in the first half of the financial year.

Being adjudged the #1 listed residential developer in the world by GRESB is a recognition the entire GPL team is very proud of. Our purpose of bringing joy to the lives of our customers rests not only on providing high quality homes for them, but also on the premise that each Godrej Properties home has a positive impact on the broader world around us. We have over the past decade insisted that all our projects are third party certified green buildings and have invested both in our operations and through our corporate social responsibility funds to ensure we deliver a more sustainable future. We are water positive and carbon neutral for our Scope 1 & 2 GHG emissions and are working towards extending our ESG mandate to cover our supply chain. Similarly, we have placed significant emphasis on governance standards and world class practices in areas such as construction safety.

Track2Realty has been conducting its annual study that involves significant research with over 10,000 participants in the real estate sector in India including customers, investors, media,

“ We sold 9,345 homes at an average of over 25 homes per day. Our team did a fantastic job of meeting the challenges the pandemic posed by pivoting fast to digital sales tools including virtual site visits, an online sales portal, and in-house data analytics.

and HR professionals. Companies are ranked on ten different performance parameters which are: Fiscal Trust, Project Quality, ROI, Industry Reputation, Buyers' Endorsement, Community Connect, Aspiration Value, Recall Value, Image Management, and Risk-Free Reputation. While your Company has consistently featured close to the top of the list in every previous study and as the runner up for the past two years, in FY 2020-21, for the first time, GPL was chosen as the #1 developer in India in this study. This is a testament to the overall good work that has been done in building capabilities that will deliver longstanding benefit to your Company's stakeholders.

One area of significant focus for your Company in recent years has been Net Promoter Score (NPS), which is a direct evaluation of our performance by our customers. In FY 2019-20, we achieved our highest ever NPS of 59% an improvement from 26% in FY 2018-19 with over 13,000 of our customers providing us this rating. The raw score out of 10 we received was 8.4 in FY 2019-20 and 7.5 in FY 2018-19. Unfortunately, we saw a dip in these scores in FY 2020-21 with NPS of 41% provided to us by over 8,800 customers. Our NPS survey this year was run directly by our corporate audit and assurance team for the first time and we disallowed any communications to customers from relationship managers reminding them to respond to the survey. We believe this played a role in

the reduced response rate and scores, but have done extensive analysis of other factors needing improvement and hope to see our work to address these deliver stronger results in the current financial year. One learning from our NPS analysis has been the importance of focusing in depth on all aspects of construction quality. For the past two years, we've worked with CQRA, a leading global quality consultant, to do third party audits of our construction quality at various points in the construction journey. I'm happy to share that our average construction score in FY 2020-21 was 8.35 out of 10 representing a significant improvement from FY 2019-20, when our score was 7.86 out of 10. We have also continued to invest in new construction technologies and focused on ensuring world class project execution timelines. In FY 2020-21, we delivered 6.5 Million sq. ft. of real estate, the highest ever in our history. Construction quality and pace will remain a key area of focus for the year ahead and is an important part of our long-term strategy.

Our QIP in March raised ₹ 3,750 Crore, and allowed your Company to end the year with a net cash balance sheet. While business development in FY 2020-21 was moderate, given that we adopted a wait-and-watch approach in the first half of the financial year, we expect FY 2021-22 to be a strong year for business development. The equity we have raised and the flexibility this provides our balance sheet will allow us to invest over one billion USD into new

projects over the next couple of years. This will be substantially more than we have invested at any time in our past and will allow us to significantly accelerate our growth ambitions. We expect to see this play a role both in ensuring we scale our revenues rapidly and also continue to improve the margin profile of our business by improving GPL's economic interest in each project.

We remain deeply committed to our two medium-term goals of consistently being among the leading developers by the value of residential real estate sales in each of our focus markets and to achieving a Return on Equity (RoE) in excess of 20%. The progress in market share gains has been encouraging, and combined with sustained momentum in new project additions, puts us on track for the first of our two medium-term goals. The more challenging – and critical – goal is to deliver ROEs in excess of 20%. Here again, we believe we remain on track and that the combination of higher sales volumes, greater share of profits in each project, faster construction timelines, and strong customer satisfaction will get us to this objective.

Some factors do impact the timing of achieving this objective. IndAS project completion accounting introduced in FY 2018-19 ensures financial results trail operating performance by 2-3 years, and our significant equity raise of ₹ 3,750 Crore in FY 2020-21, while preparing us extremely well to benefit from the consolidation underway in the sector, significantly lowers short term ROEs until the projects we invest in through the capital enter our P&L a timeframe that is likely to be between four and five years at a minimum. The disruption to construction both in 2020 and 2021 due to the pandemic has further delayed revenue recognition timelines in some of our projects. These factors, combined with certain one-off charges, led to an accounting

loss in FY 2020-21, and will keep ROEs muted in the current financial year. However, we remain confident that the steps we have taken to strengthen your Company's balance sheet, enhance its project pipeline, and build its execution capabilities will help us ensure high returns, lower risk, and strong growth. We expect to see a meaningful uptick in reported earnings from next year and have brought significant focus to this by bringing reported earnings over the next two years as a key component of our managerial incentive program.

The start to the new financial year has been very challenging. The devastating impact of the second wave derailed the positive momentum in the sector in the second half of FY 2020-21. We have done our best to stand by our teams and support them through this crisis. In May, we halted all work at Godrej Properties for a five day period to provide our team members the space to recover from the tragedy that had surrounded us. While there is no question business momentum in the first quarter of the new financial year will be severely dented by the impact of the pandemic, we are optimistic that high levels of vaccination for our team members and stakeholders, combined with rapidly increasing vaccinations across India and sharp declines in new cases and hospitalisations, will allow governments to gradually and cautiously open up the economy. Unlike like last year, when we didn't know whether we would have successful vaccines or how long they would take to develop, or what consumer's disposition towards real estate purchases would be, this year we have answers to these questions and, fortunately, the answers are encouraging. GPL had its best ever annual sales last year despite the pandemic, due to very strong momentum for residential real estate demand in the second half of the year. Buyers were driven by the increased desire to pursue the security and

comfort of home ownership in greatly uncertain times. They were also driven by record low mortgage rates and the highest ever levels of affordability for real estate. These positive factors all continue to be in place and we expect a considerable improvement in the business environment from the second quarter of Financial Year 2022.

The team at Godrej Properties is truly exceptional and passionate about the opportunity to be India's leading real estate developer. They are driven

by your Company's commitment to excellence, sustainability, and diversity. I am grateful to each of them for their exceptional resilience, commitment, and ambition. We would like to thank our customers, joint venture partners, and business associates for their support. Finally, we owe thanks to you, our shareholders, for your continued confidence in Godrej Properties.

Best wishes,

Pirojsha Godrej

Sustainability at GPL

Green building and sustainability have been enduring trends in India's real estate industry for the past couple of decades. However, as the real estate space continues to transform, this topic takes on increasing importance as it is an essential component of focusing on People, Planet and Profit.

The material topics have the potential to significantly determine its Environment, Social and Governance (ESG) performance. A list of sectoral material topics was compiled following primary and secondary research to comprehend the material topics at GPL. This allowed us to identify crucial ESG aspects for our business as well as respective stakeholders.

Our stakeholders comprise our customers, communities, partners, employees, regulatory body, and investors.

The experience and service we provide to our stakeholders matters to us, as meeting and exceeding their expectations is an essential part of the way we create sustainable economic and social value.

Sustainability governance at GPL

A robust governance structure is essential for successful integration and effective management of sustainability. This warrants committed leadership, direction and strategic influence.

In 2020, we formed an ESG Committee, comprising of key C-Suite Officers from the organisation. Our ESG Committee comprises of a cross-functional team to deliberate sustainability-related issues. This empowered decision-

making body has been entrusted with the responsibility to define sustainability objectives and plan actionable steps.

The ESG Committee helps the Company to implement a sustainability strategy across the business, manage goal-setting and report processes, strengthen relationships with external stakeholders and ensure overall accountability.

Our ethics of accountability helps us to ensure that sustainability is integrated with multiple business goals. The result is that we integrated sustainability performance in the Company's annual goals, employee performance review and compensation processes. The result is that around 12% of our employees' performance is linked to ESG Goals through their respective function, department and operations.

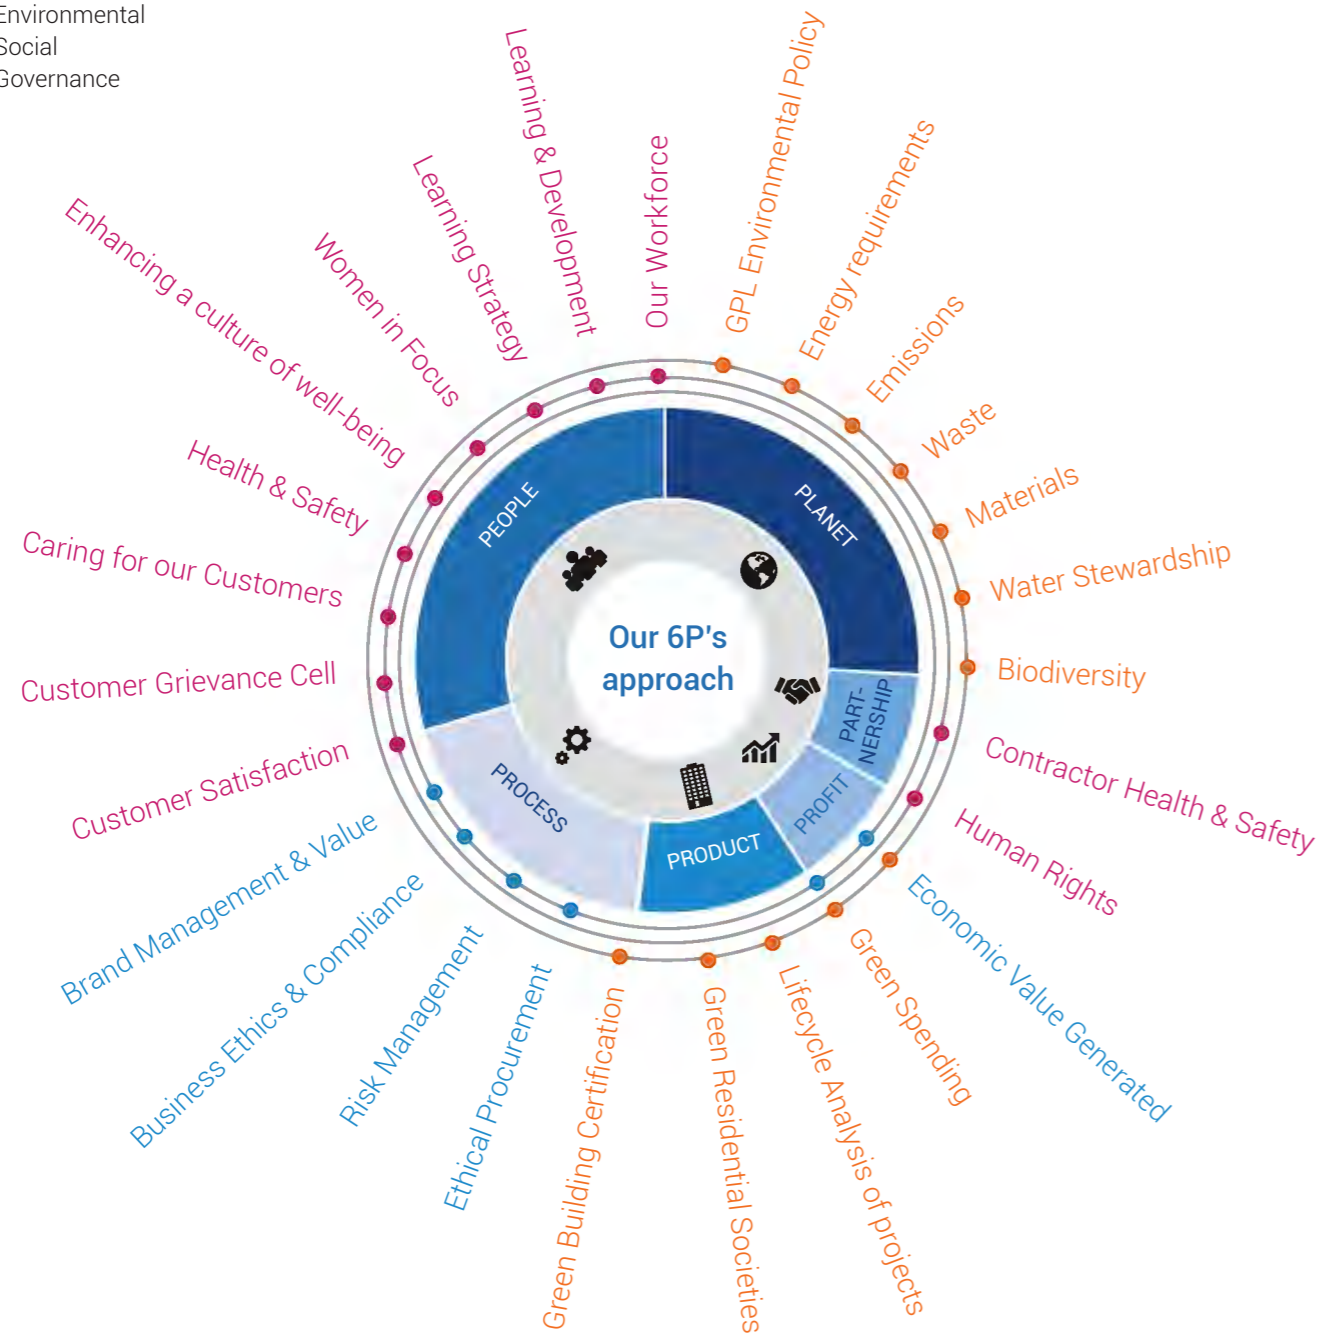

Our 6P's approach towards ESG& Sustainability

We adopted the 6P framework (Process, People, Profit, Planet, Partnership and Product) approach which guide us towards responsible and sustainable development in a holistic manner. As

a business imperative, we design and build sustainable buildings and green homes that reduce the negative impact on the environment.

Environment Management System

Governance is one of the most important factors for ensuring effective environmental management and conservation actions. While environmental problems are often viewed as having technical, managerial, or behavioural dimensions, increasing attention is being paid to environmental governance as an overarching means to address these complexities.

In 2020, we rolled out an Environment Management System across Godrej Properties Ltd. We piloted an EMS implementation across six sites and plan to horizontally deploy it across the

Company. Our aim is to get an external certification. Our EMS is guided by ISO 14001:2015.

Brand management and value

Commitment towards being responsible and sustainable is the key aspect of our brand. Making our brand a hallmark of quality and integrity, we invested in efforts that reinforce our relationships based on trust with our stakeholders. The key enabler of our brand is our commitment to excellence in service delivery.

Business ethics and compliance management

GPL is committed towards conducting

business with integrity. We have a zero tolerance policy towards corruption in all forms, including bribery. As a responsible company, we do not - and will not - tolerate violations of our standards and policies. In our endeavour to ensure integrity, accountability and transparency in our processes, we have a comprehensive set of policies that encompass our approach towards ethical practices across various facets of our business. Our key policies can be viewed at <https://www.godrejproperties.com/investor/corporate-governance>

Risk management

Risk management forms a fundamental aspect of building resilience in our business and embedding robustness in our business processes. Our risk management function covers the entire spectrum of activities from risk identification, categorisation to risk mitigation. We periodically review and revise our risk management policies in line with market dynamics and industry best practices. Besides this, we also performed sensitivity analysis and stress testing over period of time. Climate Change and Cyber-Security are the two emerging risk identified for the Company. Our Risk Management Committee holds the responsibility of overseeing the effective implementation of the Company's risk management function and adherence to risk management policies and procedures. The Risk Management Committee

also has the onus of evaluating the robustness of the risk management framework.

Climate change risk assessment (TCFD & SBTi)

As more than 95% of our emissions occur outside our premises, we cannot achieve net zero alone. To address our pledge, we depend on multiple external factors including action from governments and regulators to enable economic and social transformations for a net zero carbon future. GPL adopted the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD). Aligning with the spirit of the Paris Agreement, we committed to the Science Based Target (SBT) initiative in 2020.

Our risk categorisation is aligned with TCFD recommendations and summarised below.

Climate change risk	
Physical	Acute: Climatic catastrophe
	Chronic: Rise in temperature
	Chronic: Rise in sea level
	Chronic: Water availability
Transitional	Policy & Legal: Environment Regulations
	Disclosure obligations

People

Our workforce

Building on our foundation of values and our strong commitment to our Code of Conduct, we consistently strive to establish a safe and supportive environment for our employees. We make a conscious attempt to embrace a multi-generational and diversified workforce across educational

backgrounds and expertise, irrespective of their caste, gender, geographic origin, religion, family responsibility, age, disability and socio-economic status.

At GPL, we prioritise the recruitment of women from campus programmes and encourage gender diversity.

1,933 Number of Employee
511 Female Employee
35% of employees below 30 years.

Project Enable

At GPL, we work towards building an inclusive and conducive work environment for our employees. We have introduced Project Enable that focuses on hiring PWDs (Persons with Disabilities).

Project Rainbow

GPL is a proud supporter of the LGBTQ community. We have introduced and established 'Project Rainbow' within our organisation that aims to augment recruitment from the LGBTQ community.

Learning and development

At GPL, we strive to nurture the talent and skill-sets that each of our employees hold.

We established Godrej Capability Factor to support our employees and build a strategic training approach with an enhanced focus on people management, collaboration, coaching and mentoring. Through this approach, we aim to enhance our performance to address organisational vision and targets. Our established singular

learning platform called Brighter Minds facilitates accessibility towards self-learning programmes in addition to augmenting individual skill-sets and knowledge.

We developed a strategic learning approach for our employees. Our learning strategy follows a '70-20-10' principle with 70% learning transpiring at work, 20% through feedback and mentoring and 10% through training, executive programs, books and online learning.

In FY 2020-21, 84% of our employees received training
100% of eligible employees received performance appraisal.

Employee well being

Agility and accountability play a large role in shaping a safe, vibrant and encouraging work environment. We, at GPL, nurture our employees through an inclusive work environment that fosters belonging and purpose.

Employee Health and Safety

The strongest pillars of GPL safety and health management system comprise of skill enhancement, capability building and awareness. Our Code of Conduct mandates diversity and zero discrimination for a healthy and good working environment. To strengthen safety, the senior management defines responsibilities and provides

relevant resources towards safety measures. We implemented the GPL OH&S management system and plan to implement ISO 45001: 2018 certification in FY 2020-21 to ensure the smooth implementation of safety practices across our sites. We emphasise on awareness programs, skill training sessions, motivational campaigns and health camps. During the reporting year, we conducted more than 11,901 safety training sessions covering 2,26,265 attendees.

Office IGBC Health and wellbeing certification

As a part of our commitment to the safety of our employees, customers

and partners in a post-Covid-19 world, Godrej One received Platinum Certification under the IGBC Health & Well-being rating system. Our aspiration is to have all remaining regional offices certified under IGBC Health & Well-being rating system this year.

The Company will, subject to government norms, undertake COVID-19 vaccination drive by providing vaccines free of cost to all its employees and their dependent family members at its various offices and on-site locations.

Planet

Our environment commitment

At Godrej Properties, our operations contribute to climate change and impact environmental sustainability. We strive to counter the impact by delivering value through our endeavours, including environmental stewardship and business growth.

We focus on the minimisation of our carbon footprint through efficient natural resource utilisation. We incorporate best practices that minimise our environmental footprint and we implement mitigation programs and offset mechanisms. We set aspirational targets and work towards Vision 2025. Extending beyond local, state and national level compliance requirements, we promote process innovation and the use of advanced technologies. We endeavour to address our holistic ESG responsibility by mitigating risks and improving our environmental performance .

Streamlining our energy requirements

We aim to increase operational efficiency, moderate costs and strengthen sustainability while strengthening our energy management. We encourage the Implementation of technology, processes and systems that improve our energy performance. We promote energy self-sufficiency through renewable technologies for on-site

power generation, alternative water heating and in-project use.

We have installed 100 KW capacity solar plant at our Mamurdi Project (Pune) with an investment of approximately ₹ 0.40 Crore. Furthermore, solar PV plant works in progress at other sites of Pune region such as Mahalunge , Manjri and Hinjewadi with a capacity of 100KW each, to fulfil the power demand of site establishments.

Reducing emissions

As a responsible corporate citizen, we measure, monitor and mitigate our GHG emissions and air pollution. We minimise the consumption of energy use in buildings for lighting, heating and cooling as they influence direct and indirect CO₂ emissions. We achieved Carbon Neutrality through successfully offsetting our emissions from operations.

Managing our waste

The global shift towards a circular economy warrants businesses to assume ownership of and manage the waste generated by their activities. We understand the harmful impact of improper waste disposal on the environment and implemented mechanisms to treat and dispose the generated waste.

Our focus on biodiversity

Every species of plant and wildlife plays a crucial role in their ecosystem that forms the basis for the planet's sustenance. At GPL, we recognise the importance of biodiversity management in maintaining ecological sustainability . GPL has undertaken proactive measures to protect local biodiversity and ensure that no local habitat is affected by our operations. During reporting period none of our sites were in the proximity of biodiversity rich areas and no species were affected by our operations.

Water stewardship

Our industry is dependent on water. Consuming water in the most efficient way is the need of the hour. GPL recognises the value of natural resources and the impact on the environment due to its operations . In light of these concerns over finite freshwater resources, we strive to adopt sustainable water management. Our efforts for water conservation and giving back to nature has helped to achieve Water Positive Status.

Cementing the future for construction workers - Social Compact Programme:

At GPL, we believe that a socially responsible business is a successful one with workers integral to that responsibility. While workers are brought on board by our contractor partners, we endeavour to ensure that their working and living conditions uphold human dignity. From an industry perspective, we invest in skilled and unskilled construction workers to strengthen their capabilities/income potential, making them future-ready .

We upheld this commitment even when the pandemic paralysed industry operations. Thousands of workers continued to stay on securely at our construction sites; we provided meals and sanitised living conditions through the lockdown. The unprecedented situation however brought with it the realisation that millions more were being impacted differently and a lot more needed to be done. The lockdown and resultant migration underscored the need for us as an industry to recognise the fault lines that allowed for a human crisis of this magnitude.

GPL commissioned a report called 'Inclusive by Design: Cementing the future of construction workers' that offers actionable insights on the systemic barriers that enhance the vulnerability of workers employed in this sector. Outside of agriculture, the construction sector is the largest employer of blue-collar workers. It is estimated that 80% of the workforce is informally employed, with a predominance of migrants.

We took away five strategic points from this exercise that highlight the need for convergence between multiple stakeholders:

- 1 Improve data collection and integration across workers' migration corridors and value chains to enable greater visibility and security
- 2 Enable financial, social and legal protection by securing requisite identity proof and worker registration
- 3 Create expectations alignment for workers through a channel informed by industry demand
- 4 Ensure gender equality in opportunities, working conditions and wages through inclusive policies and practices
- 5 Empower construction workers' families and communities through access to diverse livelihood opportunities that prevent distress-led entry into the sector

As we emerge from the pandemic, India's real estate and construction industries are faced with a choice: rebuild as before or to reset the foundation to one that befits the industry of the future (worker well-being at the core of resilient/sustainable business).

In these challenging times, the onus lies with responsible industry players to create a future where workers engaged with the sector join out of aspiration rather than out of distress. This commitment will contribute towards 5 of 17 Sustainable Development Goals, namely:

Life cycle assessment

The Company has initiated a Life Cycle study of its buildings to understand Environment Impact. This LCA study was conducted as per ISO 14040:2006. Results of this study will be used for quantitative impact assessment to select the preferred product, process and services. Overall LCA impact was categorised in Acidification Potential, Climate change (Global Warming Potential), Eutrophication, Ozone layer depletion and Eco-toxicity.

Green Building certifications

As one of the founding members of the Indian Green Building Council (IGBC), we propagate the concept of green buildings in India. We deliver valued outcomes to our stakeholders as we prioritise sustainability through associations with the Sustainable Housing Leadership Consortium (SHLC) and Indian Green Building Council (IGBC).

We ensure that all our buildings are certified under credible rating systems

such as IGBC, Leadership in Energy and Environmental Design (LEED), Excellence in Design for Greater Efficiencies (EDGE) and Green Rating for Integrated Habitat Assessment (GRIHA). We comply with a minimum IGBC Silver rating (or equivalent in other rating systems) across all projects. Our design-led approach amplifies innovation towards green buildings. 90.16% of our portfolio** currently follows green building guidelines and norms laid by the green rating systems.

Green Societies certification

GPL secures a green certification under IGBC Green Homes. It has taken measures to deliver sustainability to customers. Our intent is for these

measures to stay operational through the lifecycle which requires a Facility Management verification as well. In light of the same, we initiated the re-certification of applicable projects

under Facility Management purview under IGBC Green Societies before GPL exits projects.

***The following projects are excluded from the portfolio boundary since they have been initiated/developed before our commitment towards delivering green buildings: Godrej 17 (Bangalore), Godrej Woodsman Estate (Bangalore), Godrej Alpine (Mangalore), Godrej Prakriti (Kolkata), Godrej Sherwood (Pune), Godrej Bayview (Mumbai), Godrej Edenwoods (Mumbai), Godrej Glenelg (Mumbai), Godrej Hill (Mumbai), Godrej Pine (Mumbai), Godrej Riverside (Mumbai), Godrej Sky Garden (Mumbai), Godrej Waldorf (Mumbai), and Planet Godrej (Mumbai). Further, all plotted development projects are excluded as no suitable green building certification is available for such developments.*

Our employees, our responsibility

During the challenging year under review, when the safety of human lives (physical, mental and psychological) was at a premium, the Company's focus continued to be the well-being of its employees. During this critical juncture, GPL responded with speed to remote working for its employees immediately following the lockdown in March 2020. A centralised team monitored the operations and preparedness of each region. Only 'go-zones' were permitted to conduct field work following extensive safety protocols and even within them, field work was discretionary, placing safety first. 'No-go zones' engaged in remote working until it was considered safe to venture into the open. This employee safety-first approach above everything else connected the Company between employees, vendors and prospective customers during the challenging period. The Company responded to the new normal following office resumption with extensive precautions comprising of the replacement of door handles with foot peddles, installation of motion-dispensers for tissues and soap while urging employees to 'book their day@office' through an online tool to fulfil attendance requirements. The Company, through various agencies, has undertaken COVID-19 vaccination drive by providing vaccines free of cost to all its employees and their dependent family members at its various offices and on-site locations.

AS SOON AS YOU FEEL UNWELL
Stay calm. Remember that most people recover from COVID-19 and do not require hospitalization.

- 1 Self-isolate.** Do not wait to get tested or receive results.
- 2 Contact a doctor** for advice.
- 3 Check your oxygen level** every 6 hours or more frequently if your breaths are too fast. **Seek emergency care** if oxygen level on the oximeter shows less than 94%.
- 4 Monitor your temperature** every 6 hours. Do it more frequently if you have a fever. **Seek emergency care** if fever of more than 101°F (38°C) persists for 3 days.
- 5 Seek emergency medical care in any of these cases:**
 - Shortness of breath
 - Lips or face turn blue-ish
 - Feeling of disorientation increases
 - Persistent pain or pressure in the chest
 - Slurred speech/ seizures
 - Unable to wake up or stay awake

STAY CALM AND ISOLATE
How to manage COVID-19 at home.

- 1 Isolate yourself in a separate room** with bathroom if possible for 10 days and rest.
 - Rest, relax, rest, relax.
 - Keep your mind busy by reading books, watching TV shows and having video calls with your family and friends.
 - If you feel up to it, do some light exercise.
- 2 Wear a mask covering your nose and mouth** whenever you open the door. Those entering your room should also wear a mask.
- 3 Open the windows** for ventilation if possible.
- 4 Wash your hands** frequently with soap. Clean your room yourself with disinfectant or soap.

HOW TO MANAGE MILD COVID-19 AT HOME
Stay home and recover if that's what your doctor advises.

- 1 Only have medicines a doctor prescribes.**
 - Do not self-medicate. Home concoctions like garlic, camphor and carom seed (ajwain) bundles cannot improve oxygen levels.
- 2 Take paracetamol (500mg) every 4 to 6 hours** if you have a high temperature, aches or pains.
 - Do not have more than 4 doses maximum within a 24-hour period.
- 3 Stay hydrated (drink water)** and eat nutritious meals even if you are unable to taste. There is no food known to treat or cure COVID-19 but eating healthy will help your body recover.
- 4 Do tepid sponging using tap water.**
 - Do not use cold water.

At Godrej Properties, 'Togetherness' is...

The relief on the face of the migrant worker on our construction site having been provided extensive personal safeguards to address the job

The confidence among our on-site workers that we will see through the external challenges on account of the extensive SOPs implemented

The pleasant surprise when we showcase our properties virtually to prospective customers so that they do not need to endanger themselves through physical visits

The pleasant surprise when customers experience the across-the-table ease with which they become proud owners of a Godrej home

The smile on the faces of our customers when an improved process helps save them time and paperwork

The awe evoked when customers see

our stamp of excellence across every aspect – large and small – of a home handed over

The warmth of enduring friendships formed with neighbours that makes most customers say, 'I am never going to sell out of my Godrej home.'

The specialness with which Godrej Properties treats every single customer when handing over the keys to their new home

The relief that comes from someone at Godrej Properties willingness to explain all aspects of the agreement so that the customer is convinced that it is in a language she can understand without concealed fine print

The inability to find any words when asked 'Now that you have your own home...how does it feel?'

At Godrej Properties, our approach has been structured around four pillars

GODREJ GOLF LINKS (ACTUAL IMAGE)

Sustainability

At Godrej Properties, we develop properties that are good for our customers, neighbours and the earth.

Thoughtful design

At Godrej Properties, we create thoughtfully designed spaces that address prevailing and projected needs of every family member, deepening the connect that residents have with specific corners, spaces and rooms.

Project Quality

At Godrej Properties, we continue to build around a distinctive Godrej gold standard covering materials quality, specifications and finishing.

Thriving communities

At Godrej Properties, we create happy neighbourhoods where 'Coming home' is not just about returning to one's immediate family but a considerably larger extended 'family' of friends and well-wishers.

OUR PILLAR

Godrej Properties ...engaged in building vibrant neighborhoods

Overview

At Godrej Properties, we are aware of the great urban conflict where more people will seek to live in urban India even as the same urban India becomes increasingly stressful, congested and polluted.

During our extensive discussion with customers – existing and prospective – one of the questions that we made sure we asked was: 'If you were given an option to live in a perfect world, what would that world be like?'

Surprisingly, none of them said that they would like to seek a distant corner of the world as their refuge; what most did say was their ideal existence would be a kind of a village within a bustling city; their ideal would be a calming oasis within the blur of existence; their 'home' would comprise of a number of familiar first-name faces in an otherwise impersonal world.

At Godrej Properties, we didn't say, 'How nice, but there is little that we as home builders can do about this...'

We said, 'That's all we really need to know to take Godrej Properties to the next level.'

GODREJ BKC (ACTUAL IMAGE)

OUR PILLAR

Godrej Properties ... delivering quality

Here are some of the rules we follow to ensure the highest quality delivery across our projects.

One, we may be buying a few thousand products when creating a property but for each product work we work with only the best brands.

Two, we don't just buy the best brands and forget about it; we test the products in real-world usage scenarios for endurance and longevity.

Three, we are not singularly driven by the prospect of buying at the lowest price. Our aim is to always balance the cost of a product with its quality.

Four, even after we have engaged with the most credible brands, and sent our executives to examine their manufacturing and quality processes; we still set up our quality testing laboratory that tests all incoming material on site.

This ability to get into the fine print, appraise quality differences in decimals and keep advocating the two words that make the difference ('No compromise') has had some remarkable upsides.

TRACK RECORD

A pioneer of excellence

Overview

Our projects over the years have delivered many firsts in the Indian real estate market. Planet Godrej, a skyscraper in Mumbai, was India's tallest occupied building when completed in 2008. It also illustrated our focus on customer safety and wellbeing by becoming the first project in the country to offer residents a fire escape chute. Our commercial office project, Godrej BKC, is the only LEED (Leadership in Energy and Environmental Design) Platinum rated building in India's leading commercial district, Bandra Kurla Complex, demonstrating Godrej Properties' commitment to environmental sustainability. It is also the project where we broke the record for India's highest ever commercial end-user sales transaction when a large multinational pharmaceutical company purchased space in this project for ₹ 1,479 Crore in 2015. Our flagship project, The Trees, is one of India's most sustainably planned mixed-use projects that we hope will contribute to the evolution of urban design thinking in the country. We sold over ₹ 1,200 Crore worth of space within six months of launching this project in 2015, making it one of the country's most successful residential project launches.

With an estimated 10 Million Indians moving into the urban areas annually, the country's urban landscape is likely to change dramatically in the coming decades. We firmly believe that India must seize on the opportunity to urbanise in a sustainable manner. Our group has always been at the forefront of the environmental sustainability

movement. The CII-Godrej Green Building Center in Hyderabad, when it was completed in 2004, was the first LEED Platinum building outside of the United States and was the single highest rated LEED building in the world. In 2010, Godrej Properties committed that every single project we develop will be a certified green building. Many of our projects have since received LEED Platinum certifications, which are globally recognised as the leading sustainability recognitions. Our large township project, Godrej Garden City, in Ahmedabad was selected as one of only 2 projects in India and 16 worldwide by The Clinton Foundation to partner with them in the goal of achieving a climate positive development. In 2016, we stood 2nd in Asia and 5th in the world in the GRESB (Global Real Estate Sustainability Benchmarking) study, which is an industry led sustainability and governance benchmarking platform.

In 2010, Godrej Properties became a publicly listed company through a successful IPO in which it raised USD 100 Million. Godrej Properties also created a fund management subsidiary in 2016; Godrej Fund Management raised USD 275 Million in the year's largest residential real estate focused fund raise in the country. We are one of India's only national developers with a strong presence across the country's leading real estate markets. In the financial year 2016, for the first time, Godrej Properties was India's largest publicly listed real estate developer by sales value having sold over ₹ 5,000 Crore of real estate that year. In the same year, we also delivered 0.56 Million square meters (6 Million square feet) of real estate in seven cities across India.

Management Discussion & Analysis

GODREJ ICON (ACTUAL IMAGE)

Global Economy

It has been over a year since COVID-19 was declared a global pandemic, which totally changed the course of the world. The global economies which were already facing a synchronised slowdown, got impacted severely by the outbreak of the coronavirus. According to The World Economic Outlook (WEO) update, the world economic output declined by 3.3% in 2020, after growing by 2.4% in 2019. The contraction of the activity in 2020 was unprecedented and could have been worse, had it not been for the extraordinary policy support provided by the world central banks. The pandemic which has claimed more than three million lives globally, has pushed world economies to work together towards a common cause. Globally, multiple vaccines are

already available which are proving to be effective and in parallel, quicker adaption to the pandemic life has helped the global economy to recover faster than anticipated. While there could be large divergence in recovery rates of respective countries as they grapple with their own issues, the World Economic Outlook has estimated global growth to increase by 6.0% in 2021 and 4.4% in 2022.

Among the advanced economies, the United States is expected to surpass its pre-COVID GDP level in 2021, while the other advanced economies will return to their pre-COVID levels only in 2022. Amongst the emerging market and developing economies, China has already returned to pre-COVID GDP levels in 2020, while others are not expected to do so until 2023. A number

of tourism reliant economies are far away from recovery due to the existing travel restrictions in various parts of the world.

While the vaccination rollout has started globally, several countries are facing a second and third wave of coronavirus infections due to the shortage of vaccines and bottlenecks in production facilities. The renewed restrictions to contain the subsequent waves could derail the global economic recovery and will need to be closely tracked. Also, as the world economy resets in a post-pandemic world, it could be an opportunity for economies to reimagine their growth strategies, come out stronger and set the stage for growth in the coming decade.

Indian Economy

After facing several headwinds last year with the start of the pandemic, the Indian economy is expected to gradually recover in the current year. India's GDP grew by 0.4% in Q3 FY 2020-21 after two consecutive quarters of contraction. As per the second advance estimates of Central Statistics Office (CSO), GDP growth for FY 2020-21 is expected to contract by 8.0%, after expanding by 4.0% in FY 2019-20. The country's fiscal deficit for FY 2020-21 has been pegged at 9.5% of GDP, much beyond the original targeted 3.5% of GDP, resulting from stressed tax and divestment revenues, increased expenditure commitments due to the COVID-19 pandemic and the resultant economic slowdown. The country's fiscal deficit for FY 2021-22 has been pegged at 6.8% of GDP and the FRBM act has been amended to target fiscal deficit below 4.5% of GDP by FY 2025-

26.

The core sector grew by 6.8% in March 2021, helped by last year's low base and double-digit growth in steel, cement, electricity and natural gas segments, along with an upside surprise in IIP which rose by 22.4% in March. For FY 2020-21, IIP stood at -8.6% as against -0.8% in FY 2019-20, reflecting the weakness in the economy. Also, the lockdown and fresh restrictions in several parts of the country to contain the second wave could lead to a delay in recovery.

According to the CSO, country's factory output growth shot up by 7.0% in FY 2020-21 as against a contraction of 0.7% in FY 2019-20. Consumer durables output, an indicator of urban demand, contracted by 15.2% in FY 2020-21, compared with 8.7% contraction in FY 2019-20.

According to the World Economic

Outlook update, India's GDP growth is expected to recover sharply by 12.5% in FY 2021-22, on the assumption of a brisk recovery from the pandemic. Also, India's growth projection for FY 2022-23 is projected at 6.9%. RBI has maintained the repo rate at a record low of 4.0% since May 2020 and accommodative monetary policy stance amid concerns of rising COVID-19 cases that could derail the nascent recovery. There is a high probability of downward revision in growth rates of the economy, given the severity of the second wave.

While the second wave of COVID-19 infections has created significant uncertainty over the economic trajectory in the short term, various initiatives by government will ensure a steady growth path in coming years. The government intends to spend more than ₹ 2.0 Lakh Crore on various Production Linked Incentive

(PLI) schemes over the next 5 years in several sectors. The scheme is transformational which will facilitate India becoming a global manufacturing hub, create more job opportunities and higher economic activity. Also, the setting up of DFI to fund infrastructure projects which was announced in the latest budget is expected to benefit allied sectors. Additionally, a stable tax regime despite the fiscal constraints

will boost economic sentiment and private consumption.

FY 2020-21 inflation stood at 6.2%, within the RBI's estimated range and is expected to be ~5.2% for the current year, according to the Asian Development Bank. Also, any upside risk from firm crude prices is more likely to be offset by softening of demand due to a resurgence in coronavirus infections, reduction in

duties on petroleum products and the likelihood of a normal monsoon in the current year. The country's exports of goods and services are expected to improve once the global economies recover from the pandemic. While the long term outlook looks bright for the country, the recurrence of COVID-19 waves could pose a serious risk to global trade activity and slow Indian economic growth.

Real Estate Sector

The Indian real estate sector was expected to start recovering in 2020 after few lackluster years wherein the sector was impacted by multiple reforms and the changes brought about by Demonetisation, RERA, GST and the NBFC crisis. It has been a tough task for the sector to align itself with these externalities, but the measures have resulted in much needed transparency, accountability and fiscal discipline for the sector. Prior to the pandemic, the real estate sector was expected to contribute around 13% of India's GDP

by 2025 (from around 6-7% in 2017), according to ANAROCK Research.

The pandemic nearly stalled the markets in H1 2020 and the sector was virtually written off at the early stages of the pandemic on the expectations of a subsequent economic fallout. However, during this unprecedented crisis, the real estate sector exhibited remarkable resilience and recovered ahead of expectations. After grappling with initial labor shortages and demand deferment, both the residential and office markets witnessed signs of revival from Q3 2020 onwards.

While the pandemic outbreak temporarily disrupted the sector, it also led to emergence of certain trends such as preference for larger apartments, increasing inclination for home ownership as against rental housing, de-densification of office spaces and acceleration of the ongoing consolidation in the sector. Also, the current situation has opened up a lot of business development opportunities for well capitalised developers. The uncertainties of the second COVID-19 wave and its impact will need to be assessed and tracked closely.

Residential Real Estate Market

The Indian residential sector has been under pressure due to tepid demand in the past few years and the pandemic has further worsened the situation for the sector. While the sector was finding its way post the liquidity crisis and earlier disruptions, the COVID-19 pandemic threw upon an unprecedented crisis and nearly stalled the housing market in the first half of the year. However, contrary to everyone's expectations the residential market proved to be resilient and started recovering strongly from Q3 2020 onwards. Larger established players with easy access to funding and technological edge gained market share during the year. Stagnant housing

prices coupled with decadal low interest rates helped the residential sector to stage a meaningful recovery. The sales momentum was particularly strong in MMR and Pune in H2 2020, led by time bound stamp duty cuts and a 50% reduction in the construction premiums for all ongoing projects and new launches by the Maharashtra Government.

According to the property research firm Knight Frank, the total sales volume in the top eight cities declined by 37% in CY2020 to 154,434 units. Ahmedabad witnessed the steepest decline in sales at 61% YoY, followed by Bengaluru where the sales dropped by 51% YoY. New launches dropped by 34% to 146,628 units in CY2020 across eight cities including MMR, Bengaluru and

the National Capital Region (NCR), after registering an increase of 23% in CY2019. NCR witnessed the sharpest decline in new launches at 57% YoY, while Hyderabad market recorded a decline of only 5% YoY.

According to the Knight Frank affordability matrix, affordability for the top eight cities has improved over the last few years with rising income levels and time correction in the housing sector. An EMI/Income ratio of over 50% is considered unaffordable according to the matrix and most cities have witnessed a dramatic increase in affordability due to decadal low interest rates and decline in home prices in CY2020. While Mumbai continues to be the most expensive housing market with affordability ratio at 61% in

CY2020, the affordability for the region has improved from 94% in CY2015. Ahmedabad continued to be the most affordable city with affordability ratio at 24%, while the affordability ratio for NCR and Bengaluru stood at 38% and 28%, respectively in CY2020.

MMR

The Mumbai Metropolitan Region (MMR) was amongst the worst affected region by the COVID-19 pandemic in our country, leading to the most stringent period of lockdowns. Due to the high number of cases in MMR, the lockdown restrictions were lifted at a much slower pace compared to other cities. The real estate activity came to a standstill during the period April-June followed by disruption in the construction activity due to migration of construction workers. However, things started to improve from June onwards when the lockdown restrictions were partially lifted. The time bound stamp duty cuts by the Maharashtra government was well timed with the festive season which helped the sector to survive and come out of the woods in the second half of the year. The concessions on construction premiums till December 31, 2021 could be win-win for the customers and the developers.

Sales in the MMR dropped by 20% YoY to 48,688 units, while the launches declined by 37% YoY and stood at 50,303 units in CY2020. The sales and launches were most impacted in Q2 2020 due to the lockdown related issues, followed by a strong recovery in H2 2020. The stamp duty cuts have managed to propel sales in the luxury segment of MMR, which has been languishing since last several years. On account of higher launches compared to the annual sales, the unsold inventory inched up 1% YoY to 146,916 units in CY2020.

Bangalore

Bangalore has been the amongst the most resilient real estate markets in the country with a meaningful presence of reputed developers. A steady demand from IT sector and a startup ecosystem has ensured a healthy demand for the commercial space, which is a precursor to residential real estate demand in the region. However, pandemic shook the Bangalore real estate market with major impact in Q2/Q3 2020 resulting in lowest housing sales in a decade. The supply side was also disrupted as the construction activity almost came to a halt due to labour migration issues and squeeze on the lending front. The sales volume declined by 51% YoY to 23,576 units in CY2020, while the launches stood at 19,929 units, down 41% YoY. While the impact of the pandemic still exists, the region has recovered well in H2 2020 with Q4 2020 sales rising 32% on a sequential basis, on the back of 41% QoQ growth in Q3 2020. The unsold inventory declined by 5% YoY to 74,764 units at the end of CY2020 led by sales recovery which outpaced the launch momentum.

While the impact of the pandemic still exists, the region has recovered well in H2 2020 with Q4 2020 sales rising 32% on a sequential basis, on the back of 41% QoQ growth in Q3 2020.

NCR

NCR market which had been recovering well since CY2018 faced a massive slump in the housing sales in CY2020. However, the sales momentum which was severely impacted in H1 2020 due to the pandemic induced economic slowdown, started to revive gradually in H2 2020 on easing of lockdown restrictions. The pandemic has influenced customer buying behavior with higher preference for home

purchases from reputed developers and larger sized apartments. Also, there has been a significant rise in the sales of completed inventory and plotted developments in the NCR region. The housing sales dropped by 50% YoY to 21,234 units, while the launches declined by 57% YoY to 9,824 units in CY2020. While both sales and launches recorded a sharp decline, lower interest rates and pent up demand led to faster recovery in sales which resulted in reduction in the unsold inventory by 9% YoY in CY2020 to 1,10,674 units. Despite a drop in the unsold inventory, the quarters-to-sell (QTS) has deteriorated from 11.7 quarters in CY2019 to 13.8 quarters in CY2020, mainly due to the dip in sales velocity during the pandemic.

Pune

Pune was another city which was badly affected by the pandemic. Along with the national lockdown earlier, a second lockdown was imposed in Pune in July due to the rapid rise in the number of coronavirus cases. While the lockdown impacted real estate activity severely in Pune, the region started to recover from Q3 2020 onwards after the announcement of stamp duty cuts by the Maharashtra State Government and reduction in housing loan rates to decadal lows. The annual launches declined by 22% YoY to 34,992 units, while the sales dropped by 18% YoY to 26,919 units in CY2020. The pandemic has resulted in higher preference for larger sized apartments which is evident from the fact that apartments above ₹ 50 Lakh ticket size contributed around 51% of the total sales during H2 2020 as compared to 39% during H2 2019 in Pune. Also, around 33% of the new launches during H2 2020 were above ₹ 50 Lakh ticket size compared to 14% during H2 2019. Unsold inventory levels in the Pune market shot up by 20% YoY to 47,542 units in CY2020 as the annual launches were significantly higher than the sales.

Office Market

The office market in India has been vibrant over the past few years, with record supply and leasing transactions hitting the market in CY2019. The market was expected to continue its positive momentum in CY2020; however the COVID-19 pandemic and the associated lockdowns resulted into a new set of challenges for the office sector. The corporate tenants were forced to adopt work from home practices and major real estate leasing decisions were delayed. Business activities across all markets came to a standstill during Q2 2020 because of the pandemic and the phased resumption in a weak economic environment heavily impacted the office demand. The office space supply dropped sharply by 42% YoY to 35.5 Million sq. ft. in CY2020, while the transaction activity declined to 39.4 Million sq. ft., down 35% YoY. However, the transactions gathered momentum towards the last quarter with gradual recovery in the economy and improved sentiments on the news of potential vaccination in the country. Bangalore office market continued to be resilient, recording leasing transactions to the tune of 12.3 Million sq. ft., which was

nearly one-third of the total leasing transactions in the top-8 cities in CY2020. The IT/ITeS sector contributed around 41% of transacted volume in H2 2020, while share of BFSI stood at 16%. Global investors continue to believe in the massive potential of the real sector in India, which is evident from the overwhelming response to second and third office REITs, which got listed in the middle of the pandemic.

Budget 2021 – takeaways

The Government delivered an impressive growth-oriented budget, despite limited fiscal room in FY 2020-21. While there were limited announcements impacting the real estate sector directly, a major thrust on infrastructure spending will benefit the real estate sector. Additionally, a stable tax regime will greatly benefit the demand in the housing sector. Some of the key measures include:

Interest deduction benefit on affordable housing

The Government in its attempt to boost affordable housing demand, proposed to extend additional tax benefit of ₹ 1.5 Lakh on interest paid on affordable housing loans by one year till March 2022.

Tax holiday extended for affordable housing developers

In order to encourage developers to focus on affordable housing projects, the Government extended the date of approval for these projects for availing tax holiday on profits earned by developers by one year till March 2022. The tax holiday which was being provided under section 80-IBA for approved projects during the period from June 1, 2016 to March 31, 2021 has been extended by one more year.

Rental housing for migrant workers

The government has provided a tax exemption for notified rental housing projects for migrant workers which will facilitate supply and demand for affordable housing.

REIT regulation changes

The government has removed Tax Deduction at Source (TDS) on dividends paid to REITs, which will bring down the administrative burden for REITs. Additionally, the government has proposed to enable debt financing of InVITs/REITs by foreign portfolio investors by making suitable amendments in the relevant legislations which will open up additional avenues of funding at competitive rates.

Also, in order to encourage developers to focus on affordable housing projects, the Government has extended the date of approval for these projects for availing tax holiday on profit earned by developers by one year till March 2022. The affordable housing segment could see a meaningful uptick in demand with an expected economic recovery, improving wages and affordability. Lastly, Affordable Rental Housing Complexes (ARHCs) have been accorded as a sub-scheme under Pradhan Mantri AWAS Yojana-Urban (PMAY-U) to provide ease of living to urban migrants engaged in the informal sectors of the economy.

Digital Real Estate Sales

Over the past few years, digital marketing has emerged as an important tool for real estate developers to boost their sales and reach out to customers globally. While the earlier marketing activities were limited to building consumer experience and establishing connection through digital means, the pandemic has forced the developers to change their conventional sales models.

Developers who have been able to migrate their sales process from on-boarding of customers to closing the deal online, have recorded healthy sales even during the lockdown. Digital collaboration tools can be leveraged by the developers to interact with potential customers, showcase project brochures, facilitate virtual site tours, and focus on NRIs to propel the sales. Going ahead, it will be imperative for the developers to adapt to a tech-savvy future in terms of digital platforms for sales and marketing and also introduce enhanced automation at sites.

Monetary Easing

The real estate sector performance is closely linked to the country's economic fundamentals and its monetary policies. The Reserve Bank of India has kept the benchmark repo rate unchanged at 4.0% since May 2020, which is the lowest ever repo rate in its attempt to support the economic recovery while maintaining an accommodative stance. A liberal monetary policy is expected to benefit the customers, real estate developers and foster the reviving housing demand.

Over the past few years, digital marketing has emerged as an important tool for real estate developers to boost their sales and reach out to customers globally.

Opportunities

Housing Demand

The pandemic has reinforced the security that homeownership offers vis-à-vis rental housing, resulting in rising housing demand. A full-fledged expected economic recovery coupled with all-time low interest rates, stagnant house prices and rising income levels are some of the factors which will drive the housing demand going ahead.

Consolidation

The highly fragmented Indian real estate sector has been in a prolonged

consolidation phase in the past few years; albeit at a slower pace. The reforms and the disruptions in the real estate sector have ensured that no new player has an easy entry into the sector. Even the existing developers have been under pressure with lackluster sales, high borrowing costs and lack of pricing power. The liquidity crisis worsened the situation for the sector and the pandemic has accelerated the process of consolidation. The pandemic has opened up new avenues of growth for well capitalised developers in terms of attractive business development opportunities and online digital sales.

Affordable housing

Affordable housing continues to remain a significant opportunity for developers and key focus area of the government. While the target customers of affordable housing were worst hit by the pandemic leading to lower sales in CY2020, the share of launches in the affordable segment across the top 7 cities of India, has also dropped from 40% in CY2019 to 30% in CY2020, according to ANAROCK Research. In Budget 2021, the government announced several measures to boost affordable housing. In its attempt to boost the affordable housing demand,

Threats & Challenges

Regulatory Hurdles

The real estate sector is a highly regulated sector and any unfavorable changes in government policies and the regulatory environment can adversely impact the performance of the sector. There are substantial procedural delays with regards to land acquisition, land use, project launches and construction approvals. Retrospective policy changes and regulatory bottlenecks may impact profitability and affect the attractiveness of the sector and companies operating within the sector.

Funding

The lending to real estate developers by the NBFCs and HFCs was already limited after the IL&FS crisis and the pandemic has further deteriorated the liquidity situation for weaker developers who had to resort to alternative funding in absence of long term loans from banks. However, Grade I developers with strong balance sheets continue to enjoy ample liquidity access. Going ahead, the funding situation is likely to remain selective towards the reputed developers and majority of developers will have to rely

on cash flow generation from project sales.

Shortage of Manpower & Technology

The real estate sector is heavily dependent on manual labour. During the pandemic, the sector was badly hit due to reverse migration of construction workers which affected the construction activity severely, leading to delayed timelines for project completion. Hence, there is a need for development of technologically less labour intensive alternative methods of construction.

About Godrej Properties Limited

Godrej Properties Limited (GPL) is the real estate development arm of the Godrej Group, which was started in 1897 and is today one of India's most successful conglomerates. Godrej Properties brings the Godrej Group philosophy of innovation, sustainability, and excellence to the real estate industry. Each Godrej Properties development combines a 124 year legacy of excellence and trust with a commitment to cutting-edge design and technology.

GPL has always embraced the notion that collaboration is the essence of excellence. To that end, we have worked with the best designers, architects and contractors within India and around the globe to deliver imaginative and sustainable spaces. By bringing together the best talent in the global real estate sector, GPL works to create developments that will last into the future and foresee the needs of each and every resident.

a. Leveraging the Godrej brand

We believe that the 'Godrej' brand is instantly recognisable across India due to its long standing presence

in the Indian market, the diversified businesses in which the Godrej Group operates and the trust it has developed over the course of its operating history. We believe that the strength of the 'Godrej' brand and its association with trust, quality and reliability help us in many aspects of our business.

These include entering into joint development agreements, expanding to new cities and markets and formulating business associations. The brand has also helped us build deeper relationships with our customers, service providers, process partners, investors and lenders all of which has led to us acquiring a strong position within the sector. In addition, GPL's association with the Godrej Group provides access to several land parcels owned by Godrej Group companies significantly enhancing the scope of our development portfolio. GPL's binding arrangements with Godrej & Boyce appointing GPL as the development manager for developing all its lands in Vikhroli further provides an opportunity to enhance the scope of our portfolio.

b. Sales Momentum

Your Company posted its best ever sales performance in FY 2020-21 in terms of the value and volume of real estate we have been able to sell. It was also the highest sales by any real estate developer in India in FY 2020-21. This has been achieved despite all

the difficulties that were associated with the pandemic, the resultant containment measures, its impact on the economy and a higher base of FY 2019-20, which was also a year of record sales for GPL.

We started FY 2020-21 on a strong note, taking advantage of the digital channels to record healthy sales during the lockdown quarter, which was otherwise a washout quarter for majority of the developers. With only one new project launch in H1 FY 2020-21, GPL managed to record sales booking of ₹ 2,605 Crore. However, we witnessed strong operational performance in H2 FY 2020-21 with 10 new project/phase launches resulting in bookings of ₹ 4,120 Crore for H2 FY 2020-21. This included our best ever quarterly sales performance in Q4 FY 2020-21 where we sold real estate worth ₹ 2,632 Crore, which is ~39% of our annual sales for FY 2020-21. The total value of bookings in FY 2020-21 stood at ₹ 6,725 Crore, which represents a YoY increase of 14%.

While the second wave of COVID-19 and its subsequent containment measures could lead to a muted start in FY 2021-22, we believe that our healthy balance sheet and a strong project pipeline will help us maintain sales momentum in the year ahead. Below is a brief of our performance in key markets.

NCR

GPL continued its strong sales momentum in the NCR market in FY 2020-21. It was our best ever performance in the NCR market with sales of ~2.7 Million sq. ft., up by 44% YoY and a booking value of ₹ 1,912 Crore, up by 26% YoY. The strong sales performance was backed by two new blockbuster project launches and healthy sustenance sales. Godrej Retreat, our first ever project in the Faridabad market, witnessed sales of more than 95% of the released inventory during the launch quarter. The project registered sales of 0.51 Million sq. ft. with a booking value of ₹ 288 Crore for the full year. Newly launched Godrej Woods in Noida was one of the key sales highlights, wherein your Company managed to sell over 275 homes worth ₹ 475 Crore on the launch day, making it one of the most successful residential launches in India. Our cumulative sales in the Noida market stood at 1.14 Million sq. ft. with a booking value in excess of ₹ 960 Crore in FY 2020-21.

Pune

Your Company managed to register its highest ever sales in the Pune market with bookings of approximately 2.7 Million sq. ft. and booking value of ₹ 1,571 Crore in FY 2020-21. We managed to achieve strong bookings with four new phase launches from our existing projects. Building on the excellent response for Godrej Hillside 1 and 2, GPL launched new phases Godrej Green Cove (Hillside 3) and Godrej Green Vistas (Hillside 4) in H2 FY 2020-21, which sold approximately 85% and 75% of the released inventory in their respective launch quarters. Godrej Green Cove witnessed sales of 0.54 Million sq. ft. with a booking value of ₹ 321 Crore, while Godrej Green Vistas witnessed sales of 0.49 Million sq. ft. with a booking value of ₹ 302 Crore in FY 2020-21. Godrej Wood Park, our first plotted development project launched in Q4 FY 2020-21 witnessed sales of 0.27 Million sq. ft. with a booking value of ₹ 141 Crore in the launch quarter.

Mumbai

Total sales in Mumbai stood at approximately 1.6 Million sq. ft. with a booking value of ₹ 1,528 Crore. The robust sales performance was achieved with one new project launch and two new phases from our existing projects. Your Company managed to launch the project Godrej Urban Park within a year of adding it to our portfolio to sell inventory over 56,000 square feet worth ₹ 93 Crore in FY 2020-21. The new phase of Godrej City - The Highlands in Panvel witnessed total sales of 0.35 Million sq. ft. with a booking value of ₹ 229 Crore, while Godrej Upavan recorded total sales of 0.26 Million sq. ft. with a booking value of ₹ 166 Crore. Our iconic luxury project Godrej RKS, which was launched last year saw strong sales traction of over 92,000 sq. ft. with a booking value of ₹ 226 Crore in FY 2020-21.

Bangalore

GPL recorded strong sales performance in the Bangalore market in FY 2020-21, with sales in excess of 3.0 Million sq. ft., up by 50% YoY and a booking value of ₹ 1,344 Crore, up by 23% YoY. We had two new launches in Bangalore combined with strong sustenance sales from the existing projects. Your Company managed to launch a project - Godrej Royale Woods in the lockdown quarter, which reported solid sales of approximately 0.84 Million sq. ft. with a booking value of ₹ 371 Crore in FY 2020-21. The plotted development project Godrej Woodland witnessed sales of more than 0.75 Million sq. ft. with a booking value of ₹ 258 Crore in the launch quarter.

c. Capital Raising

GPL raised ₹ 3,750 Crore through Qualified Institutional Placement (QIP) in March 2021. Your Company allotted 2,58,62,068 equity shares of ₹ 5 each to Qualified Institutional Buyers for ₹ 1,450/share. This is a clear demonstration of your Company's ability to successfully raise capital in tough macro-economic conditions for the real estate sector. The equity raise was specifically timed to take advantage of a likely cyclical upturn in the real estate sector and the proceeds will be used to fund exciting growth opportunities ahead. As on March 31,

2021, GPL has a net cash balance sheet which leaves us with significant room to capitalise on new business development opportunities.

d. Commercial portfolio

On the commercial sales front, we've been able to generate healthy sales in FY 2020-21 and monetisation of the older commercial projects remains a top priority for your Company. Godrej BKC is now completely sold out, which recorded sales of 10,463 sq. ft. with a booking value of ₹ 38 Crore in FY 2020-21. GPL was able to sell 44,088 sq. ft. at Godrej Eternia with a

booking value of ₹ 36 Crore, however there were few cancellations at Godrej Genesis in FY 2020-21 and market conditions continued to remain tough in the Kolkata market. While we made good progress towards completely monetising our commercial portfolio in BKC, we still have significant inventory in our Chandigarh and Kolkata project.

e. Business development

FY 2020-21 has been a soft year for business development wherein we added 4 new projects with high economic interest and a saleable area of ~6 Million sq. ft., despite losing first

few months when the economic activity was stalled due to the nationwide lockdown. The pandemic has further worsened the situation in the Indian real estate sector after the earlier disruptions, leading to accelerated consolidation and opening up new avenues for players like GPL to build on its business development momentum. While we chose to go slow on the business development front in the pandemic year, we anticipate a lot of exciting opportunities to add projects to our portfolio. Also, the availability of funds through our QIP and low gearing ratio of -0.07, further gives us comfort to disproportionately scale up our project portfolio in FY 2021-22. Below is the list of deals signed by GPL in FY 2020-21.

f. Customer Centricity

FY 2020-21 was a critical year for the customer experience in light of the increased anxiety for customers due to the lockdown, the resultant stalling of construction activity and a slow pace of resumption in construction activity post lockdown. During the same period, GPL reaffirmed its 'Purpose' to bring Joy to the customers and ensured that we not only offer great customer service but also a consistent experience right from the time a customer makes their booking to the post-handover process. The testimony of bringing true Joy to our customers and its associated customer advocacy, especially in the pandemic year is the fact that we recorded ~₹ 911 Crore of sales in FY 2020-21 through loyalty program and referrals.

GPL has adopted NPS since 2018 as the barometer to measure our customer advocacy and also to seek very valuable customer insights on our process, people, and product. In FY 2020-21, we also took the strategic decision to improve our NPS survey processes and ensured that this time we elicit customer response without active reminders from relationship managers to customers to respond to the survey. By moving onto a system of eliciting an unsolicited response, we plan to create a new baseline of measuring customer feedback.

Survey Year	FY 2018-19	FY 2019-20	FY 2020-21
Relationship NPS Survey Responses	9,502	13,091	8,857
Combined Relationship NPS	26%	59%	41%

Other major highlights of our efforts for enhanced customer experience in FY 2020-21 are as follows:

- Pre-emptively recognising possible cabin fever associated with the lockdown for our customers, we created new avenues of engaging with them through an innovative online platform called 'Safe Socialising'. Safe Socialising ran as a unique 2-month online engagement program for our customers and their families with fun online events, trivia, videos, articles, quizzes, and much more. The platform drew participation of over 24,000 customers during the lockdown period.
- To further address customer anxiety, we adopted innovative ways of leveraging technology to connect with our customers, such as organising virtual site visits, conducting video broadcast of construction at our sites, lending expertise in real estate and home design by conducting virtual Masterclasses, and organising multiple fun online events to effectively engage

and communicate with our customers. In the same spirit, we launched an innovative customer conversation series in Q3 FY 2020-21, called 'Leaders Listen', where the leaders from your Company (General Manager and above) interacted one-to-one with the customers, along with customers' family, over a 45-minute web call. The idea behind the conversations was a facetime with customers to understand their experience with us first-hand, both the good and bad, and leverages the customer feedback in improving our systems, products, services, experiences, and policies. A total of 51 customer interactions were organised in H2 FY 2020-21, with over 150+ points of customer feedback received.

- For our post-possession customers, we continued to leverage our 'Strategic Facility Management Partnership' with M/S. Knight Frank and M/S. CBRE to add to safety and convenience of stay during the lockdown. Post-possession customers were extremely appreciative of the commitment of the facility management teams who stationed themselves at the sites to reduce the risk of infection to customers due to the team's commute from home.
- FY 2020-21 has also been significant for striking a fine balance between addressing the emotional anxiety of the customers and ensuring positive cash flows for the Company during a year of possible financial difficulties for the customers. While we addressed the former through innovative technology-driven engagements and customer connect initiatives, we addressed the latter through various initiatives to encourage customers for timely payment of their dues. We extended our P@CE program to help customers plan payments, avoid delays, and gain rewards. The P@CE program saw a 10% YoY growth in customer participation in FY 2020-21. Additionally, for customers affected by financial pressures due to the

pandemic, GPL demonstrated flexibility and consideration in allowing those customers to make payments.

- To take up the customer experience a notch above, the Company released first-of-its-kind mobile application on Google Playstore and iOS App Store. The app is a tremendous leap for real estate customers in self-care with

offerings such as online instalment payments, application, and disbursal of bank loans, accessing construction updates, and record-keeping of all purchase-related documents, which is now available at the fingertips of the customers.

- Towards improving the overall quality of our product, we onboarded

independent quality auditors M/S. CQRA last year to conduct quality audits at pre-defined stages of the construction and help your Company to identify the areas of improvement and take corrective action. In FY 2020-21, CQRA conducted 63 audits across 37 of our projects and provided us the right expertise to improve the quality of our products.

FY 2020-21 also gave us the great satisfaction of handing over possession of over 2,651 dream homes to families across India. During FY 2020-21, we delivered ~6.5 Million sq. ft. across 3 cities. The table below gives details of these projects:

Project	Location	Saleable area (Million sq. ft.)
Godrej Avenues	Bangalore	0.41
Godrej Reserve	Bangalore	1.90
Godrej Icon	NCR	0.61
Godrej Air - Phase 1	Bangalore	0.66
Godrej 101	NCR	0.63
Godrej United	Bangalore	0.95
Godrej Platinum	MMR	0.17
Godrej Two	MMR	1.17

g. Global recognition for sustainability initiatives

GPL was ranked #1 globally amongst listed residential developers by GRESB (Global Real Estate Sustainability Benchmark) - An industry-driven organisation which assesses Environmental, Social and Governance (ESG) performance of real estate assets globally. GRESB is committed to rigorous and independent evaluation of the sustainability performance of real assets across the globe. GRESB data is used by more than 200 institutional investors, listed property companies and fund managers and is backed by all leading international real estate associations and industry bodies. It provides investors the tools to benchmark their investments against each other based on property type, country and regional peer groups. GRESB is widely recognised as the

global standard for portfolio-level ESG reporting and benchmarking in the real asset sector.

h. Sustainable development

Delivering environmental sustainability, a positive social impact, and good governance has been an integral part of our values at Godrej Group. The Godrej Industries Limited & Associated Companies (GILAC) initiated the 'Godrej Good & Green' programme in 2011 and the programme's philosophy sets the framework for sustainable practices across group companies.

As a resource intensive industry, the real estate sector holds significant potential to build a more sustainable world through innovative building practices as well as energy efficient design and construction. Sustainable interventions can also reduce operating expenses and improve asset level

performance. On the social side, it is the second largest source of employment source in India with the ability to significantly impact livelihoods and lives.

We have therefore integrated sustainability as part of the primary development strategy through the real estate value chain starting from business development through to delivery and lifecycle use. We are committed to our responsibility within the business and our industry where we have evolved our '6P (Process, People, Profit, Planet, Partnerships, Product) Framework' that guides our initiatives to deliver impact across the triple bottom line.

Sustainable thinking forms the core of our development proposition. We believe that green certification for buildings is as an important indicator

of how efficient a building is and hence our focus on ensuring we aim for continuous improvement. 90% of our current development portfolio is green certified. For certification of our products, we work with credible green rating systems such as Indian Green Building Council (IGBC), Leadership in Energy and Environmental Design (LEED), Green Rating for Integrated Habitat Assessment (GRIHA) among others. Additionally, as one of the founding members of the IGBC and Sustainable Housing Leadership Consortium (SHLC), we also work with our industry peers to trade practices; discuss challenges and aggregate efforts at the industry level for sustainable urban development.

Like any large industry, the real estate sector contributes to and is affected by climate change. Owing to the accelerating impact of these changes, we see a compelling need for the identification and implementation of innovative solutions and mitigation measures. As a first step, we have integrated climate-related risks as a crucial component of our business activities and operational practices and initiated CDP disclosures.

We aspire to be amongst the world's most sustainable and responsible real estate companies and have benchmarked ourselves with global peers. We have been participating in the Global Real Estate Sustainability benchmark (GRESB) assessment since 2013 and have consistently improved our ratings securing our highest score of 95 this year. With this score we were ranked as global sector leaders for listed residential real estate. This global recognition will motivate our entire team to continue to improve our ESG standards across all parts of our operations. Our motivation comes from our responsibility to do the right and responsible thing which is good for business and great for our customers too. We are a pan India developer and

truly believe our focus on ESG goals including emissions, water, waste, diversity, human rights, compliance, health and safety can translate to meaningful industry wide impact.

We have undertaken to strengthen our operational and management systems under the ISO 14001:2015 and ISO 45001:2018 certification framework. This will help continually improve our environment as well as health and safety practices across the Company. Our senior executives have performance goals linked to ESG parameters that are assessed and evaluated year on year. We undertake Sustainability Reporting, which is a non-financial disclosure of performance indicators across social, environmental and economic aspects. We follow the comprehensive framework provided by the Global Reporting Initiative (GRI). In addition to this, we look forward to incorporating Integrated Reporting practices to showcase our value creation journey in the years to come. As part of the larger Godrej group, we have also contributed to the 'Good & Green' 2020 goals that concurrently extend to our suppliers, vendors and contractors. We are currently working on the vision and target for our 2025 goals.

i. Health and safety management system

We give high priority to the health and safety of our employees. An effective way of ensuring this is building a safety culture, where safety is the responsibility of each and every employee. The Company has a robust health and safety management system which has comprehensive safety checks at each step of the project starting from the contractor pre-qualification stage. We have a dedicated safety team at each site, entrusted with the responsibility of promoting safety among all employees. This team undertakes various awareness and training programs

besides creating and executing a monthly safety activity plan for each site using GPL online safety first portal. The safety committee at sites comprises of management and worker representatives and the average ratio is about 50%, as per the statutory requirement. We are also in the process of acquiring ISO 45001: 2018 certification (International standard for Occupational Health and Safety) for GPL Safety Management System to benchmark our system with International Standard. The revamped GPL Safety Management System is aligned with ISO 45001:2018 elements.

Visible Safety Leadership

Health & Safety Policy is a part of GPL safety management system which demonstrates top management commitment towards implementation and monitoring of Health & Safety management system across GPL. The commitment includes provision of safe workplace, compliance of OH&S legal requirement, consultation and participation of stakeholders and process of continual improvement. We have reviewed and revised the policy to further align with ISO 45001 requirements.

To further demonstrate visible safety leadership at GPL and enhance positive safety culture, we have established "Safety Involvement Index" process. This tool facilitates active engagement of Operation Heads in various occupational health and safety activities at site.

Contract Health and Safety Management System

This proactive system starts well before awarding the contract with safety assessment of prospective contractors through the pre-qualification (PQ) process, assessment of business risk and initiating required mitigation plan based on the PQ score of the contractor. Also, in the pre-qualification stage we give preference to contractors

who are ISO 45001 certified. The contractor who is brought on board is briefed in a joint safety kick-off meeting and the subsequent mobilisation phase is guided and audited by a safety and health infra tracker. The contractor signs a legal undertaking while rolling out the site health and safety plan. This also provides SOPs, work instructions and guidelines to the contractors for undertaking work at the site.

Hazard Identification and Risk Assessment (HIRA)

A cross functional Hazard Identification and Risk Assessment (HIRA) team is formed at each site before the commencement of work. While the primary responsibility of this team is to conduct a detailed HIRA exercise, it also gives training on HIRA to the workers.

A comprehensive master sheet has been developed to facilitate project team to formulate and develop the project specific Hazard Identification, Risk and Opportunity Assessment as a proactive control measure.

Health Surveillance Program

As part of our health surveillance program, a pre-employment medical examination is conducted for workers being employed at our project sites. Personnel who operate machinery or drive vehicles undergo thorough medical examination at the time of being employed as well as at regular intervals of time.

Training and Awareness Campaign

We believe that skill enhancement, capability building and awareness are the strongest pillars of our safety and health management system. Thus, we give special importance to awareness programs, skill training sessions, motivational campaigns and health camps. In the current reporting year, we have conducted more than 11,901 safety training sessions with close to 2,26,265 participants.

Necessary trainings and awareness

sessions related to implementation of ISO 45001:2018 were conducted for all relevant stakeholders. Two batches of Internal Auditors Training Program and one batch of Lead Auditors Training Program were also conducted to develop competent internal safety auditors.

Events like National Safety Day, World Environment Day, Road Safety Week and Fire Service Day are celebrated across our sites as they

provide important platforms to create awareness about health and safety. Safety Communications is one of the effective tool in our Safety Management System to create safety awareness and build strong safety culture across GPL.

'Safety campaign' is one of the significant initiative for creating awareness amongst project teams, enhancing safety culture and strengthening the existing operational controls. Safety Campaigns on

electrical safety, working at height, protection of cut out, shaft and edge protection and manual & mechanical material handling is developed and conducted at project sites. "Horizontal deployment of learnings" supports in cultivating the positive safety culture as a continual improvement across GPL to avoid recurrence of the incidents.

Safety Audit

Safety audit is a periodic review of the entire occupational health and safety management system, including the policy and programs aimed to prevent workplace accidents/incidents. We have robust process of safety audit on a quarterly basis by qualified internal safety auditors. GPL audit processes are performed and monitored effectively through online safety audit portal. The analysis of safety audit helps us to identify the gaps for further improving the health and safety management system.

GPL safety audit process was a challenge in FY 2020-21 due to COVID 19 & travel restrictions. To overcome this challenge, "Virtual Safety Audit Program" was devised & implemented for conducting safety audits.

COVID 19 - Construction Workplace Safety

We have taken number of initiatives to prevent and protect construction workers from the COVID-19 pandemic. The initiatives included ensuring food and other necessities to workers and their family at labour camps during the lockdown. Necessary guidelines and checklist were developed and implemented at the sites for protection of our workers. Proactive provisions like medical assistance, ambulance, hospital tie ups, quarantine requirements, sanitisation facilities, social distancing protocol etc. are also ensured at the sites as per notification of the government authorities. We have also revised our processes to minimise the physical contact to avoid

the spread of virus i.e. employment roster, regular sanitisation of workplace, equipment and machineries etc. The pandemic specific trainings, awareness programs and campaigns are conducted for workers at the sites to create awareness on proactive safety precautions. COVID-19 safety precautions posters and signages have been developed and displayed at site for information and awareness among construction workers.

j. Human Capital

At GPL, we take pride in fostering an inspiring workplace with an agile and high performance culture to attract, develop and retain the best global talent. As part of the 124 year old Godrej Group, we are fortunate to have a proud legacy built on the strong values of trust, integrity and respect for others. At the same time, our exciting and ambitious growth plans allow us to offer unparalleled career opportunities relatively early on in a person's career. Core to our employer brand, is the philosophy of tough love. We expect the

best from our employees, differentiate on the basis of performance and potential through career opportunities and rewards and lay particular emphasis on developing, mentoring and training. In line with our strategic focus and operational scale-up we have increased our total employee strength from 1,779 to 1,933 employees over the year.

People Philosophy

We take pride in fostering an inspiring workplace with an agile and high performance culture to attract, develop and retain the best global talent. Our philosophy stands on three principles:

 <p>Your Canvas:</p> <p>"We are expanding and want you to grow with us." With our empowering culture, our people get a chance to lead early on.</p>	 <p>Tough Love:</p> <p>"Go ahead and challenge yourself! We've got your back." We believe the race for the future is not for the faint-hearted. We expect a lot from our people and differentiate basis performance and potential through career opportunities and rewards.</p>	 <p>Whole self:</p> <p>"We are selfish about your happiness." Simply because happier people make for a more fun culture at Godrej.</p>

Employee Experience Center

As we build an inspiring place to work to deliver on our ambitious growth aspirations, we have reimagined the impact we can create through our people processes. As a part of this endeavor, we have set up the 'People Experience Center', our HR Shared Service to improve the effectiveness, efficiency and experience of our people processes across Godrej group.

Through the People Experience Center, we aim to deliver on the following:-

- **Employee Experience:** Provide a consistent experience to our employees across different demographics
- **Digitisation:** Automation of processes leading to better experience for employees and reduction in manual work for HR Teams
- **Process Efficiency:** Operational

excellence through centralised transactions and help the HR business partners to focus on the business priorities

- **Power of Data:** Over time, we intend to create one true source of all HR Data, and leverage data for better decision making with respect to people

Diversity

At GPL, we recognise and value the diversity of our people, their perspectives and experiences. Women comprise 26% of our total workforce. Our women leaders succeed in roles across all aspects of our operations. Their contributions have been instrumental in GPL reaching its current position of strength. We are fully committed to sustain our efforts to recruit, retain, and grow our women leaders. We strive to ensure women friendly policies, facilities, and development opportunities to nurture talent and create an enabling work

environment. Inclusivity is a central tenet of our culture and organisational value system. We look forward to making GPL a truly inspiring workplace with our consistent focus on diversity and inclusion.

Since last year, we have also embarked on ACCEL, a Group-wide mentorship program curated to develop women in leadership positions. As a part of the program, high potential women are handpicked and put through a customised program designed to provide an immersive learning experience through a mix of classroom sessions, on-the-job projects, coaching,

and senior leadership interactions.

At Godrej Properties, we have curated 'Nurture' a comprehensive maternity program for our women employees. The program intends to make sure our women employees are cared for and supported throughout their journey of motherhood and reintegrated into work life post their maternity leave. As part of this program, we have also partnered with '1 to 1 Help', an agency which supports young mothers at GPL with maternity counselling and support on topics including care for delivery, diet, care for newborn and taking care of self.

Employee Health & Well-Being

The global pandemic has taken the world by surprise. While we continue to navigate the frequently evolving situation, GPL has been focused on employees' health, safety & well-being. Towards this endeavor, we rolled out multiple initiatives like frequent

webinars to build awareness around COVID-19 precautions, structured communication campaigns to keep employees abreast on the recent developments nationally and nuances across the states, inclusion of COVID-19 hospitalisation benefits in the Godrej Group Medical Scheme, a special time bound home quarantine benefit plan for employees and their

families, Doctor availability on call for any form of consultation, Employee Assistance Programme (EAP) with a panel of expert counsellors who are available 24*7 to provide counselling services to help manage personal and work-based concerns to prepare & equip our employees to respond to sensitive situations at and beyond the workplace.

Culture of Recognition

In line with the GPL strategic imperatives, one of the key components is around Recognition that enhances the strategic clarity by signaling the organisational importance of specific initiatives/processes and behaviors.

Beyond the Spot recognition scheme, quarterly regional awards, annual

Legends award are some of the prestigious platforms where employees who have displayed exemplary performance and behaviors are felicitated and recognised by the senior leaders.

GPL Legends is the most aspirational national recognition platform at GPL and this year for the first time ever

the event was hosted virtually, given the pandemic situation. We leveraged this opportunity to add an element of human touch by inviting not just all employees but also their families to the event, which was not only appreciated by employees and the senior leadership, but also instilled a sense of pride in the organisation.

Learning & Development

Our Learning Philosophy draws its inputs from our leadership capabilities or Godrej Capability Factors (GCF) to help us build a brighter and future-ready Godrej, in line with our organisational vision. Since GCF defines the critical capabilities and expected behaviors for each level in the

organisation, it plays an important role in our development efforts.

Functional Capability Building

In GPL, throughout the pandemic we frequently conducted online training modules for employees internally and externally in association with relevant partners. In depth learning programs were implemented for L3

level leaders as well as for our Business Development teams.

Behavioral Capability Building

At GPL we truly believe that people manager's role is of critical importance to build a high – trust, high performance culture. Hence, we lay significant emphasis on the growth and development of people managers. This

year we adopted a two-pronged digital approach:-

1. First time People managers in GPL, were provided access to a self-learning digital module on the 'Foundations of People Leadership

at Godrej'.

2. An impactful behavioral capability training in the form of a blended learning program called 'Leading Teams for Impact' was rolled out for all people managers in GPL. This

program has a detailed & structured pre and post intervention road map to enable the manager with a well aligned and supportive ecosystem, to apply learnings in day to day interactions with the team.

k. Internal control systems and their adequacy:

GPL has implemented an internal control framework to ensure all assets are safeguarded and protected against loss from unauthorised use or disposition, and transactions are authorised, recorded and reported correctly. The framework includes internal controls over financial

reporting, which ensures the integrity of financial statements of the Company and reduces the possibility of frauds. The Corporate Audit & Assurance department issues well documented operating procedures and authorities with adequate built-in controls. These are carried out at the beginning of any activity and during the process, to keep track of any major changes. As part of

the audits, they also review the design of key processes, from the point of view of adequacy of controls. The internal controls are tested for effectiveness, across all our project sites and functions by the Corporate Audit team, which is reviewed by the management from time to time, for corrective action.

Threats, Risks and Concerns

1. Industry Cyclicity

The real estate market is inherently a cyclical market and is affected by macroeconomic conditions, changes in applicable governmental schemes, changes in supply and demand for projects, availability of consumer financing and liquidity. Your Company has attempted to hedge against the inherent risks through a business

model comprising owned projects, joint ventures, residential platforms, and development management through a pan- India presence. However, any future significant downturn in the industry and the overall investment climate may adversely impact business.

2. Statutory Approvals

The real estate sector in India is heavily regulated by the central, state and local governments. Real estate developers

are required to comply with a number of laws and regulations, including policies and procedures established and implemented by local authorities in relation to land acquisition, transfer of property, registration and use of land. These laws often vary from state to state. Several of your Company's projects are in preliminary stages of planning and any delay in obtaining approvals could warrant revised scheduling of project timelines.

Outlook

FY 2020-21 was an eventful year for the real estate sector which witnessed pandemic led disruption in H1 FY 2020-21 and a strong bounce back during the second half of the year. The pandemic has forced the developers to change their legacy business models and the players who focus on innovation and digital transformation in realty will lead the way for the sector. We expect FY 2021-22 to start with weakness in the first quarter due to the significant impact of the second wave followed by a strong recovery thereafter and this will set the base for a multi-year growth cycle for the real

estate sector. Financially strong and reputed developers with greater focus on delivering quality apartments and customised experiences for customer will benefit disproportionately from the likely cyclical upturn. Prevailing low interest rates, rising affordability and stable home prices have improved the consumer sentiment and will facilitate buoyant demand for the residential real estate sector.

The pandemic, resultant disruption and the prevailing liquidity crunch in the real estate sector has opened up a lot of opportunities for organised developers like GPL. We expect our business development activity to gather

pace and hope to add several projects to our portfolio in FY 2021-22. The subsequent waves of COVID-19 and the resultant containment measures could delay the real estate recovery and will need to be tracked closely. Despite the crisis, our sales performance strengthened significantly in FY 2020-21 and we expect to further scale our sales momentum in FY 2021-22, given our exciting launch pipeline, strong brand and robust balance sheet. Also, our presence in the key markets and across the housing segments places us well to benefit from the likely commencement of a real estate upcycle.

2. DIVIDEND:

In terms of the Regulation 43A of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI LODR Regulations"), the Dividend Distribution Policy of the Company is appended as Annexure I to this Report and also available on the website of the Company at <https://www.godrejproperties.com/investor/corporategovernance>.

The Board strongly believes that the current market scenario would offer attractive business development opportunities in the real estate sector and re-investing the capital in such opportunities would create more wealth and value for the shareholders in long term. Accordingly, with a view to create long term economic value, your Directors have not recommended any dividend for the year ended March 31, 2021.

3. SHARE CAPITAL:

During the financial year ended March 31, 2021, the Company issued and allotted 57,072 equity shares of ₹5 each of the Company to its eligible employees on exercise of options granted under the Godrej Properties Limited Employee Stock Option Scheme, 2011 (GPL ESGS).

Pursuant to the approval of the members of the Company through Postal Ballot on March 08, 2021, the Company, under the Qualified Institutional Placement mechanism, issued and allotted 2,58,62,068 Equity Shares of face value of ₹5 each to eligible Qualified Institutional Buyers at the issue price of ₹1,450, aggregating to ₹3,750 Crore.

As at March 31, 2021, the issued, subscribed and paid-up equity share capital of the Company stands at 27,79,43,051 equity shares of ₹5 each. The Company has neither issued

shares with differential rights as to dividend, voting or otherwise nor issued shares (including sweat equity shares) to the employees or Directors of the Company under any Scheme, other than GPL ESGS.

4. OVERVIEW OF OPERATIONS:

Despite the pandemic creating significant challenges, Godrej Properties achieved the highest sales in its existence and the highest sales by any of the Indian developers in FY 2021. This was inspired by innovative efforts across touch points, including an increased focus on digital sales, attractive payment plans and the customer trust.

Godrej Properties achieved a sales volume of 10.8 million square feet and booking value of ₹6,725 crore in FY21, resulting in a growth of 14% Y-o-Y. Godrej Properties recorded a booking value in excess of ₹5000 crore for the fifth time in six years. Godrej Properties achieved sale volumes of more than 1.5 million sq. ft. and sales value of more than ₹1,300 crore in all four markets of focus. Godrej Properties launched 11 projects/phases in FY21, including Sector 43 Noida, with a booking value of ₹509 crore and Godrej Royale Woods, Bengaluru, with a booking value of ₹371 crore. These successful launches were complemented by ₹4,550 crore of sustenance sales in FY21, the highest ever by the Company in a financial year.

Godrej Properties has added four new projects with saleable potential of around 6 million sq. ft. to its portfolio. One key achievement was the acquisition of 18 acres of land in Whitefield, Bengaluru, with saleable potential of 2.5 million sq. ft. Your Company emerged the highest bidder in the CIDCO e-auctioning process for two adjacent plots in Sanpada, Mumbai. Spread over ~1.5 acres, this project offers ~4 lakh square feet of development potential comprising premium residential apartments with a small amount of high-street retail at its base.

On the operational front, Godrej Properties successfully delivered 6.5 million sq.ft across projects. With this, Godrej Properties has successfully delivered over 28 million sq. ft. in six years. The Company's delivery record demonstrates that it can operate at a large scale and keep pace with accelerating sales. Godrej Properties focused on exploring advanced construction technologies, improving Net Promoter Score (NPS) and design standardization.

Godrej Properties focuses on excellence, agility, sustainability, employee wellness and corporate social responsibility. Godrej Properties has been featured among the top 50 companies listed by the Great Places to Work Institute (in partnership with The Economic Times) on four consecutive occasions. Godrej Properties, among the most respected real estate developers in India, has received over 300 awards and recognitions in the recent past including 69 in FY 2021.

Some accolades include 'National Brand Leader of India Ranked Number one by Track2Realty BrandXReport' 2019-20, Green Developer of the Year (National), Estrade Real Estate Award 2020, Real Estate Employer in India Ranked Number one by Track2Realty BrandXReport 2019-20, Masters of Risk - Real Estate Category 7th edition of The India Risk Management Awards, Mahatma Award, 2020 Achievement Award for CSR Excellence, CSR Leadership Awards, 2020 Best CSR Practices -World CSR Congress and The IACC COVID Crusaders Awards 2020 for serving humanity during the ongoing COVID 19 pandemic.

Godrej Properties was also awarded 'The Most Trusted Real Estate Brand' in 2019 from the Brand Trust Report, 'Real Estate Company of the Year' at the Ninth Construction Week Awards 2019, 'Equality and Diversity Champion 2019' at the APREA Property Leaders Awards, 'The Economic Times Best Real Estate Brand 2018' and 'Builder of the Year' at the CNBC-Awaaz Real Estate Awards 2018.

Due to the default / delay on the part of the joint venture partners in fulfilling their contractual obligations, including obtaining approvals and funding, Godrej Properties initiated legal action in projects like Godrej Sky, Godrej Alive and Godrej Anandam. Godrej Properties also engaged in legal proceedings in relation to development agreements signed with the JB Advani Group for a land parcel in Bhandup. Godrej Properties is confident of its merits in each of these cases.

The operations of the Company were impacted following the outbreak of the COVID-19 pandemic, subsequent lockdowns and significant labour shortages during the first half of FY21. For the financial year under review, on consolidated basis, GPL's total income stood at ₹1217 crore, EBITDA was ₹119 crore and net loss ₹189 crore. The loss reported in the FY 2021 was due to three one-time charges made to the P&L account relating to provisions. The first of these charges was the long-term incentive scheme payable to certain employees in financial years 2023 and 2024, subject to specific parameters being met. This amounted to ₹121 crore and was taken in FY 2021 based on prudence and a high likelihood of these parameters being achieved. The second of these charges amounted to ₹88 crore and was required due to a shift to the new tax rate, which required remeasuring deferred tax assets. The last of the charges was due to a write-down in legacy projects, including Godrej Prakriti in Kolkata, Godrej Palm Grove in Chennai, Godrej Alpine in Mangalore etc. amounting to ₹76 crore. Excluding these one-time charges to the P&L account, EBITDA would have been ₹316 crore and net profit ₹46 crore in the financial year.

5. PROSPECTS AND OUTLOOK:

The outbreak of the COVID-19 pandemic adversely impacted the sectorial performance during FY21. However, in the second half, the Company reported a turnaround in performance. The

recent surge in cases following the second COVID-19 wave could impact demand in the first half of FY22 but the start of vaccine rollout coupled with low home loan interest rates and an increased desire to pursue home ownership will likely revive demand.

While the pandemic may have affected the industry at large, the operational momentum of your company is likely to be sustained by its healthy Balance Sheet and robust project pipeline. A consolidation in the residential real estate sector is expected to continue, leading to an increase in the market share of branded organized players such as your Company. Given the pace of urbanization, low interest rates and rising per capita disposable incomes, Godrej Properties remains optimistic about the long-term sectorial direction. With a strong brand, pan-India presence, demonstrated track record and robust marketing capabilities, your Company is poised for a high growth trajectory.

Going forward, Godrej Properties believes that the technology will play a vital role in moderating the impact of COVID-19. In view of this, your Company is focusing on digital sales. Godrej Properties has been improving on-site facilities to create a safe working environment. These measures could help the Company tide over the COVID-19 impact and enhance long term efficiency.

Godrej Properties will focus on opportunistic growth in the current environment to create a healthy project pipeline. The Company's Qualified Institutional Placement (QIP) of ₹3,750 crore was the largest ever by an Indian real estate company and will support growth aspirations and provide opportunities to rapidly scale the business. Godrej Properties will continue to focus on the four key markets of Mumbai, National Capital Region, Bengaluru and Pune. When evaluating new projects, Godrej Properties will continue to seek superior long-term shareholder value growth by maximizing returns through optimal financing and fiscal discipline. Godrej Properties will enhance process agility to reduce project launch turnaround times. Godrej Properties shall seek to drive profitability, improve customer experience and adopt digital technologies.

COVID-19 – Challenges & Mitigation

In the financial year 2020-21, Godrej Properties experienced several unprecedented challenges following the outbreak of COVID-19. The government resources were subjected to stress but several Indian businesses and philanthropic bodies came together to support the nation. The Godrej Group responded to the Outbreak by:

Supporting local communities

- Provided ration to over 10,685 contract workers at all Godrej Consumer Products and Godrej Agrovvet sites and to 8,900 construction workers at Godrej Properties sites.

- Supported 30,169 families around Godrej Consumer Products and Godrej Agrovvet sites with food and hygiene kits and area fumigation.

Protecting people in our ecosystem

- Provided safety kits for over 46,120 people, including contract workers, Godrej Consumer Products transporters, field sales personnel and Godrej Professional salonists.
- Made direct cash transfers to 250 market research agents to help meet the basic needs of families.

Strengthening public healthcare

- Mumbai: Procured and delivered supplies worth ₹6.97 crore for the Brihanmumbai Municipal Corporation (BMC). Supported 2 quarantine centers with a total capacity of 450 beds, set up a 75-bed isolation facility, provided 3 mobile testing autorickshaws to the BMC and oxygen support to urban settlements.
- Contributed 115 hospital beds to the Government of Maharashtra.

The first wave of COVID-19 was unleashed in India in March 2020. With a nationwide lockdown declared in the third week of March 2020, a mass exodus of labourers was observed across all GPL project sites from March to June 2020, impacting construction progress and collections. There was panic among migrant workers, being worried about their health and uncertainty leading to an exodus. Worker strength dropped from a pre-COVID level of 9800 in February 2020 to 4300 in June 2020 across all our project sites. New workers did not come to the project sites during this period. Besides, there was unavailability of material or delay in material delivery during this period.

GPL's priority always has been worker safety and well-being. It provided complete support to labourers during the lock down.

Some important initiatives included provision of clean and sanitized labour camps, availability of drinking water and ration supply in coordination with contractors and NGOs. GPL ensured safe and hygienic working conditions at the project sites. Each labourer was provided safety supports like masks, sanitizers etc. and were trained on personal hygiene and social distancing. A medical officer inspected camps daily to check on individuals who were unwell. Isolation centres were also made available. Various signages and posters in the common areas of these camps reiterated the importance of health and safety precautions, which provided assurance to workers about their health and safety needs. Following the gradual lifting of the lockdown, there were concerns of reduced working hours due to night curfews and productivity loss due to the time consumed in following COVID-19 protocols. GPL introduced a host of initiatives to retain existing labourers and enlist new labourers through the following provisions:

- Reimbursing transportation costs of all returning workers from their hometowns to project sites
- Mandatory 14 day quarantine period was observed for returning workers. Labour wages for this period were reimbursed
- COVID-19 testing was being carried out at the cost borne by GPL
- Medical clinics were set up at GPL's sites
- Financial incentives were introduced for workers to stay back at GPL's project sites

On account of these measures, worker strength increased from 4,300 in June 2020 to 16,000 in February 2021, 1.6 times the pre-COVID strength.

For all office employees across the country, safe working spaces were made available through regular sanitization, communication campaigns on various precautions in office and while travelling to office. All security personnel, housekeeping and pantry staff were trained on safety measures including thermal screening for all individuals entering the premises, including customers and vendors.

Though the year was challenging, GPL demonstrated resilience. It was heart-warming to see not just on-ground support teams, spearheaded by HR team members, but all employees come together to create a COVID-19 support repository that addressed employees and dependents in medical emergencies and needs related to the availability of hospital beds, ICUs, ventilators, ambulance, blood plasma donations, oxygen concentrators and medicine. Some other COVID-19 relief initiatives that GPL introduced for employees included the following:

- COVID-19 Cell support for assistance in hospital

- Insurance cover to employees for COVID-19 as part of the Godrej Medical Scheme for hospitalization
- 24/7 doctor tele-consultation facility in collaboration with Apollo Hospitals, through an exclusive Godrej helpline number
- Hotel quarantine facility for employees
- Home quarantine benefit for all employees and dependents advised to be quarantined at home by a medical practitioner
- Reimbursement of vaccination-related expenses
- 24/7 psychological wellness consultation services through an employee assistance program partner, where employees could speak confidentially to a qualified and experienced counsellor

The Company is in discussions with various agencies to undertake COVID-19 vaccination drive for all of its employees and their dependent family members at its various offices and on-site locations.

ANNEXURE I

DIVIDEND DISTRIBUTION POLICY

1. Background and applicability:

The SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Regulations") require the top 500 listed companies (by market capitalisation) to disclose a Dividend Distribution Policy in the annual report and on the corporate website.

The Board of Directors ("Board") of Godrej Properties Limited ("Company") has adopted this Dividend Distribution Policy to comply with these requirements.

The Company currently has only one class of shares, viz. equity, for which this policy is applicable. The policy is subject to review if and when the Company issues different classes of shares.

2. Dividend distribution philosophy:

The Company is committed to driving superior value creation for all its stakeholders. The focus will continue to be on sustainable returns, through an appropriate capital strategy for both medium term and longer term value creation. Accordingly, the Board would continue to adopt a progressive and dynamic dividend policy, ensuring the immediate as well as long term needs of the business.

3. Dividend:

Dividend represents the profit of the Company, which is distributed to shareholders in proportion to the amount paid-up on shares they hold. Dividend includes Interim Dividend.

The Dividend for any financial year shall normally be paid out of the Company profits for that year. This will be arrived at after providing for depreciation in accordance with the provisions of the Companies Act, 2013. If circumstances require, the Board may also declare dividend out of accumulated profits of any previous financial year(s) in accordance with provisions of the Act and Regulations, as applicable.

4. Circumstances under which shareholders can not expect Dividend:

The Board will assess the Company's financial requirements, including present and future organic and inorganic growth opportunities and other relevant factors (as mentioned elsewhere in this policy) and declare Dividend in any financial year.

Notwithstanding the above, the shareholders of the Company may not expect Dividend under the following circumstances:

- a. Whenever it undertakes or proposes to undertake a significant expansion project requiring higher allocation of capital
- b. Significantly higher working capital requirements adversely impacting free cash flow
- c. Whenever it undertakes any acquisitions or joint ventures requiring significant allocation of capital
- d. In the event of inadequacy of profit or whenever the Company has incurred losses

5. Interim and Final Dividend:

The Board may declare one or more Interim Dividends during the year. Additionally, the Board may recommend Final Dividend for the approval of the shareholders at the Annual General Meeting. The date of the Board meeting in which the Dividend proposal will be considered, will be provided to the stock exchanges, as required by Listing Regulations.

6. Financial parameters and other internal and external factors that would be considered for declaration of Dividend:

- Distributable surplus available as per the Act and Regulations
- The Company's liquidity position and future cash flow needs
- Track record of Dividends distributed by the Company
- Payout ratios of comparable companies
- Prevailing Taxation Policy or any amendments expected thereof, with respect to Dividend distribution
- Capital expenditure requirements considering the expansion and acquisition opportunities
- Cost and availability of alternative sources of financing
- Stipulations/ Covenants of loan agreements
- Macro-economic and business conditions in general
- Providing of unforeseen event and contingency with financial implications
- Any other relevant factors that the Board may deem fit to consider before declaring Dividend.

7. Utilisation of retained earnings:

Subject to applicable regulations, the Company's retained earnings shall be applied for:

- Funding inorganic and organic growth needs including working capital, capital expenditure, repayment of debt, etc.
 - Buyback of shares subject to applicable limits
 - Payment of Dividend in future years
 - Issue of Bonus shares
 - Any other permissible purpose
-

8. Modification of the Policy:

The Management Committee of the Board of Directors is authorized to change/amend this policy from time to time at its sole discretion and/or in pursuance of any amendments made in the Companies Act, 2013, the Regulations, etc.

9. Disclaimer:

This document does not solicit investments in the Company's securities. Nor is it an assurance of guaranteed returns (in any form), for investments in the Company's equity shares.

ANNEXURE II
TO THE DIRECTORS' REPORT
NOMINATION & REMUNERATION POLICY
(DIRECTORS, KMP & SENIOR MANAGEMENT)

INTRODUCTION

In pursuance of the Company's philosophy to consider its employees as its invaluable assets, to pay equitable remuneration to all Directors, Key Managerial Personnel (KMP) and employees of the Company, to harmonize the aspirations of human resources consistent with the goals of the Company and, in terms of the provisions of the Companies Act, 2013, this policy on nomination and remuneration of Directors, Key Managerial Personnel and Senior Management has been formulated by the Nomination & Remuneration Committee and approved by the Board of Directors.

OBJECTIVE

The objective and purpose of the Policy are as given below:

1. To lay down criteria and terms and conditions with regard to identifying persons who are qualified to become Directors (Executive and Non-Executive) and persons who may be appointed in Senior Management and Key Managerial positions and to determine their remuneration.

PART – B

POLICY RELATING TO EVALUATION AND REMUNERATION OF THE WHOLE-TIME DIRECTORS, KMP AND SENIOR MANAGEMENT PERSONNEL

EVALUATION PROCESS:

A Three Point Rating scale for performance review of Executive Director, KMP, and Senior Management is followed:

1. **Rating on Basic Job Responsibilities:** indicating whether the basic job responsibilities have been met during the year.
2. **Rating on Goals:** Annual rating on each goal on a five-point scale. Weighted average of the ratings is calculated to arrive at a 'Weighted Goal Score'.
3. **Rating on GCF:** The qualitative aspects of the performance is assessed using the Godrej Capabilities Factors (GCF) by the supervisor on a five-point scale.

Based on a holistic view of the Three Point Rating, the supervisor provides an overall Rating. This rating is reviewed by the Managing Director who does a Qualitative review of the performance based on the efforts put in by the employee, results achieved and impact of the external and internal factors, to arrive at a 'Final Annual Rating'.

The revision in the total remuneration is directly linked to the 'Final Annual Rating' for all employees.

- The remuneration/ compensation/ commission etc. to the Whole-time Director, KMP and Senior Management Personnel will be determined by the subcommittee in accordance with the HR policy, which is based upon the Final Annual Rating, employee potential and market benchmark compensation. The revised remuneration is shared with the Nomination & Remuneration Committee for approval.
- The Company stock options granted under the Employee Stock Grant Scheme to the Whole-time Director and Senior Management Personnel will be determined by the Managing Director as per the ESGS guidelines and recommended to the Committee and the Board for approval in the subsequent board meeting.
- The remuneration/ compensation/ commission etc. shall be subject to the prior/ post approval of the shareholders of the Company and Central Government, wherever required.
- The remuneration and commission to be paid to the Whole-time Director shall be in accordance with the percentage / slabs / conditions laid down in the Articles of Association of the Company and as per the provisions of the Companies Act, 2013, and the rules made thereunder.
- Increments to the existing remuneration/ compensation structure may be recommended by the sub-committee to the Committee and the Board which should be within the slabs approved by the Shareholders in the case of Wholetime Director. Increments will be effective from

1st April in respect of a Wholetime Director and other employees of the Company.

- Where any insurance is taken by the Company on behalf of its Whole-time Director, Chief Executive Officer, Chief Financial Officer, the Company Secretary and any other employee for indemnifying them against any liability, the premium paid on such insurance shall not be treated as part of the remuneration payable to any such personnel. Provided that if such person is proved to be guilty, the premium paid on such insurance shall be treated as part of the remuneration.

ANNEXURE III

TO THE DIRECTORS' REPORT

INFORMATION PURSUANT TO SECTION 134(3)(m) OF THE COMPANIES ACT, 2013, READ WITH THE RULE 8(3) OF THE COMPANIES (ACCOUNTS) RULES, 2014 IN RESPECT OF CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

A. Conservation of Energy

I. Steps taken for conservation of energy:

As a part of sustainable development, adequate measures have been initiated to reduce energy consumption. With an intent to provide an Energy Efficient final products to customers, Company develops all its projects as green building projects. As a Company internal mandate, it is mandatory to have IGBC Silver rating (or equivalent in other rating systems) for its ongoing and upcoming projects. Currently out of the complete GPL portfolio, approximately 90.16% adheres to the green building guidelines and norms laid by the rating systems.

Company is striving to have all its projects pre-certified or certified under credible external green rating systems such as the Indian Green Building Council (IGBC), Leadership in Energy and Environmental Design (LEED), and Green Rating for Integrated Habitat Assessment (GRIHA). Energy conservation is an integral part of all these prevalent green building rating systems.

Green buildings increase resource efficiency (energy, water, and materials), while reducing the impact on human health and the environment, through better selection of sites, design, construction, operation, maintenance, i.e. the complete building life cycle.

Steps taken for energy conservation:

- a) Perform comprehensive energy-modelling during the design stage to achieve energy conservation while meeting the functional requirements for both residential and commercial projects;
- b) Use high efficiency pumps, motors and other equipments / machineries;
- c) Performed Life Cycle Assessment study to identify opportunities to further reduce energy consumption and reduce overall environmental footprint;
- d) Install LED lamps for common areas & pathways and solar street lights for the landscape areas;

- e) Use of Energy efficient building envelopes for walls and roofs including Low E glass wherever possible;
- f) Use high-efficiency glazing that cuts down the heat ingress and noise while maintaining optimum day lighting levels.
- g) Adapt efficient lighting technology including use of timers and/or sensors for operating the light fixtures in certain areas.
- h) Establish effective preventive and predictive maintenance system for maintaining all energy intensive equipment i.e. DG sets for energy generation, cranes, hoists, loaders, excavators, trucks and other transport vehicles;
- i) Focus on minimizing the lighting load through innovative and effective technologies;
- j) Create awareness and encourage occupants towards greener lifestyle through a formal handover event like use high-efficiency ACs and refrigerators (BEE 5 star rated) and other home appliances.

II. Steps taken by the Company for utilizing alternate sources of energy

As a Godrejite, our philosophy guides us to identify and implement green practices across our offices, project sites and industries. Multiple project construction is in progress across region and number of projects are in pipe line to start the construction activity. All the project electricity power requirement is being fulfilled either by National Grid or DG Sets.

The Company is investing in technologies to minimize emissions and waste generation. It has also invested in solar energy and has already started working towards developing strategies to reduce GHG emissions as a commitment signatory to the Science Based Targets initiative.

Solar energy is the alternate source of energy integrated into our projects and their operations. As a part of the

green building guidelines followed by us, solar energy is utilised to meet the energy demands of the common areas of our developments. At our Pune location, we have adapted ON-GRID PV Solar System. We installed 100 KW capacity solar plant and invested roughly INR 40, 00,000.

III. Capital investment on energy conservation equipment:

Godrej Properties Limited develops all its projects as green building projects. The Company captures these expenses separately under environmental protection expenditures/ green investments. Total Green spent in year 2020-21 was ₹29.32 Crore.

B. Technology Absorption

I. The efforts made towards technology absorption

(a) Technical Initiatives:

The Company had evaluated various technologies during design phases of the product in order to improve quality and project completion timeline. A Cross Functional Team (CFT) studies alternate material, methods and technologies along with the architect and consultants during the design phases to maximize the value engineering potential.

Some of the initiatives taken are:

- Complete or partial automation of activities
- Use full or partial pre-fabrication at site to increase reliability and save time
- Adapt new advanced technologies to improve efficiency of operations
- Installation of Solar Panels and use of solar energy for lighting in the common areas, parking areas and streets and water heating requirements of the residential buildings
- Install efficient lighting fixtures across office buildings.
- Install low-flow fixtures to reduce the water consumption, and recycling water within the development to reduce the dependency on an external water source

These initiatives improve the quality of the product and reduce construction timelines for projects.

(b) Process Initiatives:

The Company has implemented Environment Management System which is as per ISO14001:2015 at its 7 operational sites. As a part of EMS implementation, we will further work to develop site specific strategy for energy conservation.

II. The benefits derived like product improvement, cost reduction, product development or import substitution:

These initiatives improve the quality of the product and reduce construction timelines for projects. There is cost reduction in the construction stage through utilization of scheduling and planning, efficient practices, prefabricated components, etc. As our products are certified 'green' and it results into cost reduction for the occupants as an outcome of measures undertaken as per the green building guidelines.

C. Information regarding imported technology (imported during last 3 years)

The Company has not imported any energy conservation/ saving technology during last 3 years.

D. Expenditure incurred on Research & Development:

Godrej Properties Limited develops all its projects as green building projects. The Company captures these expenses separately under environmental protection expenditures/ green investments. Total expenses on Green spent in year 2020-21 was ₹29.32 Crore.

E. FOREIGN EXCHANGE EARNINGS AND OUTGO:

During the financial year 2020-21, expenditure in foreign currencies in terms of actual outflow amounted to ₹48.41 crore (Previous year ₹92.07 crore) on account of capital expenditure, professional & consultation fees and expenses incurred for business promotion and maintaining offices abroad. The Company has not earned any foreign exchange during the year.

SECRETARIAL AUDIT REPORT

For The Financial Year Ended on 31st March, 2021

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No.9 of the Companies
(Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members
Godrej Properties Limited
Godrej One, 5th Floor
Pirojshanagar, Eastern Express Highway
Vikhroli (East), Mumbai 400079.

We have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Godrej Properties Limited** (CIN: L74120MH1985PLC035308) (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification electronically of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2021 ('Audit Period') complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2021 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;

- (iv) The Foreign Exchange Management Act, 1999 and the Rules and Regulations made thereunder to the extent of Foreign Direct Investment and Overseas Direct Investment;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
 - a. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - b. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - c. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009;
 - d. The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;
 - e. The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
 - f. The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - g. The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 (**Not Applicable to the Company during the Audit Period**);
 - h. The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998 (**Not Applicable to the Company during the Audit Period**); and
 - i. The Securities and Exchange Board of India (Listing Obligations and Disclosures Requirements) Regulations, 2015 [SEBI (LODR)].
- (vi) We further report that, having regard to the compliance system prevailing in the Company and on examination

of the relevant documents and records in pursuance thereof, on test-check basis, the Company has complied with following Acts, Laws and Regulations applicable specifically to the Company:

1. Maharashtra Regional and Town planning Act, 1966
2. Development Control and Promotion Regulations 2034
3. Maharashtra Ownership Flats (Regulation of the Promotion, Construction, Sale, Management and Transfer) Act, 1963
4. The Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996
5. Real Estate (Regulation and Development) Act, 2016.

We have also examined compliance with the applicable clauses of the Secretarial Standards issued by The Institute of Company Secretaries of India.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, standards etc. mentioned above. However we observed that the Company has during FY 2020-21 made provision for payment of remuneration by way of Long Term Incentive to the Managing Director & Chief Executive Officer which is found to be over and above the limits specified under Section 197 and 198 of the Act, 2013 and the rules framed thereunder read with Schedule V and for which the Company is in process

of obtaining approval of its shareholders.

We further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings and Committee Meetings are carried out unanimously as recorded in the minutes of the meetings of the Board of Directors and Committees of the Board, as the case may be.

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

Independent Directors play a significant role in the governance processes of the Board. By virtue of their varied expertise and experience, they enrich the Board's decision-making and prevent possible conflicts of interest that may emerge in such decision-making.

The appointment of Independent Directors is carried out in a structured manner in accordance with the provisions of the Act and the Listing Regulations. The Nomination & Remuneration Committee identifies candidates based on certain laid down criteria and takes into consideration the need for diversity of the Board and accordingly makes its recommendations to the Board.

Mr. Pranay Vakil, Mrs. Lalita D Gupte, Mr. Amitava Mukherjee were re-appointed by the Members for a second term of five

(5) years commencing from August 02, 2019 whilst Mr. Keki Dadiseth has been re-appointed to hold the office till the conclusion of forthcoming AGM.

Ms. Sutapa Banerjee has been appointed by the members as Independent Directors for the first term at the Annual General Meeting held on August 05, 2020 for a period of five (5) consecutive years.

Basis the declarations received from the Independent Directors, the Board of Directors has confirmed that the Independent Directors of the Company meet the criteria of independence as mentioned under Regulation 16(1)(b) of the Listing Regulations and read with Section 149(6) of the Act, that they are independent of the management.

As required under Regulation 46(2)(b) of Listing Regulations, the Company has issued formal letters of appointment to the Independent Directors. The terms and conditions of their appointment are posted on the Company's website and can be accessed at <https://www.godrejproperties.com/investor/corporate-governance>

None of the existing Independent Directors serve as "Independent Directors" in more than seven listed companies in line with the requirements of the Listing Regulations. In terms of Regulation 25(8) of Listing Regulations, they have confirmed that they are not aware of any circumstance or situation which exists or may be reasonably anticipated that could impair or impact their ability to discharge their duties.

Pursuant to the requirement of Regulation 24(1) the Company has appointed its Independent Directors on the Board of its unlisted material subsidiaries.

Meeting of Independent Directors

During the year under review, the Independent Directors met on March 15, 2021, inter alia to discuss, review and assess:

- the performance of non-independent directors and the board of directors as a whole;
- the performance of the Chairman of the Company,

taking into account the views of the Executive and Non-Executive Directors;

- the quality, content and timelines of flow of information between the Management and the Board that is necessary for the Board to effectively and reasonably perform its duties; and
- other related matters.

All the Independent Directors were present at the meeting of Independent Directors.

Familiarization Program for Independent Directors

The Company has conducted the familiarisation program for Independent Directors during the year. The Program aims to provide insights into the Company to enable the Independent Directors to understand its business in depth, to acclimatize them with the processes, businesses and functionalities of the Company and to assist them in performing their role as Independent Directors of the Company. The Company's Policy of conducting the Familiarisation Program has been disclosed on the website of the Company at <https://www.godrejproperties.com/investor/corporate-governance>.

Performance evaluation of the Board and individual Directors

Pursuant to the provisions of the Act, and the Listing Regulations, the Board has carried out the annual evaluation of its own performance, as well as the working of its Audit and Nomination & Remuneration and Risk Management Committees. A structured questionnaire was prepared after taking into consideration, inputs received from the Directors, which covered aspects of the Board's functioning such as adequacy of the composition of the Board and its committees, Board culture, execution and performance of specific duties, obligations and governance.

A separate exercise was carried out to evaluate the performance of Individual Directors to get an overview of the functioning of the Board/Committees, *inter alia*, on the following broad criteria i.e. attendance and level of participation at meetings of the Board/Committees, independence of judgement exercised by Independent Directors, interpersonal relationship and so on.

The Independent Directors have expressed satisfaction at the robustness of the evaluation process, the Board's freedom to express its views on matters transacted at the meetings and the openness and transparency with which the Management discusses various subject matters specified on the agenda of meetings. The consolidated Evaluation Report of the Board, based on inputs received from the Directors was discussed at the meeting of the Board held on May 03, 2021 and the

action areas identified in the process are being implemented to ensure a better interface at the Board/Management level.

Business Responsibility Report

PHILANTHROPIC EFFORTS OF THE GODREJ GROUP

The Godrej Group has been at the forefront of philanthropic and social activities for several decades. Twenty-four per cent of the Godrej Family's shares in most group companies are held in a trust that invests back in initiatives that support the environment as well as improve the quality and availability of healthcare and education. Through investment and oversight by the trust, a large tract of mangrove forests in Mumbai have been protected, developed and maintained for several years and serve as a second set of lungs for the city. The Godrej Group has continually supported education and supports the Udayachal pre-primary and primary schools, which focus on the all-round development of children. The Udayachal high school has been accredited with the International School Award in recognition of the school incorporating global education into its curriculum and innovation into classroom teaching.

In addition, the Godrej Group has supported initiatives in healthcare through the Godrej Memorial Hospital, which aims to provide quality healthcare at affordable costs. One such initiative is our partnership with 'Smile Train', a US-based NGO, which helps in performing corrective cleft lip and palate surgeries for children from low-income families. The Group offers surgery and hospitalization to the patients free of cost.

GODREJ GOOD & GREEN

In conjunction with our vision of 'Brighter Living' for all stakeholders, we have developed a long-term vision for playing an active part in creating a more inclusive and greener India. This vision has been named 'Godrej Good & Green', which is founded on shared value initiatives. The concept of shared value is defined as policies and operating practices that enhance the competitiveness of a company

while simultaneously advancing the economic and social conditions in the communities in which it operates. As part of this initiative, the Group aspires to create a more employable Indian workforce, a greener India and innovate for good and green products by 2022.

Specifically, our Group-level goals for 2021 as part of this Vision are as follows:

- Training 1 million rural and urban youth in skilled employment.
- Achieving zero waste to landfill, carbon neutrality and a positive water balance along with reducing our specific energy consumption and increasing the proportion of renewable energy resources.
- Procuring one-third of our portfolio revenue to comprise good and/or green products and services: defined as products that are environmentally superior or address a critical social issue (e.g. health, sanitation and disease prevention) for consumers at the bottom of the income pyramid.

We have a comprehensive CSR policy (<https://www.godrejproperties.com/investor/corporate-governance>) that outlines programmes and projects we undertake to create a positive impact on our stakeholders. We have a CSR committee in place to review, monitor and provide strategic inputs for our sustainability efforts.

Over the years, we have aligned our sustainability efforts with national priorities and the needs of our local communities to deliver high-impact programmes that are easy to scale up. Our skill-building initiatives are linked to the National Skill Development Mission. Furthermore, our community development initiatives in areas surrounding our construction sites are focused on improving the teaching-learning environment.

We are associated with the Integrated Water Management Programme, under the Ministry of Rural Development, through our large-scale integrated watershed projects in drought-prone regions to restore the ecological balance by harnessing, conserving and developing degraded natural resources and thus providing sustainable livelihoods in the region.

In line with the Swachh Bharat Mission, we have initiated several community and ward level waste management projects across Mumbai.

Our community projects are supplemented by Brighter Giving, a structured volunteering platform through which our team members can offer their time and skills to help address a non-profit organization's needs. Through Brighter Giving, Godrejites can volunteer their time, knowledge and skills to help address the specific needs of a non-profit organisation on a project basis.

Brighter Giving also serves as a channel through which our team members can connect with and learn more about Good & Green. The programme has a long-term goal, seeking to enable and drive meaningful initiatives for our non-profit partners and/or their beneficiaries. Volunteers accomplish this by using their professional skills and expertise to develop relevant, implementable and sustainable solutions for the organizations with which they work.

Our employees also get involved in the philanthropic efforts of the business through workplace giving, wherein the employee donates some part of their payroll to an organization of their choice or for disaster relief efforts. So far through workplace giving, we have supported Save the Children (Bal Raksha Bharat), Teach For India and World Wildlife Fund, Habitat for Humanity and Sustainable Environment and Ecological Development Society (SEEDS).

SECTION: PRINCIPLE-WISE PERFORMANCE

Principle 1: Businesses should conduct and govern themselves with ethics, transparency and accountability

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/No.

Does it extend to the Group/Joint Ventures/ Suppliers/ Contractors /NGOs/ others?

The Company has a Code, which is applicable to all its employees, subsidiaries and joint ventures. The Company also encourages its business partners to follow the Code.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

During the year no complaints were received from any of the stakeholders.

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

Godrej Group's Good & Green vision supports the development

of products that are environmentally sustainable. As part of the vision, the Company aspires to reduce its environmental footprint by delivering products that consumes fewer resources (energy and water), emit fewer greenhouse gases and include recyclables, renewables and/ or natural materials. Company has also initiated Life Cycle study of its buildings to understand Environment. This LCA study was conducted as per ISO 14040:2006. Results of this study will be used for quantitative impact assessment to select the preferred product, process and services. Overall LCA impact was categorized in Acidification Potential, Climate change (Global Warming Potential), Eutrophication, Ozone layer depletion and Eco-toxicity.

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

- (a) Residential
- (b) Commercial
- (c) Townships

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

(a) Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain?

The company ensures that the majority of the materials used across all our projects are sourced locally, within a range of 400-500 km from the project sites. As a commitment towards Zero Waste Landfill, along with the local sourcing, our construction waste is re-used or sent to recycling agencies, ensuring that the company is diverting the same from landfill in order to better understand the quantum and life-cycle of the waste generated at real estate project sites.

(b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

Due to low flow plumbing fixtures, Rain Water Harvesting (RWH) and Sewage Treatment Plants (STPs) used in our projects, we are able to achieve water savings of around 25-30% as compared to the baselines (IGBC baseline). For e.g. in one of our projects, Godrej Aqua in Bangalore, there is a four-stage water purification process in order to reuse almost 80% of the water back in the project itself. Whereas as in Pune region we installed ZERO reject RO system for water conservation.

Similarly, usage of energy-efficient lighting and equipment along with usage of renewable energy in our projects across the portfolio, the company is able to achieve energy savings to the tune of 12-15% in comparison to the baseline (ASHRAE).

3. Does the company have procedures in place for sustainable sourcing (including transportation)?

The below mentioned strategies have been used across projects for ensuring sustainable sourcing:

- 65-70% of the raw materials used are obtained locally, i.e. within a distance of 400-500 km
- FSC certified wood is used for projects, making sure the wood is sourced responsibly
- Materials with high recycled content are given preference to avoid stress on virgin materials

4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

(a) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

- Local vendors are preferred for raw materials and equipment needed during the construction.
- Selection is done based on quality and preference is given to the local vendors.
- In year 2021, company has plans to integrate ESG criteria in its supply chain.

5. Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so

- Construction waste in the form of debris is segregated based on its utility and reused on site for backfilling or leveling purposes.
- Construction waste in the form of rebars is reused on site to create boundary walls or other non-load-bearing areas.
- Construction waste in the form of plywood or wooden board pieces are reused as formwork for some of the work.
- Construction waste not being reused on site is sent for recycling by appropriate agencies.
- We treat >10% of the organic waste during operation (100% organic waste treated on site).

Principle 3: Businesses should promote the wellbeing of all employees

Code of Conduct:

Your company focuses on ensuring the well-being of all team members. The safety and health of team members is extremely important to the Company and committed to building and maintaining a safe and healthy workplace. Ensuring diversity, zero discrimination, safety, health and

other attributes essential to a healthy and good working environment are part of its Code of Conduct. All employees who join the company demonstrate their commitment to follow the Code of Ethics by signing in their acceptance to adhere to the same. The Code of Conduct is also available on the internal employee portal. Examples of a few of the principles of this code of conduct are listed below:

A. Diversity, anti-discrimination and Equal Opportunities Policy:

Principle 6: Business should respect, protect and make efforts to restore the environment

1. Does the policy related to Principle 6 cover only the company or extends to the Group/Joint Ventures/Suppliers/Contractors/NGOs/others.

Godrej Properties Ltd., as a part of the larger GILAC group, had committed to ensuring specific environmental goals by 2020 under the group-wide policy of 'Good & Green'. 'Green' relates to the natural environment and the business's role in preserving & protecting the same and extends to group companies, suppliers, vendors, contractors and 'Green' programme partners. Currently, we are working on the vision and have set targets for 2025.

More information on our Good & Green goals and programs can be found at: <https://www.godrej.com/good-and-green.html>

2. Does the company have strategies/initiatives to address global environmental issues such as climate change, global warming, etc.? Y/N. If yes, please give hyperlink for webpage etc.

Yes, Godrej Properties Limited is committed to sustainability which can be seen in our triple bottom line approach of 6P Approach.

As a part of GPL's initiatives to meet the specific environmental goals, the company undertakes sustainability reporting using the Global Reporting Initiative (GRI) framework. GRI is a non-financial disclosure of performance indicators covering social, environmental & economic aspects. It enables us to incorporate sustainability across all domains of our business, cement our triple bottom line approach and monitor and assess efficiency in operational practices, processes, technologies and materials and understand our environmental footprint. The practice of assessing sustainability information inspires accountability while helping identify and manage

risks. We have been able to initiate best practices and commission projects for reducing our environmental footprint through mitigation and offset mechanisms.

Godrej Properties Limited constantly endeavors to achieve energy conservation by adopting green building practices certified/rated under any of the prevalent green systems in the country - Indian Green Building Council (IGBC), Green Rating for Integrated Habitat Assessment (GRIHA), Leadership in Energy and Environmental Design (LEED) and the Excellence in Design for Greater Efficiencies (EDGE). As of the end of 2020-21 more than 90% of entire GPL portfolio is under green measures, i.e. certified/pre-certified under credible external green rating systems.

During reporting period, the Company has rolled our Environment Management System across Godrej Properties Ltd. We have piloted EMS implementation at 6 sites and are planning to horizontally deploy it across company and our aim is to get external certification. Our EMS is guided by ISO 14001:2015. Aligning with the spirit of the Paris Agreement, we are committed to the Science Based Target (SBT) initiative in year 2020.

One of our projects, the Neighborhood Waste Management Programme, resulted in 62.8 tonnes of waste being diverted from landfill sites in FY19-20.

The company has also initiated the pilot of an integrated decentralized solid waste management project in Konark, Odisha. The project follows a 'No Open Waste' or NOW approach and aims to divert approximately 95% of the collected waste from landfill or dumping sites through segregation at source and a well-established value-chain involving not only the collection staff but waste aggregators and recyclers as well. Technology will also be leveraged in this project as a digital platform is being created to help track the whole process and it will provide data ranging from level of collection & segregation to the staff attendance. Organic waste that is collected will be converted into compost.

A new project for planting 15,750 saplings, using the Miyawaki method, at Kalai Village in Gujarat has also been commissioned. Around 40 native species will be used for the plantation. This project will not only lead to rejuvenation of the area but is also a means of voluntary carbon sequestration.

More information on our Good & Green goals and programs can be found at: <https://www.godrej.com/good-and-green.html>

3. Does the company identify and assess potential environmental risks? Y/N

Yes

- Environmental Impact Assessment (EIA) is carried out for large projects which can have a major impact on the

surrounding environment

- Strategies to minimize or negate the impact are worked out for every specific project
- Soil erosion control measures are taken to avoid any contamination of the site and/or surrounding areas
- Retaining at least 15-20% of the natural topography ensures minimum impact to environment
- Developing over virgin ground creates issues for water percolation into the ground. This is taken care by taking proper measures for rainwater harvesting and groundwater recharge.

4. Does the company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if 'Yes', whether any environmental compliance report is filed?

No

5. Has the company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy, etc.? Y/N. If yes, please give hyperlink for web page etc.

Yes

- Godrej Prana & Godrej Infinity, Pune: Using solar PV panels to accommodate the lighting and switch load for the marketing offices (sales office, sample apartment, project office) and using grid power for the air conditioning load.
- Godrej BKC, Mumbai: Using the highest efficiency solar panels currently available in the market to generate 1% of the building's entire connected load.
- Energy Efficiency: Use of at least BEE 3-star rated equipment and use of highly efficient glazing to decrease the load on air conditioning are standard practice for all major projects.
- Godrej Manjari, Pune: Using recycled plastic pavers for its marketing office's landscape area as a prototype/pilot testing to encourage the use of recycled plastic products.
- The Trees - Imagine Studio, Mumbai: Is a very good example of adaptive reuse buildings that are generally more sustainable than creating a new structure. Two former power co-generation plants and a boiler were repurposed to accommodate new functions as a studio, workshop and café respectively. A tall chimney reminiscent of the bygone industrial aesthetic has been treated as a graphic memorial.
- Godrej Aqua, Bangalore: All apartments are water secure as the development has a four-stage water purification process in order to reuse almost 80% of water back in the project itself.

- Godrej Air, Gurgaon: Using heat exchanger type ceiling-mounted filter unit equipped with HEPA filter with fresh air circulation inside apartments to provide better air quality for the residents of an area with usually high air-pollution levels.

6. Are the Emissions/Waste generated by the company within the permissible limits given by CPCB/SPCB for the financial year being reported?

- Yes

7. Number of show cause/legal notices received from CPCB/SPCB which are pending (i.e. not resolved to satisfaction) as on end of Financial Year.

- None

Principle 7: Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner

1. Is your company a member of any trade and chamber or association? If Yes, Name only those major ones that your business deals with:

GPL ensures that its policies consists of the highest degree of responsible and ethical behaviour and works with collective platforms such as trade and industry chambers and associations to raise matters with the relevant government bodies. GPL is a member of CII, FICCI and other trade associations.

2. Have you advocated/lobbied through above associations for the advancement or improvement of public good? Yes/No; If yes specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy security, Water, Food Security, Sustainable Business Principles, Others)

GPL has been making representation through CII and other trade associations for advancement/improvement of public good.

Principle 8: Businesses should support inclusive growth and equitable development

Our Good & Green vision inspires each one of us at Godrej to continue to work towards building a brighter, greener and more inclusive India. As part of our employability programmes, we have trained young people from low-income groups in skills that will enhance their earning potential.

As part of our Greener India programme, we have implemented a number of environmental projects which not only help us to mitigate our environmental footprints but also to create healthier and more sustainable habitats. The integrated watershed management programme in the Beed district of

Maharashtra helped generate employment in the region during project implementation by involving the local population. Female participation was seen in high numbers. It has also improved the income generation of the farmers in the area by ensuring a better cropping cycle. The Neighbourhood Waste Management Programme has helped provide employment for people as housekeeping staff for operating the composters.

You can find more details about our programmes at <https://www.godrej.com/good-and-green.html>

1. Does the company have specified programmes/initiatives/projects in pursuit of the policy related to Principle 8? If yes, details thereof.

Godrej recognizes and encourages the skill development initiatives championed by the government to increase employability and hence employment of the youth. Initiated a program in FY 2019-20 wherein we have enabled upskilling of the workers, provided and helped employ women into non-traditional trades such as plumbing and electrical. These trainings are conducted majorly for Naka workers in the hubs (Destination) of migrant workers of Maharashtra.

The objectives of the program

- 1) To train 1500 naka workers (focus to construction workers).
- 2) Align the training as per National Skills Qualification Framework (NSQF).
- 3) Recognize with certification by National Skill Development Corporation (NSDC)

This program was conceptualized as part of Module 1 (Sponsorship of candidates for skill Development) as per NSDC guidelines to Undertake short term training of fresh candidates or Recognition of Prior Learning (RPL) Certification programs for employees (Including Contractual Workers) For NSQF-Alignment.

As stated earlier, the integrated watershed management programme in the Beed district of Maharashtra helped generate employment in the region during project implementation by involving the local population. Female participation was seen in high numbers. It has also improved the income generation of the farmers in the area and reduced migration by ensuring a better cropping cycle. The Neighbourhood Waste Management Programme has helped provide employment for people as housekeeping staff for operating the composters. The integrated decentralised solid waste management project in Konark, Odisha has helped provide formal employment to rag-pickers by integrating them into the collection transportation and processing team. The local self-help groups have also shown active participation in the programme.

2. Are the programmes/projects undertaken through in-house team/own foundation/external NGO/government structures/any other organization?

The programs are delivered by NGOs and trainings partners and are managed by our in-house team.

3. Have you done any impact assessment of your initiative?

Yes.

The carbon interventions and the integrated watershed management programme in Beed are registered under the international carbon framework of the Verified Carbon Standard (VCS). The calculations for the estimated carbon offset have been done by a third-party assessor. A third-party assessment of the water conservation by studying net groundwater recharge has also been commissioned for 5 years. The first year of the assessment was 2019 and it will continue till 2023. The company has also initiated a scientific study for understanding the social impact of the project.

4. What is your company's direct contribution to community development projects - Amount in INR and the details of the projects undertaken?

(i) The skilling and upskilling programs are run for women from marginalized background and daily wage workers from the surrounding community and (ii) day care centre with focus on child education and nutrition is run within the community that serves children of migrant labourers and the villages nearby.

5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words, or so.

The day care centre run near GPL construction site is run in conjunction with teachers hired and trained locally by a non-profit partner. The centre also caters to children from the community - so a continuous interaction with community is maintained.

Principle 9: Businesses should engage with and provide value to their customers and consumers in a responsible manner

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year.

None.

2. Does the company display product information on the product label, over and above what is mandated as per local laws? Yes/No/N.A. / Remarks(additional information)

Not applicable

3. Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behaviour during the last five years and pending as on end of financial year? If so, provide details thereof, in about 50 words or so.

Independent Auditors' Report

To the Members of Godrej Properties Limited

Report on the Audit of the Standalone financial statements

Opinion

We have audited the standalone financial statements of Godrej Properties Limited ("the Company"), which comprise the standalone balance sheet as at 31 March 2021, and the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information in which are incorporated returns from branches in Singapore, Qatar and United Arab Emirates (hereinafter referred to as "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and its loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone financial statements.

Emphasis of Matter

A) We draw attention to Note 47 of the standalone financial statements which describes the accounting for the Scheme of Amalgamation between the Company and Wonder Space Properties Private Limited, a wholly owned subsidiary ('the Scheme' or 'business combination'). The Scheme has been approved by the National Company Law Tribunal ('NCLT') vide its order dated 14 September 2020 and a certified copy has been filed by the Company with the Registrar of Companies, Mumbai, Maharashtra, on 26 October 2020. The appointed date as per the NCLT approved Scheme is 5 April 2019 and as per the requirements of Appendix C to Ind AS 103 "Business Combination", the business combination has been accounted for as if it had occurred from the date of acquisition of control i.e. 5 April 2019. Accordingly, the amounts relating to the financial year ended 31 March 2020 include the impact of the business combination and have been restated by the Company after recognising the effect of the amalgamation as above. The aforesaid note (Note 47) also describes in detail the impact of the business combination on the standalone financial statements.

Our opinion is not modified in respect of the above matter.

B) We draw attention to Note 43 to the standalone financial statements, relating to remuneration paid/ payable to the Managing Director & CEO of the Company for the financial year ended 31 March 2021, being in excess of the limits prescribed under Section 197 of the Act by Rs 37.94 crores, which is subject to the approval of the shareholders.

Our opinion is not modified in respect of the above matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue Recognition (Refer note 29 to the standalone financial statements)

The Key Audit Matter	How the matter was addressed in our audit
<p>The Company's most significant revenue streams involve sale of residential and commercial units representing 33.90% of the total revenue from operations of the Company.</p> <p>Revenue is recognised post transfer of control of residential and commercial units to customers for the amount /consideration which the Company expects to receive in exchange for those units. The trigger for revenue recognition is normally completion of the project or receipt of approvals on completion from relevant authorities or intimation to the customer of completion, post which the contract becomes non-cancellable. The Company records revenue, over time till the actual possession to the customers, or on actual possession to the customers, as determined by the terms of contract with customers.</p> <p>The risk for revenue being recognised in an incorrect period presents a key audit matter due to the financial significance and geographical spread of the Company's projects across different regions in India.</p> <p>Measurement of revenue recorded over time which is dependent on the estimates of the costs to complete</p> <p>Revenue recognition involves significant estimates related to measurement of costs to complete for the projects. Revenue from projects is recorded based on the Company's assessment of the work completed, costs incurred and accrued and the estimate of the balance costs to complete.</p> <p>Considering the significant estimate involved in measurement of revenue, we have considered measurement of revenue as a key audit matter.</p>	<p>Our audit procedures included following:</p> <ul style="list-style-type: none">• Evaluating the design and implementation and tested operating effectiveness of key internal controls over revenue recognition.• Evaluating the accounting policies adopted by the Company for revenue recognition to check those are in line with the applicable accounting standards and their consistent application to the significant sales contracts.• Scrutinising the revenue journal entries raised throughout the reporting period and comparing details of a sample of these journals, which met certain risk-based criteria, with relevant underlying documentation.• Testing timeliness of revenue recognition by comparing individual sample sales transactions to underlying contracts.• Conducting site visits during the year for selected projects to understand the scope, nature and progress of the projects.• Considering the adequacy of the disclosures in the standalone financial statements in respect of the judgments taken in recognising revenue for residential and commercial property units in accordance with Ind AS 115. <p>Revenue recognition prior to receipt of Occupancy Certificate/ similar approval and intimation to the customer</p> <ul style="list-style-type: none">• Obtaining and understanding revenue recognition process including identification of performance obligations and determination of transfer of control of the asset underlying the performance obligation to the customer.• Evaluating revenue overstatement or understatement by assessing Company's key judgments in interpreting contractual terms. Determining the point in time at which the control is transferred by evaluating Company's in-house legal interpretations of the underlying agreements i.e. when contract becomes non-cancellable.• Identifying and testing operating effectiveness of key controls around approvals of contracts, milestone billing, intimation of possession letters / intimation of receipt of occupation certificate and controls over collection from customers.• Testing sample sales of units for projects with the underlying contracts, completion status and proceeds received from customers.• Requesting confirmations, on a sample basis, from major customers for selected projects and reconciling them with revenue recognised. In case of non-receipt of confirmations, we have performed alternative procedures by comparing details with contracts, collection details and other underlying project related documentation.

The Key Audit Matter

How the matter was addressed in our audit

Measurement of revenue recorded over time which is dependent on the estimates of the costs to complete

- Identifying and testing operating effectiveness of key controls over recording of project costs.
- Assessing the costs incurred and accrued to date on the balance sheet by examining underlying invoices and signed agreements on a sample basis. Assessing contract costs to check no costs of revenue nature are incorrectly recorded in the balance sheet.
- Comparing, on a sample basis, revenue transactions recorded during the year with the underlying contracts, progress reports, invoices raised on customers and collections in bank accounts. Also, checked the related revenue had been recognised in accordance with the Company's revenue recognition policies.
- Comparing the costs to complete workings with the budgeted costs and inquiring for variance.
- Sighting Company's internal approvals, on sample basis, for changes in budgeted costs along with the rationale for the changes.

Inventories (Refer note 13 to the standalone financial statements)

The Key Audit Matter

Inventories held by the Company comprising of finished goods and construction work in progress represent 14.04% of the Company's total assets. Inventory may be held for long periods of time before sale making it vulnerable to reduction in net realisable value (NRV). This could result in an overstatement of the value of inventory when the carrying value is higher than the NRV.

Assessing NRV

NRV is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale and estimated costs of completion (in case of construction work-in-progress). The inventory of finished goods and construction work-in-progress is not written down below cost when completed flats/ under-construction flats / properties are expected to be sold at or above cost.

For NRV assessment, the estimated selling price is determined for a phase, sometimes comprising multiple units. The assessment and application of write-down of inventory to NRV are subject to significant judgement by the Company.

As such inappropriate assumptions in these judgements can impact the assessment of the carrying value of inventories.

Considering the Company's judgement associated with long dated estimation of future market and economic conditions and materiality in the context of total assets of the Company, we have considered assessment of NRV of inventory as a key audit matter.

How the matter was addressed in our audit

Our audit procedures included:

- Understanding from the Company the basis of estimated selling price for the unsold units and units under construction.
- Evaluating the design and testing operating effectiveness of controls over preparation and update of NRV workings by designated personnel. Testing controls related to Company's review of key estimates, including estimated future selling prices and costs of completion for property development projects.
- Evaluating the Company's judgement with regards to application of write-down of inventory units by auditing the key estimates, data inputs and assumptions adopted in the valuations. Comparing expected future average selling prices with available market conditions such as price range available under industry reports published by reputed consultants and the sales budget plans maintained by the Company.
- Comparing the estimated construction costs to complete each project with the Company's updated budgets. Re-computing the NRV, on a sample basis, to test inventory units are held at the lower of cost and NRV.

Deferred Tax Assets (Refer note 11 to the standalone financial statements)

The Key Audit Matter	How the matter was addressed in our audit
<p data-bbox="145 221 762 250">Recognition and measurement of deferred tax assets</p> <p data-bbox="145 260 762 417">Under Ind AS, the Company is required to reassess recognition of deferred tax asset at each reporting date. The Company has deferred tax assets in respect of brought forward losses and other temporary differences, as set out in note 11 (b) to the standalone financial statements.</p> <p data-bbox="145 437 762 623">The Company's deferred tax assets in respect of brought forward business losses are based on the projected profitability. This is determined on the basis of approved business plans demonstrating availability of sufficient taxable income to utilise such brought forward business loss.</p> <p data-bbox="145 642 762 799">We have identified recognition of deferred tax assets as key audit matter because of the related complexity and subjectivity of the assessment process. The assessment process is based on assumptions affected by expected future market or economic conditions.</p>	<p data-bbox="778 221 1477 250">Our audit procedures included:</p> <ul data-bbox="778 270 1477 880" style="list-style-type: none"><li data-bbox="778 270 1477 329">• Obtaining the approved business plans, projected profitability statements for the existing ongoing projects.<li data-bbox="778 348 1477 437">• Evaluating the design and testing the operating effectiveness of controls over quarterly assessment of deferred tax balances and underlying data.<li data-bbox="778 456 1477 672">• Evaluating the projections of future taxable profits. Testing the underlying data and assumptions used in the profitability projections and performing sensitivity analysis. Checking other convincing evidence like definitive agreements for land / development rights and verifying the project plans in respect of new projects and review of contractual agreements with customers and estimates on unsold inventory for existing projects.<li data-bbox="778 691 1477 750">• Assessing the recoverability of deferred tax assets by evaluating profitability, Company's forecasts and fiscal developments.<li data-bbox="778 770 1477 880">• Focusing on the adequacy of the Company's disclosures on deferred tax and assumptions used. The Company's disclosures concerning income taxes are included in note 11 to the standalone financial statements.

Investment in subsidiaries, joint ventures and an associate and loans/financial instruments to group entities. (Refer note 6, 7, 9 and 18 to the standalone financial statements)

The Key Audit Matter	How the matter was addressed in our audit
<p data-bbox="145 1030 687 1207">The carrying amount of the investments in subsidiaries, joint ventures and an associate held at cost less impairment represents 7.77% of the Company's total assets. The loans/financial instruments to subsidiaries and joint ventures represents 30.05% of the Company's total assets.</p> <p data-bbox="145 1226 687 1285">Recoverability of investments in subsidiaries, joint ventures and an associate</p> <p data-bbox="145 1295 687 1658">The Company's investments in subsidiaries, joint ventures and an associate are carried at cost less any diminution in value. The investments are assessed for impairment at each reporting date. The impairment assessment involves the use of estimates and judgements. The identification of impairment event and the determination of an impairment charge also require the application of significant judgement by the Company. Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the standalone financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs,

profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ('the Order'), issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

- (A) As required by Section 143 (3) of the Act, we report that:
- (a) we have sought and obtained all the information and explanations, which to the best of our knowledge and belief, were necessary for the purposes of our audit;
 - (b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books and proper returns adequate for the purposes of our audit have been received from the branches not visited by us;
 - (c) the standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this report are in agreement with the books of account and with the returns received from the branches not visited by us;

- (d) in our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act;
 - (e) on the basis of the written representations received from the directors as on 31 March 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164 (2) of the Act; and
 - (f) with respect to the adequacy of the internal financial controls with reference to the standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. the Company has disclosed the impact of pending litigations as at 31 March 2021 on its financial position in its standalone financial statements – Refer Note 48 to the standalone financial statements;
 - ii. the Company did not have any long-term contracts, including derivative contracts, for which there were any material foreseeable losses;
 - iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 March 2021; and
- iv. the disclosures in the standalone financial statements regarding holdings as well as dealings in Specified Bank Notes during the period from 8 November 2016 to 30 December 2016 have not been made in these standalone financial statements since they do not pertain to the financial year ended 31 March 2021.
- (C) With respect to the matter to be included in the Auditors' Report under Section 197 (16) of the Act, we report that:
- i. We draw attention to Note 43 to the standalone financial statements, relating to remuneration paid / payable to the Managing Director & CEO of the Company for the financial year ended 31 March 2021, being in excess of the limits prescribed under Section 197 of the Act by Rs 37.94 crores, which is subject to the approval of the shareholders. Our opinion is not modified in respect of this matter; and
 - ii. the Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

Annexure A to the Independent Auditors' Report - 31 March 2021

With reference to the Annexure A referred to in the Independent Auditors' Report to the members of the Company on the financial statements for the year ended 31 March 2021, we report the following:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets including property, plant and equipment and investment properties and investment property under construction.
- (b) The Company has a regular programme of physical verification of its fixed assets including property, plant and equipment and investment properties by which the fixed assets including property, plant and equipment and investment properties are verified by the management according to a phased programme designed to cover all the items over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with the policy, the Company has physically verified certain property, plant and equipment and investment properties during the year and no discrepancies were noticed in respect of assets verified during the year.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties as disclosed in Note 2 and 4 to the standalone financial statements, are held in the name of the Company.
- (ii) The inventory comprising of raw material and finished goods, has been physically verified by the management during the year except for raw material stocks lying with third parties. In our opinion, the frequency of such verification is reasonable. In respect of stocks lying with third parties at the year-end, written confirmations have been obtained. No discrepancies were noticed on verification between the physical stocks and the book records. The Company's inventory also includes construction work in progress and entitlement to Transferable Development Rights, to which the requirements under paragraph 3(ii) of the Order are not applicable.
- (iii) The Company has granted unsecured loans to eleven companies and thirty five limited liability partnerships covered in the register maintained under Section 189 of the Companies Act, 2013 ('the Act'). The Company has not granted any loans, secured or unsecured, to firms or other parties covered in the register required to be maintained under Section 189 of the Act.
- i) According to the information and explanations given to us and based on the audit procedures conducted by us, we are of the opinion that the rate of interest and other terms and conditions of unsecured loans granted by the Company to companies and limited liability partnerships covered in the register required to be maintained under Section 189 of the Act are not, prima facie, prejudicial to the interest of the Company.
- ii) According to the information and explanations given to us and based on the audit procedures conducted by us, the unsecured loans granted to the companies and the interest thereon are repayable as per contractual terms and the unsecured loans granted to limited liability partnerships and the interest thereon are repayable on demand or repayable as per contractual terms of the respective limited liability partnership agreements. The borrowers have been regular in payment of principal and interest as demanded or as per contractual terms, as applicable.
- iii) There are no overdue amounts of more than 90 days in respect of the unsecured loans granted to companies and limited liability partnerships by the Company.
- (iv) In our opinion and according to the information and explanations given to us and based on the audit procedures conducted by us, the Company has complied with the provisions of Sections 185 and 186 of the Act, with respect to loans granted, guarantees provided and investments made by the Company. The Company has not provided any security in connection with a loan to any other body corporate or person and accordingly, compliance under Sections 185 and 186 of the Act in respect of providing securities is not applicable to the Company.
- (v) In our opinion, and according to the information and explanations given to us, the Company has not accepted deposits as per the directives issued by the Reserve Bank of India and the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, paragraph 3 (v) of the Order is not applicable to the Company.
- (vi) We have broadly reviewed the books of accounts maintained by the Company pursuant to the rules prescribed by the Central Government for the maintenance of cost records under Section 148(1) of the Act and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the records.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of records of the Company, amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Provident fund, Employees' State Insurance, Goods and Services tax, Labour cess, Professional tax, Property tax, Cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. Amounts deducted / accrued in the books of account in respect of undisputed statutory dues of Income-tax have generally been regularly deposited during the year by the Company with the appropriate authorities, though there have been slight delays in a few cases. As explained to us, the Company did not have any dues on account of wealth tax and Custom duty.

According to the information and explanations given to us, no undisputed amounts payable in respect of Provident fund, Employees' State Insurance, Income-tax, Goods and Services tax, Labour cess, Professional tax, Property tax, Cess and other material statutory dues were in arrears as at 31 March 2021 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of Income-tax, Sales tax, Service tax, Value added tax and Goods and Services tax as at 31 March 2021, which have not been deposited with the appropriate authorities on account of any dispute, except as stated below:

Annexure B to the Independent Auditors' Report - 31 March 2021

Report on the Internal Financial Controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

(Referred to in paragraph (A) (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to standalone financial statements of Godrej Properties Limited ("the Company") as of 31 March 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with respect to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143 (10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with respect to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with respect to standalone financial statements included obtaining an understanding of internal financial controls with respect to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to standalone financial statements.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls

with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes Forming Part of Standalone Financial Statements

Note 1

I Company overview

Godrej Properties Limited ("the Company") having CIN: L74120MH1985PLC035308 is engaged primarily in the business of real estate construction, development and other related activities. The Company is a public limited company incorporated and domiciled in India having its registered office at Godrej One, 5th Floor, Pirojshahnagar, Eastern Express Highway, Vikhroli, Mumbai - 400079. The Company's equity shares are listed on The Bombay Stock Exchange Limited (BSE) and The National Stock Exchange of India Limited (NSE).

II. Basis of preparation and measurement

a) Statement of Compliance

The Standalone Financial Statements of the Company have been prepared in accordance with the Indian Accounting Standards (IND AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under the Section 133 of the Companies Act, 2013 ("the Act") and the relevant provisions and amendments, as applicable.

The Standalone Financial Statements of the Company for the year ended March 31, 2021 were authorised for issue by the Board of Directors on May 03, 2021.

b) Functional and presentation currency

These Standalone Financial Statements are presented in Indian rupees, which is also the functional currency of the Company. All financial information presented in Indian rupees has been rounded to the nearest crore, unless otherwise stated.

c) Basis of measurement

These financial statements have been prepared on historical cost basis except certain financial instruments, defined benefit plans and share based payments measured at fair value.

d) Use of estimates and judgements

The preparation of the Standalone Financial Statements in conformity with IND AS requires the use of estimates, judgements and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. Management believes that the estimates made in the preparation of the financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are as follows:

- ***Evaluation of satisfaction of performance obligation for the purpose of revenue recognition***
Determination of revenue under the satisfaction of performance obligation necessarily involves making estimates, some of which are of a technical nature, concerning, where relevant, the timing of satisfaction of performance obligation, costs to completion, the expected revenues from the project or activity and the foreseeable losses to completion. Estimates of project income, as well as project costs, are reviewed periodically. The Company recognises revenue when the Company satisfies its performance obligation
- ***Evaluation of Net realisable Value of Inventories***
Inventories comprising of finished goods and construction-work-in progress are valued at lower of cost and net realisable value. Net Realisable value is based upon the estimates of the management. The effect of changes, if any, to the estimates is recognised in the Standalone Financial Statements for the period in which such changes are determined.
- ***Useful life and residual value of property, plant and equipment and intangible assets***
Useful lives of tangible and intangible assets are based on the life prescribed in Schedule II of the Act. In cases, where the useful lives are different based from that prescribed in Schedule II of the Act, they are based on internal technical evaluation. Assumptions are also made, when the Company assesses, whether an asset may be capitalised and which components of the cost of the asset may be capitalised.

Notes Forming Part of Standalone Financial Statements

The estimation of residual value of assets is based on management's judgment about the condition of such asset at the point of sale of asset.

- **Recognition and measurement of defined benefit obligations**

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and attrition rate. The discount rate is determined by reference to market yields at the end of the reporting period on government securities. The period to maturity of the underlying securities correspond to the probable maturity of the post-employment benefit obligations.

- **Recognition and measurement of long-term incentive**

Accrual for long-term incentive scheme liability requires estimates and judgements in respect of achievement of parameters of individual and business performance, as well as market related parameters. These estimates are based on past performance, approved budgets and plans and forecast of market indicators based on best estimate as at the reporting date.

- **Share based payments**

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which depends on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For the measurement of the fair value of equity-settled transactions with employees at the grant date, the Company uses Black-Scholes model. The assumptions used for estimating fair value for share-based payment transactions are disclosed in Note 41 to the Standalone Financial Statements.

- **Fair value measurement of financial instruments**

When the fair values of the financial assets and liabilities recorded in the balance sheet cannot be measured based on the quoted market prices in active markets, their fair value is measured using valuation technique. The inputs to these models are taken from the observable market where possible, but where this is not feasible, a review of judgement is required in establishing fair values. Any changes in the aforesaid assumptions will affect the fair value of financial instruments.

- **Expected Credit losses and Impairment losses on investment**

The Company reviews its carrying value of investments carried at amortised cost annually or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

- **Recognition of deferred tax asset**

The deferred tax assets in respect of brought forward business losses is recognised based on reasonable certainty of the projected profitability, determined on the basis of approved business plans, to the extent that sufficient taxable income will be available to absorb the brought forward business losses.

- **Provisions and contingencies**

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the amount included in other provisions.

e) Standard issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 01, 2021.

f) Recent Pronouncements

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

- Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

Statement of Profit and Loss:

- Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency. specified under the head 'additional information' in the notes forming part of Standalone Financial Statements.

The amendments are extensive and the Company will evaluate the same to give effect to them as required by law.

g) Measurement of fair values

The Company's accounting policies and disclosures require the measurement of fair values for financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data.

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

h) Operating Cycle

The normal operating cycle in respect of operation relating to under construction real estate project depends on signing of agreement, size of the project, phasing of the project, type of development, project complexities, approvals needed and realisation of project into cash and cash equivalents and range from 3 to 7 years. Accordingly, project related assets

Notes Forming Part of Standalone Financial Statements

and liabilities have been classified into current and non-current based on operating cycle of respective projects. All other assets and liabilities have been classified into current and non-current based on a period of twelve months.

III. Significant Accounting Policies

a. Business combination

Common control transactions are accounted for based on pooling of interests method where the assets and liabilities of the acquiree are recorded at their existing carrying values. The identity of reserves of the acquiree is preserved and the difference between consideration and the face value of the share capital of the acquiree is transferred to capital reserve, which is shown separately from other capital reserves. The financial information in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the Standalone Financial Statements irrespective of the actual date of the combination.

b. Property, plant and equipment and depreciation and amortisation

i) *Recognition and Measurement:*

Items of property, plant and equipment, other than Freehold Land, are measured at cost less accumulated depreciation and impairment losses, if any. Freehold Land is carried at cost and is not depreciated. The cost of an item of property, plant and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and
- Any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment are derecognised from the Standalone Financial Statements, either on disposal or when no economic benefits are expected from its use or disposal. The gain or loss arising from disposal of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment recognised in the Standalone Statement of Profit and Loss in the year of occurrence.

Assets under construction includes the cost of property, plant and equipment that are not ready to use at the balance sheet date. Advances paid to acquire property, plant and equipment before the balance sheet date are disclosed under other non-current assets. Assets under construction are not depreciated as these assets are not yet available for use.

ii) *Subsequent expenditure*

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the expenditure can be measured reliably.

iii) *Depreciation and amortisation*

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Depreciation on property, plant and equipment, other than Freehold Land, of the Company has been provided using the written down value method based on the useful lives specified in Schedule II to the Companies Act, 2013. The useful lives of certain motor vehicles are estimated in the range of 3-8 years and the residual value of certain furniture and fixtures are estimated at 50% of actual cost. These lives are different from those indicated in Schedule II and are based on internal technical evaluation.

Assets costing less than INR 5,000 are depreciated at 100% in the year of acquisition.

Notes Forming Part of Standalone Financial Statements

Assets acquired on lease and leasehold improvements are amortised over the period of the lease on straight line basis. Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

c. Investment property and depreciation

i) *Recognition and measurement:*

Investment properties comprises of land and building are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation.

ii) *Depreciation*

Depreciation on Investment Property is provided using the written down value method based on the useful lives specified in Schedule II to the Companies Act, 2013.

d. Intangible assets and amortisation

i) *Recognition and measurement:*

Items of Intangible Assets are measured at cost less accumulated amortisation and impairment losses, if any. The cost of intangible assets comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and
- Any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

ii) *Subsequent expenditure*

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the expenditure can be measured reliably.

iii) *Amortisation*

Intangible assets are amortised over their estimated useful life using straight line method.

Trademark is amortised over a period of 20 years.

Intangible assets (other than trademark) are amortised over a period of six years.

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

e. Impairment of non-financial assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists.

If the carrying amount of the assets exceed the estimated recoverable amount, an impairment loss is recognised for such excess amount. The impairment loss is recognised as an expense in the Standalone Statement of Profit and Loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a decrease to the extent a revaluation reserve is available for that asset.

Goodwill on business combination is not amortised but it is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired.

Notes Forming Part of Standalone Financial Statements

The recoverable amount is the greater of the net selling price and the value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognised in the Standalone Statement of Profit and Loss, to the extent the amount was previously charged to the Standalone Statement of Profit and Loss. In case of revalued assets, such reversal is not recognised.

f. Foreign currency transactions

Transactions in foreign currencies are translated into the Company's functional currency at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into functional currency at the exchange rate when the fair value was determined.

Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous Standalone Financial Statements are recognised in the Standalone Statement of Profit and Loss in the period in which they arise.

g. Investment in subsidiaries, joint ventures and associate

Investments in equity shares of subsidiaries, joint ventures and associate are recorded at cost and reviewed for impairment at each reporting date. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, joint ventures and associate, the difference between net disposal proceeds and the carrying amounts are recognised in the Standalone Statement of Profit and Loss.

h. Financial instruments

i. Financial assets

Classification

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Initial recognition and measurement

Trade receivables and debt securities issued are initially recognised when they originate.

The Company recognises financial assets (other than trade receivables and debt securities) when it becomes a party to the contractual provisions of the instrument. All financial assets are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For the purpose of subsequent measurement, the financial assets are classified in three categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through profit or loss
- Equity investments

Notes Forming Part of Standalone Financial Statements

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Standalone Statement of Profit and Loss. The losses arising from impairment are recognised in the Standalone Statement of Profit and Loss.

Debt instruments at Fair Value through Profit or Loss

Debt instruments included in the fair value through profit or loss (FVTPL) category are measured at fair value with all changes recognised in the Standalone Statement of Profit and Loss.

Equity investments

All equity investments other than investment in subsidiaries, joint ventures and associate are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVTOCI) or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in other comprehensive income (OCI). There is no recycling of the amounts from OCI to the Standalone Statement of Profit and Loss, even on sale of such investments.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Standalone Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognised when:

- (a) The rights to receive cash flows from the asset have expired, or
- (b) the Company has transferred substantially all the risks and rewards of the asset, or
- (c) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

The Company applies 'simplified approach' measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- b) Trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime Expected Credit Loss at each reporting date, right from its initial recognition.

Notes Forming Part of Standalone Financial Statements

II. Financial Liabilities

Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost.

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognised in the Standalone Statement of Profit and Loss when the liabilities are derecognised.

Amortised cost is calculated by taking into account any discount or premium on acquisition and transactions costs. The EIR amortisation is included as finance costs in the Standalone Statement of Profit and Loss.

This category generally applies to loans and borrowings.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Standalone Statement of Profit and Loss.

III Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle them on a net basis or to realise the assets and settle the liabilities simultaneously.

IV Share Capital

Ordinary equity shares

Incremental costs directly attributable to the issue of ordinary equity shares, are recognised as a deduction from equity.

Treasury shares

The Company has created an Employee Stock Options Trust (ESOP) for providing share-based payment to its employees. The Company uses ESOP as a vehicle for distributing shares to employees under the employee remuneration schemes. The ESOP buys shares of the Company from the market, for giving shares to employees. The Company treats ESOP as its extension and shares held by ESOP are treated as treasury shares.

Treasury shares are recognised at cost and deducted from equity. No gain or loss is recognised in the Standalone Statement of Profit and Loss on the purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognised in capital reserve. Share options exercised during the reporting period are deducted from treasury shares.

i. Inventories

Inventories are valued as under:

- a) Finished Goods – At Lower of Cost and Net realisable value.
- b) Construction Work-in-Progress - At Lower of Cost and Net realisable value.

Construction Work-in-Progress/Finished Goods includes cost of land, premium for development rights, construction costs, allocated interest and expenses incidental to the projects undertaken by the Company.

Notes Forming Part of Standalone Financial Statements

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. The inventory of construction work-in-progress is not written down below cost if flats /properties are expected to be sold at or above cost.

j. Revenue Recognition

The Company derives revenues primarily from sale of properties comprising of commercial/residential units and sale of plotted and other lands.

The Company recognises revenue when it determines the satisfaction of performance obligations at a point in time and subsequently over time when the Company has enforceable right for payment for performance completed to date. Revenue is recognised upon transfer of control of promised products to customer in an amount that reflects the consideration which the Company expects to receive in exchange for those products.

In arrangements for sale of units the Company has applied the guidance in IND AS 115, on "Revenue from contracts with customers", by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering sale of units as distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract Liabilities are recognised when there is billing in excess of revenue and advance received from customers.

The Company enters into Development and Project Management agreements with land-owners. Accounting for income from such projects, measured at fair value, is done on accrual basis as per the terms of the agreement.

The Company receives maintenance amount from the customers and utilises the same towards the maintenance of the respective projects. Revenue is recognised to the extent of maintenance expenses incurred by the Company towards maintenance of respective projects. Balance amount of maintenance expenses to be incurred is reflected as liability under the head other current non-financial liabilities.

Interest income

Interest income is accounted on an accrual basis at effective interest rate. Interest on delayed payment and forfeiture income are accounted based upon underlying agreements with customers.

Dividend income and share of profits/losses in LLP

Dividend income and share of profits/losses in LLP is recognised when the right to receive/liability to pay the same is established.

k. Leases

At the inception of a contract, the Company assesses whether a contract is or contains, a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration. To assess whether a contract conveys the right to control the use of an asset the Company assesses whether:

- The contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capability of a physical distinct asset. If the supplier has a substantive substitution right, then the asset is not identified

Notes Forming Part of Standalone Financial Statements

- The Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- The Company has the right to direct the use of the asset. The Company has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used.

As a Lessee

Right-of-use Asset

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. At the commencement date, a lessee shall measure the right-of-use asset at cost which comprises initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received, any initial direct costs incurred by the lessee; and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Lease Liability

At the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee's incremental borrowing rate.

Short-term lease and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of less than 12 months or less and leases of low-value assets, including IT Equipment. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The election for short-term leases shall be made by class of underlying asset to which the right of use relates. A class of underlying asset is a grouping of underlying assets of a similar nature and use in Company's operations. The election for leases for which the underlying asset is of low value can be made on a lease-by-lease basis.

I. Income tax

Income tax expense comprises current tax and deferred tax. It is recognised in the Standalone Statement of Profit and Loss except to the extent that it relates to items recognised directly in equity or in OCI.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognised amounts; and
- b) intends either to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent there is convincing evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves. Deferred tax liabilities are recognised for taxable temporary differences.

Notes Forming Part of Standalone Financial Statements

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Minimum Alternative Tax (MAT)

MAT credit is recognised as a deferred tax asset only when and to the extent there is a convincing evidence that the Company will pay normal tax during specified period. MAT credit is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

m. Employee benefits

Short term employee benefits

Short-term employee benefits are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined contribution plans

Obligations for contributions to defined contribution plans such as Provident Fund and Employee State Insurance Corporations are expensed as the related service is provided.

Defined benefit plans

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, after discounting the same.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method.

Re-measurement of the net defined benefit liability, which comprise actuarial gains and losses are recognised immediately in other comprehensive income (OCI). Re-measurement, if any, are not reclassified to the Standalone Statement of Profit and Loss in subsequent period. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, based on the market yield on government securities as at the reporting date, used to measure the net defined liability (asset). Net interest expense and other expenses related to defined benefit plans are recognised in the Standalone Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in the Standalone Statement of Profit and Loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Other long-term employee benefits

The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. They are therefore measured at the present value of expected future payments to be made in respect of services provided by the employees upto the end of the reporting period using the projected unit credit method. The discount rates used are based on the market yields on government

Notes Forming Part of Standalone Financial Statements

securities as at the reporting date. Re-measurements are recognised in the Standalone Statement of Profit and Loss in the period in which they arise.

Other long-term benefits include payable in respect of long-term incentive scheme recorded based on arithmetical model estimating the possible cash outflows based on assessment of parameters of the scheme and pro-rated to the completed service period and discounted at present value.

n. Share-based payment transactions

Employees Stock Options Plans ("ESOPs") and Employee Stock Grant Scheme ("ESGS"): The grant date fair value of options granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees become unconditionally entitled to the options. The expense is recorded for each separately vesting portion of the award as if the award was, in substance, multiple awards. The increase in equity recognised in connection with share based payment transaction is presented as a separate component in equity under "Employee stock grant scheme reserve". The amount recognised as an expense is adjusted to reflect the actual number of stock options that vest.

o. Borrowing costs

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing.

Borrowing costs, pertaining to development of long term projects, are transferred to Construction work in progress, as part of the cost of the projects till the time all the activities necessary to prepare these projects for its intended use or sale are complete.

All other borrowing costs are recognised as an expense in the period in which they are incurred.

p. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the Standalone Statement of Cash Flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

q. Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares. If potential equity shares converted into equity shares increases the earnings per share, then they are treated as anti-dilutive and anti-dilutive earning per share is computed.

r. Provisions and contingent liabilities

A provision is recognised when the Company has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are discounted to their present value at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. The unwinding of the discount is recognised as finance cost

Notes Forming Part of Standalone Financial Statements

Contingent liabilities are disclosed in the notes. Contingent liabilities are disclosed for

- (1) Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- (2) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised in the Standalone Financial Statements. However, the same are disclosed in the Standalone Financial Statements where an inflow of economic benefit is probable.

s. Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted with the Standalone Financial Statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

t. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

(v) Sensitivity analysis

A quantitative sensitivity analysis on Defined Benefit Obligation for significant assumptions as at March 31, 2021 is shown below:

Notes Forming Part of Standalone Financial Statements

(Currency in INR Crore)

38 Employee Benefits

Particulars	March 31, 2021		March 31, 2020 (Restated)	
	Increase	Decrease	Increase	Decrease

Attrition Rate (1% movement)	(0.23)	0.25	(0.13)	0.14

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior year.

(vi) The expected future cash flows in respect of gratuity as at March 31, 2021 were as follows:

b) Measurement of Fair Value

- (i) The fair values of investments in mutual fund units is based on the net asset value ('NAV') as stated by the issuers of these mutual fund units in the published statements as at Balance Sheet date. NAV represents the price at which the issuer will issue further units of mutual fund and the price at which issuers will redeem such units from the investors.
- (ii) The Company uses the Discounted Cash Flow valuation technique (in relation to financial assets measured at amortised cost and fair value through profit or loss) which involves determination of present value of expected receipt/ payment discounted using appropriate discounting rates. The fair value so determined for financial asset measured at fair value through profit and loss are classified as Level 2.
- (iii) The Company uses the discounted cash flow valuation technique (in relation to financial liabilities measured at amortised cost) which involves determination of the present value of expected payments, discounted using bank rate. The fair value of non-convertible debentures is valued using FIMMDA guidelines.
- (iv) For financial assets that are measured at fair value under Level 3, the carrying amounts are equal to the fair values.
- (v) Lease liabilities are valued using Level 3 techniques. A change in one or more of the inputs to reasonably possible alternative assumptions would not change the value significantly.

(Currency in INR Crore)

39 Financial instruments – Fair values and risk management

- (vi) The sensitivity analysis below for lease liabilities have been determined based on reasonably possible changes of the discounting rate occurring at the end of the reporting period, while holding all other assumptions constant. If the discounting rate is 50 basis points higher/(lower), would decrease by INR 0.01 crore (Increase by INR 0.01 crore).

c) Risk Management Framework

The Company's Board of Directors have overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors have established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the Board of Directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

d) Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- (i) Credit Risk
- (ii) Liquidity Risk
- (iii) Market Risk.

(i) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, investments in debt securities, loans given to related parties and project deposits.

The carrying amount of financial assets represents the maximum credit exposure.

Trade Receivables

Customer credit risk is managed by requiring customers to pay advances through progress billings before transfer of ownership, therefore substantially eliminating the Company's credit risk in this respect.

The Company's credit risk with regard to trade receivable has a high degree of risk diversification, due to the large number of projects of varying sizes and types with numerous different customer categories in a large number of geographical markets.

As per simplified approach, the Company makes provision of expected credit losses on trade receivables to mitigate the risk of default payments and makes appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Management monitors rolling forecasts of the Company's liquidity position on the basis of expected cash flows. This monitoring includes financial ratios and takes into account the accessibility of cash and cash equivalents.

The Company has access to funds from capital and debt markets through loan from banks, commercial papers and other debt & equity instruments. The Company invests its surplus funds in bank fixed deposits and debt based mutual funds.

(iii) Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rate and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

a) Currency Risk

Currency risk is not material, as the Company's primary business activities are within India and does not have significant exposure in foreign currency.

b) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The management is responsible for the monitoring of the Company's interest rate position. Various variables are considered by the management in structuring the Company's borrowings to achieve a reasonable, competitive cost of funding.

Exposure to interest rate risk

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management is as follows:

Particulars	March 31, 2021	March 31, 2020 (Restated)
Financial liabilities		
Variable rate instruments	371.15	259.32
Fixed rate instruments	4,138.33	3,441.99
	4,509.48	3,701.31
Financial assets		
Variable rate instruments	-	-
Fixed rate instruments	6,089.42	3,914.22
	6,089.42	3,914.22

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rate would have resulted in variation in the interest expense for the Company by the amounts indicated in the table below. Given that the Company capitalises interest to the cost of inventory to the extent permissible, the amounts indicated below may have an impact on reported profits over the life cycle of projects to which such interest is capitalised. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The year end balances are not necessarily representative of the average debt outstanding during the period.

The Company does not have any additional impact on equity other than the impact on retained earnings.

40 Capital Management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

The Board of Directors seek to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages by a sound capital position.

The Company monitors capital using a ratio of 'Net Debt to Equity'. For this purpose, net debt is defined as total borrowings (including interest accrued) less cash and bank balances and other current investments.

The Company's net debt to equity ratio is as follows:

Particulars	March 31, 2021	March 31, 2020 (Restated)
Net debt	(402.01)	1,296.30
Total equity	8,755.51	5,105.99

44 Revenue from Contracts with Customers

- (a) The amount of INR 14.07 Crore (Previous Year: INR 965.26 Crore) recognised in contract liabilities at the beginning of the year has been recognised as revenue during the year ended March 31, 2021.
- (b) Significant changes in contract asset and contract liabilities balances are as follows:

Particulars	March 31,2021	March 31,2020 (Restated)
Contract asset		
At the beginning of the reporting period	129.92	57.48
Cumulative catch-up adjustments to revenue affecting contract asset	(92.33)	72.44
At the end of the reporting period	37.59	129.92
Contract liability		
At the beginning of the reporting period	226.31	1,158.39
Cumulative catch-up adjustments affecting contract liability	245.61	(862.60)
Significant financing component	14.20	(69.48)
At the end of the reporting period	486.12	226.31

- (c) Performance obligation

The Company engaged primarily in the business of real estate construction, development and other related activities.

All the Contracts entered with the customers consists of a single performance obligation thereby the consideration allocated to the performance obligation is based on standalone selling prices.

Revenue is recognised upon transfer of control of residential and commercial units to customers for an amount that reflects the consideration which the Company expects to receive in exchange for those units. The trigger for revenue recognition is normally completion of the project or receipt of approvals on completion from relevant authorities or intimation to the customer of completion, post which the contract becomes non-cancellable by the parties.

The revenue is measured at the transaction price agreed under the contract. In certain cases, the Company has contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company adjusts the transaction price for the effects of a significant financing component.

Any costs incurred that do not contribute to satisfying performance obligations are excluded from the Company's input methods of revenue recognition as the amounts are not reflective of our transferring control of the system to the customer. Significant judgment is required to evaluate assumptions related to the amount of net contract revenues, including the impact of any performance incentives, liquidated damages, and other forms of variable consideration.

If estimated incremental costs on any contract, are greater than the net contract revenues, the Company recognises the entire estimated loss in the period the loss becomes known.

The aggregate amount of the transaction price allocated to the performance obligations that are unsatisfied (or partially unsatisfied) as at March 31, 2021 is INR 1,374.15 Crore (Previous Year: INR 648.58 Crore), of which INR 997.79 Crore (Previous Year: INR 179.16 Crore), which will be recognised as revenue over a period of 1-2 years and INR 376.36 Crore (Previous Year: INR 469.42 Crore) which will be recognised over a period of 2-4 years.

- (d) Reconciliation of revenue recognised in the Standalone Statement of Profit and Loss

The following table discloses the reconciliation of amount of revenue recognised as at 31 March 2021:

Independent Auditors' Report

To the Members of Godrej Properties Limited

Report on the Audit of Consolidated financial statements

Opinion

We have audited the consolidated financial statements of Godrej Properties Limited (hereinafter referred to as 'the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), its associate and its joint ventures, which comprise the consolidated balance sheet as at 31 March 2021, and the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associate and its joint ventures as at 31 March 2021, and of its consolidated loss and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143 (10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group, its associate and its joint ventures in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Emphasis of Matter

A) We draw attention to Note 44 (I) of the consolidated financial statements which describes the accounting for the Scheme of Amalgamation between the Holding Company and Wonder Space Properties Private Limited, a wholly owned subsidiary ('the Scheme' or 'business combination'). The Scheme has been approved by the National Company Law Tribunal ('NCLT') vide its order dated 14 September 2020 and a certified copy has been filed by the Holding Company with the Registrar of Companies, Mumbai, Maharashtra, on 26 October 2020. The appointed date as per the NCLT approved Scheme is 5 April 2019 and as per the requirements of Appendix C to Ind AS 103 "Business Combination", the business combination has been accounted for as if it had occurred from the date of acquisition of control i.e. 5 April 2019. Accordingly, the amounts relating to the financial year ended 31 March 2020 include the impact of the business combination and have been restated by the Holding Company after recognising the effect of the amalgamation as above. The aforesaid note (Note 44 (I)) also describes in detail the impact of the business combination on the consolidated financial statements.

Our opinion is not modified in respect of the above matter.

B) We draw attention to Note 43 to the consolidated financial statements, relating to remuneration paid / payable to the Managing Director & CEO of the Holding Company for the financial year ended 31 March 2021, being in excess of the limits prescribed under Section 197 of the Act by Rs 37.94 crores, which is subject to the approval of the shareholders.

Our opinion is not modified in respect of the above matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue Recognition (Refer note 29 to the standalone financial statements)

The Key Audit Matter	How the matter was addressed in our audit
<p>The Group's most significant revenue streams involve sale of residential and commercial units representing 46.87% of the total revenue from operations of the Group.</p> <p>Revenue is recognised post transfer of control of residential and commercial units to customers for the amount / consideration which the Group expects to receive in exchange for those units. The trigger for revenue recognition is normally completion of the project or receipt of approvals on completion from relevant authorities or intimation to the customer of completion, post which the contract becomes non-cancellable. The Group records revenue, over time till the actual possession to the customers, or on actual possession to the customers, as determined by the terms of contract with customers.</p> <p>The risk for revenue being recognized in an incorrect period presents a key audit matter due to the financial significance and geographical spread of the Group's projects across different regions in India.</p> <p>Measurement of revenue recorded over time which is dependent on the estimates of the costs to complete</p> <p>Revenue recognition involves significant estimates related to measurement of costs to complete for the projects. Revenue from projects is recorded based on the Group's assessment of the work completed, costs incurred and accrued and the estimate of the balance costs to complete.</p> <p>Considering the significant estimate involved in measurement of revenue, we have considered measurement of revenue as a key audit matter.</p>	<p>Our audit procedures on Revenue recognition included the following:</p> <ul style="list-style-type: none">• Evaluating the design and implementation and tested operating effectiveness of key internal controls over revenue recognition.• Evaluating the accounting policies adopted by the Group for revenue recognition to check those are in line with the applicable accounting standards and their consistent application to the significant sales contracts.• Scrutinising the revenue journal entries raised throughout the reporting period and comparing details of a sample of these journals, which met certain risk-based criteria, with relevant underlying documentation.• Testing timeliness of revenue recognition by comparing individual sample sales transactions to underlying contracts.• Conducting site visits during the year for selected projects to understand the scope, nature and progress of the projects.• Considering the adequacy of the disclosures in the consolidated financial statements in respect of the judgments taken in recognising revenue for residential and commercial property units in accordance with Ind AS 115. <p>Revenue recognition prior to receipt of Occupancy Certificate/ similar approval and intimation to the customer</p> <ul style="list-style-type: none">• Obtaining and understanding revenue recognition process including identification of performance obligations and determination of transfer of control of the asset underlying the performance obligation to the customer.• Evaluating revenue overstatement or understatement by assessing Group's key judgments in interpreting contractual terms. Determining the point in time at which the control is transferred by evaluating Group's in-house legal interpretations of the underlying agreements i.e. when contract becomes non-cancellable.• Identifying and testing operating effectiveness of key controls around approvals of contracts, milestone billing, intimation of possession letters / intimation of receipt of occupation certificate and controls over collection from customers.• Testing sample sales of units for projects with the underlying contracts, completion status and proceeds received from customers.• Requesting confirmations, on a sample basis, from major customers for selected projects and reconciling them with revenue recognised. In case of non-receipt of confirmations, we have performed alternative procedures by comparing details with contracts, collection details and other underlying project related documentation

The Key Audit Matter

How the matter was addressed in our audit

Measurement of revenue recorded over time which is dependent on the estimates of the costs to complete

- Identifying and testing operating effectiveness of key controls over recording of project costs.
- Assessing the costs incurred and accrued to date on the balance sheet by examining underlying invoices and signed agreements on a sample basis. Assessing contract costs to check no costs of revenue nature are incorrectly recorded in the balance sheet.
- Comparing, on a sample basis, revenue transactions recorded during the year with the underlying contracts, progress reports, invoices raised on customers and collections in bank accounts. Also, checked the related revenue had been recognised in accordance with the Group's revenue recognition policies.
- Comparing the costs to complete workings with the budgeted costs and inquiring for variance.
- Sighting Group's internal approvals, on sample basis, for changes in budgeted costs along with the rationale for the changes.

Inventories (Refer note 13 to the standalone financial statements)

The Key Audit Matter

Inventories held by the Group comprising of finished goods and construction work in progress represent 28.31% of the Group's total assets. Inventory may be held for long periods of time before sale making it vulnerable to reduction in net realisable value (NRV). This could result in an overstatement of the value of inventory when the carrying value is higher than the NRV.

Assessing NRV

NRV is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale and estimated costs of completion (in case of construction work-in-progress). The inventory of finished goods and construction work-in-progress is not written down below cost when completed flats/ under-construction flats / properties are expected to be sold at or above cost.

For NRV assessment, the estimated selling price is determined for a phase, sometimes comprising multiple units. The assessment and application of write-down of inventory to NRV are subject to significant judgement by the Group.

As such inappropriate assumptions in these judgements can impact the assessment of the carrying value of inventories.

Considering the Group's judgement associated with long dated estimation of future market and economic conditions and materiality in the context of total assets of the Group, we have considered assessment of NRV of inventory as a key audit matter.

How the matter was addressed in our audit

Our audit procedures included:

- Understanding from the Group the basis of estimated selling price for the unsold units and units under construction.
- Evaluating the design and testing operating effectiveness of controls over preparation and update of NRV workings by designated personnel. Testing controls related to Group's review of key estimates, including estimated future selling prices and costs of completion for property development projects.
- Evaluating the Group's judgement with regards to application of write-down of inventory units by auditing the key estimates, data inputs and assumptions adopted in the valuations. Comparing expected future average selling prices with available market conditions such as price range available under industry reports published by reputed consultants and the sales budget plans maintained by the Group.
- Comparing the estimated construction costs to complete each project with the Group's updated budgets. Re-computing the NRV, on a sample basis, to test inventory units are held at the lower of cost and NRV.

Deferred Tax Assets (Refer note 11 to the standalone financial statements)

The Key Audit Matter	How the matter was addressed in our audit
<p data-bbox="113 221 730 250">Recognition and measurement of deferred tax assets</p> <p data-bbox="113 260 730 413">Under Ind AS, the Group is required to reassess recognition of deferred tax asset at each reporting date. The Group has deferred tax assets in respect of brought forward losses and other temporary differences, as set out in note 11 (c) to the consolidated financial statements.</p> <p data-bbox="113 437 730 589">The Group's deferred tax assets in respect of brought forward business losses are based on the projected profitability. This is determined on the basis of approved business plans demonstrating availability of sufficient taxable income to utilise such brought forward business loss.</p> <p data-bbox="113 613 730 766">We have identified recognition of deferred tax assets as a key audit matter because of the related complexity and subjectivity of the assessment process. The assessment process is based on assumptions affected by expected future market or economic conditions.</p>	<p data-bbox="738 221 1437 250">Our audit procedures included:</p> <ul data-bbox="738 260 1437 868" style="list-style-type: none"><li data-bbox="738 260 1437 329">• Obtaining the approved business plans, projected profitability statements for the existing ongoing projects.<li data-bbox="738 339 1437 437">• Evaluating the design and testing the operating effectiveness of controls over quarterly assessment of deferred tax balances and underlying data.<li data-bbox="738 446 1437 672">• Evaluating the projections of future taxable profits. Testing the underlying data and assumptions used in the profitability projections and performing sensitivity analysis. Checking other convincing evidence like definitive agreements for land / development rights and verifying the project plans in respect of new projects and review of contractual agreements with customers and estimates on unsold inventory for existing projects.<li data-bbox="738 682 1437 740">• Assessing the recoverability of deferred tax assets by evaluating profitability, Group's forecasts and fiscal developments.<li data-bbox="738 750 1437 868">• Focusing on the adequacy of the Group's disclosures on deferred tax and assumptions used. The Group's disclosures concerning income taxes are included in note 11 to the consolidated financial statements.

Investments in joint ventures and an associate and loans/financial instruments to joint ventures (Refer note 6, 7 and 18 to the consolidated financial statements)

The Key Audit Matter	How the matter was addressed in our audit
<p data-bbox="113 1032 655 1211">The carrying amount of the investments in joint ventures and an associate held at cost less impairment represents 5.07% of the Group's total assets. The loans/financial instruments to joint ventures represent 17.39% of the Group's total assets.</p> <p data-bbox="113 1230 655 1289">Recoverability of investments in joint ventures and an associate</p> <p data-bbox="113 1299 655 1662">The Group's investments in joint ventures and an associate are carried at cost less any diminution in value. The investments are assessed for impairment at each reporting date. The impairment assessment involves the use of estimates and judgements. The identification of impairment event and the determination of an impairment charge also require the application of significant judgement by the Group. The judgement, in particular, is with respect to the timing, quantity and estimation of projected cash flows of the real estate projects in these underlying entities.</p> <p data-bbox="113 1681 655 1816">In view of the significance of these investments and above, we consider valuation / impairment of investments in joint ventures and an associate to be a key audit matter.</p>	<p data-bbox="663 1032 1437 1062">Recoverability of investments in joint ventures and an associate</p> <p data-bbox="663 1072 1437 1101">Our audit procedures included:</p> <ul data-bbox="663 1111 1437 1816" style="list-style-type: none"><li data-bbox="663 1111 1437 1209">• Evaluating design and implementation and testing operating effectiveness of controls over the Group's process of impairment assessment and approval of forecasts.<li data-bbox="663 1219 1437 1346">• Assessing the valuation methods used, financial position of the joint ventures and an associate to identify excess of their net assets over their carrying amount of investment by the Group and assessing profit history of those joint ventures and an associate.<li data-bbox="663 1356 1437 1454">• For the investments where the carrying amount exceeded the net asset value, understanding from the Group regarding the basis and assumptions used for the projected profitability.<li data-bbox="663 1464 1437 1493">• Verifying the inputs used in the projected profitability.<li data-bbox="663 1503 1437 1601">• Testing the assumptions and understanding the forecasted cash flows of joint ventures and an associate based on our knowledge of the Group and the markets in which they operate.<li data-bbox="663 1611 1437 1679">• Assessing the comparability of the forecasts with historical information.<li data-bbox="663 1689 1437 1758">• Analysing the possible indications of impairment and understanding Group's assessment of those indications.<li data-bbox="663 1767 1437 1816">• Considering the adequacy of disclosures in respect of the investment in joint ventures and an associate.

Investment in subsidiaries, joint ventures and an associate and loans/financial instruments to Company entities.
(Refer note 6, 7, 9 and 18 to the standalone financial statements)

The Key Audit Matter	How the matter was addressed in our audit
<p>Recoverability of Loans to Joint Ventures</p> <p>The Group has extended loans to joint ventures. These are assessed for recoverability at each period end.</p> <p>Due to the nature of the business in the real estate industry, the Group is exposed to heightened risk in respect of the recoverability of the loans granted to its joint ventures. In addition to nature of business, there is also significant judgment involved as to the recoverability of the working capital and project specific loans. This depends on property developments projects being completed over the time period specified in agreements.</p> <p>We have identified measurement of loans to joint ventures as a key audit matter because recoverability assessment involves Group's significant judgement and estimate.</p>	<p>Recoverability of Loans to Joint Ventures</p> <p>Our procedures included:</p> <ul style="list-style-type: none"> • Evaluating the design and implementation and testing operating effectiveness of key internal controls placed around the impairment assessment process of the recoverability of the loans. • Assessing the net worth of joint ventures on the basis of latest available financial statements. • Assessing the controls for grant of new loans and sighting the Board approvals obtained. We have tested Group's assessment of the recoverability of the loans, which includes cash flow projections over the duration of the loans. These projections are based on underlying property development appraisals. • Tracing loans advanced / repaid during the year to bank statement. • Obtaining independent confirmations to assess completeness and existence of loans and advances given to joint ventures as on 31 March 2021.

changes in equity and consolidated cash flows of the Group including its associate and joint ventures, in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act. The respective Management and Board of Directors of the companies/Designated Partners of limited liability partnerships included in the Group, its associate and its joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company/limited liability partnership and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error which have been used for the purpose of preparation of the consolidated financial statements by the Management and Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies / Designated Partners of the limited liability partnerships included in the Group and of its associates and joint ventures are responsible for assessing the ability of each company/ limited liability partnerships to continue as a going

concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors / Designated Partners either intends to liquidate the Company/ limited liability partnerships or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies/ Designated Partners of the limited liability partnerships included in the Group and of its associate, joint ventures is responsible for overseeing the financial reporting process of each company/ limited liability partnerships.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on the internal financial controls with reference to the consolidated financial statements and the operating effectiveness of such controls based on our audit.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management and Board of Directors.
- Conclude on the appropriateness of Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial

statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group, its associate and its joint ventures to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding financial information of such entities or business activities within the Group, its associate and its joint ventures, to express an opinion on the consolidated financial statements, of which we are the independent auditors. We are responsible for direction, supervision and performance of the audit of the financial information of such entities included in the consolidated financial statements of which we are the independent auditors.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in

our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- (A) As required by Section 143 (3) of the Act, based on our audit and other financial information of such subsidiaries, its associate and its joint venture companies, we report, to the extent applicable, that:
- (a) we have sought and obtained all the information and explanations, which to the best of our knowledge and belief, were necessary for the purposes of our audit of the aforesaid consolidated financial statements;
 - (b) in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books;
 - (c) the consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
 - (d) in our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act;
 - (e) on the basis of the written representations received from the directors of the Group companies, its associate and its joint ventures companies incorporated in India as on 31 March 2021 and taken on record by the Board of Directors of the Group companies, its associate and its joint ventures companies, none of the directors of the Group companies, its associate and its joint ventures companies incorporated in India are disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164 (2) of the Act; and
 - (f) with respect to adequacy of the internal financial controls with reference to financial statements of the Group companies, its associate and its joint ventures companies incorporated in India and the operating effectiveness of such controls, refer to our separate report in "Annexure A".
- (B) with respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our
- opinion and to the best of our information and according to the explanations given to us and the other financial information of the subsidiaries, its associate and its joint ventures:
- i. the consolidated financial statements disclose the impact of pending litigations as at 31 March 2021 on the consolidated financial position of the Group, its associate and its joint ventures – Refer Note 48 to the consolidated financial statements;
 - ii. the Group, its associate and its joint ventures did not have any long-term contracts, including derivative contracts, for which there were any material foreseeable losses;
 - iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Group, its associate and its joint ventures incorporated in India during the year ended 31 March 2021; and
 - iv. the disclosures in the consolidated financial statements regarding holdings as well as dealings in Specified Bank Notes during the period from 8 November 2016 to 30 December 2016 have not been made in these consolidated financial statements since they do not pertain to the financial year ended 31 March 2021.
- (C) With respect to the matter to be included in the Auditors' Report under Section 197 (16) of the Act, we report that:
- i. We draw attention to Note 43 to the consolidated financial statements, relating to remuneration paid/payable to the Managing Director & CEO of the Holding Company for the financial year ended 31 March 2021, being in excess of the limits prescribed under Section 197 of the Act by Rs 37.94 crores, which is subject to the approval of the shareholders. Our opinion is not modified in respect of this matter; and
 - ii. the Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

Annexure A to the Independent Auditors' Report on the consolidated financial statements of Godrej Properties Limited for the year ended – 31 March 2021

Report on the Internal Financial Controls with reference to the aforesaid consolidated *financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")*

(Referred to in paragraph (A) (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

In conjunction with our audit of the consolidated financial statements of Godrej Properties Limited ("the Holding Company") as of and for the year ended 31 March 2021, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and such companies incorporated in India under the Companies Act, 2013 which are its subsidiary companies (the Holding Company and its subsidiary companies incorporated in India together referred to as the "Group"), its associate and its joint venture companies, as of that date.

In our opinion, the Group, its associate and its joint venture companies, have, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The respective company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the criteria established by the respective company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in

accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial Controls with reference to Consolidated financial statements

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company

are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to consolidated financial statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are

subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

(f) General Reserve

The General reserve is created from time to time to transfer profits from retained earnings for appropriation purposes.

(g) Retained Earnings

Retained Earnings are the profits that the Company has earned till the balance sheet date, less any transfers to general reserve, debenture redemption reserve, dividends or other distributions paid to shareholders.

(h) Exchange differences on translating the financial statements of a foreign operation

Exchange differences arising on translation of the foreign operations are recognised in other comprehensive income and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed-off.

Note 1

I Company overview

Godrej Properties Limited ("the Company") having CIN: L74120MH1985PLC035308, together with its subsidiaries collectively referred to as ("the Group"), its joint ventures and associate, is engaged primarily in the business of real estate construction, development and other related activities. The Company is a public limited company incorporated and domiciled in India having its registered office at Godrej One, 5th Floor, Pirojshanagar, Eastern Express Highway, Vikhroli, Mumbai – 400079. The Company's equity shares are listed on The Bombay Stock Exchange Limited (BSE) and The National Stock Exchange of India Limited (NSE.)

II. Basis of preparation and measurement

a) Statement of Compliance

The financial statements of the subsidiaries, joint ventures and associate used for the purpose of consolidation are drawn up to the same reporting date as that of the Company, i.e. March 31, 2021.

The consolidated financial statements of the Group have been prepared in accordance with the Indian Accounting Standards (IND AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under the Section 133 of the Companies Act, 2013 ("the Act") and the relevant provisions and amendments, as applicable.

The consolidated financial statements of the Group for the year ended March 31, 2021 were authorised for issue by the Board of Directors on May 03, 2021.

b) Functional and presentation currency

These consolidated financial statements are presented in Indian rupees, which is also the functional currency of the Group. All financial information presented in Indian rupees has been rounded to the nearest crore, unless otherwise stated.

c) Basis of measurement

These consolidated financial statements have been prepared on historical cost basis except certain financial instruments, defined benefit plans and share based payments measured at fair value.

d) Use of estimates and judgements

The preparation of the consolidated financial statements in conformity with IND AS requires the use of estimates, judgements and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. Management believes that the estimates made in the preparation of the consolidated financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods..

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are as follows:

- **Evaluation of satisfaction of performance obligation for the purpose of revenue recognition**
Determination of revenue under the satisfaction of performance obligation necessarily involves making estimates, some of which are of a technical nature, concerning, where relevant, the timing of satisfaction of performance obligation, costs to completion, the expected revenues from the project or activity and the foreseeable losses to completion. Estimates of project income, as well as project costs, are reviewed periodically. The effect of changes, if any, to estimates is recognised in the consolidated financial statements for the period in which such changes are determined.
- **Evaluation of control**
The Group makes assumptions, when assessing whether it exercises control, joint control or significant influence over entities in which it holds less than 100 percent of the voting rights. These assumptions are made based on the contractual rights with the other shareholders, relevant facts and circumstances which indicate that the Group has power over the potential subsidiary or that joint control exists. Changes to contractual arrangements or facts and circumstances are monitored and are evaluated to determine whether they have a potential impact on the assessment as to whether the Group is exercising control over its investment.

Notes Forming Part of Consolidated Financial Statements

- ***Evaluation of Net realisable Value of Inventories***

Inventories comprising of finished goods and construction-work-in progress are valued at lower of cost and net realisable value. Net Realisable value is based upon the estimates of the management. The effect of changes, if any, to the estimates is recognised in the consolidated financial statements for the period in which such changes are determined.

- ***Useful life and residual value of property, plant and equipment and intangible assets***

Useful lives of tangible and intangible assets are based on the life prescribed in Schedule II of the act. In cases, where the useful lives are different from that prescribed in Schedule II, they are based on internal technical evaluation. Assumptions are also made, when the Group assesses, whether an asset may be capitalised and which components of the cost of the asset may be capitalised.

- ***Recognition and measurement of defined benefit obligations***

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and attrition rate. The discount rate is determined by reference to market yields at the end of the reporting period on government securities. The period to maturity of the underlying securities correspond to the probable maturity of the post-employment benefit obligations.

- ***Recognition and measurement of long-term incentive***

Accrual for long term incentive scheme liability requires estimates and judgements respect of achievement of parameters of individual and business performance as well as market related parameters. These estimates are based on past performance approved budgets and plans of market indicators based on best estimate as at the reporting date

- ***Share based payments***

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which depends on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For the measurement of the fair value of equity-settled transactions with employees at the grant date, the Group uses Black-Scholes model.

The assumptions used for estimating fair value for share-based payment transactions are disclosed in Note 41 to the consolidated financial statements.

- ***Fair value measurement of financial instruments***

When the fair values of the financial assets and liabilities recorded in the balance sheet cannot be measured based on the quoted market prices in active markets, their fair value is measured using valuation technique. The inputs to these models are taken from the observable market where possible, but where this is not feasible, a review of judgement is required in establishing fair values. Any changes in the aforesaid assumptions will affect the fair value of financial instruments.

- ***Expected Credit losses and Impairment losses on investment***

The Group reviews its carrying value of investments carried at amortised cost annually or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

- ***Recognition of deferred tax asset***

The deferred tax assets in respect of brought forward business losses is recognised based on reasonable certainty of the projected profitability, determined on the basis of approved business plans, to the extent that sufficient taxable income will be available to absorb the brought forward business losses.

- ***Provisions and contingencies***

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the amount included in other provisions.

Notes Forming Part of Consolidated Financial Statements

e) Standard issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 01, 2021.

Recent Pronouncements

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

Balance Sheet:

- Lease liabilities should be separately disclosed under the head 'financial liabilities', duly distinguished as current or non-current.
- Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- Specified format for disclosure of shareholding of promoters.
- Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development.
- If a company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

Statement of Profit and Loss:

- Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency. specified under the head 'additional information' in the notes forming part of consolidated financial statements.
- The amendments are extensive and the Group will evaluate the same to give effect to them as required by law.

f) Measurement of fair values

The Group's accounting policies and disclosures require the measurement of fair values for financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments.

When measuring the fair value of a financial asset or a financial liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data.

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Notes Forming Part of Consolidated Financial Statements

g) Operating Cycle

The normal operating cycle in respect of operation relating to under construction real estate project depends on signing of agreement, size of the project, phasing of the project, type of development, project complexities, approvals needed and realisation of project into cash and cash equivalents and range from 3 to 7 years. Accordingly, project related assets and liabilities have been classified into current and non-current based on operating cycle of respective projects. All other assets and liabilities have been classified into current and non-current based on a period of twelve months.

III. Significant Accounting Policies

a. Basis of Consolidation

i) Business combination

- The Group accounts for each business combination (other than common control transactions) by applying the acquisition method. The acquisition date is the date on which control is transferred to the acquirer. Judgment is applied in determining the acquisition date and determining whether control is transferred from one party to another.
- The Group measures goodwill as of the applicable acquisition date at the fair value of the consideration transferred, including the recognised amount of any non-controlling interest in the acquiree, less the net recognised amount (measured at fair value) of the identifiable assets acquired and liabilities (including contingent liabilities in case such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably) assumed. When the fair value of the net identifiable assets acquired and liabilities assumed exceeds the consideration transferred, a bargain purchase gain is recognised as capital reserve.
- Consideration transferred includes the fair values of the assets transferred, liabilities incurred by the Group to the previous owners of the acquiree, and equity interests issued by the Group. Consideration transferred also includes the fair value of any contingent consideration. Consideration transferred does not include amounts related to settlement of pre-existing relationships.
- Transaction costs that the Group incurs in connection with a business combination are expensed as incurred except to the extent related to the issue of debt or equity securities.
- On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.
- Put options issued to non-controlling interests are recognised as a liability and the subsequent changes in the put option are recognised directly in reserves.
- Acquisitions of non-controlling interests are accounted for as transactions with equity holders in their capacity as equity holders. The difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity.
- Common control transactions are accounted for based on pooling of interests method where the assets and liabilities of the acquiree are recorded at their existing carrying values. The identity of reserves of the acquiree is preserved and the difference between consideration and the face value of the share capital of the acquiree is transferred to capital reserve, which is shown separately from other capital reserves.
- The financial information in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the consolidated financial statements irrespective of the actual date of the combination.

ii) Subsidiaries

- Subsidiaries are all entities (including special purpose entities) that are controlled by the Company. Control exists when the Group is exposed to, or has the ability to affect those returns through power over the entity. In assessing control, potential voting rights are considered only if the rights are substantive. The financial

Notes Forming Part of Consolidated Financial Statements

statements of the Company and its subsidiaries have been combined on a line-by-line basis while eliminating the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. The financial statements of subsidiaries are included in these consolidated financial statements from the date that control commences until the date that control ceases. For the purpose of preparing these consolidated financial statements, the accounting policies of subsidiaries have been changed where necessary to align them with the policies adopted by the Group.

- Upon loss of control, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in the consolidated statement of profit and loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost and the differential is recognised in the consolidated statement of profit and loss. Subsequently, it is accounted for as an equity-accounted investee depending on the level of influence retained.

iii) Joint Ventures and associate (equity accounted investees)

The Group's interests in equity accounted investees comprise interests in joint ventures and associate.

An associate is an entity in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control and has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in joint ventures and associate are accounted for using the equity method. They are initially recognised at cost which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of profit or loss and OCI of equity accounted investees until the date on which significant influence or joint control ceases.

When the Group's share of losses in an equity accounted investment equals or exceeds its interest in an entity; the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of other entity.

iv) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in full while preparing these consolidated financial statements. Unrealised gains or losses arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Deferred tax asset or liability is created on any temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

v) Acquisition of non-controlling interest

Acquisition of some or all of the non-controlling interest ("NCI") is accounted for as a transaction with equity holders in their capacity as equity holders. Consequently, the difference arising between the fair value of the purchase consideration paid and the carrying value of the NCI is recorded as an adjustment to retained earnings that is attributable to the Company. The associated cash flows are classified as financing activities. No goodwill is recognised as a result of such transactions

b. Property, plant and equipment and depreciation and amortisation

i) Recognition and Measurement:

Items of property, plant and equipment, other than Freehold Land are measured at cost less accumulated depreciation and impairment losses, if any. Freehold Land is carried at cost and is not depreciated. The cost of an item of property, plant and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.

Notes Forming Part of Consolidated Financial Statements

- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment are derecognised from the consolidated financial statements, either on disposal or when no economic benefits are expected from its use or disposal. The gain or loss arising from disposal of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment recognised in the consolidated statement of profit and loss account in the year of occurrence.

Assets under construction includes the cost of property, plant and equipment that are not ready to use at the balance sheet date. Advances paid to acquire property, plant and equipment before the balance sheet date are disclosed under other non-current assets. Assets under construction are not depreciated as these assets are not yet available for use.

ii) *Subsequent expenditure*

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the cost of the expenditure can be measured reliably.

iii) *Depreciation and amortisation*

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Depreciation on property, plant and equipment, other than Freehold Land of the Group has been provided using the written down value method based on the useful lives specified in Schedule II to the Companies Act, 2013. The useful lives of certain motor vehicles are estimated in the range of 3-8 years and the residual value of certain furniture and fixtures are estimated at 50% of actual cost. These lives are different from those indicated in Schedule II.

Assets costing less than INR 5,000 are depreciated at 100% in the year of acquisition.

Assets acquired on lease and leasehold improvements are amortised over the period of the lease on straight line basis.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

c. **Investment property and depreciation**

i) *Recognition and measurement:*

Investment properties comprises of land and building are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Group measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation.

ii) *Depreciation*

Depreciation on Investment Property is provided using the written down value method based on the useful lives specified in Schedule II to the Companies Act, 2013.

d. **Intangible assets and amortisation**

i) *Subsequent Expenditure*

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the cost of the expenditure can be measured reliably.

Notes Forming Part of Consolidated Financial Statements

ii) *Amortisation*

Intangible assets are amortised over their estimated useful life using straight line method.

Trademark is amortised over a period of 20 years.

Intangible Assets (other than trademark) are amortised over a period of six years.

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

e. **Impairment of non-financial assets**

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists.

If the carrying amount of the assets exceeds the estimated recoverable amount, impairment loss is recognised for such excess amount. The impairment loss is recognised as an expense in the consolidated statement of profit and loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a decrease to the extent a revaluation reserve is available for that asset.

Goodwill on business combinations is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognised in the consolidated statement of profit and loss, to the extent the amount was previously charged to the consolidated statement of profit and loss. In case of revalued assets, such reversal is not recognised.

f. **Foreign currency transactions**

Transactions in foreign currencies are translated to the respective functional currencies of entities within the Group at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognised in the consolidated statement of profit and loss in the period in which they arise.

In case of foreign operations whose functional currency is different from the Company's functional currency, the assets and liabilities of such foreign operations, including goodwill and fair value adjustments arising upon acquisition, are translated to the reporting currency at exchange rates at the reporting date. The income and expenses of such foreign operations are translated to the reporting currency at the average exchange rates prevailing during the year. Resulting foreign currency differences are recognised in other comprehensive income or (loss) and presented within equity as part of foreign currency translation reserve (FCTR). When a foreign operation is disposed off, in part or in full, the relevant amount in the FCTR is transferred to the consolidated statement of profit and loss.

g. **Investment in joint ventures and associate**

Investments in equity shares of joint ventures and associate are recorded at cost and reviewed for impairment at each reporting date. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in joint ventures and associate, the difference between net disposal proceeds and the carrying amounts are recognised in the Consolidated Statement of Profit and Loss.

h. Financial instruments

I. Financial assets

Classification

The Group classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Initial recognition and measurement

Trade receivables and debt securities issued are initially recognised when they originate.

The Group recognises financial assets (other than trade receivables and debt securities) when it becomes a party to the contractual provisions of the instrument. All financial assets are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For the purpose of subsequent measurement, the financial assets are classified in three categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through profit or loss
- Equity investments

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- b) Contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the consolidated statement of profit and loss. The losses arising from impairment are recognised in the consolidated statement of profit and loss.

Debt instruments at Fair Value through Profit or Loss

Debt instruments included within the fair value through profit or loss (FVTPL) category are measured at fair value with all changes recognised in the consolidated statement of profit and loss.

Equity investments

All equity investments other than investment in joint ventures and associate are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group decides to classify the same either as at fair value through other comprehensive income (FVTOCI) or FVTPL. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in other comprehensive income (OCI). There is no recycling of the amounts from OCI to consolidated statement of profit and loss, even on sale of such investments.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the consolidated statement of profit and loss.

Notes Forming Part of Consolidated Financial Statements

Derecognition

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognised when:

- the rights to receive cash flows from the asset have expired, or
- the Group has transferred substantially all the risks and rewards of the asset, or
- the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

The Group applies 'simplified approach' measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits and bank balance.
- b) Trade receivables.

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime expected credit loss at each reporting date, right from its initial recognition.

II. Financial Liabilities

Classification

The Group classifies all financial liabilities as subsequently measured at amortised cost.

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognised in the consolidated statement of profit and loss when the liabilities are derecognised.

Amortised cost is calculated by taking into account any discount or premium on acquisition and transactions costs. The EIR amortisation is included as finance costs in the consolidated statement of profit and loss.

This category generally applies to loans and borrowings.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit and loss.

III Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle them on a net basis or to realise the assets and settle the liabilities simultaneously.

Notes Forming Part of Consolidated Financial Statements

IV Share Capital

Ordinary equity shares

Incremental costs directly attributable to the issue of ordinary equity shares are recognised as a deduction from equity.

Treasury shares

The Company has created an Employee Stock Options Trust (ESOP) for providing share-based payment to its employees. The Company uses ESOP as a vehicle for distributing shares to employees under the employee remuneration schemes.

The ESOP buys shares of the Holding Company from the market, for giving shares to employees. The Company treats ESOP as its extension and shares held by ESOP are treated as treasury shares.

Treasury shares are recognised at cost and deducted from equity. No gain or loss is recognised in the consolidated statement of profit and loss on the purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognised in capital reserve. Share options exercised during the reporting period are deducted from treasury shares.

i. Inventories

Inventories are valued as under:

- a) Finished Goods – At Lower of Cost and Net realisable value.
- b) Construction Work-in-Progress - At Lower of Cost and Net realisable value.

Costs are determined on a weighted average basis.

Construction work-in-progress / Finished Goods includes cost of land, premium for development rights, construction costs, allocated interest and expenses incidental to the projects undertaken by the Group.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. The inventory of construction work-in-progress is not written down below cost if flats /properties are expected to be sold at or above cost.

j. Revenue Recognition

The Group derives revenues primarily from sale of properties comprising of both commercial / residential units and sale of plotted and other lands.

The Group recognises revenue when it determines the satisfaction of performance obligations at a point in time and subsequently over time when the Group has enforceable right for payment for performance completed to date. Revenue is recognised upon transfer of control of promised products to customer in an amount that reflects the consideration which the Group expects to receive in exchange for those products.

In arrangements for sale of units the Group has applied the guidance in IND AS 115, on "Revenue from contract with customer", by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering sale of units as distinct performance obligations. For allocating the transaction price, the Group has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Notes Forming Part of Consolidated Financial Statements

Contract liabilities are recognised when there is billing in excess of revenue and advance received from customers.

The Group enters into Development and Project Management agreements with land-owners. Accounting for income from such projects, measured at fair value, is done on accrual basis as per the terms of the agreement.

The Group receives maintenance amount from the customers and utilises the same towards the maintenance of the respective projects. Revenue is recognised to the extent of standard maintenance expenses incurred by the Group towards maintenance of respective projects. Balance amount of maintenance expenses to be incurred is reflected as liability under the head other current non-financial liabilities.

Interest income

Interest income is accounted on an accrual basis at effective interest rate.

Interest on delayed payment and forfeiture income are accounted based upon underlying agreements with customers.

Dividend income and share of profits/losses in LLP

Dividend income and share of profits / losses in LLP is recognised when the right to receive / liability to pay the same is established.

k. Income Tax

Income tax expense comprises current tax and deferred tax. It is recognised in the consolidated statement of profit and loss except to the extent that it relates to items recognised directly in equity or in OCI.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if, the Group:

- has a legally enforceable right to set off the recognised amounts; and
- Intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent there is convincing evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves. Deferred tax liabilities are recognised for taxable temporary differences.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- The Group has a legally enforceable right to set off current tax assets against current tax liabilities; and

Notes Forming Part of Consolidated Financial Statements

- The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Minimum Alternative Tax (MAT)

MAT credit is recognised as a deferred tax asset only when and to the extent there is a convincing evidence that the Group will pay normal tax during specified period. MAT credit is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

I. Employee benefits

i) Short term employee benefits

Short-term employee benefits are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined contribution plans

Obligations for contributions to defined contribution plans such as Provident Fund and Employee State Insurance Corporations are expensed as the related service is provided.

Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, after discounting the same.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method.

Re-measurement of the net defined benefit liability, which comprise actuarial gains and losses are recognised immediately in other comprehensive income (OCI). Re-measurement, if any, are not reclassified to the consolidated statement of profit and loss in subsequent period. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, based on the market yield on government securities as at the reporting date, used to measure the net defined liability / (asset). Net interest expense and other expenses related to defined benefit plans are recognised in the consolidated statement of profit and loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in the consolidated statement of profit and loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

ii) Other long- term employee benefits

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. They are therefore measured at the present value of expected future payments to be made in respect of services provided by the employees upto the end of the reporting period using the projected unit credit method. The discount rates used are based on the market yields on government securities as at the reporting date. Re- measurement are recognised in the consolidated statement of profit and loss in the period in which they arise.

Other long term includes payable in respect of long term incentive scheme recorded based on arithmetical model estimating the possible cash outflows based on assessment of parameters of the scheme and pro-rated to the completed service period and discounted at present value.

m. Share-based payment transactions

Employees Stock Options Plans ("ESOPs") and Employee Stock Grant Scheme ("ESGS"): The grant date fair value of options granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the

Notes Forming Part of Consolidated Financial Statements

period that the employees become unconditionally entitled to the options. The expense is recorded for each separately vesting portion of the award as if the award was, in substance, multiple awards. The increase in equity recognised in connection with share based payment transaction is presented as a separate component in equity under "Employee stock grant scheme reserve". The amount recognised as an expense is adjusted to reflect the actual number of stock options that vest.

n. Leases

At the inception of a contract, the Group assesses whether a contract is or contains, a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration. To assess whether a contract conveys the right to control the use of an asset the Group assesses whether:

- The contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the
- capability of a physical distinct asset. If the supplier has a substantive substitution right, then the asset is not identified
- The Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- The Group has the right to direct the use of the asset. The Group has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used.

As a lessee

Right-of-Use Asset

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. At the commencement date, a lessee shall measure the right-of-use asset at cost which comprises initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received, any initial direct costs incurred by the lessee; and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Lease Liability

At the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee's incremental borrowing rate.

Short-term lease and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of less than 12 months or less and leases of low-value assets, including IT Equipment. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The election for short-term leases shall be made by class of underlying asset to which the right of use relates. A class of underlying asset is a grouping of underlying assets of a similar nature and use in Group's operations. The election for leases for which the underlying asset is of low value can be made on a lease-by-lease basis.

o. Borrowing costs

Borrowing costs are interest and other costs that the Group incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing.

Notes Forming Part of Consolidated Financial Statements

Borrowing costs, pertaining to development of long term projects, are transferred to Construction work in progress, as part of the cost of the projects till the time all the activities necessary to prepare these projects for its intended use or sale are complete.

All other borrowing costs are recognised as an expense in the period in which they are incurred.

p. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management

q. Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares. If potential equity shares converted into equity shares increases the earnings per share, then they are treated as anti-dilutive and anti-dilutive earning per share is computed.

r. Provisions and contingent liabilities

A provision is recognised when the Group has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are discounted to their present value at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. The unwinding of the discount is recognised as finance cost

Contingent liabilities are disclosed in the notes. Contingent liabilities are disclosed for:

- i) possible obligations which will be confirmed only by future events not wholly within the control of the Group; or
- ii) present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised in the consolidated financial statements. However, the same are disclosed in the consolidated financial statements where an inflow of economic benefit is probable.

s. Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted with the consolidated financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

t. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

- (a) The Group's investment property under construction consists of some commercial and retail properties in India.
- (b) Based on the intention and business plans, some commercial and retail properties owned by the Company is considered as being held for capital appreciation and rental income rather than for business purposes. Hence, the Company has reclassified the same from inventories to investment property under construction during the current year ended March 31, 2021.
- (c) The Company has no restriction on the realisability of its investment property under construction.
- (d) Though the Company measures investment property under construction using cost based measurement, the fair value of investment property under construction is based on valuation performed by an accredited independent valuer. The main inputs used are location and locality, facilities and amenities, quality of construction, residual life of building, business potential, supply and demand, local nearby enquiry, market feedback of investigation and Ready Reckoner published by the Government.
- (e) Fair valuation of investment property under construction is based on Sales Comparison method which is INR 8.73 Crore (Previous Year: INR 21.78 Crore). Fair valuation of a investment property under construction which is at initial design concept stage is based on Cost method which is INR 3.23 Crore (Previous Year: INR Nil). The fair value measurement is categorised in level 3 fair value hierarchy.
- (f) During the year, INR 12.62 Crore (Previous Year: INR 8.83 Crore) amount of interest cost has been capitalised to capital work-in-progress.

- The Company's investment property consists of some commercial and retail properties in India.
- Based on the intention and business plans, some commercial and retail properties owned by the Group is considered as being held for capital appreciation and rental income rather than for business purposes. Hence, the Group had reclassified the same from inventories to investment property during the previous year.
- The Group has no restriction on the realisability of its investment property and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.
- Though the Group measures investment property using cost based measurement, the fair value of investment property is based on valuation performed by an accredited independent valuer. The main inputs used are location and locality, facilities and amenities, quality of construction, residual life of building, business potential, supply and demand, local nearby enquiry, market feedback of investigation and Ready Reckoner published by the Government.
- Fair valuation of Retail Properties is based on Sales Comparison Method which is INR 27.85 Crore (Previous Year: INR 11.40 Crore) and Commercial Properties is based on Sales Comparison Method, which is INR 9.56 Crore (Previous Year: INR 9.38 Crore based on Rent Capitalization Method). The fair value measurement is categorised in level 3 fair value hierarchy.

e) The Group has recognised deferred tax asset to the extent that the same will be recoverable using the estimated future taxable income based on the approved business plans and budgets of the Group. The Group is expected to generate taxable income in upcoming years. The business losses can be carried forward for a period of 8 years as per the tax regulations and the Group expects to recover the losses.

f) Unrecognised deferred tax liabilities

As at March 31, 2021, undistributed earnings of subsidiaries and joint ventures amounted to INR 140.06 Crore (Previous Year: INR 194.25 Crore). The corresponding deferred tax liability is not recognised because the Company controls the dividend policy of its subsidiaries and is able to veto the payment of dividends of its joint ventures - i.e. the Company controls the timing of reversal of the related taxable temporary differences and management is satisfied that they will not reverse in the foreseeable future.

g) Unrecognised deferred tax assets

(i) Deferred tax assets amounting to INR 1.61 Crore (Previous Year: 1.03 Crore) have not been recognised in respect of tax losses amounting to INR 6.46 Crore (Previous Year: 3.48 Crore) because it is not probable that future taxable profit will be available against which the Group can use the benefits therefrom.

The tax losses expire in 2025-28.

(ii) Deferred tax assets amounting to INR 4.69 Crore (Previous Year : INR 15.26 Crore) have not been recognised in respect of expected credit loss on investments due to uncertainty as at the current date with respect to future realisation.

h) Section 115BAA of the Income Tax Act, 1961, provides an option to companies for paying income tax at reduced rates in accordance with the provisions/conditions defined in the said section and accordingly, during the current year the holding Company and its certain wholly owned subsidiaries have adopted the new tax rate. Rest all other subsidiaries, joint ventures and associates had already adopted the new rate in previous year.

i) As per the Group's assessment, there were no material income tax uncertainties over income tax treatments during the previous financial year.

INR 0.00 represents amount less than INR 50,000

(v) Sensitivity analysis

A quantitative sensitivity analysis on Defined Benefit Obligation for significant assumptions as at March 31, 2021 is shown below:

Particulars	March 31, 2021		March 31, 2020 (Restated)	
	Increase	Decrease	Increase	Decrease
Discount Rate (1% movement)	(0.83)	0.92	(0.68)	0.75
Salary escalation rate (1% movement)	0.88	(0.81)	0.73	(0.67)
Attrition Rate (1% movement)	(0.24)	0.26	(0.14)	0.14

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior year.

(vi) The expected future cash flows in respect of gratuity as at March 31, 2021 were as follows:

Maturity Analysis of Projected Benefit Obligation: From the Employer

b) Measurement of Fair Value

- (i) The fair values of investments in mutual fund units is based on the net asset value ('NAV') as stated by the issuers of these mutual fund units in the published statements as at Balance Sheet date. NAV represents the price at which the issuer will issue further units of mutual fund and the price at which issuers will redeem such units from the investors.
- (ii) The Group uses the Discounted Cash Flow valuation technique (in relation to financial assets measured at amortised cost and fair value through profit or loss) which involves determination of present value of expected receipt/ payment discounted using appropriate discounting rates. The fair value so determined for financial asset measured at fair value through profit and loss are classified as Level 2.

INR 0.00 represents amount less than INR 50,000

Notes Forming Part of Consolidated Financial Statements

(Currency in INR Crore)

39 Financial instruments – Fair values and risk management

- (iii) The Group uses the discounted cash flow valuation technique (in relation to financial liabilities measured at amortised cost) which involves determination of the present value of expected payments, discounted using bank rate. The fair value of non-convertible debentures is valued using FIMMDA guidelines.
- (iv) For financial assets that are measured at fair value under Level 3, the carrying amounts are equal to the fair values.
- (v) Lease liabilities are valued using Level 3 techniques. A change in one or more of the inputs to reasonably possible alternative assumptions would not change the value significantly.
- (vi) The sensitivity analysis below for lease liabilities have been determined based on reasonably possible changes of the discounting rate occurring at the end of the reporting period, while holding all other assumptions constant. If the discounting rate is 50 basis points higher/(lower), would decrease by INR 0.01 crore (Increase by INR 0.01 crore).

c) Risk Management Framework

The Company's Board of Directors have overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors have established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the Board of Directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

d) Financial risk management

The Group has exposure to the following risks arising from financial instruments:

- (i) Credit Risk
- (ii) Liquidity Risk
- (iii) Market Risk.

(i) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers, investments in debt securities, loans given to related parties and project deposits.

The carrying amount of financial assets represents the maximum credit exposure.

Trade Receivables

Customer credit risk is managed by requiring customers to pay advances through progress billings before transfer of ownership and also establishes specific payment period for its customers, therefore substantially eliminating the Group's credit risk in this respect.

39 Financial instruments – Fair values and risk management

The Group's credit risk with regard to trade receivable has a high degree of risk diversification, due to the large number of projects of varying sizes and types with numerous different customer categories in a large number of geographical markets.

As per simplified approach, the Group makes provision of expected credit losses on trade receivables to mitigate the risk of default payments and makes appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk.

The ageing of trade receivables are as follows :

(ii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Management monitors rolling forecasts of the Group's liquidity position on the basis of expected cash flows. This monitoring includes financial ratios and takes into account the accessibility of cash and cash equivalents.

The Group has access to funds from capital and debt markets through loan from banks, commercial papers and other debt & equity instruments. The Group invests its surplus funds in bank fixed deposits and debt based mutual funds.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date:

39 Financial instruments – Fair values and risk management

(iii) Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rate and interest rates will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

a) Currency Risk

Currency risk is not material, as the Group's primary business activities are within India and does not have significant exposure in foreign currency.

b) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The management is responsible for the monitoring of the Group's interest rate position. Various variables are considered by the Group's management in structuring the Group's borrowings to achieve a reasonable, competitive, cost of funding.

Exposure to interest rate risk

The interest rate profile of the Group's interest-bearing financial instruments as reported to the management is as follows:

Particulars	March 31, 2021	March 31, 2020 (Restated)
Financial liabilities		
Variable rate instruments	371.15	259.32
Fixed rate instruments	4,138.33	3,441.99
	4,509.48	3,701.31
Financial assets		
Variable rate instruments	-	-
Fixed rate instruments	4,538.98	2,766.93
	4,538.98	2,766.93

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rate would have resulted in variation in the interest expense for the Group by the amounts indicated in the table below. Given that the Group capitalises interest to the cost of inventory to the extent permissible, the amounts indicated below may have an impact on reported profits over the life cycle of projects to which such interest is capitalised. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The year end balances are not necessarily representative of the average debt outstanding during the year.

The Group does not have any additional impact on equity other than the impact on retained earnings.

40 Capital Management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

The Board of Directors seek to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages by a sound capital position.

The Group monitors capital using a ratio of 'Net Debt to Equity'. For this purpose, net debt is defined as total borrowings (including interest accrued) less cash and bank balances and other current investments.

The Group's net debt to equity ratio is as follows:

Particulars	March 31, 2021	March 31, 2020 (Restated)
Net debt	(582.39)	1,158.51
Total equity	8,319.49	4,807.79

(c) Performance obligation

The Group engaged primarily in the business of real estate construction, development and other related activities.

All the Contracts entered with the customers consists of a single performance obligation thereby the consideration allocated to the performance obligation is based on standalone selling prices.

Revenue is recognised upon transfer of control of residential and commercial units to customers for an amount that reflects the consideration which the Group expects to receive in exchange for those units. The trigger for revenue recognition is normally completion of the project or receipt of approvals on completion from relevant authorities or intimation to the

45 IND AS 115 - Revenue from Contracts with Customers

customer of completion, post which the contract becomes non-cancellable by the parties.

The revenue is measured at the transaction price agreed under the contract. In certain cases, the Group has contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group adjusts the transaction price for the effects of a significant financing component.

Any costs incurred that do not contribute to satisfying performance obligations are excluded from the Group's input methods of revenue recognition as the amounts are not reflective of our transferring control of the system to the customer. Significant judgment is required to evaluate assumptions related to the amount of net contract revenues, including the impact of any performance incentives, liquidated damages, and other forms of variable consideration.

If estimated incremental costs on any contract, are greater than the net contract revenues, the Group recognises the entire estimated loss in the period the loss becomes known.

The aggregate amount of the transaction price allocated to the performance obligations that are unsatisfied (or partially unsatisfied) as at March 31, 2021 is INR 1857.42 Crore (Previous Year : INR 702.45 Crore) out of which INR 1,439.81 Crore (Previous Year: INR 233.03 Crore), which will be recognised as revenue over a period of 1-2 years and INR 417.61 Crore (Previous Year: INR 469.42 Crore) which will be recognised over a period of 2-4 years.

56 The Group and its joint ventures and associate has assessed the possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts of Receivables, Inventories, Investments and other assets / liabilities. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Group and its joint ventures and associate, as at the date of approval of these consolidated financial statements has used internal and external sources of information. As on current date, the Group and its joint ventures and associate has concluded that the impact of COVID – 19 is not material based on these estimates. Due to the nature of the pandemic, the Group and its joint ventures and associate will continue to monitor developments to identify significant uncertainties in future periods, if any.

57 The Indian Parliament has approved the Code on Social Security, 2020 which would impact the contributions by the company towards Provident Fund and Gratuity. The Ministry of Labour and Employment has released draft rules for the Code on Social Security, 2020 on November 13, 2020, and has invited suggestions from stakeholders which are under active consideration by the Ministry. The Group will assess the impact and its evaluation once the subject rules are notified and will give appropriate impact in its financial statements in the period in which, the Code becomes effective and the related rules to determine the financial impact are published.

58 As per the approvals secured by the Company under relevant provisions of DCR Regulations, 1991 / DCPR 2034, the Holding Company had obligation to handover 35,618.85 sqmt of land to The Municipal Corporation of Greater Mumbai (MCGM). The Holding Company is entitled to receive the Transferable Development Rights (TDR) of 71,237.70 sqm, in lieu of land earmarked and handover to MCGM.

The handover of the physical possession of the earmarked land has been completed during the month of February 2021. Based upon receipt of Possession Receipts of Land handed over obtained from MCGM, the Group has recognised the entitlement of TDR as revenue and reflected under Revenue from operations (Refer Note 29) based upon valuation report obtained from registered valuer at INR 195.20 Crore. This TDR forms part of the inventory and is reflected as such (Refer Note 13).

Notice

Notice is hereby given that the Thirty-Sixth Annual General Meeting ("AGM") of the members ("Members") of Godrej Properties Limited ("Company") will be held through Video Conferencing ("VC") or Other Audio Visual Means ("OAVM"), on Tuesday, August 3, 2021, at 2.30 p.m., to transact the following business:

ORDINARY BUSINESS:

1. To consider and adopt the audited standalone financial statements and the audited consolidated financial statements of the Company for the financial year ended March 31, 2021 together with the report of the Board of Directors and report of the Auditors thereon and other reports.
2. To appoint a Director in place of Mr. Nadir B. Godrej (DIN: 00066195), who retires by rotation and being eligible, offers himself for re-appointment.

SPECIAL BUSINESS:

3. To consider and, if thought fit, to pass the following resolution as a Special Resolution:

"RESOLVED THAT pursuant to the provisions of Sections 196, 197, 198 and 203 read with Schedule V thereto and the Rules made thereunder and other applicable provisions, if any, of the Companies Act, 2013 ("the Act") and Regulation 17(6) and other applicable provisions of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 including any amendment(s), statutory modification(s) or re-enactment(s) thereof for the time being in force and pursuant to the provisions of the Articles of Association of the Company and pursuant to the recommendations of the Nomination & Remuneration Committee and such other approvals, permissions and sanctions as may be required, consent of the Members of the Company be and is hereby accorded for re-appointment of Mr. Pirojsha Godrej (DIN: 00432983) as the Whole time Director designated as Executive Chairman of the Company for a further period of three years commencing from April 01, 2021 to March 31, 2024 on the remuneration and the terms and conditions as under:

I. Fixed Compensation:

Fixed Compensation shall include basic salary, Company's contribution to Provident Fund and Gratuity Fund.

Contribution to Provident Fund, Superannuation Fund, National Pension Scheme, Gratuity as per rules of the Fund/ Scheme in force from time to time would not be included in the computation of ceiling on remuneration

to the extent these either singly or put together are not taxable under the Income-tax Act, 1961.

The basic salary is ₹ 9,62,885 per month. The revisions in annual basic salary and increments in remuneration will be recommended by the Nomination & Remuneration Committee and will be decided by the Board of Directors depending on the performance of Mr. Pirojsha Godrej as Executive Chairman, the profitability of the Company and other relevant factors.

II. Performance Linked Variable Remuneration (PLVR):

PLVR shall be according to the applicable scheme of the Company for each of the financial year as relevant to the period of appointment or as may be recommended by the Nomination & Remuneration Committee and decided by the Board of Directors.

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

ITEM NOs 3 & 4

Mr. Pirojsha Godrej and Mr. Mohit Malhotra were appointed as Managing Director & Chief Executive Officer and Executive Director respectively of the Company for a period of three years commencing from April 01, 2015 by the Members at the Annual General Meeting held on August 4, 2015. Subsequently, the members, at the Annual General Meeting held on August 2, 2017 had ratified the change in their designation to Executive Chairman and Managing Director & Chief Executive Officer respectively with effect from April 1, 2017 till March 31, 2018 and the term of their appointment was further extended/modified to March 31, 2021 as approved by the members at the Annual General Meeting held on August 02, 2018 and through postal ballot the results of which were declared on December 12, 2020.

The Board at its meetings held on February 4, 2021, subject to the approval of members, had approved the re-appointment of and remuneration payable to Mr. Pirojsha Godrej and Mr. Mohit Malhotra as Whole Time Director designated as Executive Chairman and Managing Director & Chief Executive Officer respectively of the Company for a period of three years with effect from April 1, 2021.

Further, Regulation 17(6)(e) also requires approval of the shareholders by special resolution if the annual remuneration payable to the executive director who is promoter or member of the promoter group exceeds ₹ 5 crore or 2.5 per cent of the net profits of the listed entity, whichever is higher. Mr. Pirojsha Godrej is a member of the promoter group.

In view of the above, it is proposed to obtain approval of the Members by way of Special Resolutions as mentioned at Item nos. 3 and 4 of the Notice for re-appointment of Mr. Pirojsha Godrej as Whole Time Director designated as Executive Chairman and Mr. Mohit Malhotra as Managing Director &

Notice

Chief Executive Officer for a further period of 3 years from April 01, 2021 to March 31, 2024 and the remuneration payable to them. The Company shall ensure that the position of Chairperson is in compliance with the applicable provisions of the Listing Regulations with effect from April 1, 2022 or such other timeline as specified by SEBI.

The Nomination & Remuneration Committee and Board of Directors of the Company at their Meetings held on February 4, 2021 and May 03, 2021 respectively have inter alia recommended above Resolutions for approval of the Members by means of Special Resolutions.

The details of Mr. Pirojsha Godrej and Mr. Mohit Malhotra as required to be given pursuant to the Listing Regulations and Secretarial Standards, are attached to the Notice.

Accordingly, the Board of Directors of your Company recommends the passing of the resolutions contained in Item Nos. 3 and 4 of the accompanying Notice as Special Resolutions.

Nature of concern or interest of Directors:

Mr. Pirojsha Godrej and his relatives including Mr. Nadir Godrej and Mr. Jamshyd Godrej, being directors of the Company, and Mr. Mohit Malhotra and his relatives may be deemed to be concerned or interested, financially or otherwise, in the resolutions at Item Nos. 3 and 4 respectively. None of the other Directors, Key Managerial Personnel of the Company or their relatives are, in any way, concerned or interested, financially or otherwise, in the said Special Resolutions.

ITEM NO. 5

The members of the Company have on December 11, 2020 by postal ballot approved payment of remuneration in excess of the maximum permissible limits under the Companies Act, 2013 to Mr. Mohit Malhotra, Managing Director & Chief Executive Officer for FY 2020-21, in case the Company has inadequate profits during FY 2020-21, however the overall remuneration for FY 2020-21 was capped at ₹ 15 crore. Pursuant to the said approval, Mr. Mohit Malhotra has received ₹ 7.18 crore as remuneration for FY 2020-21.

The Nomination & Remuneration Committee at its Meeting held on November 03, 2017, had approved the Long Term Incentive Plan which triggers incentive payouts to senior employees, including to Mr. Mohit Malhotra, upon achieving the thresholds as specified in the said plan. The first installment of the incentive payout as per the plan shall be in FY 2022-23 and the second installment shall be in FY 2023-24.

The management has achieved most of the thresholds as specified in the said plan in FY 2020-21 and accordingly an incentive provision of up to an additional amount of ₹ 40 crore towards long term incentive is made in the managerial remuneration of Mr. Mohit Malhotra for FY 2020-21, in accordance with the applicable accounting standards, although actual payment to Mr. Mohit Malhotra will be made in FY 2022-23 (first instalment) and FY 2023-24 (second instalment) subject to fulfillment of thresholds to be achieved in FY 2021-22 and FY 2022-23.

As per the Long term incentive plan, the above payment depends on fulfilment of certain conditions during the plan period from FY 2018 to FY 2022, as also on achieving certain thresholds in FY 2022 and FY 2023. During the year, the Company has attained the parameters for the plan period of FY 2018 to FY 2021, however, the incentive payment is dependent on the thresholds to be attained in FY 2022 and FY 2023 and in case these are not achieved the payment will not be made. Nevertheless, based on assessment of thresholds achieved and expected performance in the forthcoming years, an additional provision of ₹ 40 crore is made in the financial statements of FY 2021, which is considered as the managerial remuneration for the FY 2021. The actual payment will be made in two tranches in FY 2022-23 and FY 2023-24 subject to fulfillment of thresholds to be achieved in FY 2021-22 and FY 2022-23.

As a result, the long term incentive of up to ₹40 crore will be computed, as an additional managerial remuneration of Mr. Mohit Malhotra for the FY 2020-21. Accordingly, he will be considered to have been paid excess remuneration to the tune of ₹40 crore during FY 2020-21.

Since the approval granted by members on December 11, 2020 is capped at ₹ 15 crore, it is necessary to obtain approval of the Members by way of Special Resolution as mentioned at Item no. 5 of the Notice for the waiver of excess remuneration in the form of long term incentive payable to Mr. Mohit Malhotra for FY 2020-21 which shall be paid to him in financial years 2022-23 and 2023-24.

The Nomination & Remuneration Committee and Board of Directors of the Company at their Meetings held on May 02, 2021 and May 03, 2021 respectively have inter alia recommended for approval of the Members by means of Special Resolution, the waiver of recovery of excess remuneration by way of Long Term Incentive of up to an additional amount of ₹ 40 crore to Mr. Mohit Malhotra during financial year 2020-21, in addition to the limit approved by the Shareholders on December 11, 2020.

Notice

All the elements of the managerial remuneration have been disclosed in the Corporate Governance Report forming part of the Annual Report.

Accordingly, the Board of Directors of your Company recommends the passing of the resolution contained in Item No. 5 of the accompanying Notice as Special Resolution.

It is further stated and clarified that since the actual payment of Long Term Incentive up to an additional amount of ₹ 40 crore will be made in the financial years 2022-23 and 2023-24, even in the event of absence or inadequacy of profits in any of those financial years, the approval sought from the members through the resolution at Item No. 5 will be sufficient for such payments and the Board will not be required to seek any further consent or approval of the Members to this end and intent that they shall be deemed to have given approval thereto expressly by the authority of this resolution.

Nature of concern or interest of Directors:

Mr. Mohit Malhotra and/or his relatives may be deemed to be concerned or interested, financially or otherwise, in the resolution at Item No. 5. None of the other Directors, Key Managerial Personnel of the Company or their relatives are, in any way, concerned or interested, financially or otherwise, in the said Special Resolution.

of the best companies in India. Prior to joining Godrej, he was associated with Unilever, A.T. Kearney, Unitech and Redevco in various strategic roles. He has played several leadership roles across various functions at Godrej Properties. Mr. Malhotra was responsible for business development for the Company.

In view of the qualifications and the rich experience, the Board of Directors have bestowed the responsibility to Mr. Mohit Malhotra.

v. Remuneration proposed:

It is proposed to waive the recovery of the excess remuneration in the form of long term incentive to Mr. Mohit Malhotra up to ₹ 40 crore for FY 2020-21. The actual amount of long term incentive will be paid to Mr. Mohit Malhotra in two tranches in FY 2022-23 and FY 2023-24, subject to fulfillment of thresholds to be achieved in FY 2021-22 and FY 2022-23.

vi. Comparative remuneration profile with respect to industry, size of the Company, profile of the position and person (in case of expatriates the relevant details would be with respect to the country of his origin):

Taking into consideration the size of the Company, the profile, knowledge, skills and responsibilities shouldered by Mr. Mohit Malhotra, the remuneration paid is commensurate with the remuneration packages paid to their similar counterparts in other companies.

vii. Pecuniary relationship directly or indirectly with the company, or relationship with the managerial personnel or other director, if any:

Besides the remuneration paid/payable as stated above, Mr. Mohit Malhotra holds 38,126 equity shares of the Company and does not have any other pecuniary relationship with the Company or with any other managerial personnel.

Other information:

a. Reasons for loss or inadequacy of profit:

The global economies were facing a synchronized slowdown due to the outbreak

of coronavirus 2019 (COVID-19) which had globally disrupted people's lives, interrupted businesses and jeopardized decades of development progress. This also has had a significant impact on the entire Indian real-estate sector. The operations of the Company had also suffered during the lockdown phase since most of the construction sites were completely closed. Although the operations have picked up, the Company had a weak year in terms of reported earnings for FY 2020-21.

Besides, as per applicable accounting framework for real estate sector, revenue and profit shall be recognized according to project completion method. The profit of the Company will be largely dependent on the completion of project / phase rather on sale of units in the current financial year.

In view of the above factors, including prevailing market conditions, it is possible that the Company may not have sufficient operating profits for the purposes of payment of remuneration to the directors in case of inadequacy of profits or no profits.

b. Steps taken or proposed to be taken for improvement and expected increase in productivity and profits in measurable terms:

While the industry at large may be adversely impacted by this pandemic and the resultant slowdown during the recovery phase, the Company's healthy balance sheet and project pipeline will help maintain operational momentum in the quarters ahead. The Company will do everything possible to ensure that it comes out of this crisis stronger and well positioned to continue to grow its market share and set itself up for significant earnings growth in the years ahead. The Company remains positive about the long-term direction of the sector on back of higher consumer confidence and increasing affordability due to declining interest rates and stagnant real estate prices.

ITEM NO. 6

The Members of the Company had by way of Postal Ballot, the results of which were announced on March 18, 2011, approved a total of 3,00,000 stock grants convertible into 3,00,000 equity shares of the face value of ₹10 each to be granted to the Eligible Employees of the Company under the Godrej Properties Limited Employee Stock Grant Scheme 2011 (**GPL ESGS**).

The Nomination & Remuneration Committee at their Meeting held on May 9, 2013 had noted that upon the sub-division becoming effective, the option holders shall upon exercise of their right be allotted two equity shares of ₹ 5 each of the Company for every option currently held by them, whether vested or otherwise. Accordingly, 3,00,000 stock grants convertible into 3,00,000 equity shares of the face value of ₹10 each, as approved by the Members of the Company on March 18, 2011, have been adjusted as 6,00,000 stock grants convertible into 6,00,000 equity shares of the face value of ₹5 each.

Further, the Members of the Company had by way of Postal Ballot, the results of which were announced on April 6, 2015, approved a total of 9,00,000 stock grants convertible into 9,00,000 equity shares of the face value of ₹5 each to be granted to the Eligible Employees of the Company under the **GPL ESGS**. As a result, a total of 15,00,000 Stock Grants convertible into 15,00,000 equity shares of face value of ₹5 each of the Company, was made available for being granted to the Eligible Employees

Out of the total of 15,00,000 options, the Nomination & Remuneration Committee had already granted 10,96,503 options to the Eligible Employees under GPL ESGS, leaving 4,03,497 options available for making grants. These 4,03,497 options may be insufficient for future grants.

The Nomination & Remuneration Committee therefore felt the need to increase the quantum of stock options that would be available for making grants under GPL ESGS from 15,00,000 stock grants to 20,00,000 stock grants convertible

into 20,00,000 equity shares of the face value of ₹5 each of the Company. The Board therefore, at its meeting held on May 03, 2021, upon the recommendation of the Nomination & Remuneration Committee and subject to the approval of the Members, decided to make the aforesaid amendment in Clause V (i) of the GPL ESGS and make consequent changes in the GPL ESGS wherever there is reference to 15,00,000 options/shares in GPL ESGS.

The Board of Directors of your Company recommends the passing of the resolution as set out at Item No. 6 as a Special Resolution.

Nature of concern or interest of Directors:

Except Mr. Mohit Malhotra – Managing Director & Chief Executive Officer, Mr. Rajendra Khetawat – Chief Financial Officer and Mr. Surender Varma – Company Secretary and Chief Legal Officer of the Company, who have been granted stock options under GPL ESGS, none of the other Directors and/or the KMPs and/or their relatives are concerned or interested in the resolution.

ITEM NO. 7

The Board, on the recommendation of the Audit Committee, has approved the appointment and remuneration of M/s. R. Nanabhoy & Co., Cost Accountants, as Cost Auditors to conduct the audit of the cost records of the Company for the financial year 2021-2022. In accordance with the provisions of Section 148 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors has to be ratified by the Members of the Company.

Accordingly, the Board of Directors recommended the Ordinary Resolution as set out at item No. 7 of the Notice relating to ratification of the remuneration payable to the Cost Auditors for the financial year 2021-2022, for approval of the Members.

Nature of concern or interest of Directors:

None of the directors and/or key managerial personnel of your Company and their relatives are concerned or interested, financially or otherwise, in the above Resolution.
