Sub: Financial results for the third quarter (Q3) ended December 31, 2019

Dear Sir / Madam,

In compliance with Regulations 30 and 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are enclosing herewith the following for the third quarter (Q3) ended December 31, 2019:

- Audited consolidated financial results as per Ind AS
- Audited standalone financial results as per Ind AS
- Auditor's reports

The above financial results have been reviewed by the Audit Committee in its meeting held on Tuesday, February 04, 2020 and based on its recommendation, approved by the Board of Directors at its meeting held on Tuesday, February 04, 2020. The Board meeting commenced at 01:30 P.M. and is still in progress.

Kindly take the same on record.

Thanking you,

Sincerely yours,

For Bharti Airtel Limited

Rohit Krishan Puri
Dy. Company Secretary & Compliance Officer

* Includes accounting policy alignment

^ Includes share of results / net assets of joint ventures and associates

Segment assets / segment liabilities as at December 31 / September 30, 2019 includes right-of-use assets / lease liabilities

@ During the nine months ended December 31, 2019, the Group transferred its operations pertaining to optical fibre on a going concern basis on August 1, 2019 from Company to its wholly owned subsidiary. As a result, the Group reorganised the business, whereby, the assets and liabilities pertaining to bandwidth capacities have been allocated to Mobile Services India, Airtel Business and Homes Services. Previously, these operations were part of Mobile Services India and bandwidth capacities were billed by Mobile Services India to Airtel Business and Homes Services. Without such reorganisation, for the three months ended December 31, 2019 and as of that date, segment revenue, segment results, segment assets and segment liabilities for Mobile Services India would have been Rs. 115,363 Mn, Rs. (8,770) Mn, Rs. 2,070,724 Mn and Rs. 1,108,498 Mn respectively; segment results, segment assets and segment liabilities for Airtel Business would have been Rs. 7,964 Mn, Rs. 153,107 Mn and Rs. 99,892 Mn respectively; and for Homes Services would have been Rs. 1,325 Mn, Rs. 50,591 Mn and Rs. 14,246 Mn respectively. Without such reorganisation, for the nine months ended, segment revenue and segment results for Mobile Services India would have been Rs. 333,844 Mn and Rs. (32,161) Mn respectively; segment results for Airtel Business and Homes Services would have been Rs. 21,903 Mn and Rs. 3,645 Mn respectively.

(This space has been intentionally left blank)

Notes to the Audited Consolidated Financial Results

1. The financial results for the quarter and nine months ended December 31, 2019 have been reviewed by the Audit Committee and approved by the Board of Directors in their respective meetings held on February 4, 2020.
2. The financial results are extracted from the Audited Interim Condensed Consolidated Financial Statements, which are prepared in accordance with Indian Accounting Standard ('Ind AS') 34, 'Interim Financial Reporting' as prescribed under section 133 of the Companies Act, 2013 read with relevant rules issued thereunder. The said financial results represent results of the Group, and its share in the results of joint ventures and associates.
3. In the previous quarter, arising from a judgement of the Hon'ble Supreme Court of India on October 24, 2019 ('Court Judgement'), in the absence of any potential reliefs from the Government, the Group had recorded as a liability/provision an aggregate of Rs. 342,600 Mn as at September 30, 2019 (of which Rs. 284,500 Mn was recorded in previous quarter as exceptional item). The Court Judgement was in relation to a long outstanding industry-wide case upholding the view considered by Department of Telecommunications ('DoT') in respect of the definition of Adjusted Gross Revenue ('AGR'). The Hon'ble Supreme Court in a Supplementary Order of the same date directed the affected parties to pay amounts due to DoT within a period of three months, which ended on January 23, 2020. These judgements/orders have significant financial implications on the Group. A Review Petition filed by the Group and other telecom operators against the above Court Judgement was rejected in January 2020. Thereafter, the telecom operators have filed an application for modification of the Supplementary Order before the Hon'ble Supreme Court of India, which is pending disposal:

During the quarter ended December 31, 2019, the Group has continued to recognise, in the same manner, its obligations under the judgements/ orders. Accordingly, during the quarter, the Group has further recorded interest of Rs. 10,481 Mn which has been presented as exceptional item (refer Note 5).

Subsequent to the reporting period ended December 31, 2019, the Company has successfully raised Rs. 215,017 Mn of additional long term financing through a combination of Rs. 144,000 Mn in the form of qualified institutional placement of equity shares (approximately 323.60 Mn fully paid up equity shares of face value Rs. 5 each were issued and allotted at a price of Rs. 445 per equity share) and Rs. 71,017 Mn in the form of 1.50% Foreign Currency Convertible Bond offerings (issued at par and repayable in 2025 at 102.66% of their outstanding principal amount). Pursuant to this infusion of long-term financing and available liquidity/facilities with the Group, the management has concluded that the previously reported material uncertainty on the Group's ability to continue as a going concern no longer exists.

4. In respect of Tower Infrastructure Service Segment of the Group:
 - i) On January 29, 2020, Indus Towers Limited, a Joint Venture Company ('JVC') of a subsidiary of the Company, Bharti Infratel Limited (both in the Tower Infrastructure Service Segment) in its interim financial statements for the three months and nine months ended December 31, 2019 reported that the JVC's two major customers in the telecom services industry impacted by the Court Judgment (refer note 3) contributed substantial and material portion of the net sales which resulted in significant and material part of the trade receivables due from these two customers. Further, that the loss of a significant customer/s or the failure to attract new customers could have a material adverse effect on the business, results of operations and financial condition of the JVC. The auditors of the JVC have brought out this material uncertainty in their auditor's report.
 - ii) On January 30, 2020, Bharti Infratel Limited, indicated that Bharti Airtel Limited is a major customer of both the entities and one of the two major customers referred to above whose management has concluded that the previously reported material uncertainty on the Company's/Group's ability to continue as a going concern no longer exists (Note 3). The loss of a significant customer/s or the failure to attract new business in both these entities could have an adverse effect on their business and results of operations. The Management of Bharti Infratel Limited and the Group have respectively also currently concluded that there is no impairment with respect to property, plant and equipment of Bharti Infratel Limited and the carrying value of its investment in the JVC.

(This space has been intentionally left blank)

5. The net exceptional charge of Rs. 10,500 Mn during the quarter ended December 31, 2019 comprises of a charge on account of interest on the provision of license fee and spectrum usage charges recorded in the quarter ended September 30, 2019 of Rs. 10,481 Mn as detailed in Note 3 above pending disposal of the modification application before the Hon'ble Supreme Court; accelerated depreciation on 3G network equipment / operating costs on network re-farming and up-gradation program of Rs. 4,008 Mn; charge on account of rates and taxes, largely paid under protest in earlier years, arising from a detailed management review in light of High Court judgements in multiple states of Rs. 16,974 Mn; deferment of customer acquisition cost following reassessment of customer life for subsidiaries of Airtel Africa plc of Rs. 1,911 Mn; and release of provision on account of full and final settlement of customary indemnities to a clutch of investors of Airtel Africa plc of Rs. 19,052 Mn. Net tax benefit due to the above exceptional items and tax credit arising from deferred tax asset pertaining to one of the subsidiaries, aggregating Rs. 11,270 Mn is included under tax expense/ (credit). As a result, the overall net exceptional gain (after tax) is Rs. 770 Mn. The net benefit allocated to non-controlling interests on the above exceptional items is Rs. 318 Mn.
6. During the quarter ended December 31, 2019, Network i2i Limited (a wholly owned subsidiary of the Company) has issued subordinated perpetual securities of USD 750 Mn (classified as equity instruments) which have been guaranteed by the Company. The interest payments on these securities may be deferred in a cumulative, non-compounding manner, subject to certain restrictions including on distributions and payment of dividend till such cumulative interest remains unpaid.
7. On January 8, 2013, the Department of Telecommunications ('DoT') issued a demand on the Company and one of its subsidiaries for Rs. 52,013 Mn towards levy of one time spectrum charge ('OTSC'), which was further revised on June 27, 2018 to Rs. 84,140 Mn. Based on a petition filed by the Company, the Hon'ble High Court of Bombay, through its order dated January 28, 2013, has directed DoT to respond and not to take any coercive action until the next date of hearing. On July 4, 2019, the Telecom Disputes Settlement and Appellate Tribunal in the similar matter of another unrelated telecom service provider, has passed an order providing partial relief and confirming the basis for the balance. The Group, based on independent legal opinions, till date has not given any effect to the above demand.
8. Certain group entities have elected to exercise the option permitted under section 115BAA of the Income - tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019 dated September 20, 2019. Accordingly, during the nine months ended December 31, 2019, these group entities have recognised provision for income tax and remeasured its deferred tax assets basis the rate prescribed thereby and the related impact is recognised; except for Group's share as to the rate change impact on account of deferred tax created on transition to Ind AS 116, 'Leases' relating to one of its joint venture (which has been utilised from general reserves created out of scheme of merger as approved by the Hon'ble High Court of Delhi vide order dated April 18, 2013 effective from June 11, 2013, as permitted thereunder). This has resulted in a charge of Rs. 4,195 Mn within exceptional items and a charge of Rs. 856 Mn in the equity.

Segment assets / segment liabilities as at December 31 / September 30, 2019 includes right-of-use assets / lease liabilities.

*During the nine months ended December 31, 2019, the Company transferred its operations pertaining to optical fibre on a going concern basis on August 1, 2019 to its wholly owned subsidiary. As a result, the Company reorganised its business whereby, the assets and liabilities pertaining to bandwidth capacities have been allocated to Mobile Services, Airtel Business and Homes Services. Previously, these operations were part of Mobile Services and bandwidth capacities were billed by Mobile Services to Airtel Business and Homes Services. Without such reorganisation, for the three months ended December 31, 2019 and as of that date, segment revenue, segment results, segment assets and segment liabilities for Mobile Services would have been Rs. 110,233 Mn, Rs. (6,731) Mn, Rs. 2,025,114 Mn and Rs. 1,160,095 Mn respectively; segment results, segment assets and segment liabilities for Airtel Business would have been Rs. 6,032 Mn, Rs. 93,410 Mn and Rs. 51,961 Mn respectively; and for Homes Services would have been Rs. 1,047 Mn, Rs. 50,332 Mn and Rs. 15,178 Mn respectively. Without such reorganisation, for the nine months ended, segment revenue and Segment results for Mobile Services would have been Rs. 318,813 Mn and Rs. (26,796) Mn respectively; segment results for Airtel Business and Homes Services would have been Rs. 17,515 Mn and Rs. 3,143 Mn respectively.

(This space has been intentionally left blank)

Notes to the Audited Standalone Financial Results

1. The financial results for the quarter and nine months ended December 31, 2019 have been reviewed by the Audit Committee and approved by the Board of Directors in their respective meetings held on February 4, 2020.
2. The financial results are extracted from the Audited Interim Condensed Standalone Financial Statements, which are prepared in accordance with Indian Accounting Standard ('Ind AS') 34, 'Interim Financial Reporting' as prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued thereunder.
3. In the previous quarter, arising from a judgement of the Hon'ble Supreme Court of India on October 24, 2019 ('Court Judgement'), in the absence of any potential reliefs from the Government, the Company had recorded as a liability/provision an aggregate of Rs. 322,750 Mn as at September 30, 2019 (of which Rs. 267,000 Mn was recorded in previous quarter as exceptional item). The Court Judgement was in relation to a long outstanding industry-wide case upholding the view considered by Department of Telecommunications ('DoT') in respect of the definition of Adjusted Gross Revenue ('AGR'). The Hon'ble Supreme Court in a Supplementary Order of the same date directed the affected parties to pay amounts due to DoT within a period of three months which ended on January 23, 2020. These judgements/orders have significant financial implications on the Company. A Review Petition filed by the Company and other telecom operators against the above Court Judgement was rejected in January 2020. Thereafter, the telecom operators have filed an application for modification of the Supplementary Order before the Hon'ble Supreme Court of India, which is pending disposal.

During the quarter ended December 31, 2019, the Company has continued to recognise, in the same manner, its obligations under the Court Judgements/ Orders. Accordingly, during the quarter, the Company has further recorded interest of Rs. 9,831 Mn which has been presented as exceptional item (refer Note 4).

Subsequent to the reporting period ended December 31, 2019, the Company has successfully raised Rs. 215,017 Mn of additional long term financing through a combination of Rs 144,000 Mn in the form of qualified institutional placement of equity shares (approximately 323.60 Mn fully paid up equity shares of face value Rs. 5 each were issued and allotted at a price of Rs. 445 per equity share) and Rs. 71,017 Mn in the form of 1.50% Foreign Currency Convertible Bond offerings (issued at par and repayable in 2025 at 102.66% of their outstanding principal amount). Pursuant to this infusion of long-term financing and available liquidity/facilities with the Company, the management has concluded that the previously reported material uncertainty on the Company's ability to continue as a going concern no longer exists.

4. The net exceptional charge of Rs. 27,220 Mn during the quarter ended December 31, 2019 comprises of a charge on account of interest on the provision of license fee and spectrum usage charges recorded in the quarter ended September 30, 2019 of Rs. 9,831 Mn as detailed in Note 3 above pending disposal of the modification application before the Hon'ble Supreme Court; accelerated depreciation on 3G network equipment / operating costs on network re-farming and up-gradation program of Rs. 2,652 Mn; and charge on account of rates and taxes, largely paid under protest in earlier years, arising from a detailed management review in light of High Court judgements in multiple states of Rs. 14,737 Mn. Net tax benefit due to the above exceptional items of Rs. 9,512 Mn is included under tax expense/ (credit).
5. During the quarter ended December 31, 2019, Network i2i Limited (a wholly owned subsidiary of the Company) has issued subordinated perpetual securities of USD 750 Mn (classified as equity instruments) which have been guaranteed by the Company. The interest payments on these securities may be deferred in a cumulative, non-compounding manner, subject to certain restrictions including on distributions and payment of dividend till such cumulative interest remains unpaid. A

(This space has been intentionally left blank)

6. On January 8, 2013, the Department of Telecommunications ('DoT') issued a demand on the Company for Rs. 51,353 Mn towards levy of one time spectrum charge ('OTSC'), which was further revised on June 27, 2018 to Rs. 79,403 Mn. Based on a petition filed by the Company, the Hon'ble High Court of Bombay, through its order dated January 28, 2013, has directed DoT to respond and not to take any coercive action until the next date of hearing. On July 4, 2019, the Telecom Disputes Settlement and Appellate Tribunal in the similar matter of another unrelated telecom service provider, has passed an order providing partial relief and confirming the basis for the balance. The Company, based on independent legal opinions, till date has not given any effect to the above demand.

INDEPENDENT AUDITOR'S REPORT ON AUDIT OF INTERIM CONSOLIDATED FINANCIAL RESULTS

TO THE BOARD OF DIRECTORS OF BHARTI AIRTEL LIMITED

Opinion

We have audited the accompanying statement of Consolidated Financial Results of **BHARTI AIRTEL LIMITED** ("the Parent") and its subsidiaries (the Parent and its subsidiaries together referred to as "the Group"), and its share of the net profit after tax and total comprehensive income of its associates and joint ventures for the quarter and nine months ended December 31, 2019 ("the Statement / "the Consolidated Financial Results""), being submitted by the Parent pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("the Listing Regulations").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of the audit reports of the other auditors on separate financial information of joint ventures referred to in Other Matter Section below, the Statement:

- (i) includes the results of the entities as given in Annexure to this report;
- (ii) is presented in accordance with the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended; and
- (iii) gives a true and fair view in conformity with the recognition and measurement principles laid down in the Indian Accounting Standard 34 Interim Financial Reporting ("Ind AS 34"), prescribed under Section 133 of Companies Act, 2013 ("the Act"), read with relevant rules issued thereunder and other accounting principles generally accepted in India of the consolidated loss and consolidated total comprehensive loss and other financial information of the Group, its associates and joint ventures for the quarter and nine months ended December 31, 2019.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Results section of our report. We are independent of the Group, its associates and joint ventures in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Consolidated Financial Results under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matters

- (i) We draw attention to Note 7 of the Statement, which describes the uncertainties related to legal outcome of Department of Telecommunications demand with respect to one time spectrum charges.
- (ii) We draw attention to Note 8 of the Statement, which describes the auditors of Indus Towers Limited ("Indus"), a Joint Venture Company, have included an 'Emphasis of Matter' paragraph in their audit report on the financial statements of that company for the nine month period ended December 31, 2019 with respect to accounting treatment of adjustments of Rs. 2,039 million in carrying value of deferred tax assets, by setting off the same against the reserves created out of scheme of merger pursuant to the scheme of merger as approved by the appropriate judicature. However, this is not in compliance with Ind AS 12, Income taxes. The Group's share out of above adjustment is Rs. 856 million.

Our opinion on the Statement is not modified in respect of these matters.

"Material uncertainty arising out of certain developments and its consequential impact on business operations"- Reported by the auditors of Indus Towers Limited, a joint venture company

As stated in Note 4, the auditors of Indus Towers Limited ("Indus"), a Joint Venture Company, in their audit report on the financial results of that company for the nine months period ended December 31, 2019, have reported under the above heading a matter which describes the effect on business, results of operations, financial position of the Joint venture Company on account of uncertainty regarding continuance of operations of their top customers caused by financial stress post the AGR judgement of Honourable Supreme Court dated October 24, 2019, subsequently upheld on January 16, 2020.

Our opinion on the Statement is not modified in respect of above matter.

Management's Responsibilities for the Consolidated Financial Results

This Statement, which is the responsibility of the Parent's Management and approved by the Parent's Board of Directors, has been compiled from the related audited Interim Consolidated Condensed Financial Statements. The Parent's Board of Directors are responsible for the preparation and presentation of the Consolidated Financial Results that give a true and fair view of the consolidated loss and consolidated other comprehensive loss and other financial information of the Group including its associates and joint ventures in accordance with the recognition and measurement principles laid down in the Ind AS 34 and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations.

The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and its associates and joint ventures and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting

AMH

JK

records, relevant to the preparation and presentation of the respective financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of this Consolidated Financial Results by the Directors of the Parent, as aforesaid.

In preparing the Consolidated Financial Results, the respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for overseeing the financial reporting process of the Group and of its associates and joint ventures.

Auditor's Responsibilities for the Audit of the Consolidated Financial Results

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Consolidated Financial Results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Results or, if such disclosures are inadequate, to modify our opinion. Our conclusions

mm

l

are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and joint ventures to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Financial Results, including the disclosures, and whether the Consolidated Financial Results represent the underlying transactions and events in a manner that achieves fair presentation.
- Perform procedures in accordance with the circular issued by the SEBI under Regulation 33(8) of the Listing Regulations to the extent applicable.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group and its associates and joint ventures to express an opinion on the Consolidated Financial Results. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the Consolidated Financial Results of which we are the independent auditors. For the other entities included in the Consolidated Financial Results, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Results that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Results may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Results.

We communicate with those charged with governance of the Parent and such other entities included in the Consolidated Financial Results of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

m

2

Other Matter

The consolidated financial results also includes the Group's share of profit after tax of Rs. 3,008 Million and Rs. 8,879 Million for the quarter and nine months ended December 31, 2019 respectively and total comprehensive income of Rs. 3,004 Million and Rs. 8,865 Million for the quarter and nine months ended December 31, 2019 respectively, as considered in the Statement, in respect of two joint ventures whose interim financial information have not been audited by us. These interim financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the Statement, in so far as it relates to the amounts and disclosures included in respect of these joint ventures, is based solely on the reports of the other auditors and the procedures performed by us as stated under Auditor's Responsibilities for the Audit of the Consolidated Financial Results section above.

Our opinion on the Statement is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

**INDEPENDENT AUDITOR'S REPORT ON AUDIT OF INTERIM STANDALONE
FINANCIAL RESULTS**

**TO THE BOARD OF DIRECTORS OF
BHARTI AIRTEL LIMITED**

Opinion

We have audited the accompanying Statement of Standalone Financial Results of **BHARTI AIRTEL LIMITED** ("the Company"), for the quarter and nine months ended December 31, 2019 ("the Statement" / "the Standalone Financial Results"), being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("the Listing Regulations").

In our opinion and to the best of our information and according to the explanations given to us, the Statement:

- (i) is presented in accordance with the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended; and
- (ii) gives a true and fair view in conformity with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013 ("the Act") read with relevant rules issued thereunder and other accounting principles generally accepted in India of the net loss and total comprehensive loss and other financial information of the Company for the quarter and nine months ended December 31, 2019.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Results section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Standalone Financial Results under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

We draw attention to Note 6 of the Statement, which describes the uncertainties related to the legal outcome of Department of Telecommunications demand with respect to one-time spectrum charges.

Our opinion on the Statement is not modified in respect of this matter.

nm

J

Management's Responsibilities for the Standalone Financial Results

This Statement, which is the responsibility of the Company's Management and approved by the Board of Directors, has been compiled from the related audited Interim Condensed Standalone Financial Statements. The Company's Board of Directors are responsible for the preparation and presentation of the Standalone Financial Results that give a true and fair view of the net loss and other comprehensive loss and other financial information in accordance with the recognition and measurement principles laid down in Ind AS 34 and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Results that give a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Results, the Board of Directors are responsible for assessing the Company's ability, to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the financial reporting process of the Company.

Auditor's Responsibilities for the Audit of the Standalone Financial Results

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Results as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Standalone Financial Results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the

nm

Q

purpose of expressing an opinion on the effectiveness of the Company's internal financial controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Results, including the disclosures, and whether the Standalone Financial Results represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Results that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Results may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Results.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Bharti Airtel Limited

Consolidated Revenues at Rs 21,947 crore up 8.5% Y-o-Y (10.5% on an underlying basis)

India revenues at Rs 15,797 crore up 7.0% Y-o-Y (9.7% on an underlying basis)

Consolidated EBITDA at Rs 9,350 crore; EBITDA Margin at 42.6%

Net loss (before exceptional items) at Rs 1,080 crore

Net loss (after exceptional items) at Rs 1,035 crore

Consolidated Mobile data traffic on network grew 73% Y-o-Y

Bharti Airtel announces consolidated Ind AS results for the third quarter ended December 31, 2019

Effective April 1, 2019, the Company adopted Ind AS116 “Leases”. The results for the quarter December 31, 2019 includes the impact of Ind AS116 and the same are not comparable with the prior period results.

Highlights for the third quarter ended December 31, 2019 (including impact of Ind AS 116)

- ~ Overall customer base stands at 419 million across 16 countries
- ~ Consolidated total revenues at Rs 21,947 crore, up 8.5% Y-o-Y. (Underlying growth of 10.5% Y-o-Y)
- ~ India revenues up 7.0% Y-o-Y (9.7% on an underlying basis); Africa revenues up 14.2% Y-o-Y
- ~ Mobile data traffic on the network grew to 5,357 PBs in the quarter; growth of 73% Y-o-Y
- ~ Highest ever 4G subscriber additions during the quarter at ~ 21 Mn.
- ~ Consolidated EBITDA at Rs 9,350 crore. Consolidated EBITDA margin at 42.6%, up 11.4% Y-o-Y
- ~ India EBITDA margin at 41.2%, up 13.3% Y-o-Y
- ~ Africa EBITDA margin at 45.1%, up 6.1% Y-o-Y
- ~ Net Loss (before exceptional items) for Q3'20 at Rs 1,080 crore
- ~ Net Loss (after exceptional items) for Q3'20 at Rs 1,035 crore
- ~ Total Capex spend for the quarter of Rs 5,183 crore

New Delhi, India, February 04, 2020: Bharti Airtel Limited (“Bharti Airtel” or “the Company”) today announced its audited consolidated Ind AS results for the third quarter ended December 31, 2019.

Q3'20 Performance:

The consolidated revenues for Q3'20 at Rs 21,947 crore grew 10.5% Y-o-Y (reported increase of 8.5% Y-o-Y) on an underlying basis. Consolidated mobile data traffic at 5,357 PBs in the quarter has registered a healthy Y-o-Y growth of 73%.

India revenues for Q3'20 at Rs 15,797 crore have increased by 9.7% Y-o-Y (reported increase of 7.0% Y-o-Y) on an underlying basis. Mobile revenues have witnessed a Y-o-Y growth of 9.6% led by a strong focus on quality customers, up-trading and in some part benefitted by the recent tariff actions, although the full impact of the tariff actions is yet to be seen. Consequently, ARPU has improved from Rs 128 to 135 Q-o-Q. Mobile data traffic has increased to 5,166 PBs in the quarter as compared to 2,996 PBs in the corresponding quarter last year. Mobile 4G data customers increased by 60.6% to 123.8 Mn from 77.1 Mn in the corresponding quarter last year. This quarter witnessed strong 4G customer additions of ~ 21 Mn. Digital TV revenue witnessed a growth of 15.6% Y-o-Y on an underlying basis (decline of 23.3% on reported basis due to reporting changes in DTH pursuant to the new tariff order). Airtel Business revenue witnessed a growth of 6.6% on Y-o-Y basis.

Consolidated EBITDA at Rs 9,350 crore increased 48.3% Y-o-Y. Consolidated EBITDA margin increased by 11.4% to 42.6% in the quarter as compared to 31.2% in the corresponding quarter last year. Consolidated EBIT increased by 195.2% Y-o-Y to Rs 2,401 crore. The Consolidated Net Loss before exceptional items for the quarter stands at Rs 1,080 crore. The Consolidated Net Loss after exceptional items for the quarter stands at Rs 1,035 crore.

Bharti Airtel Limited – Media Release February 04, 2020

In the previous quarter, arising from a judgement of the Hon'ble Supreme Court of India on October 24, 2019 ('Court Judgement'), in the absence of any potential reliefs from the Government, the Group had recorded as a liability/provision an aggregate of Rs. 34,260 crore as at September 30, 2019 (of which Rs. 28,450 crore was recorded in previous quarter as exceptional item). The Court Judgement was in relation to a long outstanding industry-wide case upholding the view considered by Department of Telecommunications ('DoT') in respect of the definition of Adjusted Gross Revenue ('AGR'). The Hon'ble Supreme Court in a Supplementary Order of the same date directed the affected parties to pay amounts due to DoT within a period of three months, which ended on January 23, 2020. These judgements/orders have significant financial implications on the Group. A Review Petition filed by the Group and other telecom operators against the above Court Judgement was rejected in January 2020. Thereafter, the telecom operators have filed an application for modification of the Supplementary Order before the Hon'ble Supreme Court of India, which is pending disposal.

Subsequent to the reporting period the Company has successfully raised Rs. 21,502 crore of funding through a combination of fresh equity issuance via qualified institutional placement and issue of convertible bonds. The company intends to use these proceeds to augment its long term resources and strengthen its balance sheet. Pursuant to the infusion of fresh equity and long-term financing via convertible bonds subsequent to the reporting period ended December 31, 2019 and available liquidity/facilities with the Group, the management has concluded that the previously reported material uncertainty on the Group's ability to continue as a going concern no longer exists.

In a statement, Gopal Vittal, MD and CEO, India & South Asia, said:

We added ~21 Mn 4G customers to our mobile network and delivered superior value to our customers through the Airtel Thanks program. Data traffic saw strong growth of ~72% Y-o-Y. We are on track to shut down our 3G networks across India and re-farm the 900 and 2100 band spectrum to further boost our 4G footprint to serve the surging demand for high speed data.

"While tariff revision undertaken in December 2019 is a welcome step towards repairing the financial health of the industry, we believe tariffs must go up further for enabling the industry to invest in emerging technologies" added Gopal Vittal.

Note - Pursuant to its listing at the London Stock Exchange (LSE) and Nigeria Stock Exchange (NSE), our subsidiary, Airtel Africa Plc has already declared results and investors can visit its website <https://airtel.africa> to access its results.

The financial statements included in this quarterly report fairly presents in all material respects the financial position, results of operations, cash flow of the company as of, and for the periods presented in this report.

Supplemental Disclosures

Safe Harbor: - Some information in this report may contain forward-looking statements. We have based these forward-looking statements on our current beliefs, expectations and intentions as to facts, actions and events that will or may occur in the future. Such statements generally are identified by forward-looking words such as “believe,” “plan,” “anticipate,” “continue,” “estimate,” “expect,” “may,” “will” or other similar words.

A forward-looking statement may include a statement of the assumptions or basis underlying the forward-looking statement. We have chosen these assumptions or basis in good faith, and we believe that they are reasonable in all material respects. However, we caution you that forward-looking statements and assumed facts or basis almost always vary from actual results, and the differences between the results implied by the forward-looking statements and assumed facts or basis and actual results can be material, depending on the circumstances. You should also keep in mind that any forward-looking statement made by us in this report or elsewhere speaks only as of the date on which we made it. New risks and uncertainties come up from time to time, and it is impossible for us to predict these events or how they may affect us. We have no duty to, and do not intend to, update or revise the forward-looking statements in this report after the date hereof. In light of these risks and uncertainties, any forward-looking statement made in this report or elsewhere may or may not occur and has to be understood and read along with this supplemental disclosure.

General Risk: - Investment in equity and equity related securities involve a degree of risk and investors should not invest any funds in this Company without necessary diligence and relying on their own examination of Bharti Airtel, along with the equity investment risk which doesn't guarantee capital protection.

Convenience translation: - We publish our financial statements in Indian Rupees. All references herein to “Indian Rupees” and “Rs” are to Indian Rupees and all references herein to “US dollars” and “US\$” are to United States dollars. Translation of income statement items have been made from Indian Rupees to United States dollars (unless otherwise indicated) using the respective quarter average rate. Translation of Statement of financial position items have been made from Indian Rupees to United States dollars (unless otherwise indicated) using the closing rate. The rates announced by the Reserve Bank of India are being used as the Reference rate for respective translations. All amounts translated into United States dollars as described above are provided solely for the convenience of the reader, and no representation is made that the Indian Rupees or United States dollar amounts referred to herein could have been or could be converted into United States dollars or Indian Rupees respectively, as the case may be, at any particular rate, the above rates or at all. Any discrepancies in any table between totals and sums of the amounts listed are due to rounding off.

Functional Translation: - Africa financials reported in the quarterly report are in its functional currency i.e. US\$ (Refer “Section 10 Key Accounting Policies as per Ind-AS”). South Asia financials reported in the quarterly report are in its presentation currency i.e. Rs.

Use of Certain Non-GAAP measures: - This result announcement contains certain information on the Company's results of operations and cash flows that have been derived from amounts calculated in accordance with Indian Accounting Standards (Ind-AS), but are not in themselves Ind-AS measures. They should not be viewed in isolation as alternatives to the equivalent Ind-AS measures and should be read in conjunction with the equivalent Ind-AS measures.

Further disclosures are also provided under “7.3 Use of Non-GAAP Financial Information” on page 34

Others: In this report, the terms “we”, “us”, “our”, “Bharti”, or “the Company”, unless otherwise specified or the context otherwise implies, refer to Bharti Airtel Limited (“Bharti Airtel”) and its subsidiaries, Bharti Airtel Services Limited, Bharti Hexacom Limited, Bharti Infratel Limited,

SECTION 2

BHARTI AIRTEL - AN INTRODUCTION

2.1 Introduction

We are one of the world's leading providers of telecommunication services with presence in 18 countries representing India, Sri Lanka, 14 countries in Africa and Joint Ventures in 2 more countries. As per United Nations data published on January 01, 2013, the population of these 18 countries represents around 24% of the world's population.

We provide telecom services under wireless and fixed line technology, national and international long distance connectivity and Digital TV; and complete integrated telecom solutions to our enterprise customers. All these services are rendered under a unified brand "airtel". 'Airtel Money' (known as 'Airtel Payments Bank' in India) extends our product portfolio to further our financial inclusion agenda and offers convenience of payments and money transfers on mobile phones over secure and stable platforms in India, and across all 14 countries in Africa. The Company also owns Tower Infrastructure pertaining to telecom operations through its subsidiary and joint venture entity.

The shares of Bharti Airtel Ltd are listed on the Indian Stock Exchanges, NSE & BSE.

2.2 Business Divisions

2.2.1 India & South Asia – We follow a segmented approach for our operations in India with clear focus on retail and corporate customers.

B2C Services:

Mobile Services (India) – We offer postpaid, pre-paid, roaming, internet and other value added services. Our distribution channel is spread across 1.0 Mn outlets with network presence in 7,906 census and 786,719 non-census towns and villages in India covering approximately 95.3% of the country's population.

Our 3G and 4G services are spread across the country offering high-speed internet access and a host of innovative services like Mobile TV, video calls, live-streaming videos, gaming, buffer-less HD video streaming and multi-tasking capabilities to our customers.

Our national long distance infrastructure provides a pan-India reach with 299,592 Rkms of optical fiber.

Homes Services – The Company provides fixed-line telephone and broadband services for homes in 103 cities pan-India. The product offerings include high-speed broadband on copper and fiber and voice connectivity, up to the speeds of 100 mbps for the home segment.

Digital TV Services – Our Direct-To-Home (DTH) platform offers both standard and high definition (HD) digital TV services with 3D capabilities and Dolby surround sound. We currently offer a total of 648 channels including 86 HD channels, 7 international channels and 4 interactive services.

B2B Services:

Airtel Business – We are India's leading and most trusted provider of ICT services with a diverse portfolio of services to enterprises, governments, carriers and small and medium business. For small and medium business, Airtel is a trusted

solution provider for fixed-line voice (PRIs), data and other connectivity solutions like MPLS, VoIP, SIP trunking. Additionally, the Company offers solutions to businesses Audio, Video and Web Conferencing. Cloud portfolio is also an integral part of its office solutions suite, which offers Storage, compute, Microsoft office 365, ecommerce package through shopify and CRM packages on a pay as you go model.

Along with voice, data and video, our services also include network integration, data centers, managed services, enterprise mobility applications and digital media. Airtel Business provides 'One solution, bill, support, face' experience to our customers.

We offer global services in both voice and data including VAS services like International Toll Free Services and SMS hubbing. Our strategically located submarine cables and satellite network enable our customers to connect across the world including hard-to-reach areas. Our global network runs across 250,000 Rkms, covering 50 countries and 5 continents.

Tower Infrastructure Services – Our subsidiary, Bharti Infratel Ltd (Infratel), is India's leading provider of tower and related infrastructure and it deploys, owns & manages telecom towers and communication structures, for various mobile operators. It holds 42% equity interest in Indus towers, a joint venture with Vodafone India and Aditya Birla Telecom who hold 42% and 11.15% respectively. The Company's consolidated portfolio of 94,244 telecom towers, which includes 41,471 of its own towers and the balance from its 42% equity interest in Indus Towers, makes it one of the largest tower infrastructure providers in the country with presence in all 22 telecom circles. The Company has been the industry pioneer in adopting green energy initiatives for its operations.

Infratel is listed on Indian Stock exchanges, NSE and BSE.

South Asia – South Asia represents our operations in Sri Lanka. In Sri Lanka, we operate across 25 administrative districts with distribution network of over 48 K retailers across the country. Our 3.5G services are present across major towns in Sri Lanka.

2.2.2 Africa

Our subsidiary, Airtel Africa plc is present in 14 countries across Africa, namely: Nigeria, Chad, Congo B, Democratic Republic of Congo, Gabon, Madagascar, Niger, Kenya, Malawi, Seychelles, Tanzania, Uganda, Zambia and Rwanda. We offer post-paid, pre-paid, roaming, internet services, content, media & entertainment, and corporate solutions. 3G, 4G data and m-Commerce (Mobile Money) are the next growth engines for the Company in Africa. We offer 3G services, Mobile Money across all 14 countries and 4G services in 14 countries of Africa.

Airtel Africa plc is listed on London Stock Exchange (LSE) and Nigeria Stock Exchange (NSE).

2.3 Partners

SingTel, our strategic equity partner, has made one of their largest investments outside Singapore with us. This partnership has enabled us to expand and further enhance the quality of services to our customers. We also pioneered the outsourcing business model with long term strategic partnership in all areas including network equipment, information technology and call center. We partnered with global leaders who share our drive for co-creating innovative and tailor made solutions. To name a few, our strategic partners include ZTE, Ericsson, Nokia Siemens Networks (NSN), Huawei, Cisco, IBM, Avaya, etc.

SECTION 3

SECTION 5

MANAGEMENT DISCUSSION AND ANALYSIS

5.1 Reporting Changes

During the nine months ended December 31, 2019, the Group transferred its operations pertaining to optical fibre on a going concern basis on August 1, 2019 from Company to its wholly owned subsidiary. As a result, the Group reorganised the business, whereby, the assets and liabilities pertaining to bandwidth capacities have been allocated to Mobile Services India, Airtel Business and Homes Services segments.

Previously, these operations were part of Mobile segment and bandwidth capacities were billed by Mobile Services Segment to Airtel Business and Homes Services segments. Without such reorganisation, Segment results for Mobile Services India, Homes Services and Airtel Business would have been:

5.1.3 Segmentwise Summarized impact

5.2 India SA

1. Key Industry Developments

A. In the previous quarter, arising from a judgement of the Hon'ble Supreme Court of India on October 24th, 2019 ('Court Judgement'), in the absence of any potential reliefs from the Government, the Group had recorded as a liability/provision an aggregate of Rs. 342,600 Mn as at September 30th, 2019 (of which Rs. 284,500 Mn was recorded in previous quarter as exceptional item). The Court Judgement was in relation to a long outstanding industry-wide case upholding the view considered by Department of Telecommunications ('DoT') in respect of the definition of Adjusted Gross Revenue ('AGR'). The Hon'ble Supreme Court in a Supplementary Order of the same date directed the affected parties to pay amounts due to DoT within a period of three months, which ended on January 23rd, 2020. These judgements/orders have significant financial implications on the Group. A Review Petition filed by the Group and other telecom operators against the above Court Judgement was rejected in January 2020. Thereafter, the telecom operators have filed an application for modification of the Supplementary Order before the Hon'ble Supreme Court of India, which is pending disposal.

B. On December 17th, 2019 the Telecom Regulatory Authority of India (TRAI) issued "The Telecommunication Interconnection Usage Charges (Fifteenth Amendment) Regulations, 2019" which prescribes revision in the date of applicability of Bill and Keep (BAK) regime in respect of wireless to wireless domestic call termination charges. Key features are:

- For wireless-to-wireless domestic calls, termination charge would continue to remain as Re. 0.06 (paise six only) per minute up to December 31st, 2020.

- From January 1st, 2021 onwards the termination charge for wireless to wireless domestic calls shall be zero.

C. On November 20th, 2019 the Union Cabinet approved a proposal which gives an option to the Telecom Service Providers (TSPs) to **defer the payment of the spectrum auction instalments due for FY 2020-21 & FY 2021-22, either for one or both years**. These deferred amounts will be spread equally in the remaining instalments to be paid by TSPs. The Interest as stipulated while auctioning of the concerned spectrum will however be charged so that Net Present Value (NPV) is protected.

D. On November 20th, 2019 TRAI issued an order on the "Framework of Publishing Mobile Number Revocation List" to all the telecom service providers to facilitate publishing of the Mobile Number Revocation List (MNRL) of permanently disconnected mobile numbers on monthly basis on the TRAI's website.

E. On October 21st, 2019 TRAI has released its recommendations on 'Review of terms and conditions for registration of Other Service Providers (OSPs).' The salient points include:

- Only voice based outsourced OSPs need to have registration at par with existing process. Data/internet based OSPs would need to furnish intimation only.
- Provision of services for captive purposes i.e. Captive contact centers have been kept out from the scope of OSP. They would require furnishing intimation only.

- Requirement of agreement of bank guarantee for sharing of infrastructure between domestic and international OSP of same company has been removed.
- Contact centre service provider (CCSP)/Hosted contact centre service provider (HCCSP) providing platform as a service are brought under registration. The CCSP/HCCSP involved in reselling of telecom resources would require Virtual network operators (VNOs) license.
- CCSP/HCCSP to be given 3 months' time to get themselves necessary registration/license after declaration of the policy by DoT.
- Multiple OSP centres of single company within one Licensed service area (LSA) can be registered as single OSP.

F. On January 1st, 2020 TRAI issued amendment to the DTH regulatory framework – **The Telecommunication (Broadcasting and Cable) Services (Eighth) (Addressable Systems) Tariff (Second Amendment) order, 2020**. The salient points include:

- Introduction of twin conditions for pricing of bouquets by the Broadcaster:
 - (a) The sum of the a-la-carte rates of the pay channels (MRP) forming part of a bouquet shall not exceed one and a half times the rate of the bouquet of which such pay channels are a part; and
 - (b) The a-la-carte rates of each pay channel (MRP), forming part of a bouquet, shall not exceed three times the average rate of a pay channel of the bouquet of which such pay channel is a part.
- Increasing the number of SD channels within the Network Capacity Fee (NCF) of Rs. 130/- per month from 100 to 200 and capping the NCF for more than 200 SD channels at Rs. 160/- per month.
- Flexibility to Distribution Platform Operators (DPOs) to declare different NCFs for different geographical regions/areas within its service area, to offer promotional schemes at par with Broadcasters and to offer discounts on NCF and Distributor Retail Prices (DRP) on long term subscriptions with duration of 6 months and above.
- Provision of discounts on NCFs for multi TV homes. DPOs shall not charge more than 40% of declared NCF per additional TV for 2nd TV connection and onwards in a multi TV home.

These amendments have been challenged by Broadcasters before various High Courts and the matters are pending without any interim relief.

G. On November 11th, 2019 TRAI released **Amendment to Quality of service (QOS) regulations** defining duration of alert for the called party w.e.f November 15th, 2019. The regulation defined time duration of alert for an incoming voice call on Mobile to be 30 seconds for Terminating Exchange & 90 seconds for Originating Exchange and the same on Landline to be 60 seconds on Terminating Exchange and 90 seconds on Originating Exchange.

2. Key Company Developments

A. **Digital Innovations & Customer Delight:** Airtel is consistently working on fine-tuning its strategies and strengthening its innovative core to anticipate and lead change in the global digital landscape.

- **Airtel Wi-Fi Calling** - In an industry first, Airtel launched its voice over Wi-Fi service that leverages innovative technology to enhance the indoor voice calling experience for Airtel smartphone customers. The service is currently live in all circles except J&K and across all broadband providers.
- **NEFT Facility** - Airtel Payments Bank enabled the use of National Electronic Funds Transfer (NEFT) facility for all its users. The facility would be available to customers on 24x7 basis even on holidays, allowing them to send or receive funds to any bank from anywhere, anytime.
- **Enterprise Hub** - Airtel Business announced the launch of Enterprise Hub, a one-stop digital self-care portal, where subscribers can avail a host of services including bill payments and complete account management on one interface with a single sign-in.

B. Strategic Alliances & Partnerships:

- Airtel has been chosen as the strategic Network Solution partner by **Faridabad Smart City Limited (FSCL)** to transform Faridabad into a Smart City. Airtel will work closely with FSCL to design and deploy a future ready high capacity network and a range of connectivity solutions to build a digitally enabled Faridabad city.
- Airtel announced a partnership with global content leader **Lionsgate** (the international premium subscription platform from Starz) to bring premium content from Lionsgate Play to Airtel subscribers in India. The partnership will give Airtel customers access to a deep portfolio of critically acclaimed and beloved Lionsgate feature film content. This content will be available on the Airtel Xstream app and web platforms.
- **Airtel Payments Bank**, in partnership with the **National Payments Corporation of India (NPCI)** and the **Indian Highways Management Company Limited (IHMCL)**, made FASTag available across its digital and retail touch points. FASTag enables automatic cashless payments at toll plazas across India, making road travel frictionless and time efficient.
- Airtel announced a partnership with **CuriosityStream**, an award-winning global media company that provides best-in-class factual entertainment content, to offer its content on Airtel Xstream Mobile app, web and TV platform. Airtel is the first partner to bring CuriosityStream to India, directly to viewers.
- **Airtel & Google Cloud** have announced a partnership to boost collaboration, productivity and digital transformations in India. Airtel will offer G suite (a set of intelligent apps – Gmail, Docs, Drive, Calendar and more) to small and medium sized business (SMBs) in India as part of its integrated Information and communication

technology (ICT) portfolio designed with real-time collaboration and machine intelligence to bring people together and help them work smarter and safer.

- C. Fund Raising:** Subsequent to the reporting period ended December 31st, 2019, the Company has successfully **raised Rs. 215,017 Mn** of additional long term financing through a combination of Rs.144,000 Mn in the form of qualified institutional placement (QIP) of equity shares (approximately 323.60 Mn fully paid up equity shares of face value Rs. 5 each were issued and allotted at a price of Rs. 445 per equity share) and Rs. 71,017 Mn in the form of 1.50% Foreign Currency Convertible Bond offerings (FCCBs) (issued at par and repayable in 2025 at 102.66% of their outstanding principal amount).
The transaction is the largest ever dual tranche Equity and FCCB offering in Asia-Pacific, largest QIP ever by a private sector issuer in India, largest FCCB offering from an India issuer in the last 12 years.
The overall allotment is pre-dominantly to long only investors, thereby also ensuring diversification of the shareholder base of Bharti Airtel.

D. Awards and Recognition

- In October 2019, **Airtel** has been ranked **#1** by **OpenSignal** as having India's Best Video Experience in its Mobile Network experience report. OpenSignal is an independent mobile analytics company specializing in quantifying mobile network experience.
- App Annie** ranked **Wynk Music as India's #1 music-streaming app** in terms of Daily Active Users in October 2019. The performance metric underlines the massive user preference for Wynk Music when it comes to consuming music on smartphones.
- Airtel Thanks** campaign won Bronze at **EFFIES 2020** for its marketing campaign effectiveness. The EFFIE Award is a pre-eminent award in the advertising industry, which recognizes all forms of marketing that contributes to a brand's success.
- Airtel Business** won three prestigious awards at **Global Carrier Awards 2019**, namely, Best Global Wholesale Carrier – Voice, Best Voice Service Innovation – Emerging Markets and Best Security Solution.
- Airtel Business** bagged five prestigious awards at the **CIO Choice Awards 2020**, namely,
 - Unified Communication & Collaboration (Software Vendor)
 - Telecom Carrier, International Access (Telecom Services Vendor)
 - Telecom Carrier, Leased Lines (Telecom Services Vendor)
 - Network Security (Security Vendor)
 - Colocation (Data Center & IT Infrastructure Vendor)

5.3 Africa

A. Key Company Developments

- On November 7th, 2019 Airtel Africa plc was added to the MSCI Small Cap index.
- In November 2019, Airtel Networks Limited (Airtel Nigeria) signed an agreement with Intercellular Nigeria Limited, in order to acquire an additional 10 MHz spectrum in the 900 MHz band in Nigeria for a consideration of \$70 million, excluding NCC fees as per the Nigerian Communications Commission (NCC) Spectrum Trading Guidelines. The additional spectrum will allow Airtel Nigeria to expand and strengthen its LTE network across the country. The acquisition is subject to regulatory approval by NCC.
- In December 2019, the group launched Airtel TV in Nigeria and Zambia with more than 5000 hours of videos free of any subscription fees.
- In January 2020, the group signed a strategic partnership with Western Union. Through this partnership, Airtel Money customers will be able to reliably send and receive international money transfers directly from their phones, using the Airtel Africa mobile money wallet.
- Airtel Tanzania has been allocated an additional spectrum of 10 MHz in 1800 MHz band with an annual fee of \$0.6 Mn. In addition, Airtel Tanzania has been authorized by the Tanzania Communications Regulatory Authority (TCRA) to use 10 MHz in the 700 MHz band for 8 months from October 21st, 2019 onwards. The license of 700 MHz band will be issued post completion of a total of \$12 Mn payment to the regulatory authorities in June, 2020.
- On December 24th, 2019 Airtel Malawi announced that the price for the initial public offering has been set at MK 12.69 (\$0.02) per ordinary share in addition to its intention to float its local business Airtel Malawi plc (Airtel Malawi or the subsidiary) on the Malawi stock exchange as announced on December 11th, 2019. The offer is expected to comprise of 1.65 billion shares, representing 15 per cent of the issued share capital. An additional 550 million shares, representing 5% of the issued share capital shall be made available subject to the exercise of the over-allotment option. Airtel Malawi expects to raise gross proceeds of up to MK 27.92 billion (\$37.5 Mn) and the price implies a market capitalization on admission of MK 139.59 (\$187.4 Mn).

5.4 Share of Associates / Joint Ventures

A) Robi Axiata Limited

Robi Axiata Limited is a joint venture between Axiata Group Berhad, of Malaysia, Bharti Airtel Limited, of India and NTT Docomo Inc. of Japan. Axiata holds 68.7% controlling stake in the entity, Bharti Airtel holds 25% while the remaining 6.3% is held by NTT Docomo.

Robi is the first operator to launch 4.5G service in all the 64 districts of the country and has also successfully conducted the trial run of 5G and Voice over LTE technology.

5.5 Results of Operations

The financial results presented in this section are compiled based on the audited consolidated financial statements prepared in accordance with Indian Accounting Standards (Ind-AS) and the underlying information.

Key Highlights – For the quarter ended Dec 31, 2019

- Overall customer base at 419 Mn across 16 countries (up 3.7% Y-o-Y)
- Consolidated mobile data traffic at 5,753 Bn MBs (up 72.7% Y-o-Y)
- Total revenues of Rs 219.5 Bn; up 8.5% Y-o-Y (up 10.5% on comparable basis)
- EBITDA at Rs 93.5 Bn; up 48.3% Y-o-Y; EBITDA margin up 11.4% Y-o-Y
- EBIT at Rs 24.0 Bn; up 195.2% Y-o-Y
- Consolidated net loss (before EI) of Rs 10.8 Bn vis-à-vis loss of Rs 10.4 Bn in the corresponding quarter last year
- Consolidated net loss (after EI) of Rs 10.4 Bn (Net loss of Rs 230.4 Bn in Q2'20) vis-à-vis profit of Rs 0.9 Bn in the corresponding quarter last year

Results for the quarter ended Dec 31, 2019

5.5.1 Bharti Airtel Consolidated

As on Dec 31, 2019, the Company had 419 Mn customers, an increase of 3.7% as compared to 403.7 Mn in the corresponding quarter last year. Total minutes of usage on the network during the quarter were 836 Bn, representing a growth of 8.9% as compared to 768 Bn in the corresponding quarter last year. Mobile Data traffic grew 72.7% to 5,753 PBs during the quarter as compared to 3,332 PBs in the corresponding quarter last year.

Consolidated revenues for the quarter stood at Rs 219,471 Mn, up 8.5% (up 10.5% on a comparable basis) compared to Rs 202,310 Mn in the corresponding quarter last year.

India revenues for the quarter stood at Rs 157,974 Mn, up 7.0% (up 9.7% on a comparable basis) compared to Rs 147,683 Mn in the corresponding quarter last year primarily led by increase in prepaid mobile revenue.

Consolidated net revenues, after netting off access costs, license fees and cost of goods sold, stood at Rs 171,278 Mn, up 8.6% (up 11.2% on comparable basis) as compared to Rs 157,652 Mn in the corresponding quarter last year.

There is a decrease in consolidated opex (excluding access costs, costs of goods sold and license fees) by 17.7% Y-o-Y (up 3.2% Q-o-Q) to Rs 78,522 Mn for the quarter ending Dec 31, 2019.

Consolidated EBITDA was at Rs 93,501 Mn during the quarter, compared to Rs 63,069 Mn in the corresponding quarter last year (up 48.3% Y-o-Y) and Rs 89,363 Mn in the previous quarter (up 4.6% Q-o-Q). EBITDA margin for the quarter was at 42.6% as compared to 31.2% in the corresponding quarter last year and 42.3% in the previous quarter. India EBITDA margin for the quarter was at 41.2% as compared to 27.9% in the corresponding quarter last year and 41.2% in the previous quarter.

Depreciation and amortization expenses were at Rs 69,408 Mn vis-à-vis Rs 54,723 Mn in the corresponding quarter last year (up 26.8% Y-o-Y) and Rs 69,350 Mn in the previous quarter (up 0.1% Q-o-Q). EBIT for the quarter was at Rs 24,008 Mn as compared to Rs 8,132 Mn in the corresponding quarter last year and the resultant EBIT margin was 10.9% as compared to 4.0% in the corresponding

quarter last year. EBIT has increased by 20.5% as compared to Rs 19,930 Mn in the previous quarter and EBIT margin has increased by 1.5% as compared to 9.4% in the previous quarter. Cash profits from operations (before derivative and exchange fluctuations) for the quarter were at Rs 64,961 Mn as compared to Rs 41,641 Mn in

the corresponding quarter last year and Rs 60,980 Mn in the previous quarter.

Net finance costs for the quarter were at Rs 29,846 Mn as compared to Rs 19,448 Mn (up 53.5% Y-o-Y) in the corresponding quarter last year and Rs 29,083 Mn in the previous quarter (up 2.6% Q-o-Q) largely led by lower derivative and forex loss and higher investment income for the quarter.

The resultant loss before tax and exceptional items for the quarter ended Dec 31, 2019 was Rs 4,526 Mn as compared to loss of Rs 12,135 Mn in the corresponding quarter last year and a loss of Rs 6,231 Mn in the previous quarter.

The consolidated income tax expense for the period of nine months ended Dec 31, 2019 was (negative) Rs 6,811 Mn as compared to (negative) Rs 19,169 Mn in the corresponding period of last year. The underlying effective tax rate (ETR) in India for the period was at 35.3% vs 34.9% for the full year ended March 31, 2019.

Net loss before exceptional items for the quarter ended Dec 31, 2019 was Rs 10,805 Mn as compared to loss of Rs 10,408 Mn in the corresponding quarter last year and Rs 11,228 in the previous quarter. After accounting for gain of Rs 452 Mn towards exceptional items (net of tax and non-controlling interests) (details provided below in 5.5.2), the resultant net loss for the quarter ended Dec 31, 2019 came in at Rs 10,353 Mn, compared to profit of Rs 862 Mn in the corresponding quarter last year and net loss of Rs 230,449 Mn in the previous quarter.

The capital expenditure for the quarter was Rs 51,831 Mn as compared to Rs 65,679 Mn in the corresponding quarter last year and Rs 37,901 in the previous quarter. The consolidated operating free cash flow during the quarter was Rs 41,670 Mn as compared to cash burn of Rs 2,609 Mn in the corresponding quarter last year and cash flow of Rs 51,461 in the previous quarter.

Consolidated net debt for the Company has decreased to Rs 1,149,193 Mn from Rs 1,181,065 Mn in the previous quarter. The Net Debt-EBITDA ratio (annualized) as at Dec 31, 2019 at 3.07 times as compared to 4.41 times as on Dec 31, 2018 and 3.30 times in the previous quarter. The Net Debt-Equity ratio was at 1.67 times as at Dec 31, 2019 as compared to 1.57 times as on Dec 31, 2018 and 1.69 times as on Jun 30, 2019.

5.5.2 Exceptional Items

The net exceptional charge of Rs. 10,500 Mn during the quarter ended Dec 31, 2019 comprises of a charge on account of interest on the provision of license fee and spectrum usage charges recorded in the quarter ended Sep 30, 2019 of Rs. 10,481 Mn (as detailed in Note* below) pending disposal of the modification application before the Hon'ble Supreme Court; accelerated depreciation on 3G network equipment / operating costs on network re-farming and up-gradation program of Rs. 4,008 Mn; charge on account of rates and taxes, largely paid under protest in

earlier years, arising from a detailed management review in light of High Court judgements in multiple states of Rs. 16,974 Mn; deferment of customer acquisition cost following reassessment of customer life for subsidiaries of Airtel Africa plc of Rs. 1,911 Mn; and release of provision on account of full and final settlement of customary indemnities to a clutch of investors of Airtel Africa plc of Rs. 19,052 Mn. Net tax benefit due to the above exceptional items and tax credit arising from deferred tax asset pertaining to one of the subsidiaries, aggregating Rs. 11,270 Mn is included under tax expense/ (credit). As a result, the overall net exceptional gain (after tax) is Rs. 770 Mn. The net benefit allocated to non-controlling interests on the above exceptional items is Rs. 318 Mn.

*Note:

In the previous quarter, arising from a judgement of the Hon'ble Supreme Court of India on Oct 24, 2019 ('Court Judgement'), in the absence of any potential reliefs from the Government, the Group had recorded as a liability/provision an aggregate of Rs. 342,600 Mn as at Sep 30, 2019 (of which Rs. 284,500 Mn was recorded in previous quarter as exceptional item). The Court Judgement was in relation to a long outstanding industry-wide case upholding the view considered by Department of Telecommunications ('DoT') in respect of the definition of Adjusted Gross Revenue ('AGR'). The Hon'ble Supreme Court in a Supplementary Order of the same date directed the affected parties to pay amounts due to DoT within a period of three months, which ended on Jan 23, 2020. These judgements/orders have significant financial implications on the Group. A Review Petition filed by the Group and other telecom operators against the above Court Judgement was rejected in Jan 2020. Thereafter, the telecom operators have filed an application for modification of the Supplementary Order before the Hon'ble Supreme Court of India, which is pending disposal.

During the quarter ended Dec 31, 2019, the Group has continued to recognise, in the same manner, its obligations under the judgements/ orders. Accordingly, during the quarter, the Group has further recorded interest of Rs. 10,481 Mn which has been presented as exceptional item.

Pursuant to the infusion of long-term financing and available liquidity/facilities with the Group (refer section 5.2.2.C above for details), the management has concluded that the previously reported material uncertainty on the Group's ability to continue as a going concern no longer exists.

5.5.3 B2C Services – India

5.5.3.1 Mobile Services

As on Dec 31, 2019, the Company had 283.0 Mn customers as compared to 279.4 Mn in the last quarter, an increase of 1.3% Q-o-Q. Minutes traffic growth of 8.0% to 759 Bn during the quarter as compared to 703 Bn in the corresponding quarter last year.

The current quarter has witnessed total data customer addition of 14.2 Mn on a sequential basis with 4G data customer base growing faster at 20.7 Mn; overall 4G customer base stood at 123.8 Mn at the end of the quarter. With increased data penetration, the total MBs on the network have increased by 72.4% to 5,547 PBs as compared to 3,217 PBs in the corresponding quarter last year. Mobile Data usage per customer witnessed an increase of 32.3% to 13.6 GBs during the quarter as compared to 10.3 GBs in the corresponding quarter last year.

To serve the evolving needs of millions of customers in the rapidly digitizing economy, Airtel continued to re-farm its 4G spectrum to provide the customers with an industry leading network experience. By the end of the quarter, the Company had 189,857 network towers as compared to 175,300 network towers in the corresponding quarter last year. Out of the total number of towers, 188,591 are mobile broadband towers. The Company has total 473,859 mobile broadband base stations as compared to 371,562

mobile broadband base stations at the end of the corresponding quarter last year and 461,891 at the end of the previous quarter.

Revenue from mobile services increased by 9.6% to Rs 111,653 Mn as compared to Rs 101,894 Mn in the corresponding quarter last year. Q-o-Q revenue increased by 1.7%; however, without the reorganization as detailed in section 5.1, the Q-o-Q revenue growth would have been 5.1%. Majorly led by increase in bundle net additions, 4G penetration and realization of price increase in December 2019. Overall ARPU for the quarter was Rs 135 as compared to Rs 104 in the corresponding quarter last year.

EBITDA for the quarter was Rs 40,109 Mn as compared to Rs 19,498 Mn in the corresponding quarter last year and Rs 39,913 Mn in the previous quarter. EBITDA margin was 35.9% during the Quarter as compared to 19.1% in the corresponding quarter last year and 36.3% in the previous quarter.

EBIT during the quarter was (negative) Rs 8,249 Mn as compared to (negative) Rs 19,032 Mn in the corresponding quarter last year and (negative) Rs 11,449 Mn in the previous quarter. The resultant EBIT margin was at (negative) 7.4% as compared to (negative) 18.7% in corresponding quarter last year and (negative) 10.4% in the previous quarter.

During the quarter, the Company has incurred a capex of Rs 25,415 Mn, primarily to enhance its indoor coverage, voice quality and data capacities. Improvement in EBITDA has resulted into cash flow of Rs 14,694 Mn for the quarter as compared to cash outflow of Rs 17,474 Mn in the corresponding quarter last year.

5.5.3.2 Homes Services

As on Dec 31, 2019, the Company had Homes operations in 103 cities with 2.35 Mn customers.

For the quarter ended Dec 31, 2019, revenues from Homes operations were Rs 5,546 Mn as compared to Rs 5,503 Mn in the corresponding quarter last year. During the quarter, the Company accelerated its Local cable Operators (LCO) partnership model and continued up-gradation of its copper network to FTTH. The company also launched Integrated Homes offering in Bangalore.

EBITDA for the quarter stood at Rs 3,302 Mn as compared to Rs 2,583 Mn in the corresponding quarter last year and Rs 2,471 Mn in the previous quarter. EBITDA margin stood at 59.5% during the quarter as against 46.9% in the corresponding quarter last year and 45.1% in the previous quarter. EBIT for the quarter ended Dec 31, 2019 was Rs 1,094 Mn as compared to Rs 734 Mn in the corresponding quarter last year and Rs 1,233 Mn in the previous quarter. The resultant EBIT margin was at 19.7% as compared to 13.3% in corresponding quarter last year and 22.5% in the previous quarter.

During the quarter ended Dec 31, 2019, the Company incurred capital expenditure of Rs 2,661 Mn primarily on account of expansion of high speed fiber. The resulting cash flow for the quarter was Rs 642 Mn as compared to Rs 211 Mn in the corresponding quarter last year and Rs 1,447 Mn in the previous quarter.

5.5.3.3 Digital TV Services

As on Dec 31, 2019, the Company had its Digital TV operations in 639 districts. DTH had 16.3 Mn customers at the end of the quarter, which represents an increase of 8.7%, as compared to the corresponding quarter last year. During the quarter, the Company collaborated with Sony to bundle Airtel XStream Stick, revamped regional pack offerings in select markets. The company also collaborated with TV panel makers – Samsung and MI, to bundle TV and DTH sales. Underlying ARPU for the quarter was at Rs 245

as compared to Rs 231 in the corresponding quarter last year, an increase of 5.9% Y-o-Y.

Underlying revenue from Digital TV services was at Rs 11,940 Mn vis-à-vis Rs 10,330 Mn in the corresponding quarter last year.

EBITDA for this segment was at Rs 5,441 Mn as compared to Rs 3,826 Mn in the corresponding quarter last year and Rs 5,607 Mn in the previous quarter. The reported EBITDA margin was 68.7% in the current quarter as compared to 37.0% in the corresponding quarter last year and 71.0% in the previous quarter. EBIT for the quarter was Rs 3,011 Mn as compared to Rs 1,568 Mn in the corresponding quarter last year and Rs 3,243 Mn in the previous quarter. The resultant EBIT margin was at 38.0% as compared to 15.2% in the corresponding quarter last year and 41.1% in the previous quarter.

During the current quarter, the Company incurred a capital expenditure of Rs 3,509 Mn. The resultant operating free cash flow during the quarter was at Rs 1,931 Mn as compared to Rs 558 Mn in the corresponding quarter last year and Rs 3,556 Mn in the previous quarter.

5.5.4 B2B Services – India: Airtel Business

Airtel Business segment revenues for the current quarter was at Rs 33,176 Mn as compared to Rs 31,116 Mn in the corresponding quarter last year. The company has designed industry-specific solutions like Enterprise Hub, a one-stop digital self-care portal, to improve customer engagement, experience and life cycle management.

EBITDA stood at Rs 12,125 Mn during the quarter as compared to Rs 9,874 Mn in the corresponding quarter last year, growth of 22.8%. EBITDA increased by 29.0% as compared to Rs 9,396 Mn in the previous quarter. The EBITDA margin stood at 36.5% in the current quarter, as compared to 31.7% in the corresponding quarter last year and 28.2% in the previous quarter. EBIT for the current quarter has increased by 21.1% to Rs 8,075 Mn as compared to Rs 6,667 Mn during the corresponding quarter last year and the resultant EBIT margin was at 24.3% during the quarter as compared to 23.1% in the corresponding quarter last year. EBIT increased by 4.8% as compared to Rs 7,706 Mn in the previous quarter.

The Company incurred a capital expenditure of Rs 7,628 Mn in Airtel Business as compared to Rs 8,603 Mn in the corresponding quarter last year and Rs 2,620 Mn in the previous quarter. Operating free cash flow during the quarter was Rs 4,498 Mn as compared to Rs 1,271 Mn in the corresponding quarter last year and Rs 6,776 Mn in the previous quarter.

5.5.5 Tower Infrastructure Services

The financials of this segment reflect standalone operations of Bharti Infratel Limited (Infratel), a subsidiary of the Company, with the interest in Indus Tower Ltd (Indus) disclosed under share of profits from Joint Ventures/ Associates.

Revenues of Infratel for the quarter ended Dec 31, 2019 has decreased by 3.8% to Rs 16,662 Mn as compared to Rs 17,325 Mn in the corresponding quarter last year. EBITDA during the quarter was at Rs 8,782 Mn compared to Rs 8,510 Mn in the corresponding quarter last year (up 3.2% Y-o-Y) and Rs 9,268 Mn in the previous quarter (down 5.2% Q-o-Q). EBIT for the quarter was at Rs 5,686 Mn as compared to Rs 5,829 Mn in the corresponding quarter last year (down 2.5% Y-o-Y) and Rs 6,125 Mn in the previous quarter (down 7.2% Q-o-Q).

As at the end of the quarter, Infratel had 41,471 towers with average sharing factor of 1.85 times compared to 1.95 times in the corresponding quarter last year. Including proportionate share of

Indus in which Infratel holds 42% of stake, on a consolidated basis, Infratel had 94,244 towers with an average sharing factor of 1.85 times as compared to 1.89 times in the corresponding quarter last year.

Bharti Infratel incurred a capital expenditure of Rs 1,611 Mn during the quarter on a standalone basis. Operating free cash flows during the quarter were Rs 7,171 Mn as compared to Rs 6,633 Mn in the corresponding quarter last year and Rs 7,132 Mn in the previous quarter. The share of profits of Indus during the quarter came in at Rs 3,852 Mn as compared to Rs 2,177 Mn in the corresponding quarter last year and Rs 4,866 Mn in the previous quarter.

5.5.6 Africa

As on Dec 31, 2019, the Company had an aggregate customer base of 107.1 Mn as compared to 97.9 Mn in the corresponding quarter last year, an increase of 9.4%. Customer churn for the quarter has increased to 5.2% as compared to 4.5% in the previous quarter. Total minutes on network during the quarter registered a growth of 24.1% to 65.1 Bn as compared to 52.4 Bn in the corresponding quarter last year.

Data customers during the quarter increased by 3.6 Mn to 32.9 Mn as compared to 29.3 Mn in the corresponding quarter last year. Data customers now represent 30.7% of the total customer base, as compared to 29.9% in the corresponding quarter last year. The total MBs on the network grew at a healthy growth rate of 80.2% to 189.8 Bn MBs compared to 105.3 Bn MBs in the corresponding quarter last year. Data usage per customer during the quarter was at 1,967 MBs as compared to 1,248 MBs in the corresponding quarter last year, an increase of 57.6%.

The total customer base using the Airtel Money platform increased by 20.5% to 16.6 Mn as compared to 13.8 Mn in the corresponding quarter last year. Total value of transactions on the Airtel money platform has witnessed a growth of 31.7% to \$ 8,576 Mn in the current quarter as compared to \$ 6,509 Mn in the corresponding quarter last year. Airtel Money revenue is at \$ 83.9 Mn as compared to \$ 64.2 Mn in the corresponding quarter last year reflecting a growth of 30.6%.

The Company had 22,253 network towers at end of the quarter as compared to 20,582 network towers in the corresponding quarter last year. Out of the total number of towers, 19,133 are mobile broadband towers. The Company has total 43,174 mobile broadband base stations as compared to 29,650 mobile broadband base stations at the end of the corresponding quarter last year.

Africa revenues at \$ 896 Mn grew by 14.2% as compared to \$ 785 Mn in the corresponding quarter last year as a result of continued strong performance in Nigeria and East Africa and an improvement in the performance of the Rest of Africa.

Opex for the quarter is at \$ 313 Mn as compared to \$ 321 Mn in the corresponding quarter last year and \$ 305 Mn in the previous quarter. EBITDA was at \$ 404 Mn as compared to \$ 306 Mn in the corresponding quarter last year and \$ 376 Mn in the previous quarter. EBITDA margin was at 45.1% for the quarter (up 6.1% Y-o-Y, up 1.1% Q-o-Q). Depreciation and amortization charges were at \$ 155 Mn as compared to \$ 114 Mn in the corresponding quarter last year and \$ 154 Mn in the previous quarter. EBIT for the quarter was at \$ 248 Mn as compared to \$ 191 Mn in the corresponding quarter last year and \$ 221 Mn in the previous quarter.

The resultant profit before tax and exceptional items for the quarter was at \$ 175 Mn as compared to \$ 114 Mn in the corresponding quarter last year and \$ 143 Mn in the previous quarter.

Capital expenditure during the quarter was \$ 150 Mn for Africa operations. Operating free cash flow during the quarter was at \$ 254 Mn, as compared to \$ 136 Mn in the corresponding quarter last year and \$ 228 Mn in the previous quarter.

5.6 Bharti's Three Line Graph

The Company tracks its performance on a three-line graph.

The parameters considered for the three-line graph are:

1. Total Revenues i.e. absolute turnover/sales
2. Opex Productivity – this is computed by dividing operating expenses by the total revenues for the respective period. Operating expenses is the sum of (i) employee costs (ii) network operations costs and (iii) selling, general and

administrative costs. This ratio depicts the operational efficiencies in the Company

3. Capex Productivity – this is computed by dividing revenue for the quarter (annualized) by gross cumulative capex (gross fixed assets and capital work in progress) till date i.e. the physical investments made in the assets creation of the Company. This ratio depicts the asset productivity of the Company.

Given below are the graphs for the last five quarters of the Company:

SECTION 10

KEY ACCOUNTING POLICIES AS PER Ind-AS

• Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and impairment loss. All direct costs relating to the acquisition and installation of property and equipment are capitalised.

Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets.

Assets	Years
Building	20
Building on leased land	20
Network equipment	3-25
Customer premises equipment	5 – 6
Assets taken on finance lease	Period of lease or 10 years, as applicable, whichever is less
Computer equipment	3
Furniture & Fixture and office equipment	2 – 5
Vehicles	3 – 5
Leasehold improvements	Period of the lease or 10/20 years, as applicable, whichever is less
Leasehold Land	Period of the lease

Land is not depreciated. The useful lives, residual values and depreciation method of PPE are reviewed, and adjusted appropriately, at-least as at each reporting date so as to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits from these assets.

Costs of additions and substantial improvements to property and equipment are capitalised. The costs of maintenance and repairs of property and equipment are charged to operating expenses.

• Goodwill

Goodwill arising on the acquisition of an entity represents the excess of the cost of acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the entity recognised at the date of acquisition.

Goodwill is not subject to amortisation but is tested for impairment annually and when circumstances indicate, the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than their carrying amount an impairment loss is recognised. Impairment losses relating to goodwill are not reversed in future periods.

On disposal of a subsidiary, the attributable amount of goodwill is included in the determination of the profit or loss recognised in the statement of profit and loss on disposal.

• Other Intangible assets

Identifiable intangible assets are recognised when the Group controls the asset, it is probable that future economic benefits

attributed to the asset will flow to the Group and the cost of the asset can be measured reliably.

The intangible assets that are acquired in a business combination are recognised at its fair value there at. Other intangible assets are recognised at cost. These assets having finite useful life are carried at cost less accumulated amortisation and any impairment losses. Amortisation is computed using the straight-line method over the expected useful life of intangible assets.

The Group has established the estimated useful lives of different categories of intangible assets as follows:

a. Licenses (including spectrum)

Acquired licenses and spectrum are amortised commencing from the date when the related network is available for intended use in the relevant jurisdiction. The useful lives range from two years to twenty five years.

The revenue-share based fee on licenses / spectrum is charged to the statement of profit and loss in the period such cost is incurred.

b. Software: Software are amortised over the period of license, generally not exceeding three years.

c. Other acquired intangible assets: Other acquired intangible assets include the following:

Rights acquired for unlimited license access: Over the period of the agreement which ranges upto five years.

Distribution network: One year to two years

Customer base: Over the estimated life of such relationships which ranges from one year to five years.

Non-compete fee: Over the period of the agreement which ranges upto five years.

The useful lives and amortisation method are reviewed, and adjusted appropriately, at least at each financial year end so as to ensure that the method and period of amortisation are consistent with the expected pattern of economic benefits from these assets. The effect of any change in the estimated useful lives and / or amortisation method is accounted prospectively, and accordingly the amortisation is calculated over the remaining revised useful life.

Further, the cost of intangible assets under development includes the borrowing costs that are directly attributable to the acquisition or construction of qualifying assets and are presented separately in the balance sheet.

• Investment in Joint Ventures and Associates

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only

when decisions about the relevant activities require unanimous consent of the parties sharing control.

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

Joint ventures and associates are accounted for from the date on which Group obtains joint control over the joint venture / starts exercising significant influence over the associate.

Accounting policies of the respective joint venture and associate are aligned wherever necessary, so as to ensure consistency with the accounting policies that are adopted by the Group under Ind-AS. The Group's investments in its joint ventures and associates are accounted for using the equity method. Accordingly, the investments are carried at cost as adjusted for post-acquisition changes in the Group's share of the net assets of investees. Losses of a joint venture or an associate in excess of the Group's interest in that joint venture or associate are not recognised. However, additional losses are provided for, and a liability is recognised, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture or associate.

At each reporting date, the Group determines whether there is objective evidence that the investment is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of investment and its carrying value.

• Leases

Effective April 1, 2019, the Group adopted Ind AS 116 'Leases' using the modified retrospective method, under which the cumulative effect of initial application is recognised in retained earnings at April 1, 2019. Accordingly, the comparative information has not been restated.

The Group, at the inception of a contract, assesses the contract as, or containing, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether the contract involves the use of an identified asset, the Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and the Group has the right to direct the use of the asset.

Group as a lessee

On initial application of Ind AS 116, the Group recognised a lease liability measured at the present value of all the remaining lease payments, discounted using the lessee's incremental borrowing rate at April 1, 2019 whereas the Group has elected to measure right-of-use asset at its carrying amount as if Ind AS 116 had been applied since the lease commencement date, but discounted using the lessee's incremental borrowing rate at April 1, 2019. The Group has elected not to recognise a lease liability and a right-of-use asset for leases for which the lease term ends within twelve months of April 1, 2019 and has accounted for these leases as short-term leases. The lease payments

associated with these leases are recognised as an expense on a straight line basis over the lease term.

For new lease contracts, the Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease agreements in which it is the lessee in the balance sheet. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using incremental borrowing rate. Lease liabilities include the net present value of fixed payments (including any in-substance fixed payments), any variable lease payments that are based on consumer price index ('CPI'), the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Subsequently, the lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments including due to changes in CPI or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or when the lease contract is modified and the lease modification is not accounted for as a separate lease. The corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the related right-of-use asset has been reduced to zero.

Right-of-use assets are measured at cost comprising the amount of the initial measurement of lease liability, any lease payments made at or before the commencement date, any initial direct costs less any lease incentives received.

Subsequent to initial recognition, right-of-use asset are stated at cost less accumulated depreciation and any impairment losses and adjusted for certain remeasurements of the lease liability. Depreciation is computed using the straight-line method from the commencement date to the end of the useful life of the underlying asset or the end of the lease term, whichever is shorter. The estimated useful lives of right-of-use assets are determined on the same basis as those of the underlying property and equipment.

In the balance sheet, the right-of-use assets and lease liabilities are presented separately.

When a contract includes lease and non-lease components, the Group allocates the consideration in the contract on the basis of the relative stand-alone prices of each lease component and the aggregate stand-alone price of the non-lease components.

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Group as a lessor

Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is

classified as a finance lease. All other leases are classified as operating leases.

Amounts due from lessees under a finance lease are recognised as receivables at an amount equal to the net investment in the leased assets. Finance lease income is allocated to the periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the finance lease.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight line basis over the lease term.

When a contract includes lease and non-lease components, the Group applies Ind AS 115 to allocate the consideration under the contract to each component.

The Group enters into 'Indefeasible right to use' ('IRU') arrangements wherein the right to use the assets is given over the substantial part of the asset life. However, as the title to the assets and the significant risks associated with the operation and maintenance of these assets remains with the Group, such arrangements are recognised as operating lease. The contracted price is recognised as revenue during the tenure of the agreement. Unearned IRU revenue received in advance is presented as deferred revenue within liabilities in the balance sheet.

• Derivative financial instruments

Derivative financial instruments, including separated embedded derivatives, that are not designated as hedging instruments in a hedging relationship are classified as financial instruments at fair value through profit or loss - Held for trading. Such derivative financial instruments are initially recognised at fair value. They are subsequently re-measured at their fair value, with changes in fair value being recognised in the statement of profit and loss within finance income / finance costs.

• Hedging activities

i. Fair value hedge

Some of the group entities use certain type of derivative financial instruments (viz. interest rate / currency swaps) to manage / mitigate their exposure to the risk of change in fair value of the borrowings. The Group designates certain interest rate swaps to hedge the risk of changes in fair value of recognised borrowings attributable to the hedged interest rate risk. The effective portion of changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the statement of profit and loss within finance income / finance costs, together with any changes in the fair value of the hedged liability that are attributable to the hedged risk. If the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of the hedged item is amortised to profit or loss over the period to remaining maturity of the hedged item.

ii. Cash flow hedge

The Group designates certain derivative financial instruments (or its components) as hedging instruments for hedging the exchange rate fluctuation risk attributable either to a recognised item or a highly probable forecast transaction. The effective portion of changes in the fair value of derivative financial instruments (or its components), that are designated and qualify as Cash flow hedges, are recognised in the other comprehensive income and held in Cash flow hedge reserve. Any gains / (losses) relating to the ineffective portion, are recognised immediately in the statement of profit and loss. The amounts accumulated in Equity are re-classified to the statement of profit and loss in the periods when the hedged item affects profit / (loss).

When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gains / (losses) existing in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in the statement of profit and loss. However, at any point of time, when a forecast transaction is no longer expected to occur, the cumulative gains / (losses) that were reported in equity is immediately transferred to the statement of profit and loss.

iii. Net investment hedge

The Group hedges its certain net investment in foreign subsidiaries which are accounted for similar to cash flow hedges. Accordingly, any foreign exchange differences on the hedging instrument (viz. borrowings) relating to the effective portion of the hedge is recognised in other comprehensive income and held in foreign currency translation reserve, so as to offset the change in the value of the net investment being hedged. The ineffective portion of the gain or loss on these hedges is immediately recognised in the statement of profit and loss. The amounts accumulated in equity are included in the statement of profit and loss when the foreign operation is disposed or partially disposed.

• Revenue recognition

Revenue is recognised upon transfer of control of promised products or services to customer at the consideration which the Group has received or expects to receive in exchange of those products or services, net of any taxes / duties, discounts and process waivers. In order to determine if it is acting as a principal or as an agent, the Group assesses whether it is primarily responsible for fulfilling the performance obligation and whether it controls the promised service before transfer to customers.

(i) Service revenues

Service revenues mainly pertain to usage, subscription and activation charges for voice, data, messaging and value added services. It also includes revenue from interconnection / roaming charges for usage of the Group's network by other operators for voice, data, messaging and signaling services.

Usage charges are recognised based on actual usage. Subscription charges are recognised over the estimated customer relationship period or subscription pack validity period, whichever is lower. Customer onboarding revenue and associated cost is recognised upon successful onboarding of customer i.e. upfront. Revenues in excess of invoicing are classified as unbilled revenue while invoicing / collection in excess of revenue are classified as deferred revenue / advance from customer.

The billing / collection in excess of revenue recognised is presented as deferred revenue in the Balance Sheet whereas unbilled revenue is recognised under other current financial assets.

Certain business services revenue include revenue from registration and installation, which are amortised over the period of agreement since the date of activation of service.

Revenues from long distance operations comprise of voice services and bandwidth services (including installation), which are recognised on provision of services and over the period of respective arrangements.

(ii) Multiple element arrangements

The Group has entered into certain multiple-element revenue arrangements which involve the delivery or performance of multiple products, services or rights to use assets. At the inception of the arrangement, all the deliverables therein are evaluated to determine whether they represent distinct performance obligations.

Total consideration related to the multiple element arrangements is allocated to each performance obligation based on their standalone selling prices.

(iii) Equipment sales

Equipment sales mainly pertain to sale of telecommunication equipment and related accessories, for which revenue is recognised when the control of such equipment is transferred to the customer. However, in case of equipment sale forming part of multiple-element revenue arrangements which is not distinct performance obligation, revenue is recognised over the customer relationship period.

• Interest income

The interest income is recognised using the effective interest rate method.

• Dividend income

Dividend income is recognised when the Company's right to receive the payment is established.

• Exceptional items

Exceptional items refer to items of income or expense within the statement of profit and loss from ordinary activities which are non-recurring and are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance of the Group.

• Foreign currency transactions

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the closing exchange rate prevailing as at the reporting date with the

resulting foreign exchange differences, on subsequent re-statement / settlement, recognised in the statement of profit and loss. Non-monetary assets and liabilities denominated in foreign currencies are translated into the functional currency using the exchange rate prevalent, at the date of initial recognition (in case they are measured at historical cost) or at the date when the fair value is determined (in case they are measured at fair value).

The assets and liabilities of foreign operations (including the goodwill and fair value adjustments arising on the acquisition of foreign entities) are translated into Rupees (functional currency of parent) at the exchange rates prevailing at the reporting date whereas their statements of profit and loss are translated into Rupees at monthly average exchange rates and the equity is recorded at the historical rate. The resulting exchange differences arising on the translation are recognised in other comprehensive income and held in foreign currency translation reserve. On disposal of a foreign operation (that is, disposal involving loss of control), the component of other comprehensive income relating to that particular foreign operation is reclassified to profit or loss.

• Income-taxes

Income tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date in the respective countries where the Group entities operate and generate taxable income. Deferred tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. However, deferred tax are not recognised if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Further, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. Moreover, deferred tax is recognised on temporary differences arising on investments in subsidiaries, joint ventures and associates - unless the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The unrecognised deferred tax assets / carrying amount of deferred tax assets are reviewed at each reporting date for recoverability and adjusted appropriately.

• Transactions with non-controlling interests

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The differences between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity.

SECTION 11

GLOSSARY

Technical and Industry Terms

Company Related	
Asset Turnover	Asset Turnover is defined as total revenues, for the preceding (last) 12 months from the end of the relevant period, divided by average assets. Asset is defined as the sum of non-current assets and net current assets. Net current assets are computed by subtracting current liabilities from current assets. Average assets are calculated by considering average of quarterly average for the preceding (last) four quarters from the end of the relevant period. For the Jun'19 onward quarters average assets is calculated by considering average of Opening and closing assets for the relevant period.
Average Customers	Average customers are derived by computing the average of the monthly average customers for the relevant period.
Average Co-locations	Average co-locations are derived by computing the average of the Opening and Closing co-locations for the relevant period.
Average Sharing Factor	It is calculated as the average of the opening and closing number of co-locations divided by the average of the opening and closing number of towers for the relevant period.
Average Towers	Average towers are derived by computing the average of the Opening and Closing towers for the relevant period.
Book Value Per Equity Share	Total stockholder's equity as at the end of the relevant period divided by outstanding equity shares as at the end of the relevant period.
Capex	It includes investment in gross fixed assets and capital work in progress for the period.
Capital Employed	Capital Employed is defined as sum of equity attributable to equity holders of parent and net debt.
Cumulative Investments	Cumulative Investments comprises of gross value of property, plant & equipment (including CWIP & capital advances) and intangibles including investment in associates.
Cash Profit From Operations before Derivative & Exchange Fluctuation	It is not an Ind-AS measure and is defined as profit from operating activities before depreciation, amortization and exceptional items adjusted for interest expense, interest income and non-operating expenses before adjusting for derivative & exchange (gain)/ loss.
Churn	Churn is calculated by dividing the total number of disconnections during the relevant period by the average customers; and dividing the result by the number of months in the relevant period.
Co-locations	Co-location is the total number of sharing operators at a tower, and where there is a single operator at a tower, 'co-location' refers to that single operator. Co-locations as referred to are revenue generating Co-locations.
Customer Base	Customers generating revenue through recharge, billing or any outgoing activity.
Customers Per Employee	Number of customers on networks of a business unit as at end of the relevant period divided by number of employees in the respective business unit as at end of the relevant period.
Data Customer Base	A customer who used at least 1 MB on GPRS / 3G / 4G network in the last 30 days.
Data Usage per Customer	It is calculated by dividing the total MBs consumed on the network during the relevant period by the average data customer base; and dividing the result by the number of months in the relevant period.
DTH / Digital TV Services	Direct to Home broadcast service
Earnings Per Basic Share	It is computed by dividing net income attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period.

Earnings Per Diluted Share	<p>The calculation of Net Profit/ (loss) per diluted share adjusts net profit or loss and the weighted average number of ordinary shares outstanding, to give effect to all dilutive potential ordinary shares that were outstanding during the year.</p> <p>Net profit or loss attributable to ordinary shareholders is adjusted for the after-tax effect of the following: (1) dividends on potential ordinary shares (for example, dilutive convertible preferred shares); (2) interest recognized on potential ordinary shares (for example, dilutive convertible debt); and (3) any other changes in income or expense resulting from the conversion of dilutive potential ordinary shares (e.g., an entity's contribution to its non-discretionary employee profit-sharing plan may be revised based on changes in net profit due to the effects of items discussed above).</p>
EBITDA	Earnings/ (loss) before interest, taxation, depreciation and amortization. It is not an Ind-AS measure and is defined as profit from operating activities before depreciation, amortization and exceptional items adjusted for CSR costs.
EBITDA Margin	It is computed by dividing EBITDA for the relevant period by total revenues for the relevant period.
EBIT	EBITDA adjusted for depreciation and amortization.
Enterprise Valuation (EV)	Calculated as sum of Market Capitalization, Net Debt and finance lease obligations as at the end of the relevant period.
EV / EBITDA (times)	Computed by dividing Enterprise Valuation as at the end of the relevant period (EV) by EBITDA for the relevant period (LTM). For current quarter, Computed by dividing Enterprise Valuation as at the end of the relevant period (EV) by annualized EBITDA for the relevant period.
Finance Lease Obligation (FLO)	Finance Lease Obligation represents present value of future obligation for assets taken on finance lease.
Gross Revenue per Employee per month	It is computed by dividing the Gross Revenue (net of inter-segment eliminations) by the closing number of employees in a given business unit and number of months in the relevant period.
Interest Coverage Ratio	EBITDA for the relevant period divided by interest on borrowing for the relevant period.
Market Capitalization	Number of issued and outstanding shares as at end of the period multiplied by closing market price (BSE) as at end of the period.
Mobile Broadband Base stations	It includes all the 3G and 4G Base stations deployed across all technologies i.e. 900/1800/2100/2300 Mhz bands.
4G Data Customer	A customer who used at least 1 MB on 4G network in the last 30 days.
Mobile Broadband Towers	It means the total number of network towers (defined below) in which unique number of either 3G or 4G Base stations are deployed, irrespective of their technologies. Total numbers of Mobile Broadband Towers are subset of Total Network Towers.
Minutes on the network	Duration in minutes for which a customer uses the network. It is typically expressed over a period of one month. It includes incoming, outgoing and in-roaming minutes.
Network Towers	Comprises of Base Transmission System (BTS) which holds the radio transreceivers (TRXs) that define a cell and coordinates the radio links protocols with the mobile device. It includes all the Ground based, Roof top and In Building Solutions as at the end of the period.
Net Debt	It is not an Ind-AS measure and is defined as the long-term debt, net of current portion plus short-term borrowings, current portion of long-term debt and lease liabilities minus cash and cash equivalents. The debt origination cost and Bond fair value hedge are not included in the borrowings
Net Debt to EBITDA (Annualized)	It is computed by dividing net debt as at the end of the relevant period by EBITDA for the relevant period (annualized).

Net Debt to Funded Equity Ratio	It is computed by dividing net debt as at the end of the relevant period by Equity attributable to equity holders of parent as at the end of the relevant period.
Net Revenues	It is not an Ind-AS measure and is defined as total revenues adjusted for access charges, cost of goods sold and license fees for the relevant period.
Operating Free Cash flow	It is computed by subtracting capex from EBITDA.
Personnel Cost per Employee per month	It is computed by dividing the Personnel Cost by the closing number of employees in a given business unit and number of months in the relevant period.
Price-Earnings Ratio – P/E Ratio	It is computed by dividing the closing market price (BSE) as at end of the relevant period by the earnings per basic share for the relevant period (LTM).
Profit / (Loss) after current tax expense	It is not an Ind-AS measure and is defined as Profit / (Loss) before taxation adjusted for current tax expense.
Return On Capital Employed (ROCE)	For the full year ended March 31, 2017, 2018 and 2019, ROCE is computed by dividing the sum of net profit and finance cost (net) excluding finance charges for the period by average (of opening and closing) capital employed. For the quarterly computation, it is computed by dividing the sum of net profit and finance cost (net) excluding finance charges for the preceding (last) 12 months from the end of the relevant period by average capital employed. Average capital employed is calculated by considering average of quarterly average for the preceding (last) four quarters from the end of the relevant period. For Jun'19 onward quarters ended, it is computed by dividing the sum of net profit and finance cost (net) excluding finance charges for the preceding (last) 12 months from the end of the relevant period by average capital employed (Average capital employed is calculated by considering average of opening and closing capital employed for the relevant period.).
Return On Equity attributable to equity holders of parent	For the full year ended March 31, 2017, 2018 and 2019, it is computed by dividing net profit for the period by the average (of opening and closing) Equity attributable to equity holders of parent. For the quarterly computations, it is computed by dividing net profit for the preceding (last) 12 months from the end of the relevant period by the average Stockholder's equity for the preceding (last) 12 months. Average Stockholder's equity is calculated by considering average of quarterly average for the preceding (last) four quarters from the end of the relevant period. For Jun'19 onward quarter ended, it is computed by dividing net profit for the preceding (last) 12 months from the end of the relevant period by average stockholder's equity (Average stockholder's equity is calculated by considering average of opening and closing stockholder's equity for the relevant period).
Revenue per Site per month	Revenue per Site per month is computed by: dividing the total mobile revenues, excluding sale of goods (if any) during the relevant period by the average sites; and dividing the result by the number of months in the relevant period.
Sharing revenue per Sharing Operator per month	It is calculated on the basis of the total revenues less energy and other pass through accrued during the relevant period divided by the average number of co-locations for the period, determined on the basis of the opening and closing number of co-locations for the relevant period.
Submarine Cable	Submarine cable system refers to owned cables and excludes cable capacity purchased on IRU.
Total Employees	Total on-roll employees as at the end of respective period and excludes 42% of Indus Towers employees in India.
Total MBs on Network	Includes total MBs consumed on the network (uploaded & downloaded) on our network during the relevant period.
Towers	Infrastructure located at a site which is permitted by applicable law to be shared, including, but not limited to, the tower, shelter, diesel generator sets and other alternate energy sources, battery banks, air conditioners and electrical works. Towers as referred to are revenue generating Towers.
Total Operating Expenses	It is defined as sum of employee costs, network operations costs and selling, general and administrative cost for the relevant period.
Voice Minutes of Usage	It is calculated by dividing the voice minutes of usage on our network during the relevant period by the

per Customer per month average customers; and dividing the result by the number of months in the relevant period.

Regulatory & Others

3G	Third - Generation Technology
4G	Fourth - Generation Technology
BSE	The Stock Exchange, Mumbai
RBI	Reserve Bank of India
GSM	Global System for Mobile Communications.
ICT	Information and Communication Technology
GAAP	Generally Accepted Accounting Principles
KYC	Know Your Customer
IAS	International Accounting Standards
IFRS	International Financial Reporting Standards
Ind-AS	Indian Accounting Standards
NSE	The National Stock Exchange of India Limited.
Sensex	Sensex is a stock index introduced by The Stock Exchange, Mumbai in 1986.
PPE	Property, plant and equipment
VoIP	Voice over Internet Protocol
SA	South Asia
KPI	Key Performance Indicator
LTM	Last twelve month
FTTH	Fiber-to-the home
VAS	Value added service
MPLS	Multi-Protocol Label Switching
