7. MATERIAL CHANGES AND COMMITMENTS AFFECTING FINANCIAL POSITION BETWEEN THE END OF THE FINANCIAL YEAR AND DATE OF REPORT**Impact of the CoVID-19 pandemic on the business:**

In the month of March of FY 2020, the COVID-19 pandemic developed rapidly into a global crisis, forcing governments to enforce lock-downs of all economic activities. This has caused interruption in economic activities and poised challenges in logistics and ability to maintain smooth operations of the Company.

The Company is a player into ITES industry and also operates as system integrator into various smart city projects of Governments. Although the effect of pandemic were felt since last year by the industry across, the Company continued to move forward at a measured pace.

The overall impact of CoVID-19 on the businesses of the Company has varied depending on health and socio-economic measures taken at the Government levels and hence cannot be reliably predicted.

Ability to maintain operations and schedule for restarting operations

As an ITES activities are concerned the Company was able to operate with the work force working from home. All the on-site government projects were suspended. After getting necessary permission from the Government and authorities these projects will start as per government guidelines and approvals. The Company possesses its ability and readiness to start its temporarily suspended projects, however this also depends upon external interruptions which cannot be reliably forecasted at this point of time.

Operations during lockdown

Your Company is committed to follow all the Government directives and guidelines and ensures health and safety of all the work force of the Company.

Work from home facility is provided to most of the employees and they are advised to be in touch with their immediate supervisors for any kind of support during any emergency situation. Various measures are taken by the HR Department to keep the health (physical and mental) of employees positive.

To estimate the further impacts in terms of numbers will become very speculative, however the company has made and is also making every effort to come out of this situation and move fast forward.

Estimation of the future impact of CoVID-19 on its operations

The suspended government projects are likely to have significant financial impact on the operations of the Company. Also, the Company predict substantial drop in new business avenues in the forthcoming couple of quarters. The payment for the completed Government project will be deferred and will result in increase in cost of project capital. There will be fewer new projects and the Company foresee halt in the bids in which the Company was a bidder.

To estimate the further impacts in terms of numbers is very speculative, however the company is making every effort to come out of this situation and move fast forward.

Details of impact of CoVID-19 on certain performance parameters -

Performance Parameters	Impact
Capital and Financial resources	Financial resources will be stretched to an extent of non-payment for the completed Government Projects and suspended Projects.
Profitability	There will be an impact on the profitability of the Company and its details and estimates can only be ascertained upon conduction of a financial audit.
Liquidity position	The delay in payment will create liquidity crunches, however the Company is committed to impose rigorous cashflow controls.
Ability to service debt and other financing arrangements	The Company has manageable long-term debts like Finance Lease Obligation. The Company will wherever possible try to renegotiate and mitigate the risk.
Assets	No major impact on the Assets used for ITES, however, the work-in-progress assets and other assets used in the system integration projects will be impacted. The Company will use all the available measures to ensure that the risk is minimised.
Internal financial reporting and control	All the internal financial reporting and controls are in place and continues to function as usual.
Supply chain	Due to restriction in the movements of goods and people the system integration projects will be strained. However, post lockdown period the availability of skilled labour needs to be evaluated. The Company will use all the available measures to ensure that the risk is minimised.
Demand	The demand of new projects will be lower as there will be cut in Government spending on non-essential projects.

We are committed to improving the lives of our employees and those in the communities where we operate. Trigyn continues to be engaged in various “Green Energy” initiatives with its customers.

Organizational Strategy

The Management of Trigyn follows the Organizational Strategy and Roadmap to implement a series of initiatives to streamline and refocus the Company to achieve certain objectives. A number of these objectives include:

- Enhanced integration of the Company’s US subsidiary, Trigyn Technologies Inc., with e-Government and related initiatives being pursued across other geographies by the Company.
- Continued focus on consolidating overhead to least costly geographies, to realize savings and enhance service offerings as a result of further integration, automation, knowledge transfer and training.
- Reevaluation of initiatives in geographies where economic conditions are no longer favorable for continued expansion efforts and such geographies can be serviced through partnerships or from other locations. This activity would be carried out subject to obtaining requisite statutory approvals from the concerned authorities.
- Focus on the retention and development of existing talent through the offering of incentives such as stock options, optimum compensation structures, training and promotion from within.
- Ensure strict compliance of all laws and regulations in all regions where we operate and identify and bring to the fore all issues of non-compliance.

Industry Outlook

The Indian IT-BPM sector continues to be the largest employers in the country. Trigyn is well positioned to continue to grow along with the industry.

It has also been widely reported in the past from several multi nationals with multi-country operations as well as syndicated analysts comparing the various sourcing locations that India offers the best “bundle” of benefits being sought by the global sourcing industry.

Industry Alliances

Trigyn has established partnership with the leading technology companies like Microsoft, EMC², TIBCO® and IBM. Trigyn believes in a partner ecosystem that creates value for its clients through innovative solutions focused on making a difference, and in assisting its clients in achieving their vision, goals and organization objectives. The industry alliances provide a robust foundation to provide the best-of-the-breed solutions to cater to the increasing demands from clients for value added services around the software and solutions from OEM vendors. Trigyn shall focus on partnering with emerging software solution vendors who wish to establish base in the India sub-continent and tap the potential in niche areas. Furthermore, Trigyn is an evangelist for open-source and promotes these solutions to clients where these deliver value and unique proposition.

Opportunities and Threats

- Opportunities

Trigyn is well positioned to leverage the expanding human capital at its disposal through its unique global footprint anchored by its Offshore Development Center (ODC) in Mumbai, India. Trigyn has made impressive progress over the past few years on a number of fronts to ensure its continued growth. Trigyn has a stable operating management

team which averages over 5 years with the Company and 15-20 years of industry experience. It has tenaciously and deliberately moved to ensure that its business is derived from multiple sources including Offshore Development, Managed Services and Staff Augmentation, as well as across diverse geographies such as the US, Europe, Africa and Asia. It has worked hard to ensure that a number of the critical business functions are serviced by resources in its ODC and has integrated the cultures across its operations.

- Threats

The business revenues are sourced predominantly from the US market. Given the prolonged economic impact in this market, Trigyn's business could be adversely impacted. This impact could also be felt by the State and Local Governments, as these entities are negatively impacted by a loss of tax revenues and institute budget cuts for resources and postpone or cancel projects. Another area of concern for the Company is the increasing level of competition across the IT services industry. With a shrinking number of client dollars and more competitors chasing these dollars, the threat to revenue and equally as significant, profit margins, become ever more likely.

Results of Operations and Segment

During the year under review on a standalone basis your company achieved Total Revenue of ₹ 8,823.15 lakhs as compared to ₹ 7,624.01 lakhs in the previous year. The net profit on standalone basis stood at ₹ 300.64 lakhs as compared to ₹ 620.85 lakhs in the previous year.

During the year under review on a consolidated basis your company achieved Total Revenue of ₹ 98,541.42 lakhs as compared to ₹ 91,054.58 lakhs in the previous year. The net profit on consolidated basis stood at ₹ 6,217.29 lakhs as compared to ₹ 5,010.36 lakhs in the previous year.

In accordance with Accounting Standard Ind AS 108 'Operating Segment, the company is having single reportable segment i.e. "Communications and information technology staffing support services".

Return on Net worth (in %)	1.64	3.43	(52.22) %	10.94	9.76	12.15 %

Reasons for significant changes:

- Debtors Turnover (in days) has increased in the current year due to delay in customer receipts, majorly from Government projects, on account of the pandemic.
- Due to COVID-19 crisis and lockdown, the stock that was purchased for installation at client locations was lying with the Company. This has attributed to an increase in inventory turnover (in days).
- The Interest coverage ratio has fallen in F.Y. 2020-21 due to repayment of debt fund.
- Net profit margin and Return on Net worth has reduced because dividend received from wholly owned subsidiary during the year ended March 31, 2021 is less than that received during the previous year ended March 31, 2020.

Risks and Concerns

The revenue growth and profitability of the business of Trigyn is subject to the following:

- Changes in the domestic and international economic and business conditions
- Commoditization of the Offshore Software Services business
- Foreign exchange rate fluctuations
- Length of the sales cycle
- Success in expanding the global operations through direct sales force and indirect distribution
- Economic downturn impacting our customers
- Activities of our competitors
- Allocation and availability of resources

Based on the preceding factors, the Company could experience a shortfall in revenues or earnings or fail to meet the public market expectations, which could materially and adversely affect the business operations, financial condition and market price of the Company's shares on the stock market.

Internal Control System and their Adequacy

Trigyn continuously reviews its Internal Control system in order to further strengthen and make it commensurate with the size and nature of the business which currently is well defined and commensurate with the scale of operations of the Company.

The CFO certification provided in the Annual Report discusses the adequacy of our internal control systems and procedures.

HR is structured into the specialized business units to enable them respond better to the needs of their customers and get more strategic advantage. The HR organization is equipped with multicultural leaders capable to handle tremendous volatility in the economic, regulatory and cultural sphere around the world.

Some of the initiatives included monthly PoB (Pat on the Back) awards, Spot Peer Appreciation Awards, League of Extra-Ordinary **A**bled **P**eople (LEAP) Awards, along with Service Anniversaries and Stock Options.

Amongst other initiatives, implementation of Rewards & Recognition Program and further improving the HRMS are some of the plans for the next year.

- Talent acquisition

The recruitment strategy of Trigyn helps create a workforce with diverse culture and thinking across all levels which in turn brings in a competitive advantage for the Company.

In FY 20-21, the Company has hired and integrated 144 people into its workforce across the globe. As on August 17, 2021, 537 people were employed with the Company excluding Managed Services operation.

- Talent development, engagement and retention

The effort is towards developing competencies in technology, domain and processes to meet customer requirements and help our employees to stay relevant and realize their potential.

The Company uses various delivery mechanisms for imparting knowledge to its employees.

- Diversity and Gender Equality

Trigyn is committed to diversity across all of the geographic locations where it provides services and solutions to its customers. To this end, the Company continues to enter into contracts with several US based Minority and Women owned businesses. Outside of the USA, the Company has undertaken a number of initiatives aimed at broadening the diversity of its work force, from its operations in India to a number of its work locations around the globe. Trigyn has also taken steps to ensure Gender Equality throughout its operations and has launched specific initiatives to ensure Gender Equality throughout all facets of its operation. Trigyn developed and adopted an Affirmative Action Plan in the US, to ensure operational compliance with its objectives and values.

- Compliance

The Company ensures compliance of employment, immigration and labour laws in countries of operation. Changes in the applicable regulations are tracked on a global basis.

The Company has zero tolerance for sexual harassment at workplace and has adopted a policy on prevention prohibition and redressal of sexual harassment at workplace in line with the provisions of the Sexual /Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 and the rules thereunder for prevention and redressal of complaints of sexual harassment at workplace.

Independent Auditor's Report

To the members of Trigyn Technologies Limited

Independent Auditor's Report

To the members of Trigyn Technologies Limited

Report on the Standalone Indian Accounting Standard ("Ind AS") Financial Statements for the year ended 31st March, 2021

OPINION

We have audited the standalone financial statements of **Trigyn Technologies Limited** ("the Company"), which comprise the Balance Sheet as at 31 March 2021, and the Statement of Profit and Loss (including other comprehensive income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters ('KAM') are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Sr. No.	Key Audit Matter	Auditor's Response
1	<p>Accounting for fixed price contracts :</p> <p>In respect of Andhra Pradesh State Fibernet Limited (APSFL) Project which was a fixed price contract awarded through tendering process where over 90% work has been completed by March 2021, there has been undue delay in completion of the balance work as APSFL is yet to provide the sites for balance classrooms and Central Studio. Also civil works which is the responsibility of APSFL is pending at 2 district studios. APSFL has not given go live certificate which is one of the conditions under the contract. As per the terms of the contract the company has raised 3 milestone bills. The total amount outstanding against this project as at 31.03.2021 amounted to Rs. 61.55 Crores which is outstanding for more than 365 days. As of the date of the reporting, work has not commenced for completion of the remaining portion of the contract and there is uncertainty regarding expected completion of the balance work and collection of dues. The management has adopted a cautious approach towards booking of Quarterly Guaranteed Revenue (QGR) amounting to Rs. 53.36 Crores including GST on account of uncertainty of collection. (Refer note No. 51A).</p>	<p>We have examined the status report provided to us by the management of the company from time to time. We have also been provided with certain correspondence which the company's project team has had with APSFL in respect of balance work and recovery of dues which indicates the company's preparedness to execute the balance work and the lack of response from APSFL. It is observed that there have been considerable delays in getting the invoices approved by the authorities at APSFL and there has been collection of only Rs. 2.45 Crores during the year.</p> <p>Under IND AS-115, one of the conditions to recognize revenue is the probability that the entity will collect the consideration due under the contract. The company has obtained opinion from subject matter expert in support of their stand towards non booking of Quarterly Guaranteed Revenue (QGR). We have relied on the expert's opinion in this regard.</p> <p>We have also relied on company's representation for non-consideration of the outstanding dues as doubtful of recovery (only provision is made for expected credit loss) as the outstanding is from a Government entity.</p>

Sr. No.	Key Audit Matter	Auditor's Response
2	<p><u>Disputed Tax Matters</u></p> <p>a) In respect of contingent liability of Rs. 985.14 lakhs on account of Revenue filing an appeal before the Honorable Bombay High Court for the quantum and penalty for Assessment Year 2007-08 (Refer Note No. 34)</p> <p>b) In respect of interest levied by the income tax department amounting to Rs. 1.56 Crores for Assessment Year 2003-04 appearing on the Income Tax website (Refer Note No. 34 – Contingent Liabilities)</p>	<p>Procedures performed by the Auditor :</p> <p>For tax matters our procedures included examining the company's tax consultants views and discussions with Company's legal counsel assessing management's conclusions;</p> <p>We also involved our internal tax specialists to gain an understanding and to determine the chances of verdict favouring the company.</p> <p>This being a technical matter, we have relied upon the company's decision for non-provision of interest.</p>
3	<p><u>Disputed GST demand</u></p> <p>Andhra Government had initiated departmental audit u/s. 73 of the GST Act in respect of the company's Andhra Pradesh branch. The department has raised a demand for Rs. 3.20 crores including interest and penalty for FY 2017-18 and FY 2018-19.</p> <p>In this regard the company is in the process of filing an appeal.</p> <p>(Refer to Note No.- 58)</p>	<p>Procedures performed by the Auditor:</p> <p>For GST matters our procedures included examining the company's GST consultants views and discussions with Company's legal counsel; assessing management's conclusions;</p> <p>We also involved our internal GST specialists to gain an understanding and to determine the chances of verdict favouring the company.</p> <p>This being a technical matter, we have relied upon the company's decision for non provision of liability as it is disputed by the company.</p>
4	<p><u>Litigation Matters</u></p> <p>In respect of legal cases filed by the company and against the company as at 31st March 2021 (Refer Note No. 34 a to g)</p>	<p>We have assessed the management's position through discussions and correspondence with the in-house legal expert on both, the probability of success in the aforesaid cases, and the magnitude of any potential loss.</p> <p>We have discussed with the management on the development in these litigations during the year ended 31st March 2021.</p> <p>Reviewed the disclosures made by the Company in the financial statements in this regard.</p>
5	<p><u>Expected Credit Loss</u></p> <p>The company makes use of a simplified approach for trade and other receivables as well as contract assets and records the loss allowance as lifetime expected credit losses. These are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial instrument. In calculating, the company uses its historical experience, external indicators and forward-looking information to calculate the expected credit losses using a provision matrix.</p> <p>Provisioning for Expected Credit Loss on doubtful assets during the year amounted to Rs. 347.18 lakhs (net) under the head "Other Expenses." (Refer to Note no.- 55)</p>	<p>The company has appointed an external consultant who has evaluated the historical experience and forward looking information to calculate the expected credit losses using a provision matrix.</p> <p>We have test checked the working provided by the external consultant including development of the methodology for the allowance for credit losses.</p> <p>We have checked the completeness and accuracy of information used in the estimation of probability of default and the computation of the allowance for credit losses.</p> <p>We identified allowance for credit losses as a key audit matter because the Company exercises significant judgment in calculating the expected credit losses which appears to be reasonable.</p>

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the standalone financial statements and our auditors' report thereon. Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether

the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit / loss (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Emphasis of matter

We draw attention to

1. Note No - 47 of the financial statements with respect to necessary approval and permissions from RBI under FEMA regulations and carrying forward of balances in respect of wound up overseas subsidiaries and step down overseas subsidiaries. These balances which are fully provided for have no bearing on profitability nor on the assets and liabilities position of the company (as fully explained in the notes).
2. Note No – 51 A) of the financial statements in respect of Andhra Pradesh State Fibernet Ltd. project which is fully explained in the Notes. The company has obtained independent expert's opinion to validate their stand. We have relied on the independent expert's opinion.
3. Note No - 34 (a) to (g) of the financial statements regarding pending legal suits filed by the company and against the company and its wholly own subsidiary as fully explained in the Notes."
4. Note No - 55 of the financial statements regarding provision for Expected Credit Loss on doubtful assets as fully explained in the Notes.
5. Note No – 58 of the financial statements in respect of departmental audit initiated by GST department of Andhra Pradesh Government u/s. 73 of the GST Act for Trigyn Technologies Ltd., Andhra Pradesh Branch as fully explained in the Notes.

Our opinion is not qualified in the above matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

(A) As required by Section 143(3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors as on 31 March 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act.

- (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- (g) The entire statutory audit of the company has been carried out based on remote access of the data as provided by the company due to COVID -19 pandemic across India. We relied on alternative audit procedures as per the Standards on Auditing prescribed by the Institute of Chartered Accountants of India (ICAI). As a result of the above, the audit has been carried out based on the data provided for our audit purposes which we relied as correct, complete and are directly generated by the accounting system of the company without any further manual modifications. The financial performance of the unit has been thus prepared and presented by the company and audited by us in the aforesaid conditions.
- (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations as at 31st March 2021 on its financial position in its standalone IND AS financial statements matters (Refer Note 34 (a) to (g) of the standalone financial statements);
 - ii. As represented by the Company, there are no long-term contracts including derivative contracts for which there were any material foreseeable losses - (Refer Note 60 to the standalone financial statements);
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Group (Refer Note No. 61 to the standalone financial statements).
- (C) With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

Annexure B to the Independent Auditors' Report

[Referred to in paragraph pertaining to “Report on Other Legal and Regulatory Requirement” of our Report of even date to the Members of Trigyn Technologies Limited on the Standalone Ind AS financial statements for the year ended 31st March, 2021]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Trigyn Technologies Limited** (“the Company”) as of March 31, 2021 in conjunction with our audit of the Standalone IND AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (**IFCOFR**) issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over Financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgments, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to explanation given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. Based on our suggestion and with a view to adopt best practices the company is in the process of updating an internal control manual.

Notes to the Standalone financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

1. The Corporate Overview

Trigyn Technologies Limited ('TTL' or 'the company') is a public company domiciled in India and incorporated under the provisions of Indian Companies Act. The company's registered office is at Unit 27, SDF I, SEEPZ - SEZ, Andheri (E), Mumbai 400096. The company's equity shares are listed on the Bombay Stock Exchange and National Stock Exchange in India.

As at 31st March 2021 United Telecom Limited (UTL), holds 44.51% (Previous year 45.99%) of the company's equity share capital. Therefore, TTL is an associate company of UTL.

The company is engaged in the business of providing IT Solutions, staffing, consulting, systems integration, managed services, software development, maintenance, and other services.

The company caters to both domestic and international markets through network of its subsidiaries in India and abroad. These are the company's separate financial statements.

The financial statements for the year ended March 31, 2021 were approved by the Board of Directors and authorised for issue on May 12, 2021.

2. Significant accounting policies

The following are the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments and defined benefit plan assets which are measured at fair values, the provision of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

The Company has consistently applied accounting policies to all periods, except for the new and amended standards if any.

2.2 Functional and presentation currency

All amounts included in the financial statements are reported in Indian rupees in lakhs and has been rounded to nearest lakhs with two decimal places except per share data, unless otherwise stated. Due to rounding off, the numbers presented throughout the document may not add up precisely to the totals and percentages may not precisely reflect the absolute figures.

2.3 Significant accounting judgments, estimates and assumptions

The preparation of the financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, current assets, non-current assets, current liabilities, non-current liabilities and disclosure of the contingent liabilities at the end of each reporting period. Actual amount may differ from these estimates.

Detailed information about each of these estimates and judgements is included in relevant notes.

The areas involving critical estimates and judgements are:

- Estimation of current tax expense and payable including amount expected to be paid/ recovered for uncertain tax position.
- Estimation of defined benefit obligation.
- Recognition of revenue.
- Recognition of deferred tax assets/deferred tax liability.

Notes to the Standalone financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

- Impairment Testing.
- Valuation of Financial Instrument.
- Useful life of property, plant and equipment and Intangible assets,
- Provision and Contingencies.
- Litigation.
- Estimation Uncertainty relating to the Global Health Pandemic on COVID-19

Estimation and underlying assumptions are reviewed on ongoing basis. Revisions to estimates are recognised prospectively.

2.4 Current v/s non-current classification

The company presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset /liability is current when it is:

- Expected to be realised/settled or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised / settled within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other assets/ liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.5 Property, plant and equipment (PP&E).

• Recognition and measurement

Items of PP&E are measured at cost of acquisition or construction less accumulated depreciation and accumulated impairment loss, if any. Borrowing costs relating to acquisition/construction/development of tangible assets and Capital Work in Progress which takes substantial period to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

When significant components of PP&E are required to be replaced at intervals, recognition is made for such replacement of components as individual assets with specific useful life and depreciation if these components are initially recognized as separate asset. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

• Subsequent costs

The cost of replacing a part of an item of PP&E is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of PP&E are recognised in the statement of profit and loss as incurred.

• Disposal

Gains and losses on disposal are determined by comparing the proceeds with the carrying amount. These are recognised as income/ expenses in the statement of profit and loss.

Notes to the Standalone financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

• Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value. Depreciation is recognised in the statement of profit and loss on a straight-line basis over the estimated useful lives of each part of an item of PP&E as prescribed in Schedule II of the Companies Act, 2013, as assessed by the management of the company based on technical evaluation

Depreciation is provided pro-rata for the number of months available for use. Depreciation on sale/ disposal of assets is provided pro-rata up to the end of month of sale/ disposal.

The PP&E acquired under hire purchase is depreciated over the shorter of the hire purchase term and their useful lives unless it is reasonably certain that the company will obtain ownership by the end of the hire purchase term in which case assets are depreciated on the basis of estimated useful life.

The estimated useful lives of items of PP&E as under:

Asset	Useful life
Buildings	20 years
Office equipment	3 to 4 years
Computer and peripherals	3 years
Computer software	3 years
Furniture and fixtures	4 years
Leasehold improvements	6 years

2.6 Intangible assets

• Recognition and measurement

Intangible assets are recognised when the asset is identifiable, is within the control of the company, it is probable that the future economic benefits that are attributable to the asset will flow to the company and cost of the asset can be reliably measured.

Research and development: Expenditure on research is recognized as an expense when it is incurred. Expenditure on development which does not meet the criteria for recognition as an intangible asset is recognized as an expense when it is incurred

Intangible assets acquired by the company that have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses. Cost comprises of the acquisition price, development cost and any other attributable/allocable incidental cost of bringing the asset to its working condition for its intended use.

For Service Concession Arrangements

With respect to service concession arrangements in which government or other public sector body contracts with a private operator to develop (or upgrade), operate and maintain the grantor's infrastructure assets. The Company recognises an intangible asset as per IND AS 38 to the extent that it receives a right (a licence) to charge users of the public service. Amortisation of this intangible asset will be done over the period of the service concession agreement, using the straight-line method prescribed under IND AS 38. A right to charge users is not an unconditional right to receive cash because the amounts are contingent on the extent to which the public uses the service.

As per the IND AS 115 the amounts received from the usage of the service be recognised as revenue.

• Subsequent measurement

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates.

Notes to the Standalone financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

• Amortisation

- i) Intangible assets with finite lives are amortized over their estimated useful economic life and assessed for impairment wherever there is an indication that the intangible assets may be impaired.
- ii) Intangible assets with infinite lives are tested for impairment at least annually, and where there is an indication that the assets may be impaired.

Application software capitalised as Intangible Asset is normally amortized over a period of three years or over its useful life before it become obsolete, whichever is earlier.

The estimated useful lives as under:

Asset	Useful life
Software	3 years

• Disposal:

Gain or losses arising from derecognition of an intangible assets are recognized in statement of Profit and Loss when the assets is derecognized.

2.7 Impairment

Financial assets

The company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the assets carried at amortised cost and FVTOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables the Company follows 'simplified approach' for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. A provision matrix is used to determine impairment loss allowance on portfolio of Company's trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

Impairment of investments

The carrying amounts of investments are reviewed at each balance sheet date if there is any indication of impairment based on internal / external factors. An impairment loss is recognized wherever the carrying amount of an investment exceeds its recoverable amount. Interest income is recognized using the effective interest method.

Impairment of non- financial assets

IND AS 36 ensures that assets are carried at not more than recoverable value. Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based

Notes to the Standalone financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset.

The value in use calculation is based on a DCF model. The cash flows are derived from the projections for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill recognized by the Company.

The company tests goodwill for impairment at least annually, or more frequently if events or changes in circumstances indicate that it might be impaired. For the purpose of impairment testing, goodwill, which arose on acquisition of the assets/entities, is allocated to a cash generating unit "CGU".

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

2.8 Inventories

Inventory comprising traded hardware and software are valued at lower of cost and net realisable value. Costs comprise cost of purchase and directly attributable costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

2.9 Cash Flow Statement:

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non –cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated

2.10 Revenue recognition

As per IND AS 115, to recognize revenues, the Company applies the following five step approach:

- i) Identify the contract with a customer,
- ii) Identify the performance obligations in the contract,
- iii) Determine the transaction price,
- iv) Allocate the transaction price to the performance obligations in the contract, and
- v) Recognize revenues when a performance obligation is satisfied. When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

Revenue from sale of goods in the course of ordinary activities is recognised when property in the goods or all significant risks and rewards of their ownership are transferred to the customer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods and regarding its collection.

Income from Communications and information technology staffing support services comprise income from time and material and fixed price contracts. Revenue from 'time and material' contracts is recognised, as and when related services are performed and accepted by the customer. Revenue from fixed price contracts is recognised using the percentage of completion method of accounting, under which the sales value of performance, including the profit thereon, is determined by relating the actual man hours of work performed to date to the estimated total man hours for each contract. Provision for estimated losses on uncompleted contracts are recorded in the period in which such losses become probable, based on current contract estimates.

Notes to the Standalone financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

Advance payments received from customers for whom no services have been rendered are accounted as 'Advance from customers'.

2.11 Other income

- **Interest income**

Interest income is recognised using effective interest rate method (EIR).

- **Dividend Income**

Dividends are recognised in the statement of profit and loss only when the right to receive the payment is established.

- **Other**

Revenue is recognised only when it is reasonably certain that the ultimate collection will be made.

2.12 Foreign currency transactions and balances

Transactions in foreign currency are recorded at exchange rates prevailing at the date of transactions. Exchange differences arising on foreign exchange transactions settled during the year are recognised in the statement of profit and loss of the year.

Monetary assets and liabilities denominated in foreign currencies which are outstanding, as at the reporting date are retranslated at the closing exchange rates and the resultant exchange differences are recognised in the statement of profit and loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

2.13 Employee benefits

- **Short-term employee benefits**

Employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and are recognised in the period in which the employee renders the related service. Retention bonus is accounted on actual payment basis.

- **Post-employment benefits**

Defined contribution plans

Contributions to the provident fund and Employee State Insurance which are defined contribution schemes, are recognised as an employee benefit expense in the statement of profit and loss in the period in which the contribution is due.

Defined benefit plans

The employees' gratuity scheme is a defined benefit plan. The present value of the obligation under such defined benefit plans is determined based on an independent actuarial valuation using the projected unit credit method, carried out as at balance sheet date. The obligation determined as afore said less the fair value of the Plan assets is reported as a liability or assets as of the reporting date. Actuarial gain or losses are recognised immediately in the Other Comprehensive Income and reflected in retained earnings and will not be reclassified to the statement of profit and loss.

Other long-term employee benefits

The liabilities for earned leave are not expected to be settled wholly within twelve months after the end of the reporting period in which the employee render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method as determined by an independent

(All amounts in Indian Rupees lakhs unless otherwise stated)

actuarial valuation. Remeasurements as a result of experience adjustments and change in actuarial assumptions are recognised in the statement of profit and loss.

Termination benefits

Termination benefits are expensed at the earlier of when the company can no longer withdraw the offer of those benefits and when the company recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

For other overseas companies, social security contributions are made as per the respective local laws and regulations. The same is charged to the Statement of Profit and Loss on an accrual basis. There are no obligations beyond the respective entity's contributions.

2.14 Share-based payments

Measurement and disclosure of the employee share-based payment plans is done in accordance with Ind AS 102 share based payments. Equity-Settled share based payments to directors and employees of the company and to directors and employees of subsidiary company including overseas subsidiary are measured at the Fair value of the equity instrument at the grant date.

The fair value determined at the grant date of equity-settled share based payments to directors and employees of the company are expensed and to directors and employees of the subsidiary company are recovered as the ESOP cost from its subsidiary.

2.15 Leases

The company has adopted IND AS 116 "Leases" with the date of the initial application being April 1, 2019. IND AS 116 replaces IND AS 17 – Leases and related interpretation and guidance. The company has applied IND AS 116 using the modified retrospective approach.

Rights to use assets owned by third parties under lease agreements are capitalized at the inception of the lease and recognised on the consolidated balance sheet. The corresponding liability to the lessor is recognised as a lease obligation within short and long-term borrowings. The carrying amount is subsequently increased to reflect interest on the lease liability and reduced by lease payments made. For calculating the discounted lease liability on leases, the incremental borrowing rate is used. The incremental borrowing rate is calculated at the rate of interest at which the company would have been able to borrow for a similar term and with a similar security the funds necessary to obtain a similar asset in a similar market. Finance costs are charged to the income statement so as to produce a constant periodic rate of charge on the remaining balance of the obligations for each accounting period.

If modifications or reassessments occur, the lease liability and right of use asset are re-measured. Right of use assets are depreciated over the shorter of the useful life of the asset or the lease term.

When the lease is for short-term or lease assets is of low value Company recognise the lease payments associated with those leases as an expense.

2.16 Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. All other borrowing costs are expensed in the period in which they are incurred.

2.17 Income tax

Income tax expense comprises current and deferred tax. It is recognised in the statement of profit and loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

Notes to the Standalone financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

• Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current tax assets and liabilities are offset only if there is a legally enforceable right to set it off the recognised amounts and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum Alternate Tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The company recognises MAT credit available as an asset only to the extent that there is convincing evidence that the company will pay normal income tax during the specified period. The company reviews the 'MAT credit entitlement' asset at each reporting date and writes down the asset to the extent the company does not have convincing evidence that it will pay normal tax during the specified period.

• Deferred tax

Deferred tax is provided using the balance sheet method on temporary differences between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax is the tax expected to be payable or recoverable in the future arising from temporary differences between the carrying amounts of assets and liabilities in the Balance Sheet and the corresponding tax bases used in the computation of taxable profit. It is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised, based on tax rates that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax is recognised to statement of profit and loss, except to the items that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

When there is uncertainty over income tax treatments of the certain item, the current and deferred tax asset or liability shall be recognized and measured by applying the requirements in Ind AS 12 based on the taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates determined by applying Appendix C to Ind AS 12, Income Taxes.

2.18 Provisions and contingencies

A provision is recognised when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost in the statement of profit and loss.

Contingent liability is disclosed in case of a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation.

present obligation arising from past events, when no reliable estimate is possible a possible obligation arising from past events where the probability of outflow of resources is not remote.

Contingent asset is not recognised in the financial statements. A contingent asset is disclosed, where an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

2.19 Earnings per share (EPS)

Basic EPS is calculated by dividing the profit or loss for the year attributable to equity holders of the company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted EPS adjust the figures used in the determination of basic EPS to consider

The after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, and

The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

2.20 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or

In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.21 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial Measurement

Financial assets and liabilities are initially measured at fair value except for trade receivables, which are measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through

Notes to the Standalone financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Subsequent measurement

a) Non-derivative financial assets

i) Financial assets at amortised cost

A financial asset shall be measured at amortised cost if both of the following conditions are met:

- a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. those maturing later than 12 months after the reporting date which are presented as non-current assets. Financial assets are measured initially at fair value plus transaction costs and subsequently carried at amortized cost using the effective interest rate method, less any impairment loss. Financial assets at amortised cost are represented by trade receivables, security deposits, cash and cash equivalents, employee and other advances and eligible current and non-current assets. Cash and cash equivalents comprise cash on hand and in banks and demand deposits with banks which can be withdrawn at any time without prior notice or penalty on the principal. For the purposes of the cash flow statement, cash and cash equivalents include cash on hand, in banks and demand deposits with banks, net of outstanding bank overdrafts that are repayable on demand, book overdraft and are considered part of the Company's cash management system.

ii) Debt instruments at FVTOCI

A debt instrument shall be measured at fair value through other comprehensive income if both of the following conditions are met: (a) the objective of the business model is achieved by both collecting contractual cash flows and selling financial assets; and (b) the asset's contractual cash flow represent SPPI Debt instruments included within FVTOCI category are measured initially as well as at each reporting period at fair value plus transaction costs. Fair value movements are recognised in other comprehensive income (OCI). However, the Company recognises interest income, impairment losses & reversals and foreign exchange gain/(loss) in statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from equity to profit and loss. Interest earned is recognized under the effective interest rate (EIR) method.

iii) Equity instruments at FVTOCI

All equity instruments are measured at fair value. Equity instruments held for trading is classified as FVTPL. For all other equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. The Company makes such election on an instrument-by-instrument basis.

If the Company decides to classify an equity instrument as FVTOCI, then all fair value changes on the instrument, excluding dividend are recognised in OCI. There is no recycling of the amount from OCI to statement of profit and loss, even on sale of the instrument. However, the Company may transfer the cumulative gain or loss within the equity.

iv) Financial assets at FVTPL

FVTPL is a residual category for financial assets. Any financial asset which does not meet the criteria for categorization as at amortised cost or as FVTOCI, is classified as FVTPL. In addition the Company may elect to designate the financial asset, which otherwise meets amortised cost or FVTOCI criteria, as FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency. Financial assets included within the FVTPL category are measured at fair values with all changes recorded in the statement of profit and loss.

Notes to the Standalone financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

b) Non-derivative financial liabilities

- i) Financial liabilities at amortised cost financial liabilities at amortised cost represented by borrowings, trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest rate method.
- ii) Financial liabilities at FVTPL Financial liabilities at FVTPL represented by contingent consideration are measured at fair value with all changes recognised in the statement of profit and loss

c) Derivative financial instruments

Derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in foreign exchange rates on foreign currency assets or liabilities and forecasted cash flows denominated in foreign currencies. The counterparty for these contracts is generally a bank.

Derivatives are recognized and measured at fair value. Attributable transaction costs are recognized in statement of profit and loss. (i) Cash flow hedges: Changes in the fair value of the derivative hedging instrument designated as a cash flow hedge are recognized in other comprehensive income and presented within equity in the cash flow hedging reserve to the extent that the hedge is effective. To the extent that the hedge is ineffective, changes in fair value are recognized in the statement of profit and loss.

If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, then hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the statement of profit and loss upon the occurrence of the related forecasted transaction.

- (ii) Others: Changes in fair value of foreign currency derivative instruments not designated as cash flow hedges and the ineffective portion of cash flow hedges are recognized in the statement of profit and loss and reported within foreign exchange gains/(losses).

Financial guarantee contracts

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of the amount determined in accordance with 'Ind AS 37 - Provisions, contingent liabilities and contingent assets' and the amount initially recognised less cumulative amortisation, where appropriate.

The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.22 Government grant

Government grants are recognised at their fair value when there is a reasonable assurance that the grant will be received and company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the statement of profit and loss over the period necessary to match them with costs that they are intended to compensate and presented within other income.

Government grants relating to purchase of property, plant and equipment are initially recognised as deferred income at fair value and subsequently recognised in the statement of profit and loss on a systematic basis over the useful life of the asset.

2.23 Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

2.24 Event after reporting date :

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the Financial Statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

2.25 Prior Period Errors:

Errors of material amount relating to prior period(s) are disclosed by a note with nature of prior period errors, amount of correction of each such prior period presented retrospectively, to the extent practicable along with change in basic and diluted earnings per share. However, where retrospective restatement is not practicable for a particular period then the circumstances that lead to the existence of that condition and the description of how and from where the error is corrected are disclosed in Notes to Accounts

2.26 Recent accounting pronouncements:

On March 24, 2021, the Ministry of Corporate Affairs (“MCA”) through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

Balance Sheet:

- Lease liabilities should be separately disclosed under the head ‘financial liabilities’, duly distinguished as current or non-current.
- Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- Specified format for disclosure of shareholding of promoters.
- Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development.
- If a company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- Specific disclosure under ‘additional regulatory requirement’ such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

Statement of profit and loss:

- Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head ‘additional information’ in the notes forming part of consolidated financial statements.

The amendments are extensive and the Company will evaluate the same to give effect to them as required by law.

Rationale for principle variables used:

- Time to maturity of options is the period of time from the grant date to the date on which option is expected to be exercised. The minimum life of stock option is the minimum period before which the options cannot be exercised and maximum life is the period after which the options cannot be exercised.
- The expected price volatility is based on the historic volatility, adjusted for any changes to future volatility due to publicly available information.

46. Financial risk management

The Company's activities expose to a variety of financial risks viz., market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is credit risk and liquidity risk. The Company's exposure to credit risk is influenced mainly by Government Orders.

The company resumes reviews each of these risks summarizes below:

i) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk interest rate risk, currency risk and other price risk such as equity price risk and commodity risk. Financial instruments affected by market risk include trade and other payables, investments in unquoted equity shares, security deposit, loans to employees and others, trade and other receivables, deposits with banks.

The sensitivity analysis in the following sections relate to the position as at 31 March 2021 and 31 March 2020. The sensitivity of the relevant income statement item is the effect of the assumed changes in respective market risks. The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt, proportion of financial instruments in foreign currencies are all constant at 31 March 2021.

The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post retirement obligations; provisions; and the non-financial assets and liabilities of foreign operations.

Company's activities expose it to variety of financial risks, including effect of changes in foreign currency exchange rate and interest rate.

a) Foreign currency risk

Foreign currency risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rate. The company operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions primarily to USD. The company also incurs employee benefit expenses in foreign currency. The Company manages its foreign currency risk by natural hedging transactions that are expected to receive in USD and payable in USD.

Company do not enter into any derivative instrument in order to hedge its foreign currency risks.

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company does not account for any fixed rate financial assets or financials liability at fair value through profit or loss therefore a change in interest rates at the reporting date would not affect profit or loss.

ii) Credit risk

Credit risk is the risk that a customer or counterparty to a financial instrument will fail to perform or pay amounts due to the Company causing financial loss. It arises from cash and cash equivalents, deposits with banks and financial institutions, security deposits, loans given and principally from credit exposures to customers relating to outstanding receivables. The Company's maximum exposure to credit risk is limited to the carrying amount of financial assets recognized at reporting date.

The Company continuously monitors defaults of customers and other counterparties, identified either individually or by the Company, and incorporate this information into its credit risk controls. Where available at reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Company's policy is to deal only with credit worthy counterparties.

Trade receivables mainly consist of group companies. The Company follows 'simplified approach' for recognition of impairment loss allowance. The Company has very limited history of customer default, and considers the credit quality of trade receivables that are not past due or impaired to be good.

The credit risk for cash and cash equivalents, bank deposits, loans and derivative financial instruments is considered negligible, since the counterparties are reputable organizations with high quality external credit ratings.

Company provides for expected credit losses on financial assets by assessing individual financial instruments for expectation of any credit losses. Since the assets have very low credit risk, and are for varied natures and purpose, there is no trend that the company can draw to apply consistently to entire population. For such financial assets, the Company's policy is to provide for 12 month expected credit losses upon initial recognition and provide for lifetime expected credit losses upon significant increase in credit risk.

iii) Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash flow and collateral obligations without incurring unacceptable losses. Company's objective is to, at all-time maintain optimum levels of liquidity to meet its cash and collateral requirements. Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including overdraft, debt from domestic and international banks at optimized cost. Company enjoys strong access to domestic and international capital market across debt, equity and hybrids.

iv) Capital management

The company policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain development of the business. Management monitors the return on capital on continuous basis.

The company has adequate cash and bank balances and no interest bearing liabilities (except for hire purchase facility for some of fixed assets lying under Property Plant and Equipment). The Company monitors its capital by a careful scrutiny of the cash and bank balances and a regular assessment of any debt requirements. In the absence of any interest bearing debt, the maintenance of debt equity ratio etc. may not be of any relevance of the company.

v) Risk towards global Pandemic Covid – 19

During the year, the Company's project teams and employees were "Working from Home". Some of the Company's projects particularly Cloud - based Virtual Classroom System at Andhra Pradesh and toll collection from parking project at Nashik were badly affected on account of the prolonged lockdown. The management of the Company have evaluated the possible impact of this pandemic on the business operations and the financial position of the Company where fixed expenditure such as permanent staff salary, office and godown rent, finance costs, manpower agency charges and others which have been accounted but could not be covered by revenue billing due to the prolonged lockdown.

The Company has considered the impact of COVID 19 pandemic on its business operations and financial results based on its review of current indicators of future economic conditions. The Company has used the principles of prudence in applying judgments, estimates and assumptions including sensitivity analysis and based on the current estimates, the Company has accrued its liabilities and also expects to fully recover the carrying amount of trade receivables including unbilled receivables, intangible assets, and investments. The eventual outcome of impact of the global health pandemic may be different from those estimated as on the date of approval of these consolidated financial results.

The management will continue to monitor any material changes to its COVID - 19 impact assessment, resulting from the future economic conditions and future uncertainty.

Independent Auditor's Report

To The Members of Trigyn Technologies Limited

Report on the Consolidated Indian Accounting Standard ("Ind AS") Financial Statements for the year ended 31st March, 2021

Opinion

We have audited the accompanying Consolidated financial statements of Trigyn Technologies Limited (hereinafter referred to as "the Holding Company") and its subsidiaries listed in Annexure I (Holding Company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31st March 2021, and the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of CashFlows for the year then ended, and notes to the Consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March 2021, of its consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI'), and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Act. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters ('KAM') are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Description of Key Audit Matters

Sr. No.	Key Audit Matter	Auditor's Response
1	<p><u>Accounting for fixed price contracts :</u></p> <p>In respect of Andhra Pradesh State Fibernet Limited (APSFL) Project which was a fixed price contract awarded through tendering process where over 90% work has been completed by March 2021, there has been undue delay in completion of the balance work as APSFL is yet to provide the sites for balance classrooms and Central Studio. Also civil works which is the responsibility of APSFL is pending at 2 district studios. APSFL has not given go live certificate which is one of the conditions under the contract. As per the terms of the contract the company has raised 3 milestone bills. The total amount outstanding against this project as at 31.03.2021 amounted to Rs. 61.55 Crores which is outstanding for more than 365 days. As of the date of the reporting, work has not commenced for completion of the remaining portion of the contract and there is uncertainty regarding expected completion of the balance work and collection of dues. The management has adopted a cautious approach towards booking of Quarterly Guaranteed Revenue (QGR) amounting to Rs. 53.36 Crores including GST on account of uncertainty of collection. (Refer note No. 55 A).</p>	<p>We have examined the status report provided to us by the management of the company from time to time.</p> <p>We have also been provided with certain correspondence which the company's project team has had with APSFL in respect of balance work and recovery of dues which indicates the company's preparedness to execute the balance work and the lack of response from APSFL.</p> <p>It is observed that there have been considerable delays in getting the invoices approved by the authorities at APSFL and there has been collection of only Rs. 2.45 Crores during the year.</p> <p>Under IND AS-115, one of the conditions to recognize revenue is the probability that the entity will collect the consideration due under the contract. The company has obtained opinion from subject matter expert in support of their stand towards non booking of Quarterly Guaranteed Revenue (QGR). We have relied on the expert's opinion in this regard.</p> <p>We have also relied on company's representation for non consideration of the outstanding dues as doubtful of recovery (only provision is made for expected credit loss) as the outstanding is from a Government entity.</p>
2	<p><u>Disputed Tax Matters</u></p> <p>a) In respect of contingent liability of Rs. 985.14 lakhs on account of Revenue filing an appeal before the Honorable Bombay High Court for the quantum and penalty for Assessment Year 2007-08 (Refer Note No. 33)</p> <p>b) In respect of interest levied by the income tax department amounting to Rs. 1.56 Crores for Assessment Year 2003-04 appearing on the Income Tax website (Refer Note No. 33 Contingent liabilities)</p>	<p>Procedures performed by the Auditor :</p> <p>For tax matters our procedures included examining the company's tax consultants views and discussions with Company's legal counsel; assessing management's conclusions;</p> <p>We also involved our internal tax specialists to gain an understanding and to determine the chances of verdict favouring the company.</p> <p>This being a technical matter, we have relied upon the company's decision for non provision of interest.</p>
3	<p><u>Disputed GST demand</u></p> <p>Andhra Government had initiated departmental audit u/s. 73 of the GST Act in respect of the company's Andhra Pradesh branch. The department has raised a demand for Rs. 3.20 crores including interest and penalty for FY 2017-18 and FY 2018-19.</p> <p>In this regard the company is in the process of filing an appeal.</p> <p>(Refer to Note No.- 58)</p>	<p>Procedures performed by the Auditor :</p> <p>For GST matters our procedures included examining the company's GST consultants views and discussions with Company's legal counsel; assessing management's conclusions;</p> <p>We also involved our internal GST specialists to gain an understanding and to determine the chances of verdict favouring the company.</p> <p>This being a technical matter, we have relied upon the company's decision for non provision of liability as it is disputed by the company.</p>

Sr. No.	Key Audit Matter	Auditor's Response
4	<p><u>Litigation Matters</u></p> <p>In respect of legal cases filed by the company and against the company as at 31st March 2021 (Refer Note No. 33 a to g)</p>	<p>We have assessed the management's position through discussions and correspondence with the in-house legal expert on both, the probability of success in the aforesaid cases, and the magnitude of any potential loss.</p> <p>We have discussed with the management on the development in these litigations during the year ended 31st March 2021.</p> <p>Reviewed the disclosures made by the Company in the financial statements in this regard.</p>
5	<p><u>Expected Credit Loss</u></p> <p>The company makes use of a simplified approach for trade and other receivables as well as contract assets and records the loss allowance as lifetime expected credit losses. These are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial instrument. In calculating, the company uses its historical experience, external indicators and forward-looking information to calculate the expected credit losses using a provision matrix.</p> <p>Provisioning for Expected Credit Loss on doubtful assets during the year amounted to Rs. 347.18 lakhs (net) under the head "Other Expenses." (Refer to Note no. – 57)</p>	<p>The company has appointed an external consultant who has evaluated the historical experience and forward looking information to calculate the expected credit losses using a provision matrix.</p> <p>We have test checked the working provided by the external consultant including development of the methodology for the allowance for credit losses.</p> <p>We have checked the completeness and accuracy of information used in the estimation of probability of default and the computation of the allowance for credit losses.</p> <p>We identified allowance for credit losses as a key audit matter because the Company exercises significant judgment in calculating the expected credit losses which appears to be reasonable.</p>

Other Information

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's Annual Report, but does not include the financial statements and our auditors' report thereon. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the Consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's management and Board of Directors are responsible for the preparation and presentation of these Consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Board of Directors of the entities included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each entity and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated financial statements by the Directors of the Holding Company, as aforesaid. In preparing the Consolidated financial statements, the respective management and Board of Directors of the entities included in the Group are responsible for assessing the ability of each entity to continue as a going concern, disclosing, as applicable,

matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so. The respective Board of Directors of the entities included in the Group is responsible for overseeing the financial reporting process of each entity.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the entity has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group (Holding company and subsidiaries) to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated financial statements, including the disclosures, and whether the Consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group to express an opinion on the Consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial information of such entities.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated financial statements of the current period and are therefore the key audit

matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Emphasis of matter

We draw attention to

1. Note No-49 of the financial statements regarding preparation of the financial statements on going concern basis of the two wholly owned subsidiaries of the Holding Company as fully explained in the Notes.
2. Note No- 38 of the financial statements with respect to necessary approval and permissions from RBI under FEMA regulations and carrying forward of balances in respect of wound up overseas subsidiaries and step down overseas subsidiaries. These balances which are fully provided for have no bearing on profitability nor on the assets and liabilities position of the company(as fully explained in the notes).
3. Note No – 55 A) of the financial statements in respect of Andhra Pradesh State Fibernet Ltd. project which is fully explained in the Notes. The company has obtained independent expert's opinion to validate their stand. We have relied on the independent expert's opinion.
4. Note No - 33 (a) to (g) of the financial statements regarding pending legal suits filed by the company and against the company and its wholly own subsidiary as fully explained in the Notes.
5. Note No - 57 of the financial statements regarding provision for Expected Credit Loss on doubtful assets as fully explained in the Notes.
6. Note No – 58 of the financial statements in respect of departmental audit initiated by GST department of Andhra Pradesh Government u/s. 73 of the GST Act for Trigyn Technologies Ltd., Andhra Pradesh Branch as fully explained in the Notes.

Our opinion is not qualified in the above matter.

(As fully described in the above referred Notes)

Our opinion on the Consolidated Financial Statements is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

- A. As required by Section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
 - c) The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

- d) In our opinion, the aforesaid Consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors of the Holding Company and its subsidiaries which are incorporated in India, as on 31st March 2021 and taken on record by the Board of Directors of respective companies, none of the directors of the Group companies incorporated in India is disqualified as on 31st March 2021 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies incorporated in India and the operating effectiveness of such controls, refer to our separate report in Annexure A.
- g) The entire statutory audit of the company has been carried out based on remote access of the data as provided by the company due to COVID -19 pandemic across India. We relied on alternative audit procedures as per the Standards on Auditing prescribed by the Institute of Chartered Accountants of India (ICAI). As a result of the above, the audit has been carried out based on the data provided for our audit purposes which we relied as correct, complete and are directly generated by the accounting system of the company without any further manual modifications. The financial performance of the unit has been thus prepared and presented by the company and audited by us in the aforesaid conditions.

B. With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations as at 31st March 2021 on its consolidated financial position of the Group in its Consolidated IND AS financial statements (Refer Note 33 a) to g) to the Consolidated financial statements).
- ii. As represented by the Company, there are no long term contracts including derivative contracts for which there were any material foreseeable losses -(Refer Note 52 to the Consolidated financial statements);
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Group (Refer Note No. 53 to the Consolidated financial statements).

C. With respect to the matter to be included in the Auditors' report under Section 197(16) :

In our opinion and according to the information and explanations given to us, the remuneration paid by the holding company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Trigyn Technologies Limited** ("the Company") as of March 31, 2021 in conjunction with our audit of the Consolidated IND AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (**IFCOFR**) issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over Financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgments, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to explanation given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. Based on our suggestion and with a view to adopt best practices the company is in the process of updating an internal control manual.

Notes to the Consolidated financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

1 The corporate overview

Trigyn Technologies Limited ('TTL' or 'the company' or 'the Parent Company') is a public company domiciled in India and incorporated under the provisions of Indian Companies Act. The company's registered office is at Unit 27, SDF I, SEEPZ - SEZ, Andheri (E), Mumbai 400096. The company's equity shares are listed on the Bombay Stock Exchange and National Stock Exchange in India.

TTL is the holding company of the Trigyn Group of companies.

TTL has its software development centre in Mumbai, India ('the Head Office') and the company mainly operates in US through its subsidiary Trigyn Technologies Inc (TTI).

1.1 Details of entities in consolidation:

a) Subsidiaries and step down subsidiaries considered in Consolidated Financial Statements:-

Subsidiaries	Country of Incorporation and Other Particulars	% of ownership as at 31.03.2021	% of ownership as at 31.03.2020
Leading Edge Infotech Limited, ('LEIL')	A subsidiary incorporated under the laws of India	100	100
Trigyn Technology Inc., ('TTI')	A subsidiary organized under the laws of Delaware, USA	100	100
Trigyn Technologies (India) Private Limited, ('TTIPL')	A subsidiary incorporated under the laws of India	100	100
Trigyn Technologies Schweiz GMBH	A subsidiary organized under the laws of Switzerland	100	100

The Consolidated financial statements for the year ended up to March 31, 2021 does not include financials of the following non-operational subsidiaries/step down subsidiaries:-

Subsidiaries	Updated Upto	Status
Ecapital Solution (Bermuda) LTD	March 12, 2014	Voluntary Liquidated 2014
Step down Subsidiaries		
Trigyn Technologies Limited, UK	March 31, 2002	Liquidated in 2004

eCapital Solutions (Mauritius) Limited	March 31, 2005	Liquidated in 2009

The effect of the winding up of the aforesaid subsidiaries/step down subsidiaries have not been given due to non-availability of latest financial statements and adequate details regarding certain inter-company balances across all subsidiaries. **Note No. 38** includes balances pertaining to those wound up subsidiaries which are not written off in the books pending RBI approval under FEMA regulations.

b) The Consolidated Financial Statements (CFS) for the year does not include financials of following associates as the company does not have any investment in these associates:

- 1) Promuk Hoffmann International Limited
- 2) Andhra Networks Limited
- 3) United Telecoms Limited
- 4) United Telelinks (Bangalore) Limited

2. Significant accounting policies

The following are the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

Notes to the Consolidated financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

2.1 Basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments and defined benefit plan assets which are measured at fair values, the provision of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

The Group has consistently applied accounting policies to all periods, except for the below new and amended standards if any:

2.2 Principles of Consolidated Financial Statements

The Consolidated Financial Statements relate to the Company and its subsidiaries and have been prepared on the following basis:

- i) In respect of Subsidiary companies, the financial statements have been consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and unrealized profits / losses on intra-group transactions. The results of subsidiaries are included from the date of acquisition of a controlling interest.
- ii) In case of foreign subsidiaries, being Non-Integral Foreign Operations, revenue items are consolidated at the average rate prevailing during the year. All asset and liabilities are converted at the rate prevailing at the end of the year, except Equity Share Capital, Share premium, Capital Reserve and Fixed Assets which have been carried at Historical rate. The resultant translation gains and losses are shown separately as 'Foreign Currency Translation Reserve' under 'Reserves and Surplus.
- iii) eCapital Solutions (Bermuda) Ltd., a wholly owned subsidiary was wound up on 12th March 2014, as per the applicable laws in the country of registration. The assets distributed on winding up have been accounted at values as per the Liquidation orders. Consequently TTipl and TTI which were step down wholly owned subsidiaries have become wholly owned subsidiaries of TTL. The excess of cost to the Group of equity capital of its investments in subsidiary companies over its share of equity of its subsidiary companies at the date on which investments are made, is recognized in the financial statement as Goodwill.

Goodwill on consolidation is not written off but tested for impairment by the management.

- iv) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Company's separate financial statements, except for, in case of certain subsidiary referred in Note 2.14 below, leave encashment and gratuity is provided on arithmetical basis instead of actuarial basis.

Non-controlling interest

Non-controlling interests (NCI) in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively. NCI are measured at their proportionate share of the acquirer's net identifiable assets at the date of acquisition. Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in profit or loss.

Notes to the Consolidated financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

Business combinations

In accordance with Ind AS 103, the group accounts for these business combinations using the acquisition method when control is transferred to the group. The consideration transferred for the business combination is generally measured at fair value as at the date control is acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in other comprehensive income (OCI) and accumulated in equity as capital reserve if there exists clear evidence of the underlying reasons for classifying the business combination as resulting in a bargain purchase; otherwise the gain is recognised directly in equity as capital reserve.

Transaction costs are expensed as incurred, except to the extent related to the issue of debt or equity securities. The consideration transferred does not include amounts related to the settlement of pre-existing relationships with the acquiree. Such amounts are generally recognised in profit or loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured subsequently and settlement is accounted for within equity. Other contingent consideration is remeasured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognised in profit or loss.

If a business combination is achieved in stages, any previously held equity interest in the acquiree is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

2.3 Functional and presentation currency

All amounts included in the financial statements are reported in Indian rupees in lakhs and has been rounded to nearest lakhs with two decimal places except per share data, unless otherwise stated. Due to rounding off, the numbers presented throughout the document may not add up precisely to the totals and percentages may not precisely reflect the absolute figures.

2.4 Significant accounting judgments, estimates and assumptions

The preparation of the financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, current assets, non-current assets, current liabilities, non-current liabilities and disclosure of the contingent liabilities at the end of each reporting period. Actual amount may differ from these estimates.

Detailed information about each of these estimates and judgements is included in relevant notes.

The areas involving critical estimates and judgements are:

- Estimation of current tax expense and payable including amount expected to be paid/ recovered for uncertain tax position.
- Estimation of defined benefit obligation.
- Recognition of revenue.
- Recognition of deferred tax assets/deferred tax liability.
- Impairment Testing.
- Valuation of Financial Instrument.
- Useful life of property, plant and equipment and Intangible assets,
- Provision and Contingencies.
- Litigation.
- Estimation Uncertainty relating to the Global Health Pandemic on COVID-19

Notes to the Consolidated financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

Estimation and underlying assumptions are reviewed on ongoing basis. Revisions to estimates are recognised prospectively.

2.5 Current v/s non-current classification

The Group presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset /liability is current when it is:

- Expected to be realised/settled or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised / settled within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other assets/ liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.6 Property, plant and equipment (PP&E).

• Recognition and measurement

Items of PP&E are measured at cost of acquisition or construction less accumulated depreciation and accumulated impairment loss, if any. Borrowing costs relating to acquisition/construction/development of tangible assets and Capital Work in Progress which takes substantial period to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

When significant components of PP&E are required to be replaced at intervals, recognition is made for such replacement of components as individual assets with specific useful life and depreciation if these components are initially recognized as separate asset. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

• Subsequent costs

The cost of replacing a part of an item of PP&E is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the group and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of PP&E are recognised in the statement of profit and loss as incurred.

• Disposal

Gains and losses on disposal are determined by comparing the proceeds with the carrying amount. These are recognised as income/ expenses in the statement of profit and loss.

• Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value. Depreciation is recognised in the statement of profit and loss on a straight-line basis over the estimated useful lives of each part of an item of PP&E as prescribed in Schedule II of the Companies Act, 2013, as assessed by the management of the group based on technical evaluation

Depreciation is provided pro-rata for the number of months available for use. Depreciation on sale/ disposal of assets is provided pro-rata up to the end of month of sale/ disposal.

The PP&E acquired under hire purchase is depreciated over the shorter of the hire purchase term and their useful lives unless it is reasonably certain that the group will obtain ownership by the end of the hire purchase term in which case assets are depreciated on the basis of estimated useful life.

Notes to the Consolidated financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

The estimated useful lives of items of PP&E as under:

Asset	Useful life
Buildings	20 years
Office equipment	3 to 4 years
Computer and peripherals	3 years
Computer software	3 years
Furniture and fixtures	4 years
Leasehold improvements	6 years

2.7 Intangible assets

- Recognition and measurement**

Intangible assets are recognised when the asset is identifiable, is within the control of the group, it is probable that the future economic benefits that are attributable to the asset will flow to the group and cost of the asset can be reliably measured.

Intangible assets acquired by the group that have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses. Cost comprises of the acquisition price, development cost and any other attributable/allocable incidental cost of bringing the asset to its working condition for its intended use.

For Service Concession Arrangements

With respect to service concession arrangements in which government or other public sector body contracts with a private operator to develop (or upgrade), operate and maintain the grantor's infrastructure assets. The Company recognises an intangible asset as per IND AS 38 to the extent that it receives a right (a licence) to charge users of the public service. Amortisation of this intangible asset will be done over the period of the service concession agreement, using the straight-line method prescribed under IND AS 38. A right to charge users is not an unconditional right to receive cash because the amounts are contingent on the extent to which the public uses the service.

As per the IND AS 115 the amounts received from the usage of the service be recognised as revenue.

- Subsequent measurement**

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates.

- Amortisation**

- Intangible assets with finite lives are amortized over their estimated useful economic life and assessed for impairment wherever there is an indication that the intangible assets may be impaired.
- Intangible assets with infinite lives are tested for impairment at least annually, and where there is an indication that the assets may be impaired.

Application software capitalised as Intangible Asset is normally amortized over a period of three years or over its useful life before it become obsolete, whichever is earlier.

The estimated useful lives as under:

Asset	Useful life
Software	3 years

- Disposal:**

Gain or losses arising from derecognition of an intangible assets are recognized in statement of Profit and Loss when the assets is derecognized.

Notes to the Consolidated financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

2.8 Impairment

Financial assets

The group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the assets carried at amortised cost and FVTOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables the Group follows 'simplified approach' for recognition of impairment loss allowance. The application of simplified approach does not require the group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. A provision matrix is used to determine impairment loss allowance on portfolio of Group's trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

Impairment of investments

The carrying amounts of investments are reviewed at each balance sheet date if there is any indication of impairment based on internal / external factors. An impairment loss is recognized wherever the carrying amount of an investment exceeds its recoverable amount. Interest income is recognized using the effective interest method.

Impairment of non- financial assets

IND AS 36 ensures that assets are carried at not more than recoverable value. Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset.

The value in use calculation is based on a DCF model. The cash flows are derived from the projections for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to goodwill recognized by the group.

The group tests goodwill for impairment atleast annually, or more frequently if events or changes in circumstances indicate that it might be impaired. For the purpose of impairment testing, goodwill, which arose on acquisition of the assets/entities, is allocated to a cash generating unit "CGU".

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Notes to the Consolidated financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

2.9 Inventories

Inventory comprising traded hardware and software are valued at lower of cost and net realisable value. Costs comprise cost of purchase and directly attributable costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

2.10 Cash Flow Statement:

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non –cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated

2.11 Revenue recognition

As per IND AS 115, to recognize revenues, the group applies the following five step approach:

- i) Identify the contract with a customer,
- ii) Identify the performance obligations in the contract,
- iii) Determine the transaction price,
- iv) Allocate the transaction price to the performance obligations in the contract, and
- v) Recognize revenues when a performance obligation is satisfied. When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

Revenue from sale of goods in the course of ordinary activities is recognised when property in the goods or all significant risks and rewards of their ownership are transferred to the customer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods and regarding its collection.

Income from Communications and information technology staffing support services comprise income from time and material and fixed price contracts. Revenue from 'time and material' contracts is recognised, as and when related services are performed and accepted by the customer. Revenue from fixed price contracts is recognised using the percentage of completion method of accounting, under which the sales value of performance, including the profit thereon, is determined by relating the actual man hours of work performed to date to the estimated total man hours for each contract. Provision for estimated losses on uncompleted contracts are recorded in the period in which such losses become probable, based on current contract estimates.

Advance payments received from customers for whom no services have been rendered are accounted as 'Advance from customers'.

2.12 Other income

- **Interest income**

Interest income is recognised using effective interest rate method (EIR).

- **Dividend Income**

Dividends are recognised in the statement of profit and loss only when the right to receive the payment is established.

- **Other**

Revenue is recognised only when it is reasonably certain that the ultimate collection will be made.

Notes to the Consolidated financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

2.13 Foreign currency transactions and balances

Transactions in foreign currency are recorded at exchange rates prevailing at the date of transactions. Exchange differences arising on foreign exchange transactions settled during the year are recognised in the statement of profit and loss of the year.

Monetary assets and liabilities denominated in foreign currencies which are outstanding, as at the reporting date are retranslated at the closing exchange rates and the resultant exchange differences are recognised in the statement of profit and loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

2.14 Employee benefits

- **Short-term employee benefits**

Employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and are recognised in the period in which the employee renders the related service. Retention bonus is accounted on actual payment basis.

- **Post-employment benefits**

Defined contribution plans

Contributions to the provident fund and Employee State Insurance which are defined contribution schemes, are recognised as an employee benefit expense in the statement of profit and loss in the period in which the contribution is due.

Defined benefit plans

The employees' gratuity scheme is a defined benefit plan. The present value of the obligation under such defined benefit plans is determined based on an independent actuarial valuation using the projected unit credit method, carried out as at balance sheet date. The obligation determined as afore said less the fair value of the Plan assets is reported as a liability or assets as of the reporting date. Actuarial gain or losses are recognised immediately in the Other Comprehensive Income and reflected in retained earnings and will not be reclassified to the statement of profit and loss.

Other long-term employee benefits

The liabilities for earned leave are not expected to be settled wholly within twelve months after the end of the reporting period in which the employee render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method as determined by an independent actuarial valuation. Remeasurements as a result of experience adjustments and change in actuarial assumptions are recognised in the statement of profit and loss.

Termination benefits

Termination benefits are expensed at the earlier of when the group can no longer withdraw the offer of those benefits and when the group recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

For other overseas companies, social security contributions are made as per the respective local laws and regulations. The same is charged to the Statement of Profit and Loss on an accrual basis. There are no obligations beyond the respective entity's contributions.

Notes to the Consolidated financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

2.15 Share-based payments

Measurement and disclosure of the employee share-based payment plans is done in accordance with Ind AS 102 share based payments. Equity-Settled share based payments to directors and employees of the company and to directors and employees of subsidiary company including overseas subsidiary are measured at the Fair value of the equity instrument at the grant date.

The fair value determined at the grant date of equity-settled share based payments to directors and employees of the company are expensed and to directors and employees of the subsidiary company are recovered as the ESOP cost from its subsidiary.

2.16 Leases

The group has adopted IND AS 116 "Leases" with the date of the initial application being April 1, 2019. IND AS 116 replaces IND AS 17 – Leases and related interpretation and guidance. The group has applied IND AS 116 using the modified retrospective approach.

Rights to use assets owned by third parties under lease agreements are capitalized at the inception of the lease and recognised on the consolidated balance sheet. The corresponding liability to the lessor is recognised as a lease obligation within short and long-term borrowings. The carrying amount is subsequently increased to reflect interest on the lease liability and reduced by lease payments made. For calculating the discounted lease liability on leases, the incremental borrowing rate is used. The incremental borrowing rate is calculated at the rate of interest at which the group would have been able to borrow for a similar term and with a similar security the funds necessary to obtain a similar asset in a similar market. Finance costs are charged to the income statement so as to produce a constant periodic rate of charge on the remaining balance of the obligations for each accounting period.

If modifications or reassessments occur, the lease liability and right of use asset are re-measured. Right of use assets are depreciated over the shorter of the useful life of the asset or the lease term.

When the lease is for short-term or lease assets is of low value group recognise the lease payments associated with those leases as an expense.

The foreign subsidiaries recognized lease payments associated with those lease as an expenses.

2.17 Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. All other borrowing costs are expensed in the period in which they are incurred.

2.18 Income tax

Income tax expense comprises current and deferred tax. It is recognised in the statement of profit and loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

- **Current tax**

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current tax assets and liabilities are offset only if there is a legally enforceable right to set it off the recognised amounts and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum Alternate Tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The group recognises MAT credit available as an asset only to the extent that there is convincing evidence

Notes to the Consolidated financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

that the group will pay normal income tax during the specified period. The group reviews the 'MAT credit entitlement' asset at each reporting date and writes down the asset to the extent the group does not have convincing evidence that it will pay normal tax during the specified period.

- **Deferred tax**

Deferred tax is provided using the balance sheet method on temporary differences between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax is the tax expected to be payable or recoverable in the future arising from temporary differences between the carrying amounts of assets and liabilities in the Balance Sheet and the corresponding tax bases used in the computation of taxable profit. It is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised, based on tax rates that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax is recognised to statement of profit and loss, except to the items that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

When there is uncertainty over income tax treatments of the certain item, the current and deferred tax asset or liability shall be recognized and measured by applying the requirements in Ind AS 12 based on the taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates determined by applying Appendix C to Ind AS 12, Income Taxes.

2.19 Provisions and contingencies

A provision is recognised when the group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost in the statement of profit and loss.

Contingent liability is disclosed in case of

a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation.

present obligation arising from past events, when no reliable estimate is possible

a possible obligation arising from past events where the probability of outflow of resources is not remote.

Contingent asset is not recognised in the financial statements. A contingent asset is disclosed, where an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

2.20 Earnings per share (EPS)

Basic EPS is calculated by dividing the profit or loss for the year attributable to equity holders of the group by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Notes to the Consolidated financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

Diluted EPS adjust the figures used in the determination of basic EPS to consider

The after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, and

The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

2.21 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or

In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another.

The group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the group has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.22 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial Measurement

Financial assets and liabilities are initially measured at fair value except for trade receivables, which are measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Notes to the Consolidated financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

Subsequent measurement**a) Non-derivative financial assets****i) Financial assets at amortised cost**

A financial asset shall be measured at amortised cost if both of the following conditions are met:

- a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. those maturing later than 12 months after the reporting date which are presented as non-current assets. Financial assets are measured initially at fair value plus transaction costs and subsequently carried at amortized cost using the effective interest rate method, less any impairment loss. Financial assets at amortised cost are represented by trade receivables, security deposits, cash and cash equivalents, employee and other advances and eligible current and non-current assets. Cash and cash equivalents comprise cash on hand and in banks and demand deposits with banks which can be withdrawn at any time without prior notice or penalty on the principal. For the purposes of the cash flow statement, cash and cash equivalents include cash on hand, in banks and demand deposits with banks, net of outstanding bank overdrafts that are repayable on demand, book overdraft and are considered part of the group's cash management system.

ii) Debt instruments at FVTOCI

A debt instrument shall be measured at fair value through other comprehensive income if both of the following conditions are met: (a) the objective of the business model is achieved by both collecting contractual cash flows and selling financial assets; and (b) the asset's contractual cash flow represent SPPI Debt instruments included within FVTOCI category are measured initially as well as at each reporting period at fair value plus transaction costs. Fair value movements are recognised in other comprehensive income (OCI). However, the group recognises interest income, impairment losses & reversals and foreign exchange gain/(loss) in statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from equity to profit and loss. Interest earned is recognized under the effective interest rate (EIR) method.

iii) Equity instruments at FVTOCI

All equity instruments are measured at fair value. Equity instruments held for trading is classified as FVTPL. For all other equity instruments, the group may make an irrevocable election to present subsequent changes in the fair value in OCI. The group makes such election on an instrument-by-instrument basis.

If the group decides to classify an equity instrument as FVTOCI, then all fair value changes on the instrument, excluding dividend are recognised in OCI. There is no recycling of the amount from OCI to statement of profit and loss, even on sale of the instrument. However, the group may transfer the cumulative gain or loss within the equity.

iv) Financial assets at FVTPL

FVTPL is a residual category for financial assets. Any financial asset which does not meet the criteria for categorization as at amortised cost or as FVTOCI, is classified as FVTPL. In addition the group may elect to designate the financial asset, which otherwise meets amortised cost or FVTOCI criteria, as FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency. Financial assets included within the FVTPL category are measured at fair values with all changes recorded in the statement of profit and loss.

Notes to the Consolidated financial statements for the year ended 31st March, 2021

(All amounts in Indian Rupees lakhs unless otherwise stated)

b) Non-derivative financial liabilities

- i) Financial liabilities at amortised cost Financial liabilities at amortised cost represented by borrowings, trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest rate method.
- ii) Financial liabilities at FVTPL Financial liabilities at FVTPL represented by contingent consideration are measured at fair value with all changes recognised in the statement of profit and loss

c) Derivative financial instruments

Derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in foreign exchange rates on foreign currency assets or liabilities and forecasted cash flows denominated in foreign currencies. The counterparty for these contracts is generally a bank.

Derivatives are recognized and measured at fair value. Attributable transaction costs are recognized in statement of profit and loss. (i) Cash flow hedges: Changes in the fair value of the derivative hedging instrument designated as a cash flow hedge are recognized in other comprehensive income and presented within equity in the cash flow hedging reserve to the extent that the hedge is effective. To the extent that the hedge is ineffective, changes in fair value are recognized in the statement of profit and loss.

If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, then hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the statement of profit and loss upon the occurrence of the related forecasted transaction.

- (ii) Others: Changes in fair value of foreign currency derivative instruments not designated as cash flow hedges and the ineffective portion of cash flow hedges are recognized in the statement of profit and loss and reported within foreign exchange gains/(losses).

Financial guarantee contracts

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of the amount determined in accordance with 'Ind AS 37 - Provisions, contingent liabilities and contingent assets' and the amount initially recognised less cumulative amortisation, where appropriate.

The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.23 Government grant

Government grants are recognised at their fair value when there is a reasonable assurance that the grant will be received and group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the statement of profit and loss over the period necessary to match them with costs that they are intended to compensate and presented within other income.

Government grants relating to purchase of property, plant and equipment are initially recognised as deferred income at fair value and subsequently recognised in the statement of profit and loss on a systematic basis over the useful life of the asset.

2.24 Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker

2.25 Event after reporting date :

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the Consolidated Financial Statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

2.26 Prior Period Errors:

Errors of material amount relating to prior period(s) are disclosed by a note with nature of prior period errors, amount of correction of each such prior period presented retrospectively, to the extent practicable along with change in basic and diluted earnings per share. However, where retrospective restatement is not practicable for a particular period then the circumstances that lead to the existence of that condition and the description of how and from where the error is corrected are disclosed in Notes to Accounts

2.27 Recent accounting pronouncements:

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

Balance Sheet:

- Lease liabilities should be separately disclosed under the head 'financial liabilities', duly distinguished as current or non-current.
- Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- Specified format for disclosure of shareholding of promoters.
- Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development.
- If a company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

Statement of profit and loss:

- Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head 'additional information' in the notes forming part of consolidated financial statements.

The amendments are extensive and the Company will evaluate the same to give effect to them as required by law

Rationale for principle variables used:

- Time to maturity of options is the period of time from the grant date to the date on which option is expected to be exercised. The minimum life of stock option is the minimum period before which the options cannot be exercised and maximum life is the period after which the options cannot be exercised.
- The expected price volatility is based on the historic volatility, adjusted for any changes to future volatility due to publicly available information.

ii) Fair Value Hierarchy

To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instrument into three levels prescribed under the accounting standard.

Level 1 : Level 1 hierarchy includes financial instrument measured using quoted prices

Level 2 : The fair value of financial instrument that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Quantitative disclosures fair value measurement hierarchy for assets as at 31st March 2021 and 31 March 2020:

Particulars		Fair value measurement using		Valuation technique used	Inputs used
	Level	31-Mar-21	31-Mar-20		
Financial assets measured at fair value					
Investment in unquoted equity instruments (FVTOCI)	3	482.78	421.30	Discounted cash flows	Forecast cash flows, discount rate, maturity

The Group has not disclosed the fair value of financial instruments such as trade receivables, trade payables, short term loans, deposits etc. because their carrying amounts are a reasonable approximation of fair value.

46. Financial risk management

The Group's activities expose to a variety of financial risks viz., market risk, credit risk and liquidity risk. The Group's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to The Group is credit risk and liquidity risk. The Group's exposure to credit risk is influenced mainly by Government Orders. The Group resumes reviews each of these risks summarizes below:

i) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk interest rate risk, currency risk and other price risk such as equity price risk and commodity risk. Financial instruments affected by market risk include trade and other payables, investments in unquoted equity shares, security deposit, loans to employees and others, trade and other receivables, deposits with banks. The sensitivity analysis in the following sections relate to the position as at 31st March 2021 and 31st March 2020. The sensitivity of the relevant income statement item is the effect of the assumed changes in respective market risks. The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt, proportion of financial instruments in foreign currencies are all constant at 31 March 2021. The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post retirement obligations; provisions; and the non-financial assets and liabilities of foreign operations. Group's activities expose it to variety of financial risks, including effect of changes in foreign currency exchange rate and interest rate.

a) Foreign currency risk

Foreign currency risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rate. The Group operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions primarily to USD. The Group also incurs employee benefit expenses in foreign currency. The Group manages its foreign currency risk by natural hedging transactions that are expected to receive in USD and payable in USD. Group do not enter into any derivative instrument in order to hedge its foreign currency risks.

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group does not account for any fixed rate financial asset or financial liability at fair value through profit or loss therefore a change in interest rates at the reporting date would not affect profit or loss.

ii) Credit Risk

Credit risk is the risk that a customer or counterparty to a financial instrument will fail to perform or pay amounts due to the Group causing financial loss. It arises from cash and cash equivalents, deposits with banks and financial institutions, security deposits, loans given and principally from credit exposures to customers relating to outstanding receivables. The Group's maximum exposure to credit risk is limited to the carrying amount of financial assets recognized at reporting date. The Group continuously monitors defaults of customers and other counterparties, identified either individually or by the Group, and incorporate this information into its credit risk controls. Where available at reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Group's policy is to deal only with credit worthy counterparties.

Trade receivables mainly consist of group companies. The Group follows 'simplified approach' for recognition of impairment loss allowance. The Group has very limited history of customer default, and considers the credit quality of trade receivables that are not past due or impaired to be good.

The credit risk for cash and cash equivalents, bank deposits, loans and derivative financial instruments is considered negligible, since the counterparties are reputable organizations with high quality external credit ratings. Group provides for expected credit losses on financial assets by assessing individual financial instruments for expectation of any credit losses. Since the assets have very low credit risk, and are for varied natures and purpose, there is no trend that the Group can draw to apply consistently to entire population. For such financial assets, the Group's policy is to provide for 12 month expected credit losses upon initial recognition and provide for lifetime expected credit losses upon significant increase in credit risk.

iii) Liquidity Risk

Liquidity risk is the risk that the Group may not be able to meet its present and future cash flow and collateral obligations without incurring unacceptable losses. Group's objective is to, at all time maintain optimum levels of liquidity to meet its cash and collateral requirements. Group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including overdraft, debt from domestic and international banks at optimised cost. Group enjoys strong access to domestic and international capital market across debt, equity and hybrids.

iv) Capital Management

For the purpose of the Group's capital management, capital includes issued equity capital, share premium and all other equity reserves. The primary objective of the Group's capital management is to maximise the shareholder value. The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. Group's policy is to keep the gearing ratio between 5% and 15%. No changes were made in the objectives policies or process for managing capital during the financial year ended 31 March, 2021 & 31 March, 2020.

v) Risk towards global Pandemic Covid – 19

During the year, the Group's project teams and employees were "Working from Home". Some of the Group's projects particularly Cloud – based Virtual Classroom System at Andhra Pradesh and toll collection from Parking project at Nashik were badly affected on account of the prolonged lockdown. The management of respective companies of the Group have evaluated the possible impact of this pandemic on the business operations and the financial position of the Group where fixed expenditure such as permanent staff salary, office and godown rent, finance costs, manpower agency charges and others which have been accounted but could not be covered by revenue billing due to the prolonged lockdown.

The Group has considered the impact of COVID 19 pandemic on its business operations and financial results based on its review of current indicators of future economic conditions. The Group has used the principles of prudence in applying judgments, estimates and assumptions including sensitivity analysis and based on the current estimates, the Group has accrued its liabilities and also expects to fully recover the carrying amount of trade receivables including unbilled receivables, intangible assets, and investments. The eventual outcome of impact of the global health pandemic may be different from those estimated as on the date of approval of these consolidated financial results.

The management will continue to monitor any material changes to its COVID-19 impact assessment, resulting from the future economic conditions and future uncertainty.
