CDSL e-Voting System – For Remote e-voting and e-voting during Annual General Meeting (“AGM”):

- 1) As you are aware, in view of the situation arising due to COVID-19 global pandemic, the general meetings of the companies shall be conducted as per the guidelines issued by the Ministry of Corporate Affairs (MCA) vide Circular No. 14/2020 dated April 8, 2020, Circular No.17/2020 dated April 13, 2020 and Circular No. 20/2020 dated May 05, 2020. The forthcoming AGM will thus be held through video conferencing (VC) or other audio visual means (OAVM). Hence, Members can attend and participate in the ensuing AGM through VC/OAVM.
- 2) The Members can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the EGM/AGM through VC/OAVM will be made available to at least 1000 members on first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.
- 3) Pursuant to MCA Circular No. 14/2020 dated April 08, 2020, the facility to appoint proxy to attend and cast vote for the members is not available for this AGM. However, in pursuance of Section 112 and Section 113 of the Companies Act, 2013, representatives of the members such as the President of India or the Governor of a State or body corporate can attend the AGM through VC/OAVM and cast their votes through e-voting.
- 4) In line with the Ministry of Corporate Affairs (MCA) Circular No. 17/2020 dated April 13, 2020, the Notice calling the AGM has been uploaded on the website of the Company at www.olympiaindustriestd.com. The Notice can also be accessed from the websites of the Stock Exchanges i.e. BSE Limited at www.bseindia.com. The AGM Notice is also disseminated on the website of CDSL (agency for providing the Remote e-Voting facility and e-voting system during the AGM) i.e. www.evotingindia.com.
- 5) The AGM has been convened through VC/OAVM in compliance with applicable provisions of the Companies Act, 2013 read with MCA Circular No. 14/2020 dated April 8, 2020 MCA Circular No. 17/2020 dated April 13, 2020 and MCA Circular No. 20/2020 dated May 05, 2020.
- 6) In continuation of this Ministry's General Circular No. 20/2020, dated 05th May, 2020 and after due examination, it has been decided to allow companies whose AGMs were due to be held in the year 2020, or become due in the year 2021, to conduct their AGMs on or before 31st December, 2021, in accordance with the requirements provided in paragraphs 3 and 4 of the General Circular No. 20/2020 as per MCA circular no. 02/2021 dated 13th January, 2021.

THE INSTRUCTIONS FOR SHAREHOLDERS FOR REMOTE E-VOTING ARE AS UNDER:

- i) The voting period begins on 14th September, 2021 at 09.00 A.M and ends on 16th September, 2021 at 5.00 P.M. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of 10th September, 2021 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

- ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the AGM.
- iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Explanatory Statement pursuant to Section 102 of the Act

Item No. 4: Mr. Kamlesh Shah was appointed as an Independent Director of the Company with effect from 30th September, 2019 for the term of 5 years with the approval of members in the 30th Annual General Meeting held on 30th September, 2019.

Ministry of Corporate Affairs introduced Independent Director's Databank pursuant to the Companies (Creation and Maintenance of Databank of Independent Directors) Rules, 2019 and the Companies (Appointment and Qualification of Directors) Fifth Amendment Rules, 2019 and therefore Mr. Kamlesh Shah, registered himself on Independent Directors Databank as per requirement, on 13th January, 2020 for the term of one year. On the Completion of his term of subscription, he could not renew his subscription, in time and after the expiry of the

prescribed time of renewal he was not allowed to renew his subscription on the portal of Data Bank. Due to this reason he decided not to continue to act as an independent Director of the Company & therefore requested the Company to change his designation from an independent Director to a Director with effect from 03rd May, 2021. The Company accepted his request & his status was changed accordingly with effect from 03rd May, 2021. Thereafter, on 18th June, 2021, Ministry of Corporate affairs issued amendment on Companies (Creation and Maintenance of Databank of Independent Directors) Rules, 2019 which allowed independent directors to renew their subscription with retrospective effect viz. from the next day of their expiry of earlier term with payment of additional fees as prescribed in circular. Thereafter Mr. Kamlesh Shah re-registered himself on the Data Bank & his registration is with effect from the next day of the expiry of earlier term & there is no break in the registration period. He has now requested the Company to appoint him again as an independent Director of the Company. Company has received a declaration pursuant to the provisions of Section 149(7) of the Companies Act, 2013 that he meets the criteria of independence as provided in Section 149(6) of the Act.

Although Mr. Kamlesh Shah did not complete the full period of 5 years of his first term due to this technical lapse, the Company as a precaution is not re -appointing him for the balance period of his first term but re-appointing for his second term. As He had to get changed his status from an Independent Director to a Director for not renewal of his subscription in time this may be treated as a technical lapse & therefore it should not be counted a break between his First term & this second term. This view is also supported as subsequently the MCA made a change in the applicable rules which permitted renewal of subscription of independent directors with the next day of expiry of their earlier subscription period so no gap was created in his registration as an independent director & also Mr. Kamlesh Shah did not resign as a Director but only his status was changed from an independent director to a director.

He is not disqualified from being appointed as a director in terms of Section 164 of the Companies Act, 2013 ("the Act"). Declarations have also been received from Mr. Kamlesh Shah that he meet the criteria of Independence prescribed under Section 149(6) of the Act read with the Companies (Appointment and Qualification of Directors) Rules, 2014. The Board considers that by appointing him again as an Independent Director would be of immense benefit to the Company and it is desirable to avail services of Mr. Kamlesh Shah as an Independent Director. Accordingly, the Board recommends the Resolution in relation to appointment of Mr. Kamlesh Shah as an independent Director, for the approval of the Members of the Company.

Except Mr. Kamlesh Shah, being an appointee and his relatives, none of the Directors and Key Managerial Personnel of the Company and their relatives is concerned or interested, financial or otherwise, in the Resolution set out at Item No. 4.

MANAGEMENT DISCUSSION ANALYSIS REPORT

The Directors of Olympia Industries Limited ("the Company") pleased to present the Management Discussion Analysis Report for the year ended 31st March, 2021.

COMPANY OVERVIEW:

The Company has been mounting in the area of E-commerce since past eight years and during the financial year 2020-2021, the Company has gathered many opportunities and explored various verticals. In addition to the Brand Store Management, B2B Ecommerce, B2C Ecommerce, General Trade & Morden Trade, the Company has started engagements in engaged in D2C Ecommerce. The Company is attaining better results in the existing categories like Baby Care, Domestic Appliances, Electronic, Gourmet, Health Care, Home & Kitchen Appliances, Luggage and Personal care appliances, pet products etc. Further the Company has expanded its own private Label brand "UMANAC". During the year, the Company has served products in vide range of categories such as Personal Care Appliances, Gourmet, Dry Fruits and Berries, Dry sheets, Health Care under Brand Label "UMANAC".

The E-commerce industry is dynamic and this year was different as the pandemic hit the world that has led to surge in ecommerce and accelerated digital transformation. As lockdowns became the new normal, businesses and consumers increasingly "went digital", providing and purchasing more goods and services online, raising e-commerce's share of global retail trade from 14% in 2019 to about 17% in 2020 [source: <https://unctad.org/news/how-covid-19-triggered-digital-and-e-commerce-turning-point>]. The Company has focus on building trust in order to gain large customer base with the help of understanding customer preferences. The Company insist in the quality and better customer service in order to provide best to the customers.

INDUSTRY STRUCTURE AND DEVELOPMENTS:

COVID-19 has been exceptionally different from what we have ever witnessed. As the world was forced into complete shutdown, it's safe to say that e-commerce was the saving grace, helping millions of people stay home and procure what they wanted at their doorstep. In April 2020, the e-commerce industry in India suffered a decline in the number of orders placed. This was a direct consequence of the nationwide lockdown enforced in the last week of March 2020. However, online sales began to rise in the next few months, with a maximum of over 20 percent in July that year. [Source:<https://www.statista.com/statistics/1215434/india-covid-19-impact-on-commerce-orders-placed/>]

The COVID-19 crisis accelerated an expansion of e-commerce towards new firms, customers and types of products. It has provided customers with access to a significant variety of products from the convenience and safety of their homes, and has enabled firms to continue operation in spite of contact restrictions and other confinement measures. Prior to the pandemic, attitudes towards shopping online had broadly clear distinctions between those for whom it was a matter of convenience whether it be groceries and staples or recreational items; and those for whom it was imperative to shop from physical markets and brick and mortar stores because they are a more active process.

The pandemic has created a shift in the way consumers behave and carry out their activities, directly affecting the e-commerce industry. The situation that only essentials and especially medical supplies are being made available and also people are not inclined to spend money beyond their necessities, offers both challenges as well as

opportunities. The opportunities, however, came fraught with new challenges. The nationwide lockdown brought transportation of goods and movement of personnel to a grinding halt. There were initial hiccups and e-commerce companies struggled to complete deliveries even as orders piled up. During the first two phases of the lockdown, e-commerce companies were allowed to sell only essential items like grocery, healthcare and pharmaceutical products.

The COVID-19 pandemic has resulted in fueling the growth of the e-commerce logistics sector. E-commerce players are seeking alternative warehousing locations to help in the continuity of their business, along with mitigating delivery delays. With the rising awareness for social distancing among Indians, people have started opting for online platforms more than before, even in rural areas. Further, extended lockdowns in several countries have resulted in disrupting the supply chain. E-commerce logistics players are leveraging options, such as contactless deliveries, to mitigate the risk of infection, further boosting the demand for online sales. Also, several retailers across the country are going online to expand their reach.

E-commerce Developments

E-commerce companies today are striving to thrive, remain competitive and efficient. Their top priority is usually customer experience. When it comes to e-commerce marketing trends online retail needs to employ the best techniques. The significance of ecommerce and consumer internet was brought to the forefront during the pandemic. The Companies are the midst of significant digital disruption with business and consumers increasingly adopting online channels to conduct business and meet their need.

Companies must experiment with different marketing trends and tools to figure out what works best for them. Emerging trends include influencer marketing, virtual reality, and artificial intelligence. Marketers need to carefully choose the best-suited and latest e-commerce marketing trends for their brands. Knowing your customers well is the most crucial deciding factor for the growth of any business. How they shop, what they buy, and how they respond to marketing techniques applied by businesses is important. With e-commerce marketing trends purchase online will be smooth for customers.

- ✚ **'Essentials' have a new meaning now:** The pandemic and the consequent lockdown changed people's lifestyles completely. As working from home and online meetings became the norm, people started looking for comfortable clothing that also looked professional – at the same time, many started cooking their favorite dishes at home owing to the inability to eat out. Thus, in addition to the demand for hand sanitisers and immunity boosting supplements, apparel companies started focusing on fashionable leisurewear and F&B brands started offering exotic ingredients, condiments, spices and dips from around the world. There was also a large spike in the demand for ready-to-eat foods. As work-from-home continues in 2021, these altered eating habits are likely to continue being popular.
- ✚ **Large brands shift gears:** For many large established brands, online selling was never a priority and was restricted to some marketplace selling. While some were cautious about how they set up their D2C channels, others were more aggressive. Consumer durables, for instance, saw a significant increase in demand post lockdown as people started doing all the household chores on their own. Dishwashers, vacuum cleaners and washing machines all began to sell much faster than they would before the lockdown. This has necessitated a major strategy shift behind the scenes as manufacturing, supply chain, marketing and branding all focused their attention towards building up the D2C channel. As D2C store and warehouse

integration improved, orders are now fulfilled more efficiently and both costs and time are saved, which will help boost production and sales for this year.

- ✚ **Authentic content will shape how brands reach customers:** Standing out in a sea of social media content remains one of the retail industry's toughest challenges. Towards the end of 2020, new mediums emerged that put control back in the hands of brands, empowering them to create and present authentic content across their own e-Commerce channels.

In 2021, expect an increasing number of retail brands to adopt one-to-many video shopping and greet e-Commerce visitors with tailored product recommendations just like they would in real life, using this authentic content as a gateway to a far more personalized shopping journey.

- ✚ **Personalized Experience:** Site visitors demand one-of-a-kind experience that cater to their needs and interests. Technology is available even to smaller players to capture individual shoppers' interests and preferences to generate a targeted shopping experience. Many E-commerce websites provide personalised experience to customers to cater to their needs and interests depending upon their location, choices, products they like or buy, and websites they visit. E-commerce companies have adopted voice search technology to give a more personalized experience. PhonePe, is giving holistic experience to its customers and merchants, introduced a stores tab on its app and launched a separate merchant app.
- ✚ **Omni channel Ad Spends:** Most retailers today are multichannel: they sell products across many different channels, whether retail, online, or social. In this framework, each channel is supported independently by different staff. In 2021, retailers are shifting toward an Omni channel experience that shares a single inventory and buying platform and customer support experience. The purpose of Omni channel is to keep customers moving along the buyer journey no matter where they are at the moment.

Omni channel advertising reflects this same continuity of experience for the consumer. For example, a customer abandons their cart on your e-commerce website. You opt to target that customer on Facebook with a coupon or incentive to re-engage. Omni channel advertising creates a seamless message that adjusts to your customer based on the behavior of the sales funnel, providing a personalized experience.

- ✚ **Get Ahead in 2021:** e-commerce has never been more important than it is today. Understanding the latest trends in retailing, consumer expectations, design trends, and technology is important to unlocking the potential of your ability to build brand loyalty and attract new customers.

From single-product pages to comprehensive Omni channel experiences, Net Solutions brings a team of experienced designers and programmers who know how to develop shopping experiences that delight your customers.

OPPORTUNITIES:

COVID-19 crisis has accelerated an expansion of e-commerce towards new firms, customers and types of products, likely involving a long-term shift of e-commerce transactions from luxury goods and services to everyday necessities. It also highlights how policy makers can leverage the potential of digital transformation in

retail and related areas to support business adaptation and to enhance social distancing, while ensuring that no one is left behind. Opportunities of E-commerce in current scenario is mentioned below:

✦ **D2C will come into its own as a business model:** India's digital transformation has taken off in a big way over the last several years, with affordable internet plans and cheap smartphones becoming ubiquitous. Ecommerce has also been growing in popularity in both large and small towns. When the pandemic hit, both these trends combined to create a paradigm shift in consumer behaviour towards online shopping for all their needs, both essential and non-essential. Today, India has approximately 90 million shoppers, of whom many are first-timers. However, many brands recognised the constraints of marketplace selling and opted instead for the D2C route. From Whatsapp-based selling and taking orders via Google forms, brands started setting up their own online storefronts to connect with customers – a trend all set to continue next year onwards & is expected to emerge as its own business model.

✦ **Growing Demand:** E-commerce companies reported sales worth US\$ 4.1 billion across platforms in the festive week of October 2020 (October 15-21), driven by increased demand for smartphones. Of the total sales, 55% share was generated from Tier-II cities. Despite depressed consumer spending, economic slowdown and uncertainty created due to COVID-19, e-commerce players are expecting strong sales growth in 2021. Online grocery, e-pharmacy and social commerce are expected to see a bulk of the action in 2021. As most Indians have started shopping online rather than stepping outside their houses, the Indian e-commerce sector witnessed an increase. [Source: <https://www.ibef.org/download/E-Commerce-January-2021.pdf>]

✦ **Selling through Social Media:** Brands are moving toward where users are spending their time: social media. This social discovery is helping to create a new path to growth that doesn't rely on search rankings. Some 60% of people discover new products on Instagram. In fact, 130 million Instagram users tap on shopping posts to learn more each month. [Source: <https://www.netsolutions.com/insights/top-ecommerce-trends/>]

In 2021, we are moving past simple "social media marketing" (paid and unpaid marketing on social media) toward "social commerce," a more direct selling of goods and services on social platforms. Platforms such as Instagram and Facebook can connect to your e-commerce platform to start tagging products in your posts for direct purchase. Having "Buy" buttons on Facebook and Instagram make it easy for consumers to purchase your products.

✦ **Government Initiatives:** Government initiatives like Digital India is constantly introducing people to online modes of commerce. Favorable Foreign Direct Investment [FDI] policy is attracting key players. The Government has proposed "National E-commerce Policy" and has set up a lawful agenda on cross-border data flow where no data will be shared with a foreign Government agency without prior authorization from the Indian Government. Through its 'Digital India' campaign, the Government of India is aiming to create a trillion-dollar online economy by 2025. Heavy investment made by the Government of India in rolling out fiber network for 5G will help boost E-commerce in India.

✦ **Increasing Awareness:** As the awareness of using internet is increasing, more and more people are getting drawn to Ecommerce. Whether it's sellers, buyers, users or investors, more and more people are adapting to the use doing commerce online. Although shoppers between 25 and 34 years of age have been the most

active on E-commerce portals, a surprising number of older people have increasingly started to shop online. However, the age group of 15-34 years are the major consumers of E-commerce. In terms of the real-time digital payment infrastructure, backed by UPI and 24x7 NEFT, India has been ahead of the curve. The COVID-19 pandemic has led to a further rise in digital, contactless payments as customer behavior has shifted from cash to card.

THREATS

- ✦ **Inability to test items first-hand before buying:** It is one of the most common problems faced while shopping online. With this kind of shopping, customers are unable to try the item before getting it. In another sense, e-commerce takes away a crucial part of the purchase process which is testing the product. Videos promoting the products might have been made in a very professional and convincing way, but still many customers are hesitant to buy any item they have not tested or seen before. This is so due to the fact that many customers do not see a real guarantee of product quality.
- ✦ **Restricted Consumer Services:** In the case that a consumer has any enquiries about a certain item in a physical shop, the assistant, the cashier or even the store manager all are ready for help. In contrast, the customer service on ecommerce websites can be restricted: the site may only offer services at a specific work schedule, and sometimes a call to the consumer services division may place the consumer on call hold for a long time.
- ✦ **Supply Chain Spikes** – It has been reported that nearly 75% of all companies have been interrupted by supply chain issues as consumer shopping increased in response to the pandemic. For e-commerce specifically, this has affected sales, created confusion, and anger with customers. Many consumers are now able to purchase items with a click of a button, however, companies haven't always been able to keep track of inventory as a result of this ease as manufacturing companies struggle to organise themselves. Unfortunately, this has led to e-commerce businesses having to apologise to their consumers and ultimately lose trust from valuable consumers.
- ✦ **Higher Cost due to nationwide lockdown** - the pandemic and the lockdown that lasted for major part of 2020, proved to be testing times for various businesses including the higher shipping and logistic cost which had a remarkable contribution in keeping the supply chain for essential items in hurdles. Further, during the pandemic, there were non- availability of sufficient human resources due to nationwide lockdown and restrictions in moving which created hurdles in supply chain of the goods.
- ✦ **Higher Customer Expectations-** The year 2020 has increased the expectations of online shoppers. High Customer expectation is one of the biggest challenge in E-commerce. Customers expect a lot, including things they may not even yet realize they want, including:
 - Low-cost or free returns.
 - Free shipping.
 - A website where it's easy to find information about products and policies.
 - 24 x 7 customer service options right on your e-commerce site.
 - Personalization.
 - A consistent shopping experience across their phones, their desktops, and mobile apps.

- The ability to use any number of digital payment options, including PayPal, Apple Pay, AliPay, Masterpass, Visa Checkout, Google Pay, Payoneer, WeChat, and more, as well as credit and debit cards.

COVID-19 has brought to light many issues that e-commerce companies are facing. Smaller companies have not had to worry about their online sites as they may have focused on in-person sales as their main form of income. Widely known businesses have had to deal with shortages of inventory resulting in angry customers and a hurt reputation. Some e-commerce companies were unprepared for the large amount of traffic on their sites. This has led to site crashes, slow functionality and lost sales. Consumers in these situations are likely to leave, wary to use the site due the unreliability of it, thinking it may not be secure or even a legitimate shopping platform; once again limiting the growth and sales of e-commerce.

While many complaints are about undelivered packages, others are for more subtle reasons and may never be reported.

SEGMENT WISE PERFORMANCE

The Company is reporting in only one reportable segment viz. trading.

COMPANY OUTLOOK

The Company is determined and striving hard in the existing channels of its business and keen to expand the business forward with the same dedication. The Company has always been optimistic even in pandemic and the situations of nationwide shutdown. It has potential to cope up with the tough situation of cut-throat competition especially during the situation of Lockdowns and will continue to grow towards the par excellence of achieving its objectives. E-commerce Industry during the year has been advantageous due to social distancing norms where customers prefer to buy online.

The Company is working in broad categories of products such as Baby Care, Domestic Appliances, Electronic, Gourmet, Health Care, Home & Kitchen Appliances, Luggage and Personal care appliances, pet products, Hand Sanitizers, etc. During the year, Company has opened Retail Store of Pet products and accessories named "PETOLY" The Company has its own private brand "UMANAC" under which the Company is currently selling products in the categories of Food, Pet Products, and electronics. The Company has started D2C business for many brands of the Company which has helped company to sell their products at lower costs than traditional consumer brands, and to maintain end-to-end control over the making, marketing, and distribution of products.

In a short period of time, markets and consumers' behaviors have undergone drastic changes due to the outbreak of the coronavirus (COVID-19). From people raiding grocery store aisles to the cancelation of the world's most significant events and mandates for "non-essential" businesses to temporarily close, this pandemic is having a substantial impact on the economy and society as we knew it. During this time, when people are feeling scared and are adjusting their behaviors, savvy direct-to-consumer (D2C) marketers know it's critical to pivot their strategies and communications to support their customers' experiences empathetically.

RISK MANAGEMENT

Risk management often focuses on risk avoidance and risk mitigation. Innovation is all about taking risks and accepting failure and requires a fundamental change in culture. Risk management is mandatory for any company that seeks to ensure continuity and achieve long-term success. Supply-chain risk management involves mitigation of both exceptional and everyday risks, with the goal of reducing related costs, minimizing inconvenience, and boosting company profits. It takes into consideration all aspects of a business, from finance and logistics to information technology.

Businesses with poor risk-management strategies make themselves vulnerable to going out of business, due to the inability to bounce back after risk exposure. Companies need to put into place reliable solutions that allow them to prepare for any eventuality. Following are a few recommended measures for managing risks in E-commerce.

Identify and prioritize risks: The first step in effectively dealing with any supply-chain disruption is identifying the risks that exist. While numerous internal and external risks can wreak havoc on operations, you need to break down every step of supply chain to identify in detail what could go wrong. This means examining all nodes, including production, suppliers, transport and warehousing. Identify risks that could affect the price, quality and delivery of products, as well as the reputation of company.

Document and prioritize risks depending on how likely they are to happen, as well as their resulting impact. Company has establish the probability of risk occurrence using past or forecasting data, or information from insurance companies relating to businesses in your field.

Risk awareness: Information is power, and having employees with the right knowledge about supply-chain risks puts the company in a better position to deal with known and unknown risks. With this in mind, Company need to create a risk-aware culture in business, by carrying out employee training and sensitization regarding such risks.

Critical information employees should know includes the common risks and challenges facing supply chain, best practices for managing risks, and training on how to use risk-assessment software. Such knowledge empowers employees to be proactive and responsive when preventing and reacting to both internal and external changes.

Create an environment that encourages openness, accountability, and respect. Employees should be able to communicate and share any potential risks, and report bad news without fear. They should also take responsibility for their mistakes without feeling discouraged. This allows employees to learn from their mistakes. An environment that fosters respect means that employees will be careful not to take risks for personal gain at the expense of the company.

Strengthen cybersecurity defenses: In the digital era, almost every company has its operations online. While going digital boosts supply chain's efficiency, it also puts you at risk of cybercrime. Cybersecurity threats such as hacking, and phishing attacks can disrupt business operations, leading to huge losses.

To strengthen company's cybersecurity, Company need to involve both I.T. department and the employees. Below are some Measures Company can use to beef up security and manage supply chain risks.

- Put in place policies and compliance standards that all parties in supply chain, including your suppliers, manufacturers and distributors, should follow.
- Divide up roles by not allowing one person to have too much control. Also, define who can access systems and data, and what they can do with the information.
- Carry out employee cybersecurity training, so they don't fall for traps set by cybercriminals.
- Create a backup plan that will ensure your operations don't stop in case of a security breach.
- Keep Company's software updated and utilize security tools such as VPN, antivirus, and firewall. Company can also consider network access control as well as domain name system (DNS) filtering for more security.

Evaluation of E-commerce Risks: A key to E-commerce success is evaluating and understanding the threats you are up against and how they affect company. This process will act as a basis for Company's risk mitigation plan. The main categories of risks are assumptive risks and operational risks. Assumptive risks are the assumptions you make when planning your venture; they include estimates of;

- Market demand
- Site traffic
- Conversion rate
- Average sales
- Order volume
- Costs of marketing
- Costs of Website maintenance

Assumptions of the risk can be identified by performing intense industry research, observing your competitors, surveying prospective customers. This knowledge will help you to make informed predictions and avoid increasing risk exposure of the Company. Some of the risks which are uncontrollable are mentioned below:

- Market forces
- Economic conditions
- Competitor strategies
- Industry regulations

INTERNAL FINANCIAL CONTROL SYSTEMS AND THEIR ADEQUACY

An internal control system of the Company encompasses the policies, processes, tasks, behaviors and other aspects that taken together facilitate its effective and efficient operation by enabling it to respond appropriately to significant business, operational, financial, compliance and other risks to achieving the company's objectives. This includes the safeguarding of assets from inappropriate use or from loss and fraud, and ensuring that liabilities are identified and managed, help ensure the quality of internal and external reporting. This requires the maintenance of proper records and processes that generate a flow of timely, relevant and reliable information from within and outside the organization. INDEPENDENT AUDITOR'S REPORT

To The Members M/S. OLYMPIA INDUSTRIES LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of M/S. OLYMPIA INDUSTRIES LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2021 the Statement of Profit and Loss (including statement of Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the companies (Indian Accounting Standards) Rules, 2015, as amended, ('Ind AS') and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Company's Annual Report, but does not include the financial statements and our auditor's report thereon.
- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Director's Responsibilities for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act, with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that are operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationship and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore, the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in the "Annexure B" a statement on the matters specified in paragraph 3 and 4 of the Order; to the extent applicable.
- 2) As required by section 143(3) of the Act, we further report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

- d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021, from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of internal financial controls over financial reporting of the Company, and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of Company's internal financial controls over financial reporting.
- 3) With respect to the other matters included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us :
- i. The Company does not have any pending litigations as at March 31, 2021 which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts; as such the question of commenting on any material foreseeable losses thereon does not arise.
 - iii. There were no amounts which were required to be transferred to the investor and Education and Protection Fund by the Company.
- 4) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

ANNEXURE - A TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in (f) of Paragraph 2 under the heading of "Report on Other Legal and Regulatory Requirements" of our Report of even date)

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of sub-section 3 of Section 143 of the Act

We have audited the internal financial controls with reference to financial statements of M/S OLYMPIA INDUSTRIES LIMITED ("the Company") as at March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibilities for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibilities

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls with reference to financial statements

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control

over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over financial reporting

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on, the criteria for internal control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the financial statements for the year ended 31 March 2021

1. Corporate information

The Company was incorporated in 1987. The Company is domiciled in India and has its registered office at Mumbai, Maharashtra, India. The company with its state of art technology is in the business of Marketing & Promotion of Baby care, Home & Kitchen and Beauty & Personal Care Appliances products through E commerce on Amazon as SOA (Selling on Amazon), 1 MG, Flipkart, Paytm & FBA (Fulfillment by Amazon is engaged in providing retail services to global companies).

The CIN number of Company is L52100MH1987PLC045248.

2.A. Significant accounting policies

2.1 Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by Companies (Indian Accounting standards) (Amendment) Rules, 2016.

For all periods up to and including the year ended 31 March 2021, the Company prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 ("Indian GAAP").

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- Certain fixed assets
- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments)

All amounts included in the financials statement are reported in India Rupees (INR).

2.2. Summary of significant accounting policies

a. Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

Sale of products

Revenue from sale of goods is recognised when the significant risks and rewards of ownership of goods have passed to the buyer, usually on delivery of goods. Revenue from sale of goods is measured as fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

Sale of Services

Revenue from services are recognised when services are rendered and related costs are incurred. Revenue from fixed price contracts, are recognised over the life of the contract using the proportionate completion method, with contract costs determining the degree of completion. Foreseeable losses on such contracts are recognised when probable.

The Company presents revenues net of goods and service tax in its statement of profit and loss.

Notes to the financial statements for the year ended 31 March 2021 [Contd...]

Interest Income

For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

Rental Income

Rental income from operating leases on properties is accounted on a straight line basis over the lease terms.

b. Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in India where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in Other comprehensive income (OCI) or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in OCI or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

c. Property, plant and equipment

Property, plant and equipment (PPE) are stated at the cost of acquisition including incidental costs related to acquisition and installation less accumulated depreciation and impairment loss, if any.

Advances paid towards acquisition of property, plant and equipment are disclosed as capital advances under other non - current assets.

On transition to Ind AS, the Company has elected to continue with the carrying value of all its plant and equipment recognised as at 1 April 2016 measured as per the Indian GAAP and use that carrying value as the deemed cost of the plant and equipment except for property where fair value of property has been considered as the deemed cost.

Capital work-in-progress includes cost of property, plant and equipment under installation/ under development as at the balance sheet date and are carried at cost, comprising of direct cost and directly attributable cost.

**Notes to the financial statements for the year ended 31 March 2021 [Contd...]**

Gains or losses arising from disposal of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is disposed.

The Company provides depreciation on property, plant and equipment at the rates of depreciation based on useful lives estimated by the management as follows:

Block of Assets	Estimated useful life (in years)
Office Equipment	5
Building	30
Plant & Machinery	15
Electrical Installation	10
office Equipments	5
Computers System	3-6
Vehicles	8
Furniture and Fixtures	10
Leasehold Improvement	10

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

d. Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date. The arrangement is, or contains a lease if, fulfilment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement. For arrangements entered into prior to 1 April 2016, the Company has determined whether the arrangement contains lease on the basis of facts and circumstances existing on the date of transition.

The Company as lessee

Leases where the lessor retains substantially all the risks and rewards of ownership are classified as operating leases. Payments made under operating leases are recognised in the statement of profit and loss on a straight-line basis over the lease term unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

e. Provisions and contingencies

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Contingent liabilities are disclosed in the notes.

Notes to the financial statements for the year ended 31 March 2021 [Contd...]

f. Retirement and other employee benefits

Provident fund

Retirement benefit in the form of provident fund is a defined contribution scheme. Both the employee and the employer make monthly contributions to the plan at a predetermined rate of the employees' basic salary. These contributions are made to the fund administered and managed by the Government of India. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. The Company has no further obligations under these plans beyond its monthly contributions.

Defined benefit plan

Gratuity

The Company operates a defined benefit gratuity plan. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method, with actuarial valuations being carried out at periodic intervals.

Re-measurements, comprising of actuarial gains and losses and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding charge or credit to retained earnings through OCI in the period in which they occur. Re measurements are not reclassified to statement of profit and loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of Profit and Loss:

- Service costs comprising current service costs; and
- Net interest expense or income

Compensated absences

Accumulated leave is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. The Company treats the entire leave as current liability in the balance sheet.

g. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. The Company recognises a financial asset or a liability in its balance sheet only when the entity becomes party to the contractual provisions of the instrument.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement financial assets are classified into three categories:

- Financial assets at fair value through OCI
- Financial assets at fair value through profit or loss
- Financial assets at amortised cost

Where assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit and loss (i.e. fair value through profit or loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income).

Notes to the financial statements for the year ended 31 March 2021 [Contd...]

A financial asset that meets the following two conditions is measured at amortised cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

- Business model test: The objective of the Company's business model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes).
- Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Even if an instrument meets the two requirements to be measured at amortised cost or fair value through other comprehensive income, a financial asset is measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency (sometimes referred to as an 'accounting mismatch') that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

All other financial assets are measured at fair value through profit or loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

The Company assesses impairment based on expected credit losses (ECL) model to the following:

- Financial assets measured at amortised cost; and
- Financial assets measured at Fair value through other comprehensive income (FVTOCI)

Expected credit losses (ECL) are measured through a loss allowance at an amount equal to:

- the 12-month expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

For trade receivables or contract revenue receivables, the Company follows 'simplified approach' for recognition of impairment loss allowance.

Under the simplified approach, the Company does not track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Notes to the financial statements for the year ended 31 March 2021 [Contd...]

The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Company reverts to recognising impairment loss allowance based on 12-month ECL.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and in the case of payables, net of directly attributable transaction costs.

Subsequent measurement

The Company measures all financial liabilities at amortised cost using the Effective Interest Rate ('EIR') method except for financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. Financial liabilities held for trading are measured at fair value through profit and loss. The Company has not designated any financial liability as at fair value through profit or loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

h. Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and short term investments with an original maturity of three months or less which are subject to an insignificant risk of changes in value.

i. Dividend to equity shareholders of the Company

The Company recognises a liability to make cash or non-cash distributions to equity shareholders when the distribution is authorized and the distribution is no longer at the discretion of the Company. A corresponding amount is recognised directly in equity.

j. Inventories

Inventories are valued at the lower of cost or net realisable value.

Costs related to bringing the product to its present location are accounted as follows:

- Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis

Notes to the financial statements for the year ended 31 March 2021 [Contd...]

- Finished goods and work in progress : cost includes direct material and labour and a proportion of manufacturing overheads on the normal operating costs, but excludes cost of borrowing. Cost is determined on first in, first out basis
- Traded goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and estimated cost to make the sale happen.

2.B. Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

a. Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on the rates given under Indian Assured Lives Mortality (2006-08) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Further details about gratuity obligations are given in Note 29.

b Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow model (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

27. Earnings per share (EPS)

The basic earnings per equity share are computed by dividing the net profit attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding during the reporting period. The number of shares used in computing diluted earnings per share comprises the weighted average number of equity shares considered for deriving basic earnings per equity share, and also the weighted average number of equity shares, which would be issued on the conversion of all dilutive potential equity shares into equity shares, unless the results would be anti-dilutive.

The following reflects the income and share data used in the basic and diluted EPS computations:

	As at 31 March 2021	As at 31 March 2020

28. Commitments and contingencies**a. Leases****Operating lease commitments — Company as lessee**

The Company has entered into operating leases for office facilities and warehouse premises. All the leases are cancellable or mutual consent of lessor & lessee.

29. Gratuity benefit plans

The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, the employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age. The gratuity scheme is managed by a trust which regularly contributes to insurance service provider which manages the funds of the trust. The fund's investments are managed by certain insurance companies as per the mandate provided to them by the trustees and the asset allocation is within the permissible limits prescribed in the insurance regulations. The Company recognises actuarial gains and losses immediately in other comprehensive income, net of taxes.

The following tables summarise the components of net benefit expense recognised in the statement of profit or loss and the funded status and amounts recognised in the balance sheet:

Total	7,178,776	7,037,069	7,178,776	7,037,069

Notes to the financial statements for the year ended 31 March 2021 [Contd...]

The management assessed that cash and cash equivalents, trade receivables, other financial assets trade payables and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

Trade receivables are evaluated by the Company based on specific country risk factors, individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.

The fair values of the FVTPNL (Fair value through profit and loss) financial assets are derived from quoted market prices in active markets.

The fair value of security deposit that carries no interest is measured at the present value by discounting using the prevailing market rate of interest for a similar instrument with a similar credit rating.

32. Financial risk management objectives and policies

The Company's principal financial liabilities comprises trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, and cash and cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management provides assurance to the Board of Directors that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored and followed up.

Trade receivables are evaluated by the Company based on specific country risk factors, individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables. There is no impairment as of 31 March 2021 and 31 March 2020.

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Company's treasury department on a periodic

**Olympia Industries Limited****Notes to the financial statements for the year ended 31 March 2021 [Contd...]**

Basis. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company consistently generated sufficient cash flows from operations to meet its financial obligations as and when they fall due.

The table below summarizes the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

	< 1 years	> 1 years	Total
Year ended 31 March 2021			
Trade and other payables	163,037,523	-	163,037,523
Other financial liabilities	196,380,784	-	196,380,784
	359,418,307	-	359,418,307
Year ended 31 March 2020			
Trade and other payables	86,157,379	-	86,157,379
Other financial liabilities	176,050,210	-	176,050,210
	262,207,589	-	262,207,589

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry. In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio.

33. Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2021 and 31 March 2020.

Notes to the financial statements for the year ended 31 March 2021 [Contd...]

34. Covid-19 information

In March 2020, the World Health Organisation declared COVID 19 to be a pandemic. The Company has adopted measures to curb the spread of infection in order to protect the health of its employees and ensure business continuity with minimal disruption including remote working, maintaining social distancing, sanitization of work spaces etc. The same measure continued even during the current year ended 31 March 2021 as COVID 19 is yet not over. The Company has considered internal and external information while finalizing various estimates in relation to its financial statement upto the date of approval of the financial statements by the Board of Directors and has not identified any material impact on the carrying value of assets, liabilities or provisions. The actual impact of the global health pandemic may be different from that which has been estimated, as the COVID-19 situation evolves in India and globally. The Company will continue to closely monitor any material changes to future economic conditions.

35. Segment Information

The Board of Directors i.e. Chief Operating Decision Maker ('CODM') evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by reportable segments. The Company operates under a single reportable segment which is trading and single geography which is India.
