RBI allows non-bank PSPs in centralised payment systems

PRESS TRUST OF INDIA Mumbai, July 28

THE RESERVE BANK OF India (RBI) on Wednesday allowed authorised non-bank payment system providers (PSPs) to participate in centralised payment systems (CPS), such as real-time gross settlement (RTGS) and national electronic fund transfer (NEFT), as direct members.

RISK REDUCTION

RBI said direct access for non-banks to CPS lowers the overall risk in the payments ecosystem

PSPs include PPI issuers, card networks, white label ATM operators and trade receivables discounting system platforms

An announcement in this regard was made in the April 2021 monetary policy

card networks, white label ATM (WLA) operators and trade receivables discounting system (TReDS) platforms.

In a notification issued on Wednesday, the RBI said on a review of extant arrangements and after detailed discussions with PSPs, it is advised that, "in the first phase, authorised non-bank PSPs, viz. PPI issuers, card networks and white label ATM operators shall be eligible to participate in CPS as direct members".

The RBI said direct access for non-banks to CPS lowers the overall risk in the payments ecosystem. It also brings advantages to non-banks like reduction in cost of payments, minimising dependence on banks, reducing the time taken for completing payments, eliminating the uncertainty in finality of the payments as the settlement is carried out in central bank money, the notification said.

Jewellery retailers upbeat as sales rise

RAJESH RAVI Kochi, July 28

JEWELLERY RETAILERS ARE upbeat about prospects in the second half of the year with sales in April and May seen better compared to same period last year. Traders also expect mandatory hallmarking to increase the share of organised business.

Kalyan Jewellers has reported that its overall revenue achievement in India for the quarter ended June 30, 2021 was around 55% of Q1FY20, while it was around 190% when compared to Q1FY21.

However, Somasundaram PR, regional CEO, India, World Gold Council, feels that a lot could depend on how concerns surrounding virus mutations are managed globally. "On the back of increased vaccine adoption and optimism, it is also entirely possible that we may see signs of revival and gradual resumption to normalcy starting with the Diwali season and into FY2022," he said.

"Mandatory hallmarking is a step in the right direction. Our ambition is to increase exports acting as the 'jeweller to the world'. It cannot be achieved by having a dichotomous approach - one for export markets observing stringent hallmarking standards and the other one for the domestic market with flexibility not to hallmark."
