The Company reserves its right to take all steps as may be deemed necessary to restrict non-members from attending the meeting.
10. In case of joint holders attending the meeting, only such joint holder who is higher in the order of their names as mentioned in the register of members will be entitled to vote.
11. The revised SS-1 and SS-2 shall be applicable to all the companies (except the exempted class of companies) w.e.f. 1st October, 2017 and accordingly all Board Meetings (including meetings of committees of Board) and General Meetings in respect of which Notices are issued on or after 1st October, 2017 need to comply with the revised SS-1 and SS-2.
12. The Notice of the Annual General Meeting is also uploaded on the website of the Company <http://>

www.newtimeinfra.in/investor.html. The Annual General Meeting Notice is being sent to all the members; whose names appear in the Register of Members as on **30th August 2024**.

13. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and MCA Circulars dated April 08, 2020, April 13, 2020 and May 05, 2020 the Company is providing facility of remote e-voting to its Members in respect of the business to be transacted at the AGM. For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorized e-Voting's agency. The facility of casting votes by a member using remote e-voting will be provided by CDSL.
14. Members holding shares in dematerialized form are requested to intimate all changes pertaining to their bank details, National Electronic Clearing Service (NECS), Electronic Clearing Service (ECS), mandates, nominations, power of attorney, change of address, change of name and e-mail address, etc., to their Depository Participant only and not to the Company's Registrars and Transfer Agents, M/s. Beetal Financial & Computer Services Private Limited. Changes intimated to the Depository Participant will then be automatically reflected in the Company's records which will help the Company and M/s. Beetal Financial & Computer Services Private Limited.
15. In case you are holding Company's Shares in physical form, please inform Company's RTA viz, M/s. Beetal Financial & Computer Services Private Limited at Beetal House, 3rd Floor, 99, Madangir, Behind, LSC, New Delhi-110062 by enclosing-a photocopy of blank cancelled cheque of your bank account.

NEWTIME INFRASTRUCTURE LIMITED

21. The Company has appointed **M/s AASK & Associates LLP (LLPIN: AAD-2934)** to act as the Scrutinizer for conducting the e-voting process/ballot process in a fair and transparent manner.
22. The Route Map to the AGM Venue is annexed as a part of this Notice.
23. The Scrutinizer, after scrutinising the votes cast at the meeting through remote e-voting and during AGM will, with two (2) working days from the conclusion of the Meeting, make a consolidated scrutinizer's report and submit the same to the Chairman. The results declared along with the consolidated scrutinizer's report shall be placed on the website of the Company www.newtimeinfra.in and on the website of CDSL www.cdslindia.com. The results shall simultaneously be communicated to the Stock Exchanges.
24. The voting result will be announced by the Chairman or any other person authorized by him within two working days of the AGM.
25. In case of any queries, members may write to newtimeinfra2010@gmail.com to receive an email response.
26. Members are eligible to cast vote electronically only if they are holding shares as on **23rd September, 2024** being the cut-off date.
27. Pursuant to provisions of Section 108 of the Companies Act, 2013 and Rule 20 of the Companies (Management and Administration) Rules, 2014, **the e-voting period commences on Friday, 27th September, 2024 (09:00 a.m. IST) and ends on Sunday, 29th September, 2024 (5:00 p.m. IST)**. During this period, members holding shares either in physical or dematerialized form, as on the cut-off date, i.e. September 23, 2024 may cast their vote electronically.

The e-voting module will be disabled by CDSL for voting thereafter. A member will not be allowed to vote again on any resolution for which the vote has already been cast. The voting rights of members shall be proportionate to their share of the paid-up equity share capital of the Company as on the cut-off date, i.e. 23rd September, 2024.

E-voting rights cannot be exercised by a proxy, though corporate and institutional shareholders shall be entitled to vote through their authorized representatives with proof of their authorization.

28. **Voting through electronic means (e-voting):** Pursuant to provisions of Section 108 of the Companies Act, 2013 and Rule 20 of the Companies (Management and Administration) Rules, 2014 substituted by the Companies (Management and Administration) Amendment Rules, 2015 read with Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has provided a facility to the members to exercise their right to vote electronically through electronic voting (e-voting) service facility provided/made available by the Central Depository Services (India) Limited (CDSL).

The facility for voting through ballot paper will also be made available at the venue of the Annual General Meeting (AGM) and the members who have not already cast their votes by remote e-voting shall be able to exercise their right to vote at the said AGM. Members who have cast their votes by remote e-voting prior to the AGM may attend the AGM but shall not be allowed to vote again. The instructions for e-voting are annexed to the Notice. In case of joint holders attending the meeting, only such joint holder, who is higher in the order of names, will be entitled to vote. Since the resolutions set out in this Notice are being conducted through e-voting, the said resolutions will not be decided on show of hands at the AGM in terms of Section 107 of the Companies Act, 2013.

THE INSTRUCTIONS FOR SHAREHOLDERS VOTING ELECTRONICALLY ARE AS UNDER:

- (i) The voting period begins on **Friday, 27th September, 2024 (9:00 a.m. IST) and ends on Sunday, 29th September, 2024 (5:00 p.m. IST)**. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of **Monday, 23rd September 2024** may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter. Shareholders who have already voted prior to the meeting date would not be entitled to vote on the date of meeting.
- (ii) The shareholders should log on to the e-voting website www.evotingindia.com.

(iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

(iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Pursuant to abovesaid SEBI Circular, Login method for e-Voting and joining virtual meetings **for Individual shareholders holding securities in Demat mode CDSL/NSDL** is given below:

MANAGEMENT DISCUSSION & ANALYSIS REPORT 2023-24

INFRASTRUCTURE LIMITED

The Company commenced operations in India in July 1984 and was earlier into the development of information technology business with the name of Intra Infotech Limited and then it changed its name and main object to infrastructure business, seeing the immense growth in the sector and therefore is now into real estate development with a pan-India presence and operations spanning all key segments of the Indian real estate industry, namely the residential, commercial, and retail sectors. The Company's operations encompass various aspects of real estate development, such as land identification and acquisition, project planning, designing, marketing and execution.

Our Services:

- I. **Construction**
- II. **Real Estate Development**
- III. **Project Consultancy**
- IV. **Project Planning & Management**

I. ECONOMIC OUTLOOK

Global Economic Outlook

The global Infrastructure market accounted for USD 3.1 Trillion in 2020 and is expected to reach USD 5.9 Trillion by 2028, growing at a CAGR of around 11% between 2021 and 2028.

Infrastructure is the facilities and systems that support the sustainable functionality of households and firms. Increased impetus to develop infrastructure in various country is attracting both domestic and international players. The private sector is emerging as a key player across various infrastructure segments, ranging from roads and communications to power and airports. In order to boost the construction of buildings in India, the Government of India has decided to come up with a single window clearance facility to accord speedy approval of construction projects.

Development of highways would be undertaken, including the development of 2,500 km access control highways, 9,000 km of economic corridors, 2,000 km of coastal and land port roads, and 2,000 km of strategic highways. FASTag mechanism encourages greater commercialization of highways, enabling the NHAI to raise more resources. It was proposed to monetize at least 12 lots of highway bundles of over 6,000 km before 2024.

Indian Economic Outlook

India's GDP grew by 8.2% in FY 2023-24. India is expected to remain one of the fastest-growing major economies in the world, with growth driven by robust domestic demand, investments in infrastructure, and structural reforms aimed at enhancing productivity. The IMF raised its growth projection for India's GDP in the current fiscal year 2024/25 to 6.8%, and forecast a 6.5% expansion next year.

The 'Viksit Bharat' vision of the country sets the target for India to become a developed nation by 2047, coinciding with the 100th anniversary of India's independence. It is intrinsically linked to the growth and development of infrastructure in India. The vision emphasises the need to strengthen infrastructure, including transportation, digital connectivity, and energy sectors, to facilitate economic activities and improve quality of life.

To enhance its global competitiveness and improve the quality of life for its citizens, India's infrastructure sector is poised for a strong growth. In the 2024 interim budget, the Indian government has committed substantial

resources to green initiatives and sustainable development to meet its ambitious target of achieving net-zero emissions by 2070. The infrastructure sector has received an allocation of INR11.11 lakh crore (representing 3.4% of the GDP, which is a threefold increase since 2019). Additionally, the Government has extended a 50-year interest-free loan to state governments with an increased outlay of ₹1.3 lakh crore to promote decentralised infrastructure development, especially in urban and peri-urban areas. The implementation of three major economic railway corridor programmes under the PM Gati Shakti scheme will enable multimodal connectivity, accelerate infrastructure development, and improve logistics efficiency at reduced cost.

The Government has set ambitious goals, aiming to construct a 2 lakh-km national highway network by 2025, expand airports to 220, operationalise 23 waterways by 2030, and establish 35 Multi-Modal Logistics Parks. Together, these infrastructure targets will improve connectivity, enhance standards of living for its populace, and transform India into a developed nation by 2047.

Keeping pace with this development, the India Infrastructure Sector Market size (2024- 2029), is expected to grow at a CAGR 9.57% and reach US\$ 322.27 billion by 2029.

II. OUTLOOK AND STRATEGY

- The Company has followed all legal and Regulatory Compliances requirement and has implemented all statutory requirements.
- Your Company believes that demand conditions in the real estate sector are exhibiting early signs of improvement, and signs of declining interest rates as well as renewed activity in the lending and public capital markets are expected to ease funding pressures. As your Company continues to build on its core business of real estate development and leasing, your Company believes that it is well placed to achieve its targets of reducing its overall indebtedness, executing its real estate development and leasing operations and taking advantage of a potential revival in economic growth and its resultant positive effects on the real estate sector. Expansions are required to be made in developing Shopping Complexes.
- The Company remains focused on growing the rental portfolio by capturing the organic growth potential along with new products across, both office and retail segments. The Company expects to maintain its growth trajectory and achieve double-digit growth in its portfolio through organic growth, coupled with new developments. The positive outlook towards the retail business has led to a development of new retail destinations and the Company expects to double its retail presence over the next few years
- Foreign institutional Investors have also shown confidence in the country's construction and are showing up investments in India. This is a positive sign and will open new areas of growth and development.
- The Company has followed all legal and Regulatory Compliances requirement and has implemented all statutory requirements.

III. GOVERNMENT INITIATIVES

Nirmala Sitharaman, the finance minister, delivered the Indian Union Budget 2024-25 on July 23rd, 2024. The budget placed a lot of emphasis on many industries, particularly real estate, which has a big influence on the Indian economy. The following are some significant real estate-related announcements:

The key highlights in respect of real estate sector are:

- Revised Capital Gains tax framework for units of REITs
- Rationalization of Capital Gains on transfer of immovable property
- TDS on payment of rent by certain individuals/ HUF
- TDS on transfer of immovable property
- Rental income from letting out of residential house property to be taxed under 'Income from House Property'

NEWTIME INFRASTRUCTURE LIMITED

➤ **AFFORDABLE HOUSING:**

In this Union Budget, three crore additional houses under Pradhan Mantri Awas Yojana (PMAY) have been announced for urban areas. With an investment of Rs.10 lakh crore, housing needs of 1 crore urban poor and middle class families will be addressed. It is a significant move that will support the affordable housing segment. It will also boost the demand for housing materials and workforce on construction sites. Further Foreign investors are increasingly recognizing the potential of India's real estate market. The commercial real estate sector, in particular, has seen significant interest from global investors. Growing urbanization, the rise of the middle class, and the expansion of sectors like e-commerce and technology have created a demand for office spaces, logistics facilities, and retail outlets.

➤ **GOVERNMENT TO HELP PROVIDE HOUSING FOR MIDDLE CLASS, ANNOUNCES FM:**

Finance Minister Nirmala Sitharaman has announced that the government will help the middle class living in rented houses, slums or unauthorized colonies build or buy their own houses as a major announcement during the Budget 2024.

➤ **OPPORTUNITY FOR REAL ESTATE STAKEHOLDERS:**

Announcement about Developing industrial parks, corridors, infrastructure, and vegetable supply chains near urban consumption centres will offer significant opportunities for real estate stakeholders.

➤ **CHEAPER RENTAL HOME COMPLEXES:**

The government has also unveiled a plan for the construction of such complexes, which would offer migratory workers and the urban underprivileged affordable housing choices.

➤ **INDEXATION BENEFIT REMOVED ON PROPERTIES BOUGHT AFTER 2001:**

Government has announced a significant change in the tax treatment of immovable properties, clarifying that the indexation benefit will be removed for properties bought after 2001 while retaining it for those purchased before that year. This adjustment accompanies a proposal to reduce the long-term capital gains (LTCG) tax on real estate from 20% to 12.5%, aimed at simplifying tax calculations.

Experts say this shift could lead to a heavier tax burden for property sellers. They are saying that this could hinder the growth of the real estate sector.

➤ **REAL ESTATE INVESTMENT TRUSTS (REITS) REGIME:**

The government has declared the implementation of a REITs regime, which will offer investment possibilities in the real estate industry and aid in addressing the rising housing need.

Lastly, One of the biggest game changing policy implementation was the introduction of the Real Estate (Regulation and Development) Act (RERA) which has put a semblance of order in the real estate sector by boosting investor confidence and streamlining the builder response by framing their responsibilities and duties. Moreover, foreign investors who are watching the Indian real estate market have also witnessed how the Indian housing trends are changing in favour of urban dwellings. The resurgent middle class has also led to a boom in the demand for urban housing. In addition, this is not just limited to the metros. It has spread to tier two and tier three towns as well. The returns and margins are so good in Indian real estate that many global institutional investors are now eyeing the Indian real estate market like never before. The government's move to allow 100% FDI in construction, and development projects has also boosted the investors' confidence in the sector.

IV. OPPORTUNITIES AND CHALLENGES

➤ **Opportunities**

As India awaits policy reforms to pick up speed, your Company firmly believes that the demand for Real Estate in a country like India should remain strong in the medium to long term. Your Company has well accepted brand, contemporary architecture, well-designed projects in strategic locations, strong balance sheet and stable financial performance even in testing times make it a preferred choice for

Customers and shareholders. Your company is ideally placed to further strengthen its development potential by acquiring new land parcels.

Leading experts in the Indian property market is viewing 2024-25 as a booming year for the industry. According to them, in the next few quarters, there will be 8-10% hike in sales collectively in residential, commercial, and retail segments. With the demand for housing on the rise, it's a sure bet to invest in residential real estate. Likewise, both commercial and retail segments are rapidly expanding, thanks to the immense growth in the respective sectors. Obviously, for investors, it is the right time to add real estate in their portfolio.

- **Commercial Real Estate:** The commercial real estate segment, including office spaces, shopping malls, and warehouses, offers significant growth opportunities in the Indian real estate sector. With the growth of e-commerce, there is an increasing demand for warehouses and logistics parks.
- **Co-Living and Co-Working Spaces:** Co-living and co-working spaces are gaining popularity in India, especially in urban areas. Developers who focus on this segment can cater to the growing demand for flexible and affordable living and working spaces.
- **Affordable Housing:** The affordable housing segment is a significant opportunity in the Indian real estate sector. The government's focus on providing "Housing for All" by 2022 has created a huge demand for affordable housing. Developers who focus on this segment can benefit from government incentives and tax breaks.
- **Real Estate Investment Trusts (REITs):** REITs have been introduced in India to provide investors with an opportunity to invest in the Indian real estate market. Developers can benefit from REITs by monetizing their assets and attracting long-term investors.
- **Technology-Enabled Real Estate Services:** Technology is playing an increasing role in the Indian real estate sector, with the development of online property portals, virtual property tours, and digital marketing. Developers who adopt technology can improve their marketing efforts and attract a wider audience.

Artificial intelligence (AI) is revolutionising the infrastructure sector by improving efficiency, reducing costs, enhancing safety, and enabling more sustainable development. The infrastructure industry can use AI for project management, safety, and operational efficiency.

The application of drones for surveying construction sites, monitoring progress, and ensuring safety compliance is increasing. The availability of real-time data and high resolution imagery leads to enhanced decision-making. We have used 3D BIM overlaid with 4D details on project and resource planning, operations review, and formulating catch-up plans. AI will also help us optimise infrastructure performance and enhance sustainability.

While there are challenges to overcome, the potential benefits in terms of efficiency, safety, and sustainability will drive the push towards AI adoption.

Overall, the Indian real estate sector offers significant opportunities for developers, investors, and home-buyers. Developers who focus on affordable housing, commercial real estate, co-living and co-working spaces, and adopt technology can benefit from the growing demand in these segments. Investors can benefit from the potential returns from the Indian real estate market through REITs.

➤ **Challenges**

- **Regulatory Environment:** India's real estate industry has historically been characterized by a lack of transparency and weak regulations. This has led to fraudulent practices such as delayed project completion, misappropriation of funds, and conflicts between developers and buyers.

NEWTIME INFRASTRUCTURE LIMITED

- **Land Acquisition:** Land acquisition is a major challenge for real estate development in India. The process is complicated, time-consuming, and often leads to disputes between developers, landowners, and government authorities.
- **Financing:** Access to financing is another major challenge for real estate developers in India. Banks are often hesitant to lend to the industry due to high levels of default risk, and interest rates can be prohibitively high.
- **Construction Delays:** Delays in project completion are a common problem in the Indian real estate industry. This can be due to a variety of factors, including delays in obtaining approvals, shortage of skilled labour, and supply chain disruptions.
- **High Inventory Levels:** Oversupply of properties in some markets has led to a build up of inventory, which has resulted in lower prices and lower demand.
- **Lack of Professionalism:** The Indian real estate industry is often criticized for a lack of professionalism, with developers often failing to deliver on promises and providing poor customer service.
- **Lack of Infrastructure:** Lack of infrastructure, including roads, water, and electricity, is a major challenge for real estate developers in many parts of India. This can make it difficult to attract buyers and tenants.

The Company addresses these risks through a well-structured framework which identifies desired controls and assigns ownership to monitor and mitigate the risks.

V. STRENGTHS

Your Company continues to capitalize on the market opportunities by leveraging its key strengths. These include:

- **Brand Reputation:** Enjoys higher recall and influences the buying decision of the customer. Strong customer connects further results in higher premium realizations.
- **Execution:** Possesses a successful track record of quality execution of projects with contemporary architecture.
- **Strong cash flows:** Has built a business model that ensures continuous cash flows from their investment and development properties ensuring a steady cash flow even during the adverse business cycles.
- **Significant leveraging opportunity:** Follows conservative debt practice coupled with enough cash balance which provides a significant leveraging opportunity for further expansions.
- **Outsourcing:** Operates an outsourcing model of appointing globally renowned architects/contractors that allows scalability and emphasizes contemporary design and quality construction – a key factor of success.
- **Transparency:** Follows a strong culture of corporate governance and ensures transparency and a high level of business ethics.

VI. THREATS/RISKS

- **Political uncertainty**

From the cold war period, maximum developing countries are feeling the threat of global polarization. Although, the threats are not visible but there is an undercurrent of uncertainty looming around real estate. The change of leadership affects heavily on the taxation system which has direct link to real estate sector. When the throne gets shifted to another leader, the economic environment gets influenced. Sometime, the new leadership may halt the taxation reforms inducted by his previous leader. Tread war between countries are also another bigger threat to the real estate companies.

- **Interest rate**

When interest rates rise, it has firm impact on residential real estate markets. This rise will reduce the demand of new home among the customers and in this way; the real estate industry goes dry.

The prices of the homes get elevated and in this way, they won't be affordable as before. The growth of interest rate will reduce the demand of homes among potential customers.

- **Economy and housing affordability**

When the economy goes down, the affordability of the home goes up. In this way, the budget of the home gets increased which has a direct negative impact on the customer's purchase power. Once, the affordability of the homes gets reduced; customers will feel the heat and they will halt their plan to purchase new homes.

- **Change of demography**

Change of demography also impacts negatively on the real estate market. When the demands of homes get increased for certain demographic divisions, the prices get automatically elevated. On the other hand, if the demands get decreased, the prices get decreased too.

- **Loss of middle class society**

At the present time, in developing countries, there is a huge drop of middle class society. Needless to mention, this class is known as the potential consumer of the real estate market.

- **Troubled Technology**

Presently, there is a huge adoption of technology in the real estate sector. These include robotics, AI, driverless cars, high speed and sophisticated communication systems are reducing the demand of mega structure homes and increasing the living of capsule homes.

- **Natural Disaster**

Housing is always a matter of several thousands of dollars. Once the home gets destroyed with a natural disaster, the owner may not be able to build another one. This is the main reason for which, the demand of homes gets decreased specially in disaster prone areas.

- **Energy and water crisis**

Energy is the backbone of life. While going to choose a perfect home, owners first check whether that area has sufficient supply of energy and water or not. If there is any shortage of water or energy, the plan for purchasing a home gets turned down.

- **Infrastructure**

All most all the home owners prefer to purchase their homes in highly developed areas. Cities are the first choice for purchasing homes. However, if there is poor infrastructure, people won't agree to purchase the homes in those areas.

- **Immigration**

Immigration issue is always looming as a biggest threat to the home buyers. There are several countries like USA that have laws to oust foreigners. If a foreigner is not sure about his future, why will they invest on housing? This is the main reason for which, the real estate sector faces threat from these kinds of laws.

The Company has an internal audit department which conducts audit in various functional areas as per audit programme approved by the Audit Committee of Directors. The internal audit department reports its findings and observations to the audit committee, which meets at regular intervals to review the audit issues and to follow up implementation of corrective actions.

The committee also seeks the views of statutory auditors on the adequacy of the internal control system in the company. The audit committee has majority of independent directors to maintain the objectivity.

X. HUMAN RESOURCES DEVELOPMENT

At NIL, we believe that employees are the strong pillars which lay the foundation of our success. To ensure a strong foundation, we select, hire and develop the right talent which is aligned to IRB's values, mission and vision

and will lead us on a path to success. A skilled workforce delivers more effectively, leading their own growth as well as the growth of the organisation. We provide trainings to our employees such as induction training, on-the-job training, skill-upgradation and behavioural trainings. We have various employee engagement activities to ensure that the employees feel engaged at work and to strengthen the mental and emotional connect that they feel towards their work, work environment and organisation. Our human resources' focus is on hiring the best talent, improving efficiencies with optimized cost. We continue to hire people with the right competencies to ensure efficient, timely and high quality execution of our projects.

XII. EMBRACING THE NET ZERO CHALLENGE

The infrastructure sector is responsible for 79% of all greenhouse gas emissions. Of this, the construction industry globally accounts for approximately 39% of energy-related CO2 emissions. The carbon footprint originates from material production, construction activities, operational emissions, and waste management. The emissions include both, operational emissions (from energy used to heat, cool, and power buildings) and embodied emissions (from materials and construction processes). Operational emissions from buildings account for about 28% of global energy-related CO2 emissions. These emissions are primarily from the energy required for heating, cooling, lighting, and other building operations. Embodied emissions contribute roughly 11% of global carbon emissions. Key materials like steel, cement, and glass are significant sources of embodied carbon due to their energy-intensive production processes. Thus, the very nature of the construction industry makes it challenging to achieve the net zero target.

To reach net zero by 2050, the construction industry will need to decarbonise three times faster over the next 30 years versus the previous 30! Globally, achieving a net zero economy requires trillions of dollars in annual investment, with estimates ranging from \$4 trillion to \$9.2 trillion per year through 2050. Investments of \$130 trillion have already been committed by over 450 firms across 45 countries globally. While this represents 40% of the world's financial assets, the pace of investment will, however, need to accelerate significantly to meet net zero goals.

NEWTIME INFRASTRUCTURE LIMITED

The push for sustainable infrastructure is aligned with India's commitments made at COP26, including achieving net zero emissions by 2070 and reducing the emissions intensity of its GDP by 45% by 2030. India will need around \$2.5 trillion by 2030 to meet its climate targets. Investments are being earmarked for renewable energy, efficient public transportation, and green buildings to lower the carbon footprint and foster a more sustainable environment. This commitment reflects India's dedication to addressing climate change while balancing developmental priorities.

According to the Crisil Infrastructure Yearbook 2023, India's infrastructure spending will double to 143 lakh crore between fiscal 2024 and 2030. This is more than twice the '67 lakh crore spent in the past seven financial years starting 2017. Further, of the total, '36.6 lakh crore will be green investments, marking a five times rise compared with the amount spent during fiscals 2017-2023.

The energy sector is a major source of global carbon emissions. India on its pathway to fulfilling its net zero target has launched a comprehensive green energy policy that has ambitious targets for expanding renewable energy capacity and enhancing energy efficiency. Green hydrogen is set to play a major role in achieving the net zero target. The National Green Hydrogen Mission launched in 2023 has the target of producing at least 5 million metric tons of green hydrogen annually by 2030, reducing dependence on fossil fuels and cutting industrial emissions. The Government has allocated '17,490 crore under Strategic Interventions for Green Hydrogen Transition (SIGHT) programme. This will be distributed through a Production-Linked Incentive (PLI) scheme for the manufacturing of electrolysers and production of green hydrogen derived from renewables and pyrolysis. The SIGHT programme and the PLI scheme are expected to significantly boost the green hydrogen market in India, fostering a competitive and innovative environment. The move will make India a global hub for using, producing, and exporting green hydrogen, making it one of the most sustainable and clean ways of producing energy.

The path to net zero will require an unwavering focus from the industry to adopt sustainable practices and work towards developing stronger international collaboration.

XIII. COLLABORATIONS

The journey towards sustainable infrastructure can be successful only if there is widespread adoption of its practices. Inclusion of all partners in designing products that cut down carbon footprint is the cornerstone for sustainability. The collaborative effort between governments, industry stakeholders, academia, startups and innovation hubs, and the global community to innovate, invest, and implement sustainable practices is the way forward to address the challenges.

XIV. CAUTIONARY STATEMENT

Certain statements in respect to Management Discussion and Analysis may be forward looking and are stated as required by the applicable laws and regulations. The future performance of the Company may be affected by many factors, which could be different from what the Directors envisage in terms of future performance and outlook.

INDEPENDENT AUDITOR'S REPORT

To the Members of Newtime Infrastructure Limited

Report on the Standalone Ind AS Financial Statements

Opinion

1. We have audited the accompanying standalone Ind AS financial statements of Newtime Infrastructure Limited ('the Company'), which comprise the balance sheet as at March 31, 2024, the statement of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended and a summary of the significant accounting policies and other explanatory information (herein after referred to as "standalone Ind AS financial statements").
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs of the Company as at March 31, 2024, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

4. Trade payables, trade receivables and other loans and advances given or taken are subject to reconciliation and confirmation.

Our report is not modified in respect of above-mentioned matter.

Key audit matters

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
6. We have no matter other than those described Emphasis of Matter section to communicate in our audit report.

Information other than the financial statements and auditor's report thereon

7. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

NEWTIME INFRASTRUCTURE LIMITED

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's responsibilities for the standalone financial statements

8. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
9. In preparing the standalone financial statements, Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
10. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the audit of the standalone financial statements

11. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.
12. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
13. Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.
 14. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
 15. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
 16. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other legal and regulatory requirements

17. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the 'Annexure A', a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
18. As required by Section 143 (3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The Balance Sheet, the Statement of profit and loss including Other comprehensive income, Statement of changes in equity and the Statement of cash flows dealt with by this Report are in agreement with the books of account;
 - d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act;
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate Report in 'Annexure B' to this report;
 - g) In our opinion, the managerial remuneration for the year ended March 31, 2024 has been paid/provided by the company to its directors in accordance with the provisions of section 197(16) of the Act, as amended;
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

NEWTIME INFRASTRUCTURE LIMITED

- i. The Company does not have any pending litigations on its financial position in its Financial Statements;
- ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection fund by the Company during the year ended March 31, 2024.
- iv. The Management has represented that, to the best of its knowledge and belief:
 - a) No funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - b) No funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. During the year the Company has not declared any dividend.
- vi. Based on our examination which included test checks, the Company has used accounting software which partially has a feature of recording audit trail for maintaining its books of accounts.

The management faced constraints on selecting the appropriate software vendor in delivering and installing the required updates, which prevented the immediate implementation of audit trail-compliant software. Additionally, the company's current accounting software is fully capable of ensuring that the books of account and other relevant records are retained completely in their original format or in a format that accurately presents the information. The software ensures that the data remains complete and unaltered, thereby maintaining the integrity and reliability of the records.

As proviso to Rule 3(1) of the Companies (Accounts) Rules 2014 is applicable from April 01, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

Annexure “A” to the Independent Auditor’s Report

(Referred to in paragraph 17 under the heading “Report on Other Legal & Regulatory Requirements” section of our report of even date to the members of Newtime Infrastructure Limited)

Based on the audit procedures performed for the purpose of reporting a true and fair view on the standalone financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) In respect of the Company’s Property, plant and equipment:
 - (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, plant and equipment.
 - (B) The Company has maintained proper records showing full particulars of intangible assets.
 - (b) The Company has a program of physical verification of Property, plant and equipment so to cover all the assets once every three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - (c) According to the information and explanations given to us, no immovable property is held in the name of company as on March 31, 2024. Accordingly, reporting under clause 3(i)(c) is not applicable.
 - (d) The Company has not revalued its property, plant and equipment (including right-to-use assets) during the year.
 - (e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2024 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- (ii) (a) According to the information and explanations provided to us, the physical verification of inventories has been carried out by the management at regular interval. The frequency of the physical verification, in our opinion, is reasonable having regard to the size of the Company and nature of business. Further, there was no discrepancy noticed for each class of the inventory.
- (b) The Company has not been sanctioned working capital limits from banks or financial institution on the basis of security of current assets during the current year. Accordingly, the reporting under clause 3(ii)(b) of the Order is not applicable.
- (iii) (a) According to the information and explanations provided to us, the Company has made investments in Companies during the year.

Annexure “B” to the Independent Auditor’s Report

Report on the Internal financial controls under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Newtime Infrastructure Limited (“the Company”) as of March 31, 2024 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for internal financial controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal financial controls over financial reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ responsibilities

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of internal financial controls over financial reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur

and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on audit of Internal financial controls over financial reporting issued by the Institute of Chartered Accountants of India.

Notes to the Standalone Financial Statements

1. Company Overview

M/s Newtime Infrastructure Limited is a limited company incorporated in India on 05th July 1984. The address of its registered office is Begampur Khatola, Khandsa, Near Krishna Maruti, Basai Road, Gurgaon, Haryana, India, 122001.

The Company is engaged in Real estate development. The Company's operations encompass various aspects of real estate and infrastructure development and all types of erection, commissioning projects on turnkey basis and providing real estate consultancy services.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

2.1 Statement of Compliance

The Financial Statements have been prepared in accordance with IND AS notified under the companies (Indian Accounting Standard) Rules, 2015. The Company has adopted Indian Accounting Standard from April 1, 2016 and accordingly these standalone financial statements have been prepared with IND ASs notified by section 133 of Companies Act, 2013 read with relevant rules issued there under from time to time, to the extent applicable to the Company.

2.2 Basis of preparation of Financial statements

These financial statements are prepared in accordance with Indian Accounting Standards (IND AS), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act , 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The IND AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued Indian accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.3 Use of Estimates

The preparation of the financial statements in conformity with IND AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

2.3.1 Provisions and contingent liabilities

A provision is recognized when the company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. Contingent liabilities are not recognized or disclosed in the financial statements. A contingent asset is neither recognized nor disclosed in the financial statements.

2.3.2 Impairment of Assets

2.3.2.1 Financial assets (other than at fair value)

The company assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The

company recognizes lifetime expected losses for all contract assets and/or all trade receivables that do not constitute a financing transaction.

2.3.2.2 Non-financial assets

Property, Plant & equipment and Intangible Assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is an indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value in - use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit or loss. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss.

2.4 Income Taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income.

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

2.5 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation /amortization and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The cost of property, plant & equipment also includes initial estimates of dismantling cost and restoring the site to its original position, on which the site is located.

Freehold land is measured at cost and is not depreciated.

Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the statement of profit and loss when incurred.

Interest cost incurred is capitalised up to the date the asset is ready for its intended use for qualifying assets, based on borrowings incurred specifically for financing the asset or the weighted average rate of all other borrowings, if no specific borrowings have been incurred for the asset.

Depreciation is provided on the Straight Line Method (SLM) over the estimated useful lives of the assets considering the nature, estimated usage, operating conditions, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support. Taking into account these factors, the Company has decided to retain the useful life hitherto adopted for various categories of property, plant and equipments, which are different from those prescribed in Schedule II of the Act.

NEWTIME INFRASTRUCTURE LIMITED

Estimated useful lives of assets are as follows:

Type of Asset	Estimated useful life (years)
Computer and IT equipment	3 years
Vehicles	10 years

The useful lives are reviewed at each year end. Changes in expected useful lives are treated as change in accounting estimates.

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use.

An item of property, plant and equipment is derecognized on disposal. Any gain or loss arising from derecognition of an item of property, plant and equipment is included in the statement of profit and loss.

2.6 Lease

Payment made towards short term leases (leases for which non-cancellable term is 12 months or lesser) and low value assets are recognised in the statement of Profit and Loss as rental expenses over the tenor of such leases.

2.7 Financial Instrument

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI).

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of Profit and Loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement~ and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial assets. The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the statement of Profit and Loss.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, trade and other payables. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including cash credit and financial guarantee contracts.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives

are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Company has not designated any financial liability as at fair value through Statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

2.8 Borrowings

Preference Shares are separated into equity and liability components based on the terms of the issue / contract. On issuance of the preference shares, the fair value of the liability component is determined using a market rate for an equivalent instrument. This amount is classified as financial liability and it is measured at amortized cost method until it is extinguished on conversion or redemption. The remainder of the proceeds is recognized and included in equity component is not re-measured in subsequent years.

2.9 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimated, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions determined by discounting the expected future cash flow at a pre-tax rate that reflects current market assessment of the time value of money and the risk specified to the liability.

2.10 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivables. Amounts disclosed as revenue are exclusive of taxes and net of returns, trade allowances, rebates, discounts and value added taxes.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured regardless of when the payment is being made. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each agreement.

- All expenses and income are accounted on accrual basis.

2.11 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

NEWTIME INFRASTRUCTURE LIMITED

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is Unobservable

For assets and liabilities that are recognized in the Consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period or each case.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- * Disclosures for valuation methods, significant estimates and assumptions
- * Quantitative disclosures of fair value measurement hierarchy
- * Investment in unquoted equity shares
- * Financial instruments

2.12 Depreciation & amortization

The company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. Depreciation on additions/deductions to property, plant and equipment is provided on pro-rata basis from the date of actual installation or up to the date of such sale or disposal, as the case may be.

2.13 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

2.14 Cash and Cash Equivalent

Cash and Cash equivalent comprise cash in hand and demand deposits, together with other short term, highly liquid investment that are readily convertible into known amounts of cash and which are subject to an in significant risk of changes in value.

2.15 Employee Benefit Expenses**Short-Term Employee Benefits**

Short - term employee benefits include performance incentive, salaries & wages, bonus and leave travel allowance. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the services.

Long - Term Employee Benefits

The liability for gratuity & leave encashment is determined using Projected Unit Credit [PUC] Method and is accounted for on the basis of actuarial valuation in Accordance with IND AS - 19. The company recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Actuarial Gains and losses through re-measurements of the net defined benefit liability/ (asset) are recognized in other comprehensive income. The current service cost is included in the employee benefit expense in the statement of profit & loss account. The interest cost calculated by applying the discount rate to the net balance of defined benefit obligation, is included in the finance cost in the statement of profit & loss account.

2.16 Assets Held for Sale

Non-current assets or disposal group are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met.

2.17 Cash Flow Statement

Cash flow are reported using indirect method set out in Ind AS-7 on cash flow statement, expect in case of dividend which is considered on the basis of actual movement of cash with corresponding adjustments of assets and liabilities and where by profit for the period is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items in income or expenses associated with investing or financial cash flow. The cash flow from operating, investing and financing activities of the company are segregated.

Note-27: Gratuity post-employment benefit plans

(Amount in Lakhs)

PARTICULARS	As at 31.03.2024	As at 31.03.2023
Gratuity	9.61	8.50
	9.61	8.50

The Group has a defined benefit gratuity plan in India (unfunded). The Group's defined benefit gratuity plan is a final salary plan for employees.

The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age.

The following tables summarise the components of net benefit expense recognised in the statement of profit and loss and amounts recognised in the balance sheet for the respective plans:

Net benefit expense (recognised in profit or loss)

Current service cost	0.62	0.59
Interest cost	0.96	0.95
Net benefit expense	1.58	1.54

Net amount recognized in other comprehensive (income)/loss

Remeasurements due to:		
Effect of change in financial assumptions	0.20	(0.12)
Effect of experience adjustments	(0.67)	(1.11)

Changes in the present value of the defined benefit obligation are, as follows

Defined benefit obligation at the beginning of the year	8.50	8.19
Interest cost	0.62	0.59
Current service cost	0.96	0.95
Benefits paid	-	-
Actuarial (Gain)/Loss on obligation	(0.47)	(1.22)
Defined benefit obligation at closing of the year	9.61	8.50

Current / non current bifurcation

Current liability	1.24	0.28
Non-Current liability	8.37	8.22
	9.61	8.50

The principal assumptions used in determining gratuity and leave encashment post-employment benefit obligations for the Group's plans are shown below:

Discount rate:	%	%
Gratuity plan	7.09 p.a.	7.29 p.a.
Future salary increases:	%	%
Gratuity plan	8.00 p.a.	8.00 p.a.
Life expectation for:	58 Years	58 Years

A quantitative sensitivity analysis for significant assumption is shown as below: *(Amount in Lakhs)*

	31-Mar-24	31-Mar-23	31-Mar-24	31-Mar-23
Assumptions	Discount rate		Future salary increase	
Sensitivity Level	+ 100 Basis Points	+ 100 Basis Points	+ 100 Basis Points	+100Basis Points
Impact on defined benefit obligation	INR Lacs (0.95)	INR Lacs (0.89)	INR Lacs 1.10	INR Lacs 1.03
	31-Mar-24	31-Mar-23	31-Mar-24	31-Mar-23
Assumptions	Discount rate		Future salary increase	
Sensitivity Level	-100 Basis Points	-100 Basis Points	-100 Basis Points	-100 Basis Points
Impact on defined benefit obligation	INR Lacs 1.12	INR Lacs 1.05	INR Lacs (0.95)	INR Lacs (0.89)

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period. The sensitivity analyses are based on a change in a significant assumption, keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation from one another.

Carrying value of all financial assets and liabilities is approximately equal to the fair value maturity period for all liabilities.

Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The management assessed that cash and cash equivalents, trade payables and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments

The Company is exposed to credit risk and liquidity risk. The Company's senior management oversees the Management of these risks. . The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below:

(A) Market risk:

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: Interest rate risk and currency risk. Financial instruments affected by market risk include loans and borrowings, deposits and payables/ receivables in foreign currencies.

-Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has no such borrowings that carry fluctuating rate of interest and hence, not exposed to interest rate risk.

- Foreign currency risks

Foreign risk is the risk that the fair value of future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company is not dealing in foreign currency transaction therefore the Company is not exposed to foreign currency risks.

(B) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company's major financial assets represent investment with banks, NBFC, Trade receivables, loans and advances and other financial assets. The Company attempts to limit the credit risk by dealing with reputed banks only.

(C) Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure funds are available for use as per requirements. The Company's prime source of liquidity is cash and cash equivalents and the cash generated from operations. The Company has no outstanding bank borrowings.

INDEPENDENT AUDITOR'S REPORT

To the Members of Newtime Infrastructure Limited

Report on the Consolidated Ind AS Financial Statements

Opinion

1. We have audited the accompanying Consolidated Financial Statements of Newtime Infrastructure Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") comprising of the consolidated Balance sheet as at March 31 2024, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").
2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2024, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section' of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Emphasis of matter

4. Trade payables, trade receivables and other loans and advances given or taken are subject to reconciliation and confirmation.
5. We draw attention to the matter reported in the audit report dated May 29, 2024 issued by the other auditor on the standalone financial statement of Pluto Biz Developers Private Limited, a subsidiary which describes that its other financial assets and other financial liabilities are subject to reconciliation and confirmation.
6. We draw attention to the matter reported in the audit report dated May 29, 2024 issued by the other auditor on the standalone financial statement of Wintage Infra Height Private Limited, a subsidiary which describes that its non-current assets, other financial assets and other current financial liabilities are subject to reconciliation and confirmation.
7. We draw attention to the matter reported in the audit report dated May 29, 2024 issued by the other auditor on the standalone financial statement of Kashish Projects Private Limited, a fellow subsidiary which describes that its other current assets and financial liabilities are subject to reconciliation and confirmation.

Our report is not modified in respect of above-mentioned matters.

Key audit matters

8. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the

NEWTIME INFRASTRUCTURE LIMITED CONSOLIDATED FINANCIAL STATEMENT

context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

9. We have no matters other than described in the Material uncertainty related to going concern section, Emphasis of Matter section and other matters section to communicate in our audit report.

Information other than the financial statements and auditor's report thereon

10. The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's responsibilities for the consolidated financial statements

11. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associates and joint ventures in accordance with the Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India. The Holding Company's Board of Directors are also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated Ind AS financial statements. Further, in terms of the provisions of the Act the respective Board of Directors of the companies included in the Group, and its associate companies and joint venture companies covered under the Act are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. These financial statements have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.
12. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
13. The respective Board of Directors of the companies included in the Group is also responsible for overseeing financial reporting process of Group.

Auditor's Responsibilities for the audit of the consolidated financial statements

14. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report

NEWTIME INFRASTRUCTURE LIMITED

CONSOLIDATED FINANCIAL STATEMENT

that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

15. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Group has adequate internal financial controls with reference to the consolidated financial statement in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
 - Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion
16. Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.
17. We communicate with those charged with governance of the Holding Company of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
18. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other

NEWTIME INFRASTRUCTURE LIMITED CONSOLIDATED FINANCIAL STATEMENT

matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

19. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other matters

20. We did not audit the financial statements of its 7 subsidiaries (including fellow subsidiaries) and 1 associate whose financial information reflect total assets (before consolidation) of Rs. 4,576.36 lakhs as at March 31, 2024, total revenues (before consolidation adjustments) of Rs. 37.10 lakhs, total net loss (before consolidation adjustments) after tax of Rs. 63.22 lakhs, and total comprehensive loss (before consolidation adjustments) after tax of Rs. 63.22 lakhs for the year ended March 31, 2024, as considered in the consolidated financial statement. The consolidated financial statements also include Group's share of net profit of Rs. 57.10 lakhs and Group's share of total comprehensive profit of Rs. 57.10 lakhs for the year ended March 31, 2024, whose financial statement has not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries (including fellow subsidiaries) and associate and our report in terms of sub-section (3) of section 143 of the Act in so far as it relates to the aforesaid subsidiaries (including fellow subsidiaries) and associate are based solely on the reports of the other auditors.

Our report is not modified in respect of the above mentioned matter.

Report on Other legal and regulatory requirements

21. As required by clause (xxi) of paragraph 3 of Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act based on the consideration of the Order reports issued till date by us, of companies included in the consolidated financial statements for the year ended March 31, 2024 and covered under the Act, there are no qualifications or adverse remarks in the Companies (Auditors Report) Order (CARO) reports of the companies included in the consolidated financial statements. Accordingly, the requirement to report on clause 3(xxi) of the Order is not applicable.
22. As required by Section 143 (3) of the Act, based on our audit, as noted in the 'other matter' paragraph, we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books;
 - c) The consolidated balance sheet, the consolidated statement of profit and loss including the statement of other comprehensive income, the consolidated cash flow statement and consolidated statement of changes in equity dealt with by this report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements;
 - d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - e) On the basis of the written representations received from the directors of the Holding Company and its subsidiary companies as on March 31, 2024 taken on record by the Board of Directors of the Holding Company and its subsidiary companies that none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act;

NEWTIME INFRASTRUCTURE LIMITED

CONSOLIDATED FINANCIAL STATEMENT

- f) With respect to the adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate Report in 'Annexure B' to this report;
- g) In our opinion, the managerial remuneration for the year ended March 31, 2024 has been paid/ provided by the group to its directors in accordance with the provisions of section 197(16) of the Act, as amended;
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Group has disclosed the impact of pending litigations on its consolidated financial position in its consolidated Financial Statements, if any;
 - ii. The Group has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection fund by the Holding Company and its subsidiaries during the year ended March 31, 2024.
- iv. The respective management has represented that, to the best of its knowledge and belief:
 - a) No funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or its subsidiaries or to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or its subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - b) No funds (which are material either individually or in the aggregate) have been received by the Holding Company or its subsidiaries from any person(s) or entity(ies), including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or its subsidiaries shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The Holding Company and its subsidiaries have not declared or paid any dividend during the year.
- vi. Based on our examination which included test checks, the Group has used an accounting software which partially has a feature of recording audit trail for maintaining its books of accounts.

The management faced constraints on selecting the appropriate software vendor in delivering and installing the required updates, which prevented the immediate implementation of audit trail-compliant software. Additionally, the company's current accounting software is fully capable of ensuring that the books of account and other relevant records are retained completely in their original format or in a format that accurately presents the information. The software ensures that the data remains complete and unaltered, thereby maintaining the integrity and reliability of the records.

NEWTIME INFRASTRUCTURE LIMITED CONSOLIDATED FINANCIAL STATEMENT

As proviso to Rule 3(1) of the Companies (Accounts) Rules 2014 is applicable from April 01, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

Annexure “B” to the Independent Auditor’s Report

Report on the Internal financial controls under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of Newtime Infrastructure Limited (hereinafter referred to as “Holding Company”), as of and for the year ended March 31, 2024, we have audited the internal financial controls over financial reporting of the Holding Company and its subsidiaries which are companies incorporated in India, as of that date.

Management’s Responsibility for internal financial controls

The respective Board of Directors of the Company and its subsidiaries are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal financial controls over financial reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ responsibilities

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Group based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidences obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiaries.

Meaning of internal financial controls over financial reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Group; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the Group; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Group’s assets that could have a material effect on the financial statements.

NEWTIME INFRASTRUCTURE LIMITED CONSOLIDATED FINANCIAL STATEMENT

Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company and its subsidiaries, which are the companies incorporated in India have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on audit of Internal financial controls over financial reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to Consolidated Financial Statements, in so far as it relates to 7 subsidiaries (including fellow subsidiaries) and associate, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies.

Our opinion is not modified in respect of this matter.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

2.1 Statement of Compliance

The Consolidated financial statements have been prepared in accordance with IND AS notified under the companies (Indian Accounting Standard) Rules, 2015. The Group has adopted Indian Accounting Standard from April 1, 2016 and accordingly these Consolidated financial statements have been prepared with IND ASs notified by section 133 of Companies Act, 2013 read with relevant rules issued there under from time to time, to the extent applicable to the Group.

2.2 Basis of preparation of Consolidated financial statements

Newtime infrastructure limited consolidates entities which it owns or controls. The Consolidated financial statements comprise the financial statements of the Company, its controlled subsidiaries and associates. Control exists when the parent has power over the entity, is exposed, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiaries are consolidated from the date control commences until the date control ceases.

The financial statements of the Group companies are consolidated on a line-by-line basis and intra-group balances and transactions including unrealized gain / loss from such transactions are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group. Non-controlling interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the Company, are excluded.

2.3 Current versus non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria: it is expected to be realized in, or is intended for sale or consumption in, the Group's normal operating cycle;

- ● it is held primarily for the purpose of being traded;
- ● it is expected to be realised within 12 months after the reporting date; or
- ● it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Group's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting period; or
- the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include the current portion of non current financial liabilities. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.4 Use of Estimates

The preparation of the Consolidated financial statements in conformity with IND AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the Consolidated financial statements and reported amounts of revenues and expenses during the period. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the Consolidated financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the Consolidated financial statements .

2.4.1 Provisions and contingent liabilities

A provision is recognized when the Group has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. Contingent liabilities are not recognized or disclosed in the Consolidated financial statements . A contingent asset is neither recognized nor disclosed in the Consolidated financial statements .

2.4.2 Impairment of Assets

2.4.2.1 Financial assets (other than at fair value)

The Group assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss

NEWTIME INFRASTRUCTURE LIMITED

CONSOLIDATED FINANCIAL STATEMENT

allowance. The Group recognizes lifetime expected losses for all contract assets and/or all trade receivables that do not constitute a financing transaction.

2.4.2.2 Non-financial assets

Property, Plant & equipment and Intangible Assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is an indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value in - use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit or loss. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss.

2.4.2.3 Impairment of Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a Cash Generating Unit (CGUs) is less than its carrying amount. For the impairment test, goodwill is allocated to the CGU or groups of CGUs which benefit from the synergies of the acquisition and which represent the lowest level at which goodwill is monitored for internal management purposes. The recoverable amount of CGUs is determined based on higher of value-in-use and fair value less cost to sell. Key assumptions in the cash flow projections are prepared based on current economic conditions and comprises estimated long term growth rates, weighted average cost of capital and estimated operating margins.

2.5 Income Taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income.

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Consolidated financial statements . Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

2.6 Business combination and Goodwill

Business combinations have been accounted for using the acquisition method under the provisions of Ind AS 103, Business Combinations.

The purchase price in an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the Group. The purchase price also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition. Contingent consideration is remeasured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognized in the Consolidated Statement of Profit and Loss.

NEWTIME INFRASTRUCTURE LIMITED CONSOLIDATED FINANCIAL STATEMENT

The interest of non-controlling shareholders is initially measured either at fair value or at the non-controlling interests proportionate share of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by acquisition basis. Subsequent to acquisition, the carrying amount of noncontrolling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity of subsidiaries.

The control is accounted for at carrying value of the assets Business combinations between entities under common acquired and liabilities assumed in the Group's consolidated financial statements.

The payments related to options issued by the Group over the non-controlling interests in its subsidiaries are accounted as financial liabilities and initially recognized at the estimated present value of gross obligations. Such options are subsequently measured at fair value in order to reflect the amount payable under the option at the date at which it becomes exercisable In the event that the option expires unexercised, the liability is derecognized.

Acquisition

During the current year, the Group, completed four business combinations by acquiring majority voting interests in the following companies:

- (i) Aertha luxury homes private limited on 16th February 2024 and 97.50% voting interest,
- (ii) Mverx Technologies private limited on 14th March 2024 and 100% voting interest,
- (iii) Neoville Developers private limited on 14th March 2024 and 100% voting interest,
- (iv) Kashish project private limited on 16th February 2024 and 100% voting interest,

These acquisitions are expected to strengthen the Group's presence in real estate and hospitality businesses and enhance the profitability in future

2.7 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation /amortization and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The cost of property, plant & equipment also includes initial estimates of dismantling cost and restoring the site to its original position, on which the site is located.

Freehold land is measured at cost and is not depreciated.

Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the statement of profit and loss when incurred.

Interest cost incurred is capitalised up to the date the asset is ready for its intended use for qualifying assets, based on borrowings incurred specifically for financing the asset or the weighted average rate of all other borrowings, if no specific borrowings have been incurred for the asset.

Depreciation is provided on the Straight Line Method (SLM) over the estimated useful lives of the assets considering the nature, estimated usage, operating conditions, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support. Taking into account these factors, the Group has decided to retain the useful life hitherto adopted for various categories of property, plant and equipments, which are different from those prescribed in Schedule II of the Act.

Estimated useful lives of assets are as follows:

Type of Asset	Estimated useful life (years)
Computer and IT equipment	3 years
Vehicles	10 years
Plant and Machinery	10 years
Office equipment	5 years
Furniture and fixtures	8-10 years

NEWTIME INFRASTRUCTURE LIMITED

CONSOLIDATED FINANCIAL STATEMENT

The useful lives are reviewed at each year end. Changes in expected useful lives are treated as change in accounting estimates.

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use.

An item of property, plant and equipment is derecognized on disposal. Any gain or loss arising from derecognition of an item of property, plant and equipment is included in the statement of profit and loss.

2.8 Other intangible assets

i) Initial recognition

Intangible assets acquired separately are measured on initial recognition at cost. The cost comprises purchase price and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Following initial recognition, intangible assets are carried at cost less any accumulated amortization.

ii) Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in the statement of profit and loss as incurred.

iii) Others

Intangible assets are amortised on a straight-line basis over the estimated useful life not exceeding six years.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

2.9 Capital work-in-progress

Cost of property, plant and equipment not ready for use as at the reporting date are disclosed as capital work-in-progress.

2.10 Lease

Payment made towards short term leases (leases for which non-cancellable term is 12 months or lesser) and low value assets are recognised in the statement of Profit and Loss as rental expenses over the tenor of such leases.

2.11 Financial Instrument

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)

NEWTIME INFRASTRUCTURE LIMITED CONSOLIDATED FINANCIAL STATEMENT

- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI).

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Group has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of Profit and Loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised (i.e. removed from the Group's balance sheet) when:

NEWTIME INFRASTRUCTURE LIMITED

CONSOLIDATED FINANCIAL STATEMENT

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement~ and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial assets. The Group follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables.

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the statement of Profit and Loss.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, trade and other payables. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Group's financial

NEWTIME INFRASTRUCTURE LIMITED CONSOLIDATED FINANCIAL STATEMENT

liabilities include trade and other payables, loans and borrowings including cash credit and financial guarantee contracts.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Group has not designated any financial liability as at fair value through Statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

2.12 Borrowings

Preference Shares are separated into equity and liability components based on the terms of the issue / contract. On issuance of the preference shares, the fair value of the liability component is determined using a market rate for an equivalent instrument. This amount is classified as financial liability and it is measured at amortized cost method until it is extinguished on conversion or redemption. The remainder of the proceeds is recognized and included in equity component is not re-measured in subsequent years.

2.13 Provisions

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that is reasonably estimated, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions determined by discounting the expected future cash flow at a pre-tax rate that reflects current market assessment of the time value of money and the risk specified to the liability.

2.14 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivables. Amounts disclosed as revenue are exclusive of taxes and net of returns, trade allowances, rebates, discounts and value added taxes.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured regardless of when the payment is being made. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each agreement.

- All expenses and income are accounted on accrual basis.

2.15 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction

NEWTIME INFRASTRUCTURE LIMITED

CONSOLIDATED FINANCIAL STATEMENT

between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is Unobservable

For assets and liabilities that are recognized in the Consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period or each case.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

* Disclosures for valuation methods, significant estimates and assumptions

* Quantitative disclosures of fair value measurement hierarchy

* Investment in unquoted equity shares

* Financial instruments

2.16 Depreciation & amortization

The Group depreciates property, plant and equipment over their estimated useful lives using the straight-line method. Depreciation on additions/deductions to property, plant and equipment is provided on pro-rata basis from the date of actual installation or up to the date of such sale or disposal, as the case may be.

2.17 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Group by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Group by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The

NEWTIME INFRASTRUCTURE LIMITED CONSOLIDATED FINANCIAL STATEMENT

dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the Consolidated financial statements by the Board of Directors.

2.18 Cash and Cash Equivalent

Cash and Cash equivalent comprise cash in hand and demand deposits, together with other short term, highly liquid investment that are readily convertible into known amounts of cash and which are subject to an in significant risk of changes in value.

2.19 Employee Benefit Expenses

● Short-Term Employee Benefits

Short - term employee benefits include performance incentive, salaries & wages, bonus and leave travel allowance. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the services.

● Long - Term Employee Benefits

The liability for gratuity & leave encashment is determined using Projected Unit Credit [PUC] Method and is accounted for on the basis of actuarial valuation in Accordance with IND AS - 19. The Group recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Actuarial Gains and losses through re-measurements of the net defined benefit liability/ (asset) are recognized in other comprehensive income. The current service cost is included in the employee benefit expense in the statement of profit & loss account. The interest cost calculated by applying the discount rate to the net balance of defined benefit obligation, is included in the finance cost in the statement of profit & loss account.

2.20 Assets Held for Sale

Non-current assets or disposal group are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met.

2.21 Cash Flow Statement

Cash flow are reported using indirect method set out in Ind AS-7 on cash flow statement, expect in case of dividend which is considered on the basis of actual movement of cash with corresponding adjustments of assets and liabilities and where by profit for the period is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items in income or expenses associated with investing or financial cash flow. The cash flow from operating, investing and financing activities of the Group are segregated.

PARTICULARS	As at 31.03.2024	As at 31.03.2023
Gratuity	9.61	8.50
	9.61	8.50

The Group has a defined benefit gratuity plan in India (unfunded). The Group's defined benefit gratuity plan is a final salary plan for employees.

The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age.

The following tables summarise the components of net benefit expense recognised in the statement of profit and loss and amounts recognised in the balance sheet for the respective plans:

Net benefit expense (recognised in profit or loss)

Current service cost	0.62	0.59
Interest cost	0.96	0.95
Net benefit expense	1.58	1.54

Net amount recognized in other comprehensive (income)/loss

Remeasurements due to:		
Effect of change in financial assumptions	0.20	(0.12)
Effect of experience adjustments	(0.67)	(1.11)

Changes in the present value of the defined benefit obligation are, as follows

Defined benefit obligation at the beginning of the year	8.50	8.19
Interest cost	0.62	0.59
Current service cost	0.96	0.95
Benefits paid	-	-
Actuarial (Gain)/Loss on obligation	(0.47)	(1.22)
Defined benefit obligation at closing of the year	9.61	8.50

Current / non current bifurcation

Current liability	1.24	0.28
Non-Current liability	8.37	8.22
	9.61	8.50

The principal assumptions used in determining gratuity and leave encashment post-employment benefit obligations for the Group's plans are shown below:

Discount rate:	%	%
Gratuity plan	7.09 p.a.	7.29 p.a.
Future salary increases:	%	%
Gratuity plan	8.00 p.a.	8.00 p.a.

A quantitative sensitivity analysis for significant assumption is shown as below: *(Amount in Lakhs)*

	31-Mar-24	31-Mar-23	31-Mar-24	31-Mar-23
Assumptions	Discount rate		Future salary increase	
Sensitivity Level	+ 100 Basis Points		+ 100 Basis Points	
Impact on defined benefit obligation	INR Lacs (0.95)	INR Lacs (0.89)	INR Lacs 1.10	INR Lacs 1.03

	31-Mar-24	31-Mar-23	31-Mar-24	31-Mar-23
Assumptions	Discount rate		Future salary increase	
Sensitivity Level	-100 Basis Points		-100 Basis Points	
Impact on defined benefit obligation	INR Lacs 1.12	INR Lacs 1.05	INR Lacs (0.95)	INR Lacs (0.89)

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period. The sensitivity analyses are based on a change in a significant assumption, keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation from one another.

Carrying value of all financial assets and liabilities is approximately equal to the fair value maturity period for all liabilities.

Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The management assessed that cash and cash equivalents, trade payables and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments

The Group is exposed to credit risk and liquidity risk. The Group's senior management oversees the Management of these risks. The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below:

(A) Market risk:

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: Interest rate risk and currency risk. Financial instruments affected by market risk include loans and borrowings, deposits and payables/ receivables in foreign currencies.

-Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has no such borrowings that carry fluctuating rate of interest and hence, not exposed to interest rate risk.

- Foreign currency risks

Foreign risk is the risk that the fair value of future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company is not dealing in foreign currency transaction therefore the Company is not exposed to foreign currency risks.

(B) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company's major financial assets represent investment with banks, NBFC, Trade receivables, loans and advances and other financial assets. The Company attempts to limit the credit risk by dealing with reputed banks only.

(C) Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure funds are available for use as per requirements. The Company's prime source of liquidity is cash and cash equivalents and the cash generated from operations. The Company has no outstanding bank borrowings.

Note 38 Segment information

On the basis of nature of businesses, the Group has two reportable segments, as follows:

- Real estate and
- Hospitality

No operating segments have been aggregated to form the above reportable operating segments.

The Executive Management Committee monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the consolidated financial statements.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.
