Board Meeting

Scheduling and selection of agenda items for Board Meetings

Board Meetings are governed by structured agenda. The Company Secretary draft the agenda for each meeting, in consultation with Chief Financial Officer and Managing Director and distribute these in advance to the Directors. Every Board member can suggest the inclusion of additional items in the agenda. The Board meets at least once a quarter to review the quarterly results and other items on the agenda and also on the occasion of AGM. However with the Board being represented by independent Directors from various parts of the country, it may not be possible for each one of them to be physically present at all the meetings. Hence, we provide video/teleconferencing facilities to enable their participation. The board members are expected to rigorously prepare for, attend and participate in Board and applicable committee meetings. Each member is expected to ensure their current and planned future commitments do not materially interfere with their responsibilities with us.

Detailed presentations are made at the Board / Committee meetings covering Finance, major business segments and operations of the Company, business strategy and the risk management practices before taking on record the quarterly / half yearly / annual financial results of the Company.

Overview

The food processing industry is one of the mainstays of the global economy with a value addition of USD 1.7 trillion (2019E1). United States of America (USA), China, Germany, Netherlands and Japan are the top markets for the global processed food industry. Meat, beverages, fruits and nuts, fish and cereals account for 43 per cent of the total exports. USA, Netherlands and Germany are major exporters of processed food. The Indian food processing market is expected to double from USD 263 billion (2019-20) to USD 535 billion (2025). India is the world's fourteen largest exporter of food products with a 2.6 per cent share in global exports (2010) and growing at a CAGR of 2.6 per cent during 2015-2019. India's food processing levels are much lower than its global counterparts however, its strategic geographical location gives it a unique competitive advantage when it comes to exports. With abundant raw material supply and a huge domestic market for processed food, the opportunities for food processing industry are innumerable. The conditions are thus right for a food processing boom in India across all sub-segments. In recent times, rural and semi-urban India has been witnessing a growing demand for processed foods and the pandemic has further enhanced acceptability and demand for packaged food, snacks, dairy and ready-to-eat (RTE) segment. Demand for allied industries such as food processing equipment and food logistics is also likely to rise. India has the potential to be the food export hub in the post-Covid-19 era and with the right interventions can become the global leader in this industry.

a) Industry structure and developments.

The pandemic caused a pivot in both Dining In and Dining Out. Both sectors shifted course drastically. With Dining In, the home kitchen pivoted early, forging habits and routines that will stay. We are excited to see the home kitchen driving trends in the Dining Out industry, rather than the other way round. How and what we shop for, what and from where we order in, what media we consume, where we travel – all our food decisions outside the home in 2021 will be driven by the home kitchen. Decisions that will drive innovation across food retail and Dining Out. The post-pandemic consumer will be especially choosy, shopping and Dining Out selectively and specifically. And the industry has its work cut out for it to meet these new demands; innovating, redesigning production and dining spaces, revising health and hygiene systems, service protocols, food delivery SOPs, packaging solutions and more. Hearteningly, Industry is already working overtime to get back on track.

Food Service Industry

Looking back at 2020 - both monstrous and miraculous.... and gazing forward into 2021, at a food industry that has changed radically! The pandemic caused a pivot in both Dining in and Dining out. Both sectors shifted course drastically. Everything has changed. And uncertainty still rules. But looking forward to 2021, I'm personally galvanised! We've been moving toward a regional renaissance in Indian food over the last decade, that 2020 accelerated! Under the stasis of the pandemic a collective learning and creativity had been fermenting. This is a whole new chapter we are writing in the evolution of India's food history!"

Covid -19 Impact

As the world grapples with the impact of the novel coronavirus (Covid 19), daily interaction with the outside world, public and retail spaces, restaurants, educational institutions, and even with each other has been and will continue to be reoriented prioritising personal hygiene and public health.

The sudden breakout of coronavirus disease (COVID-19) rapidly spread across the globe, leaving no country behind in being affected by the global pandemic in the year 2019-20. As COVID-19 commenced, within months major Asian giants initiated the norms of social distancing and lockdowns in their societies. The indiscriminate nature of the current pandemic has not only impacted the health and quality of life of people but has also disrupted the global economy, supply chains, and countries all over

the world. In food and beverage manufacturing industries, the unanticipated disruption has encumbered its lock on the global food supply chain and service sector as major cities shut down for several months in India. Human existence is dependent upon food, which renders energy for activity, growth, and all functions of the body.

Consumer Products food & beverage companies are facing significantly reduced consumption as well as disrupted supply chains. At-home consumption has increased, but out-of-home consumption – which historically generates the highest margin – has come to nearly a standstill.

The top 12 food trend predicted for 2021 are:

1. Breakfast will be served, re-imagined

The experts predict increasing innovation in the category, from ground-breaking packaged solutions to innovative artisanal offerings from home entrepreneurs and restaurants.

2. Burgeoning interest in flavour

2021 will see the consumer exploring flavours and nuances thereof in a quest to keep feeding the hunger for new flavours.

3. Deeper explorations of Indian ferments

Traditional wisdom and the perceived health benefits of fermentation and a rising interest in the cuisines of North East India are all fueling a deeper exploration into the rich repertoire of fermented foods in India.

4. Ghar Ki Rasoi will take centre stage

In 2021, the home kitchen will rule dining decisions both in and out of the home.

5. Home Delivery will see unprecedented innovation

2021 will bring unprecedented realignment in this sector across the food industry as it works to survive and adapt to the new order.

6. Homegrown will rule as mindful eating gains traction

Conversations around health, sustainability and farmer welfare that brought millets into consumer focus in the recent past have sparked a similar interest and revival of all things indigenous, from ingredients to flavours.

7. Indian food will find brag value on Instagram

In 2021, all things Indian- regional cuisines, indigenous ingredients, traditional cookware and stories about food will enjoy brag-value or become 'Instagram-able!'

8. North-East cuisines will offer homegrown exotic

The culinary culture of North-East India has been consistently garnering interest in the past few years, and 2021 will see Indians exploring North-East Indian cuisine like never before.

9. Proactive Wellness, food as self-care will drive individual diet choices

A growing interest in Ayurveda, rising curiosity in nutrigenomics and personally optimized diet options show that consumers will look for solutions that best align with individual lifestyle choices in 2021.

10. The renaissance of Indian regional cuisines

2021 will bring the renaissance of Indian regional cuisines with the legion of home chefs and mini enterprises poised to unleash a smorgasbord of offerings.

11. The rise of culinary self reliance - DIY

The year 2020 prompted a pivot to culinary self-reliance and DIY across the board, and it's a habit that will stay with us through 2021 and beyond.

12. Take Me Halfway – Home Kitchens will want mindful convenience

Convenience cooking has shown a steady rise in adaptability and respectability over the last few years. There is industry-wide innovation underway to provide solutions for ready-to-cook, ready-to-eat and everything in between to support new

work-life systems in 2021.

Predicting the Future

Preferred Alternatives to Home Cooked Meals

Post pandemic, new routines call for juggling a whole new set of priorities; work from home, household chores, cooking. Add to this a renewed emphasis on health and immunity-boosting diets, financial constraints, environmental consciousness and a lot more online exploration are all driving food choices across the board. We are logging in more hours in the kitchen than ever before but over time novelty has given way to fatigue. As we go forward, the emphasis on home-cooked food will prevail as food safety continues to be a primary driver, the demand for healthy trustworthy alternatives to home cooking will grow. Basis a survey conducted 72% feel that food delivery from trusted home chef kitchens will be the preferred alternative to home cooking. 46.7% see DIY meal kits & recipe boxes from trusted sources being popular and hearteningly 46.7% feel people will also rely on food delivery from trusted restaurants/cloud kitchens.

Food Trends at Home

The year 2020 saw an extraordinary global cooking frenzy that drove a spate of food trends. It began with Dalgona coffee and took off from there. Some were seduced by sourdough, others fell for ferments, both global and desi, and still others played with ideas like pancake cereal (which led to spin-off dosa and chilla cereals). More time was spent online to explore and learn more about food. The desire for entertainment, self-care, and cravings for foods that are just out of reach, will continue to drive experimentation in the kitchen this year, and we see home cooks pushing their boundaries like never before. Basis a survey conducted 57.3% of experts sees rediscovering roots (family, community & regional cuisines) as the top trend in the home kitchen, while 49% see adventurous cooks delving into experimentation with cuisines other than one’s own (whether regional Indian or global cuisines). And to feed the curiosity and aspiration, 31.6 of the panel predicts a rise in food exploration through studies, classes and workshops

New Restaurant Concepts

Restaurants have always been at the forefront, leading change when it comes to trends and innovation. Literally putting their money where their mouths are, restaurants constantly push the envelope; offering up new cuisines, unusual ingredients, fancy techniques and more to keep reinventing themselves and refresh their offerings to excite and attract patrons. At the beginning of 2020, top trends in this space were cloud, dark or ghost kitchens; regional Indian; and special diet-dedicated health driven concepts. And this section of the 2020 Dining Out forecast didn’t get disrupted, rather, it was accelerated! Post the pandemic, many food businesses and restaurants have had to pivot to survive the new normal. It is clear that restaurants in 2021 will have their work cut out for them as far as capturing and holding consumer interest goes. With home delivery still prevailing over dining out choices 69.7% of the survey respondents feel affordable gourmet experiences, home delivered will be the biggest

new concept. Following closely will be regional cuisine-based concepts, according to 45.5% of survey respondents experts. And with everything being home delivered, 43.4% of them believe 2021 will see a further surge in dark/ cloud/ ghost kitchens as real estate

b) Opportunities and Threats

Opportunities:

Large crop and material base in the country due to agroecological variability offers vast potential for agro processing activities. Integration of developments in contemporary technologies such as electronics, material science, computer, biotechnology etc. offer vast scope for rapid improvement and progress. Opening of global markets may lead to export of our developed technologies and facilitate generation of additional income and employment opportunities.

Threats:

Competition from global players Loss of trained manpower to other industries and other professions due to better working conditions prevailing there may lead to further shortage of manpower. Rapid developments in contemporary and requirements of the industry may lead to fast obsolescence.

c) Out look

Considering the huge cost involved in operation and maintenance, the Company consolidated its operations to sectors that are profits making in terms of location and formats. This has reduced the operational cost significantly. The Company propose to focus more on such formats and locations to strengthen the financials and may take up additional business activities in line with the objects of the Company.

The Company wish to set a target to show a performance which should be better than the industry. For this purpose the management has already geared up to reduce the cost at each possible processing level and at the same time introduce such products which would find good market and also at the same time generate better margin for the business.

d) Risk and Concerns

The state of external environment, including factors like interest rates, inflation, and growth in economic activity and job creation and consumer sentiment continues to be the biggest source of threat as well as opportunity for the Company. Any slowdown in the economic activity in the country, significant job losses or high rates of inflation can severely impact the consumption and therefore growth of the Company. Other external factors, including a steep rise in interest rates or drastic changes in the policy or regulatory environment can pose financial challenge for the Company. However, the continued steps taken by the Company has reduced its reliance on the debt funds while improving its debt maturity profile. Reduction in the cost of finance had also reduced stress on its cash flow, thereby improving business efficiency and helped in reducing overall operating cost.

The set controls and defined responsibilities at each level of management require evaluation of the various existing risks and new expected risks at an early stage and immediate action plan to mitigate such risks. Further the authorities given at each management level ensures implementation and execution of such action plan with minimised risk. Further, use of information technology for implementation as well as regular review and evaluation of such risks and risk mitigation action plan by management ensures minimisation of such risks.

e) Internal Control Systems and their Adequacy

At GCKL, internal control systems and procedure are adequately commensurate with the size and structure of the business. The operating and business control procedures have been planned and implemented in a manner that ensures efficient use of resources, as well as compliance with procedures and regulatory requirements.

The Company has engaged a firm of Internal Auditors to carry out audits extensively throughout the year with the objective of testing the adequacy and effectiveness of internal controls and recommending improvements.

The Audit Committee hold discussions with auditors periodically about internal control systems, the scope of audit including the observations and reviews of the quarterly, half yearly and annual financial statements before submission to the Board. The Audit Committee ensures compliance of internal control systems.

f) Human Resources/Industrial Relation Font:

The industrial relations across different locations of the Company were cordial during the year. The Company has, over the last few months, built the team necessary to be able to build and execute the vision that has been articulated in the preceding paragraphs. The total number of employees of the Company as on March 31, 2021, stood at 233 Previous year 311.

g) Financial performance with respect to operational performance

Information Other than the Financial Statement and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report there on.

Independent Auditor's Report

Annual Report 2020-2021

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statement our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statement or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statement

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these financial statement that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statement, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statement

Our objectives are to obtain reasonable assurance about whether the financial statement as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statement.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statement, including the disclosures, and whether the financial statement represents the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statement that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statement may be influenced. We consider quantitative

materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statement.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statement of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure A, a statement on the matters specified in the paragraphs 3 and 4 of the order, to the extent applicable.

(A) As required by Section 143(3) of the Act, we report that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive loss, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account;
- d. In our opinion, the aforesaid financial statement comply with the Indian Accounting Standards specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014;
- e. On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the director is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164(2) of the Act;
- f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls refer to our separate report in "Annexure B";

(B) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its financial statement
- ii. The Company did not have any long-term contracts including derivative contracts hence the question of making a provision for any resulting material foreseeable losses does not arise; and;
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure B to Independent Auditor's Report

Annual Report 2020-2021

The Annexure referred to in paragraph 1(A)(f) under "Report on Other Legal and Regulatory Requirements" section of our report of even date,

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Galaxy Cloud Kitchens Limited (Formerly known as 'Galaxy Entertainment Corporation Limited') ("the Company") as of 31st March, 2021 in conjunction with our audit of the financial statement of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by ICAI (the "Guidance Note") and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statement for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statement in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statement.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

1) Company Overview

Galaxy Cloud Kitchens Limited ('the Company') is a public Company domiciled in India and incorporated under the provisions of Companies Act, 1956 on August 13, 1981. The Company is engaged in manufacturing of food products (Viz bakery, desserts, confectionery, meals, ready to eat food.) The Company has manufacturing facilities at five location and sells primarily in India.

The Company has its registered office at Mumbai, Maharashtra, India. The Company has its primary listing on BSE Limited.

The financial statements were authorised for issue in accordance with a resolution of the Board of Directors on June 29, 2021.

2) Significant Accounting Policies

(a) Basis of preparation of financial statements.

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with of the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements. All assets and liabilities have been classified as current or noncurrent as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities. The financial statements are presented in INR, the functional currency of the Company. Items included in the financial statements of the Company are recorded using the currency of the primary economic environment in which the Company operates (the 'functional currency'). All amounts disclosed in the financial statements and notes have been rounded off to the nearest thousand as per the requirement of Schedule III to the Act, unless otherwise stated.

(b) Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

(c) Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the property, plant and equipment will flow to the company and the cost of the property, plant and equipment can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Statement of Profit or Loss during the reporting period in which they are incurred. Assets classified as held for sale are reported at the lower of the carrying value or the fair value less cost to sell.

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives. The estimated useful lives of assets are as follows:

| Asset Class | Useful Life |
|----------------------------------|--------------------|
| Plant & Machinery | 15 Years |
| Furniture & Fixtures | 10 Years |
| Computer | 3 Years |
| Improvement to Licensed Premises | 10 Years |

forming part of the financial statements for the year ended 31st March, 2021

The useful lives have been determined as specified by Schedule II to the Companies Act, 2013. The residual values are not more than 5% of the original cost of the asset. The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss, if any.

(d) Intangible Assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on straight line basis from the date they are available for use.

(e) Impairment of non-financial assets

An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the assets is increased to its revised recoverable amount, provided that this amount doesn't exceed the carrying amount that would have been determined, had no impairment loss being recognized for the asset in prior years.

(f) Investments and other financial assets

(i) Classification

The company classifies its financial assets in the following measurement categories:

- (a) Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- (b) Those measured at amortized cost.

The classification depends on the company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

(ii) Measurement

At initial recognition, the company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt Instruments:

A subsequent measurement of debt instruments depends on the Company's business model for managing the assets and the cash flow characteristics of the asset. The company classify its debts instruments in to following categories:

Amortised Cost: Assets that are held for collection of contractual cash flows represents solely payments of principal and interest are measured at amortised cost.

Fair value through other comprehensive income: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the asset's cash flow present solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains/ (losses).

forming part of the financial statements for the year ended 31st March, 2021

Fair value through profit and loss: Assets that do not meet the criteria for amortised cost are measured at fair value through Statements of Profit and Loss.

Equity Instrument:

The Company measures all equity investment at fair value except investment in subsidiaries, joint ventures and associates which are measured at cost less impairment if any. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss.

(iii) Impairment of financial asset: The Company assesses on a forward looking basis the expected credit losses associated with its assets. The Impairment methodology applied depends on whether there has been a significant increase in credit risk.

(iv) De-recognition of financial assets

A financial asset is derecognized only when

- (a) The company has transferred the rights to receive cash flows from the financial asset or
- (b) Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

(g) Inventories

Inventories are valued at the lower of cost and net realisable value. Cost is computed on a weighted average basis. Cost of finished goods and work-in-progress include all costs of purchases, conversion costs and other costs incurred in bringing the inventories to their present location and condition. The net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale.

(h) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

i. Sale of Goods

Revenue from sale of goods is recognised when all the significant risks and rewards of ownership in the goods are transferred to the buyer as per the terms of the contract, there is no continuing managerial involvement with the goods and the amount of revenue can be measured reliably. The Company retains no effective control of the goods transferred to a degree usually associated with ownership and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as sales tax, value added tax, goods and services tax, etc.

ii. Sale of services:

Income from services rendered is recognized based on agreements/ arrangements with the customers as the service is performed in proportion to the stage of completion of the transaction at the reporting date and the amount of revenue can be measured reliably.

iii. Interest income:

Interest income from debt instruments is recognized using the effective interest rate method.

iv. Dividends:

Dividends are recognized in profit or loss only when the right to receive payment is established

(i) Employee benefits

i. Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employee's service up to the end of the reporting period and are measured at the amounts expected to be paid when

forming part of the financial statements for the year ended 31st March, 2021

the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii. Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. An actuarial valuation is obtained at the end of the reporting period. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognized as an item of Other Comprehensive Income in the statement of profit and loss.

iii. Post-employment obligations

The company operates the following post-employment schemes:

- (a) Defined benefit plans such as gratuity and
- (b) Defined contribution plans such as provident fund.

iv. Gratuity obligations:

The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

v. Defined contribution plans:

Defined contribution plans such as provident fund etc are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

vi. Termination benefits

Termination benefits are recognized as and when incurred. However, the termination benefits which fall due for more than twelve months after the balance sheet date are discounted using the applicable discount rate.

(j) Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

forming part of the financial statements for the year ended 31st March, 2021

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in statement of profit and loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax credit is recognized as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

(k) Foreign Currency Translation

Transactions in foreign currencies are recognized at the prevailing exchange rates on the transaction dates. Realized gains and losses on settlement of foreign currency transactions are recognized in the Statement of Profit and Loss. Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognized in the Statement of Profit and Loss.

(l) Lease – Operating

Leases a substantial portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

With effect from 1 April 2019, the Company adopted Ind AS 116 “Leases” and applied the standard to all lease contracts existing on 1st April, 2019 using the modified retrospective method on the date of initial application. Consequently, the Company recorded the lease liability and right of use assets at the present value of the lease payments discounted at the incremental borrowing rate as on date of initial application. Comparatives as at and for the year ended 31st March, 2021 have not been retrospectively adjusted and therefore will continue to be reported under the accounting policies included as part of our Annual Report for year ended 31 March, 2021.

Leases on which Ind AS 116 does not apply, Payments and receipts under such leases are recognised to the Statement of Profit and Loss on a straight-line basis over the term of the lease unless the lease payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor’s expected inflationary cost increases, in which case the same are recognised as an expense in line with the contractual term.

(m) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

(n) Non-current assets (or disposal groups) held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognized for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognized for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognized. A gain or loss not previously recognized by the date of the sale of the non-current asset (or disposal group) is recognized at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are

forming part of the financial statements for the year ended 31st March, 2021

classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognized.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

(o) Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

(p) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

(q) Provisions and Contingent Liabilities

Provisions are recognized when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events, but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

(r) Earnings per share

(i) Basic earnings per share

Basic earnings per share are calculated by dividing:

- a) the profit attributable to owners of the company
- b) by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

(ii) Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

- a) the after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- b) the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

Leave entitlement

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service measured at the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Gratuity

Every employee is entitled to a benefit equivalent to fifteen days salary last drawn for each completed year of service in line with the Payment of Gratuity Act, 1972 or company scheme whichever is beneficial. The same is payable at the time of separation from the company or retirement, whichever is earlier. The benefits vest after five years of continuous service.

The fair value of financial instruments referred above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active market for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The categories used are as follows :

Level 1: This hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

forming part of the financial statements for the year ended 31st March, 2021

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Valuation processes :

For level 2 financial instruments the fair values have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk.

37 (C) : Fair value of financial assets and liabilities measured at amortised cost

| Total Financial Liabilities | 2,44,960.44 | 2,44,960.44 | 2,67,302.10 | 2,67,302.10 |

The carrying amounts of trade receivables, trade payables, capital creditors and cash and cash equivalents are considered to be the same as their fair values largely due to short term maturities of the instruments.

The fair values of other financial assets and borrowings other than bank borrowings were calculated based on cash flows discounted using a current lending rate. They are classified as level 2 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit risk.

The fair value of the long-term borrowing from bank with floating-rate of interest is not impacted due to interest rate changes and will not be significantly different from their carrying amounts as there is no significant change in the under-lying credit risk of the company's borrowing (since the date of inception of the loans). Further, the company has no long-term Borrowings with fixed rate of interest.

Note 38 : Financial risk management

The Company's business activities expose it to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Company's senior management has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk are reviewed regularly to reflect changes in market conditions and the Company's activities.

A. Market Risks

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk.

The company is not significantly exposed to foreign currency risk. Moreover, the company has no investments in equity shares thus the company is not exposed to price risk also.

(a) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes

forming part of the financial statements for the year ended 31st March, 2021

in market interest rates. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, management of the Company performs a corporate interest rate risk.

According to the Company interest rate risk exposure is only for floating rate borrowings. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 100 basis point increase or 20 basis point decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

| Particular | (₹ in thousand) | |
|--|------------------------------|------------------------------|
| | Year Ended March 31, 2021 | Year Ended March 31, 2020 |
| Variable rate borrowings | - | 19,797.41 |
| Percentage of variable rate borrowings to total borrowings | 100% | 100% |
| Total Borrowings | - | 19,797.41 |

Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

| | | |
|--|---|--------|
| Interest rates – increase by 100 basis points* | - | 197.97 |
| Interest rates – decrease by 20 basis points* | - | 39.59 |

*Holding all other variables constant

B. Credit Risks

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities primarily trade receivables and from its loans and advances and other financial instruments.

Trade receivables

Customer credit risk is managed by each business unit subject to the company's established policy, procedures and control relating to customer credit risk management.

The Company measures the expected credit loss of trade receivables and loan & advances customers wise based on historical trend. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, loss on collection of receivable is not material hence no additional provision considered.

C. Liquidity Risk:

Liquidity risk is the risk that the company will face in meeting its obligations associated with its financial liabilities. The company's approach to managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions. A material and sustained shortfall in our cash flow could undermine the company's credit rating and impair investor confidence.

The following table shows the maturity analysis of the company's financial liabilities based on contractually agreed undiscounted cash flows as at the balance sheet date:
