L&T-Cloudfiniti Forms Strategic Partnerships with Leading AI Startups

**To drive innovation in healthcare, life sciences, and vertical AI
solutions in India and across the globe**

Mumbai, March 25, 2025: L&T-Cloudfiniti, a leading technology solutions provider, is proud to announce new strategic partnerships with three leading AI startups, including one based in Europe.

The collaborations will focus on groundbreaking developments in healthcare, life sciences, vertical AI, and conversational technologies in India and across the globe by harnessing cutting-edge AI models to transform key industries and drive digital innovation in multiple sectors.

The three partnerships that L&T-Cloudfiniti has got into are:

Hanooman AI (Healthcare & Life Sciences): L&T-Cloudfiniti has partnered with Hanooman AI, a pioneering AI startup in the healthcare and life sciences space. This partnership will leverage Hanooman's advanced AI-powered tools to accelerate healthcare transformation in India. By integrating AI-driven insights into healthcare practices, Hanooman is poised to improve patient outcomes, optimise treatment pathways, and advance medical research in life sciences.

CoRover (Conversational & Attentive AI): L&T-Cloudfiniti has also teamed up with CoRover, an AI-driven startup focussed on creating conversational AI and foundational models (like BharatGPT). CoRover's innovative solutions offer the ability to enhance user experiences with more natural, human-like conversations across various sectors, including customer service, education, and more. With this collaboration, L&T-Cloudfiniti aims to bring real-time, personalised communication and AI-enabled attentiveness to the forefront of businesses in India.

Pidima AI (Agentic AI for Regulated Industries): The third partnership is with Pidima, a UK-based startup revolutionising mission-critical industries with its Agentic AI platform. By automating test specification and compliance documentation, Pidima delivers 10x faster outcomes, reduces costs by millions, and elevates efficiency to extraordinary heights. Pidima's solutions are designed for regulated sectors such as healthcare, MedTech,

automotive, and aerospace, where precision and compliance are non-negotiable. The collaboration will significantly enhance L&T-Cloudfiniti's AI offerings in these critical domains, paving the way for smarter, more efficient, and highly compliant operations.

Commenting on the development, **Ms Seema Ambastha, Chief Executive, L&T-Cloudfiniti**, said: "These collaborations reflect our commitment to driving AI adoption across industries, from healthcare to aerospace, by partnering with the brightest minds and the most innovative companies in the AI landscape. The collective expertise and disruptive technologies from these startups will play a crucial role in shaping the future of AI and will enable L&T-Cloudfiniti to provide cutting-edge solutions that deliver tangible business outcomes for clients globally."

Vishnuvardhan Pogunulu Srinivasulu, CEO and Founder, Hanooman AI, commented: "Partnering with L&T-Cloudfiniti, Hanooman AI pioneers generative healthcare solutions—scalable, secure, and globally compliant. With Cipher AI, we're reimagining care for Bharat, making it accessible while advancing precision medicine for the world, sparking a revolution in global health outcomes. From Reversing Diabetes to discovering new drugs to deciphering genomics the future of healthcare is intelligent, inclusive, and here."

Ankush Sabharwal, Founder & CEO, CoRover AI, added: "Our collaboration with L&T-Cloudfiniti allows us to rapidly scale our conversational AI solutions on secure, high-performance GPU infrastructure, reaching global enterprises effectively. Together, we aim to redefine customer interactions, drive operational excellence, and deliver exceptional business value."

John Marcus, Founder & CEO of Pidima AI, shared: "We are thrilled to partner with L&T-Cloudfiniti, a company that shares our vision of transforming enterprise efficiency through AI. This collaboration not only strengthens our presence in India but also accelerates our mission to empower mission-critical enterprises with smarter, faster, and more precise solutions."

ABOUT L&T-CLOUDFINITI

L&T-Cloudfiniti, a division of Larsen & Toubro, is a leading provider of cloud and AI-driven solutions, helping businesses navigate their digital transformation journeys. With a focus on innovation, Cloudfiniti offers a wide range of services across industries, ensuring clients achieve operational efficiency, business growth, and enhanced customer experiences.

ABOUT HANOOMAN AI

Hanooman AI is a cutting-edge AI company specialising in the application of machine learning and deep learning models to revolutionise healthcare and life sciences. By leveraging AI, it seeks to improve healthcare systems and drive breakthrough innovations in diagnostics, drug development, and patient care.

ABOUT COROVER

Corover is an AI startup focussed on delivering conversational and attentive AI solutions. Their expertise lies in designing human-like interactions for businesses, enhancing customer engagement through advanced conversational AI models and improving operational efficiency across sectors.

ABOUT PIDIMA

Pidima is a UK-based AI startup that develops vertical AI solutions specifically for the automobile and aerospace industries. By applying AI to sector-specific needs, Pidima helps companies in these sectors enhance safety, streamline production, and optimise operations to drive higher performance and innovation.
