ANNUAL REPORT 2020-21
TGB BANQUETS AND HOTELS LIMITED

Dear Shareholders,

I am glad to get one more opportunity to connect with you and present the Annual Report of our Company for the Financial Year 2020 – 2021.

I wish safety for all my shareholders from Covid – 19 and sincerely urge them to get vaccinated. I pray to god for their goodhealth. It is an extremely challenging time for our Industry and also for TGB. The Industry saw a slow growth rate in recent past due to governments Covid – 19 restrictions in regards to opening of restaurants/banquets & curfew implementation from evening. Despite that we continue to focus on growing as a responsible organization.

I would like to thank the board of Directors for their valuable time, guidance and support given to our company during the financial year. Along with that I would like to thank the management team for their co-operation, co-ordination and support which lead to furtherance of TGB Banquets and Hotels Ltd. Last but not the least, I would like to thank all members of our TGB family for their efforts, contributions, loyalty and belief by working together and delighting customers.

REVIEW OF OPERATIONS

During the financial year 2020-21, your company booked total revenue of ₹1626.31 Lakh as compared to ₹ 5389.45 Lakhs in financial year 2019-20. This year, your company booked operating profit of ₹ (824.54) Lakhs as compared to ₹ 86.14 Lakhs in the previous financial year.

IMPACT OF COVID-19 PANDEMIC

Due to the Covid-19 pandemic, the world's economy was shut down almost overnight. The pandemic has confronted the hospitality industry with an unprecedented challenge. Strategies to flatten the COVID-19 curve such as community lockdowns, social distancing, stay-at-home orders, travel and mobility restrictions have resulted in temporary closure of many hospitality businesses and significantly decreased the demand for businesses that were allowed to continue to operate. Almost all restaurants were asked to limit their operations to only take-outs. Restrictions placed on travel and stay-at-home orders issued by the authorities led to sharp decline in hotel occupancies and revenues. However, the reopening process has slowly begun and authorities have started to ease restrictions, for example, allow dine-in restaurants to reopen at a reduced capacity with strict social distancing guidelines, and gradually reduce restrictions on domestic and international travel.

The domestic hospitality industry, which has been severely affected by the COVID-19 related disruptions, is likely to witness a decline of over 65 per cent in 2020-21, according to a report. However, there might be a recovery in demand in the later part of financial year 2021-22 as vaccine rollouts gains traction.

The domestic hospitality industry has been one of the worst-hit sectors, severely affected by the COVID-19 pandemic and subsequent lockdowns, which restricted mobility and hotel occupancies in all the major markets, research observed that pan-India occupancy hit an all-time low of 18-20 per cent in eight months of the financial year 2021, down from 64-65 per cent in the previous year.

The eventual outcome of the impact of the global health pandemic may be different from those estimated as on the date of approval of the financial statements.

DIVIDEND

Looking to the requirement of the funds for internal growth of the Company, the Board of Directors of the Company have decided not to recommend any dividend for the year ended on March 31, 2021.

MANAGEMENT DISCUSSION AND ANALYSIS

In compliance with Regulation 34(2) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 a separate section on

the Management Discussion and Analysis giving details of overall industry structure, developments, performance and state of affairs of the Company's business, is annexed as an Annexure-"A".

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Industry Structure and Development

The current coronavirus pandemic (COVID-19) has led the world toward severe socioeconomic crisis and psychological distress. It has severely hit the economy; but the service sector, particularly the hospitality industry, is hard hit by it.

The hospitality and tourism sector is an essential tool for sustainable economic development in India. It contributed 6.8 % of total GDP and 8 % of the total employment in 2019 (The Times of India, 2020; World Travel & Tourism Council, 2019). The revenue from domestic trips in India is the most profitable sum of capital. However, with the spread of COVID-19 at the beginning of 2020, there is a significant downfall in the sector.

COVID-19 pandemic is deteriorating the hospitality and tourism sector in India like in other countries around the world. It is visible in the country's inbound, outbound, and domestic tourism. Till the December 2020, most of the hotels in India were not fully open. The hospitality industry in India been scoring a moderate growth number from the past few years and has great potential to score an even greater number in the future. The nation which is rich in culture and diversity has been attracting a large number of tourists from all over the globe. India has also been recognized as a destination for spiritual tourism for international and domestic tourists. India is showing continuous growth in position moving from 65th in 2013 to 34th position in 2019 in the World Economic Forum's travel and tourism competitiveness index.

It increases the sense of insecurity among the employees and their perception of being unemployed, adversely affecting their mental health. The potential job loss in tourism and hospitality has been estimated to be about 70 % of the sector workforce. Hotel Association of India's (HAI) Vice President K.B. Kachru has said that around 40 million workers in India's hospitality sector may lose their jobs due to COVID-19.

The Indian hotel industry has taken a hit of over Rs 1.30 lakh crore in revenue for the fiscal year 2020-21 due to the impact of the COVID-19 pandemic. "The Indian hotel industry's total revenue in FY 2019-20 stood at Rs 1.82 lakh crore. As per our estimates, in FY 2020-21, approximately 75 per cent of the industry's revenues got wiped off. That is more than Rs 1.30 lakh crore revenue hit," the FHRAI said in a statement.

Opportunities and Threats

TGB is a business model that is divided into to three parts: Outdoor catering, managing hospitality properties and self-owned banquet hotels. By following a success mantra 'Going against the trend and setting new norms to succeed', Across the world most of the hospitality companies usually draw major part of their revenues from hotel rooms. TGB has reversed this norm completely that competitors might try to beat in rooms only whereas with enhanced understanding of the customer appetite and good hold on catering will keep them ahead in the race.

The pandemic is driving changes to customer behavior.

Months of self-isolation and, in many cases, significant spending constraints quickly and dramatically changed how consumers behave. And in the absence of a vaccine for the novel coronavirus and in a world facing ongoing economic pressures—the Organization for Economic Co-operation and Development (OECD) forecasts that the global economy will contract 6 percent this year¹—many of these behavioral changes are likely to endure.

Consumers reduce and redirect discretionary spending

It's normal for people to reduce discretionary spending in times of social or economic uncertainty. The COVID-19 crisis also seems to have prompted consumers to re-evaluate their overall spending priorities: many pre-pandemic must-haves are now seen as nice-to-haves—at best.

Business travel, long a key driver of hospitality sector revenues, will also take time to recover, though estimates range from the end of 2020 to two or three years from now. Some portion of business travel—perhaps 5 to 10 percent—may not return at all because the companies that once paid for that travel may disappear.³ Hospitality organizations will want to stay on top of business travel trends and adjust their business planning accordingly

In India Hotel Market Review 2020, during the calendar year, occupancy was 34.5% with occupancy during the pandemic period of March to December, 2020 at 27.8%. However, occupancies started improving from October 2020, averaging 38% for the period October-December, 2020. Leisure showed a positive revival in destinations such as Udaipur, Goa, Rajasthan, Agra, Mussoorie, Rishikesh, Coorg and Himachal, with city occupancies driven by staycations. Weddings were back, though curtailed in size, while business travel and corporate events were marginal.

By 2029, India's Tourism sector is expected to grow 3.7% to reach 35 trillion (USD 488 billion), and accounting for 9.2% of total economy international tourist arrival in India is expected to reach 30.5 million by 2028 India has a diverse portfolio of niche tourism products- cruise adventure, medical, wellness, sports, MICE, eco- tourism, film, rural and religious tourism. The Government of India will develop 17 iconic tourist sites in India into world class destinations as per union Budget 2019-20.

In the current scenario the Indian Hotels need to accept two things in certain. First, that guests' preferences of accommodation and dining would steer towards reputed brands that embed hygiene and safety in their products and services. Second, the hospitality sector with its resilience will survive and adapt to the changing demands of hospitality in the years to come.

With room nights cancelled, meetings and conferences annulled, and restaurants and lounges ordered to close, hotels were facing a

situation never experienced before. An industry used to yearly increasing occupancies and profits, all of a sudden got a brutal wake up call, finding themselves threatened in their existence. Adieu to the bottom line. To survive, hoteliers will have to do some serious thinking on how to overcome this situation. With nowhere to look for tested answers, We now have to reinvent ourselves and look for creative, fresh ideas to give their operation a new sense of hospitality and service.

Outlook

With international arrivals dropping at an alarming rate due to travel restrictions and advisories from time to time, the demand for hospitality is expected to arise mainly from the domestic sector. Within this sector, business travel has remained subdued and is being undertaken only for essential purposes or return to hometowns. As restrictions on movement were relaxed, the industry saw pent-up demand emerging from a sudden urge to travel to leisure destinations, mostly resorts, wellness centres, eco-tourism destinations and homestays within drivable distances.

Two things are certain. First, that guests' preferences of accommodation and dining would steer towards reputed brands that embed hygiene and safety in their products and services. Second, the hospitality sector with its resilience will survive and adapt to the changing demands of hospitality in the years to come.

During the period of lockdown in Q1 FY 2020-21, demand was predominantly from the 'Vande Bharat Mission', Government of India's quarantine requirements for people returning from abroad, voluntarily quarantined corporate and individual travelling guests, medical practitioners and frontliners, international travellers awaiting return and corporate business continuity teams operating out of hotels. As the government begun easing the lockdown restrictions in June 2020, economic activity started reviving slowly. However, several state governments put in place strict guidelines and standard operating procedures (SOPs) that differed across states due to differential impact of the virus. As a result, hospitality, fine dining and spas were amongst the last few businesses to reopen.

Revenue

The company recorded revenue of ₹ 1479.14 Lakhs during the financial year under review as compared to ₹ 3358.02 Lakhs achieved during the previous period.

Expenses

During the financial year 2020-21 under review, the total expenses were ₹ 2462.42 Lakhs as compared to ₹ 5347.42 Lakhs in the previous year. Due to adequate and efficient internal control system expenses of the Company has reduced marginally.

Key financial ratios

The key financial ratios of the Company are as follows:

1. Current Ratio is 1.49 in financial year 2020-21 as compared to 1.36 in the financial year 2019-20
2. Debt equity ratio is 0.13 in financial year 2020-21 compared to in F.Y. 2019-20 was 0.12.
3. Debt Service Coverage Ratio is (2.44) in financial year 2020-21 compared to 0.26 in financial year 2019-20.
4. Operating Profit Margin of the Company in the financial year 2020-21 is (32.07%) as compared to 71.40% in 2019-20.
5. Net Profit Margin in financial year 2020-21 is (51.42%) as compared to profit of 1.60% in financial year 2019-20.
6. Return to net worth in financial year 2020-21 is (8.62%) compared to 0.82% returned in financial year 2019-20.

Risks and Concerns

Due to pandemic of COVID 19, in the last financial year complete lockdown was announced for the 3 months globally. Due to which hotel industry suffered a lot, which resulting into less operation of industry and manpower need to be reduced due to not having income to fulfill the all at the same level.

The management discussed about the hospitality industry should be offered a waiver of property tax, water charges, electricity charges and excise license fees for the lockdown period.

Internal Control Systems and their Adequacy

The Company has institutionalised an adequate system of internal controls, with documented procedures covering all corporate functions and hotel operating units. Internal controls provide reasonable assurance regarding the effectiveness and efficiency of operations, the adequacy of safeguards for assets, the reliability of financial controls, and compliance with applicable laws and regulations.

It converges the process framework, risk and control matrix and a scoring matrix, covering all critical and important functions inter alia revenue management, hotel operations, purchase, finance, human resources and safety. A framework for each functional area is identified based on risk assessment and control, while allowing the unit to identify and mitigate high-risk areas. These policies and procedures are updated periodically and monitored by the Group Internal Audit.

The Board's Audit Committee oversees the adequacy of the internal control environment through periodic reviews of audit findings and by monitoring implementation of internal audit recommendations through compliance reports. The statutory auditors have opined in their report that there are adequate internal controls over financial reporting at TGB.

Review of Operational and Financial Performance

As increase in the operating revenue vis-à-vis previous year, the EBIT stands of ₹ (836.23) Lakhs in the current year vis-à-vis ₹ 42.03 Lakhs during Financial Year 2019-20. And the total comprehensive income after tax is ₹ (817.90) Lakhs as compared to previous year of ₹ 119.35. However, the business sentiments look negative and Company aims to do better, both in terms of profitability in e times to come and Company is focusing on retaining market share in highly competitive Hotel Market. The price earnings per share for equities also negative at ₹ (2.82) per share against ₹ 0.29 per share in previous year.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the standard on auditing specified u/s. 143(10) of the act (SAs). Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of financial statements section of our report. We are independent of the company in accordance with the code of ethics issued by ICAI together with Independence Requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide the basis for our audit opinion on the financial statements.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. There is no key audit matter with respect to financial statements to be communicated in our report.

Emphasis of Matters

We draw attention to point No VII(b) of CARO, the Company has around Rs. 22.10 crores of undisputed statutory dues. The said can have substantial impact on future cash flow of the company and other legal proceedings against the company.

We draw attention to Note 34 of the financial statements, as regards the management's evaluation of COVID-19 impact on the future performance of the Company and its subsidiaries. Our opinion is not modified in respect of this matter.

Information other than Financial Statements and Auditor's Report thereon

The company's Board of Directors' are responsible for the preparation of the other information. The other information comprises the information included in the management discussion and analysis, board's report including annexure to board's report, Business responsibility report, Corporate governance and Shareholder's information but does not include the financial statement and our auditor's report thereon.

Our opinion on the financial statements does not cover the information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is material misstatement of this other information, we are required to report the fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under and the Order issued under section 143(11) of the Act.

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made

by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) the Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the afore said financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) on the basis of the written representations received from the directors of the Company as on **March 31, 2021** taken on record by the Board of Directors, none of the directors is disqualified as on **March 31, 2021** from being appointed as a director in terms of Section 164(2) of the Act.
 - f) with respect to the adequacy of the **internal financial controls over financial reporting** of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure A**". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amend:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its Directors during the year is in accordance with the provisions of Section 197 of the Act.
 - h) With respect to the other matters to be included In the Auditor's Report in accordance with Rule 11 of the **Companies (Audit and Auditors) Rules, 2014**, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements.
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
2. As required by the **Companies (Auditor's Report) Order, 2016 ("the Order")** issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of
TGB BANQUETS AND HOTELS LIMITED of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of TGB BANQUETS AND HOTELS LIMITED ("the Company") as of March 31, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021.**1. Corporate Information**

TGB Banquets and Hotels Limited ("the Company") is a public limited company domiciled in India and is listed on the National Stock Exchange (NSE) and the Bombay Stock Exchange (BSE). The Company is into provision of Restaurants; banquets and hotel services since 1999.

2. Basis of preparation

These financial statements have been prepared in accordance with Indian Accounting Standards (IND AS) as notified the provision of the Companies Act, 2013 ("the Act") and guidelines issued by the Securities & Exchange Board of India (SEBI). The Ind AS is prescribed under Section 133 of the Act read with Rule 3 of Companies (Indian Accounting Standard) Rules, 2015 and with Companies (Indian Accounting Standards) (Amendment) Rules, 2016.

The financial statements have been prepared on a historical cost basis, except

- a. For Land which is valued at the Fair value.
- b. For certain financial instruments at fair value.

3 Summary of significant accounting policies**i. Current versus non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- a. Expected to be realized or intended to be sold or consumed in normal operating cycle
- b. Held primarily for the purpose of trading
- c. Expected to be realized within twelve months after the reporting period, or
- d. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- a. It is expected to be settled in normal operating cycle
- b. It is held primarily for the purpose of trading
- c. It is due to be settled within twelve months after the reporting period, or
- d. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

ii. Foreign Currencies:

These financial statements are presented in Indian Rupees ("INR") which is also the Company's functional currency.

All amounts have been reported in Indian Rupees in lacs except for share and per share data, unless otherwise stated. Due to rounding off, the numbers presented throughout the document may not add up precisely to the totals and percentages may not precisely reflect the absolute figures.

Transactions in Foreign Currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary Assets and Liabilities denominated in foreign currencies are translated at the foreign currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of the monetary items are recognised in profit and loss account. Non-monetary items that are measured at historical cost in foreign currency are translated using the exchange rates at the date of initial transactions.

iii. Fair value Measurement

The company measures financial instruments, such as, investment in quoted equity shares etc at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the company.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-

financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling to another market participant that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All Assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3: Valuation techniques for which the lowest level inputs that is significant to the fair value measurement is unobservable.

For the purpose of financial disclosure, the company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

iv. Use of Estimates:

The preparation of financial statements requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of incomes and expenses during the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Difference between the actual results and estimates are recognised in the period in which the results are known or materialize.

In the assessment of the company, the most significant effects of use of judgments and / or estimates on the amounts recognised in the financial statements relate to the following areas:

- Useful Lives of property, plant & equipments,
- Valuation of inventories,
- Measurement of recoverable amounts of assets / cash-generated units,
- Assets and obligations relating to employee benefits,
- Evaluation of recoverability of deferred tax assets, and
- Provisions and contingencies.

v. Property; Plant & Equipments:

- a) Property; Plant & Equipments are stated at cost of construction or acquisition less accumulated depreciation / amortization and net of impairment except for land which have been measured at fair value.
- b) Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable costs of bringing the item to its working condition for its intended use and estimated cost of dismantling and removing the item and restoring the site on which it is located. Subsequent expenditure relating to the property, plant & equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably.
- c) An item of property, Plant & Equipment and intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the Asset. Any gain or loss arising on the disposal or retirement of an item of property, plant & equipment and intangible assets is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

vi. Capital work in progress

Projects under which property, plant and equipment are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

vii. Depreciation

Depreciation is calculated on cost of items of Plant and machinery forming part of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method.

viii. Financial Instruments :

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A. Financial Assets

a. Initial recognition and measurement:

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value

through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place [regular way trades] are recognized on the settlement date, trade date, i.e., the date that the Company settle commits to purchase or sell the asset.

b. Subsequent measurement:

For purposes of subsequent measurement, financial assets are classified in four categories:

i. Debt instruments at amortized cost:

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- The asset is held with an objective of collecting contractual cash flows
- Contractual terms of the asset give rise on specified dates to cash flows that are "solely payments of principal and interest" [SPPI] on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate [EIR] method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

ii. Debt instruments at fair value through other comprehensive income [FVTOCI]:

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- The asset is held with objective of both - for collecting contractual cash flows and selling the financial assets
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income [OCI]. However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to Statement of Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

iii. Debt instruments, derivatives and equity instruments at fair value through profit or loss [FVTPL]:

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

iv. Equity instruments measured at fair value through other comprehensive income [FVTOCI]:

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company has made such election on an instrument by- by instrument basis. The classification is made on initial recognition and is irrevocable. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

c. De-recognition:

A financial asset is primarily derecognized when:

- i. The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either [a] the Company has transferred substantially all the risks and rewards of the asset, or [b] the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.
- ii. the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership.

d. Impairment of financial assets:

In accordance with Ind AS 109, the Company applies expected credit loss [ECL] model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a. Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, deposits, trade

- receivables and bank balance
- b. Trade receivables or any contractual right to receive cash
- c. Financial assets that are debt instruments and are measured as at FVTOCI
- d. Lease receivables under Ind AS 17
- e. Financial guarantee contracts which are not measured as at FVTPL

The Company follows 'simplified approach' for recognition of impairment loss allowance on Point c and d provided above. The application of simplified approach requires the company to recognize the impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date. ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive [i.e., all cash shortfalls], discounted at the original EIR.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

ECL impairment loss allowance [or reversal] recognized during the period is recognized as income/ expense in the statement of profit and loss. The balance sheet presentation for various financial instruments is described below:

- a. Financial assets measured as at amortized cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance which reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.
- b. Debt instruments measured at FVTOCI: Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

B. Financial liabilities:

a. Initial recognition and measurement:

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

b. Subsequent measurement:

The measurement of financial liabilities depends on their classification, as described below:

i. Financial liabilities at fair value through profit or loss:

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied for liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss. The Company has not designated any financial liability as at fair value through

profit and loss.

ii. Loans and borrowings:

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

iii. Financial guarantee contracts:

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognized less cumulative amortization.

c. De recognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

C. Reclassification of financial assets:

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses [including impairment gains or losses] or interest.

D. Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously

ix. Impairment of Assets:

(a) Financial Assets :

At each balance sheet date, the Company assesses whether a financial asset is to be impaired. Ind AS 109 requires expected credit losses to be measured through loss allowance. The Company measures the loss allowance for financial assets at an amount equal to lifetime expected credit losses if the credit risk on that financial asset has increased significantly since initial recognition. If the credit risk on a financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for financial assets at an amount equal to 12-month expected credit losses. The Company uses both forward-looking and historical information to determine whether a significant increase in credit risk has occurred.

(b) Non-financial Assets :

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit and loss to such extent. When an impairment loss subsequently reverses, the carrying amount of the asset (or a CGU) is increased to the revised estimate of its recoverable amount, such that the increase in the carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or CGU) in prior years. A reversal of an impairment loss is recognised immediately in statement of profit and loss.

x. Valuation of Inventories:

a) Inventory comprises stock of food and beverages and stores and spares and is carried at lower of cost and net realizable

value.

- b) Inventory of Cutlery, crockery, linen & uniform are amortised over the period of forty eight months except in case of obsolesces and other losses, wherever considered necessary.

xi. Cash and Cash Equivalents

Cash and cash equivalent comprise cash on hand and demand deposits with banks which are short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

xii. Revenue Recognition:

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company in exchange for transferring control of goods and services to the customer and the revenue can be reliably measured, regardless of when the payment is being made. Effective April 01, 2018, the company has applied Ind AS 115 which replaced IND AS 18 Revenue recognition. Revenue is measured at the fair value of the consideration received or receivable and net of rebates, value added taxes, goods and service tax and loyalty reward points. The company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Rendering of services

Revenue from rendering of hospitality services is recognised when the related services are rendered.

Rooms, food, beverages, banquets and other services

Income from guest accommodation is recognised on a day to day basis after the guest checks into the Hotels and are stated net of allowances. Sale of food and beverages are recognised at the point of serving these items to the guests. Revenue from other services is recognised as and when rendered. The company collects Value Added Tax (VAT), and GST on behalf of the Guests and therefore are not economic benefits flowing to the company, hence, these are excluded from revenue.

Income from other allied services

In relation to laundry income, communication income, airport transfers income and other allied services, the revenue has been recognised by reference to the time of services rendered...

Interest Income

Interest Income from a financial asset is recognised when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest Income is accrued on, time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate exactly discounts estimated future cash receipts through the expected life of the financial assets to that asset's net carrying value on initial recognition.

Windmill Energy Income

Revenue from windmill energy generation is accounted for on the basis of units generated against consumption at the Hotel, taking into consideration the energy charges and fuel charges charged by Torrent Power Ltd according to PPA agreement with them.

xiii. Borrowing Cost:

- a) Borrowing cost is recognized as expense in the period in which these are incurred.
b) Interest and other borrowing cost on specific borrowings, attributable to qualifying assets are capitalized.
c) Foreign Exchange difference arising on repayment of foreign exchange term loan has been adjusted to interest cost.

xiv. Lease:

Finance Lease:

Leases where the Company assumes substantially all the risks and rewards of ownership are classified as finance lease. Such leases are capitalized at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is recognized for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Operating lease

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognized as operating lease. Operating lease payments are recognized as an expense on a straight line basis over the lease term unless the payments are structured to increase in line with the expected general inflation so as to compensate for the lessor's expected inflationary cost increases.

xv. Tax expense

Tax expense comprises of current tax and deferred tax.

- a) Income tax expenses are recognized in statement of profit and loss, except when they relate to items recognized in other comprehensive income or directly in equity, in which case, income tax expenses are also recognized in other

comprehensive income or directly in equity respectively. Current tax is the tax payable on the taxable profit for the year, using tax rates enacted or substantively enacted by the end of reporting period by the governing taxation laws, and any adjustment to tax payable in respect of previous periods. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

- b) Deferred taxes arising from deductible and taxable temporary differences between the tax base of assets and liabilities and their carrying amount in the financial statements are recognized using substantively enacted tax rates and laws expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled. The deferred tax arising from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction are not recognized. Deferred tax asset are recognized only to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences can be utilized. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax assets to be utilized.

Deferred tax assets and liabilities are offset when the Company has a legally enforceable right to do the same.

xvi. Employee Benefits:

- (a) Short term employee benefits are recognized as expenses at the undiscounted amount in the Statement of Profit and Loss of the year for which the related service is rendered.
- (b) Defined Contribution Plan: Monthly contribution to the provident fund which is under defined contribution schemes are charged to Statement of Profit & Loss.
- (c) Defined Benefit Plans: Gratuities to employees are provided for their actuarial valuation using the projected unit credit method. Actuarial gain and losses net of deferred taxes arising from experience adjustments and changes in actuarial assumptions are recognized in other comprehensive income in the period in which they arise. Any short falls in case of premature resignation or termination to the extent not reimbursed by LIC is being absorbed in the year of payment.
- (d) Provision for leave salary has been made as per actuarial valuation.

xvii. Provisions, Contingent Liabilities and Contingent Assets

Provision is recognized when the Company has a present obligation (legal or constructive) as a result of past events and it is probable that the outflow of resources will be required to settle the obligation and in respect of which reliable estimates can be made.

A disclosure for contingent liability is made when there is a possible obligation that may, but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision/ disclosure is made. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent assets are not recognized in the financial statements. Provisions and contingencies are reviewed at each balance sheet date and adjusted to reflect the correct management estimates.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. Commitments include the amount of purchase order (net of advances) issued to parties for completion of assets. Provisions, contingent liabilities, contingent assets and commitments are renewed at each balance sheet date.

xviii. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders after deducting preference dividend and attributable taxes by the weighted average number of equity shares outstanding during the period.

Diluted Earnings per share, the net profit or loss for the period attributable to equity share holders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity share holders.

xix. Exceptional items

Certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

31 - SEGMENT REPORTING

The Companies Business falls under single reportable segment under Indian Accounting Standard.

32 - Loans and Advances, Trade Receivables and Trade Payables

The balances of Loans and advances given, unsecured loan received, debtors and creditors are subject to balance confirmation by the respective parties and necessary adjustment if any will be made on its reconciliation.

33 - Goods and Service Tax Liability

The GST liability could not be reconciled with GST portal and GST liability is taken as per books of accounts. The interest on GST liability and late return filing fees will be accounted as a when paid, however it may not have any material amount.

34 - Impact of COVID-19

Due to outbreak of COVID-19 globally and in India, the Company's management has made initial assessment of likely adverse impact on business and financial risks, and believes that the impact is likely to be short term in nature. The management does not see any medium to long term risks in the Company's ability to continue as a going concern and meeting its liabilities as and when they fall due.

35 - DISCLOSURES AS REQUIRED BY INDIAN ACCOUNTING STANDARD (IND AS) 19 EMPLOYEE BENEFITS

The Company has classified the various benefits provided to employees as under:-

(a) Defined contribution plans

-Provident fund

The Company has recognized the following amounts in the statement of profit and loss:

Employers' contribution to provident fund :- Current Year Rs. 4.48 Lakhs (Previous Year Rs. 14.08 Lakhs)

(b) Defined benefit plans

- Gratuity

-Compensated absences - Earned leave

In accordance with Indian Accounting Standard 19, actuarial valuation was done in respect of the aforesaid defined benefit plans based on the following assumptions-

Economic Assumptions

The discount rate and salary increases assumed are the key financial assumptions and should be considered together; it is the difference or 'gap' between these rates which is more important than the individual rates in isolation.

Discount Rate

The discounting rate is based on the gross redemption yield on medium to long term risk free investments. The estimated term of the benefits/obligations works out to zero years. For the current valuation a discount rate of 6.86% p.a. (Previous Year 6.83% p.a.) compound has been used.

Salary Escalation Rate

The salary escalation rate usually consists of at least three components, viz. regular increments, price inflation and promotional increases. In addition to this any commitments by the management regarding future salary increases and the Company's philosophy towards employee remuneration are also to be taken into account. Again a long-term view as to trend in salary increase rates has to be taken rather than be guided by the escalation rates experienced in the immediate past, if they have been influenced by unusual factors.

The assumptions used are summarized in the following table:

39. FINANCIAL INSTRUMENTS - ACCOUNTING CLASSIFICATIONS AND FAIR VALUE MEASUREMENTS

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

1. Fair values of cash and short term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to short-term maturities of these instruments.
2. Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on the evaluation, allowances are taken to account for the expected losses of these receivables.

The company uses the following hierarchy for determining and disclosing the fair values of financial instruments by valuation technique:

Level 1 : Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 : Other techniques for which all inputs which have a significant effects on the recorded fair value are observable, either directly or indirectly.

Level 3 : Techniques which use inputs that have a significant effects on the recorded fair value that are not based on observable market data.
