Infosys Awarded the 'Excellent Partner Award' by Mazda

Recognized for successfully transforming Mazda's global supply chain management

Tokyo, Japan and Bengaluru, India – December 12, 2019: [Infosys](#) (NYSE: INFY), a world leader in next-generation digital services and consulting, has been awarded the 'Mazda Excellent Partner Award' by Mazda Digital Innovation (MDI) & IT Division, Mazda Motor Corporation.

Infosys has been working with Mazda to implement a global supply chain management solution for service part operations in after-market. This solution utilizes a risk-free approach to transform business processes like inventory planning, service parts planning, order fulfillment etc. – followed by rollout of a warehouse management solution at various Mazda part distribution centers. This supply chain transformation enables Mazda to navigate from a mainframe based legacy system to a next generation integrated platform, with real-time transactions and visibility – increasing speed and precision.

Infosys' global supply chain transformation methodology enables companies to adopt integrated business processes resulting in enhanced customer experience and business visibility. The methodology leverages analytics and supply chain process automation and results in simplification of the IT landscape.

Jasmeet Singh, Executive Vice President and Global Head of Manufacturing, Infosys, said, "In a rapidly evolving automotive industry, enterprises need a robust, intelligent and transparent supply chain solution that ensures seamless operations and addresses the rising demands of consumers. Working with Mazda in this space has been an enriching experience and this award is a testament of our capabilities. We want to thank them for allowing us to build efficiencies throughout their operations and to continue positioning Mazda as a leader in the automotive industry."

Masahiko Tamura, General Manager Supply Chain Systems, MDI & IT Division Mazda said, "Infosys has been a valuable partner for us for many years now and they have consistently delivered best-in-class solutions for us. The Excellent Partner award to Infosys is well deserved. We expect Infosys, our continued partner, to provide solutions and services to enable transformation of the supply chain system in our global service part operations."

About Infosys

Safe Harbor

Certain statements mentioned in this presentation concerning our future growth prospects are forward-looking statements regarding our future business expectations intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, and unauthorized use of our intellectual property and general economic conditions affecting our industry. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2019. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
