2. REVIEW OF OPERATIONS

(a) Standalone Results

The total income on standalone basis during the year was Rs.68.69 lakhs (Previous Year - Rs. 153.44 lakhs). The Company's turnover has decreased by about 55.23% on standalone basis due to decrease in consultancy income in this financial year. The gross profits before taxes have decreased from Rs. 33.81 lakhs to Rs. 11.37 lakhs due to decrease in scale of operations.

(b) Consolidated Results

This fiscal, your Company has achieved a turnover of Rs.68.69 lakhs (Previous Year Rs. 153.44 lakhs on consolidation basis. The net profit after tax was Rs. 112.75 lakhs (Previous Year net loss of Rs. 288.46 lakhs) on consolidation basis.

3. OUTLOOK & PROSPECTS

The year 2020 was adversely affected with the onslaught of COVID-19 which brought a significant transformation in the global economic order. The resultant lockdown disrupted supply chains and dampened the level of economic activity in most nations in the world. The year was stressful and volatile for the global economy as the gross domestic product (GDP) plunged to record lows across economies.

After a sharp decline of 23% in the GDP in the first quarter (April-June of the FY2020-21) the Indian economy has been showing decisive and strong signs of recovery. Several measures taken by the Government and the Reserve Bank of India have helped the economy remain resilient and striving. Particularly, suspension of the fresh IBC proceedings, the breakthrough in the vaccine roll-out, low interest rates, special relief for NBFCs and MSME sector, return of consumer confidence and measures attracting investment have put the economy in a better position to sail through the crisis emanating from the covid19 pandemic.

With the prospects of robust growth gaining grounds in consumption and investment and a lower base effect, GDP is estimated to grow at 11% in FY 2022 (Source: Economic Survey 2020-21). However, a second wave of coronavirus infections has again posed severe challenges Indian economy. Several states have resorted to reimposition of lockdown measures which may curb economic activity and dampen market and consumer sentiment. However, the Government is responding to the need for enhanced health infrastructure on the war footing and has opened up the vaccine access to all above the age of eighteen years. Also, the lockdown in this second wave of COVID-19 is not nation-wide and is rather focused on curbs on movement across severely affected states and micro containment zones therein.

The financial services industry is allowed to function with selective curbs on the number of staff attending the office physically on any working day and with social distancing and other precautionary safety measures. The second wave of covid19 pandemic may slow the near-term economic recovery but Indian economy's is not completely shut down and is projected to achieve positive growth rate in the current fiscal. In last few years India has emerged as the fastest growing major economy in the world and is one of the top five economic powers. The initiatives and measures taken to deal with challenges posed by the pandemic will have a positive impact on Indian economy in the long run. For instance, expansion and strengthening of the medical infrastructure will improve the quality of life for many Indians a majority of whom are members of the work force.

The digitalization drive will change the way Indian businesses work. The work from home arrangements may improve the female participation in productive activities. Many brokerages and rating agencies have predicted a positive outlook for the Indian economy. The International Monetary Fund (IMF) has predicted that India's GDP growth rate would be at 12.5 per cent in 2021. (April, 2021). Though it may reconsider scaling down its projections in view of the recent resurgence of second wave of covid19 in India on the lines with some other rating agencies which have scaled down India's growth rate projections from what they projected earlier. Moody's, for instance, has cut its projected growth rate from 13.7 percent projected in February, 2021 to 9.3 percent in May, 2021 for the current fiscal. However, given the severity of the situation in contemporary times, a 9.3 per cent growth rate projection seems to be indicative of improved resilience to pandemic related shocks.

Further the Index of Industrial Production indicates an increase by 22.4 percent in March in comparison to a year before. The Consumer Price Index for the month of April shows a deceleration in retail inflation. Moreover, the economy may perform better than the last year as the lock down in this year is not at macro level. Rather, the focus is more on micro containment zones and increasing the pace and coverage of vaccination. In a nutshell, the outlook for Indian economy in general and the financial services industry in particular appears to be positive in the current fiscal.

4. SHARE CAPITAL

During the year, there was no change in the share capital during the year under review. The Company has not issued shares with differential voting rights nor granted stock options nor sweat equity.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

This Management Discussion and Analysis Report contains forward-looking statements which are based on certain assumptions, risks, uncertainties and expectations of future events. The actual results, performance or achievements can differ materially from those projected in any such statements depending on various factors including: the demand supply conditions, change in government regulations, tax regimes, economic development within the country and abroad and such other incidental factors over which, the Company does not have any direct control. The Company assumes no responsibility to publicly amend, modify or revise any forward-looking statements, on basis of any subsequent developments, information or events.

This Report is framed in compliance with the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations").

INDUSTRY STRUCTURE AND DEVELOPMENT

Non-Banking Financial Companies play a vital role in the financial sector of our economy along with other financial institutions. They largely extend support to the micro, small and medium enterprises (MSMEs) which get benefitted due to their strategic operational techniques coupled with lower costs of delivery, lower restrictions on customers etc. Over the years, NBFCs have emerged as an alternate choice and at times the first choice for several customers, who need short term/ medium term financing. The NBFCs work under strict regulations of the RBI and reach out to even those sectors which the Banks cannot reach.

OPPORTUNITIES

Non-banking finance companies (NBFCs) are an integral part of the Indian financial ecosystem. NBFCs reach out to millions of individuals and Micro, Small and Medium Enterprises across the country having no or limited access to secured and unsecured credit lines by commercial banks and other development financial institutions. NBFCs integrate such people and firms with the financial mainstream of our economy. NBFCs are able to develop a ground-level understanding of their customers' profile and their credit needs and provide innovative and customized products to satisfy their clients' needs and so they are a preferred source of credit line compared to traditional banks. They have a niche particularly in the low income/asset segment of individuals and corporates and also among the first-time seekers of credit who have not borrowed from any financial institution in the past. NBFCs thrive well in those areas too where banking and institutional credit financial services have limited ground presence. The adverse effects of the covid19 have posed a lot of challenges to the NBFC sector but has also presented some opportunities in the form of relaxations as well as support extended to them by the government and the Reserve Bank of India.

The Indian economy is also showing signs of recovery, reeling out of the nation-wide lockdown gradually and cautiously. The government of India has announced several measures during the various unlock phases in order to sustain the economy from the perils of a sudden knock down by the covid19 pandemic.

Recognizing the role played by NBFCs in providing credit at the bottom of the pyramid to the sectors which contribute significantly to the economic growth in terms of export and employment, and with a view to augment the liquidity position of the NBFCs, RBI had allowed (August, 2019) banks to classify lending to registered NBFCs (other than MFIs) as Priority Sector Lending (PSL) up to 5 per cent of a bank's total PSL, for on-lending to Agriculture/MSME/Housing until March 31, 2021 which has further been extended up to September 30, 2021. (Source: RBI Press Release)

With a view to increasing the focus of liquidity measures on revival of activity in specific sectors that have both backward and forward linkages and having multiplier effects on growth, the RBI had announced the 'on Tap TLTRO Scheme' on October 9, 2020 which was available up to March 31, 2021. In addition to the five sectors announced under the scheme on October 21, 2020, 26 stressed sectors identified by the Kamath Committee were also brought within the ambit of sectors eligible under on tap TLTRO on December 4, 2020 and bank lending to NBFCs on February 5, 2021. Liquidity availed by banks under the scheme is to be deployed in corporate bonds, commercial paper, and non-convertible debentures issued by entities in these sectors; it can also be used to extend bank loans and advances to these sectors. Investments made by banks under this facility can be classified as held to maturity (HTM) even above the 25 per cent of total investment permitted to be included in the HTM portfolio. All exposures under this facility are exempted from reckoning under the large exposure framework (LEF). On a review, it has now been decided to extend the TLTRO on Tap Scheme by a period of six months, i.e., till September 30, 2021. (Source: RBI Press Release)

The RBI has announced a second set of relief measures aimed at alleviating economic pain caused by the COVID-19 pandemic. (Source: Press Conference April 17). A new Targeted Long-Term Repo Operation (TLTRO) of Rs 500 billion has been announced for mid and small-sized Non-Banking Finance Companies (NBFCs) and microfinance institutions (MFIs). Besides, there is a 25bp reduction in the reverse repo rate and the corridor relative to the MSF rate has been reduced to 90bp. This measure offers an incentive to banks to channel credit into the economy, rather than parking excess funds at the central bank. Some other measures include providing a special refinancing facility of Rs 500 billion to institutions, such as NABARD, SIDBI and NHB, a halt to asset classification till May 31, 2021 along with giving a further 90-day extension for asset recognition, i.e., a moratorium on NPA classification. Further there is a sharp reduction in banks' liquidity coverage requirement (LCR) to 80% from 100%. All these measures are going to present increased resilience to the NBFC sector.

THREATS

In April, 2021 the IMF has presented an optimistic outlook for the world economy. They have projected that the global growth may be 6 percent in the year 2021 which is far better than a projection of minus 4.6 percent for the year 2020 World Economic Outlook (WEO) forecast. Further, it opines that the projections for the year 2021 and 2022 are stronger than in the October 2020 WEO. The upward revision reflects additional fiscal support in a few large economies, the anticipated vaccine powered recovery in the second half of 2021, and the continued adaptation of economic activity to subdued mobility. However, the IMF has expressed apprehensions about the path of the pandemic, the effectiveness of the policy support to provide a bridge to vaccine-powered normalization and the evolution of the financial conditions. As regards the Indian economy, the IMF has projected that Indian economy may grow around 12.5 percent (WEO, April 2021). However, the ferocity of the COVID-19 second wave has overwhelmed India and the world. Real economy indicators have moderated through April-May 2021. The biggest toll of the second wave is in terms of a demand shock - loss of mobility, discretionary spending and employment, besides inventory accumulation.

The biggest challenge before NBFCs is that they are facing stiff competition from banks and financial institutions, increased intra-industry competition, and deceleration of economic growth rate due to covid19 pandemic. Further they are likely to be affected adversely due to an upsurge of covid19 cases in rural pockets which form one of their niche areas.

The COVID-19 has presented a war-like syndrome where it is difficult to assess the outcome till the war is over. Without enough information about the exact duration of the second wave of the pandemic and the extent of damage that it will inflict upon the COVID-19 affected Indian economy, projections about the outcome may often be not much better than hunches.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the year ended March 31, 2021. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters in our audit of the Company for the year ended March 31, 2021.

A. Fair Value of Investment

The Company's investments (other than investment in Associates and Group Companies) are measured at fair value at each reporting date.

Auditor's Response

We have assessed the Company's process to compute the fair value of various investments. For quoted instruments we have independently obtained market quotations and the fair valuation thereof.

B. Impairment of loans to customers

Allowance for impairment losses on loans to customers involves significant judgement by management to determine the timing and amount of the asset to be impaired.

Auditor's Response

Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing:

- i. We evaluated and tested the design and operating effectiveness of the relevant controls over the impairment assessments and impairment allowance computations for loans and advances to customers.
- ii. We tested the management assumptions, estimates and judgements, which could have given rise to material misstatement:
 - a. The completeness and timing of recognition of loss events;
 - b. We discussed with management and scrutinised the appropriateness of those key assumptions applied in management's impairment assessment, and compared them with available external evidence where necessary.
 - c. Assessed accuracy and completeness of disclosures made as required by relevant accounting standards.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Director's Report (including annexures) and Report on Corporate Governance, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's management & Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our Auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

- d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- (i) The Company does not have any pending litigations which would impact its financial position except as disclosed otherwise.
 - (ii) The Company does not have any long-term contracts including derivative contracts; as such the question of commenting on any material foreseeable losses thereon does not arise.
 - (iii) There has not been an occasion in case of the Company during the year under report to transfer any sums to the Investor Education and Protection Fund. The question of delay in transferring such sums does not arise.

Annexure B referred to in paragraph 2 (f) of the section on “Report on Other Legal and Regulatory Requirements” of our report of even date

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

To the Members of Libord Finance Limited

We have audited the internal financial controls over financial reporting of Libord Finance Limited (“the Company”) as on March 31, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “Guidance Note”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Note 1 Corporate Information

Libord Finance Limited ("the Company") is a limited company domiciled and incorporated in India and its shares are publicly traded on the Bombay Stock Exchange (BSE), in India. The registered office of the Company is situated at 104, M.K. Bhavan, 300, Shahid Bhagat Singh Road, Fort, Mumbai- 400001.

The Company is presently classified as Non-Deposit taking Non-Systemically Important NBFC duly registered with Reserve Bank of India in the year 1994. The Company engaged in the business of Financial Services, Working Capital Loans, Project Finance, Syndication of Loans, Corporate Advisory, Financial Consultancy etc.

The Standalone Financial Statements for the year ended March 31, 2021 were authorized for issuance in accordance with resolution of the Board of Directors in their meeting held on May 20, 2021.

Note 2 Basis of Preparation and Presentation**2.1 Basis of Preparation**

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and applicable read with Section 133 of the Companies Act, 2013 (the "Act") and guidelines issued by the Reserve Bank of India.

The Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity are prepared and presented in the format prescribed in the Division III of Schedule III to the Act. The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows".

Amounts in the financial statements are presented in Indian Rupees in hundreds rounded off to two decimal places as permitted by Schedule III to the Act which is the Company's functional and presentation currency. Per share data are presented in Indian Rupee to two decimal places.

2.2 Basis of Measurement

The Financial Statements have been prepared on going concern basis and on an accrual method of accounting using historical cost convention except for certain financial assets and liabilities, which are measured at fair value at the end of each reporting period as explained in accounting policies below.

2.3 Significant Accounting Judgements, Estimates and Assumptions

The preparation of the Financial Statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year.

Accounting estimates could change from period to period. The estimates and judgements used are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Revision to accounting estimates are recognised prospectively. The management believes that the estimates used in the preparation of Financial Statements are prudent and reasonable.

Key sources of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of: fair valuation of unquoted equity investments, impairment of financial instruments, impairment of property, plant & equipment, useful lives of property, plant & equipment, provisions and contingent liabilities.

2.4 Significant Accounting Policies**1 Property, Plant and Equipment**

Property, plant and equipment are carried at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes purchase price and any cost directly attributable to the bringing the assets to its working condition for its intended use. Depreciation on the property, plant and equipment is provided using straight line method over the useful life of assets as specified in schedule II to the Companies Act, 2013. Depreciation on property, plant and equipment which are added / disposed of during the year, is provided on pro-rata basis with reference to the date of addition / deletion. The assets' residual values, useful lives and method of depreciation are reviewed at each financial year end and are adjusted prospectively, if appropriate.

The estimated useful lives of Property, Plant and Equipment are as stated below:

Property, plant and Equipment	Useful Life
Furniture	8 years
Motor Vehicles	8 years
Office Equipment	5 years
Computer Hardware	3 years

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2 Intangible Assets

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any.

The estimated useful lives of Intangible Assets are as stated below:

Intangible Assets	Useful Life
Computer Software	3 years

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the disposal proceeds and the carrying amount of the asset and are recognised as income or expense in the Statement of Profit and Loss.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in the statement of Profit and Loss when the asset is derecognised.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

3 Impairment of Non – financial Assets

The Company assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. For the purposes of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the Balance Sheet date there is an indication that previously assessed impairment loss no longer exists or may have decreased, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

4 Financial Instruments Classification

A Financial instrument is any contract that gives rise to a financial asset of one entity and financial liability or equity instruments of another entity.

Financial assets, other than equity, are classified into, Financial assets at fair value through other comprehensive income (FVOCI) or fair value through profit and loss account (FVTPL) or at amortised cost. Financial assets that are equity instruments are classified as FVTPL or FVOCI. Financial liabilities are classified as amortised cost category and FVTPL

Business Model Test/Assessment

An assessment of business model for managing financial assets is fundamental to the classification of a financial asset. The Company determines the business model at a level that reflects how financial assets are managed together to achieve a particular business objective.

The Company's business model does not depend on management's intentions for an individual instrument; therefore, the business model assessment is performed at a higher level of aggregation rather than on an instrument-by-instrument basis.

The Company considers all relevant information and evidence available when making the business model assessment such as the distribution of the financial assets held within the business model is evaluated in relation to the risks associated to its performance and its management. The performance of the financial assets held within that business model are evaluated and reported to the Company's key management personnel.

At initial recognition of a financial asset, the Company determines whether newly recognised financial assets are part of an existing business model or whether they reflect a new business model. The Company reassesses its business model at each reporting period to determine whether the business model has changed since the preceding period.

Initial Recognition

Financial Assets and Financial Liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial Assets and Financial Liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Subsequent Measurement**Financial Assets at Amortised Cost**

Financial assets having contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding and that are held within a business model whose objective is to hold such assets in order to collect such contractual cash flows are classified in this category. Subsequently these are measured at amortised cost using effective interest method less any impairment losses.

Fair Value through Profit and Loss account

Financial assets are measured at FVTPL unless it is measured at amortised cost or at FVOCI on initial recognition. The transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are immediately recognised in profit or loss.

Fair Value through Other Comprehensive Income (FVOCI)

These include financial assets that are equity instruments as defined in Ind AS 32 "Financial Instruments: Presentation" and are not held for trading and where they are irrevocably designated as Equity instruments at FVOCI upon initial recognition. Subsequently, these are measured at fair value and changes therein are recognised directly in other comprehensive income, net of applicable income taxes.

Gains and losses on these equity instruments are never recycled to profit or loss.

Dividends from these equity investments are recognised in the statement of profit and loss when the right to receive the payment has been established.

Investments in Associates

Investments in associates are carried at cost less accumulated impairment losses, if any as per Ind AS 27. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in associates, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

Debt Instruments at FVOCI

Debt instruments that are measured at FVOCI have contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on principal outstanding and that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. These instruments largely comprise long-term investments made by the Company. FVOCI debt instruments are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in OCI. Interest income and gains and losses are recognised in profit or loss in the same manner as for financial assets measured at amortised cost. On derecognition, cumulative gains or losses previously recognised in OCI are reclassified from OCI to profit or loss.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Financial Liabilities and Equity Instruments

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Other Financial Liabilities

These are measured at amortised cost using effective interest rate.

Derecognition of Financial Assets and Financial Liabilities

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires.

Impairment of Financial Assets

The Company recognizes a loss allowance for expected credit losses on a financial asset that is at amortized cost or fair value through OCI. Loss allowance in respect of financial assets is measured based on historical trend, industry practices and the Business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Reclassification of Financial Assets

The company does not re-classify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances when the company changes its business model for managing such financial assets. The company does not re-classify its financial liabilities.

5 Determination of Fair Value

The Company maintains procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

- i) Fair value of trade receivable, cash and cash equivalents, other bank balances, trade payables, loans, borrowings, deposits and other financial assets and liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.
- ii) The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.
- iii) Fair values of quoted financial instruments are derived from quoted market prices in active markets.

6 Fair Value Hierarchy

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: Quoted market prices in active markets for identical assets or liabilities
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

7 Employee Benefits

Defined Benefit Plans: The present value of the obligation under such plan, is determined based on an actuarial valuation using the projected unit Credit Method. Actuarial gains and losses arising on such valuation are recognized immediately in the other comprehensive income. In Case of funded defined benefit plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans, to recognize the obligation on net basis.

8 Provisions and Contingent Liabilities

Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

9 Revenue Recognition

Interest Income

The Company normally gives working capital loans. The rate of interest for the borrower is decided by the Chief Operating Decision maker on the basis of risk appetite and internal rating.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Investment Income

Dividend income from investments is recognised when the Company's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of dividend income can be measured reliably).

Income from interest on deposits and interest-bearing securities is recognized on the time proportionate method taking into account the amount outstanding and the rate applicable.

Income from derivatives / equity trading are accounted on accrual basis.

Consultancy income

The Company raises bills on case to case basis. There is no contractual agreement for the respective parties. The bill is raised as and when services are rendered.

10 Exceptional Items

When items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items is disclosed separately as Exceptional items.

11 Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116 with effective date of April 1, 2019. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for portfolio of leases with similar characteristics.

12 Taxes on Income**Current Tax**

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the reporting date in the countries where the Company operates and generates taxable income.

Current tax assets and liabilities are offset only if, the Company:

- has a legally enforceable right to set off the recognized amounts; and
- intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax is recognized for the future tax consequences of deductible temporary differences between the carrying values of assets and liabilities and their respective tax bases at the reporting date, using the tax rates and laws that are enacted or substantively enacted as on reporting date.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses and credits can be utilized.

Deferred tax assets and liabilities are offset only if:

- Entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- Deferred tax assets and the deferred tax liabilities relate to the income taxes levied by the same taxation authority.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

13 Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

14 Segment Reporting

The Company engaged primarily in the business of financial services and accordingly there are no separate reportable segment dealing with Segment Reporting. The Company's business is not subject to seasonal variation.

15 Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

Note 34 Fair Value Hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2 : The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3 : If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3. The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

INDEPENDENT AUDITOR'S REPORT ON CONSOLIDATED FINANCIAL STATEMENTS

To
The Members
Libord Finance Limited

Report on the Audit of the Consolidated Ind AS Financial Statements

Opinion

We have audited the accompanying consolidated Ind AS financial statements of **Libord Finance Limited** ("the Company") and its associates (the Company and its associates together with referred to as the "the Group") which comprise the Consolidated Balance Sheet as at March 31, 2021 and the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2021, the consolidated profit and the consolidated total comprehensive income, the consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters in our audit for the year ended March 31, 2021.

A. Fair Value of Investment

The Company's investments (other than investment in Associates and Group Companies) are measured at fair value at each reporting date.

Auditor's Response

We have assessed the Company's process to compute the fair value of various investments. For quoted instruments we have independently obtained market quotations and the fair valuation thereof.

B. Impairment of loans to customers

Allowance for impairment losses on loans to customers involves significant judgement by management to determine the timing and amount of the asset to be impaired.

Auditor's Response

Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing:

- i. We evaluated and tested the design and operating effectiveness of the relevant controls over the impairment assessments and impairment allowance computations for loans and advances to customers.
- ii. We tested the management assumptions, estimates and judgements, which could have given rise to material misstatement:
 - a. The completeness and timing of recognition of loss events;
 - b. We discussed with management and scrutinised the appropriateness of those key assumptions applied in management's impairment assessment, and compared them with available external evidence where necessary;
 - c. Assessed accuracy and completeness of disclosures made as required by relevant accounting standards.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Director's Report (including annexures) and Report on Corporate Governance, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income) and the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. The respective Board of Directors of the Company and its Associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements.

In preparing the consolidated financial statements, the respective Board of Directors of the Company and its Associates are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the Company and its Associates are also responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company and its associates have adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the company and its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of the Company and its associates included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

The consolidated financial statements include the company's share of net profit of Rs. 103.62 lakhs for the year ended March 31, 2021, as considered in the consolidated financial statements, in respect of two associates, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the associates, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid associates, is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, based on our audit and on the consideration of the report of the other auditors on separate financial statements and the other financial information of associates, referred in the Other Matters paragraph above we report, to the extent applicable, that:

- a) We / Other auditors whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the report of other auditors.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Consolidated Cash Flow Statement dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of consolidated financial statements.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors of the Company as on March 31, 2021 taken on record by the Board of Directors of the company and the reports of the statutory auditors of its associate companies, incorporated in India, none of the directors of the company and its associate companies incorporated in India is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy and operating effectiveness of the internal financial controls with reference to the consolidated financial statements of the company and its associates, refer to our separate Report in "Annexure B" of standalone audit report attached with standalone financial statements.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, the managerial remuneration for the year ended March 31, 2021 has been paid by the Company to their directors in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Group does not have any pending litigations which would impact its financial position except as disclosed otherwise.
 - (ii) The Group does not have any long-term contracts including derivative contracts; as such the question of commenting on any material foreseeable losses thereon does not arise.
 - (iii) There has not been an occasion in case of the Group during the year under report to transfer any sums to the Investor Education and Protection Fund. The question of delay in transferring such sums does not arise.

Ltd. which is a registered Stock Broker & Depository with SEBI having membership with BSE, NSE, MCX & CDSL & Libord Advisors Pvt. Ltd. which is a Category I Merchant Banker registered with SEBI.

The Consolidated Financial Statements for the year ended March 31, 2021 were authorized for issuance in accordance with resolution of the Board of Directors in their meeting held on May 20, 2021.

Note 2 Basis of Preparation and Presentation

2.1 Basis of Preparation

The consolidated financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and applicable provisions read with Section 133 of the Companies Act, 2013 ("the Act") and guidelines issued by the Reserve Bank of India. However, its Associates prepare their Financial Statements in accordance with the requirements in Accounting Standards notified under Section 133 of the Companies Act, 2013 ("Indian GAAP").

The Consolidated Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity are prepared and presented in the format prescribed in the Division III of Schedule III to the Act. The Consolidated Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows".

Amounts in the consolidated financial statements are presented in Indian Rupees in hundreds rounded off to two decimal places as permitted by Schedule III to the Act which is the Group's functional and presentation currency. Per share data are presented in Indian Rupee to two decimal places.

2.2 Basis of Measurement

The Consolidated Financial Statements have been prepared on going concern basis and on an accrual method of accounting using historical cost convention except for certain financial assets and liabilities, which are measured at fair value at the end of each reporting period as explained in accounting policies below.

2.3 Significant Accounting Judgements, Estimates and Assumptions

The preparation of the Consolidated Financial Statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year.

Accounting estimates could change from period to period. The estimates and judgements used are continuously evaluated by the Group and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Group believes to be reasonable under the existing circumstances. Revision to accounting estimates are recognised prospectively. The management believes that the estimates used in the preparation of Consolidated Financial Statements are prudent and reasonable.

Key sources of estimation of uncertainty at the date of the consolidated financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of: fair valuation of unquoted equity investments, impairment of financial instruments, impairment of property, plant & equipment, useful lives of property, plant & equipment, provisions and contingent liabilities.

2.4 Principle of Consolidation

- (a) The consolidated financial statements have been prepared in accordance with Indian Accounting Standard 110 (Ind AS 110) on "Consolidated Financial Statements" as specified in the Companies (Indian Accounting Standards) Rules, 2015 and on the basis of separate audited financial statements of Libord Finance Limited (LFL) and its associates. Reference in the notes to "Group" shall mean to include LFL and its associates unless otherwise stated.
- (b) Associates are those entities over which the Company has significant influence, but not control or joint control. Investments in associates are accounted for using the equity method and are initially recognised at cost, identifying any goodwill / capital reserve arising at the time of acquisition, and thereafter to recognise the Group's share of post-acquisition profits or losses of the associate in the Consolidated Statement of Profit and Loss, and the Group's share of Other Comprehensive Income of the investee, if applicable, in other comprehensive Income. Dividend received or receivable from associates are recognised as a reduction in the carrying amount of the investment. When the Group's share of losses exceeds the carrying value of the associate, the carrying value is reduced to nil and recognition of further losses is discontinued, except to the extent that the Group has incurred obligations in respect of the associate. The Financial Statements of the Associates used in the consolidation are drawn up to the same reporting date as that of the Company i.e. March 31, 2021.

The list of Companies included in consolidation, relationship with Libord Finance Limited and Libord Finance Limited's shareholding therein as under:

S.No.	Name of the Company	Country of Incorporation	Relationship	Shareholding as at 31.03.2021
1.	Libord Advisors Private Limited	India	Associate	46.29%
2.	Libord Brokerage Private Limited	India	Associate	39.96%

2.5 Significant Accounting Policies

1 Property, Plant and Equipment

Property, plant and equipment are carried at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes purchase price and any cost directly attributable to the bringing the assets to its working condition for its intended use. Depreciation on the property, plant and equipment is provided using straight line method over the useful life of assets as specified in schedule II to the Companies Act, 2013. Depreciation on property, plant and equipment which are added / disposed of during the year, is provided on pro-rata basis with reference to the date of addition / deletion. The assets' residual values, useful lives and method of depreciation are reviewed at each financial year end and are adjusted prospectively, if appropriate.

The estimated useful lives of Property, Plant and Equipment are as stated below:

Property, plant and Equipment	Useful Life
Furniture	8 years
Motor Vehicles	8 years
Office Equipment	5 years
Computer Hardware	3 years

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2 Intangible Assets

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any.

The estimated useful lives of Intangible Assets are as stated below:

Intangible Assets	Useful Life
Computer Software	3 years

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the disposal proceeds and the carrying amount of the asset and are recognised as income or expense in the Statement of Profit and Loss.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in the statement of Profit and Loss when the asset is derecognised.

3 Impairment of Non – Financial Assets

The Group assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. For the purposes of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, the Group estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the Balance Sheet date there is an indication that previously assessed impairment loss no longer exists or may have decreased, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

4 Financial Instruments

Classification

A Financial instrument is any contract that gives rise to a financial asset of one entity and financial liability or equity instruments of another entity.

Financial assets, other than equity, are classified into, financial assets at fair value through other comprehensive income (FVOCI) or fair value through profit and loss account (FVTPL) or at amortised cost. Financial assets that are equity instruments are classified as FVTPL or FVOCI. Financial liabilities are classified as amortised cost category and FVTPL.

Business Model Test/Assessment

An assessment of business model for managing financial assets is fundamental to the classification of a financial asset. The Group determines the business model at a level that reflects how financial assets are managed together to achieve a particular business objective.

The Group's business model does not depend on management's intentions for an individual instrument; therefore, the business model assessment is performed at a higher level of aggregation rather than on an instrument-by-instrument basis.

The Group considers all relevant information and evidence available when making the business model assessment such as the distribution of the financial assets held within the business model is evaluated in relation to the risks associated to its performance and its management. The performance of the financial assets held within that business model are evaluated and reported to the Group's key management personnel.

At initial recognition of a financial asset, the Group determines whether newly recognised financial assets are part of an existing business model or whether they reflect a new business model. The Group reassesses its business model at each reporting period to determine whether the business model has changed since the preceding period.

Initial Recognition

Financial Assets and Financial Liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments. Financial Assets and Financial Liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

Subsequent Measurement

Financial Assets at Amortised Cost

Financial assets having contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding and that are held within a business model whose objective is to hold such assets in order to collect such contractual cash flows are classified in this category. Subsequently these are measured at amortised cost using effective interest method less any impairment losses.

Fair Value through Profit and Loss account

Financial assets are measured at FVTPL unless it is measured at amortised cost or at FVOCI on initial recognition. The transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are immediately recognised in profit or loss.

Fair Value through Other Comprehensive Income (FVOCI)

These include financial assets that are equity instruments as defined in Ind AS 32 "Financial Instruments: Presentation" and are not held for trading and where they are irrevocably designated as Equity instruments at FVOCI upon initial recognition. Subsequently, these are measured at fair value and changes therein are recognised directly in other comprehensive income, net of applicable income taxes.

Gains and losses on these equity instruments are never recycled to profit or loss.

Dividends from these equity investments are recognised in the statement of profit and loss when the right to receive the payment has been established.

Investments in Associates

Investments in associates are carried at cost less accumulated impairment losses, if any as per Ind AS 27. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in associates, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

Debt Instruments at FVOCI

Debt instruments that are measured at FVOCI have contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on principal outstanding and that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. These instruments largely comprise long-term investments made by the Group. FVOCI debt instruments are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in OCI. Interest income and gains and losses are recognised in profit or loss in the same manner as for financial assets measured at amortised cost. On derecognition, cumulative gains or losses previously recognised in OCI are reclassified from OCI to profit or loss.

Financial Liabilities and Equity Instruments

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Other Financial Liabilities

These are measured at amortised cost using effective interest rate.

Derecognition of Financial Assets and Financial Liabilities

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires.

Impairment of Financial Assets

The Group recognizes a loss allowance for expected credit losses on a financial asset that is at amortized cost or fair value through OCI. Loss allowance in respect of financial assets is measured based on historical trend, industry practices and the Business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Reclassification of Financial Assets

The Group does not re-classify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances when the Group changes its business model for managing such financial assets. The Group does not re-classify its financial liabilities.

5 Determination of Fair Value

The Group maintains procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

- i) Fair value of trade receivable, cash and cash equivalents, other bank balances, trade payables, loans, borrowings, deposits and other financial assets and liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.
- ii) The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.
- iii) Fair values of quoted financial instruments are derived from quoted market prices in active markets.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

6 Fair Value Hierarchy

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: Quoted market prices in active markets for identical assets or liabilities.
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

7 Employee Benefits

Defined Benefit Plans: The present value of the obligation under such plan, is determined based on an actuarial valuation using the projected unit Credit Method. Actuarial gains and losses arising on such valuation are recognized immediately in the other comprehensive income. In case of funded defined benefit plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans, to recognize the obligation on net basis.

8 Provisions and Contingent Liabilities

Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

9 Revenue Recognition**Interest Income**

The Company normally gives working capital loans. The rate of interest for the borrower is decided by the Chief Operating Decision maker on the basis of risk appetite and internal rating.

Investment Income

Dividend income from investments is recognised when the Company's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of dividend income can be measured reliably).

Income from interest on deposits and interest-bearing securities is recognized on the time proportionate method taking into account the amount outstanding and the rate applicable.

Income from derivatives / equity trading are accounted on accrual basis.

Consultancy income

The Company raises bills on case to case basis. There is no contractual agreement for the respective parties. The bill is raised as and when services are rendered.

10 Exceptional Items

When items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items is disclosed separately as Exceptional items.

11 Leases

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116 with effective date of April 1, 2019. Identification of a lease requires significant judgment. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option.

In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for portfolio of leases with similar characteristics.

12 Taxes on Income**Current Tax**

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the reporting date in the countries where the Group operates and generates taxable income.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

Current tax assets and liabilities are offset only if, the Group:

- has a legally enforceable right to set off the recognized amounts; and
- intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax is recognized for the future tax consequences of deductible temporary differences between the carrying values of assets and liabilities and their respective tax bases at the reporting date, using the tax rates and laws that are enacted or substantively enacted as on reporting date.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses and credits can be utilized.

Deferred tax assets and liabilities are offset only if:

- Entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- Deferred tax assets and the deferred tax liabilities relate to the income taxes levied by the same taxation authority.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

13 Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

14 Segment Reporting

The Group engaged primarily in the business of financial services and accordingly there are no separate reportable segment dealing with Segment Reporting. The Group's business is not subject to seasonal variation.

15 Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.
