BENGALURU, JULY 06, 2021

ABB India Ltd appoints Kiran Dutt as President of its Electrification business

Kiran Dutt joined ABB in 2004 and has over 25 years' experience. In his new role, Kiran will lead the ABB Electrification business for India, Sri Lanka, and Bangladesh. He will be responsible for growing market coverage and channel penetration and working closely with the broader Electrification Regional Global Markets organization of Asia Pacific & India.

Kiran will take over from CP Vyas, who had been leading the Electrification Business in India since 2016 and was part of ABB India in various capacities for the last 30 years. CP Vyas will move on to take over the new role in Electrification Distribution Solutions Division based at Baden, Switzerland.

Kiran Dutt, in his new role, said: "It's a great honour and a privilege to lead the Electrification business team that is dedicated to transforming how people live, connect, and work by delivering safe, smart, and sustainable electrification solutions. We are shaping the future trends of electrification, differentiating through technological and digital innovation while delivering an outstanding experience through operational excellence for our customers across utilities, industry, buildings, infrastructure and mobility."

ABB (ABBN: SIX Swiss Ex) is a leading global technology company that energizes the transformation of society and industry to achieve a more productive, sustainable future. By connecting software to its electrification, robotics, automation and motion portfolio, ABB pushes the boundaries of technology to drive performance to new levels. With a history of excellence stretching back more than 130 years, ABB's success is driven by about 105,000 talented employees in over 100 countries.

ABB's Electrification Business Area is a global leader in electrical products and solutions, operating in more than 100 countries, with over 200 manufacturing sites. Our 55,000+ employees are dedicated to delivering safe, smart and sustainable electrification. With ABB Ability™ enabled digital solutions at its core, our portfolio protects, connects and optimizes the flow of electrical energy, including the integration of renewables and energy storage for smarter electricity distribution for utilities, industry, infrastructure and transportation.
