TCS Enables Post-Merger Integration of GE Transportation into Wabtec

Tata Consultancy Services Helped Transform and Integrate the ERP Systems, Move Critical Remote Monitoring Systems to the Cloud, and Set the Stage for Unlocking Business Synergies from the Merger

NEW YORK | MUMBAI, August 02, 2021: [Tata Consultancy Services \(TCS\)](#) (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, announced that it has helped Wabtec Corporation successfully complete the complex post-merger integration of GE Transportation's core systems within the stipulated time, in the midst of the global pandemic, setting the stage for unlocking the business synergies arising from the merger. The integration also resulted in a future-ready digital core for Wabtec's freight and rail business, and a playbook for future mergers and acquisitions.

Having been a strategic partner for GE Transportation for many years, TCS was involved in the pre-merger planning around the separation of its core systems from the parent. Once the merger was announced in 2019, TCS helped map out the interrelationships and dependencies leveraging its deep contextual knowledge of GE Transportation's business and technology landscape. It conducted design thinking workshops with stakeholders across 13 countries, to map out to create a detailed blueprint covering more than 100 business functions, for integrating GE Transportation's operations and systems into Wabtec's ecosystem.

TCS used its Digital Melting Pot framework to consolidate GE Transportation's ERP estate onto one core instance, harmonizing processes and decommissioning the legacy mainframe-based system. This resulted in a single source of truth across the enterprise, enabling better planning and faster decision-making. This transformation also eased the subsequent integration of the consolidated core ERP instance, involving 130 legal entities, along with the entire business intelligence infrastructure consisting of 14,000 reports, 10,000 underlying ETL jobs and applications, data warehouses and associated databases into the Wabtec IT landscape.

TCS also helped create a future-ready digital core by migrating GE Transportation's mission-critical remote monitoring and diagnostic applications that keep track of the health of over 23,000 locomotives in the field, onto the AWS cloud, ensuring high availability and accelerating its software release cycles by automating 100% of its DevOps. This platform, when extended to Wabtec's passenger and shunter locomotives, is expected to help drive a smarter, more efficient and safer transportation system.

Additionally, TCS' Consulting and Service Integration practice carried out a finance transformation, resulting in a 30 percent improvement in productivity metrics, and laying the foundation for an operating model transformation across Wabtec's finance operations.

"This merger with GE Transportation helps Wabtec become a technologically advanced global transportation and logistics leader with the integration of a highly complementary set of capabilities that enable us to accelerate the future of transportation," said **Richard Smith, Chief Information Officer, Wabtec**. *"TCS' strong understanding of our business and innovative approach helped in building a digital core which paves the way for our growth and transformation journey."*

"We are very proud to partner with Wabtec in harnessing our collective contextual knowledge and helping integrate GE Transportation's core systems within the stipulated timeline with zero disruption to business. The new digital core will help unlock business synergies from the merger and unleash digital technology capabilities that will transform the transportation and logistics sector," said **Anupam Singhal, Senior Vice President, TCS**.

About Tata Consultancy Services

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 500,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US \$22.2 billion in the fiscal year ended March 31, 2021, and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the MSCI Global Sustainability Index and the FTSE4Good Emerging Index. About Wabtec

Wabtec Corporation is a leading global provider of equipment, systems, digital solutions and value-added services for freight and transit rail. Drawing on nearly four centuries of collective experience across Wabtec, GE Transportation and Faiveley Transport, the company has unmatched digital expertise, technological innovation, and world-class manufacturing and services, enabling the digital-rail-and-transit ecosystems. Wabtec is focused on performance that drives progress, creating transportation solutions that move and improve the world. The freight portfolio features a comprehensive line of locomotives, software applications and a broad selection of mission-critical controls systems, including Positive Train Control (PTC). The transit portfolio provides highly engineered systems and services to virtually every major rail transit system around the world, supplying an integrated series of components for buses and all train-related market segments that deliver safety, efficiency and passenger comfort. Along with its industry-leading portfolio of products and solutions for the rail and transit industries, Wabtec is a leader in mining, marine and industrial solutions. Wabtec has approximately 27,000 employees in facilities throughout the world. Visit the company's new website at: www.WabtecCorp.com.
